Speaking of Jesus Christ, I want to further remind the good doc-

tor that this circumsized Jew (for whose existence there is no historical evidence) also rendered some extremely bad, suicidal advice to the goyim, namely (a) sell all thou hast and give it to the niggers, (b) love your enemies, (c) turn the other cheek, (d) judge not, (e) pluck out thine eye, (f) cut off thine hand. There is more — need I go on?

So much for ego-maniacs. No hard feelings, doc. Just the facts, ma'am.

(b) We now come to the doctors' accusation that "people like us" are giving the conservatives and the right-wing a bad name. There are a number of muddled implications in this accusation, but I want to straighten out at least two of them. (1) Our church (and any other groups for that matter) may have a number of characteristics in common with a thousand other different groups, depending on what criteria you choose to select. We may even have some characteristics "in common" with our enemies, if you pick the right criteria. For instance we, are a religion, as is Christianity. We are a racial religion, as is Judaism. We are for keeping our guns, as is the APRA. We are for the White Race, as is the Klan, and as are the Nazis, as is Tom Metzger of the White American Resistance, as is George Dietz of the Liberty Bell, as is the NSRP, as is Aryan Nations in Idaho, and hundreds of other groups and organizations.

However, we are unique and not the same as any of them. For instance, in *Expanding Creativity, Issue No. 4* we list eight (count them — eight!) fundamental differences between us and Hitler's National Socialist Party. Whereas I greatly admire Adolf Hitler, our creed and program is NOT the same, nor is it the same as any other group. We are, I repeat, unique — a White Racial religion such as the White Race has never had before in its history. So please, doc, don't lump us.

(2) The second point is that we are neither right-wing, nor conservative and have consistently denounced both groups as ineffective relics of a dead past, completely out of touch with reality. *The key article in this Issue of this book entitled "Our Race is Our Religion" expounds this fully, therefore I need not repeat it here.*

Since we are no part of the right-wing or conservative movement, it is impossible that we could be giving these archaic holdovers a bad name. **Any bad name they have they have earned on their own hook, and richly deserve.**

(c) Regarding APRA not subscribing to "hate" literature, this is rather a silly cliche for which the Jews and Christians are notorious. There is nobody that "hates" more intensively than do the Jews and the Christians and the Old Testament is full of the Jewish Yahweh impelling his "Chosen" to lay siege to the goyim's lands and cities in the name of friendship and "peace" (shalom) and if they resist to

kill every living thing that breathes. (Read again Chapters 10, 11 & 12 of **NATURE'S ETERNAL RELIGION**). The Christians, in turn, when they had unchallenged power, used the Thumbscrew and Rack, not to mention burning at the stake, to lovingly "convince" their enemies. (Read again **Creative Credo No. 51 "Thumbscrew and Rack"** in the **WHITE MAN'S BIBLE**). So please, don't pull this phoney ploy about us being the haters. Actually the overwhelm-ing motivation of the **Church Of The Creator** is love of the White Race, and to save it from genocide by the most vicious haters of all time — the treacherous Jews, whose very religion is based on hate.

What you and the Jews are really telling us, doc, is this: Hate your own kind, but love the Jews and your other enemies!

Frankly, we Creators are not that stupid and I hope you are not either.

(d) Dr. Grady says he is trying to save what is left of Christian Society. Really? What for and for whom? I ask this question in the same vein as I asked the Mormons about "saving" the so-called seven Polynesian "cultures" in their center in Hawaii — are they worth sav-ing, and if so for whom? Is Christianity, after its repeated failure to improve "humanity" over the last 2000 years and its dire consequences to the White Race — is it worth saving? We Creators res-pond with a loud and emphatic no, it is not. It is a Jewish disease inflicted on the minds of the White Race and has been instrumental in bringing down, first of all, the great Roman Empire, in ushering in 1300 years of the Dark Ages, in making Jewish Communism possi-ble, and in the end, the violent destruction of Nature's Finest.

Save what is left of Christianity? You might as well be dedicated to saving cancer, leprosy and syphilis. They are all deadly poisons to the White Race. Let me point out that if the White Race is destroyed and this country is inhabited by wall to wall niggers, Voodooism, not Christianity will be the religion of the realm.

(e) Dr. Grady's goal of preserving the Constitution for those who may follow is so they can enjoy the same opportunities we have enjoyed.

Since I have already covered this subject in the lead article star-ting on Page 1, I need not go over this ground again. I will add three points of emphasis:

(1) The Constitution has now been converted into a powerful tool used to violently force integration on the White Race with the nig-gers and other mud races, and:

(2) When and if the Jews achieve their long sought goal of wip-ing out the White Race both Christianity and the Constitution will go down the drain with it.

(3) We are not now "enjoying opportunities" under the Constitu-

tion. Constitution or no Constitution, we are now under the tyrannical heel of a Jewish Occupational Government (JOG), as is Germany, as is England, as is Russia, and every other country in the world. **The White taxpayer of America in particular is being plundered on a scale as has no other group in history before. We are now helping to support and feed all the scum and mud races of the world, whose numbers are exploding at a frightening rate. Through the strong-armed goon squad called the IRS we are forced to fork over the major proceeds of our earnings which further go to reinforce and expand the Jewish power structure that is strangling us.**

Those who resist are selectively and ruthlessly gunned down by a Jew-organized team of FBI-CIA and SWAT agents, as was Robert Mathews.

Opportunities for our children? Unless, we the White Race, organize ourselves for our own survival, our descendants have no future. They will be mongrelized mulattoes, living in a country infested by wall to wall niggers, ruled by an ironclad Jewish Tyranny.

(f) We now come to the sorest point of all, the one on which the doctor is most sensitive and is running scared. That point is the **major hoax that "medicine" heals**, a claim that has been overwhelmingly discredited, and not supported by either empirical nor scientific evidence. Like the Christianity hoax, it is a fictitious concept, a concept that has been around more than 3000 years. It is a dogma which has been indoctrinated to the gullible, and has proved to be a powerful tool in extracting huge sums of money from its hapless victims.

Unfortunately, it took the first 50 years of my life before I became aware of what a cruel hoax was Jewish-Christianity. It took another eleven years before I looked more deeply into the erroneous assumption that "medicines" are cures for human ailments.

Needless to say that once alerted, as in the Christianity hoax, the evidence was overwhelming that the basic premise of medicine, the basic dogma of the AMA, that medicines can cure, is a fraudulent hoax.

The fact is that "Medicines" are drugs, are chemicals, are poisons, all toxic to the human body. They are alien substances that poison an already ailing body further, compound the problem, and often kill.

True, some pills can suppress pain. Aspirin can, so can heroin, so can chloroform. If you drink a bottle of booze that, too, will help you to feel no pain. It might even kill you and "cure" your pain forever. But do they cure the cause? No, they do not. Basically, all they do is suppress the symptoms, give "temporary relief" as the hype on the electronic Jew tube keeps repeating in a hundred commer-

cials a day. **But they do not cure the cause. They exacerbate and compound it.**

Since the literature on this subject is voluminous, it is not necessary for me to review it here. I have already covered it thoroughly in *Creative Credo Nos. 4 to 12* in the **WHITE MAN'S BIBLE**. Arnold De Vries has treated it much more thoroughly in 21 chapters of our book, **SALUBRIOUS LIVING**. Mr. T.C. Fry has two articles on the subject in the May Issue of our monthly periodical "Racial Loyalty." His *HEALTHFUL LIVING* magazine has volumes of information available every month. Dr. Herbert Shelton, who died just recently at the age of 90, has written reams of material on it for more than half a century.

Rather than review such volumes of information let me briefly point out some basic parameters.

1. Doctors themselves, because they partake of their own "medicine" are some of the best paid, but sickest people in the country. A greater percentage of doctors become drug addicts, commit suicide, die of heart attacks, than does the average citizen who seldom goes near a doctor.

2. Forty per cent of all illnesses and deaths in the United States are reported to be Iatrogenic — that is because of treatment dispensed in a hospital or by a doctor.

3. When doctors went on strike in Canada for a period of time, the death rate fell sharply and the undertakers complained. The same thing happened when the doctors went on strike in Israel, and also in Los Angeles.

4. Medical and "health care" expenses are going up even more rapidly than the population explosion of the mud races.

5. The average M.D. doesn't know beans about nutrition and proper diet, and usually dismisses the subject as of little importance.

6. The hierarchy of the AMA is heavily dominated by Jews.

There is much more, and I have already indicated where you may delve deeper into this hoax. Let me admit that I will not change Dr. Grady's attitude on the drug pushing racket. What can he do but continue? His income, his lifestyle and his prestige depend on sticking with it, whether he believes in it or not, and he probably does. Like the drug pusher in Miami says, "Vere else could I make such a killing?"

Actually, there is little or no difference between "legitimate" prescription drugs and the "illegitimate" drugs peddled by drug pushers, as far as their toxic effect on the human body. **They are all toxic, all are poisons.** The fact that the AMA arbitrarily rules one as legitimate and another illegitimate makes no difference to the human system.

Just as the Federal Reserve can arbitrarily designate our counterfeit bills as "legal tender" so can the powerful Jew dominated AMA rule any drug "legitimate" as they see fit, though it may cause untold misery to millions.

If Dr. Grady keeps getting messages from thousands of "nuts" like us trying to tell him there is something wrong with the state of medicine, perhaps he had better pay heed. They probably have a valid point.

All the foregoing would only be so much background, and I would never have bothered to write this article at all, if that were the whole story about Dr. John Grady, M. D. But I have a long memory for treachery against the White Race and such acts of betrayal. We Creators neither forget nor forgive. We now come to the GRAVAMEN, the accusation that weighs most heavily against the doctor, a perfidy against the White Race that was perpetrated more than 10 years ago.

In 1974, Jack Eckerd, a White Protestant drugstore tycoon, ran for the United States Senate from the State of Florida, on the Republican Party ticket. Pitted against him was Richard Stone, a militant, liberal, pro-Zionist, pro-Israel Jew, running on the Democratic Party ticket. This was at a time when Richard Nixon had won his second term in one of the biggest Republican landslide victories of all time in 1972, and the Jewish Watergate onslaught had not yet reached its crescendo.

Jack Eckerd had a better than even chance of winning. In fact, his chances were excellent. Into this fray jumped our Kosher Conservative doctor, John Grady, who was at that time residing in Okeechobee County of Florida. He ran on the American Independent Party ticket, the same party of which I myself was State Chairman in 1968, and resigned from in 1969 when I became acutely aware of the fact that George Wallace was selling the White Race down the river.

Jack Eckerd was one of the few candidates of a national stature that had the guts to list his qualifications against that of his Jewish opponent, and in the two columns appeared the category RELIGION. He factually listed himself as Protestant, his opponent as Jewish.

This was an absolute no-no, as far as the Jewish establishment was concerned, and all hell broke loose. The ADL, the AJC and all the other Jewish organizations screamed to high heaven (Anti-Semitism!) and even threatened to cut off his trade credits against his drugstore chain. Unfortunately, under all this pressure Jack Eckerd capitulated, and in a series of massive newspaper ads apologized for his unrequitable sin.

But that is another story.

The statistics of the election show that it was very close, that

Jack Eckerd would have won handily, had it not been for the spoiler, Kosher Konservative Dr. John Grady entering the race. The results were as follows:

Dem. Richard Stone
781,031 votes, or 43.4 %

Rep. Jack Eckerd
736,674 votes, or 40.9 %

A.I.P. Dr. John Grady
282,659 votes, or 15.7 %

Richard Stone, the Jew, attracted the liberal vote of Jews, niggers and the White Liberals. The conservative vote on the other hand was now split between conservative Republican Jack Eckerd and conservative A.I.P. candidate John Grady. It is therefore obvious that the overwhelming votes Dr. Grady syphoned off were at the expense of White Protestant Jack Eckerd.

Had Grady not run, obviously Jack Eckerd would have served in the U.S. Senate for the next six years, (and probably a second term) instead of liberal Zionist Jew Richard Stone. **I charge Dr. John Grady of being instrumental in putting Jew Richard Stone in the Senate.**

So the question remains: Why did Dr. Grady enter the race as a spoiler? Obviously, he did not have the chance of a snowball in hell of winning, as his 15.7 per cent clearly indicated.

Was he not aware of the consequences of his spoiler role? Who put him up to it? Was he fully aware and deliberately entered in order to help Stone win a race he would otherwise not have won? Did the John Birch Society (who has always been pro-Jewish) engineer the campaign? Did the Jews inveigle Grady to run and offer financial support?

In any case, he can hardly plead innocence on the grounds “I didn’t know the gun was loaded.” He is much too intelligent not to have foreseen the consequences.

Now I am not a mind reader and cannot portend a man’s intent. However, we can and do read the consequences, and the fact is that Dr. John Grady, M.D., wittingly or unwittingly put Richard Stone in the U. S. Senate for six years by launching his own otherwise pointless and abortive campaign. If so, he committed treachery and treason against the White Race and I wonder out loud how much Jewish money and influence was instrumental in getting him to run and finance his campaign? How much White “conservative” money went down the rathole in supporting this classic textbook example of the Jewish tactic of divide and conquer?

We will never know for sure, but I am not willing to give Dr. Grady the benefit of the doubt. For anybody that understands the treachery of Jewish tactics, this case fits the pattern too glibly, and

too obviously, also, the results accrued overwhelmingly to the benefits of the Jewish power establishment. With such preponderance of evidence, it is hard to ignore the conclusion that deliberate skullduggery was involved, and the campaign planned to achieve the results it did.

Issue No. 25, June 1985

We have the Means

AROUSE THE SLUMBER-ING GIANT

Informed, Aroused and Organized, the White Race is overwhelmingly the most Powerful Force on the face of the earth.

Back in 1726 Jonathan Swift wrote a political satire on the morals and manners of his time. It was called *Gulliver's Travels*, and although the political message itself was lost on most of its readers, it has engendered a special appeal that has lasted for nearly 250 years, and undoubtedly will remain a classic for years to come.

There are several parts to the story of *Gulliver's Travels*, but we want to focus mainly on the first part, where Gulliver, an English sailor, is shipwrecked, washed ashore on an island called Lilliput, a land inhabited by little people less than six inches tall.

Although written nearly two and a half centuries ago, the moral of the story is more applicable to the plight of the White Man today than it was to the average Englishman at the time Jonathan Swift wrote his classic.

The story begins with Gulliver aboard the *Antelope* on a voyage to the East Indies in 1699, when the ship was engulfed in a fierce storm northwest of Van Diemen's Land. The ship was driven on a rock and foundered.

Many hours later Gulliver finally managed to reach the shores of the island in our story, but none of his companions evidently survived. When Gulliver finally reached shore he was extremely exhausted from the ordeal. He pulled himself up on the beach and immediately fell into a deep sleep that lasted more than nine hours.

When he woke up he found he was lying on his back, and completely unable to move. Strange little creatures were buzzing all around him, walking all over his body and all in a great state of excitement.

These little creatures, the Lilliputians, had tied him down with thousands of tiny strings, any one of which he would have been able to break with ease, but because of the massive numbers fastening down his limbs, body and head, he was now unable to move.

I am not sure what political message Swift had in mind for the Englishmen of 1726, but the story more nearly describes the position the White Man finds himself in today, and how, while in a state of slumbering subconsciousness, he has allowed the inferior parasitic Jew to tie him down hand and foot.

There is a further development in the story of Gulliver that reflects on the White Race of today. When Gulliver finally wrenched loose his left arm and also the pegs that tied down his hair, the Lilliputians unleashed a swarm of arrows at his arm and face.

This persuaded Gulliver to lie still, and when the leader approached him with a long oration, Gulliver signalled that he needed food and drink by repeatedly pointing at his mouth. This the little people supplied him with, including two of their miniature hogsheads of wine, which contained a sleeping potion.

This induced him to sleep another eight hours, during which time the busy little Lilliputians had hoisted him onto a machine with twenty-two wheels, seven feet long, and three inches off the ground. He was again thoroughly tied down and ready to be carted off to their capitol city.

The White Man has repeatedly found himself in a similar dilemma. Although he has the strength, the numbers, the intellect to beat the hell out of his inferior enemy, the Jew, he has through some spiritual quirk, some defect of character, repeatedly allowed himself to be tied down helplessly by thousands of Jewish strings.

Most of these strings have been invisible inhibitions, mental hang-ups, strange cobwebs of the mind. They have, in short, been self-imposed handicaps, strings that he could easily smash if he were of a will to do so. (Read again Self-Imposed Handicaps, in Issue No. 6 of Expanding Creativity.)

It is our objective to catalogue these suicidal quirks, these idiotic mental hang-ups, to analyze them, and bring them to the light of day. Having done so, it is our further objective to defuse them, neutralize them, and to straighten out the White Man's thinking. Once we have accomplished that much, the rest is easy. We then want to arouse the White Man to militant action, to break the Jewish ties that bind him and again wrest control of his own destiny back into the hands of the White Race.

We have the power to do so. (Read again Issue No. 9 in Expanding Creativity, "We are not Helpless.")

THE TIES THAT BIND US ARE FETTERS OF THE MIND.

Just as Gulliver was tied down by thousands of strings, no one of which alone would have held him, so there are thousands of mental fetters that tie down and immobilize the White Man. But let us list only the major impediments:

By far the most destructive mind boggler with which our enemy

has drugged the White race for the last 18 centuries is religion. It is Jewish Christianity that has been (and still is) the key to the White Man's debility and has paralyzed his mind to submit to the multiple outrages the Jew has inflicted upon him.

It is **THE** major mind bender, but it has many offshoots, and is not the only hang-up with which the Jew has saddled us. For the record, let us make a random listing of some of these stupid mental fetters, and not necessarily in order of importance.

1. We are all God's children and all equal in the eyes of the Lord.
2. There are spooks in the skies watching our every move, looking over our shoulders and taking notes. When we die we are going to be held responsible for our every action, our every word, and it will all be thrown back in our face.
3. We are going to be punished when we die for every "wrong" we committed.
4. That punishment is of the utmost horror — burning in hell, forever and ever.
5. We must love our enemies; we must turn the other cheek.
6. If we work hard, keep our nose to the grindstone, save our money and are successful, we should feel guilty, because we were just more "fortunate" than the other fellow.
7. We should feel guilty for all the stupid, irresponsible scum in the world that are going hungry. They were merely "less fortunate," and it is our duty to feed them.
8. We must not judge other people lest we be judged. (What a joke!)
9. All races are equal, some just (a) got started later (b) were underprivileged (c) held back by the White Race (d) weren't given the same opportunity.
10. All races are equal, but the Jews are more equal than anybody, and really superior.
11. We are equal in the eyes of the Lord, but the Jews are God's Chosen.
12. The niggers are not only our equal, but really superior in sports.
13. The niggers are financially poorer than the White people only because they have been discriminated against.
14. Because the niggers have been "held back," we should now compensate for our guilt by granting them special preferences in jobs, especially in the government. This is called "Affirmative Action."
15. We owe the whole world a living, and since we are more fortunate, we owe 126 countries subsidies and foreign aid from here to eternity.
16. Israel is a special ally, our only bulwark in the Middle East, the only democracy in the Middle East, our staunch ally (who vicious-

ly attacked our billion dollar intelligence gathering ship, the U.S.S. LIBERTY in 1967, killing 32 U.S. sailors).

17. We must "shore up" Israel's defenses at the expense of our own, even if it strips our own defense mechanism to the bone.

18. Israel, above all, must be subsidized by the American taxpayer to the tune of at least $10,000 per Jew family a year, with a rapid escalation each succeeding year.

19. Above all, we must support and kow-tow to Israel because they are God's Chosen people, and God will punish us if we don't, (says Jerry Falwell and his ilk).

20. The Federal Reserve is a government agency, not a Jewish counterfeit ring.

21. When the Federal Reserve puts green ink on a piece of paper it immediately becomes extremely valuable, as if by magic.

22. Our multi-trillion dollar debts are really only owed to ourselves.

Above are 22 idiotic mental hang-ups that tie our hands. They are all lies, and at best, fictitious concepts that have been planted in our minds. But they have been slopped on our minds so repeatedly that our thinking is impaired, our mind is clogged.

Who planted them? Well, the same scurrilous gang that gave us Christianity — the tribe of Judah. It is they who have us hog-tied and are inducing us to be willingly immobilized, victimized, slandered, robbed and enslaved. They are the beneficiaries, we are the deluded victims.

But there is hope, and there is a way out. What misconceptions can be implanted in our minds by means of a heavy dose of propaganda, can also be undone by counter propaganda and enlightenment. We are not helpless. We have the means, we have the resources, the power, the numbers and the intelligence.

Now that CREATIVITY has given the White Race an entirely new perspective on life, on race and on our reason for existence, we have the weapons with which to do the job. We now know not only what must be done, but we now know how to do it.

What is it we must do? It's very simple. We must now build a massive power structure with which we can smash the Jewish swindle and wipe it from off the face of the earth. We must propagandize, proselytize, organize. We must build our own conveyor belt of information and propaganda. We must face reality, build our own civilization and culture on a solid foundation. This foundation must be based on the Eternal Laws of Nature, as our pagan ancestors had started to do in the days of the ancient Greeks and Romans. (Read again Marcus Eli Ravages's article, Creative Credo No. 43 "Confessions of a Jew" on P. 286 of the White Man's Bible.)

We must bring the White Race back to its senses and utilize the

massive power that is inherently ours to wield. We now have the creed, we have the program, and we have the means. Let us rally round our own racial religion and realize the awesome might that is ours and utilize it to our own benefit. Nature endowed us with many very special gifts. Nature also has told us we have the unrestricted right (yes, duty!) to utilize them to the hilt — for our own survival, for our own benefit. Let us get busy and do just that.

Like the giant Gulliver, for too long we have been asleep at the switch, allowing the inferior little parasites of the world to tie our minds with thousands of paralyzing lies. It is time for the White Giant to rouse himself, shake the cobwebs from off his brain, untie his mighty hands and again take control of his own destiny and the world.

We deserve it. We are worth it. We are, in fact, the only race that can again restore a dying planet back to health and sanity.

JUDAISM

When Golda Meir was Prime Minister of the bandit state of Israel in the late '60's, she unabashedly proclaimed to the Israeli Knesset in Yiddish, "I am a non-believer, yet no one will be able to root from my heart and mind the conviction that without the Jewish religion (Judaism) we would have been like all other nations, who once existed and disappeared."

From the Prime Minister of a nation of congenital liars, this statement was an exception to the rule. She not only made an astute observation of history, but for once, she spoke the truth, and she spoke her innermost, cherished convictions, a conviction that is clung to by the overwhelming majority of Jews. **To the Jews, their race IS their religion**, and conversely, the survival, expansion and advancement of their race is solidly based on their deceitful religion. Without it they would have been nothing, not even a jot in history. This is further confirmed by the Jew, Marcus Eli Ravage, whose article appeared in the February, 1928 issue of "Century Magazine," which we reproduce in full in (*The White Man's Bible* on P. 286). He tells the story of their religion more explicitly and the powerful role Jewish Christianity has played in their conquest of the world.

With their Judaic religion, however, they have in the last two thousand years directed the course of human history, controlled, fleeced and pirated not only nations, but whole civilizations and become the scourge of mankind. Today they are not only a threat to civilization, but well on their way towards wiping out Nature's Finest species, the White Race itself, and mongrelizing and enslaving all of mankind.

Where and when did Judaism have its beginnings?

The answers to both these questions — the where and the when — are vague, and lost in the myths and mists of ancient history. The Jews themselves have never bothered to accurately trace their earliest beginnings. Being Masters of Deceit they instead indulged in such mythical fairy tales as the story of Abraham, Isaac and Jacob, a bizarre story that would actually be a disgrace to any other people and has absolutely no basis in historical fact. (Read again Chapter No. 10, Book I, of *Nature's Eternal Religion*, "The Old Testament.") In evaluating the deceitful nature of the beast, I cannot help coming to the same conclusion as I do about the Christians' story of Christ and that is this: There is not a scintilla of historical evidence that

there ever were any Jewish characters such as Jesus Christ, Abraham, Isaac, Jacob, or even Moses, for that matter. All we have is an immense collection of confused, helter-skelter propaganda dumped on us like a load of manure, but little else. Since their stories are so outrageously bizarre, only the most naive yokel could swallow such idiotic tall tales.

What we can piece together is that the Jews originated as a band of cutthroats and thieves somewhere in the Middle East around Palestine, which, from the dawn of history, has been the crossroads of the trade caravans. Here they developed their early cohesiveness and tribal loyalty, which later they had the shrewd foresight to weld into a racial religion. As with all thieves and gangsters, this loyalty and cohesiveness was based on fear, on a need for self-preservation and a common danger from their enemies.

Since an outlaw gang is despised, feared and hated by just about everybody, anybody that was not part of the exclusive criminal brotherhood was their enemy. In short, the whole world was their enemy, to be deceived, robbed, subjugated and/or destroyed.

This then became the basis of the Jewish religion — fear and hatred, with the whole world as their common enemy.

As sinister as this may seem upon which to found a religion, strangely it has survived for the last 5000 years or so. In the meantime, through the process of culling and evolution, these criminal instincts have become sharper, more deadly, and much more effective. They also became efficiently organized on a worldwide basis as has no other religion on the face of the earth. **They are now the only force in today's civilization, a force that controls the world's governments, finances, culture (or the degeneration thereof), education, what "news" is broadcast and what is suppressed.** They now manipulate not only nations, but whole races (such as the White Race) as effectively as any rancher manipulates his cows or sheep. In fact, the Jews themselves refer to all non-Jews of the world as goy or goyim, which is a derogatory term meaning cattle.

One of the greatest accomplishments of the Jews is the fact that they have fashioned a religion that has proved to be completely in tune with their innately parasitic nature, and consequently, tremendously effective in enhancing those characteristics with which Nature has endowed them. They are, in the true sense of the word, a parasite and their religion has enabled them to develop and exercise this parasitic trait to its highest degree.

As parasites the Jews have been around a long time. The Jews are not creative in any sense of the word, but have had the cunning to observe, to copy and to adapt any useful customs, practices, or religious rituals from those nations and civilizations into whose vitals they bored. And this includes most of the great White civilizations

of history. But the Jews are more than just a parasite. They have also had the effects of a consuming cancer on those nations they infiltrated and infected, and they have maimed and/or destroyed every nation they have surreptitiously invaded. This includes practically the entire roster of the great White civilizations of history. Starting with Egypt, they infested Babylonia, Persia, Greece, Rome, not to mention a number of non-White nations like India, and a number of the Moslem nations. From Rome they spread out along the trade routes of the conquering Roman armies until they infested and infected every formerly pagan White nation in Europe. With the spread of Christianity (a Jewish concoction and an offshoot of Judaism) they were quick to seize control of the White Man's finances, commerce, religion and government in the then developing White nations of Europe. They have held that control ever since.

I have said that the Jews were not creative as such, but that they did have a knack of adapting anything useful for their own benefit from their host nations. From no other nation did they learn as much as the first great White nation they helped mongrelize, namely the Egyptians.

In fact, every facet and fictitious concept that structured their parasitic religion was originally conceived by the Egyptians. This includes a long list of which the following ideas are the main building blocks: (a) the idea of a "soul" (b) the idea of "eternal life" (c) the idea of "gods," both good and evil (d) the idea of "one god" (Ikhnaton) (e) the idea of offerings and supplications to appease the god or gods (f) the idea of baptism (purification by ablution) (g) the idea of building grandiose temples to supplicate and honor their gods (h) circumcision of the infants, and a number of other beliefs, customs and rituals, including vague ideas of heaven and hell.

In fact, it was during their lengthy stay in Egypt that the Jewish religion was fully incubated and took a structured form.

How many Jews are there in the world? The Jews claim (to the goyim) that there are only approximately 20 million or so. But this figure is completely meaningless, for two reasons (a) the Jews are congenital liars, and (b) unlike Christians, Mohammedans, Mormons, etc., the Jews have historically suppressed any count of their own numbers and made that suppression an integral part of their religion. This they have done to confuse and at the same time allay the fears of the goyim that they are (ha! ha!) only a small group of religious people, and no threat to anybody. Whether they secretly have a true count of their numbers, I can only surmise, and since they are so thorough in their study and control of demography, I am sure they not only have an accurate count of their own total numbers, but also where each is distributed and located. What that total number is I can only guess, and in comparison to the now total world

population of 5.3 billion, it is comparatively small. But I am sure it is not 20 million. My guess is that it is more in the range of 80 million, but until such time as the White Man again regains control of his own destiny and statistics, we can only guess. From that time on, however, we can also be sure that their numbers will dwindle rapidly. Since they are a parasitic race, we will let Nature take its course and let them wither on the vine as rapidly as possible.

On the positive side we of The Church Of The Creator will give the Jews credit on several counts. (a) Although they are anti-Nature in their outlook and life-style, they have most faithfully obeyed one of Nature's basic laws — the survival of their own species comes first. (b) They practice Racial Loyalty with a fanaticism as has no other race in history. (c) They are tenacious to a degree no other people can equal. Their patience, persistence and perseverance in the interest of their race is unmatched by any other people and has enabled them to endure all these thousands of years. (d) They have developed the practice of racial teamwork to a fine art. (e) They are pragmatic and realists.

On the negative side, the Jews are (a) The number one human parasite. They are uncreative, uncultured, and could build neither a nation, a state nor a civilization if left to themselves. Like a flea or a maggot, they are condemned by Nature to subsist on the body of another people, a race that is productive, especially such as the White Race. (b) Being non-productive, they are culture destroyers, and like a cancer, devour those host nations and peoples whose vitals they bore into. (c) They are cruel, vicious, treacherous, perfidious and deceitful. They are the world's greatest liars and the master sneaks of all time. (d) They are, in fact, the scourge of mankind, and the most deadly enemy the White Race has ever faced, and are still the most dangerous menace we are saddled with today.

Nevertheless, be that as it may, we of The Church Of The Creator have learned an overwhelming lesson from the history of the Jews and it is this: Religion is a powerful weapon for the survival of a race, and a racial religion properly matched to its adherents, is unbeatable.

Unfortunately, until now the White Race has never had such a religion. The Ancient religions of the classical White civilizations such as the Egyptians, the Greeks and the Romans, were at best innocuous superstitions that had absolutely no racial values as such and did nothing to either protect or preserve the race. In fact, such religions as the Egyptians had were so deeply engrossed in supplicating and serving fictitious spooks that most of the time, energy and resources of these people were poured down a bottomless rathole building temples, statues and pyramids in honor of their gods or their god's stand-ins, the Pharaohs.

Then in the first century, C.E., the Jews conceived the brilliant idea of foisting a suicidal religion on the great Roman civilization and the White Race as a whole. Their overwhelming success is chronicled in Creative Credo No. 43 of the White Man's Bible and there is no need to repeat it here.

Suffice it to say that the White Race as a result of this Jewish poison is now a dying species and the need for drastic action is now urgent and imperative. The answer to the Jewish poison is **CREATIVITY** and the need is to convince our **White Racial Comrades that it is the answer the White Man has needed for his own survival since the days of the Ancient Egyptians.**

JUDAISM VS. CREATIVITY — A COMPARISON

In order to reinforce such convictions we offer a comparison between Judaism and Creativity.

Foundation of belief.

(a) JUDAISM is founded on the story that the Jews are the racial and tribal descendants of Abraham, Isaac and Jacob; that "God" (a fictitious concept derived from the Egyptians) chose them as a favored, special race above all others. It is this concept that they are "God's Chosen" that has done more to propel the Jews forward through history and persist than perhaps any other single fictitious concept in their religion.

(b) CREATIVITY is based on the Eternal Laws of Nature; on the experience of history, on logic and common sense. We believe that the White Race is Nature's finest and greatest achievement, and that Nature has endowed the White Race with a greater abundance of intelligence and creativity than any other people. The White Race also is unmatched in its ability to create culture and civilization; to organize and govern itself; it is unmatched in the faculties of science, technology, architecture, art, music and literature, and any number of other civilized and cultural pursuits. Whereas the Jews proclaim they are "God's Chosen," a fictitious concept, we believe we are Nature's Finest, for the good reason that the evidence is overwhelming.

Books that form the Basis of Religious Beliefs.

(a) The Judaic religion is based on a number of basic books. Listing them in chronological order they are: **(1) The Old Testament (2) The Talmud (3) Karl Marx's Communist Manifesto and Das Kapital and (4) The Protocols of the Learned Elders of Zion.**

Of all these, the Talmud is their holiest of all books. In nitpick-

ing form it covers and circumscribes just about every aspect of Jewish life, including law, custom, religion, and every other detail. (See Chapter 9, Book I of **NATURE'S ETERNAL RELIGION** "Five Basic Books").

The Basic Books of Creativity are Nature's Eternal Religion, The White Man's Bible and Salubrious Living.

These books not only give the White Race goals and direction for its own survival, expansion and advancement but a creed and philosophy to live by and prosper for the next million years. Since they have been amply described in all our previous literature, there is no need to do so here.

(a) The Jews are inherently parasitic and their Judaic religion strives to enable the Jews to live off of the productive peoples of the world, mainly the White Race. The ultimate goal as set forth in The Talmud is to undermine all the goy, to downbreed them, to mongrelize them, and enslave them, with every Jew a king and every goyim their stupid servant. Their further goal is for the Jews to ac-crue all the gold, money and wealth of the world unto themselves and have the stupid brown mongrels as their servants and slaves.

(b) The goals of CREATIVITY are manifold: (1) The survival, expan-sion and advancement of the White Race exclusively. (2) To get the parasitic Jews and other freeloading mud peoples off our back and let them shift for themselves. (3) Since the Jews and other mud peoples can neither feed themselves nor compete with an enlighten-ed White Race, their numbers will shrivel and eventually wither on the vine. (4) By practicing Eugenics, to upgrade the gene pool of the White Race. (5) Rebuild the land and environment of the Planet Earth. (6) For the White Race to finally inhabit this planet exclusively. (7) And in general, to build a Whiter and Brighter World.

CONCLUSION

We will state up front that in structuring a racial religion for the White Race we have learned more from Judaism than all the other religions combined, and we make no bones about it. The reason is simple: If a racial religion such as Judaism can sustain a scurvy race of parasites for 50 centuries and propel them upward to gain control of the world, then **just think what a similar racial religion can do for the great White Race. The potential is unbounded and the sky is the limit.**

And that is exactly what we have done in Creativity — deliberate-ly, logically and thoroughly. We are finally doing at long last what the Egyptians should have done 5000 years ago — structuring a racial religion for the White Race. Our basic Golden Rule in a way is the same as that of the Jews: Whatever is best for our race is the highest virtue; what is bad for our race is the ultimate sin.

But there the similarity ends. Whereas the Jews are the eternal parasite, condemned by Nature to forever live off the backs of another race or perish, we, of the White Race are just the opposite. We need no other race for our well-being or our welfare, and would, in fact, be a thousand times better off if this planet were completely devoid of all the inferior mud races, including the Jews.

But we have several other overwhelming advantages over the Jews. We are far more intelligent, creative, industrious and productive than are the Jews (or any of the other mud races). We greatly outnumber the parasites a dozen times over. Cleansed of racial pollution, left to our own devices and culture, what with our program of racial upgrading and eugenics, we could, in a short span of history, **build a virtual paradise on earth.** And this, in fact, is our ultimate goal.

Amadeus, you wuz robbed!

This dissertation is partly about geniuses, and what an irreplaceable treasure they are to our race and to civilization in general. We also want to examine how they have been ignored, neglected and abused, when they should have been nurtured, treasured and appreciated. In fact, we want to look at the life and misfortunes of one particularly bright star in the firmament who lived in the 18th century. His name was Wolfgang Amadeus Mozart.

Johannes Chrysostomus Wolfgangus Theophilus Mozart, the name by which he was christened, was born at Salzburg, Austria, on January 27, 1756 and died in Vienna, Dec. 5, 1791. There are two observations that stand out in the preceding sentence (a) his names were drawn from classical history and mostly end in -us, and (b) he died in the prime of life at the relatively young age of less than thirty-six.

Mozart's phenomenal precocity as a child and as a youth is without parallel in musical history. Educated by his father, Leopold Mozart, an able, pedagogically minded violinist in the service of the Archbishop of Salzburg, young Wolfgang had harpsichord lessons at three, composed at four, and at seven played the harpsichord, the organ and the violin. Two sets of his sonatas for harpsichord and violin were published in France when Wolfgang was still at the tender age of seven.

He composed two symphonies in England at eight, an opera buffa at eleven, *La finta semplice,* for Joseph II of Austria; and an opera seria at fourteen, *Mitridate, Re di Ponto*.

The composer's fluency and seemingly inexhaustible productiveness continued unabated throughout his short life, resulting in a total of six hundred and twenty-six known works, including forty symphonies, twenty-two operas, twenty-three string quartets, twenty-three concertos for piano and orchestra, twenty-five sonatas for violin and piano, and a very large number of other compositions.

No less phenomenal was Mozart's ability as a performer on three instruments. This was amply demonstrated by the impression he made wherever he appeared as a child or as a mature man. Convinced that his son deserved recognition and a secure position not offered by the provincial circles of Salzburg, his father, Leopold, personally took the boy, or encouraged him to go, on tours of the chief European capitals. The tours netted father and son little more than lavish admiration, a legendary reputation and a few meager princely gifts.

Financially, they were disappointing, and they did not lead to a court or other appointment commensurate with the gifts of this great

genius, nor with his financial needs. It is one of the several tragic factors in Mozart's life, that in an age when the artist and especially the musician was particularly dependent on enlightened patronage, no satisfactory post was open to the man whom Haydn called "the greatest musician that I know, whether personally or by reputation," and who Johann Hasse declared, "will cause us all to be forgotten."

He did acquire several unremunerative positions such as honorary *maestro di Capella,* which he held with the Archbishop of Salzburg; chamber musician and court composer for Joseph II of Austria; and several other temporary appointments. But none of these paid Mozart enough to keep body and soul together. He lived mostly by commissions for operas and other compositions, and by teaching. His income was always precarious and his later years were haunted by poverty and debt.

Mozart's marriage to Constanze Weber in 1782, disapproved by his ever cautious father, was the beginning of a desperate period of anxiety and debt. He spent the last ten years in Vienna and the extent of his great productivity may be judged by the fact that in the last five years of that period he committed to paper five extended string quintets, the last three symphonies, two of the most important of his piano concertos, and operas *Le nozze di Figaro, Don Giovanni, Cosi fan tutte, Die Zauberflote* (The Magic Flute) and *La Clemenza di tito* to mention only the most important of his works. He was at work on the *Requiem* and had reached the crescendo of the *Lacrimosa* when he was suddenly stricken with paralysis and died on the following day, Dec. 5, 1791.

Although there is some doubt as to the cause of his death, it is generally conceded that he was poisoned by a jealous composer, who considered himself a rival of Mozart, although he could not hold a candle to the great genius. His name was Antonio Salieri, and although history is not clear on this issue, I suspect strongly that he was an Italian Jew.

Why do I think he was a Jew? Because he had all the earmarks of a Jew. He was without talent. He was insanely jealous; and he had a criminal urge to destroy and kill the best.

Be that as it may, (and I will have more to say about this aspect later) none of Mozart's friends even bothered to follow his body through a violent storm as he was buried in a pauper's grave. His wife, a few days later, could find no one to identify that grave and it has not been discovered since.

So died in poverty, neglect and unappreciation one of the greatest musical geniuses the White Race has ever produced.

We now bring this story up to the present. The life of Mozart had all the elements of a gripping drama. It had greatness, genius, fame, history, tragedy, jealousy, pathos and human interest. Not only

that, but it also had a great musical repertoire to draw from. In short, it had all the basic elements for the production of a first-rate motion picture.

The Jews, who dominate the motion picture industry and are ever on the lookout to make a fast buck, did just that in 1984. In order to enhance their profit, the picture was made in communist Czechoslovakia, where costs are considerably lower, utilizing the talents of many foreign artists. The result was "Amadeus," released in late 1984.

As we are all aware, each year the Jews in the movie industry stage an orgy in self-adulation. It is held in Hollywood and is called the "Annual Motion Picture Academy Awards." This year "Amadeus" was the star of the show and carried away eight Oscars.

This year, as I watched the nauseating display of the "Awards" on TV, I almost felt as if I were watching a revolting spectacular staged not only in a foreign land, but on an alien planet. The bizarre display of glitter, glamor, bad taste and degeneration consisted of Jews, Jews, and more Jews, with some bizarre mulattoes and niggers thrown in, each patting themselves and each other on the back and reviewing the list of Jewish credits that had enabled them to flaunt their vulgar "art." As usual, there were a host of screeching niggers doing an imitation of singing, in a vulgar, disgusting display. Especially revolting was the mass ensemble of the "We are the Children of the World" monstrosity. Then, there was that bizarre mulattoe, Prince, all painted and decked out as lavishly as any chieftain of the African bush niggers, with tight curls, gaudy headdress, purple robes and all. There were all kinds of foreign Jews who could hardly speak English.

But there was something special about the awards given "Amadeus." Smouldering in the background were several unresolved hatreds in the black hearts of the Jews, who can carry more hatreds for more centuries than anybody. And "Amadeus" was their vehicle to again besmirch that which they themselves can never possess — genuine greatness, real genius.

There was one little quirk I noticed as the Jews were patting themselves on the back about what a wonderful production they had achieved in "Amadeus." They generously granted that it was a totally collaborative achievement in which, oh, so many countries had participated. Why, there was Czechoslovakia with all their talents, and there was Poland, and France, and England, and Spain, and Portugal, and Rumania, and even America. But strangely, Germany was never mentioned. Nor was it ever mentioned that Mozart was a German, born in the German city of Salzburg and lived and performed in the German city of Vienna. Although they were then part of the Austro-Hungarian dual monarchy, nevertheless this whole area was

thoroughly German, evolving in a long-standing German culture that has produced more of the world's greatest music than any other national group anywhere.

Just as they have for more than 2000 years reviled and desecrated the Romans, for centuries attacked and besmirched everything German, and in this century poured out their voluminous hatred and venom against Hitler, so too can the Jews never resist attacking and befouling everything that is great and noble in the eyes of the White Race.

And so it was with Mozart in his time, when he was hounded, persecuted and finally poisoned by an insanely jealous Jew. But greatness has a way of surviving all the vicious assaults of small mean minds, and Mozart is still great and famous for his brilliant works today, even more so than he was two hundred years ago.

A few weeks ago the movie finally came to our local theatre and I went to see it. Since I had seen a few of the film clips on TV during the Academy Awards show and in subsequent ads, I had a good idea what to expect, and I was not disappointed. It was a Jewish rendition from beginning to end. Instead of making a beautiful, moving drama of the life and times of Mozart, and taking advantage of the great music available to them, the Jews butchered it. It was repulsive.

Mozart, who was played by Tom Hulce, was portrayed as being course, vulgar and a semi-idiot. He was repeatedly characterized with a whinnying type of horselaugh that could only come from a deranged personality. His girl friend, and eventually his wife, who was played by Elizabeth Berridge, was portrayed as a woman with a weak mind and extremely large breasts, the better part of which were on constant display.

The real hero of the piece was Antonio Salieri, the man who poisoned Mozart, and the whole story was told through his eyes as he disdainfully boasted about his mixed contempt and admiration for Mozart to a parrish priest. The part of Antonio Salieri was played (no surprise) by a Jew called Murray Abraham.

One thing that was unusual about the "Amadeus" awards at the Academy night was that there were two nominations for leading actor in the same film. It might have happened before, but I don't ever remember when. And herein, too, the Jews were playing their evil little game. There was much speculation before the event — would Tom Hulce, who played Mozart, get the coveted award, or would the Jew, Murray Abraham, who played Salieri, win?

You guessed it — even in death Mozart was subdued by the evil Jew and the Best Actor award went to the villain who played the part of the poisoner, Murray Abraham. Having an insight into the Jewish character, I am sure this was all stage managed to come out just that way, and collectively, the Jews were smirking to themselves

as to how they had again triumphed over the superior genius of the goy. The Jews were indulging themselves in another Feast of Purim.

* * * * *

There are several lessons we should learn from the above. It is not only the dead geniuses of our illustrious past that we have short changed, but more to the point, we are doing so even more flagrant-ly with our vast pool of White Racial talents today. It is extremely important that we must now learn to recognize such gifted creators while they are alive, encourage them and help them to develop their full potential. The White Race, more than the genius himself, will be the greater beneficiary from such an arrangement.

This is what the **School for Gifted Boys** is all about. We want to be able to recognize a young Mozart at an early age, then help promote him and propel him forward to develop his great potential.

Not only do we want to make sure that he has every opportuni-ty to develop that latent genius, but there is another issue we want to safeguard. We also want to make damn sure that such talents and gifts are not stolen by our enemies and thereby accrue to their benefit.

Tragically, this is just what has happened in the past on both counts. We have neglected and ignored the best in our creative midst, and secondly, when such genius did emerge with no help from us, their contributions were quickly locked up by the Jews and invariably turned into a weapon against the White Race.

The Jew openly brags that every major invention that the White Man has ever produced, whether it be Gutenberg's printing press, whether it be radio, television, or computers, the Jew has been quick to take over and turn it into a weapon for the destruction of the White Race.

All this MUST CHANGE. As the program of The Church Of The Creator becomes more and more imbedded into the White Man's thinking we will recognize the talented, the bright, the gifted, and the geniuses in our midst. The White Race has unbounded poten-tial. We must learn to nurture and harness that potential. No other race can even come close. Having helped develop and harness that potential we must then channel it in such a manner that it will ac-crue to the best interests of our own race, not that of the enemy.

The School for Gifted Boys is a small beginning in that direc-tion. Help support it, finance it and send us the boys. We will make sure that they are oriented in the right direction to develop their full potential to help build a bright future for themselves and the White Race.

Issue No. 26, July 1985

Saving our Precious Planet from Becoming a Chemical Garbage Dump and a Human Pigsty.

The subject we are addressing is most urgent. This beautiful Planet Earth, our one and only home, past, present and future, is being raped and desecrated, poisoned and polluted to the point where it will not be fit to live in, or on. For an intelligent, orderly people such as the White Race has been, **it will not only be an unfit domicile, but it will soon be impossible to live here at all, and there is no place else to go.** The multitude of factors that are destroying what is left of our habitat are all rapidly converging to produce one consummate catastrophe — the destruction of our natural environment, and with it, the demise of the human race — especially the White Race.

What are these factors that are closing in on us? They are manifold, but we can narrow them down to a few basics. They are:

(a) Our rapidly exploding technology, created by the genius of the White Race itself, and now threatening to destroy us. Besides the doomsday threats of the atom bomb, the neutron bomb and the hydrogen bomb to end all life in a cataclysmic thunderclap we have a slower and an even more certain threat from the burgeoning chemical industries. If the hydrogen bomb doesn't get us, the chemicals that are increasingly proliferated into our air, water and soil will surely poison us, even if it takes a little longer.

(b) The second major factor that is helping push the environment into a planetary garbage dump is **greed and the Jewish monetary system that feeds it.** At the center of this financial monster is the Federal Reserve System, a worldwide gang of ruthless Jewish counterfeiters. This gang controls our money and controls the course of world events. But they do more than that. Through their sleazy business practices, their monopoly of propaganda and every other important factor in our lives, they have so corrupted the minds and lifestyle of the White Race itself to the point where the White Man has now wholeheartedly joined in with these bandits in the destruction of our environment, our civilization, and the White Race itself.

Since I have already thoroughly exposed the Federal Reserve in Creative Credo No. 40 of the WHITE MAN'S BIBLE (The Brutal Truth about Inflation and Financial Enslavement — The Federal Reserve Board — The Most Gigantic Counterfeiting Ring in the World), and also widely distributed our booklet of the same name, I will not review that subject again here. Suffice it to say that the greed and avarice of this vicious gang of Jewish counterfeiters is at the heart of the pollution problem, as it is, in fact, of practically all of the world's major problems.

(c) The third major factor is the insane obsession of the Jewish network as a whole to promote race mixing, especially miscegenation of the White Race with all the scum of the world, (while the Jews themselves remain intact and aloof from any such diabolical program). In the effectiveness of this program lies also the fate of the world's environment, and conversely, in the reversal of this program lies the only hope of saving this planet from becoming a poisonous garbage dump and a human pigsty.

The heart of the Creativity program is four dimensional: A Sound Mind in a Sound Body in a Sound Society in a Sound Environment. Since these four dimensions are all part of the whole and are indivisible, the whole subject of environment is, indeed, very germane to our religious philosophy. It is an extremely comprehensive subject and I will endeavor to project the position of The Church Of The Creator in five separate installments.

Part I Chemical Pollution and the Impossible Disposal Thereof.
Part II Radio-active Wastes.
Part III Poisons in our Drinking Water.
Part IV Pathological Pollution by means of Legal and Illegal Drugs.
Part V Genetic Pollution and Saving our Gene Pool.

There are several other kinds of pollution in modern times that are running rampant and to which we are increasingly subjected. Some of these are (a) noise pollution (b) radiation pollution by microwave and radio-active substances (c) religious pollution (d) mind pollution by propaganda, and (e) a number of other forms of destructive pollution.

Since this subject is too comprehensive to be treated in a limited dissertation such as this periodical I will confine this basically to the five segments mentioned earlier. Even these will be of limited scope and will concentrate on (a) arousing awareness of the threat and (b) what we of The CHURCH OF THE CREATOR can and must do about it.

PART I. CHEMICAL POISONS AND THE DISMAL FAILURE TO DISPOSE OF AN INCREASING OVERLOAD OF HAZARDOUS WASTE.

Increasingly, we have read of the crisis of hazardous waste in a number of seemingly isolated communities where the inhabitants woke up one morning and found that unbeknownst to them, their land, their streets, their water and their air was so polluted with toxic chemicals that they were being slowly but surely poisoned. Surprise! Surprise! Someone had stealthily been dumping tons and tons of poisonous wastes in the "backyard" of their community for years and now they were stuck with it. These poisons had now seeped into the ground water, into the aquifer, into their wells, and yes, had even been sprayed on the streets as a clever way to disguise and disperse these poisons. Now, too late, these unwary citizens had to make an agonizing decision: abandon their homes and life's savings and move "elsewhere," or suffer the slow death of toxic poisoning.

Although hundreds of such incidents preceded it, it was not until the major disasters of Love Canal in 1978 hit the front pages and temporarily pre-empted the evening news on TV that some people began to realize that we had a major pollution problem.

However, the Love Canal tragedy was only the tip of the iceberg. In that incident rain popped leaking drums out of the ground on a black tide of long buried chemicals. High incidents of birth defects, cancer and other pathological diseases among the local citizenry also began popping up at alarming rates. It drove hundreds of families away from their homes in Love Canal, and permanently disabled or killed many of its former citizens. Protracted litigations and attempted clean-ups are still going on, and will continue to do so for years.

But let us look at a few other cases that are becoming more and more common.

Verna Courtemance is a former school teacher who lives at **Swartz Creek**, a country crossroads 60 miles northwest of Detroit. Her former neighbor, Charles Berlin and his partner opened a hazardous waste incinerator in 1972 next door to Verna's home. The incinerator, often overloaded, smothered the countryside in acrid smoke so dark and dense that firemen on the horizon would take it for blazing houses and race over. The corrosive murk turned convertible car tops into literal rag tops. It reddened children's faces with rashes and swelled eyes shut.

Verna and friends harried state officials by telephone, rally and letter for four years before Berlin's smudge pot was shut down permanently.

Did Berlin ever indemnify his neighbors for the massive damage he had caused? No. In 1980 he declared bankruptcy, abandoned the site, and left someone else to clean up the mess and carry the burden.

During the next three years investigators unearthed behind his incinerator five storage tanks and the first of 33,000 drums. They

were bursting with waste that Berlin had been forbidden to burn, yet still allowed to haul — from chemical plants, auto factories, steel mills, refineries, railroads.

Verna and her neighbors led a decade long fight to finally get a federal and state cleanup underway. In the meantime, citizens living near the incinerator and its accompanying foul, poisonous lagoons saw their homes become worthless and their health severely impaired.

Now, with a (partial) cleanup underway, 50 trucks a day rumbled past Verna's house for weeks last summer ferrying contaminated soil from a nearby field to a landfill in Ohio. To purge the field of toxic metals, used motor oil, drug and dye by-products and other industrial wastes, backhoes and bulldozers have scooped and scraped up 120,000 tons of earth. But that is only the beginning.

Will it ever be cleaned up? No, not likely, at least, not in the present generation, and it certainly will never be restored to its former condition. And what about the "landfill" in Ohio to which this mess of poisonous garbage is being hauled? Well, it too, will be an eyesore and a health hazard in short order, and remain such until the local people there wake up and find they have been sandbagged. All the cleanup really has done is reshuffle the poisons from one place it was not wanted to another place that nobody wants it either, but had not organized its opposition (as yet).

Michigan and the U.S. Environmental Protection Agency (EPA) have so far spent six million dollars at Swartz Creek, and some of the 200 firms whose waste was dumped there have pledged 14 million dollars more. Many tons of tainted soil remain, leaching toxic contaminants into local aquifers with every rain. To just so much as map groundwater pollution will take many years, and while it is being mapped it will be further spreading. Eliminating it, if such is ever possible, will take decades. How to eliminate it, nobody really knows.

As the cleanup at Swartz Creek progressed, find followed find. In the poisonous stew of one holding pond, one million gallons of oily muck was laced with polychlorinated biphenyls — PCBs. Until their U.S. production was halted in the late 1970's PCBs were used extensively in hydraulic fluid, in coolants for electric transformers, and in the manufacture of plastics. It now has become a universal and persistent waste — one that accumulates in fish and causes animal cancers.

In another nearby pond, it was believed that drums of hydrochloric acid and barrels of cyanide (that's the stuff they mix in gas chambers to execute criminals) lurked like mines, needing only a blow for their chemicals to leak, mix and form clouds of deadly cyanide gas.

When the pond was safely dredged in 1983, Verna and 165 other

evacuees cheered. However, they were premature in their optimism. It was really only a reprieve.

"We're prisoners," Verna said. "We are afraid to drink from our wells, and out of town friends shy from visits. My sister-in-law won't take gifts of my raspberry jam any more."

Are Swartz Creek and Love Canal isolated cases? Far from it. I cite them merely to drive home the devastating and far-reaching ramifications only one dump site can create for the adjoining countryside. For example, near **Seymour, Indiana**, a 13 acre disposal site was the dumping ground for close to 400 companies. Before a (partial) cleanup was begun in December of 1982, it was found that 50,000 barrels of chemicals clogged the 13 acre site. Placed in these leaking drums were such toxic wastes as cyanide, arsenic, PCBs, toxic metals, solvents, naphthalene, and 200 pounds of explosive material, enough to blow the whole 13 acre mess sky high and spread it all over the countryside.

Chemical Waste Management, the world's largest private hazardous waste disposal firm, started a cleanup in December of 1982. Under threat of suit, 24 (of 400) of the polluting companies have so far put up 7.8 million dollars to finance the surface clean up. Other firms have agreed to contribute another 5.5 million to purge pollutants from ground water and subsoil. **Will they succeed? Again, not likely.** These sums are only a drop in the bucket to (partially) help alleviate the harm that has been done. That damage, however, is permanent and pervasive and no amount of money can ever reverse the process.

Another case in hand is **TIMES BEACH, Missouri**, which has been so contaminated that it was unfit for human habitation. In 1983 EPA bought the whole town (with taxpayers' money) for 33 million dollars and made arrangements to relocate its 2200 residents. The culprit in this case was 2, 3, 7, 8-TCDD, **one of a class of the most highly toxic organic chemicals called dioxins.**

Ten years earlier the town's roads had been sprayed with oil to control dust. Treacherously laced into the oil (and unbeknownst to the townspeople) was an abundant dose of these same dioxins that some company wanted to surreptitiously unload. Soil tests in TIMES BEACH showed that dioxin levels were as high as 1100 times the level considered acceptable. Now TIMES BEACH is a ghost town, but that isn't the whole story. The health, psychological and financial damage done to its 2200 former residents will never be undone, not to mention the devastating and permanent environmental damage to the townsite itself.

Are these isolated exceptions? Not by a polluted country mile. Partially as a result of the LOVE CANAL publicity, EPA in 1983 grudgingly started using some of its 1.6 billion dollar SUPERFUND

set up in 1980 to clean up the most dangerous of the hazardous waste dumps.

How many such dangerous dump sites are there? **TIMES BEACH**, which we have just described, is only one of forty such sites in the state of Missouri alone that is under investigation by the EPA. The 40 sites are under investigation mainly for dioxin contamination (thousands of other toxic chemicals also proliferate the landscape). Even extremely small doses of dioxin can cause miscarriages, birth defects, liver damage or death in laboratory animals. To guinea pigs, for example, it is 200 times as deadly as strychnine. Does that give you an idea of the magnitude of the poisonous threat that has been spread over the landscape?

But let us expand from dioxin and the state of Missouri. Just how big is the hazardous waste pileup on the national scale?

The **NATIONAL PRIORITIES LIST** of the EPA continues to grow as states other than Missouri scramble to locate dangerous sites within their borders. At stake are billions of dollars of federal cleanup funds. By October of 1984 the EPA had designated or proposed 786 waste sites for the list. The agency estimates that the list may eventually contain at least 2500 emergency sites, but there are at least 16,000 known hazardous waste sites in the United States, all of which, sooner or later, are a potential time bomb. Imagine 16,000 **SWARTZ CREEKS**, or **TIMES BEACHES**, or **LOVE CANALS**, spread across the country polluting the land, air and water — poisoning its residents, killing its wildlife! **But they merely reflect PAST criminal negligence. Where is the increasing garbage of the future going to end up?**

No one knows the true sum of our toxic wastes, but the 264 million metric tons regulated by EPA in 1981 would fill the New Orleans Superdome almost 1,500 times over. Since 1950 we have "disposed" of possibly six billion tons in, or on, the land, into our water, or into the air — steadily increasing our potential exposure to dangerous toxic chemicals that can cause cancer, birth defects, miscarriages, nervous disorders, blood diseases, and damage to liver, kidneys and our genes.

But have we really disposed of these toxic chemicals or are they really still there, accumulating in ever larger piles and dumps, closing in on us, and threatening to turn the world into an uninhabitable garbage dump? Have we solved the problem? No, we have not. Is there a viable solution in the future?

Let us examine the ingenious methods that government and industry have devised to seemingly "dispose" of all these billions of tons of toxic poisons.

Well, they are not really so ingenious at all. Basically they consist of dumping them somewhere that will be at least temporarily

less objectionable — until the surrounding territory itself, too, becomes intolerably polluted and/or until such dumps invariably run out of room.

Here are some of the most prominent "accepted" methods:

(a) **Incinerators.** Burn it and send the refuse into the atmosphere. This does compact the waste and somewhat reduce its volume. It is not feasible, however, to do so with our most dangerous wastes, such as toxic chemicals from petroleum refineries, chemical plants, and manufacturing plants.

(b) **Landfills.** It costs $50 to $800 per ton to incinerate wastes, therefore most companies view it as a too costly means of disposing of their toxic castoffs, three times as much as it costs to bury it. As a result less than 1 per cent is cremated, and the cheaper landfill is the first choice of most companies.

But landfills, as we have seen from the experiences at Love Canal, Swartz Creek and Times Beach are not a "disposal" at all. They are merely a ticking bomb, accumulating to levels of intolerable pollution at the site and the surrounding environment. They pollute the soil, intrude into the aquifers and the ground water and soon poison the soil.

Nor is the attempted "cleanup" program any solution. It is merely trying to redress an already overloaded area into another area where it is also not wanted. Nor does it solve the mountains of future accumulations that are staring us in the face, year after year.

(c) Running waste into sewage **"treatment"** plants, then running it into our rivers, lakes or the oceans. This too, is a stopgap measure and largely ineffective in the long run. Practically all our rivers and lakes are now overpolluted. Lake Erie, as well as any number of smaller lakes, are now "dead" lakes so polluted no marine life can any longer live in it, and many of our rivers have become open sewers. (However, sewage treatment plants are not the only cause of this. The run off from farmlands plied with man-made chemical fertilizers, herbicides and insecticides are also a major factor. But that is another story.)

(d) Another **"ingenious"** method is to pump the really bad stuff down **deep injection wells**, to be imprisoned between layers of "impermeable" rock. At least, that is the theory. At least 60 per cent of all toxic waste in the United States is disposed of in this manner. For example, near Corpus Christi Bay, one such well, located amid numerous oil wells, swallows 6½ million gallons of caustic liquids a month from nearby refineries. It is shot down a mile underground through layers of dense clay to the sands of an ancient sea.

What happens to it then? Well, it spreads out, as it invariably has to if it is to absorb 6½ million gallons a month. Will it spread to the nearby oil wells and come back up in the form of brine and

oil? Undoubtedly. Where else can it go?

(e) Some European countries compress their wastes into compact packages and dump them far out to sea. A dirty and irresponsible method that among others is rapidly polluting the greatest resource and expanse of our planet, the oceans themselves. They, too, are limited in the abuse they can take.

(f) Some send incinerator ships out on the ocean to burn the refuse, thereby avoiding local pollution of the air, but nevertheless adding it to the earth's already overpolluted atmosphere.

(g) Some industries sell their poisonous wastes to gullible government agencies on the basis that they will help promote health. An excellent example is the aluminum industry who for years had thousands of tons of excess fluoride on their hands as a by-product in the manufacture of aluminum. Then some bright exec came up with the idea of selling it to the thousands of water treatment plants across the country, as an aid to prevent tooth decay.

The fact is fluoride in its inorganic form (the form to which it comes to the water companies) is one of the most deadly poisons known, and has the added danger of staying in the bones of those who ingest it for years. It is a major ingredient in rat poison. Whereas some fluoride COMPOUNDS that are organic (parts of plants, living food) are compatible to the human body, inorganic fluoride, is and will forever remain highly poisonous.

Nor do even minute quantities of INORGANIC fluoride help anybody's teeth. It will, however, cause pitting of the enamel, and mottling the color of the teeth.

(h) Many backward countries (like Mexico) simply run a sewer line a mile or so out in the ocean and run all of their sewage, raw and untreated, directly into the ocean. Some U.S. cities on the coastline also once indulged in this dirty practice.

(i) Millions of tons of waste go up the tall smoke stacks of smelters, refineries and power plants to disperse into an already over polluted atmosphere. Add to this the emissions from millions of cars, trucks, diesel locomotives, airplanes and steamships, and you have a floating garbage dump hovering overhead. As a result, we have acid rain, polluted air and an ever increasing accumulation of CO2 in the atmosphere that in the long run is creating a "greenhouse" effect, the inevitable result of which will be disastrous to the climate and environment of this planet earth.

(j) There are a number of other nasty little tricks, such as spraying highly toxic chemicals on regular garbage and letting the garbage man pick it up along with the rest of the garbage. Or some smaller chemical companies have been caught running highly toxic chemicals into the city sewer lines through secretly drilled connections. And other dirty tricks.

So far we have been talking mostly about the United States, a highly industrialized country. What does the rest of the world do with its hazardous wastes? Does the rest of the world fare any better?

Well, hardly. There are any number of other countries such as England, Germany, France, Italy and Japan that are also highly industrialized and whose cramped territory and dense population in comparison make the United States look like a wide open frontier, and their problems are even worse, much worse. We don't have the time and space here to examine them in detail, although from CREATIVITY'S point of view, we always think in terms of the whole planet in all our future projections for the White Race. We are intensely concerned about what happens in Germany, or in Japan, or in Africa, or in South America. The White Race of the future will either live or die, depending on what happens politically, economically, racially throughout the world, and at best it can only survive on a planet whose environment is still viable.

The environmental picture in the rest of the world is dismal, to say the least. To cite a few examples: The beautiful Black Forest of Bavaria is dying, in fact, half the forests of Germany are sick and dying from acid rain and atmospheric pollution. The beautiful Rhine River with its romantic castles has become an open sewer, a dead river. In fact, the same thing can be said about most of the major rivers of Europe. In Italy chaos reigns and it is an absolute basket case. Japan, highly industrialized, densely populated, and a small land area, has become so polluted that it has reached a state of crisis.

The fact is that our whole planet is now badly overpolluted with no more "vacant sites" for waste dumps or any other nooks or crannies left to stuff the billions of tons of poisonous chemicals, industrial wastes or just plain garbage. Yet all these hazardous wastes keep spewing out in ever increasing amounts (1500 Superdomes full a year in the United States alone) with no place to go.

CONCLUSION.

All this reminds me of a picture of a sign I saw in a magazine several years ago. Some enterprising nigger (or Jew) had put up a sign at the eastern tip of Long Island, saying "This is as far as you can run, Whitey. This is the end of the line." And so it is with the pollution crisis — this is the end of the line. We either change course drastically or the White Race will die of chemical poisoning in a polluted stew of its own making.

Is there any solution at all in sight? None whatsoever, if we remain in the present Jewish controlled financial, political and cultural miasma in which we are now engulfed, and are slowly drowning. Neither the EPA, nor Congress, nor the president, nor the United States government, nor the United Nations will ever come to grips

with the problem or even partially solve it.

Why? Because none of these agencies will ever dare face the basic issue, which is racial.

With the Jew in control, the mud races will continue their explosive expansion and the White Race will shrink and die. This world will become a planet of utter chaos, overpopulated, overpolluted, without direction, without leadership. Mass starvation, riots, revolution and chaos will be the order of the day.

But there is a solution and we CREATORS spell it out.

1. Only the White Race can solve both the food and the pollution problems, but only for itself.

2. Until the White Race gets the parasitic Jew off its back and gets control of its own affairs, its own destiny, none of the world's major (or minor) problems will be solved.

3. Only through uniting under the banner of a powerful, realistic racial religion such as CREATIVITY will the White Race ever be able to smash the Jewish monster and take charge of its own destiny.

4. Once it accomplishes Point 3, it still has an arduous task ahead of it — cleaning up the racial, environmental and cultural garbage of the world.

5. The first step after Point 3, is to stop subsidizing the scum, parasites and freeloaders both at home and abroad. We have no obligation, moral or otherwise, to feed the Jews, niggers and mud races of the world. Once in charge, the White Race will cease this insanity and instead take care of its own people, its own survival.

6. The mud races will wither on the vine and the population of the world will subside to a level where this planet Earth can again sustain a healthy viable population, by means of ever renewable resources.

7. We estimate this population to be no more than one billion, perhaps less. But whatever it is, it is far, far better to have a clean, safe, uncrowded world of healthy White people, properly fed, housed, clothed and governed than the overcrowded, poisoned hell that is now staring us in the face.

8. Agriculture as a whole must abandon chemical aids to farming, a disastrous course it adopted wholesale only 30 years ago. This includes all chemical fertilizers, pesticides and herbicides. In the first place, they are only a temporary shot in the arm, like heroin to a junkie, and soon poison the soil as well as our food. Secondly, the White Man doesn't need to produce a super abundance of food if we quit feeding the hordes of mud peoples, now numbering more than five billion. All we need to do is just take care of our own White Race.

We must go back to Organic farming, only do it scientifically — with more good sense and planning than we did before the "green revolution." Chemical farming is one of the major causes of polluting

our streams, lakes, rivers and oceans. (See "A Sound Environment — Getting back to Organic Farming and Living Soil.", in C. C. No. 13 of *The White Man's Bible*.)

9. Remember, duPont's favorite advertising slogan, "There is good chemistry between us," is a blatant lie. All man-made chemicals are poisons and are more or less toxic to the human body. Thousands of them, individually and/or collectively, are EXTREMELY toxic and dangerous. There are no good inorganic chemicals. Once the White Man is again in control of his affairs one of the first orders of business will be to start phasing out the chemical industry as it exists today, and eventually produce only organic and bio-degradable substances, or at least reduce them to a compatible absolute minimum.

* * * * *

Unless the White Race takes charge of its own destiny, none of the pressing problems of the world will ever be solved.

* * * * *

Political Parties come and go. Religions endure.

* * * * *

We Creators have no desire to either enslave or exploit the mud races. It is our deliberate goal for the White Race to inhabit this Planet Earth in its entirety.

* * * * *

Only Total Victory Can Save the White Race.

Comparative Religions — Part III

Christianity

The Spooks in the Sky Swindle finds its ultimate manifestation in Jewish Christianity.

The fundamental premises of Christianity are based on a chain of fictitious abstractions, which, taken either singly or collectively form a bizarre nightmare that is an affront to any thinking man's intellect. These fictitious fantasies go something like this.

There are spooks in the sky — somewhere, anywhere, everywhere, — who control our lives, who control world events and control the universe. These spooks are omnipresent and continually looking over our shoulders, taking notes and recording our every word and every action. Not only our words and actions, but even our every thought is put on record in that super-computer in the sky.

Talk about the mass of material the Jews have in their super-computer in Tel Aviv! But even that is small potatoes compared to that super-duper computer in the sky needed to record every word, deed and thought of the burgeoning 5 billion people now living, not to mention all the garbage stored up for those already dead, but waiting for "Judgment Day." It must really overload the circuits in the sky. No wonder we have repeated short circuits and flashes of lightning up there on high.

The fantasy goes on. When we die we will have all this accumulated garbage thrown back in our face. We will be held accountable for every word, deed, thought, and woe betide! If you are found wanting and meandered from the mainline, or made some mistakes, it's the pits for you, the fiery sulphurous pits, that is. And since none of us are perfect, guess where 99 and 44/100 percent of us will go. Of course now there might be some exceptions, like the Jerry Falwells who kow-towed obediently and subserviently to God's Chosen. But you can never be sure, and that includes Jerry Falwell, the Pope and Billy Graham. Who knows what evil thoughts might sometimes have lurked in the dark recesses of their twisted little minds. Even Jimmy Carter admitted there have been times when he lusted.

Now not all these spooks in the sky are surveiling and taking notes. Only the "good guys" are doing that. But spooks evidently come in a great variety of forms, shapes and sizes and not all of them are "good," in the eyes of the "Holy Scriptures." Like in the movies you always have the good guys and the bad guys, so too, up there

in those nebulous skies on high, you also have the "bad" spooks. These have names like Satan, Lucifer, the Devil, and a host of other names. This is for the head honcho alone. But he is not alone. We hear repeatedly in the Christian preachers' repertoire of hell-fire and brimstone about "Satan and his minions," and much more.

The most interesting aspect of this whole concocted story is this: whereas in the movies, where after a valiantly fought battle between the good guys and the bad guys, usually (at least, it used to be that a-way) the good guy wins and demolishes the bad guy and "his minions," not so in the battle on high.

There the war goes on, and on and on. Although the Lord (the good guy) is all-powerful and what he says goes (after all, it's his set-up, he created all) nevertheless there is no victory over the bad guy. The Lord and Lucifer have been at it now supposedly for 6000 years, and are still locked into a Mexican stand-off. Well, not exactly either. Satan is winning, hands down. For every one that is "saved" from the fiery pit, Satan will get at least 99, probably 99 and 44/100. Evidently in this Spooks in the Sky story, the good guys don't win. As Leo Durocher used to say, "the good guys come in last."

Does this sound like a droll cock-and-bull story? It does to me, but you can go into any one of 200,000 Christian churches (in the United States alone) and hear the same stupid story being preached by hundreds of thousands of preachers, week after week after week. Their versions might differ a little, but essentially that is the basic story, the Gospel, the Lord's word or whatever. Not only from the pulpit of all the Christian churches is this idiotic story being broadcast, but of late, even more effectively (and more profitably) from the electronic con-artists employing the Jewish boob-tube.

But that isn't the end of the story. Actually, the Lord and Satan are really on excellent terms, as are the U.S. government and the Russian communists. (Read again *Creative Credo No. 50* in the *White Man's Bible*, "Observations about the Devil and Hell.") The main villian is not particularly suffering. Satan and God are having a ball, playing games with us poor sinners, seeing who can come up with the biggest score, and the game score was predicted even before it began — the Devil is the overwhelming winner, hands down. It is we, us no good, lousy sinners who are the real losers. It is we, who will be suffering in that fiery pit. It's a crooked, stacked set-up. And what a ghastly torture chamber it is. Billions and billions of souls will be burning in there, wailing and gnashing their teeth, (do souls have teeth?) forever, and ever, and ever. No reprieve, no amnesty, no "take five out," no knocking off for weekends or vacations. Just a hardnosed 24 hours a day, 365 days a year of excruciating pain and torture, forever, and ever, and ever.

What does the good and loving Lord think of it? Well, evidently

he thinks its great sport. After all, he dreamed it all up, designed the whole goddamned set-up, and will be running his torture chamber from here to eternity.

Evidently he deliberately wanted to put all of these billions in the fiery torture chamber and torture the hell out of them, or he would never have constructed his sadistic hell in the first place, now would he?

Where did such a bizarre mental nightmare come from? How can so many hundreds of millions of people become ensnared in such an idiotic booby-trap and at the same time be more than willing to shell out 40 billion dollars a year in the United States alone to perpetuate and perpetrate such fiendish and sadistic clap-trap on their own children, their own offspring?

It's a long story, and to go back to the beginning, we should, I suppose, start with the Egyptians, the first really great White Civilization in history.

The Egyptians were a highly intelligent people. They had the unusual advantage of living in the Valley of the Nile where for thousands of years they were (more or less) sheltered from hostile intrusion on all four sides. As a result they had a long time in which to develop and cultivate their own civilization and their own culture. This they did, and their civilization lasted for perhaps three thousand years, a period of time longer than that of any other. It died when their genes became poisoned by admixture with the inferior black Nubians to the South.

Whereas this mongrelization of the White Egyptian Race may be deemed as a conquest of sorts by inferiors, it was not forced upon them, but self-administered. This was a conquest of a most vicious character that spelled the deathknell of the great Egyptian White Race. It was the result of stupidity and criminal negligence in failing to recognize (a) the precious value of their racial genes, and (b) how to protect their gene pool from mongrelization and racial poisoning. It can be categorized as one of the major tragedies of history.

Be that as it may, their religion was in large part to blame for this major tragedy, since hardly any White culture in Ancient Civilization was so obsessed with the "spirit" world and life in the hereafter. It is, in fact, the Ancient Egyptians, who had 3,000 years to evolve their religion, to whom we are indebted for practically every fictitious concept and abstraction for what later became Christianity. I have listed these concepts before under Judaism, but I believe it is germane that I list them again. They are (a) the idea of a "soul" (b) the idea of "eternal life" (c) the idea of "gods" (d) the idea of offerings and supplications to appease the god or gods (f) the idea of baptism (purification by ablution) (g) the idea of building grandiose temples to supplicate and honor their gods (h) circumcision of the infants,

and a number of other beliefs, customs and rituals, including vague ideas of heaven and hell.

The second stage was the intrusion of the parasitic Jew into the Egyptian domain. The uncreative Jews were shrewd enough to copy most of the Egyptian concepts, and with a few modifications, in-corporate them into a tribal religion of their own, a religion **that at once was more pragmatic and at the same time utiliz-ed to the utmost to preserve and enhance the fortunes of the parasitic Jews.**

The third stage in the evolvement of the Christian religion was set in the heart of the Roman Empire. When in the first century of the Common Era (C.E.) Rome was at her height, the minor province of Judea was one of its many conquests. When the intractable Jews proved rebellious and obstreperous, Emperor Vespasian sent in General Titus to quell the rebellion. This he did in a siege that lasted less than two years. In the process he levelled Jerusalem to the ground, in the typical custom of the day.

But the Jews proved a tougher conquest than the Romans had bargained for. In trying to "digest" the little province, the Romans in fact were swallowing a racial poison, as history has later shown. The Jews did not conquer the Romans by confrontation of superior arms. On the contrary, they were so vastly inferior in this respect that it would have been no contest. Instead they used their most lethal weapon — religion, propaganda, deceit and intrigue — in all which they had no rivals and still do not today. In short, they used the "B" bomb — the brain bomb, in which they have been fantastically suc-cessful. Christianity was their major weapon and Saul of Tarsus was the key Jew to have instigated the conspiracy. The Jews sold the once virile and warlike Romans a suicidal religion in which pacifism, self-denial and self-destruction became the supreme virtues of the new religion. In short, they turned the once aggressive, powerful Romans into a chaotic mass of whimpering wimps.

How did they do this? Well, **Marcus Eli Ravage**, a wily Jew of the 20th Century, brags about it, and he tells the story better than I can. (Read again "Confessions of a Jew" Creative Credo No. 43 in **The White Man's Bible**.)

Basis of Christianity. The whole Christian religion is based on a key figure called Jesus Christ, half man and half God, who is supposed to have walked the face of the earth circa 1 to 33 C.E. There is however not a scintilla of genuine historical evidence out-side of its own concocted fables that such a character ever existed. Although both the Greeks and the Romans of those times were highly literate, no contemporary historian, poet, writer, or chronicler of the times has ever so much as written a single line of corroboration of all the cock-and-bull events claimed in the New Testament. It is all

based on the supposed stories of "the Gospels" Matthew, Mark, Luke and John, but no contemporary writer of the times ever heard of them either, or, at least saw fit to take note of them. The few historical "facts" that emerge is that these same fantasies had been pulled together from pre-existing fables then extant, and were now peddled as the genuine article. In fact, the story of a crucified "savior" had been told in 16 previous other religions and was now being recycled for the 17th time.

Where did the suicidal ideas inherent in Christianity come from? There is no mystery about this question, however. There existed on the shores of the Dead Sea a small Jewish sect called **The Essenes**. Their hero was the "Teacher of Righteousness" and they practiced communal living, self-denial and shunned marriage and family life. But even more important, they taught and practiced pacifism and promoted every suicidal concept (such as: sell all thou hast, love your enemies, turn the other cheek, judge not) at least a century before the supposed birth of Christ. The shrewd and wily Saul of Tarsus (who later became the Christians' St. Paul) saw in their suicidal teachings the very germ of a religion that could be utilized to destroy the proud and haughty Romans. How successful he was and how the Romans took the poisoned bait history has recorded.

The Jews were successful beyond their fondest dreams and 1300 years of the Dark Ages set in as Rome crumbled. The Jewish poison is still festering in the brains of hundreds of millions of White Christians today, and is the key to the Jewish domination, rape and looting to which the White Race supinely allows itself to be subjected.

Christianity vs. Creativity
A Comparison

Basic Goals

CHRISTIANITY — To "save" peoples' "souls" from a fictitious hell in the "hereafter," because God loves mankind so dearly. Why the same Jewish God that created the victims also created a hell to put them in, has never been explained. After this same loving God "sacrificed" his one and only son on the cross to beef up the "salvation" program, that program also failed miserably, and, it, too, has never been satisfactorily explained.

Christianity shuns life in the real world as of no value, but only as a preparation for the "hereafter."

CREATIVITY'S basic goals are (a) the Survival, Expansion and Advancement of the White Race. (b) A Sound Mind in a Sound Body in a Sound Society in a Sound Environment. (c) To build a new, a Whiter and Brighter World.

Basic Books

CHRISTIANITY is based on: (a) THE OLD TESTAMENT, which is basically a self-concocted history of the Jewish Race (the Israelites) and Jahweh's unending devotion to, and love affair with, this parasitic tribe of Semites. There is not a shred of historical basis to its concocted "history," nor is there any scientific evidence for its Creation hypothesis of the World being "created" 6000 years ago in a 6 day period. The Old Testament constitutes 75 per cent of the "Holy Bible" and never so much as mentions Jesus Christ. (b) THE NEW TESTAMENT. It is all about the life of a circumcised Jew named Jesus Christ, who supposedly lived circa 1-33 C.E., but again not a shred of historical evidence to verify this story. The teachings of Christ were already promoted by a small religious cult called the Essenes, who pre-dated the supposed Christ era by a century.

CREATIVITY — is founded on three basic books: (a) NATURE'S ETERNAL RELIGION — lays the foundation for the religion of CREATIVITY. (b) THE WHITE MAN'S BIBLE — reinforces and expands upon the first book, and introduces the idea of Salubrious Living — a program for achieving the ultimate in superb health and well-being. (c) SALUBRIOUS LIVING — spells this program out in detail — including the details about nutrition, fasting, exercise, environment, and eugenics. Spelled out in 14 specific points.

Basic Beliefs are Founded Upon:

CHRISTIANITY — beliefs are based on the supernatural. Essentially geared to denouncing the real world and focusing on a fictitious heaven and a hell in the "hereafter." A collection of superstitions, myths and fantasies that appeal to the naive and gullible, but are an affront to any informed, reasoning man or woman.

CREATIVITY — beliefs based upon reality — the Eternal Laws of Nature, the life and welfare of the White Race on this Planet Earth. Based upon the Experience of History, and upon Common Sense.

Racial Attitudes

CHRISTIANITY — promotes the idea that we are all equal in the eyes of the Lord (except the Jews are his overwhelming favorite) and therefore race-mixing is just great. Also, we owe the less fortunate (the niggers and the mud races) everything we have. We should love them, marry them, feed them and house them. (Sell all thou hast, love our enemies, etc.)

CREATIVITY — takes a completely opposite view on the racial position. We follow Nature's Eternal Laws, which clearly state: take care of your own. CREATIVITY views mongrelization of the White Race as the ultimate horror and does not view the Jews as "God's Chosen." Rather it categorizes the Jews as mankind's most persistent parasite, and a major disaster for the White Race. Our GOLDEN RULE says it all: What is good for the White Race is the highest virtue; what is bad for the White Race is the ultimate sin.

After 5000 years

Israel, A Parasitic Nation

Still unable to either sustain or govern itself.

On the following pages we have reprinted an article that appeared in the regular Jewish establishment press on June 1. In fact, it appeared in the Atlanta Constitution, but that is not as significant as that the headline in itself is misleading and belies the text of the article.

The headline would lead one to believe that the Israeli currency is being kept sound, by some means or the other, evidently American "floorboard dollars." However, this is a lie. there is hardly an economy in the world that is as unstable and unsound as it is in Israel. Nor is there a currency in the world that is more worthless and subject to a higher rate of inflation. In the last year that rate has sometimes bounced as high as an annual rate of 1300 per cent. The Israelis themselves have absolutely no confidence in it, and trust neither it nor their government.

Despite the fact that Israel (thanks to the Jewish powerhouse throughout the world, and especially in the United States) is the most subsidized little nation in the world, it is a miserable place to live, even for the Jews. It is racked with strikes, inflation, dissension and discontent. This despite the fact that Israel is receiving at least 3.4 billion American dollars in free aid and charity from the United States government (read U.S. taxpayers). Foreign Jews, especially from the U.S., float huge bonds, which benefits are sent to Israel. On top of that as many as 3.5 million Jews in Israel and other countries now get "restitution" payments from a supine German government on top of all the other loot they manage to finagle and extract from the goyim abroad. All this thievery accrues to about $10,000 per year for each Jewish family of four. Talk about successful parasites! Talk about accomplished thievery! Who was it that said crime doesn't pay?

Now you would think that with all this free subsidization, this ancient pesthole of the world would be rolling in luxury, a virtual land of milk and honey, as the Jewish Bible likes to envision God's Chosen.

But it isn't. It is a miserable place with no future of its own. It not only has one of the highest inflation rates, but also one of the highest emigration rates — Jews who have had a taste of their own communistic brew are moving out. The only factor that keeps the entire population from disappearing is the fervent and misleading propaganda in foreign countries inducing new Jewish victims to move in.

The Jews are, in fact, as adept at lying to their own people as

they are to the goyim. But it can't last. Israel is doomed. As soon as the White Race comes to its senses and stops subsidizing this virulent pesthole, it will collapse like a pricked balloon.

It is the goal and unswerving determination of the CHURCH OF THE CREATOR to help bring this about as quickly as possible by straightening out the confused, scrambled thinking of our White Racial Comrades. Let us hasten this day. Without the misguided subsidization by the White goyim Israel and the whole stinking Jewish network would disappear faster than a snowball in the proverbial (Jewish) hell. Then, no longer protected by a subservient and toadying United States, the 120 million hostile Arabs that surround Israel would rapidly close in and demolish every last vestige of what was once the world's foremost parasite.

'Floorboard dollars' keep currency sound across Israel

By Michael Widlanski

TEL AVIV — A bank clerk here the other day was trying to do "a good deed" for a longtime customer, and, at the same time, for the crisis-ridden Israeli government.

"Now that your son was born," the bank clerk said to the customer, "it would be a good idea to open up a savings plan in his name."

"No thanks," responded the customer, warily eying the clerk. "I don't want my money in the bank."

"Don't be foolish," said the clerk insistently. "Here, you'll get a savings plan where your savings (in shekels) will be linked to the dollar and to the rate of inflation plus a few per cent interest."

The wary customer did a quick bit of calculating before responding to the attractive offer. He took into account that the government's rate for the dollar — about 1,000 shekels to one greenback — was over 35 percent less than the rate offered on the Israeli blackmarket, where one dollar brings 1,350 shekels.

"I'm sorry," said the bank customer. "I'm just not interested."

What the customer did not tell the bank clerk — but what the clerk probably knew anyway — was that he had put nearly all his savings into what is popularly known here as "floorboard dollars," so called because most Israelis have been keeping their savings in dollars or other hard currency under their floorboards or under their mattresses.

Most Israelis have come to the conclusion that the government, which is short on revenues but long on expenses, will try to attack private assets in some way or to lower its own debts by taking forced loans from private bank accounts or by a one-time major devaluation of the shekel.

Under these various scenarios, the worst nightmares of most Israelis, the government will thus try to cover its own growing budget deficits and decline in foreign currency reserves with private money.

The Israeli government, whose budgetary expenses actually exceed its gross domestic product of around $20 billion, has protested — in the person of Finance Minister Yitzhak Modai — that it "will not touch the savings of the individual Israeli."

But Israelis have long since stopped believing in their government.

"I don't believe anything they're saying anymore," declared Orah Lipsky, an American-born educator who lives in Jerusalem. She said she was especially upset by the government's recent decision to raise the travel tax to $300 along with another 20 percent on the price of airline tickets.

For Mrs. Lipsky, her husband and two children, this means that what used to be a $2,000 trip to visit her parents in New Jersey has become overnight a trip that costs close to $4,000 just for airfare and government taxes.

"It's an outrage," said Mrs. Lipsky. "I feel like a prisoner of conscience. I don't think they (the government) have any economic plan."

Beyond the travel tax, the Israeli government also decreed that the value added tax (VAT) — a kind of national sales tax on every good and service — would rise from 15 to 17 percent.

"What this gigantic government really has to do it cannot do because it has to please 25 different ministers, and therefore it cannot cut public spending," asserted Nehemya Stressler, economic reporter for the liberal morning daily paper, *Ha'aretz*.

In less than two months, the black market rate for the dollar has practically doubled as thousands of Israelis and Israeli institutions cashed in their savings and pension plans and bought dollars on the black market or rushed out to buy luxury items such as new cars.

Already, however, senior government ministers are talking about imposing a new tax on all cars, no matter how old, owned by the public. This would be in addition to the numerous taxes and customs levies on new cars that have raised prices to astronomical levels.

A mid-size sedan, for example, which would cost five or six thousand dollars in Britain, Germany or the United States, costs "only" twenty-four to twenty-nine thousand dollars (in shekels) here.

Despite the high price of cars, however, Israeli dealers have reported that all their stocks have been bought out through the end of the summer.

"Everybody's buying now," said Danny Tzarfati, a car dealer here, "because they know the government will only tax it even more."

The Festering Ulcer on the Soft Underbelly of the United States

It is 2000 miles long and could prove to be fatal. It is spelled Mexico.

We have repeatedly stated a proven fact of history: **Territory on this Planet Earth belongs to those who conquer it and have the will and the means to hold it.**

In 1846 one of our greatest Presidents, **James Knox Polk**, decided that actions spoke louder than words and decided to do something meaningful to bring about the expansion of the then young republic. The idea of Manifest Destiny was then still an exciting dream in the hearts of many White Americans and the urge to push westward was strong.

Carried into office on a wave of renascent nationalism, Polk envisioned a United States that would span the continent from the Atlantic to the Pacific by peaceful means if possible, by force if necessary.

Despite the fact that the slavery controversy overshadowed every other issue of the day to the point where most politicians couldn't think straight, President Polk decided to take action. In a bloody war that lasted two years the Americans gave the mongrelized Mexicans a thorough drubbing that they have not forgotten to this day. (Read again C.C. No. 33 in the White Man's Bible "The War with Mexico, 1846-48 — An Unfinished War." Also C.C. No. 32 "Manifest Destiny.")

In the Treaty of **Guadalupe Hidalgo** that followed the resounding victory of the White Man over the mestizo, Mexico ceded the Territories of New Mexico, Arizona and the balance of the southwest, including the state of California. What with coming to terms with Great Britain regarding the Oregon Territory, Polk expanded American territory by 50 per cent, a creditable achievement.

We Creators deem the Mexican War as one of the few meaningful wars fought by the United States that constructively accrued to the benefit of the White Man. We also regard the eleventh president, James K. Polk, as one of the greatest, and although subse-

quent revisionist Jewish history writers have tried to ignore both Polk and the Mexican War, we mean to refocus attention on both the man and the event and give this great man the honor and recognition he so fully deserves.

As we all know, within 13 years after this great step forward, the United States was rent asunder by the suicidal and fratricidal Civil War — a war fomented and instigated by the Jewish banking house of Rothschild. From that time onward the official United States racial policy has, both overtly and covertly, been anti-White, pro-nigger, pro-Mexican and pro-mongrelization of the White Race.

Most nations throughout history have guarded their borders zealously as being inviolate and any breach of such boundaries, or invasion of territory, have been immediate cause for a declaration of war. Also immigration policies have, in the civilized countries of the world, been most strictly and carefully regulated to keep out all, except perhaps the most desirable of prospects, granting citizenship only to those few who could measurably contribute to the welfare of the state. Illegal entries have from time immemorial been regarded as criminal violations of national law, with severe consequences.

How well has the United States of America been adhering to such time-honored laws and precedents to safeguard the state, its citizens and its territory?

Ever since the Civil War, when the Jews gained ascendency in financial power and political control, it has been at first covertly, to mongrelize the White builders of this once great country. The so-called Reconstruction Period following the Civil War was a giant step in that direction. What the Jews were really reconstructing was a badly devastated South to conform with their now well established policy of destroying the White Race and replacing it with a mongrelized horde of mulattoes and Mestizo Mexicans.

In the endeavor of promoting and expanding the already large segment of niggers in the South, the Jews were predominantly successful, and continued to be until the beginning of WWII, that largest of all suicidal and fratricidal wars for the destruction of the White Race. During WWII the Jews launched a new era of proliferating the nigger population of the South into the defense industries of the major cities of the North. How well the Jews have succeeded in this endeavor can be gaged by the fact that practically every major city of the North now has a nigger mayor — Chicago, Detroit, Washington D. C., Philadelphia, you name it. The few exceptions are cities like New York, which have Jew mayors, but finding a city today that still has a White mayor is getting harder each year.

But it was not until the last two decades that the Mexican flood from South of the Border has virtually become a deluge. The Mexicans, only a minor genetical cut above the niggers themselves, are

even more prolific breeders of their kind than are the sexually uninhibited niggers.

At the turn of the century one historical observer commented: "Poor Mexico, so far from God and so near to the United States."

Today the tables are reversed. Today it would be more appropriate to pity the poor United States as being locked into the same continent and next to a neighbor that had a disease that was inherently contagious and rapidly spreading. It is now **"Poor United States — so near to Mexico."**

Mexico now has one of the highest birthrates in the world. Although poorly fed, its burgeoning population is doubling every 20 years, and this is mainly due to the assistance from, and its proximity to, the United States. If these mongrelized Indians were adequately fed they would multiply even faster and probably double their population every ten years.

The 1,950 mile border line between Mexico and the United States is to the White Race an open canker, a running sore. The U.S. government pretends to make a halfhearted attempt to patrol that border but it is a dismal failure, and deliberately so. The Jew controlled United States government has no intention of keeping the Mexicans out, and its Mickey Mouse games of chasing Mexican violators crossing the border by the millions is a poorly disguised sham and an obvious fraud.

In a backward land that is beset with unemployment, poverty, disease, ignorance and overpopulation, **it is the fervent goal of nearly every one of the more than 70 million Mexicans to realize the "American Dream" and migrate to the United States. With the lax immigration policy and the next to useless enforcement of the border patrol, it is relatively easy to do so.** All they have to do is sneak across the border — a 1,950 mile line — and take their chances of getting caught. What happens if they get caught? Nothing more than a slap on the wrist. They are politely transported back into Mexico, to try again and again, as many times as they wish.

Aided and abetted by their racial cohorts already here, it is relatively easy to get lost in the massive Hispanic population that now is already residing north of the border. There are approximately 20 million Hispanics in the United States that are already either citizens or "legal" residents. There are another ten million here that are illegal aliens, and that number is growing rapidly. And small wonder, the Jew controlled government is officially and unofficially giving them every encouragement. President Carter proposed that we give legal status to all illegal aliens from Mexico, provided they hadn't just recently crossed the border (like the day before yesterday). President Reagan has talked about elimination of the border

altogether and take them all in like one big happy family. And sooner or later, I am sure both suggestions will be enacted into official government policy. Only it will not be one big happy family. It will spell the death of the White Race. Like the story of the camel with his nose in the tent, the Mexicans will want the whole country, not just part of it, as soon as the Jews have beefed up sufficient political muscle.

If there is one thing we should have learned from past history, it is this: there is no such thing as the White Race appeasing an alien minority in its midst. At first these miserable wretches appeal to our pity. Like charitable chumps, we feed and subsidize them. They then (like the Cubans in Miami) want a token political representation. We accede to this also. As their numbers increase, they soon become the political majority and take control. Once in control they take over completely and practice blatant racial discrimination, no holds barred, and soon drive the White Man out of his former home territory. I have seen a number of sorry bumper stickers in South Florida reading, "Will the last American leaving please bring the flag with him." A wimpy, but sorry comment indeed. Contrast this with the bold and aggressive action taken by President Polk, who did just the opposite, taking over territory from the mud races, and I am sure you will understand why we Creators consider him as one of our greatest.

When this racial takeover happens on the national scene, as it soon will, we will see the Mexicans, the niggers, the Hindus, the Japanese and every other mud join hands to gang up on the White Race to drive it to extermination. This may or may not ensue in a bloody racial war, depending on whether the White Man chooses to make a last ditch stand. The end result will be as it was in Haiti — the former colony of San Domingo. (Read again Creative Credo No. 30 in the White Man's Bible entitled the Grisly Lesson of San Domingo — "A Forerunner of White America")

We of the Church of the Creator take the position that there is only one solution to this escalating canker on the soft underbelly of the United States and it is this:

1. The White Race must get control of its own destiny by wresting control from its present Jewish masters.
2. In order to do so we must polarize around a powerful no-nonsense racial religion.
3. Once we have done so we must cleanse our country of alien racial elements, and make it secure for the White Race.
4. One of the first steps in doing so would be to set up machine guns and close the Mexican border. Let them know we mean business and ruthlessly mow down any invader who challenges our sovereignty.

5. The second step is to relentlessly seek out every illegal alien and ship them back to Mexico, with the dire warning that they will be shot if they should try to return.

6. The third step is to first encourage, then use stronger measures, to deport every Mexican out of the United States across the border into Mexico. To those bleeding heart Christians, liberals and Jews that will bemoan such policy as being unduly harsh, we pose this question: Why is it that you do not lift a finger of protest when the Jews are doing the very same thing to the Arabs in Israel and driving them off their land, territory the Jews have stolen from the Arabs as recently as 35 or even 20 years ago?

7. Whatever the cost, we must clean up this country from the mud races and alien hordes that are now taking over, then expand our own until this Planet Earth becomes a safe and viable place for the White Man to live, prosper and enjoy.

Remember, NATURE offers no booby prizes for second place. She penalizes with OBLIVION those species who fail to hold their own in the fierce struggle for survival.

* * * * *

There is a fierce racial war going on. The White Race pretends to ignore it, and is coming out a sorry loser.

* * * * *

A Jew's first loyalty is to his race and Israel. They will readily sell out and betray any country they live in on behalf of Judaism.

The Camel in the Tent

There is an old Eastern fable about an Arabian merchant named Mohammed, his camel and his tent. This story has a compelling lesson that, I believe, reflects significantly on our idiotic attitude towards Mexico in particular, and, in fact all the mud races of the world in general.

Once upon a time there was a Sultan who had eight beautiful, but very spoiled daughters, whom he loved to indulge in their every whim. They wanted some new jewels and some fine clothes that could not be bought in their native city of Taza.

The Sultan sent a message to Mohammed, the very best merchant in the city of Fez. He ordered fine silk dresses of many colors, and coats embroidered with gold. He ordered soft leather slippers of red, yellow and green, and jewels of gold and coral.

Mohammed gathered up all this expensive merchandise and prepared for his trip to Taza. Early in the morning he called for his camel. He tied the trunks and cases and things to the camel's back, climbed up on the high hump and set off across the desert to Taza.

After awhile the sun grew burning hot, and Mohammed put up his red silk umbrella. Just before he reached Taza the sun went down. The desert wind began to blow and it became very cold.

Mohammed put up the tent and took the trunk and cases inside with him. Cozy and warm, Mohammed soon went to sleep. Before long he was awakened by loud groans and moans outside the tent.

"What's the matter out there?" inquired Mohammed.

"Oh, Master, I cannot sleep," said the camel. "All day I carried you across the desert and now I am tired, and the wind blows cold. Please, let me just put my nose inside your tent."

"Very well," said Mohammed. "You may put your nose inside. I feel sorry for you."

The camel put his nose in the tent and Mohammed went back to sleep.

In a short while the camel began to moan and groan again.

"My legs are cold and stiff from walking all day across the desert. Please let me put my front legs in the tent so I can go to sleep."

"Yes, yes, you have walked far. You may put your front legs in the tent so we can both get some sleep."

This the camel did and Mohammed went back to sleep.

Soon the camel said, "I cannot sleep. My head and front legs are warm but my hump and back legs are cold. Master, may I put them inside the tent?"

Mohammed was half asleep and wanting to appease his camel, he said "Yes, yes, you may."

The camel moved in all the way.

It was a small tent, and once inside, the camel said to himself, "There is not room in here for all those trunks and cases." So while his master was asleep, he pushed them all out. He pushed so hard the trunks opened. The wind blew away the beautiful dresses and robes and little slippers. The jewels were soon covered in the drifting sand.

Still the camel was not comfortable. "Both of us can never sleep in this tent," he said to himself. "The master will have to go."

So he pushed and pushed again and soon Mohammed found himself out in the cold. Then at last the camel went to sleep.

When Mohammed awoke in the cold gray dawn, he was cold and stiff and very miserable. When he saw that all the fine clothes had blown away and the jewels were nowhere to be found, he cried, "Allah, have mercy! What will the Sultan say to me?"

Mohammed went to the palace in Taza. He told the Sultan that everything had blown away and he had nothing but empty trunks.

The eight beautiful daughters were very unhappy. The Sultan was very angry.

Mohammed promised he would go back to Fez and make more beautiful dresses and things.

The Sultan forgave him and said to Mohammed, **"Never let a camel get his nose in your tent. When you give the foolish a little, it is never enough. They are never satisfied until they have it all."**

* * * * *

The White Race could learn a very valuable lesson from this little story. We have had our brains scrambled by such perverted Jewish-Christian shibboleths as — sell all thou hast and give it to the scum, love your enemies, etc., that we can't think straight. By being so insanely compassionate to the point of stupidity towards all the hordes of destitute mud races of the world, the scum will soon possess our country and we will soon be out in the cold, and our lands and properties despoiled as well.

Comparative Religions —

Part IV

Catholicism — Roman

One of the oldest and most enduring corporate structures in the world is the Roman Catholic church. It is also the oldest and largest franchise holder that exists today. Its worldwide headquarters are in Vatican City, Rome, Italy.

More so than the deceptive merchandise it has peddled for nearly two thousand years, it is the well structured organizational lines of this model institution that has enabled it to grow and persevere through all these many centuries. It has become and remained the model for the thousands of sects, cults and religions that are its off-shoots and today flourish under the umbrella of Christianity. The Roman Catholic church was, and remains, the wellspring of all these fragmentary Christian facsimiles, although few of them will admit this well established historical fact. On the contrary, many of these Christian imitations will roundly condemn the Catholic church, have waged war against it, and some have even denounced it as being the Church of Satan.

Just what are the origins of the Roman Catholic church? In answering this question we go back to the Essenes, a minor Jewish sect that existed around Qumran, on the shores of the Dead Sea, in the first century B.C.E. and the first century C.E. The Essenes taught most of the suicidal principles as supposedly enunciated by a fictitious Jesus Christ in the much touted Sermon on the Mount, and preceeded the fictitious Christ by more than a century. Their ideal leader was the Teacher of Righteousness, they practiced celibacy, communal properties, pacifism, self-denial, loving their enemies and most of the other wimpish ideas attributed to Jesus Christ, the holy guru of the Roman Catholic church. It is extremely noteworthy that with such self-destructive ideas as the basis of their religion the Essenes lasted not more than two centuries.

It was during the First Century C.E. that the wily Jew, Saul of Tarsus (the Christians' St. Paul) conceived the brilliant idea of undermining the then powerful and flourishing Roman Empire and turning their noble and proficient warriors into pacifist beatniks. He observed how these suicidal and self-destructive ideas of the Essenes were attractive to the poor, the destitute, the incompetent and the underdog. Since Rome, during the first century, had accumulated a massive slave population that fitted this category, he had a fertile

field to work in. He and his Jewish cohorts went about spreading these suicidal teachings with a vengeance and spread this new doctrine with unbounded zeal the length and breadth of the Roman Empire. The fire that sparked this tremendous zeal was vengeance — hatred and revenge for the Roman conquest and destruction of Jerusalem, the Jews holy city, in 70-72 C.E.

At first the early Christian adherents were mainly derelict Jews and disgruntled misfits from the then amorphous slave population of Rome. However, by the end of the second century the Christians began to adopt the highly efficient organizational lines that the Romans had developed in both their military and governmental structures, and soon Christianity began to take off. It was not until they enlisted the cooperation of that cruel and treacherous Roman Emperor Constantine, in 312 C.E. that they became the Supreme religion of the realm and a deadly world powerhouse that has survived to this day. It has been the major force in the history of the White Race during the last 17 centuries. It has been the source of innumerable wars between nations and factions of the White Race, of which the Thirty Years War (1618-48) was one of the most destructive in European history.

It has also been the major organized vehicle by which the Jews have scrambled the minds of the goyim and gained worldwide ascendancy and power. Since I have told this story in the previous issues of Judaism and Christianity, and especially Marcus Eli Ravage's keen analysis (*Confessions of a Jew*) I need not repeat it here.

Through its unbending and intolerant dogma, because of its efficient organizational structure, and because of its fanatic aggressiveness, by the Middle Ages (also better known as the Dark Ages), the Roman Catholic hierarchy, built along monolithic lines, became the supreme power structure of the world.

The base of the Roman Catholic church was established in the former great capitol of the Roman Empire just as that Empire was beginning to crumble. In fact, the more the Empire disintegrated, the stronger became the church, and the latter was, in large part, the cause of the collapse of that great bastion of civilization, just as Saul of Tarsus and his Jewish cabal had planned. According to the Christian story Christ told the Apostle Peter, "Upon this rock you shall build my church," which is the basis of St. Peter's Basilica in Rome.

Furthermore, the Catholic church claims that Christ appointed Peter as his successor, his Vicar upon the earth, and as such, the first Pope of the Catholic church. All this actually has no historical basis in fact, any more than the story of Mother Goose or Santa Claus. There is no authentic historical evidence that either Christ, or Peter, or Matthew, Mark, Luke and John ever existed. There is

considerable evidence, however, that the wily Jew, Saul of Tarsus (The Christians' St. Paul) indeed did exist and that he conceived and orchestrated this phenomenal conspiracy that eventually led to the collapse of the great Roman Empire.

Be that as it may, by 325 C.E. Christianity became a power to be reckoned with when Emperor Constantine was seduced into its embrace. With the Emperor heading it up and lending to it the prestige, finances and authority of the Empire, Christianity was now well on its way. That same year at the **Council of Nicaea in Asia Minor, Constantine assembled all the Bishops of the church to a meeting where the Christian Bible was patched together.** Collecting all the then extant myths, manuscripts, letters and what else was available, the authoritative Catholic Bible was hammered out over a period of approximately six months. When the squabbling bishops could not agree, or would not bend to his will, Emperor Constantine threatened them with the might of his troops who ringed the building.

From then on Christianity, which was the exclusive property of the Catholic church, spread rapidly. During his reign Constantine founded the city of Constantinople on the Bosporus. As Rome declined and Constantinople prospered, the latter became a powerful rival to the authority of the Church of Rome. This culminated in the **Great Schism** in 1054 C.E. when the eastern segment split from Rome and became the **Greek Orthodox Catholic Church**, with its own Pope and its own religious hierarchy. It has remained so to this day and embraces most of the Catholics of Greece, Russia, Albania, Romania and Eastern Europe in general. It is also known as the **Eastern Orthodox church**.

Meanwhile, by the 16th Century the Roman Catholic clergy in Western Europe had become so corrupt that a revolt was brewing against the authority of the Church of Rome.

One of the most flagrant abuses that flourished during the Middle Ages was the massive sale of Indulgences. This racket was as big as a national lottery, the present day drug traffic, and the bootlegging era of the 1920's combined, and might I say, just as odious. It was, in essence, blatant blackmail at its worst, extorting money from gullible people because of their fear of hell — a fictitious hell that didn't exist. The Catholic church had a great bonanza going for itself, and it pulled out all the stops. Anyone protesting or exposing that nefarious racket was declared a heretic and suffered the consequences.

The basic idea of indulgences was fairly simple. You could buy your way out of purgatory, or hell, and buy salvation all the way into heaven. But in order to really squeeze the last shekel out of the gullible victims, it was done by stages, with always one more stage to go.

The bishops (or the Pope for the wealthier victims) would in return write an "Indulgence" on a slip of paper, absolving the victim from certain sins, or moving the souls of deceased relatives a little further out of purgatory in towards heaven. In any case, tens of millions of little slips of paper were written and sold for billions of gold and silver coins. The Church had a real gold mine that enabled them to build stupendous cathedrals, abbeys, basilicas, and what have you. It was the main source of revenue for the building of Saint Peter's basilica in Rome. The latter is still the largest and most ornate church in the world today, despite the fact it was built between 300 and 400 years ago.

Finally, because of the scandals over the Indulgences racket and other major abuses and corruptions in the priesthood, a revolt sparked by Martin Luther, erupted in Germany, and there was a widespread cry for reform. When the ruling German princes and representatives of free cities joined in the protest against the (Catholic) Imperial Diet of Speyer (1592) forbidding any expansion of reform, the revolution broke wide open. It soon spread to other countries and became known as the Reformation and its followers as Protestants.

From there on out, as we all know, the Protestant religions split into hundreds, then thousands, of different factions as they exist today. But that is another major story, too long to be recounted here.

The hierarchy of the Catholic church used every means at its disposal to stem the tide, and its means were manifold and powerful. It used excommunication, terrorism, torture and outright warfare and military force to try to suppress the rebellion. (Read again, "Thumbscrew and Rack," Creative Credo No. 51 in the White Man's Bible.)

As a result of that rupture, innumerable religious wars have been fought by different factions of the White Race. The most bloody, cruel and destructive of all was the Thirty Years War (1618-48), that involved almost every country in Europe. It devastated the German states in particular and left them in shambles. This religious war, in the name of God, Jesus Christ, love, peace and charity, killed two-thirds of the German population and destroyed five-sixths of all its physical properties.

Speaking of torture and terrorism, thumbscrew and rack, in all fairness to the Catholic church, the Protestants, such as Zwingli, Calvin, and others, were just as fanatic as was the Catholic church. They, too, used terror and torture, burning at the stake, thumb screw and rack, to lovingly persuade the "heretics" not to think for themselves but to stick to the proscribed line as ordained by the church hierarchy.

But when it came to wholesale massacres, the Protestants, because of their fragmentation, could not match the Catholic church.

One of the most notorious of these massacres (of those who would not agree with their brand of hocus-pocus) was the St. Bartholomew's Day Massacre in France in 1572.

On August 24, Paris was filled with many Protestant nobles who had come to celebrate the marriage of Henry of Navarre and Margaret of Valois, the sister of Charles IX, King of France. In a bloody massacre that also spread to the provinces and lasted several days at least fifty thousand Huguenots (French Protestants) were slaughtered, with the sanction of the King of France, to the glee of the King of Spain, and in Rome, the tacit approval of the Holy Pope himself. It was hailed as a major victory by the Catholic church, and successfully stamped out the Protestant movement in France.

Despite all the corruption, rackets, scandals, swindles, wars and massacres, the Catholic church not only has survived with its spooks-in-the-sky racket, but has thrived as no other Christian religion in the world. It is the largest and most powerful of all, numbering an astronomical 579,562,300 members in the world. Since there are supposedly a total of 997,503,641 (1981) Christians running loose in the world, the Catholics constitute a whopping 58.1 per cent of the total. Because of the large preponderance of Catholics in the Latin American and other mud countries of the world with their fecund birthrate, Catholicism is also numerically by far the fastest growing Christian denomination.

* * * * *

By means of terror, torture and tyranny, the Catholic church had, by the Dark Ages, perfected the Jewish techniques of total mind enslavement that is now used so effectively by the Communists of today.

* * * * *

I did not really appreciate the infamies that had been committed in the name of Religion until I saw the IRON arguments the Christians used.

Roman Catholicism vs. Creativity — A Comparison

A. Basis of Belief.

CATHOLICISM is based on the Jewish-Christian Bible which the Catholic church itself compiled from a collection of myths, legends, letters and remnants of other ancient religions that preceded it. It was not until some 300 years after its mystical beginnings that the Vulgate Bible itself was put together. This was done under the iron hand of Roman Emperor Constantine at the Council of Nicaea in 325 C.E.

Among other things, it recycled the story of the crucified Savior that had been used by 16 other ancient religions that preceded Christianity. The Bible consists of the Jewish Old Testament, which comprises of approximately 76 per cent of its content, and the New Testament making up the last 24 per cent. They are ostensibly two completely different breeds of cat and do not belong together. The ideology in the two books are completely at odds and contradict each other, but this, too, is blandly glossed over.

The Catholic hierarchy, as already stated, compiled the Jewish Christian Bible as they saw fit, then claimed God wrote it and gave to it, the Catholic church, sole authority to be his one and only spokesman on earth. Essentially, it is based on the same spooks-in-the-sky hocus-pocus as has been promoted by thousands of other primitive religions and superstitions that are mankind's sorry hangover from the Stone Age.

CREATIVITY is based on the Eternal Laws of Nature, on the Lessons of History, on Logic and on Common Sense. It does not believe in any of the spooks-in-the-sky nonsense, nor does it believe in pie-in-the-sky, nor the idea of fry-in-the-sky in a hereafter.

B. Goals and Objectives.

CATHOLICISM claims to represent Christ's Kingdom on earth for the purpose of saving people's souls from going to hell. Why their Father, Son and Holy Ghost ever created hell and the devil in the first place, it has never adequately explained. Nor has it ever been properly explained why an all powerful God would tolerate the continued existence of a wicked devil in his domain, who supposedly is subverting the overwhelming majority of mankind to end up in hell.

CREATIVITY is realistic and down to earth in its objectives and seeks to build a better world for mankind of the future here on earth, the only place man is known to exist. By promoting a Whiter and Brighter World, it seeks to solve the many real problems that afflict the world we live in and build a society that is prosperous, healthy, happy and stable.

C. Racial Attitude.

CATHOLICISM is multi-racial, strongly promotes integration and race mixing. It has done so since its inception and especially so since the Catholic Portuguese and Spaniards settled North and South America. Today, it is outright hostile to the White Race and strongly favors the rights and interests of the niggers, Indians and mud races of the world. From its inception, the creed and teachings of the Catholic church have been an unmitigated disaster for the White Race.

CREATIVITY, on the other hand, is dedicated to the survival, expansion and advancement of the White Race alone, with the ultimate goal of populating this Planet Earth exclusively with an intelligent, orderly White Race.

D. Organizational Structure.

Both CATHOLICISM and CREATIVITY are based on the monolithic Leadership Principle. In matters of organization we can learn much from the Roman Catholic church, which has endured for nearly two millenniums, the oldest institution of its kind in the world.

Saving our Precious Planet from becoming a Poisonous Garbage Dump and a Human Pigsty

Part II:

NUCLEAR POLLUTION.

The so-called leaders of today do not represent the White Race. In fact, the "accepted" leaders in politics, religion, industry and finance have consistently and repeatedly sabotaged the White Race while talking out of both sides of their mouths. They have, in the past, deceived us, betrayed us and lied to us. They are doing so to-day. They will continue to do so until the White Race finally takes precipitous action and takes unequivocal control of its own destiny into its own hands.

The politicians have sold us out to the Jewish cabal. The religious leaders are peddling the spooks in the sky swindle. The medical profession has doped us and duped us into believing that drugs (toxic chemicals) have some magic power of healing when in reality they are toxic to the human body. The Federal Reserve is run-ning the world's largest and most powerful counterfeiting ring, all at the expense of the hard working White American taxpayer. Our politicians will not expose them. On the contrary, they will defend these counterfeiters, run interference for them and willingly enslave the productive people of America to this treacherous gang of paper shufflers. The industrialists, hand in hand with the government, are destroying our environment, and turning the Planet Earth into a poisonous garbage dump. In all this, we must consider the United States government the main culprit, Public Enemy No. 1, not because it is the real power, but because it is the visible and accepted legal entity that makes and enforces "the Laws of the Land."

Last month we examined the proliferation of hazardous chemical wastes, and how the land, the air, the rivers, the lakes and the oceans are becoming dangerously polluted and contaminated to the point where no one can any longer escape the effects of the poisonous en-vironment that envelops us. Our government is not solving the pro-blem. It is, in fact, evading the issue and lying to us. Meanwhile the

problem will not go away, but on the contrary, the poisonous garbage is piling up and becoming more ominous as each day passes.

There is another alarming proliferation that is increasingly poisoning our environment and that is radioactive pollution from an ever growing expansion of nuclear substances, and I do not limit this statement only to military nuclear bombs and missiles. Whereas nuclear military hardware poses a very real threat that could suddenly escalate into a mighty thunderclap that could end all life on earth, there is a more deadly, more certain aspect to the nuclear threat. It is grinding away daily, and that is the commercial expansion of atomic power and the increasing pile-up of radioactive garbage that has nowhere to go.

In this respect, again, our political leaders have repeatedly lied to us and deceived us about the real dangers, the real situation.

As recently as 43 years ago, there was no radioactive garbage from nuclear substances anywhere in the whole wide world, or at least it was so insignificant it could safely be ignored. Twenty years ago it was only of a small quantity. Today the radioactive waste from the military, some of it dating back to the first atomic bombs, is stored "temporarily" in 169 underground steel tanks, each with a capacity of 500,000 to 1 million gallons at the Hanford Reservation in the state of Washington; in more than 100,000 fifty-five gallon barrels stacked in long rows, one on top of another, at the National Engineering Laboratory in Idaho Falls, Idaho; and in fifty underground steel tanks, each with a capacity of from 750,000 to 1.3 million gallons, at the Savannah River plant near Aiken, South Carolina. These are in "temporary" storage areas, designed and built to hold this extremely dangerous toxic waste for only a few years, or a few decades at best. These wastes were then to be transferred into "permanent" disposal sites, a problem that to this day has never been designed, or solved, and as the garbage continues to increase, the solution seems further away than ever. These "temporary" radioactive waste sites have, for lack of a place to go, become permanent sites, and, in fact, ticking time bombs.

But this is only part of the story. In the 1940's the government allowed federal contractors to pour 37 million gallons of radioactive liquid waste into shallow wells at Tonawanda, New York. It kept this treacherous secret to itself for 35 years, until the New York state assembly Task Force on Toxic Substances in 1980 uncovered documents describing this nefarious practice. This sleazy practice could hardly be condoned as resulting from ignorance, or the "exigencies" of war. If so, it is carrying on a sort of lasting warfare against its own people, on our own soil, a radioactive blight that will spread and linger for thousands of years. But be that as it may, a decade later when no war was being waged, the government's policy of

deception and secrecy still prevailed (as it does today). In the late 1950's the Atomic Energy Commission (AEC) withheld information about radioactive liquid that had leaked out of its storage tanks at the Hanford, Washington, nuclear installation. In a report in Jan. 1959, an official responsible for managing Hanford's waste, testified before a Joint Committee on Atomic Energy, "No environmental hazard will exist as long as the tanks maintain their integrity....We have never detected a leak from these tanks, so we are in turn per-suaded that none has ever leaked." A year later (1960) the AEC asserted in its annual report that "the waste problems have proved completely manageable....In more than a decade of tank storage at Hanford no leaks have been detected."

But they were lying. The tanks had started leaking at least two years earlier back in 1958, and they knew it. What had begun was the inevitable that could be expected — the steady deterioration of the tank farm that the AEC had once said would last at least four or five decades. But the public didn't learn of this disaster until many years later. By 1973, in one year alone, 115,000 gallons of highly toxic nuclear waste drained into the ground from one single tank. Nearly 100 gallons of the deadly toxic liquid poured into the ground every hour for 49 days before it was even discovered.

This was from one tank. By 1980 a government report identified 20 of the 156 tanks as "confirmed leakers," and 38 more were classified as of "questionable integrity." Knowing the governments track record of lying to the people, **the actual problem was pro-bably much worse.**

I cite the above cases as typical of many more, since it is not within the scope of this brief article to cover the sorry record of the government's repeated failure to come to grips with the disposal of deadly nuclear waste, or of squaring with the people.

So far I have cited only the military segment in the creation of toxic nuclear wastes and their criminal neglect in containing and/or disposing thereof. But it might shock you to learn (as it did me) that the military segment creates only 9 per cent of all deadly nuclear wastes in the United States and **the commercial industrial seg-ment creates the other 91 per cent, in other words approx-imately ten times as much.**

Here are some figures: Defense waste in the United States by 1984 amounted to 1.5 billion curies, while commercial waste from nuclear power plants and other uses, amounted to 14.7 billion curies of radiation. Furthermore, while the projected radioactive waste by the year 2000 remained at 1.5 billion curies for the military, that of commercial wastes is expected to zoom to 42.2 billions of ac-cumulated curies, a frightening prospect. All this is waste "accounted for." Actually, the records are so bad no one really knows how

much more there actually is that is unaccounted for, but we can be sure it is considerable.

Now since most of us are not scientific experts versed in nuclear technology (including myself), let me explain what a curie is. It is described as the amount of a radioactive substance that it takes to produce 37 billion atomic disintegrations per second. Only one curie, in some cases even a minute fraction thereof, can cause genetic abnormalities, cancer, or death, depending on the length and the circumstance of the exposure.

So we need have no misapprehension about how deadly even one curie of radioactivity is. It is vicious, and 42.2 billions of accumulated curies proliferated in the United States alone in the soil, air and water are a threat and catastrophe of major magnitude.

As an aside, it might be interesting to note that the “curie” was named after Madame Marie Curie, who along with her husband, discovered radium. It is also noteworthy that both of them died of cancer, she of leukemia, caused by toxic radiation.

There is another treacherous aspect to this proliferation of radioactive waste. There are scores of radioactive substances and they all have their own particular rate of disintegration. Some have a half-life of only a few hours, some for a few days, some for hundreds of years, and some for thousands of years.

For instance, a person who happened to be standing next to one ounce of Cobalt 60 would receive a lethal dose of radiation in one minute. Ten years later it would take 3 minutes to do the same job.

Plutonium, used in the manufacture of nuclear bombs, is one of the most deadly substances known. **One ounce of it can kill 20,000 people through radioactivity alone**, never mind its explosive potential. It has a half-life of 24,000 years. In other words, in 24,000 years the lethal potency of that one ounce would be reduced by only 50 per cent. In the lifetime of our children, or our grandchildren, the reduction of its lethal potential would be practically negligible. And this is what makes the accumulation of nuclear waste so horrible. It stays with us, and will even be with us long after the human race has probably been destroyed. It is even now spreading and proliferating itself not only into our soil, our water and our air, but it is also working its way into our food chain of plants and animals, birds, and especially fish and marine life. I might add that plutonium, in its unnatural concentration, is a man-made, synthetic element. Since the manufacture of the atomic bomb in the 1940's, it now exists in quantities that are a major lethal threat to the present generation and to generations yet unborn, far into the future. But it is only one of several radioactive killers. The commercial electric power generating plants are now producing an ever increasing stockpile of radioactive waste that no one knows what to do with, a stock pile

that will surely poison all of mankind unless this madness is soon stopped and reversed.

How did we ever get into such a treacherous booby-trap from which, it seems, there is no escape?

The answer is the combined greed, stupidity and madness of our lying, deceptive leaders, of which the government and its cabal of double-dealing politicians must take the majority of the blame. Treason and treachery also enter heavily into the case.

First of all, let us start with treason and treachery towards the American people by its Jew dominated government. As everybody now realizes, the atomic bomb and its second generation successor, the hydrogen bomb, are the most deadly weapons ever developed in the history of mankind. During WWII and shortly thereafter, the United States had an absolute monopoly in the science, the technology and the huge plants required to produce these awesome monsters of destruction. This being so, you would think it would take the utmost precautions to zealously guard its atomic secrets from being stolen by all and sundry, especially Communist Russia, who even before the war was over, loomed as potential Enemy No. 1 of consequence.

Did the United States take great pains to guard and protect this most astounding and powerful weapon? Did it perhaps lose its temporary advantage to destroy its No. 1 potential enemy, or use all means available to it of preventing it from ever being capable of acquiring the bomb and turning it against us?

Hell no! Even while the war was still in progress, our treacherous government leaders and high military brass were breaking their necks to ship processed high-grade uranium ore by plane to the Soviet Union through Great Falls, Montana. Not only uranium, but planeloads of blueprints, plans, papers and instruments. (Read again “Major Jordan’s Diaries”). When President Truman met with Stalin at Potsdam shortly after the war in Europe was over, Truman was surprised at how nonchalant Stalin was when he “revealed” to Stalin that we had the atomic bomb. (It had not yet been dropped on Hiroshima.) Little did he know that Roosevelt and his cabal had supplied the Soviets with complete blueprints and knowledge from the beginning while Truman himself, as Vice-President, had been kept completely in the dark until the day that Roosevelt died.

Although this article is not intended to explore the widespread treachery and treason involved in transferring the secrets of the atomic bomb to America’s avowed enemies, it is of utmost significance to point out that the prime enemy of the White Race, namely the Jewish network, have kept close control of the development and proliferation of this most devastating of all technical achievements — nuclear fission and nuclear fusion.

It is of utmost significance to point out that both atomic bomb and hydrogen bomb were in large measure a Jewish production. True, they used a multitude of White scientists whose brains they picked in order to make it technically possible. But basically the hell bomb and its further proliferation, is a Jewish idea (as is the idea of hell).

One of the central figures in not only laying the theoretical ground work but also persuading President Roosevelt to launch the whole atomic bomb program was Albert Einstein, a foreign-born Jew with 16 communist front affiliations.

The first commissioner of the Atomic Energy Commission was David E. Lilienthal, a Jew, who belonged to at least two communist fronts. He remained in that position for a considerable length of time. Three of the five commissioners on the board were Jews.

The chief of the Los Alamos installation from 1943 to 1945 was Robert Oppenheimer, a Jew. His brother Frank, a card carrying communist, was a key atomic scientist working at the Los Alamos installation.

It was at this time that most of the Atomic secrets were stolen and passed on to the Soviets.

When it comes to listing the spies and traitors involved, it almost reads like a Jewish Who's Who.

The most notorious were Julius and Ethel Rosenberg, who were tried and executed for treason, the only traitors in modern U.S. history to have suffered this fate. Further involved in this spy network were Harry Gold, Abraham Brothman, David Greenglass, (Ethel Rosenberg's brother), Israel Weinbaum, Miriam Moscowitz, Sidney Weinbaum, Morton Sobell. All these were Jews, and all were convicted of treason.

It is also significant in the further development of the hydrogen bomb, again Jews were in the forefront, such as Robert Oppenheimer, Steve Nelson (real name Joseph W. Weinberg) and Edward Teller.

But to get on with the crux of our dissertation, namely the commercial and industrial proliferation of nuclear wastes in the United States, which more than any other issue hangs as an ominous pall over our heads. It threatens to bring death, cancer, leukemia and birth defects to the mass of the population, and, in fact, exterminate mankind itself.

It all began with what seemed the best of intentions, all for the "benefit of mankind," of course. In December of 1953 President Dwight D. Eisenhower delivered his landmark speech on the subject of "Atoms for Peace" using the United Nations as a forum. We were ready, he said, to unlock the secrets of nuclear technology and give them to all the world, for the benefit of peace, prosperity and mankind. (How generous can you get?) **For two decades**

Americans listened to their leaders speak of two distinctly different atoms — the peaceful atom and the warlike atom. There was little danger that the peaceful atom would or could be converted into a bomb, they said. And so the United States eagerly, benevolently and generously began exporting our "peaceful atoms," fuel, technology and all, so that the rest of the world, too, could enjoy the benefits of nuclear energy.

Again our politicians were lying to us out of both sides of their mouth. They knew better.

On May 18, 1974 India detonated an atomic bomb 330 feet underground in the Thar Desert, near the Pakistanian border. It was built with a reactor from atomic fuel and technology supplied by Canada and the United States. Our good intentions to help the im-poverished Indians generate more badly needed electricity and raise their living standards did exactly what any honest observer could have predicted — it made India the sixth member of the once exclusive world nuclear-weapons club.

At home in the United States the building of nuclear power plants went into full swing after Eisenhower's "Atoms for Peace" speech. There was the problem of what to do with all the nuclear waste generated by the spent fuel from nuclear reactors, but government, industry and scientists reassured an edgy public that the technology was already there to process this burgeoning waste into harmless substances that could safely be disposed. In fact, this spent fuel in itself, they said, could further be converted into a profitable and useful commercial asset.

Again they were lying to us. In the last 40 years, since the begin-ning of atomic bomb development, ways and means have been at-tempted to render the toxic waste harmless and disposable. None were available 30 years ago when assurances were given that they already existed. None are available today, and the prospects of safely disposing of the ever mounting piles of dangerous atomic garbage now seem further removed than ever. In fact, to even contain and gather the already vast amounts of toxic atomic waste in our soil, water and air is utterly impossible, not to mention the ever increas-ing atomic garbage that is now being generated and will increasing-ly be generated in the years to come.

In the meantime, more and more of the deadly radioactive gar-bage continues to pile up in the leaking, inadequate waste sites that are designated as "temporary," without having solved the basic pro-blem of what to do with the nuclear waste. Industry, encouraged by government, insanely went on at a breakneck pace building more and more power plants.

The cold war psychology that gripped America's leaders in the

1950's initially fueled this obsession. Some argued that we must not let the Soviets develop nuclear power first, therefore we must go ahead. Others, in compensation for the guilt complex about having dropped nuclear bombs on the Japanese, felt the nation now had a moral obligation to devise peaceful applications of the atom to atone for our mass murder. Others were fascinated by the atom's marvelous technological promise of free and unbounded energy for a prosperous and happy future.

But they were living in a fool's paradise. It was as insane as if NASA had nonchalantly launched John H. Glenn, Jr. without first having devised a means of again bringing him down, assuring him and the public that they could do so while he was orbiting the earth.

In the meantime, any number of glowing predictions and extravagant promises were made. George W. Malone, the Republican Senator from Nevada spoke for those with an almost mystic faith in the atom's magic potential: its commercial use could change the course of history more than the invention of the wheel. Members of Congress, federal officials and scientists conjured up a fantasy of commercial shipping fleets, locomotives and automobiles fueled by the atom, all before the year 2000 would roll by.

It is now the year 1985. We do have a host of nuclear power plants generating electricity, but no solution has been found for either reprocessing the radioactive waste from spent reactor fuel rods, or any means of disposing of the ever mounting garbage that is now seriously threatening to turn our planet into a hot nuclear garbage dump. We do not have atomic planes, ships or automobiles, but we do have nuclear submarines.

But each of them, too, will in time become so radioactively hot that they will have to be abandoned. It will be impossible for humans to man them without lethal exposure, and sooner or later each one of them, will be sunk in the bottom of some ocean, there to further pollute for evermore our once pristine waters.

It is a long story of how government in combination with industry tried to build reprocessing plants to inactivate the radioactive wastes generated by the increasing number of power plants now proliferating the countryside.

Three such plants were built. One was constructed at West Valley, New York. It sputtered along for six years before it was finally shut down in 1972, a dismal failure. Another was built at Morris, Illinois, but it never even opened. A third at Barnwell, South Carolina was started with private capital, but finally had to be bailed out with hundreds of millions in government subsidy. It, too, finally collapsed as inoperable and commercially a huge boondoggle.

In the meantime, the hot, radioactive wastes are piling up. Where are they going? They are being stored in "temporary" waste

sites, because no one knows what to do with the deadly stuff. There are now more than 239 commercial and governmental burial sites in more than 150 locations in the United States, all ticking time bombs and a grave menace to all life, including mankind. They are not a solution to anything, only a temporary deferment in the face of past lies, stupidities and reckless irresponsibility, if not out right treachery.

In the meantime, the rate of radioactive garbage generation is accelerating. It is piling up in ever mounting quantities. Whereas in 1960 the garbage was still negligibly small, by 1970 it began to raise its ugly head but consisted of no more than 2 billion curies. By 1980 it had skyrocketed to 10 billion curies, and by 1984 to 16.2 billion. It is projected to reach 43.7 billion by the year 2000, and approximately 80 billion curies by the year 2020. This is in the United States alone. In the meantime, thanks to the generosity and short sightedness of the United States, the rest of the world, too, is building a vast chain of nuclear plants, and one nation after another is becoming a member of the once exclusive nuclear bomb club. Not the least of those that have joined the dangerous club is the bandit state of Israel whose aggressiveness and whose hatred for its neighbors knows no bounds.

In the last few years the general public has become more and more aware that the politicians have lied to them, that their homes, their land, their water and their air is in dire danger of becoming increasingly polluted with deadly nuclear waste, unfit and dangerous as a human environment.

Whereas the government is trying to find new sites for both low level and high level nuclear wastes, no state now wants them, and citizens' groups are now springing up to oppose them wherever the government sets its sites for such a dump. And for good reason. They are a lethal hazard wherever they are, and will remain a nuclear radioactive wasteland for thousands of years to come.

Three Mile Island, once a nuclear power plant is now such a wasteland, and will remain such forevermore. I predict that every power plant in the United States in a few decades will be shut down and become a radioactive wasteland, fenced off from the public, but continuing to radioactively pollute our environment for millenniums. What an insane boondoggle! What a disaster!

What is the solution? What does the future hold? What about the future of our children and our grandchildren? My dear White Racial Comrades — under the present Jewish domination of the world there is no future for anybody, not even the Jews. What with proliferating chemical pollution (as I described last month) combined with radioactive poisoning at the rate it is now commencing, this planet will be unfit to live on or in. That, combined with racial pollu

tion will certainly make it impossible for any future generations of the White Race to survive, and this, I predict will be a reality by the year 2000. We must act now. Both the chemical and the nuclear pollution is now in large part irreversible, and the longer the mess is allowed to accumulate the more impossible it becomes to ever clean it up.

There is only one thing for the White Race to do and that is save itself, and there is only one way to do it. That is to get the Jewish parasite off our back and wrest control of our world back into the hands of the White Man. Until this major step is taken no problems will be solved, not the pollution problem, not the racial problem, not any other problem.

So let us get busy. Only under the aegis of a powerful racial religion such as Creativity can we ever hope to overcome the plague that is now upon us. We must marshal all our resources, organize, and build our racial movement into the most powerful battering ram the world has ever known. Then, and only then, can we again bring this planet back to sanity and build a clean, orderly world, a world fit for the future generations of our proud and gifted race.

IN CONCLUSION let me summarize clearly what it is we must do in order to save our Precious Planet Earth from becoming a poisonous garbage dump and a human pigsty.

1. The White Race must concentrate on saving itself, not all the debris and scum of humanity.

2. This limited planet cannot support 4 billion, or 6 billion, or 8 billion mud races in the lap of luxury and provide them all with electricity, food, and all the better things in life that the White Race has developed for itself.

3. We must limit the population of the planet to no more than a billion. As to who is to survive, we, the White Race, must invoke Nature's Law as spelled out in Creative Credo No. 2 of the White Man's Bible, and let the mud races wither on the vine.

4. We must steel our resolve and learn to think in terms of: To hell with the niggers, cannibals, Hottentots and the mud races. (Where was all that Christian compassion during the bombing of Dresden and Hamburg when hundreds of thousands of Nature's Finest were incinerated and blown to bits?) We must throw off the present bleeding-heart Christian shibboleths that are destroying the White Race and come out point blank: Let the bastards starve! There is nothing we can do for the mud races, except go down the drain with them.

5. We must immediately stop generating any more nuclear waste, build no more nuclear power plants, shut down the ones we have.

6. It is imperative the White Race take over the world for itself as quickly as possible. With the Jew out of the way, wars would no longer be an issue, and there would no longer be a need for suicidal nuclear armaments.

7. We must then (once we have control of our own destiny) do our best to clean up the nuclear wastes and/or isolate them, as much as possible. The legacy we would inherit at best would be a sorry mess, but hard as the road ahead may be, it has to be done.

8. In order to achieve the above, we the White Race must first get our act together. We must, as I have said a thousand times before, (a) polarize our race under the aegis of a powerful no-nonsense religious creed (b) get the god-damned Jews off our back (c) take charge of our own destiny and the world.

The alternative is oblivion. The Solution is Organized Creativity.

* * * * *

Unless the White Race soon grasps control of its own destiny, it will soon find itself trapped on a planet that is nothing more than a radioactive wasteland, with no place to go.

Issue No. 28, September 1985

SOUTH AFRICA — THE LAST TO GO

The Black Tide and the Mud Flood are upon Us

The Jewish goal is to drive all the Whites out of Africa, and finally from the Planet Earth

When I wrote Nature's Eternal Religion back in 1971 and '72, I predicted that the foolish racial policies of both Rhodesia and the Republic of South Africa would culminate in the self-destruction of both of these two flourishing countries in Africa, two countries that were founded by sturdy White pioneers of over a century ago. (See bottom half of Page 350, in Nature's Eternal Religion.)

Today, Rhodesia is no more. It has been replaced by Zimbabwe, as the Jews preferred to rename it. It is now overrun with black animals, and crime, chaos, turmoil and disintegration characterizes a once beautiful and prosperous country ruled by the White Man.

What did Rhodesia do wrong to bring about this major tragedy in this once flourishing country?

The mistakes it made are obvious and glaring, and the list is long.

In order to analyze the tragedy let me recall a speech I listened to back in about 1971. Miss Carol Dunn and another speaker from Liberty Lobby had just come back from a recent visit to Rhodesia. We must remember that even back then both Rhodesia and South Africa were being roundly condemned as being racist by the Jewish press.

Caroll Dunn (now deceased) and her companion (whose name I don't recall) were on a speaking tour telling the "conservative" elements of our country that the establishment press was all wrong. Miss Dunn gave an eloquent and interesting speech, as I recall, about the beauties of the country she had visited, what a clean and lovely city Salisbury was, and how the minority White government was bending over backwards to be nice to blacks. She told (correctly) of how they were doing their utmost to "uplift" the blacks, to educate them, to train them for jobs, and were preparing more and more of them to partake in government. Not only that, but the standard of living the blacks enjoyed was indeed higher than anywhere in Africa, and much higher than in any of the countries the blacks themselves rul—

ed. Conclusion: Rhodesia was unjustly being criticized for being racist. On the contrary, it was a beautiful, prosperous country in which the blacks were enjoying every advantage and opportunity it was possible to give them.

My friend and I heard the speech at the lovely mansion of Countess Guardabassa (now also deceased) in Palm Beach, Florida. During the 35 mile drive back home we discussed Miss Dunn's interesting speech and came to a somewhat different conclusion than she had. If all she had said was true about the situation in Rhodesia, and we had no reason to doubt her, then Rhodesia, in essence, was actually a benevolent haven for "farming" an ever increasing horde of niggers, we reasoned. The eventual result, we concluded, would be that the niggers would soon devour the White population and spell its demise.

As we now all know, that is exactly what happened. In the late '70's Rhodesia was "taken over" by the black savages who outnumbered the quarter of a million Whites by a ratio of 16 to 1.

One of the questions that kept puzzling me before the collapse was this: **Didn't the Rhodesians realize they were digging their own grave? Wasn't the government aware of the fact that their benevolent policy towards the niggers was leading to the genocide of the White Rulers?** Ian Smith, the then hero and darling of White "conservatives" in America was the head of that government. How could he be so blind, I wondered. I became increasingly suspicious of Ian Smith.

A few years later we had the answers. Ian Smith was indeed a mole, a stooge for the establishment, a traitor to the White Race. And so with pressure from the Jewish "democracies" from the outside, treason from the inside and an overwhelming preponderance of niggers within their limited borders, Rhodesia fell to niggers without a fight.

The Jews had used the same strategy before over and over, not only in Africa, but every country in the world which they had targeted for destruction, for decimating the White Race. They had used the same game plan in the Belgian Congo, where the White settlers were treacherously betrayed by their "home" government, then left to be raped and butchered by the savage animals.

In fact, if we look at the map of Africa as it existed after WWII, we find most of its countries were built, organized and governed by the White Nations of Europe. To name a few: Nigeria (British), Gold Coast (British), Gambia (British), Somaliland (British), French Equatorial Africa, French Guinea, French West Africa, French Somaliland, all owned by France. Algeria (French), Morocco (French), Madagascar (French), Rio de Oro (Spanish), Mozambique (Portuguese), Angola (Portuguese).

This list is not quite complete, since Britain also loosely controlled Egypt and (then) North and South Rhodesia, and some other important territories, and Italy had just been stripped of Ethiopia and Iritrea. But the overwhelmingly significant fact of the situation is this: every single country has now been stripped of White Colonization and turned back to chaos and jungle bunnies, with the exception of the Republic of South Africa, and it is now targeted for violent revolution. Let us make one relevant observation about this whole process of the destruction of civilization in Africa and its return to the jungle.

In every case, the reversion was accomplished by treachery, from the inside and from the outside. In not one single case was it a matter of a pitched battle between the pioneering Whites who built and governed the country and the native blacks ousting them by sheer force. On the contrary, repeatedly it was engineered by their "home" government. In the case of the British colonies, betrayal directly out of London. In the case of the Belgian Congo, an extremely treacherous sell-out by Belgium itself with tacit approval by the then king. In the case of Algeria and other French colonies, Charles de Gaulle, that conniving Jewish stooge, did the job. I personally remember seeing him on television exhorting passionately that Algeria was French, was part of France itself and would remain forever French. Within a year or so I saw him back on television again, saying just the opposite — "Algeria for the Algerians!" in a heated screaming voice. There, too, the White French were treacherously betrayed by their home government, and left to be butchered by the inflamed natives, incited by no other than de Gaulle himself. One ironic sequel to all this is that within a decade of Algerian "independence," the native mud people of Algeria were given unlimited quotas into France by the hundreds of thousands.

And so the White Man was treacherously driven out of Africa. One after another of the White European colonies fell like rows of dominoes, all to the shouts of hallelujah from the Jewish world press. Only South Africa now remains, but not for long. South Africa is doomed.

Every day we hear on the Jooznooz about the evils of "Apartheid" as practiced in South Africa. There is not a day that goes by that there is not only one but there are two, three or four articles in the morning papers, hostile to and roundly denouncing South Africa.

Recently, I saw **Robert McNamara**, who was once President Kennedy's Secretary of Defense and later president of the World Bank, have his go at it on "Crossfire," a TV interview program. This slimy (and consistent) traitor to the White Race came out flatly and stated that when and if bloody racial warfare broke out in South Africa, the United States would not lift a finger to help

the Whites and he was glad. No matter what happened, the niggers should have their dignity (what dignity?) and control of the country, because they were the majority and he despised the White ruling group in control.

When asked where would we get some of the strategic materials that we now get from South Africa, he replied indifferently that a recent study showed (he claimed) that we could get along without them, and we could get them from communist Russia instead. His philosophy — Communism, Si, Niggers, Si, White South Africa, No. This plainly shows the yellow stripe of Judaism down his back to which he pays total allegiance.

We further hear threats of divesture in South African businesses, we hear a denunciation and call for sanctions from the United Nations. We learn that France has recalled its Ambassador, and is officially applying economic sanctions on trade with South Africa. The U.S. House of Representatives has overwhelmingly passed a resolution demanding we apply economic sanctions, and the Senate at present has postponed the measure for a month. Our students on University Campuses are highly programmed and screaming for American corporations to institute divesture, that is, pull out their financial investments in that beleaguered country because South Africa is practicing Apartheid. Terrible, terrible, terrible.

Why? What is it about Apartheid that we couldn't criticize at least 50 other countries about regarding their own abuses, outrages, tyranny, mayhem and dozens of other crimes against their own citizens that are much more serious than anything going on in South Africa?

The answer can be summed up in one sentence. It still has a White controlled government in the continent of Africa. Or so it would seem. But let us take a closer look.

Considering the storm of protest that has been provoked throughout the world, the uninformed yokel would be led to believe that Apartheid is one of the most repulsive and heinous crimes in history. As usual, however, the Jewish news media, the United States government and the power establishments of the world are lying to us, and perpetrating a dastardy hoax against the White Race in order to drive the White Man out of Africa altogether and return the rich continent back to savagery and disintegration.

As I have pointed out in *Creative Credo No. 21* of the *White Man's Bible* "Colonization — A Basic Urge In Every Creature of Nature's Realm," the White Man, especially beginning with the 16th century, has been the world's greatest colonizer. This is a basic, healthy instinct, shared by every other creature of Nature in their drive to survive, expand and increase its own kind. Every healthy creature has not only the drive to do so, but also a natural right to do so, and none is more deserving to expand its own kind than does

Nature's Finest — the White Race.

In this healthy drive for expansion none were a finer example of colonization than the early Dutch pioneers who established colonies in the region of the Cape of Good Hope in the middle of the 17th century. Although at first intended merely as stopover stations and storehouses for the Dutch fleets on their way to the East Indies, the region was soon colonized by sturdy Dutch farmers known as Boers, (Cf. the German word "Bauern," also meaning farmers).

After the Napoleonic Wars, Great Britain, ever on the move to expand its burgeoning Empire, acquired control of this strategic area in 1814. This it did by conquest, swap of colonies, and an outright payment of six million pounds to the Dutch government. Shortly thousands of Britishers, including a passel of missionaries, flocked into this newly acquired territory.

British was soon proclaimed as the official language, and later slavery was abolished. These and several other measures rankled with the sturdy Dutch Boers and many of them moved northward in the Great Trek (1835-37). They established new colonies, the Orange Free State, the Republic of Natal, and the Transvaal.

Again the might of the British Empire pursued them, especially when gold was discovered in the Transvaal in 1886. All this culminated in a bloody war known as the Boer War (1899-1902) in which Britain defeated the Boers and took over completely.

Without covering the intervening history of two world wars in which South Africa participated on the side of Britain, suffice it to say that internecine warfare and an uneasy truce ensued between the British and the Boers for the next 60 years.

Finally, in 1961 under the Premiership of Hendrik Verwoerd, South Africa declared itself a republic and cut its ties with Britain. Verwoerd then moved forward in 1962 with the policy of establishing self-governing Native Territories within the Republic. These were called Bantustans. The aim was separation of the White populations from the masses of blacks, Asiatics and mixed-breeds, the only policy a country now overwhelmed with mud races could adopt without being swamped with chaos and disintegration.

Immediately, the United States, the United Nations and "world opinion" formulated by the dominant Jooz-nooz, all combined and screamed its outrage at this small nation that was desperately trying to survive in a sea of mud.

In the next twenty years, it not only survived, but became one of the most prosperous smaller nations of the world. While all around them to the north the other former African colonies were winning "independence" (meaning back to savagery, cannibalism, poverty, hunger and chaos) South Africa became a bright light, a glaring example to the world in contrasting the difference between a White run

government and the nigger "republics" that were floundering in primitive savagery. This, of course, the "democracies" could not and would not tolerate.

The fact that communist Russia, Poland, Bulgaria, Hungary, Cuba, China, and dozens of other communist satellites are a thousand times more repressive to their own people, is completely ignored by world Jewry. The fact that every African "country" that is governed by niggers is not only more brutal and repressive and dictatorial than South Africa, but also floundering in chaos and poverty, that too, the Jewish world press chooses to ignore.

Every day the Jewish press screams South Africa! South Africa! Suppression of Human Rights! One man, one vote! with the United States leading the way. The fact that instituting the One-man onevote formula for South Africa would plunge it into a blood bath and completely wreck a prosperous country, that too is completely ignored, and, it seems the White Race couldn't care less. Whatever the cost, turn South Africa back to the niggers and butcher the Whites that built the country. That, my dear White Racial Comrades is the dictate of the Jewish power establishment and I predict, it will come to pass, and soon. South Africa is doomed. The forces of destruction are now irrevocably committed and irreversible.

After Prime Minister Verwoerd was assassinated on September 6, 1966, the stage was set for the dismantling of this sturdy Dutch Republic. South Africa is not now run by the Dutch (if it ever was) but by the Oppenheimers, the Jewish money trust that owns the DeBeers gold and diamond mining interests. These in turn are tied in with the Rothschilds and other Jewish bankers that own "our" Federal Reserve, and own the world. (See Creative Credo No. 40 in the White Man's Bible entitled "The Brutal Truth about Inflation and Financial Enslavement. The Federal Reserve Board — the Most Gigantic Counterfeiting Ring in the World," or send for and distribute our special 16 page booklet of the same title).

With the finances of South Africa in Jewish hands, the present premier Pieter W. Botha, is nothing more than a stooge in the hands of the Oppenheimers, and the farce that he and "his" government are protecting the White interests may fool the world, and even the White population in South Africa itself. But it is a sham. Like Ian Smith in Rhodesia before him, he is a traitor setting the stage from the inside for betrayal and collapse.

And so with escalating pressure from the outside, with "world opinion" screaming, with betrayal from the inside, South Africa is doomed. Watch this grisly episode unfold and the White Man there slaughtered, as in the Congo and elsewhere. I predict it will happen, and soon.

By now, it should be imminently clear to the most simple mind

ed yokel that the White Race has been following a false and suicidal program in its struggle for survival on the face of this Planet Earth. Although endowed with all the strategic tools for mastery of the planet, its strategy or lack of it has been a dismal failure. We are now programmed for extinction, not only in Africa, but step by step, in every continent. We are reaching the end of the line.

Where have we gone wrong? Why with such an illustrious history in its past is the White Race in this 20th century coming to such a dismal end?

The answer is in its total philosophy and racial outlook. The White Race has been patently stupid and self-destructive to itself, as exemplified by Robert McNamara, cited previously. This race traitor after engineering a 400 million dollar Edsel boondoggle at the Ford Motor Co. was then promoted to be "our" Secretary of Defense, and then on to president of our World Bank so that this lousy traitor could more efficiently and effectively boondoggle away more American taxpayers' earnings to the scum of the world.

Flatly, the White Race has had, and still has, a completely bankrupt philosophy regarding its own survival and its own position on this PLANET EARTH. **It is the business of the CHURCH OF THE CREATOR to give the White Race a new philosophy, a new program, a new orientation to save itself and flatly say: to hell with the scum! We will subsidize it no longer. We follow the wisdom of Nature.** We will take care of our own, and fight unto death any race, group, force, establishment, philosophy or religion that opposes us in our struggle for survival.

This we say loud and clear in our racial religion, CREATIVITY. We point out again and again an obvious lesson we should have learned from past history in our dealings with niggers and other mud races. We pointed out the folly of trying to drag into our midst and exploit the cheap labor of the inferior nigger in Creative Credo No. 30 of the White Man's Bible entitled "The Grisly Lesson of San Domingo — A Forerunner of White America." This should bring home to any thinking White Man the dire consequences of breeding and proliferating a preponderance of black savages in the White Man's domain. The end result is racial suicide. First of all, there is the interbreeding between the savages and the Whites, with a resultant mass of mulattoes. These mixed breeds (also called coloreds) are the cutting edge of the black tide for partaking and entering into the White Man's society, finances and government. Like the camel with his nose in the tent, the next step is more "rights," extended to an ever expanding segment of the nigger hordes, until finally the White Man who built the country, the economy and the society, is pushed into a corner and dispossessed of the government he built in the first place. From there on out the anarchy and disintegration that follows is

rapid. Revolution, anarchy, and finally the slaughter of the White population is the inevitable end result.

Before we return to South Africa, let me cite one more example, and that is the **former British presence in India.**

Recently, I made a point of viewing the film "Gandhi" portraying the life and career of Mohandas K. Gandhi. Although Gandhi was a deceitful and opportunistic agitator of the first order, the movie (and the Jewish rendition of history in general) now portray him as a saint, and call him Mahatma Gandhi. Despite the fact that the movie was a Jewish rendition of his career and had many historical inaccuracies in it, nevertheless, it had a clear and poignant lesson for any thinking White Man, and that is this:

The British, great colonizers and empire builders that they were, made a fatal mistake in India, as they did again and again in all the other backward colonies that they developed and tried to exploit. That mistake was to bring civilization, technology and major capital improvements (railroads, building harbors, cities, etc.) to a country in which the mud peoples predominated in numbers, but they, the British, expected to rule and exploit.

The end result is the same as it was with the French experience in San Domingo (now Haiti). In the end 100,000 British administrators could not hold and control a mass of 350 million Hindus, once they had been "uplifted" and aroused by local agitators. Whereas the British gave up India "peacefully" shortly after W.W. II, the end result would have been more bloody, but inevitably the same anyway, had they not. They would have been driven out after a bloody massacre.

What the British and any other White colonizer should have done instead in the 16th, 17th, 18th and 19th centuries when the world was still their oyster and up for grabs, was to **colonize a portion of a territory, the best and choicest piece preferably first, then colonize it with their own exclusively.** Drive out any stray natives, (similar to what we did with the Indians in North America) and secure the land. Build farms, roads, railroads, cities, etc., exclusively with White labor and White settlers. We don't need slaves, niggers, Chinese, or any other inferior muds in our midst to contaminate our society or our landscape.

Once an area is settled and secured, expand it into new territory, just like any other creature of Nature does. Digest the expanded territory and move on until all the territory is settled, secured and inhabited by the White Race, and the White Race exclusively. Had the British done this in India, for instance, the White Race would now have a rich and productive piece of territory in which to expand, flourish and prosper without any of the mud races cluttering up their domain.

But let us get back to South Africa and the lesson we can (and should) learn there.

The closest example of what we, THE CHURCH OF THE CREATOR are advocating was partially practiced by the Dutch Boers when in the Great Trek of 1835-37 they moved on north and tried to build a White homeland for themselves in the Orange Free State, the Transvaal and the Natal. The area was at that time only sparsely inhabited by native blacks, and the number was so small that they presented no problem to the White Man's settlement and expansion. Instead it was another group of Whites, the British, that intruded, and laid the groundwork for the pollution and final disintegration that is facing South Africa today.

It was the White Man's building of a prosperous society, especially in the 20th century, that lured the hordes of black savages and other mud peoples, including Hindus and other Asiatics, to seek jobs in the now organized and prosperous White Man's domain.

As in Rhodesia, and as in San Domingo, as the cheap black labor swelled and proliferated into overwhelming majorities, the White Man suddenly found himself hard pressed to maintain his control and his personal safety. The attempted solution in South Africa was to institute Apartheid, as we have already described, to separate the blacks, the mulattoes, the Asiatics and other segments of a racial hodgepodge into separate, clearly defined communities.

It is at best a stopgap measure, but the damage was irreversibly done by letting this collection of human garbage enter within their borders in the first place. There is no containing them, there is no appeasing them. They hate the superior White Man with a vengeance. Living in the same territory, they all, and I repeat, ALL, including the niggers in America look forward to the day when, like in San Domingo, they can massacre the White man and take over all that he has built and owns.

This, my dear White Racial Comrades, is the clear and unequivocal lesson history teaches us, and we should have learned it long, long ago. The White Man should have learned that lesson in Egypt four thousand years ago. The Greeks should have learned it 2500 years ago. The Romans should have learned it 2000 years ago. The French, the British, the Dutch, the Spaniards and other White colonizers should have learned that lesson more recently from the experiences in San Domingo, in India, in Africa and in South America. The only sub-continent that we can point to that (for a time) practiced the White racial idea is Australia, but with Jews now in control of its government, finances and Jooz-media, that country is rapidly abandoning its original foundations and throwing its borders open to the mud peoples. Hordes of billions of Asiatics just to the north are awaiting their opportunity to flood that once prospering

White domain with their hungry hordes. They will not have long to wait.

From the foregoing let us sum up the position of the CHURCH OF THE CREATOR regarding colonization and our deliberate, studied position towards the mud races of the world.

1. We must dump overboard the "Christian" creed slopped on us by the Jews: and follow Nature's wisdom regarding colonization and expansion of our races as spelled out in Creative Credo No. 21 of the White Man's Bible entitled, "Colonization — A Basic Urge in Every Creature of Nature's Realm."

2. We must immediately stop subsidizing, feeding, uplifting, or supporting any of the mud races of the world, whether inside or outside of our borders.

3. At this late stage in history, it is urgent and we must reverse the suicidal policies of the past within our own present and shrinking borders. We must first of all clean up the racial mess in our own homelands and expel the muds now proliferating and contaminating our own homelands. When we look at the present quagmire in Britain, France, South Africa, Germany, in fact, nearly every White country in the world, especially the United States, this is a gigantic first step that must be taken, and it must be done NOW.

4. Once we have accomplished these three basic major steps, we must then aggressively pursue Nature's fundamental urge, and that is to expand our own kind into ever larger territories on this limited Planet Earth, until we inhabit it all. Let me point out again the fundamental tenet of Creativity in this respect — we do not aspire to rule, dominate or exploit any of the inferior mud races ever again. We just want to do what Nature tells every creature to do — expand and protect our own.

5. In order to accomplish the above and save the White Race from dismal extinction, we first of all have to straighten out the White Man's confused and scrambled thinking. We have to institute a new order, a new way of life, a sane and healthy attitude towards our natural world. In CREATIVITY we have it all, the whole ball of wax.

It is the goal of Creativity to instill in every White Man, woman and child a deep and lasting consciousness of their great racial heritage.

Do Something Meaningful for the White Race

Become an Ordained Minister of The Church of the Creator

Organize Your Own Church Group

In Issue No. 10 of **RACIAL LOYALTY**, we suggested that every CREATOR become a Reverend, that is, an ordained Minister of our Church. We listed a number of advantages in doing so, both from the individual's point of view in being effective, and also from the Church's point of view.

Briefly recapitulated these advantages are:

1. It bestows a prestigious title on the individual that has been respected by the government, by the courts, and the world at large for many centuries.
2. It carries with it certain legal and moral advantages, which our enemies have been quick to take advantage of for years in legal, moral, and fund raising issues.
3. It is definitely a tool and a weapon that we, too, can and should utilize.
4. It provides the mantle with which you can establish your own church group and be much more effective in building a permanent and growing base in your area.

So why not do it?

For further information see Issue No. 10 of **RACIAL LOYALTY**.

If you have already donated as much as $40.00 in the past, you are already qualified to apply without any further donation. (However, we can always use all the help we can get).

But anyway, do something meaningful and do it now.

Apply today!

DO SOMETHING! INDEED,

What can YOU do about it?

CREATIVITY — CREED AND PROGRAM

Fundamental Points:

1. CREATIVITY is a racial religion whose prime goal is the survival, expansion and advancement of the White Race.

2. Our organization is known as the CHURCH OF THE CREATOR. Our movement and religious philosophy are called CREATIVITY, and members of our church are called CREATORS.

3. Every issue, whether religious, philosophical, political or racial, is viewed through the eyes of the White Man and exclusively from the point of view of the White Race as a whole.

4. The cardinal test of any theory, plan or program is this: Will it accrue to the benefit of the White Race?

5. We believe that the White Race is Nature's finest creation of all time and that our most precious treasure is our White gene pool. Guarding the purity of our worldwide gene pool, enhancing it, and the upgrading of our future generations is our highest responsibility and our most sacred duty.

6. The four basic foundations of our religious creed are: A SOUND MIND in a SOUND BODY in a SOUND SOCIETY in a SOUND ENVIRONMENT.

7. Our GOLDEN RULE is: What is good for the White Race is the highest virtue; what is bad for the White Race is the ultimate sin.

8. A thorough and comprehensive study of history has convinced us that the Jews, with their odious Talmudic and Judaic religion, are the most sinister and dangerous parasites in all history, and that they now control and manipulate the finances, the propaganda, the media and the governments of the world. It is our sacred duty and unswerving goal to get these parasites off the back of the White Race and enable the White Race to again take control of its destiny and restore it into its own capable hands.

DELENDA EST JUDAICA!

9. We mean to cleanse our own territories of all the Jews, niggers and mud races and send them back to their original habitat. Starting first with the United States, we then want to help each White country to free their territories of the contamination of mud races also, and prevent not only race-mixing, but geographic mixing of races within any of the lands now occupied by the White Race.

10. A tremendous weapon in the worldwide Jewish drive of race-mixing and proliferation of the mud races has been Jewish Christianity, concocted for the very purpose of mongrelizing and destroying the White Race. It is our avowed objective to expose this Jewish swindle and replace it with a sound, healthy racial religion of our own.

11. Our first and foremost problem in saving the White Race from mongrelization and genocide is to straighten out the confused and scrambled thinking of the White Race itself. Once we have accomplished that much, getting the Jews, niggers and mud races off our backs will be relatively easy. When this has been accomplished, we then propose to expand the White Man's territory slowly and gradually. Similar to the historic "Winning of the West" in early America, until the White Man inhabits all the good lands of this Planet Earth.

12. Simultaneously with the above, we mean to promote and practice Eugenics for the upgrading and advancement of the human species itself, as is spelled out in our THREE BASIC BOOKS, *Nature's Eternal Religion*, *The White Man's Bible* and *Salubrious Living*.

13. We also are deeply concerned about the now rapidly deteriorating environment of our Planet Earth, which has not only become racially polluted, but is becoming highly contaminated with overwhelming masses of chemical wastes, nuclear wastes, and other dangerous and toxic poisons. As soon as the White Race again has control of its own destiny we mean to reverse this process, clean up the Planet and again make it a clean, pleasant and viable place for the White Race to live.

14. We also mean to address the problem of farmlands and soil fertility, a problem that is now out of control. As set forth in the *White Man's Bible* (Creative Credo Nos. 13, 14, and 15) we plan to put in operation a program to restore the fertility of the soil and conserve its stability on a worldwide basis.

15. We are also concerned about the physical and mental health of our people. In order to enhance and upgrade the physical well-being of both young and old, we mean to promote a natural life style as set forth first in *The White Man's Bible* and further amplified in *Salubrious Living*. The salient components for such a program are summarized in both books under the "14 BASIC POINTS" of Salubrious Living.

16. Our basic philosophy is spelled out under the heading of "THE SIXTEEN COMMANDMENTS" in both *Nature's Eternal Religion*, and *The White Man's Bible*, and is part and parcel of our creed.

17. Our "Declaration of Independence from Jewish Tyranny" is set forth in Creative Credo No. 67 of *The White Man's Bible*.

18. Our program to overcome the tyranny and violence directed against the White Race is spelled out on Page 401 of *The White Man's Bible*, and we mean to follow and implement these steps, including Articles 7 and 8 in the order listed, if and when the time should come when we are compelled to do so.

19. In Creative Credo No. 65, we have an additional creed of our Church enabling the White Race to protect itself from a hostile government, under the heading of "Articles for the Defense of the White Race." This, too, is part and parcel of our creed and program.

20. In a rapidly degenerating world that is now overcrowded and overrun with an explosion of inferior mud races; a world that is drug-ridden and already overly polluted with toxic chemicals and nuclear wastes; a world now steeped in anarchy, chaos and terrorism, it is nevertheless our ultimate and continuing goal to build in its place a Whiter and Brighter World for our future generations.

ABOUT THE AUTHOR: Ben Klassen has been a resident of four countries and a citizen of three. Born of German-speaking parents in Russia, 1918, he and his family were early victims of Jewish Communism, from which they fled in 1924. He was brought up and educated in Canada, where he earned a degree in Electrical Engineering and also a Bachelor of Arts. He has been a farmer, a school teacher, a hard rock nickel miner, an electrical engineer, an inventor, a realtor, and a Florida State Legislator.

His intense interest in the Laws of Nature, Race and Religion polarized into a new religion for the White Race, a task his wide and diverse background seemingly prepared him for over a lifetime.

Dedicated to the Survival, Expansion and Advancement of my particular species — NATURE'S FINEST.

The Highest Law of Nature instinctively impels each living creature on the face of the earth to relentlessly strive for the perpetuation of its own par-ticular species. This Nature urges in the face of all hostile competition, and punishes with extinction those who are too laggard in the race. Nature tolerates no excuses but condones every means utilized in this fight. The END justifies the means, any means. Eternal Struggle is the price of Survival.

The Ultimate and Only Solution

RAHOWA! Its Full Ramifications

After a long upward climb over the last 100 thousand years, the White Race has now reached the most perilous crisis in its tumultuous history. After all the brilliant achievements its gallant sons have demonstrated, especially over the last five thousand years, now suddenly, the White Race is facing death, total extinction, in the next generation or two. Can I state the situation more plainly?

This, despite the fact that it still numbers somewhere around 500 million members, more or less, not all whose genes are unpolluted.

How did our race get into such a mess, into such a dire predicament? After all, the White Race at the beginning of this century was unchallenged in its supremacy. Practically all the major inventions were created by the White Man, practically all the engines of war were in the hands of the White Man, or at least under his control. The only meaningful weapons the mud races then had were those the White Man had voluntarily given him, or traded to him. This included any meaningful weapons that the Indians, or the Hindus, or even the Japs had in their hands. Furthermore the White Man was supreme, unchallenged, in all technology, whether it was a matter of battleships, or combustion engines, or telephones, or building canals, or in building bridges. No matter what field of endeavor we want to examine, the White Man had it all.

This condition prevailed pretty much unchallenged until the beginning of World War I. When the Jews engineered this treacherous, fratricidal war of Whites killing Whites, the most insane, ghastly holocaust of bloodletting in the history of mankind (up to that time), it was then that the walls of the White Man's citadel began to crack. But even then the White Man was still supreme, or so he thought.

When World War I was over, some demographers began to talk about the Yellow Peril, meaning the Chinese, and even more so, the Japanese. So did some military experts, such as Billy Mitchell, as they looked into the future. In Europe some astute political leaders such as Adolf Hitler in Germany began to view with alarm what the Jewish conspiracy had been able to orchestrate with their financial and propaganda networks in manipulating all the major nations of the world. Hitler specifically blamed the Jews for provoking World War I and the defeat of Germany. Through sheer force of personality, persuasion and an unprecedented outpouring of energy, he and his supporters got the message across to the German people that

there was a racial war on, a war waged by the worldwide Jewish network against the Aryan peoples of the world.

For the first time in history, a portion of the White Race organized a determined, meaningful challenge against the power of the financial networks of the Jewish conspiracy. As we all know, by means of a flood of overwhelming propaganda, by means of political manipulation, by deceit and by treachery, the Jews managed to inveigle Britain, France, Russia, and finally the United States into a war of terrible destruction against Germany.

As we also know, and as we have been told over and over again a million times, Germany was smashed for her unspeakable sin of challenging the Jew.

When World War II was over, not only was Germany in ruins, but the White nations of the world were in total disarray. Jewish communism had been saved. Not only saved but began to expand rapidly and take over Poland, Rumania, Czechoslovakia, Hungary, the eastern part of Germany, and in fact all of eastern Europe. All this, with the help of the perfidious treachery emanating out of the White House in Washington, skillfully orchestrated by powerful and sinister Jews behind the scenes. Not only did Jewish communism take over Eastern Europe, but it began to spread rapidly to China and throughout the world, and is still spreading today. (See "Russia, Israel and the United States", C.C. No. 38, P. 245 of WMB.)

When the Jews smashed the Germans in 1945, the most intelligent and progressive nation in Europe, they won the most significant major victory in their three thousand year history. The White Race, on the other hand, on a worldwide basis suffered the most disastrous racial setback in its 100 thousand year existence. The ramifications of this monumental catastrophe are now coming to a climax. The White Race has been paying and paying for this stupendous, insane blunder for the last 40 some years, but the ultimate sacrifice will have to be paid for in blood by our children and grandchildren. We have now reached the stage where, unless we drastically change the course of events, our progeny will be slaughtered, or mongrelized, and one way or another, exterminated. It is the insane goal of the Jewish conspiracy that no more White babies be born, and this as soon as possible (ASAP).

After the defeat of Germany the Jews lost no time in turning their racial hate on those very nations that they had inveigled in helping them smash Germany, particularly Britain, France and the United States, as we will show in the first chapter in this book, RAHOWA! Having smashed the "Nazis", that word now became a synonym for all those who still valued their White racial heritage. Every White now became a racist, therefore a "Nazi", the new code word for the ultimate sin. Whereas Black was Beautiful, Black Power was great,

Israel and Jewish fanaticism the ultimate in commendable virtue, White pride, White achievements, White integrity, now became the ultimate sin in the new religion the Jews preached to the world. The most unbelievable aspect of this whole tragic trauma is that the Jews are successfully selling this insane atrocity to the majority of our White Racial Comrades, especially those in the Christian churches.

The bottom line is that the White Race has now reached the POINT OF NO RETURN. Never again can we retrieve our position in the world to where it was before 1914. The White Race has reached the end of the line. We are now facing brutal, bloody extermination. We are now embroiled in a deadly racial war of survival, whether we want to admit it or not, whether we want to face it or not. The fiendish Jews have not only revved up the pathological hatred of their own species, but they have incited the hatred of all the mud peoples of the world against us. Their unwavering and unflagging goal is a massive massacre of the White Race as was foreshadowed in the slaughter that took place in San Domingo two centuries ago. (See C.C. No. 30, "The Grisly Lesson of San Domingo — Forerunner for White America", P. 176, WMB.)

There are some White racial organizations in this country, such as the Identity people, who have fractured loyalties and advocate compromise. They talk about geographic racial separation on the basis of giving the niggers a good part of the United States, such as the South, probably the Northeast and the Midwest as well. In exchange the Whites would then have a clean sweep of Idaho and some of the Western states, such as Oregon and Washington. Even California, New Mexico and Arizona could go to the Mexicans, and South American Hispanics.

We Creators regard such utter nonsense as unmitigated treason and will tolerate none of it. In the first place, such a compromise is completely insane and impossible of fulfillment. Nor would it solve anything. It would merely be a temporary stop-gap and another major retreat for the White Race. Just as in Africa the Jews have driven out the White minorities in country after country and replaced control of each by manipulated niggers, so the war would go on here in America, in Europe and in the rest of the world. These fractured loyalists must realize that the time for compromise passed 50 years ago, and the enemy is now smelling blood and is hell-bent for victory. The point of no return has long passed and is now no longer possible. Nor do we Creators want any part of a compromise, now or anytime in the future. There is now only one solution — total victory — a clean sweep on a worldwide basis.

There is now a new consciousness bestirring the White Race in America, in South Africa and even in Europe. It is a realization of what the Church of the Creator has been preaching for 15 years,

namely (a) That we are embroiled in a racial war for survival on this Planet Earth. (b) All mud races are our enemies in this fight for survival. (c) The Jews are leading and orchestrating this war against us; and (d) The Christian churches are their most ardent ally and most potent weapon.

It is all spelled out in the Creativity creed and program. It is further polarized in the more recent fighting word of the White Race — **RAHOWA!** In this one word we sum up the total goal and program of not only the Church of the Creator, but of the total White Race, and it is this: We take up the challenge. We gird for total war against the Jews and the rest of the goddamned mud races of the world — politically, militantly, financially, morally and religiously. In fact, we regard it as the heart of our religious creed, and as the most sacred credo of all. We regard it as a holy war to the finish — a racial holy war. **Rahowa! is INEVITABLE. It is the Ultimate and Only solution.** No longer can the mud races and the White Race live on the same planet and survive. It is now either them or us. We want to make damn sure it is we who survive. This Planet is from now on all ours, and will be the one and only habitat for our future progeny for all time to come.

On the front face of the World Center Building of the Church of the Creator is a goal carved in heavy timbers. It reads:

The Winning of the West
Is the White Man's Prototype
For the Winning of the World.

Preface

The format in this book closely follows that utilized in the two previous supplementary books, namely *Expanding Creativity* and *Building a Whiter and Brighter World*. One variation is that we have partially juxtaposed the time sequence and started off with the Rahowa! article in R.L. No. 36, then picked up with the balance of R.L. No. 28 and followed through with the rest of the articles I have written in subsequent issues of *Racial Loyalty*.

However, I regard this, the sixth major book published by the CHURCH OF THE CREATOR, as one of the utmost importance, since it focuses and crystallizes the racial war that is now upon us with a vengeance. It brings home in stark detail the fact that there is now no longer any room for indulgence in religious fantasies, or any other peripheral nonsense. RACIAL SURVIVAL must now be our total preoccupation and WHITE RACIAL TEAMWORK our central, basic dedication. There is no longer any room for wallowing in self-pity, nor in merely indulging ourselves in the company of the "deplore and lament" crowd that has nothing better to offer. The time has come for effective, militant action in order that we can save the White Race from oblivion while there is still time.

In the RAHOWA! concept we have embodied a creed, a philosophy and a fighting slogan for a program of action that can and must pull the White Race out of the dismal quagmire it is now sinking.

Join with us. Become a militant activist. Invest in the White Race. It is the only investment that is now worthy of your time, your resources and your energy.

Recognize your Enemies!

RAHOWA!

The Jews and the mud races have ganged up in a fierce and deadly racial war designed to exterminate the White Race. Only the victim seems unaware that it is targeted.

The second dumbest creature on the face of the earth is one who cannot, or WILL not, recognize its enemies. There are very few species on this planet that fall into this category.

For the dumbest of all, the ultimate booby prize goes to that creature which not only refuses to recognize its natural enemies, but will actively collaborate with those enemies in helping to bring about the destruction of its own kind.

The White Race, in its present headlong rush to extinction, has the dubious honor of qualifying for both first and second booby prizes. In fact, it is the only species I know of that gladly and wantonly participates with its enemies in its own destruction.

Why is this? For thousands of years the White Race has been the foremost species on the face of the earth in intelligence, in creativity, in productivity, in imagination; in the fields of art, literature, invention, geographical discovery, colonization, political organization and the military arts. In fact, it has been the unchallenged leader in these and in practically every other worthwhile field of human endeavor.

Today the White Race is shrinking rapidly, while the mud hordes, fed by the largesse, charity and productivity of the White Race, are exploding in numbers all over the face of the earth. Like hordes of prolific rats, they are feeding, breeding and expanding, all at the expense of the Booby Prize Winner No. 1, the White Race.

I repeat the question: why are we pursuing this insane course? The answer is both simple and complex and throughout all my writings I have chronicled both the cause and also the solution. So that no one will miss the point, I will briefly, in one paragraph, recapitulate the cause.

The White Man's brain has been deranged by an alien poison. It is interlaced and interlarded into his religion, called Christianity. It is being administered by the world's most deadly parasite, the

perfidious and treacherous Jew. The essence of that poison is capsulized in the Sermon on the Mount: love your enemies; turn the other cheek; sell all thou hast and give it to the mud peoples; judge not; think not of the morrow; ask and ye shall be given; store up treasures in heaven (but not on earth); pluck out thine eye; cut off thy hand; and a whole plethora of suicidal advice that you would only dispense to your worst enemy if you wanted him to commit suicide without having to bother killing him yourself. (Read again, "The New Testament" page 106 of Nature's Eternal Religion.)

However, let us not be under any misapprehension that the "perfidious and treacherous Jew" mentioned in the previous paragraph is content in just giving us goyim bad advice and let us do the job of self-destruction unaided and all by ourselves. Far from it. Not only is the Jew the natural Enemy No. 1 of the White Race, but he is vicious and a virulent creature the likes of which the world has never seen. He is cunning, he is treacherous, he is tenacious, he is patient, he is deadly. He does, however, have one redeeming feature the White Race does not. Whereas all races (except the White Race) practice Racial Loyalty, the Jew does so with a fervent passion that is unequalled by any other race. As a culmination of these characteristics the Jew now sits on top of the world, manipulating its affairs, and plundering the goyim at will. (See Racial Loyalty No. 35, "Operation Rip-off.")

But the Jew is not only a master parasite sucking the blood of its victims. The Jew is also a master destroyer, infiltrating, undermining, poisoning and exterminating peoples, nations and civilizations. This he has been doing with an expert (hidden) hand for thousands of years, going back as far as the Ancient Egyptian civilization. This the Jew is doing today with a deadly virulence and accelerating speed as never before in its turbulent Jewish history. And the No. 1 target, as we approach the end of the Twentieth Century, is the total White Race. That means you, Whitey, your family, your relatives, your race, your civilization, and along with it any future progeny that you might have forthcoming.

We, the White Race, are enveloped in a vicious deadly race war, whether we like it or not, whether we realize it or not. Like a boa constrictor wrapped tightly around our body, we are locked in, while poisonous little asps are nibbling at our toes.

Let us study our enemy more closely and examine the modus operandi he employs with such deadly skill. Which operation shall we examine? Should we study the French Revolution and the decapitation of France's most stalwart leaders? Or the destruction of the great Roman Civilization? Or the mongrelization of the great White Egyptian Civilization? Or the destruction of the great German Reich? Or the Spanish Civil War? Or World War I, that sent the

White civilization on a downward tailspin? Or World War II, that killed off 50 million White men, women and children? Or the War between the States of 1861-65? Or the fire-bombing of Dresden in which 335 thousand Germans were incinerated in two nights of concentrated firebombing? Or the pointless Vietnamese War in which 57 thousand American boys were killed and hundreds of thousands wounded, crippled or maimed? We have an almost endless list of Jewish atrocities to choose from that if we wanted to cover them all, we could write a 24 volume encyclopedia on the subject and still not exhaust the material evidence.

But let us concentrate briefly on the ongoing Jewish war in the Middle East that has been in progress for a century and is still very much in the news today. Let us briefly examine how and why the Jews raped Palestine, stole it from the Arabs and by sheer force, deceit, chicanery and treachery appropriated it unto themselves as their "homeland." In so doing let us also describe the methods of terrorism they used so effectively and at which they are now the world's foremost protagonists and experts.

We choose the Palestine theatre, because there, in microcosm, is represented the heart of the Jewish struggle to enslave the world under its brutal heel. Palestine, this geographical sump hole of the world, nevertheless also represents the spawning ground of the world's three most dominant religions: Judaism, Christianity and Mohammedanism. Palestine: it is "holy ground" to three of the world's major cultures: Jewish, Arab and White Christian. Palestine: the crossroads of the world for three thousand years and an unsettled battleground of races, religions and cultures for an equal period of time.

The Jews developed their tribal cohesiveness while parasitically sponging off the healthy Egyptian civilization while the latter was at its prime. They learned many, if not practically all, of their religious ideas from Egyptians. The idea of soul, spirits, gods, monotheism, etc., all came from the Egyptians. When this parasitical tribe of Judah finally became so obnoxious and detrimental that the Egyptians could no longer tolerate them, they were finally driven out around the 12th century B.C.E.

This band of parasites then targeted the nearby domain of the Philistines, who had lived in Palestine from the earliest of historic times, as their next "land of milk and honey." After prolonged periods of warfare, perhaps two hundred years or more, the Philistines were conquered by the Israelites under King David at about 1000 B.C.E.

For the first seven years David's headquarters were in Hebron, about twenty miles south of a fortified village called Jebus, the capital of the Jebusites. After some further warfare David decided to take Jebus by force and make it his capital. In time it became known as

Jerusalem. Since these places later became emotional "holy ground," it is noteworthy to mention that one of the hills in Jerusalem was known as "Zion." This, as we all know, later became the rallying point of the "Zionists," and since the Zionists are now the core of the aggressive Jewish drive for world domination and enslavement, it is well to note its early beginnings.

Without going too deeply into early Jewish history, suffice it to say that the Jews as a "nation" lasted less than a hundred years, when it split into two parts. The northern section, consisting mainly of Samaria assumed the name of "Israel," although Jerusalem and the Temple of Solomon were in the southern section, called Judah, and later Judea (if we can believe the Jews' concocted story.) Relations between these two Jewish groups remained acrimonious and warlike, as it has always been between Jews and goyim, or if confined to live with each other, between the Jews themselves, to this day. They are a hostile, obnoxious and rebellious people, no matter where they live.

In order to get a proper historical view of the Jews' claim on the Palestine of today it is cogent to point out that the Jews, Judeans or Israelites as such never occupied Palestine as a nation for more than 300 years out of the last 3,000 years. They were neither the first to settle the land, nor did they have the longest tenure. The northern area was conquered by the Assyrians in 722 B.C.E., while the southern sector was conquered by the Babylonians in 586 B.C.E. From that time on the Jews were insignificant in numbers and the area was under the control of many larger nations and empires, such as the Romans, the Ottoman Empire and others.

In any case, the longest tenure of the land called Palestine has been by the Arabs, who have occupied it as theirs for the last 1,300 years. Even as recently as 1948, when the Jews claimed Palestine as their "ancestral land" given to them by Yahweh, they were still a minority, even in the partial territory that was "awarded" by the United Nations.

* * * * *

So much for ancient history. Let us now see (a) how these parasites cunningly connived to steal this piece of real estate from an outraged Arab population and (b) why they would want it in the first place, when it is really such a miserable and economically detrimental piece of real estate.

The heart of both these questions goes back to religion — Judaism — which has been the mainspring of Jewish cohesiveness and solidarity for the last four, or perhaps five thousand years. The core of their religion is enveloped in the claim that they are "God's

Chosen", a special people to Yahweh (their own tribal god) who, they claim, has given them "a covenant" saying so, and along with it the unlimited right to claim all the goodies of the world from the goyim (the Jewish term for all non-Jews, meaning cattle or animals.) God has given it to them and they have the moral right, yea, the duty to take it from them by one way or another, be it by force, treachery, swindle, or whatever. They have written all this into their Old Testament and more. For example, in Exodus 19:5 (the Lord speaking), "Now therefore if ye will obey my voice, indeed, and keep my covenants, then ye shall be a peculiar treasure unto me above all people: for all the earth is mine."

The same theme is reiterated again and again, not only in the Old Testament but also in their Talmud, which is even holier unto the Jews, and even more bloodthirsty.

* * * * *

The question still persists: why, when the Jews were doing so well incognito, and controlled most of the wealth of the world long before the seizure of Palestine in 1948, why would they go public and stir up a hornet's nest of trouble over Palestine? On pages 253 and 254 of *The White Man's Bible*, I give five reasons and still believe all five are valid. However, the more I study the situation the more overriding becomes Reason No. 1: to Bolster and Unify the sagging ideology of the Jewish rank and file. Through their fanatical practice of racial loyalty and racial teamwork, this small minority had become so wealthy and affluent that their moral (Read "Racial Fanaticism") fibre was becoming flabby. The younger generations became more and more "assimilated" into their "western" host nations and marrying Gentiles in greater numbers, thereby forsaking their religious racial and historical heritage. The older Jewish hierarchy became much disturbed by this turn of events, and felt that new hostilities, new warfare must be engendered and the Jews must polarize around their ancient "roots," their religious fairy tales of Abraham, Isaac and Jacob, their "nation" of Israel in the time of Saul, David and Solomon and other religious traditions. Hence back to Palestine to their "roots," no matter what the cost in bloodshed or mayhem. Otherwise, they might vanish as a "nation," a religion, a race, or an entity.

* * * * *

The idea of a "homeland" for the Jews, a place of refuge they could flee to if things got too rough, had been simmering among a certain segment of the Jews ever since Moses Hess wrote the book

"Rome and Jerusalem" in 1862. Hess was an early apostle of European socialism and a collaborator of Karl Marx. Later they went their own separate ways because Hess wanted to mingle his socialism with a bit of spiritual Zionism.

As anti-Semitism (actually, Gentile awareness of the Jewish menace) was rising in Europe, during the latter half of the nineteenth century, the idea of a Jewish state somewhere in the world (even the Island of Madagascar off the coast of Africa, was considered) was becoming more urgent to a certain segment of the Jewish population. There was the Dreyfus Case in France. There were Georg von Schoenerer and Dr. Karl Lueger in Austria. In Germany, Eugen Duhring wrote his stirring book "The Jewish Problem as a Problem of Race, Morals and Culture." There was the bitter struggle between the Czars of Russia and the Jews confined to the Pale. The Jews had always been at war with their host nations, but now they were getting even more antsier. They were becoming intensely aware of the fact that their conspiracy could blow up in their faces and they might have no place to go.

However it was not until Theodore Herzl wrote his book "Der Judenstaat" (the Jewish State) in 1896, that the idea of Zionism really began to polarize. In it Herzl laid down the first real blueprint for a new Jewish nation. Herzl called together a conference on Zionism in Basle, Switzerland, the following year, and Zionism was off and running. The Jews credit Herzl as being "the Father of Zionism." Seven years later (1904) Herzl died at the early age of 44, but his "blueprint" marched on with a vengeance.

The Zionist idea, however, was not embraced by all the Jews. In fact, at first the majority opposed it. Many of the wealthy, comfortably entrenched Jews, especially in the United States, took the position of "Why rock the boat? We never had it so good!"

But there were a number of fanatics, like the British chemist of sorts, Dr. Chaim Weizman, and a number of other Jewish zealots who began to move mountains. The story of their intrigue, their machinations, conniving and treachery is unmatched in history. It is a story we cannot chronicle here for lack of space, but can only point to a few highlights.

It was through the chicanery of Dr. Weizman that the Jews during the stress of World War I got a member of the British bureaucracy to sign the ambiguous and contradictory "Balfour Declaration." It had all the binding contractual obligations in it of a "get well" card, no more, no less. All it consisted of was a short letter, written by the Zionists themselves, reluctantly signed by Arthur James Balfour, then a Foreign Secretary in the British cabinet. It was addressed to Baron Edmond de Rothchild, a wealthy Jew of no official standing. All it said in effect was that "His Majesty's government" viewed "with

favor the establishment in Palestine of a national home for the Jewish people." At the same time "nothing shall be done which may prejudice the civil and religious rights of non-Jewish communities (the Arabs) in Palestine." (The Jews at this time comprised of only 9.5 percent of the Palestine population.)

This was during the heat of World War I when the war was going badly for Britain. The Jews promised to bring the United States into the war if Balfour would sign the letter. This, Balfour reluctantly did, and meanwhile such influential Jews as Justice Brandeis, Bernard Baruch, Col. Edward House (President Wilson's alter ego) successfully manipulated a befuddled President Wilson to indeed declare war on Germany.

On this flimsy pretext, the Balfour letter, which at best said two contradictory things at the same time, and which traded in real estate which was neither the Jews' nor the British to give, the Jews now shouted to the world they had a "Charter" to rush into Palestine and take over, although this country was then settled by Arabs whose ancestors had been there for 1,300 years.

The Jews made the most of their piece of paper. At the ensuing Peace Conference at Versailles in 1919, the Jews swarmed all over the conference, while the Arabs were poorly represented and got short shrift. Their legitimate claims were ignored.

Most Jews are Khazars.

There is one further factor that completely demolishes any "ancestral" claims the Jews pretend to have on Palestine. **Ninety percent of today's Jews are Khazars, descendents of a Mongol-Tartar race that once resided in that area of Russia between the Black and Caspian Seas. These scurvy mongrels were converted to Judaism circa 800 C.E.** and are even more virulent and bloodthirsty than the once Palestinian (Sephardim) Jews, but never set foot in Palestine.

* * * * *

Without going into the intervening details of history, we all know that from these bastardly beginnings the United Nations, with massive pressure from a Jew contaminated United States, did indeed declare the partition of Palestine and grant the Jews the State of Israel in a predominatly Arab land, a land that was not theirs to give.

With it was ushered in an era of terrorism, perpetual warfare, chaos and unmitigated turmoil that has redounded badly for both arch co-conspirators of the Jews, Britain and the United States. Britain not only lost all her influence in the Middle East, but consequently lost all her colonies as well. She is now a poor third-rate power,

herself being invaded and overrun by the mud races of the world. The United States is now vehemently hated by not only the once friendly Arabs, but by practically every other country in the world as well. Furthermore it is now fighting Israel's wars, perpetrating unmitigated terrorism on Israel's enemies (such as the recent $70 million raid on Libya) and subsidizing its great "ally" Israel to the tune of increasing billions each year.

But let us examine what a vicious beast the State of Israel really is, and the unmitigated terrorism it has carried out, before, during, and after the take over of Israel, and how it has deliberately used terrorism as a most effective weapon to brutally panic and stampede the native population to flee and abandon their lands, and bludgeon its way to power.

We also want to examine how "thankful" Israel (and the Jews in general) are to their "allies" who were stupid enough to aid them in their brutal drive for power. In particular, we want to see just how Britain and the United States, their most "dedicated" friends, have fared and how they have received their just rewards.

* * * * *

Britain had served its purpose — then was torpedoed.

At the Versailles Treaty negotiations the Jews made sure that Britain was granted a "mandate" over Palestine so that its friendly military powers could be utilized to help protect the minority of Jews then in Palestine, and the flood of immigrants that were now invading that miserable and unfortunate country.

In 1920, there were about 500 thousand Arabs, 70 thousand Christians and about 60 thousand Jews in Palestine. In other words, the Jews comprised only about 9.5 percent of the population. As the migration was accelerated by Rothschild money, by Zionist propaganda and by the rising fear of anti-Semitism in Europe by the rise of Hitler, the flood of Jews, especially from Eastern Europe, increased to a torrent. Naturally the Arabs became alarmed, and the British, with a certain sense of duty, tried to stem the illegal tide. By 1940 the population count in Palestine had shifted to the following figures: 947,846 Moslems, 120,587 Christians and 463,535 Jews, the latter still only 30.4 percent of the total population.

By now the Jews regarded the British as enemies and oppressors and covertly began to organize their own terrorist gangs and armies, although openly they were still "allies" against Hitler. By 1943, although still pretending to be "allies", the Jewish terrorist gangs began full scale operations against the British. After World War II was over, they discarded the hypocritical "ally" stance and viciously turned on the British, openly bringing their terrorist gangs into full

play. There were three major gangs: the Stern gang, consisting mostly of Polish-born Jews, the Irgun Zvei Leumi, led by a Polish Jew named Menachem Begin, and the Haganah, which called itself an "official" Jewish army. Of the latter, the Palmach division was the terrorist commando spearhead.

The Jews, now fired up by a Messianic complex, would stop at nothing. First, they would drive out the British, then the Arabs. In both cases they largely used the sneaky hit-and-run tactics at which they excel: **TERRORISM.**

First the British.

The number of acts of terrorism against the British were so numerous that I can only give a sampling of the smaller acts over a short period of time and then let the reader expand this up until the British threw in the sponge and pulled out on May 15, 1948.

Scarcely was the war over in Europe when the Jewish terrorist gangs rapidly took over. May 13, 1945: telegraph poles blown up by explosives; an attack on the (British) Police Mobile Force at Sarona, using mortars; May 15: attack repeated; May 22: Iraqi Petroleum Co. (British) oil pipeline to Haifa punctured at two places; May 25: police patrol (on pipeline) ambushed; June 12: mortars aimed at King's Birthday Parade discovered, and on the following day mortars were found aimed at Lord Gort, the High Commissioner, who would take the salute to the parade; June 17: substantial quantities of gelignite stolen from quarries by armed Jews; July 13: a truck loaded with explosives was ambushed and the British constable escort killed; same day, a bridge on the Haifa-Kantara railway line was blown up; August 7: 3,500 British pounds stolen from a Tel Aviv bank in armed hold-up; August 13: a large body of armed Jews stole 450 pounds of explosives at Petch Tiquch; August 20: a Jewish settler who had been of assistance to British police was murdered; September 2: armed Jews dressed as British police attempted to rob a Tel Aviv bank and shortly thereafter a large quantity of textiles (worth $25 thousand) were stolen there; October 31: the Palmach-Hagana blew up the railway at 153 places.

This is a sampling of terrorist acts committed in less than six months during 1945 alone, but actually the guerrilla warfare against the British had been going on since 1943, and did not cease until the British were driven out in desperation on May 15, 1948.

A few more typical incidents: on December 12, 1945, the Irgun Zvei Leumi (Menachem Begin's outfit) blew up the C.I.D. (British Criminal Investigation Dept.) Headquarters in Jerusalem, killing seven policemen and soldiers, while two more were killed in simultaneous attacks in Jaffa and Tel Aviv.

Shortly after 12 noon, on July 22, 1946, the King David Hotel

where the British government had set up their headquarters, was blown up by a massive amount of explosives brought in by milk cans and placed in the basement immediately under the wing housing the staff. The job was engineered by Menachem Begin, who later became Prime Minister of Israel, and was wined and dined at the White House in Washington.

Eighty-three members of the British staff were killed as well as five members of the public.

The intensity of the Jewish hatred for the British knew no bounds. To quote their official attitude "an Englishman would always be a filthy Goy, who could be killed for that reason alone." On November 9, 1946, four British members of the Palestine Police Force were killed by a booby-trapped mine in a Jerusalem house which they were searching for arms.

This list of atrocities against the British (their "allies," who gave them the Balfour Declaration) is only a sampling up to the end of 1946 and very incomplete. The terrorism against the British went on full blast until May 15, 1948, when the British, defeated, and militarily and economically exhausted, pulled out and dumped their responsibilities on the naive and Jew controlled United Nations.

At the same time an even fiercer racial war of annihilation was waged against the native Arabs, who had lived there for the last 1,300 years. Let us briefly review their fate. This war was going on even long before the start of World War II.

Next the Arabs.

The multitude of atrocities and acts of terror against the Arabs, like those also against the British are far too numerous to list, and completely beyond the scope of this limited article. Therefore, I will list but two examples to draw a general picture of the fierceness and brutality of the deliberate Jewish campaign to accomplish by murder, terrorism and wanton destruction what they could not accomplish by legal means. They used terror systematically and ruthlessly as an instrument to frighten, stampede and drive the Arabs from off their native lands. In this, they were experts and the results achieved were extremely effective.

Deir Yasin.

Under the leadership of Begin, the **Irgun Zvei Leumi** on the night of April 9/10 occupied the Arab village of Deir Yasin situated on the outskirts of Jerusalem. Of about 700 Arab inhabitants, 254 defenseless men, women and children were murdered in short order and many of their bodies thrown down a well. 300 were wounded.

The women and children who survived were rounded up at dawn, loaded on trucks and paraded through the Jewish section of Jerusalem. The Jewish crowds greeted their victims with a hail of stones and curses, spitting on them as they passed by.

Later 150 women and children were released near the Arab sector of Jerusalem and sent off with a volley of small arms fire.

Nasr-ed-Din.

World opinion was outraged at the brutal display of savagery at Deir Yasin, and even the Jewish Agency (the quasi-underground government of Jewish operations in Palestine) "condemned" the Irgun Zvei for this unwarranted display of wanton brutality, although they secretly participated in its planning and execution. But the bloodthirsty Jews cared little about world opinion, since their newsmedia controlled most of it anyway. They were accomplishing what they set out to do: to stampede and terrorize the Arabs to flee their lands.

This the Arabs did in large numbers. The Zionists, undaunted by outraged world opinion, on the very next day, April 10, attacked the small village of Nasr-ed-Din, near Tiberius, most of whose inhabitants had fled. They killed all 10 of the remaining persons who had stayed. They then burned down, dynamited and levelled every structure and building in the village.

The Murder of Count Folke Bernadotte.

Despite all the atrocities carried on by the invading Zionists into territory occupied by the Arabs for the previous 1,300 years, the newly formed United Nations in New York did what they could to help the Jews steal their real estate, which the Jews claimed Yahweh had given them.

By 1948, affairs in Palestine were becoming so confused and violent that no end seemed in sight.

On May 20, 1948, the United Nations appointed Count Folke Bernadotte, President of the Swedish Red Cross, as U.N. Mediator on Palestine. Bernadotte and his staff drew up a plan of partition that was more than fair to the Jews in accordance to their numbers and also in respect to the territory they had settled. However, nothing will ever placate the Jews, and they were furious at his proposal.

While driving to Jerusalem on September 18, 1948 to present his proposals, his motorcade was ambushed by the Stern gang, and Count Bernadotte and his colleague, French Colonel Serot, were assassinated.

The Israeli Attack on the USS. Liberty.

In chronicling the viciousness, the ferocity, and the arrogance that is part and parcel of the Jewish psycho, there is one more example of Jewish contempt and hatred that we should cite. It also demonstrates the "appreciation" they show for their best "friend," that has helped them most, the United States.

Nineteen years after the formation of the bandit state of Israel, while the Six-day Israeli-Egyptian War was in progress, the USS. Liberty, a billion dollar intelligence gathering ship, was quietly riding 12 miles off the Sinai coast in calm waters. Suddenly out of a clear

sky in the afternoon of June 8, 1967, three Israeli fighter planes raked the ship's starboard bow with machine gun and cannon fire, on at least six strafing runs. Following the blitz from the air, three Israeli torpedo boats moved into position, blasting the Liberty with machine gun fire, and loosed two torpedos in a desperate effort to sink the ship. Thirty-four Americans were killed and 75 were wounded.

While this was going on, and while the USS. Liberty sent out SOS pleas for help, our traitorous President (Johnson) and military staff in Washington sent strict orders for nearby U.S. ships of the Sixth Fleet to turn the other way and ignore all pleas for help sent from the embattled Liberty.

The Jewish press at home (U.S.A.) clamped a tight lid on all information regarding this dastardly attack on a U.S. Naval vessel on the high seas. The average American citizen was completely unaware that this major atrocity had even happened.

This, my White Racial Comrades is the kind of thanks any "goy" ally can expect from the Jews, now, or anytime in the future.

The brutal acts of wanton atrocities the Jews heaped on the British and the Arabs in Palestine are so numerous that they fill several voluminous books, and a full catalogue of them is outside the scope of this article. Two authoritative books chronicling most of these events can be found in *The Palestine Diaries-Vol. 1 (1914-45)*, and *Vol. 2 (1945-48)*. Each of these books is approximately two inches thick, and they do not go much beyond the events of 1948. They therefore do not include the multitude of murders, atrocities and mayhem Israel has committed on the Palestinian Arabs since becoming a (bandit) State in 1948. Nor do they list all the treacherous acts of terrorism it has committed on its neighbors and nearby neighbors, such as Lebanon, Syria, Iraq, Egypt and Libya in the last 38 years. This would easily fill another three or four such volumes.

Perhaps I have spent too much space on these atrocities already and we must move on to the next phase, namely what is in store for the rest of us goyim, and what we can and must do about it.

Next, the United States.

If we study the Jewish *modus operandi* carefully, we find it is planned, deliberate and deadly, not only in their take over of Palestine, but of the world. In Palestine the order of priorities ran in this sequence: **First**, destroy Nazi Germany. In this they inveigled the help of dozens of nations, including England, the United States (did they ever!) and the Arab Nations. **Secondly**, turn against England and drive her out of Palestine. **Thirdly** (and simultaneously) destroy and drive out the Arabs, a still ongoing process.

We now come to the destruction of the fourth victim, a process that also has been ongoing at a ferocious rate of speed since World War II.

Next Victim — Destroy America.

Just as they destroyed Germany, England and Palestine, so, too, are we in America now clearly in the meat-grinder, to be minced, mutilated and masticated. America, that is, White America, is marked for destruction, in no uncertain terms, as is Whitey all over the world. The Jews' objective is to see to it no more White babies are to be born, in as short a period of time as possible, and they have openly bragged about such a goal.

And since they have already gobbled up Germany, England, Russia, and the rest of the world just whom, may we ask, are they going to enlist to help them do this number, the biggest job of all, the destruction of the United States of America?

Meet the White Chicken.

Why, you guessed it! They have not only targeted Whitey for destruction in America, but they have already successfully enlisted his massive productivity and aid with which to do the job, not only in America, but to Whitey, all over the world no matter where he resides! The White Chicken, too passive to resist, is peacefully allowing himself to be pirated, looted and plucked to provide the Jews with the wherewithall to enslave the world and mongrelize the White Race into oblivion. (Read again "Operation Rip-off, the World's Ultimate Patsy" in Racial Loyalty No. 35 in this book.)

The fact is, whereas the Arabs were not so dumb as to allow the Jews to take over their land, homes and country without putting up the toughest fight of which they were capable, strangely enough, Whitey in America, is either too dumb, or too cowardly, to resist the avaricious Jew. Remember what we said at the beginning of this article about the dumbest creature on the face of the earth? That fits the average White American to a "T", who apparently is not only too dumb to recognize his enemies, but actively, morally and physically collaborates with this vicious vampire to help devour our own kind — The White Race — Nature's Finest. In this respect, I want to remind the White Chicken of what happened to some of our chickens on our farm in Canada. After their head was on the chopping block, they had very little control of their future. (Read again, "Make Hay While the Sun Shines", in Racial Loyalty No. 13.)

Whether you like it or not, there is no place to hide, says the Jew (and they have Ronnie repeat it for them, because his trained elocution is so good.) As the Jew smirks when he says that, he is not talking about the Arabs, he is really talking about the White Chicken. He is talking about you. What he has in store for the White Race can be pretty well screened as a preview of coming events if we study the happenings in San Domingo (today's Haiti) starting approximately 200 years ago. If you want to know what the Jewish script writers have in mind for (formerly) White America, read again

Chapter 30 of the *White Man's Bible*, entitled "The Grisly Lesson of San Domingo—A Forerunner of White America." You might follow that up by reading again Chapter 35, in the same book, "Unrelenting Warfare Between the Parasitic Jews and Their Unfortunate Victims."

Whether you like it or not, my dear White Comrades, you are locked into a vicious racial war, whether you realize it or not. The Jews have decided for you, they have locked you into it, and you cannot escape it. You are trapped, you are cornered. There is only one way out: **fight your way out!**

Rahowa!

The Moslems have a word for it and have utilized it effectively for centuries. It is called *Jihad*, and means a holy war in the name of their religion, Mohammedanism. When they have invoked it, it has worked wonders.

Now the White Race has its own term for this phenomena. We coined it only a few months ago. (*See Page 5 of Racial Loyalty No. 32.*) It is called **RAHOWA!** and is the official battle cry of both (a) our religion, Creativity and (b) of our race. It means we have identified our enemies, and we are going to nail them to the wall. And who are our enemies? There is nothing vague about that either. All the mud races are our deadly enemies for space and survival on this Planet Earth. But by far the most voracious, the most ferocious, the most deadly, is that foremost parasite of all, the Jewish network.

Planned and Deliberate.

We must be just as determined and as ruthless as the Jews are today, and have been for thousands of years. We, too, must polarize around our own hard-hitting, no holds barred **racial religion**. (a) We, too, must organize our own defense corps, in every city, town and village. In Creativity we have already suggested such a security army, and want to model it in the format of the racially belligerent *esprit de corps* of the Texas Rangers during the middle of the 19th century. (b) We, too, must set up an intensive intelligence network, to not only know who our enemies are, what they are doing and/or about to do, but also to ferret out the racial traitors in our own ranks, and let them reap their just desserts. (c) We must get our own Racial Loyalists running for political office and place them in positions of power, either covertly, or by open election. (d) We must build our own conveyor belts of information and mass means of propaganda dissemination.

The Mossad.

The Jews have had the foresight to provide for all these measures in order to expand their powers for centuries. Since the creation of the (bandit) state of Israel, they have greatly amplified and expand-

ed these means. One of the most deadly organizations they have put together is the **Mossad** in the tradition of the murderous terrorists gangs of the Stern gang, the Palmach and the Irgun Zvei. It is an organization that is not only the world's largest and most effective intelligence gathering network, but also the most massive collection of the world's most ruthless and bloodthirsty killers. They now have the run of the world, especially running rampant in the United States, to ruthlessly commit terrorism, mayhem, and murder.

A great deal of publicity around the world today is being devoted to terrorism to the point where Americans are afraid to even travel to Europe. President Reagan has just recently attended a conference in Tokyo where terrorism was the main subject on the agenda. While blaming the Irish Republican Army in Ireland, or Kaddafi, Yasser Arafat, the P.L.O., and various other Arab groups, what the President and the Jewish newsmedia are not telling us is who the real culprits are. The answer to this question is not an unsolved puzzle. The overwhelming number of these capers such as the blast at the Berlin Disco, or the bombing of a cafe in Paris, the Achille Lauro affair, when investigated in depth can be traced to none other than that bloody gang of killers, the **Jewish Mossad itself.**

They are best equiped to do the job secretly, expertly and devastatingly. Most of these acts accrue to the benefit of the Jewish cause and the detriment of the Arabs or the White Race. After such terrorist act has been commited, of course any idiot can call in anonymously and say we the PLO, or the IRA claim credit, and the newsmedia will then cooperate profusely to spread the word and Reagan will get up on his hind legs and do his part in saying something to the effect that "we have incontrovertible evidence" that the act is "linked" to Col. Kaddafi, etc., but the American public **is never shown any real evidence. Of course, the Mossad, the real culprit, is never mentioned.** But it is the Mossad that does the job in the majority of cases, and the Jews are made to seem the innocent victims.

Right now, as if the script had been written in Tel Aviv, (or Hollywood), we predict that when the President returns from Tokyo we can expect a wave of bombings to break loose in Washington and the United States. Kaddafi will be blamed but the slimey hand of the Mossad will be evident.

Racial Warfare unto Death.

We must meet fire with fire, and protect our own. We must build up our own forces and, as Hitler said, meet force with force. Not only meet it, but do what we are fully capable of doing, meet it with SUPERIOR FORCE, and smash the monster to smithereens. We must build a security force, an elite commando force, that will far outnumber the Mossad, and be just as ruthless in liquidating it.

The day might soon come when legal and peaceful means, as we have committed ourselves to in the past, may well no longer be available to us. **We must then pursue the only course open to us, and do what any proud, honorable and resourceful race is duty bound to pursue, namely use any means, legal or otherwise, available to us for our own survival.** This will mean ruthlessly hunting down our tormentors, and wiping them out, collectively and wholesale, or individually and one by one. When and if this stage arrives, (and we can well expect that our Jewish tyrants will push us to the limit,) then we must again plan our actions accordingly — and deliberately, carefully and ruthlessly. One thing we must make sure of, and that is that we use our resources of manpower effectively. Instead of blundering into one botched up debacle after another, where one of the enemy costs us 20 or 30 of our most militant fighters, we must make damn sure from here on in that for every one White warrior that is sacrificed, we destroy 20, or 50, or 100, or 500 of the enemy.

Let us play *White Chicken* no more. No matter what you do in this chaotic world, you can't play it safe. No one gets out of this world alive. We all have to go sometime. What is at stake is our future progeny — our gene pool — our race. It, too, is perishable, if we are cowardly or careless, or it can endure for millions of years (as did the dinosaurs.)

We must proceed in a planned and deliberate program of blueprinted warfare to get this deadly parasite off our backs and take charge of our own destiny. Like the Jews, we must select our priorities, then proceed in a well-structured battle plan to demolish our enemies, one by one, step by step. When engaged in warfare, no half-baked measures will do. **Victory**, as soon as possible, is the only solution.

In Creativity, we already have such a program. It is clearly and specifically spelled out, program by program, priority by priority, step by step. Let me briefly recapitulate these steps.

1. First we must straighten out the confused, suicidal and scrambled thinking of the White Race itself.

2. This must be done by replacing the suicidal religion the Jew has foisted on the White Man's brain, namely **Christianity**, by a militant, yet logical religion, dedicated to the survival, expansion and advancement of our precious race.

3. We must then arouse and unite all our White Racial Comrades on a worldwide basis, polarizing them into one mighty battering ram and first of all, Priority No. 1, smash the Jewish behemoth.

4. From thereon out, the rest is easy. We will then be able to control our own affairs, our own destiny, our own government, our own finances, our own education, and all the rest of the ac-

coutrements that go to make up a brilliant, prosperous White society.

The rest of the mud races will then be of no particular problem, though they outnumber us 20 to 1. All we will then have to do is have the good sense to stop feeding and subsidizing these hungry freeloaders and they will wither on the vine and quietly shrink back into oblivion (Read again, Racial Loyalty No. 30, "A Planet Devoid of Mud Races.")

We now have the means, we have the intelligence, we have the numbers. We now also have the religion, the program (See Page 401 of the White Man's Bible, "Our Unswerving Program") and the fighting word to do the job. We are determined to meet Fire with Fire. ***RAHOWA!**

*Pronounced Rah-ho'-wah (rhymes with Aloha!)

* * * * *

RAHOWA: The White Man's total RAcial HOly WAr in answer to the Jewish war of extermination against the White Race.

* * * * *

The reason the White Race has been such an easy prey is that a major segment of the White Race is promoting its own self-destruction and the overwhelming moral force behind it has been none other than Christianity itself.

* * * * *

RAHOWA! is the White Man's battle cry for the resurrection and redemption of the White Race.

Comparative Religions — Part V

CATHOLICISM — GREEK ORTHODOX

A/k/a The Eastern Orthodox Church

Last month we reviewed the beginnings of the mighty Roman Catholic Church, and how it has held a majority of the White Race in bondage for nearly two thousand years.

By the year 451 C. E. the territory of the **Empire was divided into five historic patriarchates of Rome, Constantinople, Alexandria, Antioch and Jerusalem.** When the **Council of Chalcedon** met in that same year (451 C. E.) it also marked not only the culmination of a long period of theological controversies, but it also was the starting point at which Constantinople began to emerge as the sole Eastern Orthodox patriarchate within the eastern half of the Empire, and consequently a powerful rival of Rome.

Rome, as we all are aware, was by this time rapidly disintegrating as an Empire, and the virulent effect of the new (Jew-instigated) Christian religion was a major cause in the collapse that was in the making. By virtue of its pacifist teachings it had managed to turn the once formidable warriors of Ancient Rome into peaceloving wimps, chasing phantom spooks supposedly floating around (somewhere) in the sky.

The rift that was developing between East and West was partly due to political rivalries, but mostly due to theological differences. At the above mentioned Council the Chalcedonian formula defining Jesus Christ as possessing two natures, human and divine in one person, proved unacceptable to several non-Greek peoples — The Egyptians (who were followed by the Nubians and Ethiopians), the Syrians (of both Syria and Palestine), and the Armenians.

The Egyptian revolt took the form of monophysitism, the doctrine that Jesus Christ possessed only one nature, the divine.

The Syrian rejection took the form of Nestorianism, of the Antiochene school of thought. The Nestorians held a tidbit of difference in their view. They held that whereas Christ was both human and divine in perfect harmony, this divinity however did not extend to the Virgin Mary.

The Armenians, who at this time were hard pressed in defense of their territory against the Persians, preferred to retain the theological formulas current prior to Chalcedon, whatever they were.

Thus these Eastern territories, embroiled in nitpicking religious controversies that went on for centuries, were easy prey for the fanatic Arab Moslem armies in the seventh century and were soon converted to Mohammedanism by force of the sword. As a result, of the Eastern patriarchates, only Constantinople remained within the Empire.

The rivalry between Rome and Constantinople really began in 325 C. E. when Emperor Constantine founded that stellar city as the site of his new capital.

In the meantime, as Rome decayed and was finally overrun by the barbarians, Constantinople not only held its own but prospered and gained in strength. With it, the rift grew larger until it finally culminated in the **Great Schism** of 1054 C. E. The two not only became two distinctly separate empires, but two separate religious entities, each with their own popes and their own organizational structure. The two were now widely separated politically, culturally, ecclesiastically, as well as religiously, with the head of the Eastern Church now centered in Constantinople. But the conflict of religious claims of doctrine and authority continued on for centuries.

After the Great Schism, Roman Catholic Europe began to gain in strength, while the Eastern (Byzantine) Empire began to disintegrate into a racial and religious collection of many diverse and polyglot eastern factions. By the time of the **Ottoman invasion** of the Turks in 1453 it fell like an overripe tomato. Constantinople became the prime jewel of the Turkish Moslems and has remained so ever since.

The fall of Constantinople in 1453 was one of the major turning points in history, and a major setback for the White Race. When the victorious 21 year old Ottoman Sultan, Mehmet II rode his horse up the steps of the Hagia Sophia, the largest and most prestigious cathedral in all Christendom, the victory over the Christians was complete. This Mehmet II did with a flourish on May 29, 1453, and Christian Constantinople was no more. It was now Islamic Istanbul.

Although the Byzantine Empire was now destroyed and Constantinople became head of the Ottoman Empire, the Byzantine Church not only survived the catastrophe but enlarged its powers. It became the head, the “ethnark” of all the Greeks within the Turkish Empire, since the non-Moslems could not be subjected to legislation deriving from the Koran. As a result, the Christians were formed into separate communities (Apartheid in practice) and the patriarch became their political as well as religious ruler.

As time went by, through sordid and utterly unscrupulous corruption, the patriarch collaborated with the Turkish rulers to exploit and degrade the Christian communities now under his control. Not only did it abuse its authority within its own patriarchate of Constantinople, but it soon gained control of three other patriarchates now

under Moslem rule — Alexandria, Antioch and Jerusalem. It further extended its power over the Serbian patriarchate of Pec, the Bulgaria patriarchate of Ohrid, of Athens, and the Romanian metropolitante of Moldavia-Wallachia.

Russia was converted to Christianity under Byzantine auspices in 987 C. E. and subordinate to the patriarchate of Constantinople. During the next several centuries the Russian church was governed by Greek Hierarchs. However, in 1448, the **Russian Grand Duke Vasily rid himself** of the last Greek metropolitan, Isidore, and ordered the Russian episcopate to choose a native metropolitan from their own ranks. Thus Russia finally became independent from Constantinople.

Thereafter Russian ecclesiastical as well as political self-consciousness grew rapidly. **Grand Prince John III assumed the title of Tsar**, claiming to be the heir of the Byzantine Emperors before the Turkish take-over, and the Russian church now assumed the leadership of the Eastern Orthodox Church.

By the middle of the seventeenth century the Russian church rose to such power and prominence that the country was virtually ruled by a dyarchy, in which the church and the political government were on a par in the power they wielded.

By 1721, under **Tsar Peter the Great**, the patriarchate was abolished. He created in its place the Holy Governing Synod and the church henceforth was subjected to the governorship of the state.

The effect of the First World War was disastrous for the Russian church. In 1917, during the short term the Provisional Government held sway, the church held a council. It abolished the Synod and restored the ancient patriarchal administration. But when the Bolsheviks took over in the **October Revolution**, they soon enforced the Marxist world view on the church. It dispossessed the church of all its properties (as well as the rest of the population), separated the schools from the church, and prohibited by law any religious instruction to persons under 18 years of age. By 1929, under **Stalin**, and the first Five Year plan, a policy of persecution was inaugurated, and the Constitution was amended to provide “liberty of worship and anti-religious propaganda”, but in effect the communist propaganda was the main consequence. By 1935, the government asserted that, for all intents and purposes, the Russian church had been effectively liquidated and replaced by Communist orthodoxy.

In 1939, the Communist government, under fear of the threat to its survival from Nazi Germany, reversed its policy. It discounted its anti-religious propaganda and granted relative religious freedom, and there was a partial resurgence of church support. This was again reversed when the war against Germany had been won, and the church again faded into insignificance.

Today the picture is cloudy as to what are remnants of the church and what is a communist facade. But for all practical purposes the church, what is left of it, is a tool of the Communist government. Today the Eastern Orthodox church in Russia is dead, and one Jewish mind crippler, Christianity, has been replaced by another iron-clad Jewish tyranny, namely Jewish communism. (Read again, "Christianity and Communism: Jewish Twins", Page 380, Nature's Eternal Religion.)

NON-RUSSIAN ORTHODOX CHURCHES.

Romanian. The largest of the non-Greek Balkan Orthodox churches after World War I was the Romanian, which professed a membership of 13 million.

Serbian. After World War I the Serbian Church underwent a sudden aggrandizement with the political union of the Serbian and Croatian peoples in Yugoslavia, and the six Serbian ecclesiastical territories were unified. But the unification soon brought about a bitter rivalry between the Orthodox Serbs and the Roman Catholic Croatians and Slovenes.

After World War II when Communist dictator **Marshal Tito** took over, both the Greek Orthodox and the Roman Catholics suffered the same fate as the Russian church under Stalin. The church properties were confiscated by the state and it was completely subordinated under the communist regime. Whereas a token of "religious freedom" was proclaimed for propaganda purposes, the church regime and communist dictatorship became one and the same, and for all practical purposes, indistinguishable.

Bulgaria. A similar situation exists under the communist regime in Bulgaria. **Others: There are smaller Orthodox bodies in Albania, Czechoslovakia, Finland, Estonia and Lithuania.** Since all these are now under the heel of Jewish communism, these, too, are a shadowy facade of the original Orthodox and more a manipulative tool of the communist tyranny.

The New York Times claims a total of 76,444,600 Greek Orthodox Catholics in the world today, of which 51,500 reside in the United States. Considering the fact that most of these are in communist dominated countries, the validity of these figures is highly questionable, as are the loyalties of its supposed members.

Objectives of Our Comparison Series

1. ***To illustrate by means of detailed comparison that in* CREATIVITY *we have finally achieved a genuine, bonafide, comprehensive racial religion for the White Race that is the equal of, or superior to, any religion in history.***

2. ***That our religion makes more sense, is more logical, is more complete and better planned and organized; it is, in fact, more effectively structured than any of the established old "great" religions of the world.***

3. ***That in order to survive at all, the White Race must now polarize around its own racial religion.***

4. ***To convince all the polyglot and diverse White racial groups and leaders that in* CREATIVITY *lies the salvation of the White Race and the sooner we unite under the banner of Creativity, the sooner we will be on our way in waging an effective battle for the survival of the White Race.***

Think about it. If not Creativity, what else is there?

* * * * *

Let me ask you — does it make any sense to have "deep and abiding faith" in any religion, creed, belief or theory that has neither evidence or logic to support it?

* * * * *

Don't be a passive spectator. Become a militant activist in the White Racial revolution.

Greek Orthodoxy vs. Creativity

A Comparison

A. Basis of Belief.

Greek Orthodoxy is based on its Roman Catholic origins, which, in turn, are based on a polyglot collection of myths, legends and other ancient religions that preceded it.

Besides having its origins from (and incorporating) the Jewish Old Testament, the New Testament is largely a re-hash of the suicidal teachings of the Essenes. This was a minor Jewish cult outside the Jewish mainstream that existed in Quram, on the shores of the Dead Sea. It propounded such self-destructive ideas as love your enemies, sell all thou hast and give it to the scum, and a host of other idiotic teachings that were supposedly taught by Jesus Christ. However, the Dead Sea Scrolls and other historic evidence indicate that the Christian church plagiarized all these teachings from the Essenes, a Jewish cult that existed between 100 B.C.E. to 100 C.E., then died out.

CREATIVITY, in contrast, is based on the realities of the universe in which we find ourselves. By using logic and common sense, and trying to learn from the mistakes of mankind in past history, Creativity is trying to solve the multitude of problems that now beset the White Race, and the world as a whole. Creativity rejects the silly superstitions and premises that we are at the mercy of a passel of unseen spooks and spirits floating around and controlling our destiny here on earth, and especially in a supposed "next" world, an idiotic fantasy so fondly embraced by the Roman Catholic church, the Greek Orthodox church, and the thousands of other Christian cults and offshoots.

B. Goals and Objectives.

Since the Greek Orthodox churches are (unlike the Roman church) so fragmented in their control and organization, it is hard to find any central objective that all the different churches cling to, other than perhaps to intrude upon, and control the lives of their superstitious victims, and establish a power base for the polyglot mass of their hierarchies. A side issue perhaps might be claimed that they are trying to save the souls of their supporters from going to hell, but if the church had never invented this lame-brained idea in the first place, their gullible victims need never have worried about saving themselves from this fictitious monster in the first place.

CREATIVITY, on the other hand, does not engage in playing the silly spooks-in-the-sky game. Instead it focuses on the real problems of the world and seeks to organize and build a better world for the White Race.

C. Some proclaimed differences between the Roman Catholic and the Greek Orthodox churches.

1. The Roman Catholic church holds that the holy spirit proceeds "and from the Son" (a doctrine known as the "filioque" clause), as well as from the Father. Eastern Orthodoxy believes that the holy spirit proceeds only "from the Father." **(Big Deal.)**

2. Roman Catholicism affirms the existence of a purgatory, in addition to a heaven and a hell. Eastern Orthodoxy does not accept the idea of a purgatory, though it does believe in an intermediate state between heaven and hell where souls experience a foretaste of the bliss or the punishment that will eventually be theirs. **(Big Deal.)**

3. The Roman Catholic church believes in the Immaculate Conception of the Virgin, a doctrine that Eastern Orthodoxy does not accept. Eastern Orthodoxy holds that only Christ was conceived and born without original sin, that the Virgin Mary was cleansed of it on Annunciation Day. **(Big Deal.)**

4. The Roman Catholic dogma that the body of the Virgin Mary "was taken up into heaven" (declared by Pope Pious XII) is not subscribed to by Eastern Orthodoxy, which does not believe in such a physical assumption. **(Big Deal.)**

5. Eastern Orthodoxy does not recognize the saints canonized by the Catholic church after the schism of 1054, unless these saints have also been proclaimed by Eastern Orthodox synods. **(Big Deal.)**

D. Racial Attitude.

Greek Orthodoxy is completely devoid of any loyalty to the White Race and, in fact, is hostile to it. Like the Roman Church of its origin, it is now completely engrossed in the Jewish program of race-mixing, and encompasses many of the baser elements of our race.

CREATIVITY, on the other hand, is dedicated to the best interests of the White Race and the White Race, alone. It has pledged its total loyalty to the White Race and the building of a Whiter and Brighter World.

E. Organizational Structure.

Unlike the Roman Church, the Greek Orthodox Church does not have one central pope and authority. While originally trying to emulate the monolithic structure of the Roman Catholic Church, it is now a hodge-podge of different authorities. Since much of its original structure is now behind the Iron Curtain, Communist commissars control most of its present organizational hierarchy.

CREATIVITY is based on the Leadership Principle and seeks to purge the world of Communism and Jewish control, completely and forever.

The Search for The Great Promoter Continues — Only More Intensely!

In Issue No. 10, I had a key editorial on the front page of Racial Loyalty entitled, "The Search For The Great Promoter." That search is still continuing and becoming more urgent.

We believe we have the most meaningful creed, religion, program and movement for the REDEMPTION and RESURRECTION of the White Race in all its tumultuous and botched-up history. The foundations are all laid, the dies are cast, the creed and program are completed. My life's work, for all practical purposes, is finished.

At age 67, we now need a dynamic promoter to expand, proliferate and promote the product. For 15 years now, at an age when I should have been retired and smelling the roses, I have been carrying most of the load, both financially and promotionally. It is obvious that I cannot continue indefinitely, and the time has come to make a replacement. We now need someone half my age, with twice the energy to promote the hell out of it to all the far corners of the world. Remember, the Sultan Mehmet II conquered Constantinople when he was only 21.

The White Race must survive! Examine your own credentials and your own conscience. Are you perhaps that man?

We now need someone younger to take my place as editor. We need more people in the hustings setting up church groups of their own. We need organizers. We need more, more, more, in every category. But most of all it now becomes urgent that we soon find a replacement for me and get the movement in high gear on a permanent, expanding and self-perpetuating basis. We need your support and dedication!

Your Editor Going On R & R

For health reasons your editor is taking off a month to recuperate and recharge his batteries. During September I will be going to a Health Resort on a two week fast, followed by two weeks of breaking the fast and rebuilding.

Publication of RACIAL LOYALTY will be suspended during the month of October. We will resume with Issue No. 29 in November.

In the meantime, our Hasta Primus, Rev. Messick, will be in charge of the store and promoting the movement as always. He will be answering your letters, filling your orders for books, booklets, bulk copies of Racial Loyalty, records, video tapes, and any other materials you may need.

So don't slow down — keep the momentum moving! Keep promoting, keep distributing! We need all the help we can get, including your financial contributions.

The Sooner the Better

Polarization and Confrontation

The Jew contrives to delay it until the White Race is too weak and degenerate to fight back before closing in on the kill.

From the earliest dawn of history, it has been the White Race that has written it, and achieved all the major accomplishments that were worth writing about. For thousands of years, the White Race and the White Race alone has built civilizations, built empires and reigned supreme. Not until as recently as 40 years ago, after WWII, has the White Race seriously been threatened of being overtaken and massacred by the exploding mud races.

Today that threat is very real, in fact, ominously so, and only a major and drastic turnabout by the initiative of the White Race itself can save it from almost certain annihilation.

How did we get into such a mess, such a horrible dilemma?

It is the objective of this analysis to trace the course of this awesome development to isolate the hand of the Jew in the degeneration of our race, and come up with a solution.

We want to docket, step by step, how the Jew from earliest history has deliberately, in an assiduous and planned conspiracy, chipped away at the White Race, confused it repeatedly, mongrelized it at every opportunity, inveigled it in religious insanity, and torpedoed its numbers, power and influence at every turn. This they have done without the White Race hardly ever even daring to admit that it was being assaulted.

Let us go back to the earliest of all great White civilizations and start with Egypt, where history, and even the Jewish bible, records the earliest presence of this pestilent parasite on the back of civilization.

The Jews in their concocted history of themselves (that we charitably call the Old Testament, and even more foolishly have made a major portion of "our" Bible) claim that they were slaves in a proud and powerful Egypt, and that they wanted out. As usual in their renditions, they claim they were poor, downtrodden victims and the wicked Pharoah would not "let their people go." It was only by the perspicacity and heroic leadership of their Moses, coached by their tribal god Jahweh, that they were able to extricate themselves from the clutches of the evil Egyptians.

What authentic history we can gather confirms the presence of the Jews in early Egypt, when Egypt was still White. However, there is no historical evidence of any Moses and it is doubtful that he was anything more than another fictitious character, as undoubtedly were Abraham, Isaac and Jacob. What history does record, is that the Jews were then already a well established breed of parasites when a small segment of starved and miserable Jews appealed to the sympathy of an unwary Pharaoh and allowed them to enter his domain. Little did he suspect the virulence and destructive nature of the tribe to which he so foolishly offered hospitality.

The Jews soon rose to high positions in the land of the Pharaohs and simultaneously the Empire began to disintegrate as this race of vampires began to show their true colors. They soon indulged in their favorite historical commerce — the trading of slaves derived from the black Nubians to the south. With slave-trading, mongrelization of the fine Egyptian gene pool was soon underway.

Gangs of bandits sprang up and began to harass and plunder the ancient trade routes. They became bolder in the outposts of the Empire. With their well developed system of communication (as always) the Jews knew exactly when to strike and which towns were most poorly guarded.

As time went on the population became darker, more mongrelized, and more alien. Its leadership became more disoriented and sluggish, and the nation began to disintegrate.

An ancient papyrus in Leiden, Germany, translated by Alan H. Gardner, states:

"Egypt was in distress; the social system became disorganized; violence filled the land. Invaders preyed upon the defenseless population; the rich were stripped of everything and slept in the open, and the poor took their possessions. It is no mere local disturbance that is here described, but a great and overwhelming national disaster. The Pharaoh was strangely inactive."

Does this sound similar to what is happening in America today? It does. But let us proceed to a stage America has not yet come to, but soon must, if the White Race is to survive.

By 2100 B.C.E. a demoralized and divided Egypt was easy prey to the Hyksos invaders. As the Jews were to do later for the Moslem invaders of Spain, the Jews paved the way for the Hyksos.

After 511 years, the Egyptians had had enough and finally got their act together. They ran out the Hyksos and the Jews along with them. Contrary to the Jews' claim that the Pharaoh wouldn't let them out, the Egyptians couldn't get rid of them fast enough and ran them the hell out of their domain.

Just as the Jews have inverted and perverted the story of the fictitious "holocaust" so even then did they concoct their treacherous

history and claim they were held in bondage and we have been stuck with that story ever since.

But the damage in Egypt had been done and it was irreversible. A partially mongrelized and fractured Egypt continued downhill to the abject picture as I have described in Racial Loyalty No. 11 and 12. Poverty, overpopulation and helplessness is the lot of a once proud and resourceful White Race.

At every opportunity at every turn in history the Jew was on the side of our enemies, and helped to betray, confuse and sabotage the White Race.

One of the finest of all genetic examples of the White Race that we can point to existed in Ancient Greece during the Golden Age of Pericles. In their Protocols, the Jews delineate the course of the Symbolic Snake. Its first stage in Europe was at the time of Pericles in 429 B.C.E. when the snake first began gnawing at the vitals of that great and hapless civilization. Today Greece is one of the most mongrelized of all European countries, and barely on the fringe of what can be legitimately called the White Race.

We move on to Rome, that greatest of all Ancient Civilizations from which today we inherit so many of our laws, so much of our language and culture. This civilization, too, the Symbolic Snake thoroughly disemboweled. The Jews were again in the forefront as slavetraders and did their utmost to drag into the Empire all the scum and derelicts of the East and from Africa. **But the biggest blow of all was heaped upon the Roman Empire and its rapidly degenerating gene pool when the Jews slopped that racial melting pot with a poisonous new creed — Jewish Christianity.**

This brought on a total breakdown of law, order, society and the whole previous culture. The Dark Ages ensued. When Europe was assaulted by the fiery sword of the aggressive new Moslem religion in the 8th century, the White Race had reached its most vulnerable and lowest ebb.

When the Mohammedans crossed the Mediterranean and the Straits of Gibraltar to invade Spain in 711 C.E. the Jews betrayed and paved the way on the Spanish side. The Semitic Arabs rushed in, conquered Spain and drove all the way into the middle of France, where they were finally stopped by Karl Martel at the Battle of Tours in 732.

During their next 750 years of Moslem occupation, the White Race again suffered debilitating mongrelization. When the Moors were finally driven out in 1492 by Queen Isabella, the Jews were again very much in the midst of the fray, aiding, abetting and financing the Moors, and betraying the White Race at every opportunity.

The Mohammedans made two more major attempts to assault

White Europe, one, extremely successful and highly damaging, and another almost successful.

This time it was the Mohammedan Turks, a Mongol race originating out of Asia.

For one thousand years Constantinople had been the cultural and religious diadem of the eastern Roman Empire. Again, through racial miscegenation, a mixture of polyglot cultures and language, Constantinople degenerated into the hodge-podge of a racial Babylon. It was ripe for the plucking and in 1453, Sultan Mehmet II, then only 21, invaded and conquered the greatest of all White bastions in Eastern Europe. When he rode his horse up on the steps of the Hagia Sophia basilica, it was one of the worst defeats and the greatest setbacks the White Race had suffered in a thousand years.

What did the Jews have to do with it? Quite a bit. Again, they had confused and demoralized the Orthodox culture of this Eastern capitol for centuries in advance, bringing about its degeneracy and collapse. When the final battle was joined, they were again in the forefront aiding and abetting the enemy and betraying the city from within.

Having secured this most strategic of all major bastions in Eastern Europe, the Mohammedan Turks continued to press onward and upward into the heart of Europe, seeking to conquer that whole continent. In this they were aided and abetted by the White Nations themselves, when the White Nations of Europe indulged themselves in a suicidal orgy and self-inflicted bloodbath. The Thirty Years War (1618-48) greatly decimated and weakened all of the White Race. It set them up for further Mohammedan invasion. This vicious and insane war, fought over Jewish Christianity, pitted Catholic Christians against Protestant Christians. All of Europe suffered greatly and the effect on the German states especially, was devastating.

The Turks saw their best chance when their leader Kara Mustafa, encouraged by an alliance with France, made a major assault on Vienna in 1683. They were defeated by an alliance of John Sobieski of Poland, and Charles of Lorraine of the Habsburgs. This ended for all time the threat of the Moslem invasion of Europe. Had the Turks succeeded, as they nearly did, much, if not all, of Europe would have fallen under the sway of the Mongol Turks.

Before we leave Europe let me add other fratricidal and suicidal wars and events which decimated the cream of White manhood in Europe and bled her dry. There is hardly a one in which the hidden hand of the Jew did not participate, instigate, enter and manipulate.

(1) The Hundred Year War between France and England.

(2) The French Revolution in which the Jews decapitated the French nobility, and with it, their most capable leaders.

(3) The Napoleonic wars, which lasted twenty-four years and bled France dry.

(4) The wars between Russia and Austria.

(5) The war between France and Germany, 1870-71.

There are many more, but let us now leave the continent of Europe for the time being and turn our attention to the Western Hemisphere. Let us see how, after three centuries of vigorous colonization by the White Race, those two continents, both North and South America, too, were undermined, mongrelized and taken over by the Jews.

One of the most crippling moves that the White settlers practiced from their earliest beginnings was the importation of black slaves from Africa. This was practiced by the Spanish colonizers in Cuba, Mexico and South America. It was practiced by the French in San Domingo, to their subsequent annihilation. It was practiced by the White Anglo-Saxons in the British North American colonies, especially in Virginia, Georgia, North and South Carolina. It was vigorously pursued by the White colonizers in the Caribbean Islands, which today are nearly completely negroid and mulatto.

In all these, the Jewish slave trader was the key mover, and through their historic experience in this ancient and nefarious trade going as far back as Ancient Egypt, the Jew knew exactly what he was doing.

What he was programming was the future mongrelizaton and destruction of the White Race, which today is becoming overwhelmingly apparent.

To help speed up the process the Jews instigated the fratricidal Civil War (1861-65), which severely decimated the cream of White American manhood, especially in the South. It also promoted the jungle animals into a position of “equality” with their former White masters, and, in fact, disenfranchised the White population of the South for two decades.

Having dismantled both the economy and the social framework of the South, the Jewish carpetbaggers from the North rushed in and grabbed the physical possessions of the now destitute White Southerners for a mere pittance. After more than a century, the South has not even today recovered from that devastating blow.

To further decimate and enslave the White race the Jews next embroiled both America and most of the White Europeans in two devastating wars, World War I and World War II in a short period of thirty years.

The result has been overwhelming in the deliberate crippling of the White Race. Not only did the Jews thereby destroy one of the key nations in Europe, (Germany) but they have now successfully placed in financial bondage every nation in the world, be they White,

brown, yellow or black. At the heart of this conspiracy is the Jewish House of Rothschild. The Federal Reserve Board, and the whole Jewish cabal. This band of gangsters is successfully running a worldwide counterfeiting ring, a financial scam, by which they have stolen the wealth of the world by merely manipulating worthless paper.

But their financial manipulations are only part of the game. Since World War II they have seriously undermined the White race and boosted the power of the mud races by various treacheries and devious political tricks.

One of these was turning the Suez Canal, one of the two most strategic waterways in the world, over to an inferior mud race, the Egyptians. A second treacherous move paralleling the Suez Canal caper was to turn the Panama Canal, owned by the United States, over to a tinhorn communist dictator, and paying this banana republic large sums of money to take it. This was not only a treacherous slap in the face to the American voters and taxpayers, who vigorously opposed it, but a devastating blow to the future security of the United States and the White Race itself. Treachery, lies, deceit and the strong arm of the Jewish political and financial power achieved this betrayal that 20 years ago would have been unbelievable, and even today reeks to the high heavens.

Now let us turn to the continent of Africa. We find that after World War II nearly every territory in Africa was settled, controlled and /or governed by a White European power. Through chicanery, treachery and deceit, every White power has now either evacuated those colonies, or been driven out. The only exception is the Republic of South Africa, and it too, will soon, through deceit and treachery, be delivered over to the savage black animals. (See *Racial Loyalty No. 28, "South Africa — The Last To Go", P. 256 BWBW.*)

And so with worldwide Jew power in the crescendo, the White Man is now on the run, whether in Africa, or Europe, or America. Through stupidity, through cowardice, through lack of foresight and understanding on the part of the White Race, it is now reaching the end of the line. As we can see from a review of history the Jew has assiduously whittled away at the White Man's culture, his morale, his political and financial power. Through repeated bloodletting and mongrelization of the White gene pool, he has reduced the White Race to a cowering hulk of simpering wimps. The White Man is now denouncing and denigrating his own race, shamefully caterwauling and kowtowing to the blandishments of the filthy Jews and niggers. But it won't save his neck from the final reckoning for his abject cowardice and criminal idiocy. The sinister Jew is skillfully biding his time, all the while proceeding with his planned and deliberate program of weakening, decimating, demoralizing and mongrelizing

the White Race, as he has for thousands of years, going all the way back to the White Egyptians. He does not want a pitched battle, or open confrontation between the White Race and the mud races, **not quite yet.** At this time such open conflagration would still result in an overwhelming victory for the White Race and wipe the mud races and the Jew along with them, from the face of the earth.

The time is not yet quite ripe. But give it another ten years, perhaps fifteen, and the White Race will be so weak, confused and decimated, it will have neither the will, nor the power to defend itself. **When that time comes (and the Jew will recognize that proper time) he will unleash the fury of the mud races, joined by the renegade White traitors, in the biggest bloodbath in history to massacre the White Race en masse.** (Read again Creative Credo No. 30 in the White Man's Bible "The Grisly Lesson of San Domingo".)

That is the goal and the dream of the Jewish power establishment — no more White babies — to destroy forever the power of the White Race from ever again threatening the stranglehold of the world's foremost parasite.

We, of the Church of the Creator, are struggling to avert this major tragedy from coming about. **We say — rally the White Race now and polarize around the only major idea that can still arouse and save the White Race — a powerful racial religion — Creativity.** Arouse and organize the mighty force that is inherent in the White Race before it is too late. We still have the numbers, the means, the wherewithal. Let us awake, let us now make hay while the sun shines, organize and utilize our awesome might and save ourselves and the future generations of our progeny. There's no other way out.

The name of the game is to polarize and build a White Racial power structure to smash the Jewish monster.

* * * * *

Time is running out for the White Race. Confrontation now is preferable to being wiped out later.

Naples, Fla., Jews go paranoid over our new book — EXPANDING CREATIVITY

The following article recently appeared in the Naples Daily News, and is pretty well self-explanatory, except for its significance.

The question arises: of all the thousands of paperback books on the newsstands, why should the Jews be so deathly afraid of some one reading EXPANDING CREATIVITY? If the book was inaccurate, or made no sense, or was just plain diatribe, nobody would pay any attention to it and nobody would particularly care whether it was on the newsstand or not, now would they? So why the fear, the paranoia, the call in the middle of the night, the haste to destroy them, so no one could get the message?

The answer is obvious. The Jews know, and we know, that what that book (and our other Three Basic Books) say is true and it exposes the whole Jewish cabal, including its Christian accessory that they have manipulated and utilized so cleverly. Hence they denounce and suppress it whenever and wherever possible.

This act is, of course, an act of strong-arm censorship and if it were turned on the Jews, such as for instance destroying any literature or propaganda about their concocted "holocaust", what would happen? They would of course, scream to high heaven about censorship, freedom of speech, First Amendment Rights and their whole laundry list of rights.

What about the White Man's right to Freedom of Speech?

Well, let the Jews get it straight: we are not begging hat in hand. We mean to exercise our constitutional rights, come hell or high water. We mean to pursue our full course of action as set forth in our creed and program until such a time as the White Man is again fully in charge of his own destiny. Nothing less will do.

Along the Trail ... A hateful diatribe surfaces

By Tony Weitzel

BOB NABER PHONED. I was asleep. It was night. He apologized for that. But he was terribly upset. I couldn't blame him. He is a bright, rational guy and he knows about people and history from George Washington to Adolph Hitler. An odd little paperback book out of North Carolina was almost making him upchuck.

He found the little paperback by accident. He was on Fifth Avenue in Naples between one prestigious bank and almost next to another prestigious bank.

He happened to pass a news rack in front of a supermarket. There in the rack were six paperback books that obviously didn't belong there.

The book was titled, "Expanding Creativity, a Powerful Religious Creed dedicated to the survival, expansion and advancement of Nature's Finest."

THE AUTHOR'S name was "Ben Klassen, P.M., Founder, Church of the Creator," and on the first inside page it said, Expanding Creativity was an "idea whose time has come."

The book has 254 pages and it apparently was composed of the first 12 issues of something called "Racial Loyalty, published by the Church of the Creator; P. O. Box 400; Otto, North Carolina; 28763. Dedicated to the younger generation of Nature's Finest. It is into your hands we have thrown the torch. It is you who will have the awesome burden, but also reap the glory of fighting the battle for the survival of your race and of civilization itself."

Bob read the paperback, getting more nauseated by the minute. It seemed to be a startling sort of revival of the stuff the little paperhanger named Hitler got going in the beer halls of Munich, in that dreadfully hungry period after the big war.

THERE IS, in this dogma, only one race worthy of being carried on into the future. That is the White Race. The Jews Hitler hated and murdered by millions?

After 65 years, the book says, "the Jewish onslaught rages on. Violence against our church!"

But the paperback composed by these Neo-Nazis insists that these new Nazis are not atheists, but creators of a new all-White credo. And there is the Hitler appeal to youth motif. There is, in the paperback lexicon, provision for a school for gifted boys.

Eventually, however gifted, boys will be boys so there is a notion of establishing a "Cupid's Corner".

And a slogan, "Come out of the closet, White Man, your fear of the Jew is highly paranoid!"

The Jew, says the little paperback book, is “stealing our most precious treasures, our genetic heritage!”

The little paperback considers Adolph Hitler as “the master organizer of all time!”

It analyzes Hitler’s Chapter IX (Book II) on “Propaganda and Organization,” and how Hitler strategy can be applied to the Neo-Nazi group.

“WE ARE NOT helpless,” the paperback says. “The White Race is not using one percent of its tremendous resources. Properly organized and harnessed, our potential is beyond comparison. Let us use our muscle!”

My friend Bob, already sick at heart, found there was more, and worse Neo-Nazi philosophy.

“The White Race,” the Neo-Nazi digest drools on, “in its six thousand years of civilization has never had such a core to polarize around that concerned the White Race as such. Never, that is, until a little more than a decade ago when Creativity appeared on the scene.

“Remember, everything that was good and sensitive on the face of the planet was done by the White Race.”

“We have it all! Now let us do the sensible thing and channel our resources to our own benefit.”

At about that point, Bob decided he should phone me. I should know about the little paperback and the Neo-Nazi who published it.

So he bundled all but one copy of the paperback (priced at $5.00 each) to the trash can. Then he phoned me at home where I had just given up on the Chicago Bears and Dallas. He said, “Tony, you wouldn’t believe the sort of spiritual filth that is being peddled right here in Naples.”

WE MADE A DATE and Bob brought the book to my office. It was, he sighed, an ancient chapter out of Adolph Hitler’s Nazi credo. It was a bloody echo of the hatred that fueled the ovens in the Nazi death camps and murdered the good people who had fled into the sewers of Warsaw.

Hitler’s Nazis fought their way to the very banks of the Volga River, at Stalingrad, and then his hungry, frozen army literally fell apart.

After the awful war Hitler started, I trudged the banks of the Volga at Stalingrad and I talked to Poles in Warsaw who had given food to little children who crawled out of the sewers to find food for their families.

And I visited the death camps where Jews languished until death left nothing but brittle, charred bones.

Bob and I agreed, there is no room for Nazis, new style or old style.

Comparative Religions — Part VI

PROTESTANTISM

The early origins of Christianity are extremely obscure, and they are intentionally so because the early church fathers deliberately destroyed as much of the then existing historical evidence as they could. A flagrant example of this was the outrage they committed in burning the 400 thousand volumes of the library in Alexandria, the greatest of all libraries in the ancient world.

The reason they wanted to destroy as much of the historical knowledge and evidence as possible was to hide and obfuscate the sleazy foundations upon which their fraudulent "new" religion was being built. We must remember that in its beginnings Christianity had several rivals in the then Roman Empire, and one of its strongest rivals was Mithraism. Christianity won out because it was more cunning, more ruthless and more persistent.

However, despite all the attempts to confuse the evidence, the Dead Sea Scrolls and other manuscripts do point to the following conclusions:

1. Most of the teachings inherent in the "New" Testament, and supposedly uttered by a mythical Jesus Christ, had already been formulated and taught by the Essenes at least a century before the supposed birth of Christ. The teachings were not "new" and they were not original.

It is also significant to note that because of their suicidal teachings, the Essenes lasted no longer than two centuries. They were a minor Jewish cult living at Qumran in Palestine on the shores of the Dead Sea.

2. There is no historical evidence that either Jesus Christ, or his four purported chroniclers, Matthew, Mark, Luke and John, ever existed. To carry this further, there is no evidence that Little Jack Horner, Miss Muffet, or Jack and Jill existed, nor that the story about Hi-diddle-diddle, The Cat And The Fiddle, The Cow Jumped Over The Moon is factual. Just because these ditties have been widely circulated and have survived for centuries is no evidence of their authenticity.

3. There is substantial evidence that Paul of Tarsus, the Jew, was real and that he wrote a number of letters and promoted the teachings of the Essenes with great zeal under the guise of the new religion, Christianity. (Read again Creative Credo No. 43, "Confessions of a Jew," in the White Man's Bible.)

From these shabby and degenerate beginnings Christianity limped along for about three hundred years, appealing to the slave mentality of the incompetent, the degenerate, and the scum of Roman society. However, when the church fathers managed to inveigle and seduce the mind of Emperor Constantine into their scam, in 312 C.E., they struck a real bonanza. By 325 C.E. Constantine managed to pull the church fathers together at Nicaea (in Asia Minor) and hammer out the "new" Christian Bible. Now, with the wealth, the power and the prestige of the Empire (an Empire the Christians had targeted for destruction) behind them, Christianity was off and running, well on its way to dominate the lives and thinking of the White Race for the next sixteen hundred years.

It had long ago brought down the mighty Roman Empire, and built up an all pervasive power structure by the year 1052, when the first major rift in its hegemony came along. It was known as the Great Schism and I have described it more fully in the September Issue of Racial Loyalty about the Greek Orthodox church. By the end of the fifteenth century the Papacy, with its headquarters in Rome, had pretty well monopolized the religious thinking and power structure of our White Racial Comrades in Western Europe, and it was now supreme, without a challenge.

With its unlimited power, it had also grown extremely corrupt and degenerate. It had also grown extremely pecuniary and mercenary. Money, wealth and power were now its main drives, and in this respect it was far more successful than any political or commercial entity. The popes, the bishops, and the upper hierarchy of the Roman Catholic Church lived the life of Riley, indulging in concubines, summer palaces and rich living of the highest order. **Not the least in its bag of super tricks in fleecing the superstitious and the gullible was the selling of indulgences.** This neat little trick consisted of selling little slips of paper signed by the Pope or one of the upper hierarchy, saying that the recipient would get a reprieve of some kind in purgatory or even hell, and move him or her closer to heaven. The trick was to move said soul only a little closer, not all the way, so that any number of repeat sales could be effected. These indulgences supposedly would also help your dead father or mother, or uncle or Aunt Minnie, whomever you might be concerned about. But they could also help yourself as a future insurance, even if you were still alive and kicking. However preposterous these little gimmicks were, they sold like hot cakes for decades on end. The building of the luxurious new St. Peter's Cathedral in Rome (as well as many others) was primarily financed by means of this racket.

As an aside, outside of its religious connotation, there is a striking similarity in this Jewish gimmick and that practiced by the

Federal Reserve Board. Both took (or take) cheap pieces of paper, put some equally cheap ink on it, then pass these phony slips of paper off on a gullible public at a dear price.

So profitable was this racket of selling indulgences that it soon got out of hand, and some concerned members of the Church rose up in protest. One of these was Martin Luther, an Augustinian Monk and Roman Catholic priest who nailed his famous 95 Theses to the door of the castle church in Thuringen, Germany. The date was October 31, 1517, and this heralded the opening shot of the revolt against the Roman Catholic colossus. Luther was condemned and excommunicated by Pope Leo X, but this did not stop the rebellion that had now been set in motion.

Luther was emulated by Huldreich Zwingli in Switzerland, who began to preach against all the "Roman superstitions" in his home town of Zurich. The rebellion soon spread to the cantons of Basil, then Bern, St. Gall, the Grisons, the Valais, and other cantons. A Frenchman, John Calvin was converted to the movement and upon the death of Zwingli in 1531, became the leader of the Swiss reformation.

In England, British resentment of the exploitation of the people by the Roman curia had long been resented and was widespread. John Wycliff led the revolt against the Catholic church, but his writings and his movement were soon repressed by Henry VIII, who wrote a ponderous treatise of his own on the Sacraments, refuting Luther's theories. For this the Pope commended him and bestowed upon Henry the title "Defender of the Faith", which the British Monarchs still use and cherish to this day. However, Henry soon broke with the Pope because the latter rejected his request for the nullification of Henry's marriage to Catherine of Aragon. Henry was determined to marry Ann Boleyn and decided to hell with the Pope, he would set up his own church and make his own rules.

This he did, and upon this sleazy and licentious premise was laid the foundation of the Church of England, which the superstitious and the gullible in England (and elsewhere) still revere and worship to this day. The Lutheran Reformation was introduced into Sweden in 1531 and Norway and Denmark in 1537, not by religious leaders as such, but by royal decree of its monarchs.

And so the rebellion spread across Europe. Some countries became Protestant. In others, like Spain, France and Italy, the Roman Catholic church maintained its iron grip, by war, by terror, by threat or murder, whatever was most effective.

One of the most horrifying examples of terrorism perpetrated by the Catholic church at this time was the St. Bartholomew's Day Massacre in France.

It began on St. Bartholomew's Day, August 24, 1572, when Paris

was filled with many Protestant (Huguenot) nobles who had come to celebrate the marriage of Henry of Navarre and the sister of King Charles IX of France. From Paris the bloody orgy spread to the provinces. It is estimated approximately 50 thousand victims were massacred, all in the name of Christian love and charity and to the glee of the Pope of Rome, the King of Spain and the King of France.

What did the reformation accomplish that was constructive? Not much.

The Catholic church cleaned up its act only slightly, but by and large kept on fleecing and brow-beating its victims pretty much as before and perpetrating terroristic atrocities on those still in its thrall who would not bend to its insane dogma. Burning at the stake, thumb-screw and rack were still its best persuaders.

The Protestants were no better. Whereas they cut loose from the Pope and from Rome, they, too, pursued terror, mayhem and torture on their own victims who would not bow to their (slightly) new beliefs. (Read again Creative Creedo No. 51, "The Thumbscrew and Rack," in *The White Man's Bible*.)

Both the Catholics and the Protestants now practiced what only the Catholic church had the power to do before — namely widespread intolerance, torture, terror and narrow-minded bigotry, all in the name of the phantom spooks in the sky whose very existence was then, and still is, highly questionable. The same mass insanity and thumb-screw and rack tactics continued to be practiced by both groups with equal fanaticism, and increased vehemence.

But that is not all. The Protestant groups now started splintering into a multitude of cults and factions of their own, and with it developed the factional warfare, overt and covert, that has persisted within its ranks ever since.

The rift between the Protestant factions and the Catholic church simmered ominously for nearly 100 years and then broke out into a bloody conflagration that manifested itself in the Thirty Years War (1618-48), one of the most vicious, insane and destructive wars ever fought between members of the White Race. It involved nearly every nation in Europe, and was most devastating of all to the then still fractured German states. It set Germany back at least 200 years in its development, killed two-thirds of its inhabitants and destroyed about five-sixths of its buildings, cities, towns, farms and physical properties.

What was the war all about? Some insane tid-bit of difference of opinion regarding the spooks in the sky, about which no one really had the slightest bit of information anyway, and whose existence was and still is merely speculative. Talk about mass insanity!

Today there is still bitterness between the Protestants and the Catholics. There is jealousy, intolerance, bigotry and divisiveness bet-

ween the different factions of the Protestant denominations, which by now number in the thousands. In fact, there is nothing, but nothing, in the world that has so divided, splintered and fractured the White Race as have the different Christian cults, sects and religions.

The Jews planned it that way. As the Jew, Marcus Eli Ravage said (See Creative Credo No 43 in The White Man's Bible, "Confessions of a Jew"), "For this mess thanks to you, to your prophets and to your Bible."

The New York Times Almanac reports that there are 98,875,560 Protestant members of various denominations in the United States, and 341,496,740 on a worldwide basis. This latter figure is approximately a third of the total Catholic (Roman and Eastern Orthodox) world membership.

When Saul of Tarsus set out to inflict Christianity on the Romans back in the First Century, C.E., he really unleashed a can of worms, from which we have not recovered to this day.

It is the goal of CREATIVITY to eradicate this aberration of the mind and set the White Race back on a course of sanity.

* * * * *

Jewish Christianity is like a huge submerged reef in the middle of a major shipping channel. Until we blast it out of existence, the White Race will repeatedly be shipwrecked on it.

Protestantism vs. Creativity
A Comparison

A. Basis of Belief:

There is no one consensus of the Protestant belief, and the nit-picking details and differences vary as to each individual denomination, cult, sect, or even individual churches. Since these run into the tens of thousands, we cannot, of course, detail them here. There is however, a common denominator, more or less, in them all.

Essentially, their beliefs are based on the Jewish/Christian Bible, which is only slightly different from the Roman Catholic Vulgate edition. Most Protestant denominations in the past followed the King James Version, rewritten by a group of scholars ca. 1611. It is a partially cleaned-up version of the Roman Catholic Vulgate text, whose language was considered somewhat vulgar, hence Vulgate. Both the grammar and the literary style were greatly improved by these revisions.

Nevertheless, even the King James Version, deodorized as it is, still contains a large number of passages, stories and episodes that are vulgar, crude, filthy, and in fact, just to list the numbers of such chapters and verses fills several pages. (They are listed in the 1886 edition of Foote & Ball's Bible Handbook.)

Most of the liberal Protestant churches have now discarded the King James Version in favor of the Revised Standard Version, (R.S.V.) which uses more modern language.

The whole Bible has been translated into English, or revised in the English language more than 50 times, and the New Testament at least 110 times, thereby ignoring it's own dictum that not a tittle be added or subtracted from "God's Word."

CREATIVITY, in contrast, repudiates the whole superstitious contention that our lives are governed by a passel of spooks hovering over and around us, monitoring our every action, deed, word, and thought. Instead, our creed and program are based on the realities of the universe in which we live, on the Eternal Laws of Nature, on logic and common sense. These eternal truths are set forth in our three basic books, *Nature's Eternal Religion*, *The White Man's Bible*, and *Salubrious Living*.

B. Goals and Objectives:

The Reformers (Martin Luther, Calvin, etc.) were zealots whose proclaimed objectives were salvation for themselves and saving the souls of others, even if they had to use the thumb-screw and rack to whip the others into their line of thinking. The modern day Protestant churches, strongly under Jewish influence, have now pretty well abandoned the salvation-for-the-hereafter business, and are hell-

bent on pursuing several issues, of which racial equality and race-mixing are now the most strident, urgent social gospels. (The media calls it Secular Humanism, another one of those Jewish terms that most people are confused about; but basically it means promoting sex, race-mixing, feeding the niggers and the scum of the world at the expense of the White Race, of course, while at the same time denouncing and undermining the White Race itself at every turn.)

Creativity, on the other hand, strongly denounces race-mixing and promotes the goal of racial purity for the White Race. In fact, its sole concern is for the best interests of the White Race and the White Race alone, seeking to bring meaning and order into a now degenerate, confused and chaotic world. We strive to build a Whiter and Brighter World.

C. Some Proclaimed Differences Between the Protestant churches and the Roman Catholic church:

From the traditional Catholic point of view, Protestantism was, and is, a heresy, a willful departure from the divinely revealed doctrines and institutions of THE CHURCH, leading to apostasy from THE TRUE FAITH and to obliteration of the rules of Christian life.

From the Protestant point of view, according to the reformers, it was the Catholic church, which, on the contrary, deviated from the revealed teaching and discipline of original Christianity and thus from the living, mystical body of Christ. By hypertrophic growth of its institutional machinery, the medieval church stiffened the life of the spirit. It made of salvation a kind of mass production of sacramental and devotional external practices and pseudoascetic ways of life. Above all, it usurped the powers of the spirit to the benefit of the clerical caste and thus opened the door to all kinds of abuses and to the exploitation of the Christian people by a corrupt clerical bureaucracy which had its center in a papal Rome, whose moral debasement was the scandal of Christianity.

So there. Take your pick.

D. Racial Attitude: There are still a few fundamental churches that favor racial separation, but that minority is small and dwindling.

Most Protestant denominations, especially the World Council of Churches, The National Council of Churches, the liberal churches and even most of the fundamental churches are now going all out to promote race-mixing, and to please and appease the Jews. Most churches, such as Jerry Falwell's "Moral Majority" (who claim to be fundamentalists), knock themselves silly to promote Israel and the idea that the Jews are "God's Chosen people."

CREATIVITY, on the other hand, is striving to the limits of its resources to get the parasitic Jews off of our backs, and pursuing a sound and healthy program of EUGENICS for the upgrading of the White Race.

All Hole and No Doughnut

What is a Spirit?

An in-depth exploration into the world of gobbledygook and double-talk.

The Jewish-Christian Bible talks repeatedly and incessantly about spirits, ghosts, demons, gods, angels, lucifers and other nebulous fantasies as if they were real, and not only real, but extremely important and powerful. In fact, once your mind gets locked into this line of nonsense you are led to believe that the world of fantasy is far more important than the real world, than the vast universe in which we find ourselves.

Christ purportedly said, “My kingdom is not of this world.” It is, he explained, a spiritual kingdom of some sort, somewhere “up there,” but he, too, never explained what a spirit is. The whole massive superstructure of the Christian religion (and every other spook worshipping religion) is built on the following basic premises, for none of which is there a shred of meaningful evidence.

Here are their presumptions, based only on “belief.”

1. Although nobody has ever seen, heard, felt or smelt a ghost or a spirit, there is a vast world of spirits out there.

2. These spirits have been gratuitously endowed by their promoters with unlimited magical powers, intelligence, knowledge, wisdom and prescience. Where they got all these magical goodies from they don’t say, nor do they explain why they are so eager to attribute all these goodies to “spirits” when they don’t know a thing about them, about their origin, or their whereabouts.

3. Supposedly these “spirits” created everything — the universe, the birds, the bees, the stars, human beings and everything else, including some nebulous places such as heaven and hell that are “not of this world”, not of this universe. Where they are, that too, they don’t care to clarify.

4. These “believers” in spooks go further, much further, and here is where it gets real sticky, real frightening. They claim that these spirits, wherever or whatever they are, are continually keeping tabs on each and everyone of us living beings, looking over our shoulders, and keeping notes on our every spoken word and our every action. Not only that, but they can, and are continuously monitoring our minds, and also keeping notes on our every unspoken thought.

5. Having kept track of all this vast accumulation of information on billions of people over thousands of years in their supercomputer “up” in the sky (somewhere), when we die, we will be con...

fronted with all our misdeeds. We will be "judged" for our failure to "believe" in all the conflicting nonsense that our intelligence rejected, and for not "accepting" the spook theory, this latter transgression evidently being the most heinous crime of all.

6. We will then be relegated to the fiery pit to burn and burn and burn. We (or our "souls") will then suffer excruciating torture forever and a day, administered by these same charitable spirits who so loved us, snooped on us, tried to save us, but we were just too dumb to catch on. So there we all are in hell, tortured by the billions, in all eternity because we didn't see the light about the presence of all those spooks that hovered over us every moment of our life.

That, my dear White Racial Comrades, in essence, is the story we are told by the spook-peddlers, also known as Christians, Mormons, Catholics, Jehovah's Witnesses, Seventh Day Adventists and thousands of other fragmentary Christian cults and sects.

What I have been trying to find out not only from the ordinary run of spook-peddlers but (supposedly) highly informed and learned ministers and theologians is this:

What is a spirit? What is a soul? How do you know?

On the theory that such spirits exist, and that they have all these wonderful and magical attributes I listed earlier, is based a whole massive religious superstructure that sucks in at least 40 billion dollars from the superstitious and the gullible in the United States alone. This is in one year, but this same racket has been going on for thousands of years, and did not start with Christianity.

The Egyptians already had it refined to an expert system, the Romans practiced it (mildly), and even the intelligent Greeks indulged in it, and when Socrates tried to enlighten the youth of his day that these Greek gods might be entirely fictitious, the establishment did not like his independent thinking. They had him tried in a kangaroo court and drink the cup of hemlock.

In the meantime, I keep asking all these devotees of the spirit world, just what is a spirit? This perplexes them immeasurably and it is most amusing to see them squirm and grope for answers they can't come up with. In fact, they act as if they had never considered the question before.

Last August, my wife and I were on a trip to Europe, in which we re-visited some of the most beautiful vistas in the Alpine regions of Bavaria, Austria, the Tyrol, Switzerland and Italy.

There was an elderly spinster in our tour group who was a "devout" Catholic. She was also extremely voluble and never ceased talking, whether on the bus, or at mealtime, or on an excursion. She insisted that although she was old enough to have been married three times over, she never had, and that she was a Miss. Nobody disputed her claims.

For reasons of her unending volubility, most members of the tour avoided sitting with her at mealtime, if they could help it. One evening, during our stay in Munich, it was my fate to be seated at the same table with her, and no supporting cast. We were alone and I was trapped. What to do?

She lost no time opening the conversation and asked if I were an atheist, that she had read my flier, and what was it all about. I replied, no, I was not an atheist, I was a Creator, but rather than explain our movement, I suggested she could read my books if she cared. Instead, I suggested, why don't we talk about Christianity?

I decided that instead of being on the receiving end I would take the initiative, and have a little fun in the process.

I started out with the position that the Christian religion was based on the theory that there are spirits floating around somewhere, everywhere, who are continuously looking over our shoulder taking notes on our every action, word and even every thought. We humans supposedly, too, have a spirit inside of us, and it is called a soul. When we die this spirit supposedly leaves the body and will then be brought to judgment. Evidently, there are the master spirits and the slave spirits, and we are the slave spirits. The master spirits have been presumably only snooping on us during all our lifetime, but when we die, they evidently take full control and are in a position to throw all our past deeds and misdeeds in our face and render judgment upon us.

Evidently, and so the Christian story goes, if we are found wanting, we will be condemned to a fiery pit for all eternity to burn and burn and burn. Endless agony and torture is the fate of our supposed spirit or soul, or what have you. And since the obstacles in getting to heaven are extremely difficult, such is going to be the fate of the vast majority of us poor souls, if we have any, I told my now dumbfounded spinster friend.

Having laid this frame of reference, I pursued the subject with gusto, and got right down to brass tacks with my key questions:

Just what is a spirit? What is a soul?

She started off with the usual negative answers — **it is not this, it is not that.**

But I kept pressing — **what is it?** If you didn't have the foggiest idea what a giraffe was, it wouldn't help much to say it wasn't like a mouse, it wasn't like a house, it wasn't like a car, etc., so please don't waste my time telling me what it ISN'T. I want to know what it IS. Does it have eyes? A brain? Nerves? Does it have shape? Made of atoms and molecules?

The answer to all these questions were negative. Alright, what does a spirit or a soul have you can tell me that is positive, and how do you know?

This kind of conversation went on for about two hours at our little table, long after the other members of the tour had finished their meals and left. When we finally concluded, I had a speechless, dumbfounded little old lady, who couldn't answer the basic question: What is a spirit?

But, she said, she would try to find out. I said that I would be very happy to have someone give me a sensible, meaningful answer, but, I insisted, how could she be so engrossed with the spirit world for all of her 70 some years, and never even have discovered what a spirit is?

Next morning she told me (and everybody else) that she hadn't slept much the night before and it was all my fault.

A few days later, which was the following Sunday, when we stopped over in Vienna, my friend sought out a Catholic church and consulted a priest. She asked him for answers to my question: What is a spirit? What is a soul?

The next day, Monday, the tour guide slipped me a little note with no signature on it that he had been asked to give me. It said:

> SOUL — GENERAL PRINCIPLE OF LIFE (HUMAN BEINGS, ANIMALS, PLANTS.)
>
> SPIRIT — IMMATERIAL PRINCIPLE OF INTELLECT (HUMAN SOUL/SPIRIT.)

Well, I finally had some sort of a garbled answer from her priest, but for whatever it was worth, I was as baffled as ever as to what a soul or a spirit consisted of.

Our little discussion had gotten around in our tour group, which included a nice Methodist minister in his early fifties. His name was John and he hailed from York, PA. One day I suggested to him that I would enjoy a friendly discussion on the issue of religion and especially I would like to hear his definition of a soul or a spirit. He agreed to accommodate, although, it seemed to me, with some foreboding.

And so it came to pass, about a week later, when we had finished dinner in the hotel dining room in Montreux, Switzerland, we had our discussion. We sat in the lobby of the hotel.

I started the discussion by posing a rhetorical question I had asked other people many times before: Does it make any sense to have "deep and abiding faith" in any religion, creed, belief or theory that has neither evidence nor logic to support it? For instance, the Hindu's belief that cows are holy?

He readily agreed, it did not.

Alright, I said, let's look at evidence — meaningful evidence. The whole Christian religion is based on the theory that there are spirits, millions of them, floating around out there — some are souls, some are demons, some are gods, some are angels and a slew of other forms and aberrations. Some are supposedly good, some are

villains. The supposedly good ones are hovering over and around us, taking notes, monitoring our every action, deed, word and thought, and storing them in some huge super-computer in the sky. More or less, I pursued the same framework as I had with the elderly spinster.

Then I concluded — now if there aren't any spirits, then the whole Christian creed and framework breaks down in a mess of shambles. It becomes one colossal fraud, does it not?

So, Reverend, tell me what is a spirit? What is a soul?

Somehow he managed to avoid the answers to that question for some time and we wandered off into other aspects of the religious issue. He assured me that his "belief" was his best evidence of the validity of Christ and the hereafter, and his love for Christ was his most cherished possession.

Now, really? You call that meaningful evidence?

I reminded him that as we travelled through some beautiful mountain passes of the Alps, they revealed endless layers (strata) of rocks which had been formed at the bottom of oceans not only millions, but hundreds of millions, even billions of years ago. How did he reconcile this with the Biblical story that the earth was created by a blithe spirit in six days only some 6000 years ago?

Well, he said, the term "days" didn't really mean a solar day as we know it, but could be an interminable period of time, even billions of years.

Well, I countered, if God wrote the Bible, surely he was intelligent enough to know how to express himself clearly, and I can read English quite well. It says "days" not something else. If the Bible doesn't mean what it says, and say what it means, what in the hell does it mean, if anything?

There was much waffling and double-talk thereafter, but no sensible answers were forthcoming.

I then pursued the "meaningful evidence" required. I contended that there was no meaningful evidence, that even such a character or personage as Christ ever existed and walked the earth around the beginning of the first century of the Common Era. The oldest "manuscripts" that we have are in the Vatican library in Rome and date back no further than the fourth century C.E. That is a pretty long time gap to relate a story that supposedly happened 400 years earlier. Is that "meaningful" evidence? I think not. In an era of history when there were any number of learned poets, writers and historians in the highly developed civilization of Rome, why was it not one of them noted and recorded this tremendously important event in history — a son of a god being born in Bethlehem with a band of angels proclaiming the event. Supposedly it was so well broadcast that even King Herod was scared spitless to the point where he had every male baby in his kingdom under two years of age murdered. (So the phony

story claims.) Surely some writers in a highly literate society would take note of such a monumental event and record it for posterity? Yet, there is none.

Yes, he said, there were. There was the historian Josephus, who talked of the Christ.

Ah yes, Josephus, I said, there is always a Josephus. As I recall, he lived between 37 to 100 C.E., and could hardly be an eye witness to the big event. His history of the Jewish war, written approximately 80 to 90 C.E. does contain one short paragraph mentioning Christ, it is true. However, it is so out of context that bibliographers strongly suspect this Jewish historian, whose writings in any case are regarded as highly untrustworthy, never even wrote this one paragraph. Instead it is suspected that some over-zealous monk interjected it many centuries later while copying manuscripts. Be that as it may, I said, isn't one measly vague paragraph a pretty flimsy coathook on which to hang a whole battleship?

Well, there were others, he said.

Such as?

Well, he couldn't think of any, offhand.

Our discussion pretty well covered the whole waterfront. I kept pressing for an answer to the basic question: What is a spirit? What is a soul? No negative answers, please.

He was hard put to define either. Finally, he came up with something — God was intelligence, he said. Where did he reside? He was all over. Any shape? Shaped in the image of man? No shape, just all over. The anthropomorphic image, the father image, was not real, just an explanation for the simple people to grasp more easily, he explained.

That sounded more like the description of another nebulous substance, called the ether, which supposedly fills all space, scientists claim. What's the difference then between God and the ether? I asked.

No answer.

O.K., What about the other spirits? What about souls? He was stumped. No answer.

And so after a congenial discussion that lasted more than three hours, we said goodnight and prepared to take off for Lucerne the next morning.

I still had no idea of what a soul or a spirit was, but we never re-opened the discussion again for the rest of the trip, both for different reasons. I felt I had exhausted his possibilities of coming up with any sensible explanation, and he, not having any answers, would evidently just as soon forget about the whole thing and not be further embarrassed. So ended our congenial discussion on "spirits".

But for the thinking man the question still persists. Why should

it be so difficult for a theologian to define a spirit or a soul? After all, these concepts have been around since the early Egyptians 5000 years ago, and probably since the beginning of civilization. Are they merely fictitious concepts, and if so, were these fictitious concepts deliberately designed to be so extremely vague and nebulous so that nobody could dissect, analyze and discredit them?

It is my opinion that these fictitious concepts were deliberately so designed — vague, nebulous, undefined. It is furthermore my conclusion that the Egyptians, who were totally immersed in the clever art of spook-craft were the master-craftsmen in bringing these fictitious concepts into prominence, as they were in inventing most of the other paraphernalia and window-dressings now so expertly manipulated by the Judeo-Christian cults.

So we find the White Race of today highly enmeshed in a network of fictitious concepts that are specious and spurious, mostly undefinable, yet shelling out at least 40 billion dollars a year in the United States alone, in order to perpetuate and maintain this nonsense and dump it on their children, the next generation.

But that isn't all. This fictitious spook-craft has been expertly utilized by our most deadly racial enemies — the Jews — to get a handle on the brains of our White Racial Comrades in order to control us, manipulate us, fleece us and enslave us.

It is our overriding task, our solemn duty, to expose this racket for what it is, to de-program our White Racial Comrades and to bring them back to sanity. This we must do if we are to save our precious race.

It is my hope that the above arguments and logic can, and will, be used effectively to do just that.

Question: What is the difference between "Quantity X" and a "Spirit?"
Answer: Nothing, if "X" equals Zero.

If you don't even know what "it" is, how can you tell if "it" exists?
Obviously, you can't.

A Cherished Goal

A Planet Devoid of Mud Races

Today it may seem like a Dream, but the White Race has the Wherewithall to convert it into Reality.

Have you ever wondered what this world could be like under ideal conditions?

Well, let us imagineer and speculate into a world of the future, a Planet Earth devoid of mud races, a goal that has long been cherished and is diligently being pursued by the Church of the Creator.

Let us project ourselves three or four generations into the future and assume this highly desirable objective is now a task completed, and let us take a fond look at the new Whiter and Brighter world about us.

First of all, we would find that our Planet Earth would be much less crowded. Our White Race would have burgeoned to perhaps one billion people in a few generations and then stabilized and levelled off at that point. This one billion people, however, would now be spread out over a land mass four times larger than the now crowded quarters of the White Race. Not only would we be occupying space left open by the now departed mud races in our own territories, but the White Race would be spread out over Asia, Africa, South America and other territories in which there are now none, or few White residents.

Most of the thinning out would come about in the now over-crowded metropolitan centers. The big cities would be smaller, less crowded, with much more elbow room and breathing space. The slum areas formerly infested with niggers, Puerto Ricans and other undesirables, would now have been bulldozed away, cleaned up and converted into beautiful public parks and green areas, where decent men and women could stroll about without fear of attack from the criminals, where children could romp and play in safety, and families could picnic at their leisure. The cities would be clean, orderly and uncrowded, as they still are in some parts of Switzerland and a few other parts of the White world that have not yet been infested with black criminals.

Speaking of slums, the Jewish media have repeatedly tried to deceive us that our cities have slums because those sections of the city have become old and therefore, naturally, they become rundown. This is, of course, a blatant lie. Slums come about because of riffraff that will neglect and destroy any kind of building or environment you put them in. Notably this shiftless and irresponsible type consists of one type of mud race or another, with the niggers leading the way. I have visited some of the most beautiful little cities in the world, like the beautiful city of Rothenburg, in Germany, or Zermatt, in Switzerland, at the foot of the Matterhorn, whose finest and most interesting buildings are more than six hundred years old. The cities are clean, interesting, well kept and inhabited by White people.

On the other hand, you can put niggers into brand new apartments, as the United States government has done innumerable times at the taxpayer's expense, and in six to twenty-four months the windows are broken, the plumbing has been ripped out, the elevators have stopped working because they have been used for urinals and garbage dumps. In short, you can take the nigger out of a slum, but you can't take the slum out of the nigger, or to put the same idea another way, you can take the nigger out of the jungle, but you can't take the jungle out of the nigger.

But to resume our dream of the future. A much higher percentage of our people would now be living out in the country, either on large family sized farms, or on small plots of a few acres where they would cultivate their own garden, and perhaps have a nice little orchard of fruit trees. Prior to World War I, my people, the Mennonites in Russia, although living in communities of perhaps one thousand, did just that. They had the best part of both worlds, a real farm perhaps a mile or so from their house and barn, and an orchard and garden plot with the house. No crowding, lots of fresh air, lots of room for the children to play.

We Creators regard trees as the most essential and important plants in our natural environment, and we regard fruit trees as the best of all. One of the first steps our ingenious and energetic White Race of the future will have tackled is the saving of our natural forests. Today we find this precious resource slowly dying in many, if not most, parts of the world. The lovely Black Forest of Germany is dying due to acid rain and atmospheric pollution, forests in the Northeastern United States and Eastern Canada are dying, forests in Russia are dying, forests in the Rocky Mountain regions are dying. The huge rain forests of the Amazon River region, which are regarded as one of the most important "lungs" of our atmosphere in restoring oxygen, are being wantonly destroyed and decimated at the rate of thousands of square miles a year.

All this must and will be reversed. We cannot and do not want

to exist in a bleak and barren planet. This wanton deterioration must be stopped, and then reversed and let Nature do the rest in rebuilding it.

Speaking of fruit trees, since the White Race of the future will also be inhabiting the tropical and subtropical areas of the world that it does not now inhabit, we will plant millions of acres of fruit trees. This will include not only the newly acquired tropical and subtropical areas but also the temperate regions. Since our population will be consuming much more fruit, our choice of fruits will also be greatly widened.

Whereas most of us are now familiar with such choice sub-tropical fruits as: bananas, oranges, grapefruits, lemons, limes, dates, figs, papayas, mangos and others, there are numerous other tasty and nutritious fruits that we can and will grow and transport. Among these are such choice goodies as: cashew-apples, sugar-apples, star-apples, rose-apples, imbus, ambarellas, red mombins, yellow mombins, cherimoyas, soursops, ilamas, soncoyas, sweet granadillas, purple granadillas, giant granadillas, capulins, loquats, manzanillas, icacos, pineapple guavas, strawberry guavas, pitangas, feijoas, grumichamas, litchis, longans, rambutans, sopsdillas, sapotes, canistels, kakis, mangosteens, jackfruits, durians, tunas, carrissas and carambolas.

Being man's most palatable and nutritious foods, their culture and expansion will be extensive and well advanced in the future en-vironment of our race.

Along with restoring the forests of our planet, we will have gone a long way in also increasing the natural habitat of our wildlife — animals, birds and fishes. We will seriously pursue the survival and perpetuation of the wildlife species that are now still with us, and do what we can to ensure they will remain part of our heritage and environment in the future. This includes cleaning up our rivers, lakes and oceans, and protecting our whales, seals, fishes and other marine creatures for our future generations to enjoy.

The health of our people would, for several reasons, be excellent, since the overwhelming majority of our people would now be follow-ing the dietary program of fresh fruits, vegetables, nuts and seeds, getting plenty of fresh uncontaminated air and being much more physically active. They would, in short, be following the natural life style of *Salubrious Living.* There would now be little need for Temples of Doom (hospitals) or even doctors, people having discovered the toxic effect of drugs, all drugs, and shunning them as they would the plague and niggers. People in general would be more exuberant, vibrant, happy and healthy, because they were faithful in following the Laws of Nature, and a natural life style.

Our people would also be emotionally and mentally far more healthy than they are today. For one thing, being physically sound and healthy is already a psychological lift in itself. Secondly, most of the depressing burdens the White Race is saddled with today, would have been solved and eliminated. No longer would we have to worry about being mugged, robbed or shot in our homes, or in a park, or walking down a city street at night. There would be no niggers or other lecherous animals lurking about to commit crimes. White criminals, as such, would be as rare as polar bears in Florida. Law and order could and would be maintained with a minimum staff of law enforcement agencies.

Nor would our future progeny have to worry about going to hell and burn forever and a day. By now CREATIVITY would have abolished from their minds all the superstitious clutter and debris left over from our long departed Stone Age ancestors. One of the freedoms future generations will be able to enjoy is **Freedom from Fear of Hell.**

Not only would they no longer be harried and harrassed by their preacher, perpetually threatening hellfire and damnation with his damnedable Jewish Christianity, but the fortunate White progeny of the future would not have the Jewish IRS continually breathing down his or her neck, robbing them of the major part of their life's earnings. Taxes would be an insignificant minimum and the Jewish IRS would be dead and gone. With no more internecine wars to fight, no military burdens to carry, no freeloading and shiftless mud races to support, governmental expenses would be a small, minute fraction of what they are now. Practically all expenditures would be for constructive purposes, such as building roads, bridges, harbors, parks, playgrounds, etc.

The White Race would no longer shoulder the tremendous guilt burden that the Jew has now foisted upon us, about the poor, hungry, starving niggers in Africa, or Hindus in India, or Indonesians in Indonesia, or Indians on the reservations, or Eskimos in Eskimo land. We would not have to worry about them by this time. Having had the good sense to stop feeding and subsidizing all these incompetent mud races, they would by now have withered on the vine, be dead and gone and only part of a long past nightmare. No longer would we feel guilty about their plight and incompetence, but we would by then have embraced the good sense not to feel guilty about anything, because there would not then be anything we should feel guilty about. Not even about living the good life and enjoying every minute of it.

This guilt-free feeling would further have been reinforced by the sound psychological teachings of our religion: that no one need feel guilty about following his or her good sense, the natural instincts we were born with, and living the good life. (See "The Guilt Com-

plex and the Fairness Neurosis"- C. C. No. 61, in the White Man's Bible.)

Our people would be much more gregarious and communally minded, enjoying sports, concerts, plays, art, literature and music. Every area would have a church center within close reach, which would have recreational grounds and facilities for team sports, tennis courts, bowling alleys, swimming pools, concert halls, libraries and many of the other cherished amenities and activities that are inherently part of a White Man's brilliant culture and civilization. Our people's minds would no longer be confused and cluttered with filthy Jewish pornography, nor Jewish religious claptrap. The White Race would then indulge itself in that at which it is best — creative activities, cultural enhancement and salubrious living.

Not only would our future generations be able to express their natural creative instincts in healthy channels at home, but a far greater percentage would be able to travel. This they would do, both within the borders of their own countries, to view the parks and wonders of nature, and also abroad, throughout the then beautiful, safe and shining world, to view all the foreign wonders. Practically all of our good White Racial Comrades would be solvent, debt free and affluent. Why not travel? Properly oriented, trained and given ample opportunity, everyone could afford those things, things we now regard as luxuries for only "the rich." Travel and transportation would be amazingly efficient and safe, and relatively inexpensive. But there are further bonuses.

By that time the White Race would have adopted and learned a universal language of its own, namely a revised and streamlined Latin, the greatest of all the languages in the civilization of mankind. Any of our White Racial Comrades from any part of the world could now travel freely in New Zealand, or France, or Sweden, or Germany, the now rebuilt areas of Africa or Asia, and converse with the White natives in his or her mother tongue — Latin. Everybody would be fluently speaking Latin, and soon Latin only. Nor would the polyglot welter of foreign currencies any longer be a problem. Instead of having to go to a Jewish bank to exchange monies every time a traveler crossed a border, the White world community would by now have established not only a common language, but also a common currency, which would be as valid in any other country as it was at home.

Furthermore, the hassle of having to pass through immigration and customs every time they crossed a border would no longer exist. Our people would be able to cross national borders (if there still were any) just as freely as they now cross state borders in the United States. Why not? No country would have the fear, or the burden of keeping out the undesirables. There would be no mud peoples or other undesirables, only healthy, affluent, intelligent White people, free and

welcome to travel the world over.

With the blood-sucking Jewish twins, namely the Federal Reserve Board and the Internal Revenue Service gone, with the free-loading mud races no longer on our back, the White people could now concentrate on producing food, clothing and shelter, as well as all the finer amenities of life for its own best interests. So productive is the White Race that once its hands are untied, every White family, and I mean every family, could now own and pay for a beautiful spacious home with adequate breathing space around it, and live like a king. There would be no drones; there would be no unemployment; there would be no national debt; there would be no interest to pay to the Jewish counterfeiters. Everyone would be competent, everyone would be solvent, everyone would have ample time for leisure and the enjoyment of the finer things in life.

With our Eugenics program in full operation, as well as practicing the best of Salubrious Living, as in Nature, the overwhelming majority of our White Racial Comrades would be remarkably healthy, both physically and mentally. Mental hospitals, as such, would soon be a thing of the past and snake-pits of today would only be an ugly memory of bygone times.

Instead of pushing technology to its utmost dangerous boundaries where it could (and can now!) destroy all mankind, the future White Race will stress not more technology, but concentrate on improving our gene pool — more intelligent people, more healthy people, more athletic people, more beautiful people.

We will not waste our time, energy and resources pursuing "outer-space", or space travel. There is nothing out there for us but more space — bleak, endless, space — billions of trillions of miles. Our habitat, our home, our living space, is here, on this Planet Earth, and will be so forevermore. To waste endless time, energy and resources flying into unlimited space is as unproductive as was Egyptian pyramid building. We will have better use for our energies, in first, cleaning up our Planet Earth, then building productively for our own best interests — here on Planet Earth.

Nor will we pursue that life destroying insanity called atomic energy. We will instead stop it cold, and clean up the immense pollution and damage that we are already engulfed in. We will find new and cleaner sources of energy, such as the development of gravitational forces. In fact, I am convinced that we already have the technology now. I believe the oil companies and other Jewish interests are suppressing and stifling the technology so it will not upset their present financial applecart, at least until such time as they can get THEIR hands on it, and again have a monopoly in energy.

Speaking of technology, we will long ago have scrapped the clumsy British foot-pound system of weight and measures. Like

universal Latin, we will have adopted the **much more sensible and practical Metric System.** We are almost there now, except for Britain and the United States, and that impediment is there only because the Jew wishes to prolong confusion and divisiveness as long as possible. Anyway, good sense will prevail and we will have both — a universal language for our White Race, and a universal system of weights and measures that makes good sense.

We will stress and pursue new horizons in the field of the arts — literature, painting, sculpture, music and other fields of the White Man's culture. The most beautiful poems still remain to be written, the most beautiful music remains yet to be composed, the most beautiful paintings still remain to be rendered. We will encourage it profusely, genuine art, great art, not the kind of Jewish slop now being extolled and eulogized by a decadent and degenerate Jewish society.

There is more, much more, some of which I can already foresee, some benefits which now are not too evident. But in any case, it will be a much more beautiful, happy, prosperous and stable society, environment and world, than the degenerate catastrophy that now seems to be staring us in the face.

Does this sound too much like we are asking for a Utopia? Does it merely sound like an empty pipe dream?

If so, think again. The foregoing is as real as the fact that time marches on, whether we like it or not. It is all within our grasp. We, the White Race, have the wherewithal to do it. We can make our dreams come true. So why not save ourselves, why not save our future generations, and **build the brave, beautiful new world we are capable of?**

* * * * *

Lest any of our enemies and critics gather the wrong conclusions from this idyllic picture that we Creators envisage of the idealistic world of the future, let me make one thing clear — and I have spelled this out many times in my previous writings. Yes, we do envisage a Whiter and Brighter world for the future, populated only by members of Nature's Finest — the White Race. Only with more intelligent and competent people can we, or anyone else, build a better world. It cannot be done with the scum of society — the idiots, incompetents, the lazy and the shiftless; such as the Jim Jones cult of a few years ago, gathered together and ended up in mass suicide in Guyana. I repeat, it can only be done with highly competent, intelligent people of responsibility, such as only the White Race can produce.

However, this does not mean we are going to wage bloody warfare against the mud races, or that we have any mass designs of slaughtering them wholesale. On the contrary, we mean to exercise

our religious and constitutional rights as spelled out in the First Amendment and other clauses of the Bill of Rights. We mean to build our religious organization and our membership, our churches, our influence, until we embrace most of the intelligent membership of the White Race throughout the world. We mean to inculcate **RACIAL LOYALTY** between our kinsmen and help each other financially, politically, legally and morally. We mean to cut the mud races adrift and let them fend for themselves. No longer, as in the past, will we feed them, educate them, subsidize them, or wet nurse them, as has "our" Jewish government of the past and present.

We will go further than that. We will boycott the Jews, both in business and in politics. We will expose their nefarious conspiracy and financial counterfeiting racket. We will drive them from power, politically, financially, spiritually and socially. We, the White Race, will grasp the power and the direction of our own destiny back into our own hands. All this we can do legally and constitutionally. We are not only entitled to do so morally, but it is our highest moral duty to do so. Both the Eternal Laws of Nature and our own good sense compel us to do so, if our race is to survive, and we mean to see to it that it does just that.

Once the White Race has control of its own good senses and its own destiny again, the mud races and its billions of incompetent freeloaders, of their own incompetence will wither on the vine and fall of their own impetus, like the autumn leaves from the trees. They will shrink and shrivel away, as did the savage Indians before the advancing White Man of our early American republic and the "Winning of the West." We will do it the American way, the legal way, the constitutional way, and not according to the suicidal "morals" of Jewish Christianity, but according to the morals of Creativity and the Eternal Laws of Nature.

What alternative do we have?

We are now at a very crucial crossroads in the evolution of our great White Race. We can toss in the towel and let the Jews and mud races take charge and mongrelize our future progeny into the filthy hell of oblivion. If you want to take a good look at what that hell is like, take a trip to India, and view the filthy, clawing, starving masses. Or if you want to take a shorter course and a shorter trip, go to Haiti and take a good look at those miserable starving wretches. They are a prime example of integration and race-mixing. Do you want your children and grandchildren to be absorbed in such bleak filth and misery? If not, do something meaningful.

What can you do? Plenty, and I have spelled it out repeatedly

before. Promote CREATIVITY. Distribute the Basic Bibles, become an ordained minister of our church, organize a church group of your own. Remember, we are now at the crossroads. We need every one of our White Racial Comrades to pitch in, and that means YOU, especially YOU. Again, consider the alternative.

Heavenly Humor

About Christmas

The Jewish propaganda machine is at this very moment again cranking up its promotional machinery and putting it into high gear in order to incite the goyim to buy! buy! buy! and fill its commercial coffers. Since this Christinsanity is based on a purely fictitious con- cept, on an event that never happened, and on a date that was pick- ed at random six hundred years after the supposed event, we cau- tion our White Racial Comrades to remain objective. In order to help keep things in perspective, we again publish a little Christian humor.

A few days after Christmas, a Protestant, a Catholic and a Jew were sitting at a bar, recalling how they each had spent Christmas day. The Protestant said, "Well, we started celebrating on Christmas eve. We went to our local church and listened to a short sermon and sang some Christmas hymns. Then on Christmas morning we gathered around the tree and opened presents. Then later, we had a few highballs and about four o'clock in the afternoon, we had our big Christmas dinner."

The Catholic said, "Well, by and large we did the same thing, except we didn't celebrate Christmas eve, but got up early the next morning and we went to Mass. Then, about 1:00 p.m., we opened our presents."

The Jew said, "Well, we have a different approach altogether. On Christmas day we invited all of our relatives and co-religionists to come together at the department store. We opened a case of Slivovitz, then we rubbed our bellies and looked with glee at the emp- ty shelves and full cash registers. Then, we kneeled down and gave thanks to our own boy, Saul, who invented this clever gimmick and made it all possible in the first place, and then we all joined hands and sang, 'What a friend we have in Jesus.' "

Promoting A Jewish Hoax

Before we go silly again glorifying a Jewish spook that never was, let us examine this annual hoax.

The above story sums up in a nutshell what fuels the buying splurge in which the average White goyim is caught up annually and perennially. Starting right after Thanksgiving (and many stores can't even wait that long) the biggest propaganda campaign of the year lets loose full blast — buy! buy! buy! from the Jew-owned department stores and all the other stores, 90 percent of which are Jew-owned.

The pressure build-up is tremendous. If you don't succumb to the Jewish campaign to buy, whether you like it or not, something for all your friends and relatives, whether they can use it or not, why, you are a Scrooge, a penny pincher, a tightwad, and not in the proper "spirit" of Christmas. Just so you will never forget what a reprehensible character Scrooge was, Charles Dickens' "A Christmas Carol" is trotted out at the proper time with great fanfare. This happens BEFORE Christmas, year after year. You can depend on it.

So, before we again are overwhelmed with this Jewish outpouring of mushy spirit — let us ask some sensible questions.

What is Christmas all about? Why should we spend all this time, money and hocus-pocus glorifying a Jewish hoax that never was? Wouldn't it be a lot more sensible to utilize the same time, energy, money and zeal promoting some of our own White racial heroes and values?

Yes, it would. Let us first look at the history of the Jewish hoax. Let us collect our senses and ask: What is Christmas all about?

Well, supposedly we goyim are all overcome with deep religious awe and sentimental gush and are celebrating the birthday of Christ, our Saviour, who supposedly came down from heaven (via Mary's womb) to save all of us poor rotten sinners from a fate of fire and brimstone, and we supposedly are all thankful as hell that he was so charitable.

Save us sinners from hell? Really?

There are so many flaws in this whole fictitious fairytale that it would make your head swim when we go beyond the first gushy, childish euphoria as to what Christmas is all about.

In the first place, there is no evidence, no claim even by the gullible Christians that they "know" what date Christ was born. It is only a date picked at random, since the adulators wanted to celebrate his "birth" and had to have some date, any date.

Why did they pick December 25?

Well, there was a good reason for that. Many pagan (White) peoples already had a long standing tradition of celebrating the Winter Solstice at about that time of year, and it was a well established traditional holiday.

The Romans, for example, had had a long-standing religious tradition of celebrating December 25 as the birth of the sun god.

The Catholic church wanted to do away with this "pagan" festival, but Emperor Constantine refused the church's request, claiming it was too popular. He finally did accede to the church's request for a law freeing all slaves who accepted Christianity, and renounced the sun fest. However, these converts continued to celebrate the sun festival and in 345 A.D., under Liberius, the bishop of Rome, the December 25 date was declared a Christian holiday honoring the birth of Christ. Previous to this the church had taken the stand that it was sinful to celebrate Christ's birthday, since the date was unknown.

The Christian oligarchy, being led by Master Sneaks of all time, decided it was more expedient to turn an existing tradition to the glory of their movement, than to try to fight it and set up a completely new tradition. This they succeeded in doing with overwhelming success.

They did the same thing with Easter, which was already a well established tradition. For years the White peoples had celebrated the Spring Equinox, the fertility of new crops and new growth, the rites of spring and similar ideas.

So we, the White pagans, were hoaxed from a long-standing custom of celebrating traditional White holidays, and converting them into (Jewish) Christian holidays, including honoring a Jew from the seed of David, whose birthdate we do not know. But let us move on. There are many more deceptions in this picture.

Not only does nobody know what day of the year the Jewish Saviour was supposedly born, but nobody even knows what year, either. And that isn't all. The fact is, nobody "knows" whether he was born at all, or whether "he" is just another hocus-pocus myth, like Santa Claus, or Mother Goose and Hi-diddle-diddle The Cow Jumped Over The Moon.

Now considering the tremendous impact Christianity has had on the fortunes (or rather misfortunes, to be more correct) of the White Race, you would think that some researchers and historians would go to some considerable trouble to track down this mighty historic event and resolve once and for all: did this Jewish teacher, preacher, "Son of God", "Saviour", (or whatever) actually live or didn't he?

I would like to think this one point would be rather important — no Christ, then all is a hoax. It's similar to somebody giving you

a million dollar check. I believe it would be damned important to determine if the check were for real, or if the check was a phoney, without a cent in the bank to back it up. I would think any sensible person would want to determine this issue as quickly as possible.

Well, I for one have spent a lot of time and research doing just that. I have already written any number of chapters on the subject such as, "Christ's Existence not substantiated by Historical Evidence", and "The Spooks in the Sky Swindle", and many others. Many other historians and researchers have done an even more thorough search into the genuine annals of history, and they have come up with the same answer as have I. There is not a scintilla of evidence that such a figure as Christ ever existed; that the stories told by Matthew, Mark, Luke and John are phoney as hell. Not only phoney, but contradict each other on dozens of important points. Not only are their garbled stories as fictitious as Santa Claus, Mother Goose and the Tooth Fairy, but there is no historical evidence throw-ing any light on who Matthew, Mark, Luke and John were, where they lived, or if, in fact, they ever lived at all.

All we have are myths, stories, hearsay, much gullibility and deception. In fact, the oldest "documents" regarding the authentici-ty of their scripts date no further back than about 400 A.D. Four hundred years between an event and a report is a pretty hefty gap.

Alright, no Christ, no Saviour, no Christmas. But nevertheless, we, through repeated mind manipulation and programming are stuck with a traditional holiday that really moves billions of dollars worth of merchandise every year. It also has a multitude of other signifi-cant ramifications.

So let us probe further as to what kind of a traditional holiday we are stuck with, what are we really celebrating.

Well, for one thing we are celebrating a hoax, and a Jewish hoax at that. And the joke is on us.

The Jewish mind manipulator, Saul of Tarsus, the Christian's St. Paul, did more than any other man in history to put this hoax across and sell it to the goyim. That is why the Jews are so grateful to him when they count their shekels the day after Christmas. And well they should be.

There is no other event (or non-event) in the business world (mostly monopolized by Jews) that generates as much force-fed business as does Christmas. It is the biggest shot in the arm any department store (or thousands of other stores) get to hype their business. To many stores it means the difference between making money and staying in business or going broke. Many stores do half their volume of business before the Christmas season and many make the total year's profit from just Christmas sales. So the gimmick the

Jew-boy Saul, stirred up is not to be sneezed at. No wonder his co-religionists are eternally grateful to him for this innovative gimmick.

Now let us look at it from the White Man's point of view, as we Creators are inclined to do on every issue, and ask a few questions:

1. Should an intelligent White Man join in promoting a Jewish hoax, of which the White Race is the prime target?

2. Even though we realize that Christ per se is a myth, should a proud and race conscious White Man join in glorifying a mythical "hero" who is Jewish?

3. If you know the truth, do you think that under any circumstances it is morally justifiable to lie to yourself (and/or others) if you think that nurturing the deception will make you (and/or others) happier?

From the Church of the Creator's point of view, we would like to pose the following unanswered questions of those Christians who profess to "believe" these Jewish stories:

1. Did Christ's supposed dying and being nailed to the cross really "save" all the sinners?

2. If so, why are there thousands of varieties of confused preachers running about imploring you to come to their church and put money in their collection plate?

3. If Christ did the job two thousand years ago, why do we need all these bumbling preachers today to do the job all over again?

4. According to the criteria of all these blubbering preachers, and according to the New Testament itself, just about everybody in the world today, two thousand years later, is going to hell anyway. How do you explain that?

5. If Christ and/or his pappy are so anxious to "save" us all from hell, why did he/they construct the abominable monstrosity in the first place?

6. If the Devil is the root of all evil, why doesn't the all-powerful Lord wipe him out once and for all, instead of relentlessly and repeatedly putting the monkey on our back? (See "The Phoney Fight Ruse" in January, 1984, Issue of Racial Loyalty.)

What sensible answers any intelligent Christian can come up with I haven't the slightest idea. I have never heard them do so, since all their premises at best are based on superstition and gullibility, on mawkish myth and hocus-pocus. Nevertheless, I would be interested in hearing some, but will not hold my breath in the meantime.

But the key question I would like to ask these befuddled Christians is this:

7. If it came to a showdown of either defending the White Race, or the Jewish myth of Christianity, which side would you choose?

This may sound like a hypothetical question, but I want to assure

you that most decidedly it is not. Before this century is over, in fact, even this decade, many a White Man is going to be pushed to the wall in the upheavals of our society and will have to come to grips with that question.

* * * * *

Just about now I can hear some bleeding heart slopped with mawkish sentimentality exclaim, "Aw! Aw! Gee! Aw! Aw! Do away with Christmas? Klassen wants to kill Santa Claus!"

Well, no. Relax. I'm a good sensible and sentimental fellow myself. I don't want to kill anybody, least of all Santa Claus, and for two good reasons.

1. You can't kill somebody that doesn't exist.
2. I don't even want to do away with the mythical Santa Claus either, since (a) at least he is not a Jewish character (b) his origins are a derivation from the German Kris Kringle, as explained earlier, and therefore, White.

But, I do want to: Abolish all this Jewish commercialism that surrounds Christmas; to explode the Jewish hoax of celebrating the birthdate of a Jew, any Jew, for the same reason I will not celebrate the birthdate of Martin Lucifer Koon; to expose the outrageous nonsense about a non-event that never happened, and try to get the White Race back to sense and reality, back to their own rich heritage and values.

In this context, I make the following suggestions in building up our own healthy White racial religion:

1. Let us keep the events of Christmas and Easter at the Winter Solstice and Spring Equinox respectively, but let us turn the tables on the Jewish hoaxsters: Let us turn them back into White holidays. Let us give them new names, names completely removed from any Jewish taint.
2. As far as Santa Claus is concerned, let future custom and preference decide, but let us separate this myth from all Jewish and Christian connotation.
3. Let us take the commercialism completely out of these and any other holiday, and emphasize instead the spiritual, traditional and genetical strength of our own White culture.
4. If we are going to celebrate and honor folk heroes, let us make certain they are White, of our own race and culture, whether such characters are mythical or historical.
5. Let us begin now in building traditional holidays for the advancement of the White Man's culture, and shun all others.
6. Boycott all Jewish businesses, whether they be stores, real estate agents, lawyers, doctors, politicians, writers or whatever.

* * * * *

This Christmas, instead of throwing your hard earned money into the coffers of the Jewish department stores and buying a lot of "presents" that nobody needs, why not consider a new approach. In-stead of succumbing to Jewish propaganda commercializing Christmas "in order to glorify" a Christ that never existed, a non-event that never occurred, why not help promote The Church of the Creator and the White racial movement? We cannot carry on without financial and moral support. We need all the help we can get in building the School for Gifted Boys, in putting out RACIAL LOYAL-TY, and meeting the thousand and one other demands made upon us. Don't support a Jewish hoax. This year, instead of enriching the Jewish department stores, why not change course and spend some of it disseminating the racial idea. Give some of our Basic Books as presents. They will cost you less, have much more long-lasting, constructive benefits; and you will be doing something meaningful for your own culture, your own kind, your own religion. I repeat, we need all the help we can get.

* * * * *

Creativity is the most constructive thing that has happened to the White Race since civilization. Help realize the benefits.

* * * * *

You can lead a man to enlightenment, but you can't make him think!

* * * * *

Remember, without the White Race the Jews and other mud races would be nothing, but without the mud races and left to its own destiny the White Race would be a marvel.

Comparative Religions — Part VII

HINDUISM

Among the world's handful of so-called "great" religions, Hinduism is the most ancient of them all. Its very beginnings are lost in antiquity. The origins of superstitions, beliefs, customs and traditions date back to prehistoric times. Whereas the world's religious establishments rate it as one of the "great" religions (along with Judaism, Christianity, Mohammedanism) we Creators see nothing very great in this morbid collection of fungus on the brain. In our opinion, it is a hodgepodge collection of stupidities and superstitions at its worst. It points up what we have been saying repeatedly — the so-called "great" religions are an archaic hangover from our Stone Age ancestors, debris and clutter of the mind that is based on superstition, gullibility and ignorance — an impervious roadblock to enlightenment, advancement and logical thinking.

Be that as it may, the number of adherents to Hinduism embrace nearly half a billion of the world's population, mostly mud peoples, and ranks third only after the Roman Catholic faith and the Moslem religion. In India alone there are 300 million faithful.

Hinduism is unique in many ways. For one thing, it has no one founder. It evolved over the milleniums as a strange and confused intermingling of many peoples' cultures and outside influences. Its beliefs and customs are therefore hard to define, and there is no one common creed, no one doctrine, that binds all Hindus together.

Basically, Hinduism is not just a religion. It is more of a vast complex of theological, metaphysical, philosophical, ethical, cultural and social institutions, whose predominant breeding ground was the subcontinent of India. It comprises of four main elements: religion, race, country and social organization. Each is bound up and is an integral factor in the life of the others, and cannot be separated. **So loose and diverse is the complex nature of Hinduism that there is room for every contradictory belief and custom imaginable to be embraced within its discordant creed. In fact, Hindus have followed almost every conceivable variety of theism, atheism, polytheism and pantheism. They have maintained conflicting standards of morality; their worship has been both idolatrous and iconoclastic, all are tolerated as long as the rules of caste are not violated.**

I have stated in some previous writings that some enterprising soul has compiled a catalogue of 30 thousand different gods that superstitious and gullible fools have invented and worshipped over

the ages. But I now learn that this only scratches the surface. **The Hindu religion alone has a pantheon of 33 million gods,** most of which in addition to the standard list of deities, embrace local, village or even individual gods. Spooks, spirits, gods — 33 million of them — count them at leisure.

All Hindus recognize the domain of DHARMA (religious law) as the supreme agency of destiny. It is the important link between all the complexities of their belief.

One of the most important tenets of Dharma is the **rigid caste system** that has been imbedded in the Hindu religion for thousands of years. The four main castes all belong to early Aryan society, and are based mainly on birth and color of skin. They are, in descending order:

(a) **Brahmans**, the priestly and cultured elite.
(b) **Kshatriyas**, the ruling aristocracy.
(c) **Vaisyas**, the farmers and professional artisans.
(d) **Sudras**, the lowest caste, of the early Aryan society, who provided the needed menial labor.

As south India was Brahmanized, there was also an outcaste category, a fifth caste, which was non-Aryan and called the **Panchamas**. It consisted of the Pariahs and Harijans (God's people, the untouchables) and other destitute creatures who number around 80 million in India alone.

As far as birth, residence, heredity, occupation, and the regulation of food, drink, and marriage are concerned, each Hindu, even of the depressed classes, knows exactly where, according to custom, he or she belongs.

But the above five castes are by no means the end of the complexities of the caste system. Just as the Hindus have a total of 33 million gods, national, local, etc., so too, do the local villages have a further subdivision of their own sub-castes. Here is a typical example.

The village of Chandrauti's four thousand people are housed in six hundred dwellings. In 22 of these dwell the Brahmans, members of the priestly caste, and one belongs to the household of the Kshatriyans, the warrior caste. Others are identified by sub-caste: 16 dwellings of Banias, merchants and businessmen; 40 of Mallas, fishermen and boatmen; 20 of Lohars, blacksmiths; 10 of Khatiks, who deal in fruit and raise pigs; 15 of Ahers, cowherds; 10 of Dhobis, washermen; 5 of Gawals, sheepherders; 3 of Bhats, singers and dancers, who perform at weddings and go out into the fields at harvest; 2 of Nars, barbers; 2 of Doms, the cremation attendants; and 1 of Gonds, who fry and sell peanuts and other snacks.

There are also 50 Moslem households in this village, weavers and tailors, and 200 untouchables, the Harijans, who now may own

land but still must dwell outside the village in their own compound. In almost every household, the young men follow the trade of their fathers.

Although Hinduism evolved in prehistoric times, it began to take shape at about 1500 B.C.E. and we can follow its development by reviewing the sacred books that molded its development. There are six distinguished classes of literary works, all written in Sanskrit.

1. **The Vedas (books of knowledge)** emerging around 1500 B.C.E. There are four books (a) the Rig-Veda (psalms); (b) the Yajur-Veda (formulas); (c) the Sama-Veda (charms); (d) and the Atharva-Veda (chants). Of them all, the first is the most significant, and the oldest religious document in history.
2. **The Brahmans (priestly writings)** dating circa 1000-800 B.C.E. They, too, occupy a singular position in world literature and are rated as the earliest extant prose writings in the Indo-European tradition.
3. **The Upanishads (seances)** circa 800-600 B.C.E., are speculative treatises concerning man and the origins of the universe.
4. **The Law Book of Manu,** dated at about 250 B.C.E. Its twelve chapters are an impressive code of Hindu Law.
5. **The Bhagavad-Gita,** composed about 1 C.E., is the most highly esteemed document of all the Hindu literature. This dramatic poem suggests the possibility of universal salvation.
6. **Epics and Puranas (ancient tales),** produced 1250 C.E., lay the foundations of folk Hinduism ("Career of God Ramma"). The Puranas, 18 in number, are a collection of religious stories.

So much for their "Sacred Books." Most, if not all, rate highly in the annals of ancient world literature.

That Hinduism is unique and a distinguished religion in a class by itself, of that there is no doubt. However, that it is "great", we Creators do not accept. There are a large number of idiosyncrasies and characteristics that if looked at from an enlightened White Man's point, are both bizarre and repugnant.

Hindus hold that all animals are sacred. Since they believe in transmigration of "souls" (reincarnation) even a rat or a snake might house their grandmother's or Aunt Minnie's soul, therefore, they dare not kill it or harm it in any way. The net result is that in a land of poverty and hunger, the country is overrun with rats, snakes, and other pests, completely out of control.

The most sacred animal of all is the cow, and woe unto any alien who would strike a cow and drive her away from a fruit stand at which she might choose to be lunching. Of course, it is no more bizarre to worship a cow than a "spirit", as do the Christians. At least you can hear, see, feel and smell a cow, which is more than you can say for a spirit. No preacher has ever given me an intelligent definition

as to what a spirit really is.

India's 200 million cattle can do no wrong, and national fiat forbids their slaughter. Hindu literature decrees that anyone who eats flesh or causes a cow to be slaughtered will rot in hell for as many years as there are hairs on the cow. Many Hindus believe that a concoction of a cow's five products — milk, urine, curd, butter, and dung — will cleanse the body inside and out. Even prominent "world leaders" like the late Mohandas Gandhi, and the late Shri Jawaharlal Nehru, indulged in such repulsive and filthy practices.

Hindus regard the Ganges as a sacred river and its water holy. This 1,560 mile long river, winding through the heart of India, is fondly referred to as Mother Ganges. Though befouled with endless sewage, the Hindus believe it cannot be sullied, and despite the fact it is one of the dirtiest and most polluted rivers in the world, millions of Hindus bath in it annually as a religious ritual to cleanse their bodies and their soul, and the water is bottled and drunk as a purification agent all over the country.

CONCLUSION.

Though it may be the oldest and one of the most prestigious of the "great" religions, we CREATORS do not find anything very great about either the Hindus or Hinduism. It may have been around for more than three and a half millenniums, and it may even have produced some great literature (mostly under the aegis of the Aryans and their descendants who invaded India from the north about four thousand years ago). Nevertheless, despite their caste system, it did not prevent the mongrelization of the White invaders who conquered, took charge and created an outstanding civilization four thousand years ago. Today, India is one of the densest, sickest, most over-populated, filthy, poverty-stricken of all the large nations in the world. Its hungry, superstition-ridden 750 million are one of the most desperate and miserable population masses in the world, completely out of control and completely unable to solve any of their vast multitude of problems. They are unable to feed their masses, nor are they able to control their population bomb. Stupidly, the White Man, (particularly, the taxpayers of the United States) is annually sending millions of tons of grain and other foods to them, gratis, thereby expanding and proliferating the misery. (See *Racial Loyalty*, No. 22 on the subject.) Sooner or later, this will have to end and Nature will solve the problem by ruthless means — mass starvation.

Hinduism has 477,991,300 followers throughout the world, of which there are 88,500 in North America and 475,073,000 in Asia.

Such is the final drama of superstition, incompetence and stupidity. Such are the historic consequences of the White Man trying to conquer, govern and exploit an inferior mass of mud races while tolerating geographic mixing with

his conquered. Let us learn once and for all Nature's eternal lesson. India and Hinduism says it all.

* * * * *

Hinduism vs. Creativity — A Comparison

A. Basis of Belief.

Hinduism is based on primitive customs, superstitions, taboos and hangovers that originated as far back as the Stone Age.

They believe in Karma, the transmigration of "souls" (reincarnation) into animals, snakes, humans, or whatever. They believe that the form they transmigrate into in the "next" life depends on how well they performed in the previous life. This supposedly goes on endlessly until the soul is finally liberated into an indescribable state called NIRVANA. Life on earth is considered as a transient migration of the soul and at best, a burden to bear, not to enjoy.

Although Hinduism is complex, confused and contradictory in most of its aspects, it became more formulated as its religious scriptures, written in Sanskrit, were handed down beginning approximately 1500 B.C.E. These scriptures, The Vedas and the Upanishads, have already been described in greater detail in our accompanying text.

Of prime significance, also, is the Dharma, religious law, which details the caste system, dietary laws, religious law and even civil law. These are neither consistent, nor well organized, and are at best a confused hodgepodge of contradictions.

CREATIVITY, on the other hand, is in dire contrast to the superstitions and confusions of Hinduism. Creativity is based on an intelligent assessment of the universe in which we find ourselves, and seeks to solve the realities of life for the betterment and advancement of our own kind — the White Race. In so doing, we shun all the superstitious mind clutter that has been dumped upon us by an ignorant and superstitious past, and instead pursue reality, logic and common sense, as detailed in our THREE BASIC BOOKS, *Nature's Eternal Religion, The White Man's Bible*, and *Salubrious Living*.

B. Goals and Objectives.

Hinduism has no particular goals or objectives that have any earthly purpose or meaning. When the (White) Aryans from the north invaded the Hindu Kush and finally conquered all of India, they set about organizing and governing their new homeland. This occurred

circa 2000 B.C.E. In so doing, they absorbed many of the indigenous religious customs and traditions of the black mud people they had subjugated, and were now organizing. But that is not all they absorbed. They soon found to their horror that through miscegenation, they were being absorbed and mongrelized into the bloodstream of the more fecund and more numerous aborigines. They desperately tried to prevent this catastrophe from happening as best they could. They formulated harsh civil laws, proclaimed religious taboo against it and instituted the caste system of separation. As history plainly shows, as long as there was geographic mixing of races, none of this worked, and the exemplary Aryan race that conquered India four thousand years ago was completely mongrelized into the stupid negroid masses within approximately six centuries.

The present day objectives of Hinduism, if any, are for the soul to migrate from creature to creature, until finally it ends up in some dim and distant Nirvana and is no more. Life is considered a burden and the objective (if any) is to end it all in some dim and distant future. At the same time, they want to be fertile on this earth and produce as many offspring as they can. This is, of course, a stupid contradiction that results in nothing more than endlessly proliferating the misery in an overcrowded, filthy, diseased and hunger-ridden world.

CREATIVITY, on the other hand, will have no truck with all this superstitious hocus-pocus, nor with the incompetent mud races. Instead, we seek to organize the tremendous potential of the White Race and the White Race alone, and build a Whiter and Brighter world for our future generations.

C. Racial Attitude.

The caste system, formulated and implemented by the Aryan conquerors, was not only highly racial, but was primarily based on color of the skin, and therefore indirectly on race. After six centuries the original Aryans were drowned in an overwhelming sea of negroids and the caste system no longer had any useful purpose. It then more or less classified the classes by profession and status rather than race, although the upper castes had and still have to this day, more White genes, less negroid, than do the lower castes.

However, outside of being an archaic relic of a dead past, it has little or no racial meaning anymore in today's mongrelized masses, and Hinduism embraces and welcomes any and all mud races. There are even a number of White Americans that have embraced it and stupidly find it "different" and "fascinating".

CREATIVITY, on the other hand, is highly racial and the whole religious creed is based on race — the White Race. We have learned our lesson well from the fatal mistakes made by the Aryan conquerors of India several thousand years ago, the mistakes made by the White Egyptians three to five thousand years ago, and every other White

nation that has gone down the sump hole of history via mongrelization with its "cheap" negroid labor. We are determined not to make the same mistake.

We want to "conquer" no mud races, we do not want to enslave anybody, we do not want to exploit any race, nor are we looking for "cheap" yellow, black, or brown labor. We want to advance and expand our own kind, do our own work and build a Whiter and Brighter World for ourselves. This, we are determined to do until we inhabit every square mile of good territory available. The whole world is our oyster and we will not rest until this beautiful Planet is all ours.

D. Organizational Structure.

Hinduism is one of the most disorganized of all the major religions and has no central head, only a loose scattering of temples, holy men and groups, sects, etc. No one knows exactly what the real creed of Hinduism is, as I have already outlined. The only structural organized tenets, if any, are inherent in its caste system, but it too, is loose and vaguely defined, and varies from area to area, and from village to village.

CREATIVITY is based on the Leadership Principal. Its fundamental creed and program are clearly delineated in our Basic Books. As it grows, we will continue to build our organizational structure according to the basics of the Leadership Principle, as did Adolf Hitler, and as has the Roman Catholic church for the last 18 centuries.

* * * * *

As far as the White Race is concerned the Jew controlled United States government is a powerful tyrant and can be rated as Public Enemy Number One.

* * * * *

The overwhelming issue is and remains: Either the White Race takes charge of this world in toto, or it will shortly be drowned in a sea of mud.

Issue No. 31, January 1986

More Deadly Than the H-Bomb

A Ticking Time Bomb

In this analysis we want to explore the devastating destructiveness of a mud avalanche of massive proportions in its uncontrolled deluge upon the human population.

For several days running we have recently read in glaring headlines of the newspapers, how the Nevado del Ruiz volcano in the Andes erupted in Colombia. For months it had been sending out signals and rumbling its ominous threat to the townspeople below, but no one had taken any particular heed.

Then suddenly, on November 13, 1985, the three mile high volcano broke out in all its fury and spewed forth blazing volcanic ash, rocks and fire. It melted its huge overlying snowcap and hurled down torrents of mud that buried four sleeping towns in the Andes Mountain valley of the Lagunilla River.

At first fiery volcanic ash cascaded into the valleys below. A few hours later a massive avalanche of mud crashed down upon the four towns, which had a combined population of 70 thousand.

The Lagunilla River became a rushing wall of mud and sludge. It destroyed at least 85 percent of Armero, a coffee farming town of 50 thousand people, located 105 miles northwest of Bogota and 30 miles from the volcano itself.

Three other towns that lie on the river between the volcano and Armero were also wiped out in the rampaging avalanche of mud, sludge, volcanic ash and rocks.

The initial count was 20 thousand dead. As the rescue workers tried to move in they were at an extreme disadvantage since the highway and five bridges leading to the disaster area had been deluged in mud, in some places by walls of mud 15 feet high.

Buried under this sea of mud and sludge were thousands of bodies, most of which are buried permanently and will never be recovered. A week later the count of the dead and missing was revised upward to 22,500. Sixty thousand acres of farmland had also been destroyed.

Many ugly scenes accompanied the tragedy. Looters began to appear, and robbed the mud covered corpses, as well as what could be found in abandoned remains of buildings. The army was instructed

to “shoot to kill” on the scene any looters caught in the act. A week after the initial eruption, firemen around Armero rounded up two thousand dead bodies in a number of piles and burned them in a funeral pyre in an attempt to stave off the spread of contagious disease and prevent impending epidemics.

As the rescue teams went to work under an extreme handicap, pictures of people being pulled out of the mud were copiously being displayed in the newsmedia, on TV, and in the papers. Mud, mud, mud, all over, on bodies, faces, plants, animals, buildings. A major mess, a major tragedy.

Such a devastating catastrophe grabs world headlines because of the personal tragedies and dramas that are involved, and rightfully so, because it is a natural disaster of portentous dimensions. As usual, the largest amounts of aid and rescue came from good old Uncle Sap, or to be more exact, the White American taxpayers, upon whose backs are laid all the burdens, tragedies and shortcomings of the world.

Just how important is the tragedy of the Colombian mud slide? In answering that question we must ask this question — from whose point of view?

In Creative Credo No. 2 of The White Man’s Bible we spell out our answer to this question, and it is clear and simple. As far as the Church of the Creator is concerned, every issue is viewed through the eyes of the White Man, and boils down to this basic criteria: is it good, or is it bad, for the White Race?

Looked at from this perspective, the Colombian disaster is of little import to the White Race, except that the exploited and over-burdened White taxpayers of America will be further strained in ex-tending their largesse to every remote corner of the world, to cor-ners and peoples in whom they have little or no interest. The White people of America are, in fact, forced to aid and subsidize, whether they like it or not, the very type of people who through the ominous population explosion, are threatening to crowd the White Race from off the face of the earth. We are talking about the mud peoples of the world, whose subsidized explosion will inevitably wipe the White Race from the face of this planet, unless we change course.

Looked at through the eyes of the White Man, from the interests of the White Race, from the point of view of the Church of the Creator, the Colombian disaster is of minor significance, and except for the increased aid being demanded from us because of it, it really concerns us very little. Of much more disastrous import to our best interests, in fact, to the very survival of the White Race itself, is the massive avalanche of mud peoples that is descending upon every country built and inhabited by the White Man, particularly the deluge that is now flooding the United States of America.

It is this particular disaster, the massive avalanche of mud peoples now converging upon and polluting the United States of America, the last bastion of the White Race, that I want to especially focus upon in this dissertation. It is this mudflood that we Creators deem a million times more ominous than that which recently happened in Colombia, but which the Jew-controlled newsmedia studiously is determined to ignore. While pretending not to notice the genocide of the White Race, the Jewish powerhouse is, in fact, feverishly promoting this development, treacherously orchestrating the demise of the White Race and the rapid proliferation of the mud races throughout the world.

PLANNED & DELIBERATE GENOCIDE ON THE WHITE RACE.

Now the Colombia mudslide was a natural disaster, and along with earthquakes, hurricanes and other such calamities, we have natural disasters of lesser or greater magnitude every year. Although they cause a considerable amount of damage, the human race manages to survive them without a hitch, and keeps on increasing and multiplying in spite of them. But what would you say if there were a sinister group of people that deliberately planned, instigated and perpetrated a mudslide a million times more deadly than the Colombian disaster, and perpetrated it on a whole race of people in order to destroy it and wipe out that race? What if the group that was perpetrating such a heinous crime was the scum of humanity, a parasite on the human race, and their target for genocide was Nature's Finest? What if the race they were perpetrating it against was your own race, the White Race? Would you consider this an act of war, a war that should be recognized, declared openly, loud and clear, and the enemy, the parasite, destroyed as quickly and decisively as possible?

The fact, the realities of today's situation is that all of the above "what ifs" are happening. The Jewish power establishment is pursuing genocide upon the White Race with a vehemence and hatred unparalleled in all history. The United States is no longer a White nation, it is now a racially pluralistic, polyglot mixture of miscreants, ruled over and tyrannized by the Jewish Occupational Government (J.O.G.) which control the newsmedia, the government, the finances, and every other meaningful nerve center of power, which means are considerable.

Some of the most sinister of its programs in destroying the White Race are: (a) Promoting the population explosion of the mud races all over the world by subsidizing their increase at the expense of the White Race. (b) Flooding the formerly White countries of the world with hordes of mud races through immigration. (c) Race-mixing the

conglomerate mess so that the White Race is mongrelized out of existence.

In short, its program is to wipe out the White Race in a dismal flood of mud. This is happening on a worldwide scale. The White Race is deliberately being drowned in a sea of mud, as surely as were the victims in Colombia.

Let us briefly look at recent history, and some not so recent.

THE POPULATION BOMB.

About 33 million years ago, anthropologists theorized, our ancestors resembled an anthropoid that was somewhat of a cross between a small monkey and a cat, and weighed somewhere between four and five pounds. The "human" race as such had its dim beginnings probably three or four million years ago, but as to when it crossed the line into being "human" is a matter of conjecture. The White Race as such became an entity as a species probably as long as 100 thousand years ago, distinguishing it from other anthropoids of lesser intelligence. Civilization as such began to emerge approximately 10 thousand years ago, evolving exclusively from the continuing development of the White Race.

Be that as it may, and although all these benchmarks may be extremely tentative and somewhat blurred, nevertheless, they can be of considerable value in lending proper perspective and a clearer overview of the historic calamity that is unfolding before our eyes now in the latter part of the 20th Century.

Starting with the year 1 of the Common Era, until 1650 C.E., the population of the world increased very little. Then the Industrial Revolution set in and the White Race of Europe was (slowly) able to produce more goods and food for itself, and by 1850 C.E. the world population reached the benchmark figure of one billion. As the Industrial Revolution gained momentum, so did the increase in population, again, thanks to the productivity of the White Race. It took only another 80 years to add the second billion to the world's population. By this time we have arrived at the year 1930, the world depression, followed by a genocidal war of decimation between a confused and insanely disoriented White Race.

Despite all these devastatingly destructive setbacks, it took only another 30 years (1960) before the third billion was added. It then took only another 15 years (1975) before the fourth billion was added. By 1984 the world population was estimated at 4.6 billion with the explosion accelerating rapidly.

But this is not the end of the ongoing explosion by any means. In fact, we are now only in the middle of a rapidly expanding population the likes of which the world has never witnessed before. Projecting this cancerous growth forward, (and, yes, it is cancerous, very

much so) demographers project a world population of 6.2 billion by the year 2000 C.E., (not far away) and levelling off at 10.5 billion by 2110 C.E.

Imagine 10.5 billion starving, clawing, filthy, overcrowded people on this poor, groaning Planet Earth! What a scenario of horror! How ghastly! At this point I suggest you read again the article "Expanding and Proliferating the Misery" in Racial Loyalty No. 22. As a palliative, and just so you won't want to go out and commit hari-kari before evening, I suggest you also read, "A Planet Devoid of Mud Races" in Issue No. 30, which is the real answer to the dilemma we are about to explore. But we are getting ahead of our story.

I ask you again, can you imagine a world that is crowded with 10.5 billion people? Can you envisage the pollution, the garbage, the filth, the miserable, crowded anthill this world would become under such conditions? Even at the present population of slightly less than five billion, it is becoming an infested and infected garbage dump, in which fewer and fewer areas of this planet are fit to live in for a creative, freedom loving White man, woman or child.

We Creators have no intention of living in a world that is rapidly deteriorating into a pigsty. We will not tolerate living like a pig, nor living like a nigger. We are determined to live the good life, the abundant life, at a level that is befitting to every decent White person, a lifestyle even better than we have become accustomed to in the past.

Do you realize what it takes to sustain even one White American for one year? Here are a few random statistics supplied by the United States Bureau of Mines (1975): It takes 7,650 lbs. of petroleum; 5,200 lbs. of coal; 4,200 lbs. of natural gas; 8,000 lbs. of stone; 8,000 lbs. of sand and gravel; 660 lbs. of cement; 450 lbs. of clay; 430 lbs. of salt; 1,400 lbs. of other non-metals; 1,000 lbs. of iron and steel; 46 lbs. of zinc; 11 lbs. of lead; 31 lbs. of other metals. The total of these non-renewable minerals is 40 thousand pounds per year for every man, woman and child. This is for every 12 months. If all the rest of humanity wants to live at our level (and they do!) multiply this by 10.5 billion, and you don't have to be a genius of a mathematician to realize that such an overcrowded world would be one of a clawing, starving mass of humanity, living at a level worse than 50 hogs in a pigpen designed for two.

In the above scenario we have not listed the tons of water, food and fibre that would also be required. But this is hardly necessary. I believe the picture is adequately clear.

Now we CREATORS have emphatically stated time and again — we have no intention of settling for a world that is nothing more than a miserable pigsty. We CREATORS envisage an uncrowded world stabilized at no more than perhaps one billion people, as it

was back in 1850, but with several differences.

For one thing, we envisage a planet settled exclusively with capable, intelligent White people — people competent to produce, to organize, to maintain law and order, to maintain stable governments and an orderly society.

So far we have only told half the story of the world population explosion. We now come to the bad news — the real crux of this article — the part the Jewish news monopoly has never dared to reveal to you. That ominous fact the newsmedia have sought to suppress is this: **The present world population explosion is not shared by the White Race. The White Race is actually shrinking, retreating from formerly occupied territory, and lamely apologizing in the process. The world is rapidly being overrun with hostile, incompetent mud races — blacks, browns, reds and yellows — all hostile as hell to the White Race which has subsidized and sustained them in recent times, and made the present population explosion inevitable.**

The mud peoples are coming! The mud peoples are coming! Are they ever! They are coming by the billions. They are coming with a vengeance, instigated, incited and lead by the Jews. Their main objective is to exterminate the White Race — the goose that laid the golden egg.

When I say goose, I do mean a stupid goose. No race in history has ever acted more stupidly as far as their own interests and welfare are concerned. It is the unswerving objective of the Church of the Creator to alert and alarm the White Race of this situation, to arouse the slumbering giant, to organize and take charge of our own destiny, and to rebuild the world in the idealistic projection as envisaged in last month's Issue No. 30 of Racial Loyalty.

THE MATHEMATICS OF MULTIPLICATION:

Let us examine the mechanics of the multiplication factor and what it portends for our Planet Earth, our one and only home.

It has been mathematically calculated that if only one pair of amorous flies were left to breed to their full capacities, and their succeeding offspring likewise, with no restrictions of food, air, space, etc., that by autumn of the same year all their descendants could cover the entire surface of the earth with a solid layer of flies 60 feet thick.

Think of that. One pair of flies. Now, if this multiplication factor were to continue, in short order that 60 foot layer would expand into a ball whose radius would reach all the way to the sun, and soon the radius of that ball would be expanding at the speed of light.

Now we realize that all such production and multiplication is limited by food, water, air, space, etc. The same restrictions, of

course, also apply to the expansion of the mud races, otherwise they, too, would soon cover the earth with a solid layer 60 feet thick and onward to the sun and beyond. It might take a little longer than one season, but not more than a generation or two. Of all these limitations, the first limiting factor to come into play has been a shortage of sufficient food. It is mainly food, the lack of it, that has prevented the present explosive increase. It is the unprecedented subsidization of the mud races by the phenomenal productivity of food by the White Race that has fueled the present runaway population explosion. Whereas the White Race produces, the White Race gives away, the White Race subsidizes, it does not, however, share in the population increase. It is, in fact, rapidly shrinking into oblivion. It is this unbelievable generosity, this unprecedented magnanimity (read stupidity) that is setting the stage for a worldwide disaster of major magnitude.

But the Jew is not satisfied with just subsidizing the mud races on a worldwide basis in their own poverty-ridden countries. It is moving heaven and earth to bring the muds inside the borders of the White countries themselves in order to hasten the demise of the White Race. By means of immigration it is flooding inside the border those very countries that the White Race can still call their homeland.

Let us examine immigration of muds into the United States, the official policy of our Jewish Occupational Government (J.O.G.), the violation of those laws, and the magnitude of the flood.

THE IMMIGRATION BOMB — THE UNITED STATES

In 1790 the young Republic held its first census. The count was roughly four million people, including approximately 750 thousand black and mulatto slaves. Of the ethnic White population, approximately 89.1 percent was Anglo Saxon, and approximately 8.1 percent of German and Dutch national origins. English had been established as the official language of the land and the other White peoples adopted it, and in short order blended into the homogeneous population that set the pattern of its culture, laws and customs. Contrary to the “meltingpot” myths the Jews now love to promote, the White people of the United States were remarkably harmonious in their genetic origins, and the rest of its people, Indians, niggers, mulattoes, were of no real influence or significance.

Due to the Industrial Revolution, the growth of industry, and the rapid population growth, the pressure for immigration increased in the countries of Western and Northern Europe. For most of these people, the vast, empty spaces of America were an overwhelming magnet. At first it was a trickle. Only 8,385 immigrants arrived in 1820. But by 1840 the annual immigration reached 84,066.

From there on out it began to accelerate rapidly. Between 1841

and 1860 more than 4,311,465 came. Of these more than 87 percent were from Ireland, Germany and Great Britain, all good, desirable racial stock.

The Gold Rush in California led to the importation of Chinese coolies to help build the railroads that soon followed. Again, it was the greed of the White industrialists (heavily sprinkled with Jewish money and control) that could not resist the temptation of taking advantage of the cheap labor available from inferior races, to the detriment of the White gene pool.

The White working man, however, became alarmed, and saw the poorly paid Chinese coolies as a threat to their very existence, to their jobs in the mines, railroad building, and other areas. State legislatures reacted to the sudden influx of Chinese and enacted legislation to exclude them. Then in 1875 the United States Supreme Court (again, that damned Supreme Court) ruled that state laws regulating immigration were unconstitutional, on the pretext that they restrained interstate commerce. However, the racial instincts of the then predominantly White population was still fairly sound and the public demand increased to keep these Orientals out. As a result, that same year, 1875, Congress passed legislation aimed at restricting the entry of Chinese coolies. When Chinese immigration continued despite this law, Congress passed the Chinese Exclusion Act, which did significantly reduce Oriental immigration. However, by 1882 approximately 220 thousand Chinese had already polluted our shores.

About this time there was another significant shift in the pattern of new immigrants into the United States, other than Orientals. Not only was the tide of immigration swelling into a flood, but the source of the new immigrants changed drastically, again, to the detriment of White racial quality. Whereas up until the 1880's about 95 percent of the immigration to the United States was from Northern Europe, an increasing tide now began to originate in Southern and Eastern Europe. Whereas the original settlers and builders of America were of Anglo-Saxon or Teutonic stock, i.e., Nordic, now the tide shifted to those from Russia, Italy, Poland, Eastern Austria and Hungary. Included in this mass migration were hordes of Eastern Jews from Poland, Russia, and the Balkans.

The earlier Nordic immigrants were interested in farms, in acquiring land, and living in rural areas. This new Eastern wave was different. They were clannish, congregated in cities and grouped together in ethnic enclaves. The Jews, especially, formed alien "ghettos" of their own making and soon began to dominate politics, finances and most other nerve centers of power, all the while fiercely retaining their old country mores and customs, and especially retaining their hostility to the Gentiles and their loyalty to the Tribe

of Judah.

Here are some figures that reflect the shift. Whereas in the decade between 1860-70 only 1.5 percent of the immigrants to the United States originated in Eastern Europe, by 1881-90 it was 18.3 percent; 1891-1900 it was 51.9 percent; and by 1901-1910 the figure was 70.8 percent.

Not only was the type of immigrant drastically changing but the mass of the number of immigrants as well. By the decade of 1881 to 1890 a total of 5,246,613 entered the United States, twice the number of any previous decade. The frontier was coming to an end and many Americans were alarmed at the mass and at the type of the "new immigrants". Public demand led to new restrictive immigration laws in the 1890's and the early 1900's.

At the same time Japanese immigrants were entering California and the West Coast in increasing numbers. Because of their low standard of living and their high birthrates the White residents were alarmed that sooner or later these Orientals might take over and drive them out of their own land. Public pressure increased for a total ban on Orientals, and this finally led to the Immigration Act of 1917, which greatly broadened the restrictions on new immigrants from the Orient.

Meanwhile the flood from Europe continued. The dislocations from World War I in Europe threatened to pump even larger numbers of immigrants into the United States, which now itself was suffering from unemployment and a shortage of housing.

In 1921 a stop-gap law was passed limiting the number of foreigners coming in to about three percent a year respectively of national origins as they were represented in the United States in 1910. This reduced the tide to about 358 thousand immigrants per year and especially reduced the immigrants coming in from Eastern Europe. Still there were too many. In 1924, another immigration law was passed phasing out the 1921 act and replaced it with a national origins plan to take affect in 1929. This was designed in an attempt to (a) maintain the ethnic status quo, and (b) it placed a limited total quota per year, originally set at 153,714, a drastic cut back from the 5 million plus tide of the 1880's.

At last the United States had a sensible immigration law that reasonably protected it from becoming a dumping ground of the "refuse", the "teeming masses", from foreign shores, as eulogized on the Statue of Liberty. It would, had the law been kept, had a fair chance at keeping the United States White, prosperous and fairly comfortable, an uncrowded land in which to live. There was, however, one fatal flaw in it. It did not keep out the alien Jews, nor did it do anything to keep the disruptive Jews already here from taking control, dismantling, polluting and destroying our fair country.

After World War II, both the flood tide of more Jews and their disruptive tactics reached epidemic proportions, and the dismantling of America, the destruction of the White Race and the worldwide population explosion accelerated rapidly.

THE "HOLOCAUST" PROPAGANDA LIE.

The Jews, who were the real instigators of World War II, were also the real and only winners of that war, a war that cost the world at least 50 million casualties, the overwhelming number of which victims were from the White Race. Yet even before the war was over, they had cunningly contrived a hoax that they would spread on an unsuspecting world, namely that the Germans had gassed six million Jews. This was, and is, one of the biggest and most successful hoaxes in history, rivaled only by the Jewish hoax of Christianity itself. (Read again, C.C. No. 37, *"The Six Million Lie"* in *The White Man's Bible*.)

Be that as it may, what with their almost total control of worldwide propaganda (and just about everything else) they have made that hoax stick until this very day, 40 years later. The dividends they have reaped from this hoax have been tremendous, and they were now in the position to move from the destruction of Germany and Europe to the dismantling of the United States and the destruction of the White Race itself on a worldwide basis. They have lost no time in doing so.

Whereas during World War II it had been a sin (according to Jewish propaganda) to be a Nazi and/or a German, it now became a sin to be a "racist," well, that is, if you were White, which also soon became a sin. To be a fervent Zionist, fanatically pro-Israel, that was great, to be a nigger racist, like Martin Lucifer Koon was to become a national hero, the grandeur and sublimity of which was to exceed those of our former national heroes of Washington, Jefferson or Lincoln. (If you don't believe this, just measure the adulation meted out in the Jewish press on MLK, the former reprobate, car thief and whoremonger this coming January, and compare.) It now became not only a crime to be White but to even think like a White Man.

During the last half of the 1940's the first major step was to loot the American taxpayers and support the rest of the world with a giveaway program called the Marshall Plan. This supposedly was under the guise of "Fighting Communism," whose neck we had just saved in World War II. (Read again, "The Phoney Fight Ruse" in Issue No. 8 of *Expanding Creativity*.) It was the first major step in the population explosion of the mud races of the world, all at the expense of the White American Taxpayer.

The next step, with the help of race traitors such as Eisenhower, Kennedy and Johnson, was the enactment of the "Civil Rights" Laws

of the 1960's. When a willing Kennedy floundered and no longer had the prestige and influence to push these assinine laws through Congress, the Jews, with the instrumentality of their Mossad agents, had Kennedy assassinated. On the then orchestrated wave of sympathy for a "martyred" president, the Jews neatly manipulated their rapid passage under Johnson. It now became the law of the land that you had to love niggers, live next to them, fawn over them and adulate over them, whether you liked it or not. Race mixing now became the new dogma, the new religion of the establishment, and the Jews have been riding high on this abomination against Nature ever since.

UNITED STATES IMMIGRATION LAWS NOW A SHAMBLES.

As could be expected, with the Jew promoted Civil Rights Laws of the 1960's soon came a profound change in United States immigration policies. Since the official religion of the establishment now was to hate Whitey and love the niggers, muds and aliens, it now became our beholden Christian duty to not only feed the scum of the world but to take them to our bosom and allow them to flood our homelands.

The rest of the "Third World" (read mud peoples) hordes were ready to surge in by the millions and needed little encouragement. But nevertheless, our J.O.G. determined to provide encouragement — plenty of it. By (a) first of all providing food for all the muds and providing the basis for the population explosion; then (b) sending in the C.I.A. to promote communism, revolution and anarchy (Read again, "The Phoney Fight Ruse" in Issue No. 8 of Expanding Creativity); then, (c) adding to the debacle by sending in our troops, as in the Vietnam War, or in Central America, or the Middle East; or, by (d) overthrowing friendly foreign governments and installing communist regimes, as in Cuba, Nicaragua, and several other mud countries; or, (e) by a combination of these methods, by meddling and interference, the United States has deliberately created refugees, millions of refugees, either real or pseudo. It doesn't matter which, as long as they have an excuse, they can't wait to leave the miserable areas they now live in, and they all want to come to the United States, the touted land of milk and honey. And the hordes are coming, by the millions and the tens of millions.

With race traitors like Teddy Kennedy and a host of others fronting for the Jews, Congress has scrapped the once sensible Immigration Act of 1924. It has drastically changed the immigration laws a number of times, starting with the Eisenhower regime. Without reviewing here all the intricacies of all these changes, the net effect now is drastically weighted against any White immigration and heavily favorable to all the mud peoples of the world. We not only welcome

them, we even send our Navy out to help bring them in, as is the case of the "boat peoples" of Vietnam and other Indonesian countries casting about in the Indian Ocean.

The result is catastrophic. The alien mud hordes are descending upon us like a vast plague of locusts, or like a huge tidal wave. The Vietnamese are coming, the Cubans are coming, the Haitians are coming, the Hindus are coming (they are now taking over most of the Class B motels in America), the Pakistanis are coming, the Japs are coming (they have taken over most of Hawaii), the Chinese are coming, there are over 1000 million (a billion) of them, and most of them would like to come to the United States. Not only are all these and more coming, but millions of them are already here. But the biggest invasion of all is from our wide open southern border — two thousand miles of it — and the exploding hordes from Mexico in particular, and Central and South America in addition. (Read again "The Festering Ulcer of the Soft Underbelly of the United States" in Issue No. 27 of Racial Loyalty.) We are being deluged, and the Jews planned it just that way — years ago.

THE RAVAGING AND DEVASTATION OF OUR PLANET.

While the United States is the prime target of all these hordes of mud races, all five billion of them, throughout the world, a major catastrophe is unfolding in the homelands of the mud peoples themselves. The countries of Asia, Africa and South America, where the major population explosions are taking place, are rapidly denuding their forests, destroying their farmlands, polluting and ravaging their own lands to the point where they will soon no longer sustain man or beast.

Our precious Planet is being ravaged and devastated by the exploding hordes, a situation that is painfully irreversible, a situation in which the White Man has a major stake for his own future generations.

But this is a whole new story, one which I would rather expound upon in some future issue.

Meanwhile — What is the Solution?

There is only one solution to this major debacle, and that is for the White Race to get its own act together and take control.

1. First of all it must take control of its own destiny on a worldwide basis, starting right here in the United States. This it can best accomplish by polarizing under a fervent Racial Religion, such as The Church of the Creator has already provided. This we must do by all means, and the goal is so overwhelmingly clear and crucial, that any means, I repeat, any means is justified.

2. Secondly, having control of its own destiny, the White Race would (and must!) take control of the United States government.

3. Having done so, the first order of business would be to shut off immigration, all immigration. This would entail some drastic, ruthless action on our Southern borders, but so be it. We are being invaded by hordes of hostile aliens and yet we have completely abandoned our right and our duty to defend the sanctity of our borders. Even President Reagan has admitted we have completely lost control of our borders. So why in the hell doesn't he take action?

I suggest that we quit playing games, that we set up machine guns, enfilade the entire two thousand mile border with army troops and ruthlessly mow down any wetback that dares to cross the Rio Grande, or any other part of that border. It would be amazing how quickly these harbingers of disease, poverty and anarchy would get the message.

4. Having taken this decisive step, we then must hunt down and expel every illegal alien now in our midst, be they Mexican, Iranian, Chinese, Pakistani or Swahili.

5. This is only the beginning, but from it, and here on in, the battle has already been won. We would then follow through with the rest of the program, as has already been detailed in our Basic Books and several articles in *Racial Loyalty*, especially *Issue No. 28*, entitled "The Black Tide and the Mud Flood Are Upon Us."

In any case, the whole solution rests upon the White Race polarizing around its own racial religion with a fervency that can only be described as a holy religious war. The Mohammedans have a word for it — Jihad. We must now either wage a Jihad of our own or perish miserably in a worldwide flood of mud, just as surely as 22,500 people in Colombia perished in a local deluge.

NO OTHER CHOICE.

Does the above solution, the only solution that is realistic, sound drastic, cruel, ruthless, inhuman?

Well, it depends on whose viewpoint we choose to adopt. The Jews, niggers and Christians will scream that it is. Looking at it from the White Man's point of view, the only one we Creators are concerned with, it is none of these things. It is mild, reasonable, logical, and in fact, the only one that makes any sense. But let's compare it to other recent historical events. We have any number to choose from. The Vietnam War, in which we sent 57 thousand of our young men to their deaths over a most frivolous cause, and transported 500 thousand troops halfway around the world to do it, is a case in point. We can compare it to Israel's aggression into Arab territory and uprooting and killing millions of Arabs. We can compare it with the Communists driving 14 million Germans out of their historical Eastern territory and depriving them of their land. None of the god-

damned bleeding hearts that will scream about the plight of the mud races were particularly disturbed about any of THESE atrocities.

But, best of all, let's compare it to the American moral position in World War II in which they sacrificed life, limb and vast amounts of material wealth to save the world for a continuation of Jewish tyranny.

Unlike the Mexicans that are invading our borders in defiance of law and historical sanctity of borders, the Germans did none of these things to America. In fact, the last thing in the world the Germans wanted was any friction with America. The citizens of the United States at that time, in fact, were and are at present, at least 25 percent of Germanic origin. Yet, we (that is, J.O.G.) mustered an army of 14 million men and women and sent them all the way across the Atlantic ocean to participate in a blood bath that killed at least 50 million people in the most senseless war in history, merely to save the neck of our Jewish oppressors.

Now in comparison, in light of such an abominable atrocity, is it unreasonable, is it immoral, to take stern measures to defend our borders against illegal, aggressive, invading mud peoples that are destroying our homeland, just as surely as the Colombian mud slide destroyed Armero?

No, it is not unreasonable. It is the most mild, logical and imperative action any sovereign nation has ever taken in the face of a megadisaster. It is the least we can do.

So let us not be stupid, and let us not be gulled by the mushy propaganda dumped on us by the Jews, niggers and Christians through their bleeding heart stooges. Rather, let us use our brains and our instincts, and take action! Let us get our act together and save ourselves and our future generations from a vast, worldwide deluge of mud.

The first step: Build the Church of the Creator. Do your part.

Comparative Religions — Part VIII

THE NAZI-GERMANIC RELIGION

Alfred Rosenberg's
Mythos of the Twentieth Century

In *Mein Kampf* Hitler flatly stated that the man who establishes a new religion has achieved a much greater accomplishment than he who starts a political party, since the former is of much greater impact and enduring influence than the latter. Covertly, it was his dream to bring into being a new racial religion for the German people, one that would supplant the existing Christian religion. Since he never gave the contemplated religion a name, we will call it the **Nazi-Germanic Religion**, for want of a better term.

When we speak of the Nazi-Germanic Religion we are talking more of an attempt by the Nazi movement to formulate a new racial religion for the German, or Teutonic peoples, rather than the accomplishment of such a task. The Nazi movement itself was not a religious, but a political movement, as Hitler has repeatedly pointed out. It was a political movement for a devastated and beleaguered Germany, forged out of dire desperation and designed to achieve the following: (a) Free Germany from the chains of the Versailles Treaty. (b) Purge Jewish-Marxism from the minds, culture and politics of the German people, and replace it with a Germanic nationalist ideology. (c) Regain German territories lost in World War I, and further, (d) to expand the German living room eastward into the Balkans, the Ukraine and Russia. Hitler has furthermore repeatedly emphasized that the Nazi movement was purely German in nature, and was not for export.

Nevertheless, nascent in the Nazi movement were a number of goals that are now also closely inherent in the CREATIVITY movement. One of them was to implement a **Eugenics program for the genetic upgrading of the German people.** Another was the formulation of a **nationalist Germanic religion that was racial in nature** that would, when successful, replace Christianity as the basic religion of the German people. That neither one of these goals was achieved is mainly due to the short life of this dynamic movement that was utterly crushed and destroyed when Germany lost the war in 1945. Nevertheless, these two objectives were uppermost in the minds of the Nazi leaders as future goals to be pursued with the utmost zeal, had they won the war. That they did not win the war and these goals died stillborn, is a major tragedy for the German people and the White Race as a whole.

It is the attempt to formulate a new racial religion for the German people that we want to explore in this treatise, what was its nature, what success, if any they had, and what were some of its shortcomings.

The ideological leader of the Nazi movement was clearly acknowledged to be Alfred Rosenberg. No other German writer or thinker of the era, not even Adolf Hitler, had such a broad and comprehensive understanding of the Germanic soul and the Nordic folklore, superstitions and history as did Alfred Rosenberg. His Magnum Opus, *The Myth of the Twentieth Century* (1930) laid the basis for the formulation of the new Nazi-Germanic Religion of the future, which fitted within the framework of the Nazi movement.

Because of his Jewish sounding name, Alfred Rosenberg was the butt of a good deal of rough humor among his colleagues. He was, however, genuinely German, and the name Rosenberg (rose mountain) was a common German name in the Baltic area, where he was born on January 12, 1893.

He studied at the University of Moscow, where he graduated in Architecture in 1918 at the age of 25. He then returned to Germany and he was appalled and disgusted at the degeneration, chaos and anarchy prevalent in post-war Germany, his native country. He joined the Nazi party in 1919 and was the only member (outside of Hitler) to remain prominent from its earliest beginnings until the very end. He was hanged on October 16, 1946, after being railroaded through the vengeance-bent Talmudic Nuremberg trials along with 21 other high officials of the Nazi hierarchy.

After joining the party, Rosenberg became editor of the party newspaper *Volkischer Beobachter* in 1921. He wrote a great number of articles and also published some relatively minor books. After Hitler and Rudolf Hess were imprisoned at Landsberg in 1924, Rosenberg inadvertently became the custodian of the then outlawed and inactive Nazi party. After Hitler was released and the party again became active, Rosenberg became head of the foreign policy office of the party, and was also in charge of defining party policy with regard to secondary and higher education.

In 1940 he was given the responsibility of setting up the civil administration of the occupied Russian and Baltic territories. However, Rosenberg was a philosopher and a writer, not a good administrator, and his subordinates, men like Erich Koch and Heinrich Loehse, exercised the real administrative power.

When Rosenberg was brought to trial after the war, the Nuremberg kangaroo court charged him with every conceivable crime, but his real crime was for what he thought and wrote, in particular his racist and anti-Jewish views. It was again a clear case of brutal Jewish vengeance. He was hanged for the same reason as

Haman's 10 sons were hanged in "The Story of Esther." (See page 132 of Nature's Eternal Religion.) They were deemed to be dangerous enemies of the Jews. Again the Jews were celebrating their Feast of Purim.

Rosenberg's Mythos was the most influential of all the Nazi writings of the era in shaping the philosophy and ideology of the Nazi Party, but it was by no means unchallenged. For one thing, many of the party hierarchy had their own religious views and affiliations. Some were Catholics, some were Protestants, some were Atheists, most were indifferent Christians of one kind or another. In any event, most party leaders were not too interested in the religious aspect of their movement, but only in its political pursuit. Whereas Rosenberg was totally loyal to Adolf Hitler, he was in conflict on several major points with others prominent in the top echelon. His feud with Dr. Joseph Goebbels is almost legendary and cannot be reconciled within standard Nationalist Socialist thought. It struck at the very basis of the new state system. Whereas Goebbels favored a modern, concentrated, industrial state, Rosenberg preferred a rural, medieval, dispersed society, claiming that the best racial stock came from the farm population.

Just what did Rosenberg's Mythos say? In trying to answer this question we encounter a diverse and confused conglomerate of many religions, many writers and thinkers, a hodge-podge that is not necessarily consistent.

He reaches back into early Hindu literature (because it is "Aryan") such as, the Rig Veda and Zenda Avesta. (See again our article on Hinduism in Racial Loyalty, Issue No. 30.)

He was highly impressed by the teachings of Lao Tse who lived 2,500 years ago, whose teachings, he says, beautifully embodied the Chinese soul of his era, and Lao Tse's wisdom is in the longing for solidarity between soul and spirit.

He also read Count Arthur de Gobineau, the Frenchman whose book On the Inequality of Races can be considered the first major work highlighting the superiority of the White Race, but it did little more.

Rosenberg also read Houston Stewart Chamberlain's Foundations of the Nineteenth Century, which, he claims, "set him at once on fire." Chamberlain, it should be noted was the son of a British Admiral and the son-in-law of Richard Wagner.

In his Foundations, he lays much of the groundwork for Hitler's racial ideas. It should also be noted that Chamberlain frankly admits that no one really knows, either the geographic or ethnic origins of the "Aryan" race, or if there were two or more such aboriginal races, or if the whole idea is mythical. We Creators consider the whole idea conjectural and immaterial. We believe we should con-

centrate on the White Race as it exists today, or more correctly, what is left of it. Instead of pontificating endlessly on the "origins" of the "Aryan" race, the concept of which is as nebulous as is the hypothetical existence of the Continent of Atlantis, we Creators say this: let us get busy on solving the dire problems the White Race finds itself in today. Let us concentrate on the survival, expansion and advancement of the White Race, building a Whiter and Brighter World, and forget all the hocus-pocus of the supposed "Aryan" race.

Rosenberg read all of Nietzsche's works and was strongly influenced by his philosophy of the **coming superman**. It should be noted, however, that he never did solve his own problem of how all this was to be achieved or brought about. He was, in fact, both apolitical and anti-racist, and in some of his writings even anti-German. He wrote a number of highly sophisticated books, and, like the genius he was, we find him endlessly pontificating in the loftier stratosphere of higher theory. He talks endlessly about the coming of the superman and how we must subordinate everything to this great and inevitable event. He leads us to assume that this will inevitably come about as a result of Nature's law of the Survival of the Fittest.

We CREATORS say — not so! History does not bear this out. The Ancient Greeks of Athens and Sparta were far superior to the present-day species of the White Race, but were eventually supplanted by a vastly inferior species in their own territory. So were the superb Romans of Ancient Rome. Just as the mighty chestnut trees were killed by a lowly parasitic fungus 50 years ago, so, too, the parasitic Jew is destroying the unique White Race of today with astounding success. This will not be reversed by just merely allowing Nature to take its course. It will only be reversed by a fanatic, deliberate, well-designed program implemented by the White Race itself, such as is inherent in the CREATIVITY blueprint, and then executing such a program with zeal and determination.

One major contribution Nietzsche made to the cause was his relentless attack on Christianity, although he never did expose its Jewish origins. However, in attacking Christianity, he was neither the first nor the last to do so, but more brilliant than most.

The great German composer, Richard Wagner, also strongly influenced Rosenberg. He considered Wagner's Ring der Nibelung cycle of operas as probably the greatest of all musical creations and as a true expression of the Nordic soul. It is an opinion shared by many Germans, including myself.

Rosenberg was much preoccupied with, and strongly influenced by, the Christian bible, since the Germany of his era was still predominantly Christian and the thinking of its people overshadowed by its Judaic philosophy. It is in the attempt to compromise

his new Germanic religion within the framework of Christianity that, in my opinion, was Rosenberg's undoing. But we will have more to say about this later.

Rosenberg was an omnivorous reader and he read many other books that helped shape his thinking, but nothing influenced his outlook as did the chaos, the anarchy, the shameful degeneration of his own native Germany when he came back to it from Moscow in 1918. Leading this shameful degeneration was a passel of Jews, both native and foreign swarming in from abroad. During this era, the Weimar Republic, and especially Berlin, was regarded as the "cesspool of Europe." Rosenberg was shocked at what he saw.

As he labored within the ranks of the Nazi Party, the idea grew upon him that what the German people really needed more than anything else was a nationalistic religion of their own. (Let us remember the word "nationalistic.") He delved into the history, the mores, the superstitions and the folklore of the Germanic tribes (we must remember that Germany never was a nation until Bismark partially put it together in 1870). He wanted to find the "spiritual roots" of the Germanic "soul" and build upon these roots a new religion for the German people.

One of the most peculiar aspects of Rosenberg's search for the "Germanic soul" was his strange fascination and obsession with a Dominican priest who lived approximately six hundred years before Rosenberg's era. His name was Meister (Master) Eckehart, (1260-1328) a Catholic, yet a rebel to the Catholic hierarchy of which he was a part.

What was so great about Master Eckehart and what possible contribution could he make to a present-day religion that should concern us? The answer — not much. He, too, (as did Rosenberg) dabbled in the mystics, in metaphysics, and other obscurantist hocus-pocus that serves more to confuse than to clarify either the problem or the solution. Master Eckehart did stress logic, which was fine, but then reverted right back to talking about God, the need to define God. In so doing he went into a lot of nonsense about the mystical experiences, "flying" to the Godhead through contemplation and a lot of other meaningless double talk. We do not have here the space to review all of his nebulous meanderings, nor do we consider them worthwhile. At the same time Eckehart admits that God is undefinable and unknown. In short, we might as well be talking about Quantity "X", about which we claim to be enamoured silly, but don't have the foggiest idea what the hell it is we are talking about.

So much for Master Eckehart.

Out of all this conglomerate that also included Lao Tse, Hinduism, Nietzsche, Wagner, Gobineau, Chamberlain, Moses, Jesus Christ, and a host of other parts, what conclusions, what formula-

tions of a new "Germanic soul" religion did Rosenberg finally put together?

Because of his self-defeating approach in trying to compromise the new Germanic religion within the framework of Christianity, his effort, in my opinion, was an utter failure and a pointless pursuit.

He reasoned that since the overwhelming majority of Germans were Christian and had been such for many, many centuries, that somehow, we must salvage the best parts of Christianity and combine it with the mores, folklore and traditions of ancient Teutonic myths. Under this eclectic arrangement, we could have the best parts of both.

Alright, what parts of Christianity should we keep, and what parts should we throw out? Well, the Old Testament, he concluded, was a lurid history of the Jewish peoples, who were definitely un-Aryan and an enemy of the German people. Therefore, it would have to go. So there goes 70 percent of the Christian bible.

Then we come to the New Testament. Is it thoroughly Aryan? Well, no. Jesus was a good fellow, probably even Aryan and had some valuable teachings, which we should preserve. But then there is this fellow Paul, slimy Jew that he was, who got into the act and distorted and perverted Christ's teachings. Therefore we must sift out all the Pauline teachings and all that is Jewish. What would then be left would be good kernels of Christ's teachings, who, he claimed, was not a Jew, because there is no substantial evidence to indicate that he was a Jew.

In this latter statement, we CREATORS concur. We agree that there is no evidence that Christ was a Jew, or anything else, since there is not a shred of evidence that he ever existed any more than Santa Claus exists or existed.

But to get back to the New Testament. Since out of its 27 books, 13 were written by Paul, there goes 48 percent of the New Testament along with all of the Old Testament, and we now have a scant remnant left in which to search for Christ's good original kernels. But even here, Rosenberg says, we are not on good ground either, because much of this remnant too, has been distorted and polluted by that Jewish villian Paul, and we have to be extremely careful. What good kernels Rosenberg ever gleaned from the polluted remnants is hard to determine, and Rosenberg does not enlighten us.

We CREATORS take a completely different approach. Why pick through a barrel of rotten apples to see if we might possibly salvage a few bits of good meat in a rotten mess? Why indeed, when we can go out into Nature's beautiful orchard and pick nice, wholesome apples right off the tree, good ripe fruit, washed by clean morning showers and sparkling red and yellow in the bright afternoon sunshine? We say — dump the whole barrel of rotten apples at the

nearest garbage dump. Go directly to Nature's garden and start out fresh. Why pick through a rotten mess of garbage when there is nice fresh fruit to be had for the picking?

The only good end result of Rosenberg's efforts are basically what he would and could have concluded had he never poked around in the Christian bible, or loaded his book with so much boring mysticism, metaphysics or other hocus-pocus from Master Eckehart, or other mythological sources. Even Nietzsche's contributions were of little constructive value. The basic philosophy that is of any significance in Mythos is the emphasis of racial values, and, of course, in his book this is confined to the Germanic peoples, or the Nordic, or the "Aryan" race. In this we **CREATORS** agree wholeheartedly, except that we encompass the whole White Race, Germanic, American, Anglo, French, or otherwise, and seek to unite the total White Race, organize it, polarize it, and smash forever our biological enemies, the parasitic Jew, and go on from there to build a Whiter and Brighter World.

In any event, Rosenberg did not inaugurate a new Germanic religion, and Jewish-Christianity is still as rampant today as it was 50 years ago. In fact, he did not even give a name to the new religion he attempted to construct, but never really brought into meaningful focus.

Had Hitler won the war, his racial philosophy of blood, soil and honor would undoubtedly have expanded into the national religion of the German people, and eventually replaced Christianity. However, Hitler arrived at his racial ideas long before Rosenberg joined him. That Hitler wanted his political philosophy to become a religious philosophy, of that there is little doubt. The fact that the **Hitler Youth** had regular, organized meetings of indoctrination, just as did their Christian counterparts, and that they conflicted with church and Sunday schools in their timing, is strong evidence to that effect. This met with hostile opposition from both the Catholic and Protestant churches, but the Nazi Party was easily winning this critical battle for the minds of the youth. Had they only had more time, the Christian church would have withered on the vine and disintegrated within another generation. Hitler supported Rosenberg's efforts to forge a more comprehensive religious dogma out of his political philosophy. Whereas we **CREATORS** admire Hitler as the greatest leader the White Race has ever had, and the greatest White Man that ever lived, and agree with his racial ideas, we cannot help but come to the conclusion that as a religion for the White Race as a whole, Rosenberg's Mythos was woefully incomplete and left much to be desired.

* * * * *

CONCLUSION.

We CREATORS agree that the idea of the German people having a religion of their own to replace Jewish-Christianity is sound, but that Rosenberg's approach of trying to compromise it within the framework of German Christianity is contradictory and self-defeating. We believe that Rosenberg and the Nazi movement as a whole would have been far better off if they would have completely rejected Christianity and started anew from a sound realistic basis, such as CREATIVITY has done, building on the Eternal Laws of Nature.

However, several other basic differences remain and we will spell them out in the accompanying "Comparison" box. One of the major differences is that where the Nazi movement was basically nationalistic, political and concerned with the expansion and interests of the German people, the CREATIVITY movement is dedicated to arousing, organizing, and uniting all the White peoples of the world and making this Planet Earth the home of the White Race exclusively, and erasing the conflicting lines of nationality.

* * * * *

The most astounding achievement of the 20th Century has been the unbelievable success with which the Jewish conspiracy has conned the White Race into betraying its priceless heritage for a mess of garbage.

* * * * *

Half a century ago Hitler succeeded in uniting all the Germans. It is the unswerving goal of the Church of the Creator to arouse, unify and polarize all the White peoples of this Planet Earth.

Rosenberg's Germanic Religion vs. Creativity — A Comparison

A. Basis of Belief.

The German nationalistic religion that both Hitler and Rosenberg envisaged never became a reality. At the time of Hitler's death in 1945 Protestant and Catholic Christianity was the prevalent religion of the land, as it still is today. We therefore have to distinguish between the religious dogma of the contemplated religion and the political dogma of the Nazi party.

The religious philosophy was dimly outlined in Rosenberg's many writings, particularly his magnum opus, *Mythos*, and also in Hitler's *Mein Kampf*. They vaguely expressed the intent to create such a religion, to be based on the myths, mores and folklore of the German people. Since this never materialized, or crystallized, we have to leave it at that, and fall back on Hitler's dogma of Blood, Soil and Honor.

CREATIVITY has much in common with this idea, but is much more fully structured, more complete, clear and comprehensive. CREATIVITY takes in every major issue and aspect necessary for the future religious and racial needs of the White Race. These are spelled out in detail in the Three Basic Books of CREATIVITY, namely *Nature's Eternal Religion*, *The White Man's Bible*, and *Salubrious Living*, further supplemented by *Expanding Creativity*.

B. Goals and Objectives.

Hitler's and Rosenberg's goals were goals basically concerned with the welfare and best interests of the German people, and during the short tenure of the Nazi Party its political and religious goals were practically inseparable. They were: (a) To tear up the Versailles Treaty and restore German independence, power and honor. (b) To unite the German people. (c) To break the Jewish stranglehold and get these parasites off the backs of the German people. (d) Reclaim lost German territories. (e) Enlarge the living space (lebensraum) of the German nation by conquering new territory to the east, at the expense of the Poles, Czechs, Russians, etc. (f) To cleanse and Germanize the cultural, economic and racial elements of the German people.

The goals of CREATIVITY are very similar, but instead of such objectives being narrowly limited to the German nation only and at the expense of other White nations, CREATIVITY seeks to encompass the total White peoples of the world, be they German, French, Anglo, Polish or whatever. It seeks to do so at the expense of the

mud peoples and to the benefit of the White Race. CREATIVITY seeks to straighten out the confused and Judaized thinking of all the White men, women and children on Planet Earth, to arouse them, unite and polarize them into one huge battering ram and smash the Jewish monster once and for all. It is then the objective of CREATIVITY to expand the numbers and territories of the White Race until it inhabits (exclusively) all the good territories of Planet Earth. There are many other objectives, such as Eugenics, Salubrious Living, and a number of others, as spelled out in detail in our Three Basic Books, and as briefly summarized under the Twenty Fundamental Points in Racial Loyalty No. 30.

C. Racial Attitude.

There is very little difference between the racial attitude of Creativity and the Nazi philosophy, except for this one major detail: Whereas the Nazi goal concerned the cleansing and the genetic improvement of the German people, Creativity seeks to encompass the total White Race on a global basis. Whereas Hitler stressed Nationalism, **we stress the common biological origins of our race as the common bond and point of polarization.**

We believe this is extremely important. Whereas nationalism has been the cause of innumerable wars between White "nations", from time immemorial, we are firmly convinced that the **whole idea of "nationalism" is highly destructive for the White Race** and has been one of the Jew's most effective tools in their diabolical technique of "Divide and Conquer." We therefore seek to unite the White Race under one religion and one language, never to wage fratricidal war amongst themselves again.

Whereas Hitler sought to unite the Germans only to wage suicidal wars against other White Racial Comrades, we seek to unite the whole White Race on a worldwide basis. We claim the whole Planet Earth as the exclusive and unchallenged heritage of the White Race.

In **Racial Loyalty No. 4** we have spelled out in more detail **eight fundamental differences between the Nazi philosophy and Creativity.**

There are many armchair admirers of the Nazi regime who argue that "if Hitler had only won the war" he would have extended the benefits of the Nazi idea to the White Race on a worldwide basis.

In the interests of solving the urgent problems and the dire dilemma that faces the White Race today, I want to make two salient points.

(a) Hitler lost the war. He has been dead for 40 years. What he might or might not have done is academic at this stage of history and a pointless conjecture that is wasting much valuable time in pontification when militant action is what is needed.

(b) We Creators are convinced that the whole idea of "nationalism" as espoused by National Socialism is a divisive and destructive idea, and we supplant it with Racial Socialism. Had Hitler won the war, other countries such as France, Poland, England, America, etc., would undoubtedly have formed indigenous Nazi parties of their own in their respective countries, with undoubtedly, German direction and interference. There would have in each instance been much resentment and opposition in each country, and justifiably so, that the "Germans" were taking over, and it would probably have sown the seeds for endless future strife and resentment, such as the Irish resentment of the English governing a section of their country.

In the CREATIVITY Creed and Program most of these problems are substantially solved and eliminated. No White country need be, or need feel threatened that they might be governed by an "alien nationality." As time went on, as Latin became the universal language of the White Race; as the racial idea grew and the "nationalist" idea subsided; as CREATIVITY became the universal religion, the White Race of the world would move in unity towards a true entity interested in advancing the goals emphasized in Creativity; upgrading its own genetic heritage and utilizing its tremendous potential for its own best interests.

We therefore appeal to our "nationalist" White brothers to stop pontificating endlessly and pointlessly about "what might have been", to come back to the world of reality, and join with us as militant activists in building a Whiter and Brighter World.

D. Organizational Structure.

We are completely in harmony with the Leadership Principle as expounded by Adolf Hitler and consider the former Nazi Party and governmental organization as a model structure for our own future development. We consider Hitler's Nazi Germany between 1933-1939 as the finest and most efficient society the White Race has ever produced for its own best interests. We intend to not only emulate its organizational structure, but to utilize it as a stepping stone to further improve upon, to expand it on a worldwide basis to serve the White Race for its own best interests.

Issue No. 32, February 1986

The Major Roadblock

HUBRIS, HUBRIS

We have the means to smash the Jewish network now in 1986. All we need to do is sort out the important from the trivial, separate fact from nonsense.

Right at the outset, up front, I want to make three cogent claims:

1. The White Race has enough informed militant activists to smash the Jewish powerhouse and grasp control of its own destiny now, in the year 1986.
2. In implementing Creativity, we have the blueprint, the creed, the motivation, the religious zeal to make the historic breakthrough that is within reach, not some distant future, but NOW.
3. Blocking such a glorious victory is a common defect of human nature that the White Race in particular is heir to. It is called **HUBRIS**.

What is hubris? Webster has several definitions, but let me coalesce them into my own version. Simply speaking, hubris is a combination of overwhelming personal egotism mixed with overwhelming jealousy. It is as old as the human race itself, a pernicious defect of human nature, a flaw that has been a major force in the shaping of history, and also in the wrecking of its constructive progress. The Jew has been particularly skillful in capitalizing on this fatal defect of character, and the White Race has throughout history been a willing and cooperative dupe in allowing the Jews to expertly manipulate us in their odious "Divide and Conquer" technique.

Why do I say that the White Race is particularly prone to this stupid flaw in their make-up? I say it because it is true. Why it is so, that I will not even attempt to explain, but let me cite a few examples.

A prime example of hubris are my own ancestors, the Mennonites. When I say this I do not intend to disparage this intelligent and industrious group of people, who, although relatively small in numbers, are dispersed all over the face of the earth. No, not at all. In fact, I am proud of my ancestors. They have many redeeming qualities. Besides being intelligent, hardworking and industrious, they have proven to be tenacious, honorable, relatively honest (compared

to the average bear) and they have shunned race-mixing. They are clannish, and for this I am thankful, otherwise, I might not have been White. They have kept their blood lines pure for the last several hun-dred years, with nary a nigger, an Indian or a Jew intruding into their social or genetic structure. In Russia, where my progenitors lived for a century and a quarter, they would even shun marriage with a Russian, such being absolutely taboo.

But they did suffer from hubris, probably even more so than the average White kinsman. It is my observation that the Mennonites were highly motivated, competitive, ambitious to get ahead and were extremely conscious of what their neighbors and/or their relatives were doing. As a result they were also petty, jealous and back-biting about someone getting ahead of them. They had this compulsive habit of gossiping about everyone else's business and affairs that I found extremely distasteful, and some of them, (not all) including some of my relatives, would categorize other people into two groups.

(a) If someone got ahead of them and did better in the field of achievement they would be labelled as "stuck-up."

(b) If someone did worse than they did, they would poke fun at him as a ne'er-do-well, or as a village clown.

Either way, it was a no-win situation, a Catch-22.

Because I disliked this prudish, petty attitude I never did join the Mennonite Church, nor in my younger years was I ever attracted into the Mennonite circle of society. In fact, I did not appreciate some of the finer qualities of the Mennonite people until later in life when I began to study the make-up, the characteristics and the histories of the White Race. Today, I am thankful for both their faults and their virtues, for had they been otherwise, I would probably not be White.

Another example of hubris that I want to cite is the relationship between two outstanding inventors, namely Thomas A. Edison and Nikola Tesla, who lived in approximately the same era, shortly before, and after, the turn of the century.

Now we have all heard of the great Thomas Edison and his life has been well chronicled and eulogized in books, newspapers and even in the Jewish movie industry, which has seen fit to glorify him in at least two movies, one when a boy and one in his adult years.

Edison lived a long, productive and flamboyant life of 84 years, from 1847 to 1931, and since his story has been so well publicized there is no need for me to review it here.

Not so well known to the average public is the life of Nikola Tesla, one of the most brilliant and creative scientists and inventors in the history of the White Race, if not the most brilliant. His life spanned a period of 87 years, from 1856 to 1943, being born only nine years later than the world's most celebrated inventor.

Whereas Tesla and Edison lived in more or less the same era, and were both inventors principally in the field of electricity, there is, however, a remarkable difference in their make-up. Whereas Edison was primarily slow, plodding, and uneducated, (one percent inspiration, 99 percent perspiration, according to his own dictum) Tesla, on the other hand, had an extremely brilliant and creative mind, was well educated in science and math and understood the complex principles of physics more intricately than it has been the privilege of only a select few. He was, in short, a genius of the first calibre, far outshining anything Thomas Edison could ever envisage, and his achievements in the field of electricity, alternating current, generators, transformers, power transmission, A.C. motors, is so vast and extensive that it boggles the mind. Having studied engineering myself and having earned a degree in electrical engineering, I believe I can have some understanding of the magnitude of this great man's genius. It is my conclusion that most of the vast systems of electrical power generation and distribution as we know them today are based on the theories, inventions and designs produced by the great mind of Nikola Tesla.

Yet, whereas Edison is eulogized and lauded to the skies, and has been for a century, few people have even heard of Nikola Tesla. Whereas Edison rates much space and usually a picture in most encyclopedias, I find only a short four inch column for Tesla in the 1929 edition of the BRITANNICA, a six inch column in Funk & Wagnall's 1970 edition and nothing at all in Collier's (1952) Encyclopedia.

In the fall of 1983 I attended a **Symposium for the Development of Unconventional Energy** in Atlanta, more as an interested spectator than a contributing participant.

Convened at the three day meeting was an assemblage of approximately three hundred of the most brilliant scientists that it had ever been my privilege to witness. They came from all over the world, Canada, U.S.A., France, and especially Germany. Dozens of lectures, papers, replete with slides, graphs, and sometimes even models of their inventions or ideas were presented. These ranged over a wide variety of technical and scientific subjects, but most predominent was the search for a clear, safe and endless source of energy. Among these was the goal of converting gravitational energy into practical use.

Anyone observing these scientists would have been amazed (as I was) that it was Nikola Tesla who was looked upon as the hero and the giant of all those scientists that had passed through history. Not Edison, not Einstein, but Nikola Tesla, and his scientific papers, especially on gravitational energy, were studied and reviewed with the greatest of intensity and interest. Edison was hardly even mentioned, and when he was, it was not in a favorable light.

Anyone studying the development of our electrical power plants

and the transmission of electric energy into our homes will find that back at the beginning, in the 1880's, Edison installed some of the first central power plants and transmission lines to carry electricity to streetlights and homes. His system was based on direct current (D.C.) instead of alternating current (A.C.), and as a result, had severe limitations. For one thing, because D.C. cannot be used with transformers to step up, or step down, the voltage, he had to limit his voltage (in the transmission lines) in the range of two hundred volts, otherwise it would be too dangerous for public use at the receiving end. This limited the transmission to approximately no more than half a mile from the central power plant, and furthermore (a) because of the low voltage in the transmission lines, the voltage dropped lower and lower the further down the line any hook-ups were made, and (b) much of the power was lost in the transmission lines themselves due to the low voltage used, and (c) it would take hundreds of small central plants to service cities like Chicago or New York.

It was not until Nikola Tesla came along a few years later and demonstrated the obviously superior advantages of alternating current. He invented transformers to step the voltage up or down as required. He invented several types of A.C. motors. In fact, he more than anyone else conceived most of the technical inventions that made possible the whole system of power transmission as we know it today. With high voltage (500 thousand volts are common) transmission lines it is now possible to economically carry power for hundreds of miles, and deliver it to the consumer at any voltage specified.

Since this genius came out with so many brilliant inventions that it is impossible to list them here, I nevertheless want to point out one strange controversy that developed between Edison and Tesla, and the electrical industry as a whole.

Tesla’s brilliant, fully structured electrical system with alternating current, transformers, high voltage transmission lines, and other accoutrements made Edison’s direct current system as obsolete as a buggy whip almost overnight. But because he had a vested interest in the few already established plants, and because of his hubris (he didn’t think of the A.C. system first) he viciously fought Tesla tooth and nail. He used every dirty tactic in the book to calumniate and discredit Tesla.

One dirty trick he used was a deceptive scare tactic. Since in some states the electric chair (using two thousand volts) had been introduced to execute those guilty of capital crimes, Edison quickly latched on to this incident and called alternating current the “death current,” that it was highly dangerous to human beings and should never be used in the home.

Now the fact of the matter is (and Edison was well aware of it)

that A.C. or D.C. are equally lethal or safe depending on the voltage used, the connections made, etc. But with the press largely with him he used this argument exhaustively to prevent Tesla's superior A.C. generating and distribution system from being accepted by the public, and for some time he succeeded in delaying its acceptance.

It's a long story, but the lessons to be learned are these: (a) Because of his hubris and insufferable egotism Edison tried, and was able, to long delay the acceptance of a fully structured system that was far superior to his own makeshift set-up. (b) In the end Tesla's system prevailed because it was highly superior. (c) Propaganda and misconceptions can be highly destructive to progress and a rational solution to a problem.

We now come to the overwhelming problems that beset the world today. The foremost of all these is the omnipresent Jewish parasite that has fastened itself to the back of the White Race and is inexorably implementing our death and destruction. Strangely, no one seems to know what to do about it, least of all the White Race itself, most of whose members through the aegis of Jewish Christianity are actually subsidizing, eulogizing and aiding and abetting the parasite.

The brutal fact of our times is that the White Race is dying, it is being murdered by the Jews, and the White Race, instead of taking up arms against this vicious parasite, is too drugged with that Jewish mind-scrambler (Christianity) to even realize that it is being murdered.

Not every one is unaware, however. Since World War II we have had at least 20 thousand fractured and fragmented "patriotic", "nationalist", "racist" groups, some phoney, some sincere, that have tried to sound the alarm in some fragmented and disjointed manner. Some are alarmed about the communist threat, some are alarmed about our financial chaos, some are alarmed about the IRS, some about encroachment on our right to bear arms, some that our Constitution is being undermined, some about the flood of illegal immigrants across our borders; and a dozen other worthy causes.

We Creators too, are concerned about all of these vital problems, and more. The difference between us and the 20 thousand past failures is this: Whereas the "Deplore and Lament" crowd does nothing but cry "alarm," none of them has ever come up with a meaningful solution to the vast array of problems that now besets the White Race and must now be confronted and solved. Deplore and Lament! Deplore and Lament! Alarm! Alarm! But never a meaningful solution. At best their "solutions" were either nonexistent, or they are frivolously frittering around the fringes of the problem. Few dared to get to the heart of the problem and confront Jewish Christianity.

We are sick and tired of hearing from the Deplore and Lament crowd. If you don't have a solution, don't bug me with your problems.

Professor Revilo P. Oliver, one of the most intelligent and knowledgeable men I have had the honor of meeting, has said categorically that "The Church of the Creator represents the only rational religion of which I know." Hitler has said that in order to win the masses and build a powerful movement that we must focus on one central idea, and keep pounding away on it.

So what central idea can we, the White Race, effectively focus on, and polarize around? If we can't rally around a dynamic rational religion like Creativity that covers all the bases, what can we rally around? What are the alternatives?

Should we rally around the Identity movement that has one foot in the racial camp and the other in the enemy camp? An idea that is based on superstition, gullibility and historical nonsense? I think not.

Should we try to revive the Nazi approach? Hitler was, in my opinion, the greatest man the White Race has ever produced. Were he young and alive in America today (I wish he were!) I am sure he would take an altogether different approach than he did to save Germany in the 1920's, and I have a feeling that it would be amazingly similar to Creativity. Like the Klan, the Nazi party served a useful purpose in its time and place to solve the problems of their day, but for today both are as dead as a dodo and about as useful in solving the multitude of urgent problems that now confront us.

Should we embrace the "we love 'em all!" approach? No battle, no war has ever been won — no meaningful movement has ever been built with a polyglot collection of diverse goals, loyalties or beliefs. It invariably dies of its own deadweight in a mass of confusion and dissention. (Read again Issue No. 10 in EXPANDING CREATIVITY, "A Polyglot Mind and a Polyglot Society — Who Needs Them?") Again, we go back to experience in Germany during the 1920's and 30's. Until one monolithic, well structured, well organized movement emerged, nothing happened. When such unified movement consolidated all into one ideology, it smashed the Jews.

Should we revive the ancient Norse religions? Hardly. Odin, Woden and Thor are not going to get off their rumps and save the White Race, anymore than is the Jewish JAHWEH. We have a deadly war on our hands and have more important things to do than waste our time playing childish games that should have been relegated to a kindergarten class in the first place. A spooky religion that couldn't hold its own a thousand years ago when it was at the height of its power cannot now be revived any more than trying to breathe new life into a long dead horse. Furthermore, its basic precepts really have very little to do with and are of little help in an ominous battle

with which we are now confronted.

Should we rally around a revived Populist party? It, too, is ancient history and failed miserably many decades ago. It, too, does not really address and confront the real enemy, the Jewish parasite and its offspring, Jewish Christianity. In fact, it trips all over itself to tell the world it is not racist nor anti-Jewish. To embrace a wimpish program of that calibre is to live in a fool's paradise, and tantamount to joining the enemy.

If the above should "offend some delicate sensibilities", that is just too damn bad. We have a serious battle on our hands and can't be endlessly genuflexing to wet-nurse all the little bruised egos. No, time is running out and the Jews, Mexicans and niggers are closing in on us. Before this war is over there will be more than delicate little hubris' bruised. There will be blood flowing in the streets and millions of White Racial Comrades slaughtered. So let us forget all this nonsense about whose little "sensibilities" (read hang-ups) we might offend, and get on with the battle. Those who insist on hanging onto their little hang-ups and nurturing their little hubris aren't going to be any help in that battle anyway, so we haven't lost anything.

There is an alternative, and we have it — an idea to which any rational, militant White man or woman can give their total loyalty and dedication.

We Creators have a real, lasting solution. We have a racial religion to offer to the White Race, the first meaningful, genuine White racial religion in six thousand years of civilized history.

It is comprehensive, complete, clear, consistent, coordinated, constructive, conclusive, cohesive and cogent. It covers the whole spectrum, the whole ball of wax. It is not makeshift, not a temporary stopgap solution, nor is it a patchwork of haywire and chewing gum. It was tailor-made to not only solve the dilemma the White Race finds itself in today, but also to give our race a sane and sound philosophy to live by and prosper for the next million years.

There is only one movement in recent history that has challenged the odious Jewish power structure and overcome it, if only on a regional basis, and that is the National Socialist movement of Adolf Hitler when it came to power in Germany in 1933. True, it was later smashed by the combined forces of all the other White nations under the aegis of the Jewish monster, but that is another story. The fact is, it did successfully wrest power away from the Jewish parasite in Germany and we should learn some powerful lessons from it.

1. After Germany's defeat in 1918, some two thousand "nationalistic" (and otherwise) groups sprang up to try to solve the terrible dilemma in which the German people found themselves.

2. There was much bickering, jealousy and infighting amongst them.

3. The numerous fractured and fragmented parties or groups were powerless to stem the Jewish juggernaut until Hitler's Nazi party became the one and only powerful battering ram and took over the German government.

4. There were no "mergers". Hitler's movement absorbed former members of the various splinter groups, including thousands of converted former members of the Communist Party. A few leaders of the former splinter parties joined him (such as Julius Streicher) but most of them did not. Had the leaders sublimated their hubris and had the foresight to join with Hitler, the Jews could have been overcome in 1924 perhaps, instead of 1933. How this might have changed the course of history we can only speculate.

In any case, the main, the most cogent lesson is this: Until the overwhelming majority of the German activists consolidated and polarized into one powerful movement, nothing was achieved. Once they did, they took over the power of the state, drove out the Jews, and constructive solutions were rapidly implemented.

Sixty years later, we here in America are faced with a similar situation in overcoming the Jews, although the racial problems facing us are much different and really encompass the whole White Race on a global basis.

Whereas Hitler's movement was tailor-made to solve the political and racial problems for the Germans of 60 years ago, the Creativity movement in a completely different milieu is tailor-made to solve the racial problems of the White Race on a global scale, the only way it can now be approached. Whereas Hitler was highly successful in uniting the Germans in the 1930's, it is our goal to consolidate, unite, arouse and polarize the White Race on a global scale. We are dedicated to this goal, not because it is easy, but because it must be done, and we have the creed and program with which to achieve it, but only with your help and zeal.

It is a tall order. But it is that, or nothing. In this respect we emulate the fearless philosophy of the indomitable Texas Rangers of the 19th century, "Know you're right and just keep coming." We vow to "keep coming" until we have either achieved total victory, or until we are dead. We know we are right.

In pursuing this lofty and urgent goal, and in hastening the day of victory, we appeal to all White Racial Comrades to submerge and sublimate your own insignificant and fleeting hubris to the major goal — the survival, expansion and advancement of your race. We have now forged the tools and weapons to do the job, and they are formidable. We are not helpless. (Read again EXPANDING CREATIVI-

TY in Issue No. 6 "The Self-imposed Handicap" and Issue No. 9 "We are not Helpless".) But fragmented and divided, we are not only helpless, we are doomed.

Whether we like it or not, the Jews have us enmeshed in a highly dangerous and deadly game, in which there can be only total victory, either for their side or ours. We are not playing ping-pong, nor are we playing marbles. Nature's basic laws are now coming into full play on a massive scale, and it is now an issue of whether the White Race will be murdered (remember Dresden!) or whether we demolish the Jewish monster and survive. This issue will be resolved one way or another, in the lifetime of many of those living today, and believe me, there will be no compromise.

I want to reiterate the initial premise stated in the beginning of this article, namely, **we have the means to do it now.** Standing in the way, mainly, is the hubris of many of the leaders of the numerous small splinter groups, who, because it is not THEIR brain child, would rather fight Creativity than spread the word, not realistically thinking of the consequences that will ensue if we don't settle upon one major movement and consolidate. These shortsighted individuals would indeed cut off their nose to spite their face.

In so saying, I am sure that there are many who will take the easy alibi and accuse me of a hubris of my own, therefore the problem is answered and by-passed.

No, my friend, it is neither answered nor by-passed. The overwhelming problems remain — stark and real, urgent and overwhelming. If we don't get our act together, and soon, it will be all over, and the White Race will be finished. That includes you and any stubborn little hubris you may nurture. It includes your immediate family, your relatives, your race and your civilization. This will be a world overrun with screaming, clawing, starving mud peoples, billions of them. It will be a hellhole of the worst kind, one in which the White Race cannot survive, or in which it would even want to live.

So this is hardly a silly little game of "who's got the hubris?" If you want to play a cute little trick on personalities and turn tables on me, go ahead, indulge yourself. I couldn't care less. If it makes you feel any better, be my guest. I am neither concerned about my hubris, or the lack of it. Frankly, I never wanted to be in the public eye, and I don't care to be now. Christ knows I have examined every possible organization which I hoped might be able to help do the job and solve the problem. I was a member of the John Birch Society, of the Citizens Council, of the Republican Party, the Presbyterian Church, I even formed my own Nationalist White Party. When I came to the conclusion that none of these were even remotely fitted to do the job, I sought ways and means that would be meaningful and cogent, and Creativity was the answer.

Having finally found the answer, we are determined to do whatever it takes to get the job done — only total victory will suffice. Like the Texas Rangers, we will push on, come hell or high water. I will be only too happy to relinquish the leadership and pass it on to younger, more capable hands, and fade into the mists. In fact, I have been searching for such an outstanding promoter for years and we will find him. We have several excellent young prospects right now. I can hardly wait to go into retirement, write a few more books, (I have six in mind right now) and let younger, more capable, more energetic hands carry the torch and reap the glory, if any.

It is hard to understand the intransigence of some of our racial leaders who secretly take the position "If I didn't think of it myself, I would rather torpedo it than give someone else the credit." Why anyone should take this self-defeating stance is neither rational nor constructive. After all, 200 thousand Christian preachers in America who are also White, do not take such an absurd position. They don't claim to have invented Christianity nor written the Christian Bible, yet they have no reservations in breaking their necks to spread an idea and a book that they had no hand in either inventing or writing. (Actually, the Jews planted the whole mess.) So why should a White racial leader be so obtuse and irrational about helping promote an idea that will save his race from extinction?

So it is not a personal issue. Not with me, nor is it with you. Indeed, it is not a matter of personalities. It's not a matter of nitpicking trivialities. It is a matter of life and death. At stake is your life, your future, that of your family, your country, your race, and even more important, your future progeny.

What can you do? If you are not in the racial movement as yet, join with us, become a member of the Church of the Creator. If you are already in a racial group, join with us, and persuade your leader to convert to a C.O.T.C. group. Become an ordained minister of our church. Stop fighting with slingshots when you are being offered the best machine guns available to use as your weapons. Also, you must remember no program, no creed, no matter how dynamic, is self-implementing. We need good people like you to get behind the movement and give it muscle — give it all you've got.

Remember, we are not playing marbles. This is a deadly game. There is no substitute for victory and you will have little hubris to crow about if you end up a slave, your face down in the mud with a Jewish jackboot pressing down on the nape of your neck.

* * * * *

Rahowa!

The White Race is enmeshed in a race war that will not end until it, the White Race, is either exterminated or it inhabits the Planet Earth supreme. Although most members of Nature's Finest either don't realize it, or whether it is stupidly trying to ignore it, is beside the point. The Jews, the niggers and mud races are keenly aware of it and will wage it unto death, whether we want it or not.

When a people stoop so low as to abjectly bow to the traitorous power structure to "honor" Martin Lucifer Koon as a hero above their own traditional White heroes, (Washington, Jefferson, etc.) then it is time to declare open war. I cannot think of anything more humiliating than for Nature's Finest to surrender their own honor and abjectly kow-tow to a nigger reprobate whose FBI record was so odious it has to be locked up from public scrutiny until the year 2027. How low can you stoop?

The mud races have foisted war on us. There is no escaping it. We therefore are forced to pick up the challenge, wage it fiercely, no quarter given, until victory is ours. We must also give it identity, give it a name. The Moslems have their name for theirs. It is Jihad. We need to have our own and the Church of the Creator has coined a word for it.

The word is Rahowa! It means White RAcial HOly WAr. (Pronounced rah-hoh'-ah.)

Let us wage it fiercely, fearlessly and tenaciously until victory is ours.

Rahowa!

BRITISH ISRAEL

IDENTITY

A Vice-President in charge of advertising for a large cosmetics firm was chatting with a friend, exchanging a little banter over a few drinks.

"How can you make such fantastic claims for your cosmetics?" asked the friend.

"It's easy," replied the V. P. **"We just lie like hell."**

"But how do you get away with it?"

"No problem," replied the V. P. "The women desperately want to believe that our face creams and lotions and potions will do all those wonderful things for them. So they just buy, buy, buy. They're happy, and we make millions."

This brings us to the subject I want to expose and examine in more detail, namely, the art of spook-peddling, which is even more profitable and more deceptive than promoting cosmetics.

Today, with the aid of the electronic Jew, one of the most lucrative (and deceptive) rackets on the modern scene is the nefarious art of peddling spooks in return for millions. It is a con-game without parallel. We have such unholy con-artists as Oral Roberts, Rex Humbard, Jerry Falwell, Garner Ted Armstrong, Billy Hargis, Billy Graham, Jimmy Swaggert, Pat Robertson, Jim Bakker, Robert Schuller, and the late, great Jim Jones of Guyana fame, and slews of lesser con-men on the boob-tube selling the spooks-in-the-sky swindle, day in and day out. Many of these top-notch con-artists take in forty, fifty and sixty million dollars of funny money a year, Federal Reserve notes that are as phoney as the lies these swindlers are peddling to their gullible victims. With or without the electronic boob-tube, this racket has been going on for thousands of years.

However, in the last century or so a new breed of purveyors has been emerging that has given the standard hellfire and brimstone crowd a new twist, and that is the British-Israel wing, also known as the **Identity movement**. Since the accompanying Liberty Bell article gives a scholarly history of this movement, I need not repeat it here, but rather I want to focus on the impact it has had, and is having today, in the crucial battle for the survival of the White Race.

Some of these Christians, those who have discovered what skillful and congenital liars the Jews are, of how obnoxious and repugnant they have been throughout history, found themselves in a

serious dilemma. Since most of their precious bible is Jewish from cover to cover and keeps gushing repeatedly about Jahweh's endless and palpitating love affair with these despicable reprobates, they found this hard to take. So some ingenious inventor came up with a brilliant new twist. Why not claim that the Jews are not at all the real Israelites, but children of the Devil, and we, the White Race are the genuine article. Why, with a little sleight of hand, some clever juxtapositioning and a lot of gullibility, we can claim that the "Ten Lost Tribes of Israel" wandered into an uninhabited Europe sometime in the first millennium B.C.E. and rapidly populated it from one end to the other. Isn't that wonderful? **Now we, the White Race, can claim that we are the real Israelites and the scurvy Jews are nothing but phoney impostors.** Isn't that great? (Why, with the same procedure, you could be Napoleon Bonaparte reincarnated. All it takes is a little bit of INSANITY.) Ipso facto, the problem is solved. Now WE are the ones that the Jahweh of Abraham, Isaac and Jacob so dearly loved that he would knock himself silly in order to ingratiate himself with these reprobates that had all the morals of an alley cat. How lucky can you get?

In a nutshell, that is the position of the Identity movement.

There are so many misconceptions contained in the fraudulent assumptions of the Identity movement that it is hard to list them all. But I will try to sort them out.

(1) There is not a shred of evidence that the Jewish tribal god of Jahweh existed in the supposed time of Abie, Ikey, and Jakey, or exists today, anymore than that Santa Claus or Mother Goose exists, or existed.

(2) There is not a shred of evidence that Abraham, Isaac or Jacob (or Moses, for that matter) ever existed, and all indications are that they are no more than fictitious figments of the Jewish imagination.

(3) There is not a shred of historical evidence that there ever were any Ten Lost Tribes, and if they ever existed and got lost, all I can say is GOOD RIDDANCE. Too bad the other two didn't disappear also.

(4) It is absolutely preposterous to claim that Europe was an empty wasteland until the "Lost Ten Tribes of Israel" entered into it and suddenly populated it. It is contrary to Greek history, Roman history, Celtic history, Frankish history, Teutonic history and all other authentic history. It also contradicts all archaeological evidence that has been unearthed in the last several centuries, including cave drawings in France, Spain and other parts of Europe. Many of these artifacts and drawings by our White European ancestors date back as much as 20 thousand years. For a thorough anthropological study of our ancestry, I suggest you read the November issue of National

Geographic. Also Madison Grant's classic, "Passing of the Great Race" is an excellent treatment on the subject of racial movement in prehistoric Europe.

(5) We now come to the final question: considering what sleazy characters Abraham, Isaac and Jacob were, according to the highly touted Old Testament itself, who but a deranged idiot **WOULD WANT** to have these lecherous pimps, murderers and whoremongers for their ancestors? I would much prefer to have a set of genuine old-fashioned horse thieves for my progenitors than these sleazy Jewish reprobates.

Besides being a shiftless nonentity at the age of 75, Abraham (so the stupid story goes) was a footloose pimp who peddled his (half-sister) wife to the highest bidder, not only once, but repeatedly, for ill-begotten loot. He murdered a number of people. He fornicated with his maid. He and Sarah had their first child when both were ninety-nine. (Would you believe?) Isaac followed a similar pattern. Jacob deceived his senile, blind father and betrayed his brother Esau, all with Yahweh's explicit blessings. Then there is that great Lion of Israel, Judah, who fornicated with his daughter-in-law believing she was a common roadside whore. There is the big Star of the Show, King David, who while wooing King Saul's daughter Michal, brought a dowery of two hundred foreskins from slain Philistine warriors to Saul. (Read it for yourself: I Samuel, Ch. 18, Verse 27.) For more sick, lurid details read Chapter 10, "The Old Testament" in Nature's Eternal Religion.

Now I ask any sane, intelligent White Man who has not yet gone bonkers in the name of Yahweh, why would you want to break your neck to distort history and **WANT** to be a descendant of such trash that even the morals of an alley cat would be put to shame? I would say that no sane, self-respecting White Man would.

We now come to the next cogent question: Why should we Creators, who are totally dedicated to the survival, expansion and advancement of the White Race be particularly concerned about those misguided souls that believe in British-Israel? After all, they constitute only a minor percentage of the Christian population, perhaps less than one percent.

Well, there are good and sufficient reasons why we should be concerned. Whereas the overwhelming majority of White Christians do not believe they are the "real Israelites", the average run of Christians are the poorest of all prospects for building a White racial movement. For all practical purposes, the gung-ho Christian is unreachable for the present. The Identity crowd, on the other hand, are a different breed of cat. They crave Identity as a member of the White Race and are therefore the type of people the White Race needs to save itself. The big problem is they want to keep their hang-up

with the Jewish spooks intact at the same time, a frustrating dilemma that splits their loyalty straight down the middle. We therefore have dual loyalists (as the SPOTLIGHT calls the Jews) that claim to be for the White Race, but also for the Jewish spook — an impossible incongruity. In so doing they confuse the hell out of those White racists that could effectively help wage the war for the survival and resurrection of the White Race.

Not only do they vastly confuse the issue, but these befuddled spook-chasers hate us rational White Loyalists much more passionately than they hate the Jews. Why? Because the Jews claim to believe in some kind of spook, even if they don't believe in Jesus Christ, so they can be forgiven. But we Creators — oy vey! That is a different story. We cut the very ground out from under them that supports their favorite hang-up — their personal Holy Cow. We demolish with sheer rationality all this intoxicating nonsense about spooks all around us, surveilling us, monitoring us, judging us, burning us in Hell. It makes them insanely furious that we expose and ridicule their cherished escape into insanity, and they would gladly burn us in Hell if they could, as witness the letter from Bishop Grant R. Powell, which we publish on a previous page. Is there anyone more vicious, more sadistic, more hateful than a born-again Christian? I think not.

I remember a meeting I attended in Kansas City in 1977. There was good old Gerda Koch expounding on how our country and our constitution were solidly built on the Christian Bible, an idea thoroughly repudiated by the Founding Fathers, who were determined to keep the church out of government. However, as she fixed her baleful eye on me, her main invective was directed against those miscreants who did not "believe" in the supernatural.

Then there is the Rev. Richard Butler, who with an engineering background should know better. As head of "Aryan Nations" he is pursuing the "Dual Loyalist" course of a true hypocrite, subservient to the Jew-concocted spooks and White racism, two completely conflicting and diametrically opposed concepts. But when it comes to those who would fight for and pursue a rational and well structured creed and program for White survival without dragging all this damn spooks clutter along with us, why, then all hell breaks loose, and there is no fury equal to that of a spook-chaser spurned.

It is the position of the Church of the Creator that the fight for survival against overwhelming odds is going to be fierce and drastic enough as it is, without weighing ourselves down with a lot of unnecessary clutter and tying our hands behind our back. (See "Self-imposed Handicap", Issue No. 6, EXPANDING CREATIVITY.) Who needs all this confusion, clutter and bickering that the Christians themselves haven't been able to reconcile for the last 18 centuries.

We sure as hell don't, and it must (and will!) be our continuing program to purge the White Man's mind of all this Jewish trash and rubbish.

At this point I would like to ask every White Man to ask his own conscience this categorical question: **What is so great in having "deep and abiding faith" in some "belief" that is founded on neither fact nor logic?** For example, could any thinking man have anything other than pity and contempt for a Hindu who insisted in believing cows are holy? Or a Christian, who "believes" in spooks in the sky that no one in all history has ever seen, heard, felt or smelt? Or an Identity fanatic, who will persist in claiming that the mythical "Ten Lost Tribes of Israel" populated Europe in short order and are our ancestors, when every piece of archaeological evidence, every written manuscript of history, categorically refutes such nonsense?

We Creators are sick and tired of putting up with such idiots who will indulge in such obvious insanities, and expect that we will "respect" their "beliefs".

Frankly, we have no intention of doing so, or even tolerating such nonsense anymore than we intend to respect a Hindu's "belief" that cows are holy. Facts are facts, evidence is evidence, and nonsense is nonsense. Pity the poor bastard who can't tell the difference. We will use our intelligence and our good judgment in the area of religion just as we will in any other. We will praise and commend good common sense, and we will ridicule and condemn any person, idea or movement that we find is based on nothing more than a nonsensical "belief".

But let us look further into the claims and character of the prestigious Rev. Richard Butler.

Recently a young man came all the way from the state of Washington to visit us at our World Headquarters. He had been working with the Jews in Hollywood when he slowly became aware of what an odious and repugnant bunch they were, which, in turn, alerted his racial consciousness. Moving to Spokane, Washington, he became aware of the Aryan Nations group, who further aroused his racial loyalty. Someone gave him a copy of *The White Man's Bible*, which he read with considerable interest. When he asked the Rev. Butler about this book, the latter, avid Christian that he is, immediately responded with contempt, "Oh, Klassen, he's a Jew! He's an atheist! He's got to be a Jew!"

Now, Christians brag about their veracity, their kindness and charity. The Rev. Butler flagrantly violated all these tenets out of hand, without giving it a second thought, confirming what I have always contended: **Never trust a Christian. Anyone who would lie to himself will repeatedly lie to others.**

The facts are Klassen is a CREATOR, not an atheist, anymore than Butler is an infidel dog (according to the Moslem view). Nor is Klassen a Jew, anymore than Butler is a black nigger. (Should Butler, in fact, be a nigger, I will retract that statement.) The Rev. Butler had every opportunity in the world to check my racial genealogy before disseminating such a derogatory lie. But he didn't bother. He evidently felt he had to protect his "Identity" hang-up at all costs, and lying about someone else evidently presented no problem. As I said before — anyone who will lie to himself....

There are those confused and well meaning individuals who will say — let's not bring up religion. Let's all just get together and fight the Jews. Maybe even the niggers and the Mexicans. Everyone's "religious faith" is a private matter and let's leave well enough alone.

Sounds good. But it doesn't work that way. Anyone's private "faith" is very much a concern in a life and death battle for the survival of our race. For instance, would you join hands with a White Man whose "private faith" was communism? Or if he belonged to the Black Muslims? Or if he was a dedicated Mooney? Or if he embraced Judaism? Or, like Jerry Falwell and his ilk, was an Israel-Firster?

No, I would not. There is nothing more dangerous than having a schizophrenic with a split loyalty in your ranks and having to depend on him in time of crisis. And that is exactly what the Identity crowd is. They are hypocrites with a dual loyalty that is split between loyalty to the White Race and loyalty to Jewish Christianity, two diametrically opposed concepts that are fundamentally hostile to each other. The Billy Grahams, the Jerry Falwells and the rest of their ilk, at least we know where they stand, and we won't ever entertain any trust in them. But the Identity crowd is even more dangerous because they would deceive us by pretending they are on our side. But we Creators don't believe them. Comes der Crunch, and they will opt for the rapture, Jesus Christ, Yahweh and all the rest of that clutter. So we are their enemies, and they are ours. The sooner we realize this, the clearer will be our thinking, and the better off we will all be. I have no illusions about straightening out the confused clutter in the minds of such as the Rev. Richard Butler. Like concrete, their minds are all mixed up and hard set. He and his kind are a lost cause. However, it is the younger set like the young man that came to us, whose minds are still open and receptive, it is to these we appeal.

We say to them: dump all this Jewish Christianity and its accompanying garbage. Join with us in a rational hard-hitting White racial religion that is dedicated to the survival, expansion and advancement of the White Race, and the White Race alone. It is well structured, it is clear, it is complete,

it is comprehensive. It is specifically designed to overcome the treacherous Jewish network and again make the White Race the pride and epitome of Nature's Realm.

Can we do it? You damn right we can, and we will. We now have in our hands the blueprint and the tools to do it with. If we distribute and place in the hands of our White Racial Comrades as few as 10 million copies of our White Man's Bibles, not only the battle, but also the whole war will be won, once and for all. And believe me, it will be the biggest bargain the White Race ever bought for itself. We spend more in one day, than the 10 million Bibles would cost, on subsidizing the free-loading niggers in our midst, not to mention Israel, the Jews and all the other parasites on a global scale.

Once the CREATIVITY idea has permeated the White Man's mind, the battle will be over for all time. We will then be able to save our ecology, save our land, save our planet and get on with the long term job of up-breeding and advancement of our precious race.

We have ample means with which to do the job — so let's get with it! (Read again Issue No. 9, "We Are Not Helpless," in EXPAN-DING CREATIVITY.)

Before the White Race can ever organize a steamroller movement of any kind it has to polarize around a racial religious core. Creativity is the Answer.

Identity vs. Creativity

A Comparison

A. Basis of Belief.

The Identity movement is a fragmented, loose and scattered conglomerate, and no specific set of beliefs would accurately characterize all of its many parts. The best we can do, therefore, is to generalize, and in so doing we can state two beliefs that the many fragmentary groups have in common; (a) They strongly espouse Jewish Christianity as portrayed in the Old and New Testaments, and (b) the peculiar twist that the "Ten Lost Tribes of Israel" wandered into, and populated Europe, something not even remotely suggested by either the Old or New Testament, and most emphatically repudiated by all authentic history to which we are heir in today's civilization.

These two beliefs are both based on pure fantasy and absolute nonsense. Furthermore, they completely contradict one another. Anyone who believes in the Jewish Bible (O. T. & N. T.) can hardly come to such an absurd and paradoxical conclusion. In fact, the whole reasoning process here exemplifies some bizarre mental gymnastics, and defies all logic. Starting with an unsubstantiated hypothesis (the spooks in the sky theory) it is followed by a non-sequitur (that the historic Europeans are the "Ten Lost Tribes of Israel", whose historic existence is extremely questionable in the first place).

CREATIVITY on the other hand is based on Logic and Common Sense, the Eternal Laws of Nature, and a critical study of past history. It faces reality and accepts the facts of life and the universe as they are. It seeks through logic and reason to build a better life for our race and future progeny.

B. Goals and Objectives.

Again, the goals of the Identity people are fuzzy and clouded, but can be best described as (a) fighting for the survival of the White Race, and (b) the spreading of Jewish Christianity. The ultimate goal, it would seem, would be to have the White Race again ruling America and the world with Christianity being the dominant power over the White Race (and the world), not unlike the tyrannical power it once wielded during the Dark Ages.

CREATIVITY'S goals have been spelled out repeatedly, and they are: The survival, expansion and advancement of the White Race, with ultimately the White Race inhabiting (solely) this Planet Earth, devoid of mud races. This can be further expanded into the Twenty Points of Creativity, as set forth in the end of this book.

C. Racial Attitude.

Here the Identity movement and Creativity have much common ground. Identity preaches White Supremacy, whereas Creativity goes one step further and advocates not White Supremacy, but completely White hegemony and exclusive possession of all the good lands of this Planet Earth.

D. Organizational Structure.

The Identity movement is a loose conglomerate of many parts with no central point of focus, and little coordination.

The Church of the Creator has its World Center near Otto, North Carolina and its organization is based on the Leadership Principle. It has ordained ministers who represent the creed and program of the Church in most States in this country, and also several foreign countries. Its creed and program are clearly spelled out in its *Three Basic Books*, and *Expanding Creativity*, *Building a Whiter and Brighter World*, and this book, *Rahowa!* Its creed and program are clear, comprehensive, consistent, complete and well-structured, covering the whole spectrum of eugenics, race, religion, morals, politics, economics and culture for the present and future welfare of the White Race.

British Israelism:

White Men in the Wilderness

By permission of Liberty Bell Magazine, Reedy, WV.

That part of the world which the Romans called Palestine was known as Canaan to its original inhabitants, a luckless people who were displaced from their homeland by twelve tribes of Hebrew-speaking invaders who employed the rather unedifying methods of conquest described in the Old Testament book of Joshua. After consolidating their gains, the Hebrews under the rule of Jereboam, around 900 B.C.E., divided themselves into a northern kingdom of Israel and a southern kingdom of Judah. Two centuries later, the ten tribes living in Israel became the notorious Ten Lost Tribes when they were carried off into captivity by the Assyrians. And thus came to pass a great mystery.

Perhaps the Gnostic heretic who held that the world was created by an evil demiurge was correct, because the truth concerning most supposedly great mysteries is usually either unpleasant or boring. The truth about the ten tribes, which falls into the latter category, is certainly no exception to this rule. Sensible historians have con-

cluded that the lost tribes were assimilated into the Assyrian nation, with what effect we do not know save for the fact that the Assyrians soon thereafter disappeared from history.

The boring facts, however, have not stopped various hopeful or imaginative people who have rushed forth with delightful nonsense in explanation of the Ten Lost Tribes. The Puritans, hopeful that they might have a chance to convert ten-twelfths of Jewry, believed at first that the American Indians were the errant Hebrews. Americus Symmes, son of John Cleves Symmes (1742-1814), and exponent of the hollow earth theory, fantasized that explorers in quest of confirmation for his father's theory would find that they had been anticipated by the missing tribes who had long ago discovered the inner earth to be an ideal redoubt against Assyrians, Babylonians, and Roman tax-collectors. Finally, more than one science fiction writer has found an extraterrestrial abode for the lost tribes, a whimsy that was possibly the literary projection of an earnest wish.

Most theories concerning the lost tribes are simply silly, but one, British-Israel or Anglo-Israelitism, is somewhat pernicious in its effects and should be exposed as such. The fourteenth edition of the *Encyclopaedia Britannica* includes the following definition of this theory: "Anglo-Israelitism, the contention that the English-speaking peoples are the descendants of the 'Ten Tribes' of Israel deported by Sargon of Assyria on the fall of Samaria in 721 B.C.E... Richard Brothers (1757-1824), the 'Nephew of the Almighty,' may be regarded as its first modern apostle." The dubious career of Brothers is further detailed in the article "Anglo-Israelitism" in the *Encyclopaedia of Religion and Ethics*, edited by James Hastings, published in 1908 and still the standard reference work in its field: "According to his account he was a Divinely appointed prophet. He described himself as a 'nephew of the Almighty,' and claimed descent from David. Among his prophecies were those of the imminent restoration of Israel to the Holy Land, and the elevation of himself as prince of the Hebrews and ruler of the world. Brothers was confined as a lunatic, but succeeded in obtaining many admirers..." Hastings next enumerated several good reasons why the theory is false.

British-Israel theorists, in the absence of sound evidence for their theory, have nonetheless persisted in demanding that it be accepted as a matter of faith. Surely this is a faith that recalls Tertullian's *Credo quia absurdum* because it defies all common sense. To see this, one need only ask how the Ten Lost Tribes could have wended their way from Israel all the way to the British Isles, a part of Europe that is far removed from Israel, without encountering the outraged resistance of people met along the way. How could they have subdued all those Celts and Teutons who were then occupying central and western Europe as their descendants do today?

The most recent generation of British-Israelites, who may have been troubled by this question in addition to seeking a wider potential audience, has come forth with a more extensive species of nonsense which they call "Identity." This fantasy equates Israel with all Europeans. The major objection to this revised theory, the fact that Celts and Teutons lived in Europe long before 721 B.C.E., is conveniently ignored.

The Celts not only lived in Europe around 1000 B.C.E., but also quite possibly had colonized portions of what is now New England. This is the thesis advanced by Barry Fell, an Australian biologist at Harvard, in his recently published book *America B.C.* Fell, an expert in Celtic languages and archaeology, has deciphered numerous rock carvings, mostly writings in the old Celtic ogam alphabet, which suggest that America was what the Celts call Iargalon, the land of the setting sun.

Even if Fell's theory is not accepted, however, the fact remains that Europe was the homeland of the Celts and Teutons long before the ten tribes were carried off from Israel. The amount of archaeological evidence that supports this statement would suffice to bury all "Identity" enthusiasts up to their eyebrows. However, this would be a pointless effort for they are the same kind of people as those who told T.H. Huxley that Satan invented fossils to tempt us to believe that the earth existed before 4004 B.C.E., the year which the great Anglican Archbishop Ussher had established as the beginning of Creation. Such people simply refuse to accept the evidence of their senses; it is too boring or painful for them.

Another serious objection to the "Identity" foolishness also meets with silence. This is the fact that European languages have no linguistic affinity with Hebrew. British-Israel fanatics have argued that Saxon is derived from "Isaac's sons." Actually, Saxon is derived from the Old English *seax*, a knife or dagger, which is akin to the Old High German *sahs*, a rock or stone. It is also a fact that Anglo-Saxon, a dialect of Old West Germanic, is so closely related to Old High German that a student who reads *Beowulf*, oldest poem in English literature, may with little more instruction also read the *Hildebrandslied*, the oldest poem in German literature. Furthermore, not only all Teutonic languages, but also all other European languages together with Sanskrit may be traced back to one primal Indo-European or Aryan language. The *Oxford English Dictionary* gives an etymology going back to Aryan roots for thousands of words in English. However, no Indo-European tongues can be traced back to Hebrew or any other Semitic language. We people of European descent have a unique linguistic heritage and, consequently, a unique mentality, a fact that we may forget only at our peril!

British-Israel would be simply silly if it were not also pernicious. One sentence from the Britannica article cited before offers words of warning that should be sufficient for the wise: "The theory, still held by over 2,000,000 people, materially assisted the settlement of Jews in England in the seventeenth century." The Jews, many of them usurers of course, had first entered England immediately after the Norman conquest in 1066, and were then expelled by decree of Edward I in 1290. Their usury, graphically described in Carlyle's *Past and Present* as well as Macaulay's *History of England*, was the major factor in their expulsion. Not surprisingly, the period following their expulsion was one during which England prospered and became the world's foremost power. The Elizabethan age needs little mention, but one fact is particularly salient as evidence of the prosperity enjoyed during this *Judenfrei* period: The real wages of the English workers did not again attain the level they had reached in 1500 until 1900! This is noted by economist Robert Heilbroner in his *The Making of Economic Society* (New York: 1962, P. 30). British-Israel's contribution to the re-entry of the Jews was an effort on behalf of the British people's undoing.

Some of the worst excesses of the industrial revolution in Britain were not unrelated to the readmission of the Jews. Many of the leading capitalists of Manchester were Sephardic Jews. Among them was Ricardo, a theorist of capitalism who was praised by Marx because he described the economic process without reference to ethical considerations, i.e., "bourgeois ideology." Another Jewish political economist and capitalist of Manchester was Nassau Senior, and it may be significant that one British-Israel tract, *British Israelites and the Ten Tribes* (1885), was authored by one H. W. J. Senior.

While the Jews' Bill, legislation to grant civil rights to the Jews, met considerable opposition, philo-Semitic illusions were so cultivated in England that it was almost another century before the British became alert to the type of Jew that has been given a classic portrayal in the character of Fagin in Charles Dickens' *Oliver Twist.* And while the insights of Sir Richard Burton's *The Jew, the Gypsy and El Islam* contributed to an increasing knowledge toward the end of the nineteenth century, this work's salutary effect counted for little against the romanticized Zionism that was extolled in novels such as George Eliot's *Daniel Deronda*. In fact, the impact of British-Israel extends to the Balfour Declaration and modern-day Israel itself.

Some advocates of "Identity" argue that they do not aid Zionism, rather combat it because they differentiate between the "true" Israelites, the supposedly European descendants of the ten tribes, and the Jews, descendants of Judah. The fact is, however, that there are fewer differences between Israelites and Judaeans than there are between Prussians and Bavarians, Scotchmen and Englishmen, or

Romans and Sicilians. The division between the northern and southern kingdoms, Israel and Judah, meant no more than, for example, the present-day division between North Dakota and South Dakota. It is likely that not even followers of "Identity" really believe in this specious distinction.

Most advocates of British-Israel, including the Worldwide Church of God, do not distinguish between Israelites and Jews, and continually urge their followers, mostly Americans of British descent, to support Zionist Israel. In this regard, they differ little from other bird-brained Bible-bangers, such as Billy Hargis and Billy Graham, who also admonish their followers to support Israel, advocate the admission to the U. S. of millions of Asiatic "refugees," and do whatever else they can to undermine and ultimately destroy this nation.

Fundamentalists in general — and British-Israel is merely an outgrowth of fundamentalism — have had an unrealistic image of the Jew and have accepted as literal fact the fanciful history of the Jews presented in the Old Testament. This gullibility arises from at least two factors, one geographical and one historical.

Geographically considered, most British-Americans were the first numerous element of the American populace to separate itself from the Old World. In their new wilderness homes, bereft of European cultural influences, they often had only the Bible for reading matter. Naturally, the outlandish Old Testament narratives appealed to their imaginations, and they attempted to find analogues for them in their daily experiences. After the Puritans, for example, gave up on converting the Indians, they came to regard them as hopelessly heathen Canaanites who were to be slain and have their lands occupied. The New England Abolitionists, John Brown most notoriously, tended to identify themselves with the prophets of the Old Testament, a fancy that may partly account for the overnight success of Julia Ward Howe's "Battle-Hymn of the Republic."

Awakened by the influx of eastern European immigrants, a number of prominent British-Americans did, nonetheless, become alert to the reality that is Judah. Particularly noteworthy are the following: Hawthorn, U. S. Grant, Clements, James Russell, Lowell, Henry James, Henry Adams, John Jay Chapman, Edison, Ford, Madison, Grant, Lothrop Stoddard, T. S. Elliot, Ezra Pound, and Ernest Hemingway.

Most British-Americans, especially the fundamentalists among them, remained, however, in the geographical and cultural backlands. **Such Anglo-Saxons lost in a wilderness of ignorance should be the first objects of the missionary efforts of those who have become enlightened to the depredations of the two tribes which did not vanish with the Assyrians.**

The magnitude of this task is only exceeded by its urgency.

A characteristic encomium oozing with Christian love and charity from a typical Identity Christian.

Dear Ben Klassen,

I hate your disgusting, foul guts. You must be a Jew.
No, you are a Devil. After all, that's what Jews are.
I have seen and read portions of your book.
I detest you and you should be burned alive or spat upon as an evil degenerate as you are.
You have said the most detestable things about God's Holy Race. The Aryan people who were created in the image of God — Yahweh.
I know you are either a devil or a traitor.

Your enemy,
God hates you,

Issue No. 33, March 1986

Let's Get Our Priorities Straight.

Planet Earth —

Our One and Only Home

The Space Boondoggle — There is nothing out there for us.

Approximately a quarter of a century ago the then charismatic President John F. Kennedy made a bold pronunciamento: *We would put a man on the moon before the end of the decade*. The speech was ballyhooed around the world. It was lauded and applauded as being brave, heroic, monumental, wise and heaped with a number of other panegyrical adjectives that would make this bumbling playboy seem like an heroic oracle from out of the pages of ancient history.

The race was on! We had to put a man on the moon before the Russians beat us to it! The nation was launched on a program more zealous than the pursuit of the Holy Grail.

Nine years and forty billion dollars later we did indeed put a man on the moon. We even brought back some moon rocks, that most holy of holies, back to Planet Earth, to presumably prove the astronauts had been there. For a while these rocks were regarded as a treasure more sacred than a splinter from the (supposed) cross on Calvary.

The Space Age had been launched and the American people were led to believe that we were now entering a new **Age of Discovery**, an age that would compare in significance with the Age of Discovery opened by Christopher Columbus nearly five centuries earlier.

In this respect, the hype and the promise of the Space Age was on a parallel with that launched by President Eisenhower's "Atoms for Peace" speech in December of 1953. (*See Issue No. 27 of Racial Loyalty, "Nuclear Pollution".*) Both epoch-making speeches,

Eisenhower's and Kennedy's, promised the American people much. Whereas promises are cheap, the reality is that it cost the White American taxpayers billions and billions of dollars, but only history will tell whether they were an epoch-making boon to mankind, or a treacherous rip-off on the American people. We can be sure of one thing: both speeches were written under the auspices of the Jewish powerhouse.

EVALUATION OF THE SPACE PROGRAM.

We Creators have only one yardstick for the evaluation of all programs, ideas, creeds, or whatever, and it is spelled out in Creative Credo No. 2 of The White Man's Bible. It is this: **Of what benefit is it to the White Race?**

More than forty years have gone by since we started developing rocketry and space flights in earnest following the end of World War II. More than twenty-five years have gone by since Kennedy delivered his epoch-making speech. More than fifteen years have gone by since we landed a man on the moon. (During the '60's it was oh, so urgent! that we "beat" the Russians in putting a man on the moon! Now, in 1986, the Russians still have not put a man on the moon, and who knows when, if ever, they will.)

After all this hoopla, hullabaloo, and hype, it is time now, in 1986, that we take a realistic appraisal of the space program, not from the Jewish point of view or of Hollywood theatrics, but from a cost/benefit ratio point of view, and especially from the White Man's point of view, the only one the Church of the Creator is concerned about.

We have spent one hell of a lot of money on the space program, probably more than a hundred billion dollars, paid mostly by the pro-ductive White American taxpayers. Outside of lavish promises of future benefits and glories, (reminiscent of the religious hucksters) what actual benefits have we, the American taxpayers, derived?

After last month's dramatic and catastrophic explosion of the Space Shuttle seventy-five seconds after lift-off at Cape Kennedy, I believe this is as good a time as any to ask that question. So here is a brief (but far from complete) summary of what has happened since we dramatically put Neil Armstrong on the moon in July of 1969.

We have made a few more flights to the moon, both manned and unmanned. No more have been made for many years. The moon rocks have been locked up in a vault, and as Andy Rooney pointed out on "60 Minutes" in January, nothing more has been heard of them, and nobody could care less.

We have made some spectacular and highly expensive forays into "outer space" (a glamorous term, isn't it?) to "explore" the other

planets of our own solar system and as I am writing this (last week of January 1986) our spaceship Voyager II is sailing past the outer planet Uranus, and has discovered (wonders of all wonders!) that Uranus has rings around it, and more moons than we had previous-ly anticipated. Isn't that wonderful?

Well, yes and no. I believe it is fantastic that our White scien-tists could put together such a complex (and highly expensive!) mechanism that could still function out there in the void and send back such intelligent and accurate data from the far reaches of the void, almost two billion miles away. To be able to do so, is utterly astounding and the highest of all accolades to the intelligence and creativity of the White scientists who have accomplished this feat. Having studied engineering, electricity and electronics myself forty some years ago, I can appreciate the complexity and enormity of the feat, and I repeat, it is truly astounding.

But we come back to the bottom line of the question: **Are the promised benefits real?** Could the amount of time and money have been spent on more beneficial goals for the White Race? Is there really a future in "space"?

THE POSITION OF THE CHURCH OF THE CREATOR.

We Creators take a damn dim view of the whole "space" pro-gram. Yes, it is interesting that there are 12 or 13 moons orbiting Uranus, some of them of an odd-ball shape. As an engineer, or as an amateur scientist, my curiosity is piqued. Yes, I subscribe to and read National Geographic, and have for 25 years, and as such I am also interested in reading about marine life at the bottom of some of our oceans; about pulsars and about "black holes"; about gigan-tic galaxies millions and even billions of light-years away out there in "outer space". Yes, it is all very interesting to read about, or speculate about. Yes, I am interested in science, its advancement and in the universe about us.

But — let us get our priorities straight. Whether Uranus has 12 or 13 moons, or no moons at all, is less important to me and most White Racial Comrades than if a family of uncouth niggers moves in on the next block. It is much less important than the fact that millions of illegal Mexicans are flooding across our borders from the South. It is less important than the fact that our children are for-cibly bused across town into nigger infested schools, and niggers in-to White schools. It is less important than the toxic chemical pollu-tion and nuclear pollution of our planet right here at home. (Read again "Saving Our Precious Planet from becoming a Poisonous Gar-bage Dump and a Human Pigsty", in Issue No. 26 and 27 of Racial Loyalty.) Considering the so-called "space-program" cost somewhere around a hundred billion of the White American taxpayer's dollars,

and will cost a lot more in the coming years, it is, in fact, a damned expensive boondoggle, and of little, if any benefit at all, to those of us that are paying for it.

True, a lot of large Jewish corporations that are part of the industrial-military complex are making a killing; true, we are advancing our technology and scientific knowledge; true, the technology learned can be utilized for military advantages; true, it has "produced" jobs; true, it is fascinating to read about; true, we have "plans" to put huge space-stations, a mile or so in diameter in orbit around the earth, which will presumably house whole integrated communities; true, we are developing the space shuttle, the latest edition of which just blew sky high into smithereens last month.

But are these values real, or are they merely specious? Let us examine them, one by one, from the White Man's point of view.

PROFIT.

This factor, profit, for Jew-owned corporations is, in fact, the prime driving factor for the whole space program. There is nothing so profitable (except printing money, as practiced by the Jew-owned Federal Reserve) and as secure as having government contracts granted for the production of military and/or space hardware. But the White taxpayers have to pay the bill for this cosy arrangement, and as usual, are the victims of this gigantic rip-off.

ADVANCING OUR TECHNOLOGY
AND SCIENTIFIC KNOWLEDGE.

Doing something that is unnecessary and superfluous in the first place is an expensive and roundabout way to acquire new technology. The same advancement could be achieved much more economically by scientific experiments other than producing a lot of expensive and complex hardware we don't need in the first place. Another question I want to elaborate on a little later is: Do we really need or want more sophisticated technology?

MILITARY UTILIZATION.

In the first place, the whole defense program against a specious enemy (Russia and communism) is as phoney as the whole space program itself. The Jews control the United States (and its supposed NATO allies of Western Europe) just as they do Soviet Russia and its communist satellites. (Read again "The Phoney Fight Ruse" in Issue No. 8 of Expanding Creativity.) If the White Man ever gets the Jew off his back and gets control of his own destiny, the need for wars and defense budgets will vanish overnight. There will no longer be any more need for 300 billion dollar "defense" budgets by which the American taxpayer is now being ripped off in a most treacherous

and deceitful manner.

JOBS.

Of course any "make work" ruse creates jobs. If we had a gang of hoodlums go around day after day smashing windows, it would create more jobs and business for glassiers and glass manufacturers. If we had another gang go around and burn down buildings, it would create more work and business for building contractors, carpenters, plumbers, electricians, etc. But is such "make work" really a constructive approach in a society that could be put to work much more productively producing useful and needed wealth? No, it is not. And the whole "space industry" is in the same category of useless endeavor spending untold billions producing something that is not needed in the first place.

EXCITING TO READ ABOUT.

We can read any number of science fiction stories that make just as interesting reading as do real spaceship adventures. The science fiction stories have one big advantage: they can be cranked out by the numerous imaginative writers at an infinitesimal fraction of the cost that taxpayers have to come up with to pay for all the unneeded hardware.

HUGE SPACE STATIONS IN ORBIT.

There is nothing more stupid and unpractical as the orbiting space stations that we hear so much about in "futuristic plans". We are told that soon we will have spaceships (or stations) a mile or more in diameter, furnished with apartments, stores, gardens, trees, electric power plants, presumably cars or other vehicles of transportation, all incapsulated in one huge spherical ball. This sphere, then, will orbit around the earth some three hundred miles out, as do the present TV broadcasting satellites.

These space stations would, presumably, be pressurized to maintain atmospheric pressure, and have exit and entrance doors that would allow people and materials to enter and exit and travel back and forth to earth via some sort of shuttle service. Since the people living in them would be subject to weightlessness, it would also have to revolve about its own axis to produce centrifugal force and the feel of "weight".

When we consider how utterly pointless such arrangements would be, and how terribly expensive and impractical, we wonder about the sanity of those "our leaders" who are boondoggling the taxpayers money. Consider the catastrophe one hostile rocket aimed at such a space station could produce and it would pale last month's space shuttle tragedy into insignificance.

SPACE SHUTTLE.

In the last few years we have heard much about the "wonderful success" of the space shuttle. What we have not heard much about is the terrible expense of these useless toys. To replace the one that just blew up at the Kennedy Space Center is estimated to cost approximately two billion dollars. **Two billion dollars! Do you realize how many niggers we could repatriate to Africa for two billion dollars?** Along this same line of thinking, for the 40 billion dollars we spent on putting a man on the moon in 1969, we could have comfortably shipped all of the then 35 million niggers back to Africa, and made them even like it. For the 100 billion dollars we have now spent on the "space program" we could even do it today, and we would all be one hell of a lot better off. (Read again "The Black Plague in our Midst" starting on Page 49, of *Nature's Eternal Religion*.)

And just what useful function are these space shuttles supposed to perform? For years I have been looking for a clue as to what useful purpose these imaginative bureaucrats have in mind, but I have never yet heard any specific need or plan that this vast boondoggle is supposed to achieve. True, the scientists dream up highly sophisticated (but idiotic) experiments that "can only be performed in space", or "by weightlessness", but they are children's games at best, playthings for scientists, again paid for at great expense by the overburdened White Taxpayer.

CONCLUSION.

1. BOONDOGGLE. The whole "space program" is highly reminiscent of the huge pyramid building programs of the Ancient Egyptians some four thousand years ago. To build the Great Pyramid of Cheops, for instance, it is estimated it took 100 thousand workers (or slaves) 20 or more years. Now the pyramid itself is a huge accomplishment and a magnificent monument to the Pharoah that had it built in his honor. So bully for him. But what about the poor slaves whose blood, sweat and tears went into the project — what did it benefit them, or the Egyptian nation as a whole? Damn little, and, in fact, it is the idiotic pyramid building that is suggested by some historians as contributing to Egypt's decline.

The present space program is similar. It is tremendously profitable for the big Jewish corporations that are granted government contracts. It is a lot of fun and games for a small coterie of scientists who like to see their projects and imaginative games put into reality, with, of course, somebody else's money. That money comes from the blood, sweat and tears of the (mostly) White American Taxpayers, on whose backs are loaded all the failures, rip-offs and shortcomings of the whole world.

2. There is **NOTHING OUT THERE** for us in Outer Space.

Any intelligent person who thinks this thing through cannot help but ponder the following facts:

(a) We know enough about the moon, and the planets (other than Earth) in our own solar system to realize that none of them are fit for human habitation. In fact, there are even parts of Planet Earth itself, such as the North and South Poles, that are extremely inhospitable for human habitation. So let's face it — there is no future for us out there on other planets in our solar system or on the moon.

(b) The next nearest place where more planets might be found is around the nearest star, which is four light years away, a long, long distance. It has been calculated that even if we developed such sophisticated rockets that could eventually accelerate to the speed of light, it would still take 300 thousand years to get there, and presumably another 300 thousand to get back. This is due to the fact that if such spaceships were manned by humans, they could only be accelerated at an acceptable rate until they achieved the speed of light, and at the other end, could only be slowed down at a similar acceptable rate.

Now to get a human species to be encapsulated in a spaceship of any kind for 600 thousand years, would take a lot of inbreeding and reproduction, something like 24 thousand generations, an idiotic conception, even if we disregarded the cruelty of the whole thing.

Then, if they did get there, (and the chances are incalculably small) perhaps one in a trillion that this one star, which although it may have planets orbiting about it, that any of them would be any more habitable than our own Jupiter, Mars, Venus, and what have you.

For the same far-fetched reasons, all this hoopla about intelligent beings in human form coming to visit us from outer space are similarly far-fetched fantasies of the imagination. They are, in fact, a replay of all this childish poppycock about "angels" flying around in the heavens above that the exuberant born-again Christians (and others) like to peddle.

It is all very unreal — in fact, it is meandering about in a fool's paradise.

(c) This Planet Earth is unique. As far as we know, (and we have accumulated a mass of information, especially in recent years) we are alone as an intelligent being in this vast and limitless universe. This may be frightening to some immature individuals, who yearn to adhere to the fantasy of a Father-God image taking care of us all. But fortunately, or unfortunately, evidence does not bear this out. The chances of another planet having all the millions of unique characteristics of temperature, atmosphere, water, oxygen, minerals, etc., in the same combination that produced life on Planet Earth,

them straight.

ORDER OF PRIORITIES FOR THE SURVIVAL OF THE WHITE RACE AS VIEWED BY THE CHURCH OF THE CREATOR.

1. The first order of business is to straighten out the confused and scrambled thinking of our White Racial Comrades.

2. The next order of business is to arouse, unite and organize the tremendous potential power of 500 million White peoples on this Planet Earth into one powerful battering ram and smash the Jewish parasite that is fastened on our backs, and take charge of our own destiny.

3. We must then organize our society for our own interests — our own survival, expansion and advancement. We believe this can best be done under the aegis of a White Racial religion such as Creativity. When we consider what wonders a racial religion has done for a small minority such as the parasitic Jew, we cannot help but conclude that it would work even more tremendous benefits for the creative genius of Nature's Finest.

4. Once in charge of **OUR OWN DESTINY**, we will have control of **OUR OWN** government, **OUR OWN** money system, **OUR OWN** system of education, entertainment, culture, religion and all the other parameters that make up a well-structured society. We can then proceed on **OUR OWN** terms and reshape the world to **OUR OWN** needs.

5. The most important step we can then take, (and must take!) is to cleanse our racially polluted society. This means shipping the niggers back to Africa, the Mexicans back to Mexico, the Jews to Israel. Although the latter have only the flimsiest of all claims to Palestine, nevertheless, we will concede this piece of desert to them, and send them to their alleged "homeland". Should this space prove inadequate for a larger horde of these parasites than they have led us to believe exists, then we will even let the excess masses overflow into the island of Madagascar. In any case, we must cleanse all White countries of all mud races, and especially history's most obnoxious and dangerous parasite.

6. The next step will then be to cleanse our natural environment of toxic and nuclear wastes before this planet becomes so befouled it is no longer fit to live in, or on. This, too, is a gigantic job and will take decades to complete.

7. Having accomplished this much we can then embark on the two final and most constructive steps: (a) putting our **Eugenics** program into practice and upgrading the physical, mental and eugenic qualities of our great and noble race, and (b) having stopped subsidizing the shrinking mud races, we will then slowly, surely and aggressively proceed to expand the territory of the White Race until all the good lands of this bountiful Planet Earth are re-settled by none other than Nature's Finest.

Comparative Religions — Part X

MORMONISM

A/K/A Church of Jesus Christ of Latter Day Saints

Mark Twain has observed that "*truth is stranger than fiction — it is just less popular.*" The Mormon religion is a case in point, and owes its existence to the coming together of a number of bizarre coincidences that were not likely to happen. Most strange of all, however, is the fact that the basic book of Mormonism was written by a man who had no intention of starting a religion, never heard of Mormonism and died fourteen years before the Mormon Church was founded in 1830.

THE THREE KEY ACTORS IN THE DRAMA

Solomon Spalding (1761-1816)

The story rightfully begins with a sometime Congregational preacher and part-time novelist named Solomon Spalding, who was born in Ashford, Connecticut on February 20, 1761. Although he was never too successful as a preacher, nor as a writer, nor as a businessman, yet, what he started more or less by accident would have ramifications that would reverberate into the 20th Century and far beyond.

Solomon Spalding was the third of ten children. His father, Josiah, joined the Revolutionary Army, and Solomon followed him on January 8, 1778 as a private. After the War, Spalding studied law in Windham, Connecticut, and later entered the prestigious Dartmouth College in preparation for the ministry, where he graduated with a Master's degree in 1785.

He became associated with the Windham Congregational Association in 1787, which at that time was one of the largest Congregational denominations in the eastern United States. He was ordained and remained an evangelist for about a decade, but finally quit the ministry because of ill health.

In 1795, he married Matilda Sabine and shortly thereafter moved to Cherry Valley, New York, to join a brother in the mercantile business. After several other not too successful ventures, Solomon and Matilda moved to Salem, Ohio, in 1809 in order to superintend a small property they owned, while also working at an iron forge.

As his health further deteriorated he began writing novels in an effort to earn a living.

When the War of 1812 began his business failed and the family moved to Pittsburgh in the hopes of printing and selling his second novel *Manuscript Found*, in order to help pay off their debts. Spalding and his wife then moved to Amity, near Pittsburgh, where living was less expensive and the climate hopefully more conducive to his now rapidly failing health. However, change of climate not withstanding, six weeks later on October 20, 1816 Solomon Spalding died.

Although desperately in need of money, Spalding never was able to sell *Manuscript Found*. He left it with a printer in Pittsburgh, who did not see fit to spend his own money printing it, but would print it if Spalding would pay the costs. There it remained at the time of Spalding's death, and for many years thereafter it lay there in Patterson's Print Shop, unwanted and unpublished.

Sidney Rigdon (1793-?)

The scenario now shifts to another set of characters. Working at this same Patterson's Print Shop in Pittsburgh was a man by the name of Sidney Rigdon, who was also a sometime preacher, and an unstable religious renegade of shifting ideologies. Somehow Spalding's unpublished manuscript fell into his hands (it is claimed he stole it from the print shop and copied it at home.)

Now Sidney Rigdon was a man of vivid imaginations and unstable character. As a boy, he had been thrown from a horse, his foot entangled in a stirrup and he was dragged some distance before he was freed. In the ensuing accident he received severe contusions of the brain that effected his mental stability and character ever after. Although his mental powers were not diminished, it did greatly affect his equilibrium and he was subject to running into wild visionary views on almost every question, and strangely enough, this focused in particular on religious hallucinations and visions.

Born on February 19, 1793, Rigdon joined the First Baptist Church in 1817 near his hometown of Liberty. He was ordained a year or two later and in 1822 he became minister of the First Baptist Church in Pittsburg. His ministry, however, was short lived and he was excommunicated on October 11, 1823 for teaching irregular doctrine.

This experience greatly embittered him. It was between 1823 and 1827 that his vivid and unstable imagination conceived the idea of converting Spalding's fictional novel into the "Holy Book" of a new religion and laying the basis of Mormonism.

Joseph Smith, Jr. (1805-1844)

The drama now shifts front stage and center to the "hero" of

our story, the alleged founder and prophet of the Mormon religion.

Joseph Smith Jr. was born on December 23, 1805, in Vermont, the third son of Joseph and Lucy Smith. When he was eleven his family moved to Palmyra, New York, where most of his family joined the Presbyterian Church.

The Smith family was a bizarre collection of individuals and was not well received by their neighbors when they moved to Palmyra. Both Joseph, Sr. and Joseph, Jr. had this droll obsession of digging for money and hidden treasure in the nearby hills and Indian mounds in the area. Both were in particular considered entirely destitute of moral character and addicted to vicious habits, according to an 1834 report.

Joseph, Jr. was an uneducated, (he only went to the fourth grade) uncouth character, slovenly in his manner of dress and had all the morals of an alley tomcat, as his later polygamous life-style was to prove. Before his untimely death at 39 he fornicated with at least 50 women that are on record and probably twice that many that are unrecorded.

He had one redeeming quality, however, that fitted him to become a spook peddler extraordinaire. Even in his younger years Joseph Smith, Jr. could lie fluently, skillfully and convincingly, and his imagination seemed to know no bounds. He was also subject to hallucinations and "visions" which he later managed to turn into a very useful tool in launching his new religion.

As a youth he, along with his father, were involved in such occultic pursuits as "glass-looking" and "crystal-gazing" and similar fortune-telling confidence games. In 1826, Joseph, Jr. was arrested, tried and convicted for the crime of defrauding a local victim by means of a "glass-looking" con-game.

From the combination of these three rather odd and bizarre characters was launched the mighty, affluent and powerful Mormon Empire that exists today. With truth still as unpopular as it was in Mark Twain's day, and with superstition and gullibility still as rife and rampant as it was five thousand years ago in the day of the Ancient Egyptians, Mormonism flourishes today as never before.

Here is a concise summary of the material wealth that Empire has accumulated today.

THE MORMON EMPIRE TODAY

On this sleazy and fraudulent foundation was built the ramparts of a huge financial and religious empire that now encircles the world. Considering that all three actors, Spalding, Rigdon and Smith, were financially incompetent and existing on the edge of poverty during most of their lives, truth is indeed stranger than fiction.

Let us now briefly recapitulate the formidable financial wealth of the Mormon Empire as it exists today. Here is a thumbnail sketch of some (but not all) of its assets:

GROWTH OF THE MORMON CHURCH.

Again, when we consider the bizarre and deceitful origins of

the whole Mormon "faith" and the circumstances that conspired to foment it, the growth of this cult has been phenomenal, to say the least. Here is an historical chronology of its growth since its beginning from 30 members in 1830.

In 1900	268,331
1920	526,032
1940	862,664
1960	1,693,180
1981	4,800,000

The present (1986) membership is estimated at 5.6 million and expanding rapidly. The projected figure by the Mormon Church for the year 2000 is 8 million, but with the fact that it is now going multiracial with a vengeance they will undoubtedly far exceed that figure, and will soon become one of the largest and most powerful religions in the world as it tends to cooperate and meld itself more and more with Judaism, the historical enemy of the White Race.

SHORT HISTORY.

We have already sketched the origins of the Mormon creed and find it is based on Solomon Spalding's fictional novel *Manuscript Found*. This was then picked up by Sidney Rigdon in Patterson's Print Shop in Pittsburgh several years after Spalding's death. Evidence points strongly that **Rigdon deserves the credit for conceiving the idea of Mormonism and converting Spalding's Manuscript Found into a new religion.** He then sold the idea to Joseph Smith, Jr., whose more vocal and flamboyant talents were utilized to spearhead and promote the new religion.

It was during the years 1827-30 that this ambitious pair got their act together and began to put their conspiracy into operation. Rigdon and Smith did their best to keep their contacts a secret in order to not arouse any suspicions about Spalding's manuscript. (The Mormon Church too, has tried to camouflage this relationship, pretending that Rigdon joined the church in 1830 only after it was organized, and that the pair did not know each other before. Despite all these precautions, and denials, however, the evidence is overwhelming regarding their previous relationship and the fact that Spalding's manuscript was utilized as the basis for the *Book of Mormon*.)

Joseph Smith's story claimed he had had several "visions" and was told by the Angel Moroni to dig up a set of "golden plates" buried in a hill nearby. These "plates" were to "reveal" the true story of the peoples on the North American Continent and set the record straight. What Smith actually did was sit behind a curtain and dictate from Spalding's fictional novel to his "scribes," making suitable innovations and changes here and there to give it the flavor of a "new"

religion. In tailoring the manuscript to fit the new religion much of the editing and detail work was actually done by Rigdon beforehand, with Smith picking it up from there. But basically the story was, and remained, Spalding's *Manuscript Found*. The "golden plates" then mysteriously and conveniently disappeared. No one else saw them except three, then eight, of his followers, and then only in "a vision."

(However, no problem. In 1979, I visited the Mormon Museum at Nauvoo, Illinois, where in a beautiful glass case they displayed a "replica" of the visionary golden plates.)

Be that as it may, the Church of Jesus Christ of Latter Day Saints was organized on April 6, 1830 and was incorporated later that same year. Spalding, who was too poor to have his *Manuscript Found* printed during his lifetime, would have been astonished to see the final outcome. In slightly modified form it was now printed up as the *Book of Mormon*, and the printing was paid for by Martin Harris, one of the original six founding members.

Mormonism now was off and running. It had a creed, a bible, and an extremely loquacious con-artist as its "prophet." By the end of the first month it had 40 members and soon grew by leaps and bounds.

One of the major incentives that initially helped to spread and popularize the movement in the 1830's was the fact that the Mormons advocated and condoned polygamy. It was this practice, however, that also aroused the bitter hatred and violent opposition from other religions who were in fierce competition with Mormonism.

There is one other peculiarity that Mormonism had to offer in the way of promises "in the hereafter" that topped those of its rivals. All spookcraft religions are based on lavish promises of rewards, and dire threats of punishments, in the hereafter (a shoddy practice which needs no collateral to back it up). However, whereas the regular Christian sects promise their subservient followers that they will become "angels," fluttering about in a nebulous heaven after death, the Mormons went them one gambit better. The Mormon Church promises their faithful that they will become not subservient angels, but gods in their own right. Each will rule as a god over the untold trillions of worlds out there in the endless universe. Now there, as the head of the Mafiosa said, is an offer you can't refuse. At least, it is extremely difficult to top. Promises, promises, promises.

In the meantime, the Mormon Church continues to increasingly extract millions and billions, most efficiently and ruthlessly, from its deluded victims. By 1976 it was on record as taking in one million dollars a day. By now that figure has easily doubled and is rapidly ballooning. In return it offers only promises — pie-in-the-sky, and like a true con-man implores its victims: TRUST ME! Without having to deliver two cents worth of any real product in return, it

continues to fill and over-fill its bulging coffers with worldly wealth. Not only pecuniary wealth, but also, control, power and domination over the human mind and body.

CONCLUSION.

From these sordid and surreptitious beginnings was spawned a worldwide empire, whose wealth, power and magnitude we have already delineated. Had the church maintained its course of White racial purity with which it began, we could assume that despite its deceptions it was at least more beneficial to the White Race than its rival Jewish-Christian religions. But that is not the case. For the last several decades the Mormons have been moving closer and closer to the Jews, citing their background of persecution as a common bond. But the fact is the Jews were already inside the tent at its very beginnings as we have already shown in the "Aloha" article of *Racial Loyalty No. 23*. In this, we pointed out that as early as 1841, Orson Hyde, an undercover Jew, became one of the Twelve Apostles, and Joseph Smith himself sent Hyde to Palestine to dedicate that unfortunate Arab state to the future piracy of the Jewish conspiracy.

The Jewish influence and control has now surfaced more virulent than ever in recent years, when the late President Spencer W. Kimball had one of his modern day "visions" and proclaimed on June 7, 1978 that his new "revelation from the Lord" instructed him to now take the mud peoples into the priesthood. (How do you create a "vision"? You just close your eyes and lie like hell.) That Jewish takeover became more openly obvious and the Mormons are now one of the most aggressive proselytizers of race-mixing of any of the modern religions embraced by the White Race.

There is however, one thing, we can learn from the Mormons, and that is from their methods of proselytizing and promotion. We can also take comfort in the thought that if such a flimsy set of fraudulent beliefs can build such a wealthy and powerful world religion, just think what can be done with a religious creed and program that is built on the Eternal Laws of Nature, Historic Fact and on Logic and Common Sense. Give us your loyalty and support and I am sure that the glorious and best interests of the White Race will not only prevail, but encompass all that is worthwhile on this dear old Planet Earth.

Yes, we too, have "visions," but unlike the Mormon hierarchy, we don't close our eyes and then lie like hell, in order to conjure up a vision. We look at the world with open eyes, learn from history and learn from Nature, then use our intelligence, apply logic and common sense to accrue to the best interest of our race, in our unending pursuit of building a Whiter and Brighter World.

Truth is indeed stranger than fiction. It may also be less popular, as Mark Twain has noted, but it has one redeeming advantage — it is also more powerful. It has this tenacious habit of persistence. Just as the flat-worlders finally had to yield to the fact the world is round, so the truth keeps coming back again and again to haunt the liars and the deluded and in the end it will prevail.

Mormonism vs. Creativity
A Comparison

A. Basis of Belief.

The Mormons claim they are Christians and believe in the Christian Bible. "Mainstream" Christians deny that Mormons belong to the Christian religion and want no part of their teachings, since Mormons idolize Joseph Smith above Jesus Christ, and the Book of Mormon above the Jewish-Christian Bible. Mormons ignore this accusation and claim that they believe in the Bible, as far as "the word" has been correctly handed down and translated, inferring that neither has been done. They therefore claim that since the old Bible has gone astray, God chose Joseph Smith as his modern day prophet to bring God's word up to date and set the record straight.

However, any resemblance between the Book of Mormon and the Jewish-Christian Bible is about as coincidental as the similarity between Mother Goose stories and Alice in Wonderland, except that all are purely fictional, and the former two are much more boring than the latter two.

The story as told in the Book of Mormon is a dull, listless tale about some ancient peoples migrating to the North American Continent in some bygone era. They then split into factions and battled each other into extinction. All of this is completely contrary to any historical evidence, or even a plausible likelihood. What moral principles, if any, that could possibly be derived from such a long-winded, pointless story is hard to fathom.

The creed of its faith is set forth in its Three Basic Books: *The Book of Mormon, The Pearl of Great Price, and The Doctrine and Covenants.*

CREATIVITY, in contrast, takes a long hard look at the factual events of history as they unravelled in a world of reality, and how it affects the welfare and future of the White Race. It seeks to benefit from the lessons of history; to learn from the Eternal Laws of Nature; to utilize our intelligence and common sense in order to build a better and brighter world for the future generations of our race.

B. Goals and Objectives.

Despite any pious shibboleths the Mormon Church may profess, its actions speak louder than any devious claims they may proffer. What the church obviously is doing is building wealth and power, not in heaven, but here on Earth. It is accumulating billions in wealth — real estate, banks, money, insurance companies, stocks and bonds and building an expanding power structure. They are doing what the Jews, the Catholic Church and numerous other deceitful tyrants have

been doing throughout history — grasping for wealth and power, regardless of whom they have to trample on, victimize and/or rip-off.

CREATIVITY'S goals have been spelled out repeatedly, and they are: the Survival, Expansion and Advancement of the White Race, with the White Race ultimately inhabiting (solely) this Planet Earth, devoid of mud races. In short, building a Whiter and Brighter World, as summarized in the 20 points of Creativity spelled out in *Racial Loyalty No. 31*, and also at the end of this book.

C. Racial Attitude.

To the credit of the Mormon Church, the early founders pursued a course of White racial purity and continued to do so until very recently. But in the last few decades, and even more stridently so since 1978 when the late President Spencer W. Kimball had a new "revelation," the Mormon Church has now gone all out for race-mixing, even more virulently so than both the liberal and "fundamentalist" Christian churches. (*See Racial Loyalty No. 23, "Aloha to you, too, Kamaaina!"*)

The heart of the CREATIVITY movement is the Survival, Expansion and Advancement of the White Race, and its further genetic upgrading by implementing a sound, no-nonsense Eugenics program.

D. Organization Structure.

The Mormon Church has an extremely well-structured and organized system of not only recruiting new members, but also of constantly keeping on top of its members, keeping them in line and extracting the maximum amount of tithes and services out of them. The governing body consists of a Board of Twelve Elders or Apostles, headed by the President, which today is Ezra Taft Benson. The world headquarters are in Salt Lake City, Utah.

The Church of the Creator has its world headquarters near Otto, North Carolina, and its organization is based on the Leadership Principle, with the Pontifex Maximus at the head. It has ordained ministers who represent the creed and program of the Church in most of the States of this country, and also several foreign countries. Its creed and program are clearly spelled out in its *Three Basic Books*, and *Expanding Creativity*, a supplement. Its creed and program are clear, comprehensive, consistent, complete and well-structured, covering the whole spectrum of eugenics, race, religion, morals, politics, economics and culture for the present and future welfare of the White Race.

From an organizational and expansion point of view the Church of the Creator can learn much from the Mormon Church, especially its door-to-door canvassing, and sending out its young missionaries to spread the word.

Issue No. 34, April 1986

Remember the Alamo!

Crossing the Line

Above all, REMEMBER DRESDEN! Let us make sure we avenge this horrendous outrage against the White Race as well as thousands of other unavenged Jewish atrocities.

In this year of 1986 of the Common Era the Great State of Texas is celebrating its Sesquicentennial Year with a true Texas flair. Whereas the whole year is dedicated to the celebration, the sacred day is March 6th, and the sacred place is the Alamo. It was on this date and place that marked the fall of the Alamo, when General Santa Anna's hordes of six thousand hate-crazed Mexican mongrels overran and massacred the 182 White American heroes who made their stand to fight or die for Texas. It was this heroic event that enraged and inspired the White settlers of Texas with a smouldering fury that culminated in their freedom and independence from alien tyranny. It laid the foundation for the birth of the Republic of Texas 150 years ago. The year was 1836.

For 12 days this little band of American volunteers held off Santa Anna and his hordes. Santa Anna had sworn to clear Texas of the rebellious "Anglos," and teach them a lesson they would never forget. While the siege at the Alamo was going on, the American frontiersmen, superior sharpshooters that they were, exacted a heavy toll from the Mexican attackers, inflicting hundreds of casualties, without suffering a single casualty themselves. Among these heroic frontiersmen were such legendary figures as Jim Bowie, Davy Crockett, and leader of this gallant band, 27 year old Col. William B. Travis, the latter being a G.T.T. (Gone To Texas, usually to escape domestic problems at home) from Alabama.

While inflicting heavy casualties on the besieging Mexicans, nevertheless, the defenders inside the walls were racked by shot and shell, by cannonading and steady encroachment of Santa Anna's far superior forces. Food and ammunition were running out. Col. Travis' repeated appeals for outside help had failed, except for a small but

brave contingent of 32 men from Gonzales, who arrived on the 9th day of the siege. Their small numbers could mean little in the final outcome, and the incoming volunteers knew it. With the 32, it only brought the total number of defenders to 183. The men in the Alamo knew they were doomed and that there was no alternative.

On the evening of March 3rd during a lull in Mexican cannonading, Col. Travis assembled his men for a conference. In an impassioned speech he told them what they already knew — they were doomed. It was now a matter of HOW they died. Dramatically and filled with emotional fervor he took his sword and drew a long line across the dirt floor of the fort. He gave the men a choice. They could cross the line and die fighting, die a hero's death, or they could surrender, or they could try to escape under the cover of the coming night and take their chances.

One hundred and eighty-two men did cross the line and vowed to fight unto death. Only one, a certain Moses Rose, did not cross the line. He did make good his escape that night. He made his way to Nacogdoches and lived to later tell the story.

Meanwhile, 140 miles east of the Alamo, at a little collection of a dozen or so log houses called Washington-on-the-Brazos, another significant drama was unfolding. On March 2nd, the day before Col. Travis asked his men to cross the line, a group of fledgling politicians after much confusion and divisiveness, had drawn up a Declaration of Independence for the now declared Republic of Texas, and had affixed their signatures thereto. It said in part "We therefore, the delegates...do now constitute a free, sovereign and independent republic..." Texas was born, and March 2nd constitutes the second most revered date in the history of Texas.

* * * * *

Among the delegates at Washington-on-the-Brazos was Sam Houston. The first of Col. Travis' messages for help had arrived on February 29th, the same day Houston had arrived at the now assembling convention. Travis' second courier arrived on March 3rd., and the plea was urgent and bugle-clear, send reinforcements now or we will be slaughtered. Panic ensued at the convention and delegate Robert Potter took the floor. He impetuously called for all of his colleagues to rush to their horses and speed at once for the Alamo. A dozen men leaped to their feet and cheered.

Sam Houston kept his calm. He let the storm beat about him for awhile then calmly explained that until Texas had a legally constituted government they all were no more than the pirates the Mexican government claimed they were. Being the astute politician and general that he was, he realized that until and unless the Texans got their own act together, organized, and conserved their strength to be applied at a time and place of their own choosing, they were lost.

It was an unpopular and one of the most painful decisions he had to make. Like many another general, he had to declare men he loved expendable. But as we shall see a few weeks later, it was one of his most brilliant and most courageous decisions, and saved the Republic of Texas.

Meanwhile, no further help was sent to save the gallant band of defenders at the Alamo.

* * * * *

Col. William B. Travis, having made the emotional appeal to his men and having been given their overwhelming confidence and support, was now a calm and serene leader. Gone was the emotional turmoil, the indecisiveness of the previous days. The decision he and his men had made was not one of despair, but one of action, of clarity and of heroism.

Travis exhorted his men further. “Let us resolve to withstand our adversaries to the last, and at each advance to kill as many of them as possible. And when at last they shall storm our fortress, let us kill them as they come! Kill them as they scale our wall! Kill them as they leap within! Kill them as they raise their weapons and as they use them! Kill them as they kill our companions! And continue to kill them as long as one of us shall remain alive!...”

The men of the Alamo had made their choice and they were content with it. **They had crossed the line.**

Three days later, on the morning of March 6th, Santa Anna had decided he would storm the fort, scale the walls with ladders and quickly end the stalemate by killing all the gringos inside. His buglers played the “Deguello” a primitive and ancient Moorish march signalling that no quarter would be given, no prisoners taken alive. It was the musical equivalent of the red flag of no mercy Santa Anna had hoisted atop the bell tower of the nearby San Fernando Church.

There was no misunderstanding of its meaning by either side.

The assault began at approximately four o’clock in the morning. By nine o’clock it was all over. But the heroes of the Alamo did not die cheaply. They extracted a heavy toll from their enemy. For the 182 dead there lay on the grounds of the fort and surrounding battlefield another 1,600 dead Mexicans, a price of nearly nine to one.

Nor did they die in vain. The massacre at the Alamo struck the settlers of Texas like a thunderclap: It aroused in them a deep, seething anger — an unquenchable desire for revenge. It united them as nothing else could. Their day would come approximately six weeks later. Their battle-cry: Remember the Alamo!

* * * * *

The slaughter at San Antonio aroused fear and panic among the White settlers of Texas as they deserted their farms and fled

eastward before the sweep of Santa Anna's three armies. Sam Houston had been designated as "General" of a non-existent army by the convention and managed to gather a rag-tag group of eight hundred undisciplined volunteers. As they, too, fled eastward, confidence in his leadership waned. As they fled towards the Louisiana border his men began to wonder out loud whether he would ever fight, or whether he was too cowardly to do so. But Houston calmly bided his time and did not even bother to explain himself. On the afternoon of April 21st on a swampy coastal plain known as San Jacinto, he decided to strike.

General Santa Anna's army of 1,250 regulars were encamped about a mile away and were enjoying their drowsy mid-afternoon siesta, when the Texans emerged from their hidden position behind trees opposite the Mexican camp. The enraged Texans charged into the Mexicans as if they were a band of sheep. In the next 18 minutes more than six hundred Mexicans were killed and every one of the enemy captured, including Santa Anna himself. The revenge-bent Texans continued to kill long after all organized resistance ceased.

Compared to the Mexicans, the Texan's losses were light: nine men dead, 26 wounded.

They did beautifully what every White Man must learn to do — exact a heavy price for every sacrifice on our side. They exacted a toll of approximately 33 dead Mexicans for every one of theirs.

They not only had avenged the Alamo, but they had decisively won their independence from the Mexicans. The infant Republic of Texas was saved.

* * * * *

These historic events occurred 150 years ago. Last week my wife and I were coming back from Arizona and during that first week in March we drove through Texas. On March 2nd, I picked up a copy of the *Dallas Times Herald*, their Sunday edition. It was largely devoted to celebrating the Texas Sesquicentennial and referred to many of these historic events of 1836 I have related in the previous paragraphs. However, the spirit was missing. In fact, on reviewing the many pages I found much of the paper was filled with advertising of Jewish department stores, of motels, of Texas boots and other commercial paraphernalia. But it was the article about Texas itself, however, and its past and present history, that was most depressing. I got the feeling that present-day Texas, affluent, powerful and overpopulated, is sick, very sick, as is the rest of this formerly great United States of America.

The stories about the Alamo, about the Declaration of Independence, about Houston, about the Battle of San Jacinto, all were slanted in such a way as to emasculate the heroism of the White

Texans and denigrate them more or less into commonplace louts. Instead of extolling and glorifying their acts of heroism, the stories detailed the "Mexican version" of these battles, and how they perceived the Anglos as thieving gringos and villains.

Whereas the whole paper was devoted to celebrating the Texas Sesquicentennial, it also had a big Sunday Supplement entitled "A TEXAS PORTRAIT — In Celebration of the Sesquicentennial." Looking more closely into the inside pages it would be hard to tell just what the paper was celebrating — whether the successful fight for Independence from Mexico 150 years ago, or the successful conquest of Texas by Mexicans in 1986. Any discerning reader could not help but conclude that the good news the paper was applauding was the present day take-over of Texas by Mexicans, a direct reversal of what happened during the heroic events of 1836.

But it did much more. It repeatedly kept talking of the "coming changes"; of how the Hispanics (the good guys) were preparing for leadership of the coming change, for, of course, they were the wave of the future, and wasn't it all wonderful?

One article said, "New Leaders say they're ready." Then it listed Hispanic groups in Dallas. Here is a sampling:

- Chicanos Actively United For Social Advancement.
- DISD Hispanic Advisory Committee.
- Coalition of Hispanic Organizations, an umbrella group comprising 17 Hispanic organizations in Dallas.
- Dallas Hispanic Chamber of Commerce, a member organization of Hispanic-owned Businesses.
- League of United Latin American Citizens (LULAC).
- Association of Mexican-American Professionals (AMAP).
- Ledbetter Neighborhood Association.
- Maple Avenue Redevelopment Association.
- Dallas Hispanic Issues Forum.
- Mexican-American Professional and Business Women (MAPBW).

Another article was headed "Project MALDEF aims to put Hispanics in Leadership Roles." It referred to Jose Gonzales, who remembered how he was once discriminated against in a swimming pool controversy at Dallas Pike Park, "once an all-Anglo playground." But today, our hero, now 51, directs the Leadership Development and Advocacy Program of MALDEF (Mexican-American Legal Defense and Educational Fund) most of whose "funds" are undoubtedly funded by White American taxpayers, pipelined to the Mexicans through our treacherous JOG government.

The program is scheduling a six month's class of 20 sessions that covers a variety of topics, all slanted toward helping the take-over of an American city by Mexicans. The topics include:

* Hispanic issues: education, housing and health, employment, hunger in Dallas, political participation;
* Health systems in Dallas county and how those systems relate to the Hispanic community;
* The structure of city, county and state governments (a trip to the state capitol to learn about state boards is slated for April);
* The responsibility and role of being a board member on a city or county commission;
* Political and grass-roots advocacy;
* Minority perspectives in urban growth;
* Management and time-planning skills;
* How to be an effective-public speaker;
* Fund raising and effective use of the media.

This is a thumbnail sketch of what is happening in just the one City of Dallas. But the same thing is happening even more aggressively in El Paso, Houston, Austin and all over the state. In fact, San Antonio where the Alamo is located and the action that gave birth to the Republic of Texas took place, now has a Hispanic mayor.

The fact is Texas is being taken over in toto by the mongrel Indian-Mexicans, who hate the White people (not just Anglos) just as fiercely as did Santa Anna's cutthroats of 150 years ago.

Yes, poor Texas. It has the longest border in common with Mexico of any state, and it is suffering and suffering badly from a festering ulcer along its soft underbelly. (Read again *Racial Loyalty No. 27.*)

But Texas is not the exception. The Mexicans are taking over California, Arizona, New Mexico and the whole Southwest. They are even establishing major colonies in many other parts of the country, such as Chicago.

But whereas the Mexicans are now allowed to run wild and freely across our borders, they are not the only hordes that are coming into our once White United States and polluting our land into a racial quagmire. The Vietnamese are coming in, the Chinese, the Japanese, the Hindus, the mongrels from South and Central America, the Pakis, and a slew of other degenerate and hungry mud races are flooding into the United States. (Read again, "THE TICKING TIME BOMB" *Racial Loyalty No. 31.*)

Internally, our JOG establishment is promoting the hell out of the expansion of the hordes of existing niggers, Indians and other indigent scum. Through welfare, food stamps, affirmative action and a passel of other government subsidies it is explosively expanding the mud races and crowding out the White Man, who built it all and whose tax dollars are now paying for his own demise.

* * * * *

Behind it all is the international Jewish network that is in charge of the whole treacherous program of exterminating the White Race.

When we survey the worldwide picture there are many other atrocities that the White Race has suffered other than the Alamo, most of which, unlike the Alamo, have never been avenged. There is for instance the Civil War, a horrible disaster, engineered by the Jewish House of Rothchild. It was perpetrated not to free the niggers (whom the Jews detest) but to begin the destruction of the White Race in America. There is the Crimean War. There is the Boer War in Africa. There is World War I. There is World War II. There is the Korean War. There is the Vietnam War.

The list is incomplete and endless, but I believe we can safely conclude that behind each was the Jewish network conniving, engineering, conspiring to bring about a vast and deadly conflict, to bleed the White Race to death, to reduce its numbers and hopelessly enmesh it in endless financial bondage. (Read again, *Creative Credo No. 40* in the *White Man's Bible*. "The Brutal Truth about Inflation and Financial Enslavement — The Federal Reserve Board".)

Whereas the list of Jewish atrocities perpetrated on the White Race is endless, I believe in more than "Remember the Alamo." The battle cry of the White Race should be "Remember Dresden." It is an atrocity that is a thousand times more heinous than what happened at the Alamo. There in Dresden the Allies (Allies of whom?) in two days of February 1945, rained down fire bombs and phosphorus bombs that incinerated 350 thousand White men, women and children, not as a tactic of "winning the war," but out of sheer vicious bestiality and brutality. It was the ultimate in the Jewish exercise of vicious hatred of all mankind, of their religious exercise of Purim. (Read again, "The Murder of Dresden" Page 93 of *Nature's Eternal Religion*.)

Our battle cry must be a double-edged sword. Not only "Remember Dresden!" but also "Avenge Dresden!"

RAHOWA! We must wage a religious war in the name of the White Race, for the survival of the White Race.

Cross over the Line!

My dear White Racial Comrades! How much clearer can I make it as to what is happening to the White Race? (Total extinction, if you still aren't clear.) How much clearer can I make it as to what the game plan of our JOG (Jewish Occupational Government) is?

What is the answer? That, too, I have made abundantly clear. It is building a White Racial Religion (Creativity) a massive aroused and enraged White racial steamroller with which to smash the Jewish monster.

We at the Church of the Creator have already written our

Declaration of Independence from Jewish Tyranny. You will find it on page 401 of the White Man's Bible. Why not read it again and see where WE stand? Make up your mind where YOU stand.

Some pantywaist wimps will alibi and say, "But, Sirs, if I take a stand against the Jews, my whole life will change. I will lose many of my friends. I must change my church affiliation. I will have to give up my Jewie Jahweh! I would be taking an irreversible step!"

True, true, true my friend. It's too damn bad the world is the way it is, but you had better wake up and face reality. The time has come to fish or cut bait. If your present friends and associates are helping to drag you down into the quagmire of a Jewish hell, then they are not friends at all and you had better get a new set of friends and contacts and a new religion. The time for decision has come. Those who are too cowardly to come to grips with the problem today will have to pay a much heavier price later when their options will be strictly limited, or, like the slaves of the communist countries, will have no options at all. Like the heroes of the Alamo, we are surrounded, we are engulfed by the mud races skillfully orchestrated by the Jewish network. The time for decision is now! Cross over the line!

The rugged frontiersmen of the Old West may not have had much book learning, but apparently they saw certain basics much more clearly than their present day confused and befuddled progeny. They had one thing that all too many White people of today lack — they had commitment. They also had guts and the ability to take decisive action. They also practiced Racial Loyalty, and knew the difference between a White Man and a Mexican, or a nigger, or an Indian. The second president of the Republic of Texas, M. Bounaparte Lamar (1838-1840), stated the case for Texas at that time, and his observation is as valid today as it was then. He said, "The White Man and the Red Man cannot live in harmony together. Nature forbids it."

The Mexicans, who were originally a polyglot mixture of Spanish and aborigine Indian, have by now practically extinguished all traces of their Spanish genes and for all practical purposes are Indians, with a Spanish language and veneer, but genetically Indian. They have in fact, a fierce hatred for their Spanish heritage, as they do for the White Race and are moving rapidly (with Jewish tutelage) to expunge all traces of it.

We of the Church of the Creator say this: If the stupid mud races can organize, can build political muscle, can project a plan and program for taking over a country conquered and built by the White Man why in the hell can't we do the same and do it better? In the framework of the Church of the Creator we have the battle plan to

do just that. We are girding to fight an all out White RAcial HOly WAr — **RAHOWA!**

Join with us! Cross over the Line! Do it now while you still have the means and the option.

Depending on what decision you make now will also decide as to whether your children or grandchildren will be eternally proud and grateful, or whether they will curse you in your grave for the mess in which you left their world, their heritage and their gene pool.

* * * * *

Let us never forget Dresden! But more important, let us make damn sure we avenge Dresden.

* * * * *

Rahowa Day

While the Texans are celebrating their Sesquicentennial, we of the Church of the Creator in a minor way are celebrating a milestone of our own. Whereas March 2nd is Texas Independence Day, and March 6th celebrated the heroic fall of the Alamo, we also have our day in March. We celebrated March 10th as the fourth anniversary of the day we broke ground to start building our World Center.

We believe breaking ground for the headquarters also marks a significant breakthrough in beginning and instituting a **RAcial HOly WAr** for the survival, expansion and advancement of the White Race.

The Moslems have their **Jihad**, which stands for a religious holy war. We have our **Rahowa**, which is the declaration of a holy war against the Jews and other mud races. It is a double-edged war, both racial and religious. It will not end until the White Race inhabits all the good lands of this Planet Earth.

Rahowa is pronounced RAH-HO-WAH.

From time immemorial HISTORY has decreed that territory on this Planet Earth belongs to those powerful enough to take it and determined enough to keep it.

Comparative Religions — Part XI

ATHEISM

Atheism is commonly not recognized as a religion, but rather as a non-religion. Be that as it may, the fact is that anyone, or any group, can claim that their philosophy, belief or non-belief, *weltanschauung*, or whatever, is a religion, and justifiably so. We of the Church of the Creator defend this position as vigorously as we do the First Amendment, Freedom of Speech, and/or Freedom of Religion. We fully agree with Voltaire when he said, "I may disagree violently with what you say, but I will defend unto death your right to say it." Similarly, we may disagree with many religious faiths which we consider pure hokum, but we will defend their right to espouse their beliefs, no matter how silly we might think they are.

In the same context, we will also defend unto death our right to criticize and articulate how ridiculous we may find some religions to be and we have done so repeatedly in the last 10 segments of "Comparative Religions."

Within this framework, we accept that Atheism is a religion in its own right. There are now officially incorporated religions that have received tax exemption and official governmental recognition as such under the aegis of Atheism.

Most Christian churches are quick to hang the label of Atheism on the Church of the Creator and our members. It is the objective of this article to again, for the umpteenth time clarify this issue to these muddle-headed spook chasers. (See page 68 of *Expanding Creativity*, "We are not Atheists, We are Creators".) I want to draw a clear line of distinction between Atheism and Creativity, so that there can be no doubt, no misunderstanding about the difference, a difference that is fundamental and as wide as the Grand Canyon.

Basically, that difference is this: whereas an atheist says I do not believe in the other fellow's spooks, he makes no claim to what, if anything, he does believe in. We Creators have common ground with the atheists in that we also do not believe in the other fellow's spooks of whatever stripe, but we do state clearly and at length what all we do believe in on the positive side. And what we do believe in is plenty. It is positive and it is comprehensive and we spell it out clearly in our several Basic Books.

Having laid this initial groundwork, let us briefly review the history of Atheism, which has been around for thousands of years before even Jewish-Christianity raised its ugly head.

Webster's big dictionary (Third New International) defines atheism (small "a") as "a disbelief in the existence of God or any other deity", and an atheist as "one who subscribes to atheism." This is a rather brief and vague definition, and until we look up the word "God" we really have no idea what the poor fellow doesn't believe in. So we look up the word "God", and we find a whole passel of definitions under "god" spelled with a small "g" and another set, under "God" with the big "G". They vary all the way from "one who wields great and despotic power" to one that says "Principle; Mind; Soul; Spirit; Life; Truth; all substance; intelligence." There are so many other diverse, vague and conflicting definitions in between that by the time you get through reading them all, you become as confused as the little boy who had just accidentally dropped his gum on the floor of a chicken pen. No wonder the poor atheist finds it hard to swallow all that garbage. (Read again, "What is a Spirit?" in *Racial Loyalty No. 29,* in this book.)

Since Atheism, by definition, is purely negative and the Atheist himself may, or may not, have any number of positive beliefs or philosophies, it is really a loose and meaningless term, and would be completely useless, had not the Christians made it such a widely utilized and derogatory term. Because it is so loose and vague, it would be hard to find literature on "atheism" before Christianity. However, one could probably classify Socrates (469-399 B.C.E.) as an atheist, since he went around telling the youth that the Greek gods of the times were most probably spurious and nonexistent. For this crime of honesty and freethinking Socrates was hauled into court, condemned to death and given the hemlock cup.

He was by no means the last. When the Christians finally grabbed the reigns of temporal and ecclesiastical power, things really began to heat up for the poor atheist. By the Middle Ages (better known as the Dark Ages) heads really began to roll. By the time the Inquisition was instituted, and later the Reformation cut deep into the once supreme power of the Catholic Church, running down heretics and confiscating their physical assets became one of the more lucrative pursuits of the times. A "heretic" need not even be an atheist. He could believe in spooks on high until hell froze over, but if he did not toe the official line, (and there were any number of official lines, depending upon whose jurisdiction you were under) well, it was curtains for him or her. Such gentle persuasive means of retribution as the Spanish Gag, the Iron Band, Breaking on the Wheel, Burning at the Stake, or dozens of other refined means of death and torture were employed. (Read again, "Thumbscrew and Rack" Page 326 of the *White Man's Bible.*)

As the Renaissance began to dawn in the 13th Century and victims of the all-powerful Catholic Church began to slowly extricate

their minds from its clutches, and, as the Reformation further cracked and split the power of the church, the people of Europe slowly began to become more aware of Nature and the real world around them. Writers and philosophers, guardedly at first, writing in parables and couched phrases began to voice their doubts about the supernatural, the world of spirits and the hereafter. Like Thomas Paine, they first hedged their positions by calling themselves Deists, a vague term, but inferring they believed in a Supreme Being. Webster (same volume) defines "deism" as "a rational movement of the 17th and 18th centuries whose adherents generally subscribe to a natural religion based on human reason and morality, on the belief in one God, who, after creating the world and the laws governing it, refrain-ed from interfering with the operation of those laws, and on the re-jection of every kind of supernatural intervention in human affairs."

These fellows were beginning to come over our way and were almost there, had they not thrown in a few unnecessary disclaimers and non-sequiturs to protect themselves. That this God (about whom no one really has the slightest information that he, she, or it really exists, or any other information) "created it all" and then sat back and let it run by itself, is pretty ridiculous. After such a busy session creating it all, what would he do with his time? Play with himself?

During the 19th century, writers, especially in Germany, began to come out more openly. In America, Col. Robert G. Ingersoll (1833-1899) was a most brilliant advocate of the atheist point of view and in both oratory and writing was most effective in marshalling arguments and logic in tearing to shreds the spooks-in-the-sky swin-dle. He has left a volume of 12 books that recapitulate his speeches and philosophy. *(We have all of them in our library except Volume 1. We would be most grateful to anyone who could supply us with the missing volume.)*

In my opinion there are, however, several flaws in his advocacy. For one thing, there is no positive replacement for Christianity, which he denounces so effectively. Secondly, he is not racially conscious. Thirdly, he seems to have not the slightest awareness of the part historically played by the Jews, both in perpetrating Christianity on the goyim, and also in their tyrannical control of world finance and power.

When I first began to promote Creativity, I presumed that the existing atheist groups would be one of the most fertile areas which would be attracted to our superior creed and program. After all, we were as militant and aggressive in denouncing Christianity, the spooks-in-the-sky swindle, and the whole bag of paraphernalia as they were, but, we had so much additional creed and program to offer on the positive side. Surely, I thought, here was a natural. The first thing I did was to get a list of all the atheist groups in America

and send them a copy of Nature's Eternal Religion.

I was wrong. The response was negative — absolutely dismal. Some of their return literature was astounding. Some were devil worshippers, some were espousing witchcraft. Many denounced me for my racist position. An astounding number were Jews, and therefore, of course, openly hostile. That was 12 years ago.

One of the best known, most effective, most articulate and most intelligent organization among the atheists groups is Madalyn Murray O'Hair's American Atheists, Inc., out of Austin, Texas. They have officially proclaimed themselves as a religion and have been so recognized by legal authorities. They have been most effective in instituting legal suits for the separation of church and state, taking prayers out of schools and other measures that have attenuated the special privileges usurped by churches and religions. We have no quarrel with them on any of these issues.

However, the experience of history has shown that attacking religion per se without having a positive and more powerful replacement for it has repeatedly failed to influence its onward march in the slightest. Hitler has made the same observation about movements, any movement, in general. It was his observation after World War I that communism could not be thwarted by merely exposing it. What was needed, he said, was "ein gegengift," (literally translated, "a counterpoison") an antidote, to replace it. This he did when he founded the Nazi Party, and it did, indeed, triumph over and expunge communism in Germany.

American Atheists, articulate and logical though they are, lack this very thing. They do not have a positive belief, a positive creed or program as a replacement for Christianity (or any other spooky religion). For this reason, their future success will be minimal, and at best, non-productive. There are two other flaws on which we fault American Atheists, and they are similar to those of Col. Ingersoll. (a) They do not expose the Jewish peril. In fact, their membership is too heavily infested with Jews to even allow them to take such a stand, and it is not to be expected that they ever will. (b) They take no racial stand, and are not interested in the survival of the White Race.

Nevertheless, a few of our most intelligent converts come from their ranks. There is a much smaller but laudable group that I should mention. That is The Truth Seeker, Inc., of P. O. Box 1832, San Diego, CA 92112. It is headed by a venerable octogenarian, James Harvey Johnson, who is the successor to the Rationalist Movement, the latter dating back to 1875. Mr. Johnson is one of those rare gentlemen who is dedicated, takes salubrious care of his health and is aware of the racial and Jewish problem. His greatest contribution is the excellent stock of old and rare books he has for sale, all of

which either expose religion or promote salubrious living in one way or another.

Our assessment of the whole atheist movement or movements can be briefly summed up in two points:

(a) It is heavily dominated by Jews and will not lift a finger in aiding the survival of the White Race.

(b) It has no positive program with which to replace militant, intolerant Christianity. It has not in the past, and, we predict will not in the future curtail Christianity in the slightest.

Atheism vs. Creativity
A Comparison

A. Common Grounds.

Both Atheism and Creativity deplore and denounce any and all supernatural beliefs, claims and superstitions. We do not believe in gods, devils, spooks, spirits, heaven or hell. We denounce all such hocus-pocus as being invented by men, largely for the purpose of controlling their minds and worldly affairs and extracting the utmost financial gain from them.

B. Major Differences.

Whereas Atheism is a negative approach to a positive evil, unfortunately it lacks a positive creed and program of its own to replace the superstitions it seeks to destroy. The Atheist movements are mostly small, some take on some weird hang-ups of their own, and by and large, have done little to either help destroy Christianity or any of the other religions based on fear, superstition and gullibility. As a result they have accomplished little that is constructive. The Jewish influence is heavy.

Creativity, on the other hand, has a comprehensive creed and program that embraces the whole spectrum of living: **A Sound Mind in a Sound Body in a Sound Society in a Sound Environment.** We seek to build a Whiter and Brighter World for the future progeny of the White Race, all of which is encompassed in our Three Basic Books, *Nature's Eternal Religion*, *The White Man's Bible* and *Salubrious Living*, supplemented further by our most recent additions, *Expanding Creativity* and *Building a Whiter and Brighter World*.

We have the "gegengift" that Hitler suggested was necessary to do the job and we are determined to do it. We are certain that we are the Wave of the Future.

Christianity is Mass Insanity built on a foundation of superstition, gullibility and ignorance fortified by an intensive campaign of mind manipulation.

* * * * *

Without a successful Creativity movement the White Race is dead. Our every thought and action must be — Will it help promote CREATIVITY?

* * * * *

The White Race will either inhabit Planet Earth in totality, or it will not survive at all. There will be no in between in our future.

* * * * *

For the White Race Creativity is the most meaningful and beneficial idea in its entire history.

The Ultimate Horror is the Mongrelization of the White Race.

The World's Ultimate Patsy

Operation Rip-off

The White American Taxpayer is the prime target for all the scum, freeloaders, pirates and thieves of this hungry and overcrowded world.

More than 20 years ago I read a statement that really shocked me. Although I don't remember the exact wording, it claimed that despite the fact that the United States had never lost a war, or at least entered a war it could not have won, nevertheless, it had been looted of more goods and substance in the last 25 years than had been extracted by all the conquering armies from all their defeated victims combined, from the beginning of history. This is indeed a sweeping indictment, of both the rapacity of our enemies, and the submissive subservience of the victim.

Is the charge true? Yes, indeed it is. It was true back in 1965. It is more than doubly true today.

The reader may well ask, how could this be? How could such an affluent, intelligent group of competent people as the American taxpayers, the most successful, productive class in the history of the world, allow this massive thievery to be inflicted upon them?

It is this very characteristic, the fact that they are productive, affluent and hard-working that has made them the prime target of all the thieves, pirates, con-artists and looters of this world, both foreign and domestic. As the saying goes, you can't get blood out of a turnip, but the capacity for the productive American taxpayer to allow himself to be looted and to carry all the burdens and shortcomings of the world on his back seems to be almost unlimited. The productive American worker collectively creates a tremendous amount of wealth, and the freeloaders of the world, led by the cunning Jew, are determined to take it away from him. So far they have been astoundingly successful. When this piracy will stop depends largely on how well and how soon the White Man can recognize his own identity, organize, get his act together, and throw the vampires from off his back.

How did such a monstrous rip-off ever get started? The answers are many and they are complex. We shall explore them. Let me start with a story I heard Tom Anderson relate in a speech about 20 years ago. He was speaking at our Fact Finder's Forum group, which I then headed, at Fort Lauderdale. Here (in italics) is Tom's story:

Many years ago a drove of wild hogs lived in the big bend of the Ocomulgee River in Georgia. These fierce and independent hogs had survived hunters and floods and fires and freezes and drouths. Hunters bragged when their dogs fought these hogs and returned alive.

One day a gallused stranger stopped by the country store and asked how he could find these wild hogs. All the stranger had was a one-horse wagon, a lantern, an axe, some quilts, some corn and a single-barrelled shotgun.

Several months later the hog-hunting stranger came back to the same store and asked for help to bring out the wild hogs. He said he had them in a pen over in the swamps. People came from miles around to see how he had caught the wild hogs, which the natives knew could never be captured.

"It is all very simple," droned the gallused stranger. "First I put out some corn. For three weeks none of them would touch it. Then at first the young ones scampered out of the underbrush and grabbed an ear of corn now and then and began to eat it. Later some of the older ones came out and soon they were all eating it. They knew if they didn't the young ones would anyway, so they might as well get in on the free lunch.

"Then I started building a little fence around the corn, just a little higher each day. Before long I noticed they were all waiting for me to bring the corn. Next I built the trap door. Naturally, they raised Cain when they saw I had them.

"But I'll tell you this — I can pen any animal on the face of the earth if I can first get them to depend on me for a free hand out."

Tom Anderson concludes his narrative with **"Fellow Hogs! We've been fenced!"**

Yes, we have indeed. The method by which it is being done is true to form. Unfortunately, Anderson, being a Board Member of the John Birch Society, did not rightly identify the true culprits who are penning us in. He went on to blame the bureaucrats and the Norman Thomas type of socialists, who were leading us to socialism, communism and slavery. Since the Birch Society from its inception was formed to run interference for the Jews and protect their chicanery from being discovered, not the slightest hint was made that behind the socialists and the communists there is a much more powerful and sinister force — a conspiracy that intends to do more than just bring about a socialist paradise. Behind these facades is

the hidden Jewish network whose main objective includes mongrelization and destruction of the White Race as such, and ensnare the surviving mongrelized masses into eternal, iron-clad slavery.

Tom Anderson made that speech some 20 years ago. Listening to the figures he quoted about taxes, budgets, deficits, interest payments, welfare and defense spending now seem relatively puny compared to what they have escalated to in this year of 1986. It is also shuddering to note how far this once great White United States of America has slid down the rathole in the last 20 years. When we examine how far this country has been pushed further into race-mixing, integrated schools and neighborhoods; hordes of mud colored aliens flooding across our borders and spreading all over the country; the quantum leaps in the national debt, in taxes, in the interest burden to the Jewish Federal Reserve Board; in the Federal "socialization" of medicine, farming, education and just about every other phase of our lives it is a frightening review indeed. Without the White people of America taking note, the fence has been raised a little higher each year and the trap door can now be sprung at any time. "Our" Jewish Occupational Government (JOG) now has us penned in, is looting the White American taxpayer at will, and the victims hardly raise a whimper of protest.

Let us bring this incredible phenomena up to date, and see how JOG is now feeding us corn.

The other day I read in the papers that the U.S. government (JOG) spent $3,250.00 on each citizen in 1985, that is every man, woman and child. Of course, most of this money went not to the working White producers, but most of it went to the freeloading niggers and other parasites. For a family of ten niggers (not unusual) that would amount to $32,500.00, more than the average White working couple earns in a year. This is also more than my hard-working dad, who worked a wheat farm in Canada would earn in ten years during the '30's.

To bring up a few more comparisons to illustrate how far JOG has led us down the path into the swamp, as recently as 1965 I remember Lyndon Johnson giving his State of the Union address. In it he proposed a fiscal budget of $100 billion for the upcoming year, and at the time I thought this was fantastic. That same budget for 1985 was 946 billion dollars, a 946 per cent increase in merely 20 years.

Whereas the budget shows $946 billion spent, only $734 billion was taken in by taxes, the balance of $212 billion was through deficit spending. This means it was "borrowed" from the Federal Reserve Board, a private consortium of Jewish bankers, or more correctly, counterfeiters, who have the "legal" privilege of having their currency

printed at will by a subservient captive government. Again, compare the $212 billion deficit with one of $15 billion in 1963, then considered shocking.

Speaking of deficits brings up the subject of the national debt. Whereas that sum 20 years ago stood at the awesome figure of $369 billion, today, in 1986, it has reached the staggering sum total of two trillion.

Let us pause a moment here and see if we can even comprehend how huge a figure is a trillion dollars. Most of us can understand what a million dollars is, and it is and has been the goal of most little boys to become a millionaire when they grow up, it representing wealth beyond imagination. Now a billion is one thousand times a million, and a trillion is a thousand times a billion.

But huge as it is, the two trillion dollar debt is not the total debt owed by the United States and its citizens. It seems that every city is also in debt, every county, every state and every other incorporated municipal district is up to their ears in debt; so is practically every private business corporation, whether it be General Motors, or General Electric, or General Mills; so is practically every farm in the country, and the overwhelming majority of homeowners.

All these debts put together add up to a probable ten trillion dollars rather than just the two trillion national debt. To whom do we owe all this money? This is more money than all the real assets of this country are "worth." For every debtor there must be a creditor on the receiving side. We can't just owe it to a "spirit" or a hole in a doughnut. There must be somebody or a group or a power establishment on the other side to whom such incredibly huge sums are owed. And there is.

In the brilliant speech of Tom Anderson's that I referred to earlier, he too raised that question, then deftly skirted the issue by saying the socialists say, "don't worry about it, we owe it to ourselves," then being a good Bircher, he let it go at that, without pursuing it further.

We Creators will not let it go at that. We will pursue it to its bitter end, because that same sinister power establishment which holds all the I.O.U.'s of the world is really the crux of the problem.

We do not owe these huge sums to "ourselves." We and the rest of the world owe all these trillions to the Federal Reserve Board, a sinister cabal of international Jewish bankers, or more accurately described as a criminal gang of counterfeiters, so powerful the government printing presses now print "our" money for them for nothing more than the price of the paper and the green ink. (Read again, C.C. No. 40 in the White Man's Bible **"The Brutal Truth about Inflation and Financial Enslavement. The Federal Reserve Board — The Most Gigantic Counterfeiting Ring in the World."**) But you will never

find the Birch Society exposing the nefarious Jewish gang of counterfeiters.

The United States is not by any means alone. Every country in the world is now in hock up to their eyebrows. Mexico, Argentina, England, Spain, you name it. There is not a single country that is not. And to whom do they all owe their life's blood? To this same gang of international Jewish counterfeiters, who although the U.S. Federal Reserve Board is the central aegis, its tentacles extend to every country in the world. In England, this same gang of Jews owns the Bank of England and has for nearly three hundred years. In Germany, it is the Reichsbank, and so on down the line, to where they own, control and manipulate every "central" banking system in the world.

But let us get back again as to how the U.S. government (really the Jewish Occupational Government, JOG for short) is taxing the hell out of the productive White American taxpayer and squandering and proliferating it to subsidize the scum and freeloaders of the world.

HOW JOG DELIBERATELY SQUANDERS THE PRODUCTIVITY AND SUBSTANCE OF THE WHITE AMERICAN TAXPAYER TO THE FOUR CORNERS OF THE WORLD.

Let us now look a the 1986 budget and see what JOG is committed to spend in the major categories that it has so assiduously planned. When we do so, let us remember some cardinal rules of what JOG is determined to do, and they are these:

1. **It wants to destroy America,** and reduce it down to the lowest common denominator of all the mud countries of the world, such as Mexico, India, Korea, Japan and dozens of others. It wants to reduce the whole world to a horde of hungry coolies.

2. **The prime target for destruction is the middle class White family of America.** JOG wants to especially destroy every self-supporting independent entrepreneur and make every individual a whimpering dependent on government handouts. Why? Because this is the road to total control and total slavery. **Every goy a coolie, every Jew a king.**

3. **The overall target for destruction is the White Race itself,** not only in the U.S.A. but throughout the world.

The best way to accomplish these goals is to "take it from the thrifty and give it to the shifty." (Part of my Florida Senatorial campaign slogan in 1966.) In other words, tax the hell out of the creative productive workers and producers (mostly White) and transfer the largesse to the freeloaders, the scum and the shiftless (mostly mud

races). The means through which this is done is by what used to be called Welfare. JOG, of course, has now upgraded and devised a more sophisticated name for it. "Welfare is now called 'Human Resources.'"

1. Welfare in the U.S.A.

The total (estimated) budget for 1986 is $979.928 billion dollars. Of this "Human Resources" takes the biggest bite, namely, $479.765 billion, or 49.0 percent. Again to see how far down the road we are, let us compare this to what it was only 20 years ago. It was then $43.257 billion, or less than one-tenth of what it is today. Of this, $68.661 billion goes to Medicare, which 20 years ago (1966) was only $64 million, in other words less than one-thousandth of what it is today. Social Security has leaped from $20.694 billion in 1966 to $200.053 billion in 1986, a tenfold increase. Health services (other than Medicare) have jumped from $2.543 billion to $35.669 billion in the same 20 years, a 14 fold increase.

As far as "Welfare" is concerned, we must remember that the Federal Government's assistance (expenditures) are by no means the sum total "taken from the thrifty and given to the shifty." The states, the counties, and the cities, too, each have a multitude of programs of their own. These go down the line — health, education, welfare, aid to dependent children, and a plethora of others. Some are grants-in-aid, collaborating with the Federal government, some are additional and independent. The main recipients are the [n-word], as any one can observe if they watch the comings and goings at any county welfare agency.

From the foregoing, it is easy to see we will soon all be under the umbrella of good old Uncle Sam, and none of us will need to work any longer and we will all have our corn dished out to us. Or will we? (Read again, C.C. No. 41 in the White Man's Bible, "The Jewish Program for the Mongrelization of the White Race.")

2. The Defense Budget.

The second largest item in the 1986 budget is Defense, so-called. That awesome figure is $265.827 billion, approximately double what it was only five years ago ($157.513 billion) and 457 percent greater than it was in 1966.

Now this is an astronomical figure, a tremendous rip-off on the American taxpayer. We would conclude that (a) we must have a formidable enemy against which we are now well prepared to defend ourselves, and (b) that we had the best and the most powerful defense system in the world.

Unfortunately, the answers to both these suppositions is negative. The PRESUMED enemy, of course, is Russia, but the actual fact is the United States and Russia are buddy-buddy, are as much in cahoots as when they combined to

fight Nazi Germany in World War II, and as they have been since 1917, when Jewish communism took over Czarist Russia.

The fact is both Russia and the United States are today both controlled by the Jewish power network. (Read again, C.C. No. 40 "Russia, Israel and the United States" in the White Man's Bible.) The facts of history are these: (a) the Jews in the United States com-bined with the conspiratorial terrorists of Russia to put the com-munists in power in Russia in 1917. So corrupt and sleazy has been the Jewish communist regime in Russia that it would have broken down any number of times if the United States had not repeatedly bailed it out financially, and if it had not saved its neck militarily in 1941-45. The fact further is that the wealth, prestige and power of the United States government has been more effective in advancing the communist take-overs in two-thirds of the world since 1945 than has Russia itself. Again, all this at the expense of the ripped-off White American taxpayer.

But why, you may ask, do we need to spend such tremendous sums on armaments if Russia is not really our enemy?

The answers are several. (a) Defense contracts are a beautiful sweetheart arrangement between the Jews in our government dol-ing out defense contracts to the Jews in the military-industrial com-plex who are at the receiving end. With charges of $700.00 for a ham-mer, and $100.00 for a nut and bolt, the opportunities for the Jews to rip-off the taxpayer and make a killing are unbounded. (b) The United States military forces are completely at the disposal of Israel for aggressive military expansion, and no cost is spared when Israel needs them. If tanks need to be flown in by air mail, the U.S. Defense Department is instantly ready and has done so on several occasions in the past. (c) It provides a strong-arm force against such countries as Germany, should Nazism and/or any other form of anti-Jewish hostility raise its ugly head in any country (such as Palestine or Libya, for example).

The much maligned and looted American taxpayer is not pay-ing for the defense of his country. It is not his country at all. It belongs to JOG, to the niggers, and all the alien freeloaders of the world. This ever patient patsy is instead paying for (a) the defense and ex-pansion of Israel and (b) the advance of worldwide Jewish com-munism, (c) the proliferation and expansion of the mud races.

I ask you, my dear White Racial Comrades, **how long are you going to stand for such an outrage?** Why not join the Church of the Creator, use your money for your own best interests, and get the goddamned Jews off your back. **Join with us in a White Racial Holy War! Rahowa!**

3. Debt Interest.

We said earlier that the U.S. national debt now stood at more than two trillion dollars, a fantastic sum, an astronomical figure. But this is not just a bookkeeping figure — it is very real and we do not "owe it to ourselves." We (JOG) owe it to the Federal Reserve, which as we also noted earlier is an international gang of Jewish counterfeiters, who have finagled us into a debtor's prison by shifty conniving and tricky paper shuffling. Paying the interest on this mind-boggling debt is now the third largest expense in the Federal budget. It is the fastest growing of all the fast increasing Federal expenditures. For 1986 that figure is $142.740 billion, which is $42.74 billion dollars more than our total Federal budget was during President Lyndon Johnson's regime. To show how fast this "interest service" (isn't that a cute name?) is growing we need only note that it was merely (!) $9.386 billion dollars in 1966, only 20 years ago. That, my dear friend, is an increase of 1,520.8 percent in 20 years. At that rate, would you care to project it for the next 20 years? Well, my little computer tells me it would amount to two trillion, 169 billion dollars, (this is $2,169,000,000,000.00), more than twice what our whole national budget is today, and this is for interest alone. How do you like that, patsy? What are you going to do about it?

We have here a built-in scam of major magnitude on a runaway slide to catastrophe that cannot and will not be stopped until the Jewish powerhouse is smashed. Rahowa!

4. Foreign Aid.

One of the most insane, most revolting and most devastating programs that "our" Jewish Occupational Government (JOG) has inflicted upon us was started when the Truman regime instituted the Marshall Plan. Initially it was ballyhooed as a wonderful idea by means of which we would "contain communism." (Remember, not destroy communism, only "contain" it.)

The theory sold to the world's favorite patsy, the White American taxpayer, went something like this:

Communism is a virulent, powerful force set loose upon the vulnerable, shattered post-war world. It is a sinister force threatening to gobble up one country after another, just as they already had done in Eastern Europe (Poland, Rumania, Hungary, Czechoslovakia, Yugoslavia, and a host of others). Therefore — bright idea — let us rapidly supply vast amounts of financial aid to all the remaining "neutral" countries of the world, let us prop up their shattered economies, let us buy their friendship, and "wean" them away from communism, our most formidable enemy. The supposition was that, of course, every country would just be tickled to death to go communist, unless, of course, we could bribe them away with huge amounts of money. American taxpayer's money, endlessly, year after year.

That was the official scam and so the Marshall Plan was launched. Henry Wallace, a sometime vice-president of the times, suggested that we share our wealth with the "have-nots," with the "less-fortunate" (shades of the Sermon on the Mount) now "emerging" "Third World" countries, and that in the next several years we commit ourselves to giving away 50 billion dollars of the American taxpayer's money.

And so the Marshall Plan was launched. It was named after that communist stooge George C. Marshall, our Secretary of Defense during World War II. The clincher in the argument was that it would be cheaper to give all this money away peacefully than to eventually have to go to war against Russia.

That was the sales pitch in a nutshell. Our favorite patsy, the White American taxpayer, although nonplussed and confused, reluctantly bought it. He never really had much of a choice. JOG never gave him a decent chance to make an issue of it, or to vote on it.

Anyone having a grasp of history and the world events that preceded the Marshall Plan and also the consequences that have ensued since its inauguration, would find that argument fatally flawed. In fact, it is the most deceptive scam and the most suicidal course (for the White Race) we could have followed since Saul of Tarsus sold Christianity to the Romans.

Here are some of the realities that preceded it and some of the consequences that followed it.

1. If the United States government really believed that communism was a dire threat to the world and/or our own national security, they could have had it handily eliminated without spending a dime. Germany's heroic armies in 1941 stood at the gates of Leningrad, Moscow and Stalingrad, and would readily have wiped this Jewish menace from the face of the earth had not the United States (read JOG) intervened. The vociferousness with which the United States (JOG) launched a pro-Russian and anti-German propaganda campaign during the 1930's and the vicious and brutal battle they waged to destroy Germany and save Communist Russia in 1941-45, tells the real story of where United States (read JOG) sympathies really lay then, and lie today.

2. Even after Germany was smashed in 1945 and when Russia was weak and tottering, the United States army, then the most formidable military force in the world, could easily have marched on Moscow and cleaned up the job, as General George S. Patton suggested we should. It would then have been comparative child's play.

Did we do that? Hell no! Instead "we" (JOG), even before the war was over, sent 13 billion dollars worth of civilian goods (tractors, refrigerators, etc.) to communist Russia to help rebuild communism and get it back on its feet, lest it collapse and the Russian

people get the communist Jews off their backs of their own accord.

3. Since the inauguration of the Marshall Plan and the proliferation of a multitude of "Foreign Aid" programs that followed it, communism has by no means been contained. It has advanced rapidly, and in every instance the hand of the United States (JOG) has been instrumental in inflicting it upon each of its hapless victims.

Since I have already explained in more detail how the United States, in cahoots with Russia, has enslaved most of the peoples of the world, I need not repeat it here. Suffice it to say that the major country George Marshall personally helped turn over to the communist monster was China, in 1949, then and today, the most populous country in the world. There were a number of other such victims before China, and even more since. The latest series of capers the United States (JOG) is engaged in is turning Central America over to the communist behemoth.

The role Foreign Aid plays in so doing is this: First of all we offer a prospective victim aid — free, and who is there in the world that will not accept the offer of a free handout? Like the wild hogs that were to be fenced, they will always take the bait. The second step is to get our army of CIA agents into the country, to offer them "free" advice, technical, military and otherwise. Once entrenched, the more cunning and affluent CIA begins to manipulate the nerve centers of the foreign government they have now infiltrated (Jewish interests predominating.) Usually the aim is not to direct, but misdirect the government to commit as many stupid and inflammatory acts as possible against the people, so there is greater hostility between it and the people. At the same time the CIA, loaded with United States money and techniques, covertly begins to organize and supply underground revolutionaries and create anarchy. The next step is to topple the government and install a communist government in its place.

The record since World War II shows that in every country that had an anti-communist, pro-American government in its place, the United States (JOG) would undermine it, then torpedo it, then install a pro-communist dictatorship. Examples: Pro-American General Chiang Kai-shek replaced by communist Mao-Tse-tung in China. Pro-American Fulgencio Batista replaced by communist Fidel Castro in Cuba. In Nicaragua, pro-American Anastasia Somoza replaced by a series of communist dictators. The irony in this situation is that the CIA replaced Somoza with the Sandinistas, and today Reagan is screaming to high heaven that we (taxpayers) hand the Contras (also communists) a cool 100 million dollars to "help" oust the Sandinistas. Did you ever hear of anything more insane?

And so it goes, country after country after country. Since this is not the main topic of this article, I cannot give a more complete

history of this abject betrayal, but merely delineate the sleazy and deceptive format by which it is being done.

So how much money have we spent on Foreign Aid since the Marshall Plan began this gigantic boondoggle? It is hard to tell, since it is disguised in many different forms and ruses. Dr. Martin Larson estimates that aid to Israel alone (our number one "ally"! - of course) has had the benefit of more than 50 billion dollars of taxpayer's money. What has Israel done for us? Well, although it badly damaged it, it didn't quite sink our billion dollar intelligence ship, the USS Liberty, in 1967. Of course, it did kill 34 of our American crew and wounded 171 others, but we can overlook that, can't we?

When we consider that we are annually doling out free aid to 126 countries (more or less), of just how much money have the American taxpayers been bilked since 1947? Again, I can't say, but it will run into the hundreds of billions, I am sure.

And what have we received in return? Well, communism has spread rapidly and is on the verge of taking over all the remaining countries, including the United States. Thanks to our help, the mud peoples of the world have exploded like a horde of rats and threaten to engulf what is left of a shrinking White Race. There are a host of other goodies that JOG has bought for us, but the above will do for the near future. So there you have it, you gullible patsy. I ask you, my White Racial Comrades, how much longer are you going to stand for this Jewish rip-off and outrage?

There are several other nasty aspects and treacherous consequences resulting from Foreign Aid, as there inevitably are from any form of subsidization. The most obvious consequence, of course, is the fact that it bleeds the working White American taxpayer dry, and leaves him looted and impoverished. But there are several other ramifications.

1. It has expanded the mud races in a runaway population explosion which soon threatens to strangle and/or engulf the shrinking White population in a sea of mud.

2. It proliferates graft, corruption and crime, both here and abroad. Most of the money that is sent to these "Third World" countries goes directly to the corrupt and/or criminal dictatorships that "govern" their Stone-age inhabitants. Most of the money is pocketed by these thieves and never reaches the ever-hungry masses.

I'm sure that United States taxpayer money was the source of most of Ferdinand Marcos' (estimated five to ten billion) stolen loot, and, also of the former dictator "Baby Doc" Duvalier, who is estimated to have stolen 100 to 500 million for himself. Where was the easiest source of such vast sums of stolen loot? United States taxpayer's money, of course, in the form of "Foreign Aid."

3. A secondary spin-off of the above, I am sure, are huge con-

cealed kick-backs to JOG officials in Washington, who arranged for such "aid," and decide to whom it goes.

4. As in all cases of subsidization (a tactic Nature frowns upon, except in raising its young) the recipient nations of such hand-outs soon become professional freeloaders and allow their economic structures to collapse, since it is easier to obtain all these goodies by merely begging and/or blackmailing from such a magnanimous dispenser of charity as is Uncle Sam. So why bother to work? Many countries such as Egypt, Israel, Haiti and dozens of others would collapse in a few months if the hand-outs should stop. After much turmoil, starvation and shake-out, they would then shrink back again to a much smaller, but self-sustaining population level.

Foreign Aid must always, and inevitably does, lead to the next major consequence:

5. Foreign Entanglements — Foreign Wars

Since JOG managed to smash Nazi Germany in World War II some 40 years ago, there has been, on a worldwide scale, warfare, revolution and turmoil. At any one time there are approximately 40 wars going on, major and minor. The United States is usually directly or indirectly involved in approximately three-quarters of these wars. When traced, we will find that somehow JOG's CIA instigated practically all of them, if we lump Israel in the same camp with JOG.

Some of these wars, like Korea and Vietnam have been devastatingly expensive for the United States taxpayer, and all of them have been a no-win for the United States, but spelled victory for the communists.

In any case, the United States has stuck its nose into the business and government of every people in the world, has tried to manipulate their governments and life-style, and wherever possible, thrown it into turmoil and confusion. It acts as though it had been anointed from on high to play both policeman and Santa Claus to every country in the world. All this high-handed maneuvering goes on abroad, although the U.S.'s own economy is tottering, the farmers are going bankrupt and being dispossessed, its steel mills, its textile mills, its manufacturing plants, are going bankrupt, and the U.S government debt exceeds that of all the other countries of the world combined.

6. United Nations.

The American taxpayer subsidizes more than 25 percent of the cost of this alien nest of vipers. What has the U. N. done for the United States? Nothing, except act as a platform on which every thug in the world can get up on his hind legs and denounce their host country — the U.S.A.

But it has done much more damage than that. Because all of these alien thieves and criminals that are running loose are accredited

with "diplomatic immunity" it has served as one of the world's most ideal centers to carry on espionage, terrorism, sabotage and mayhem on our soil, all with blessed immunity and impunity.

So why do we have it? Because JOG knows it is another expensive, but effective means of sabotaging the United States.

7. The Peace Corps.

Started during the Kennedy regime, the Peace Corps is now a quarter of a century old. It is another tremendously expensive boondoggle in which JOG helps drain this country of resources, wastes the best years of our volunteers' young lives in some stinking foreign country teaching some niggers how to live and produce like a White Man. It is an impossible and pointless task, and a complete waste of our money and young talent.

8. Thousands of other Programs and Boondoggles.

The list is too long to catalogue, so I will only list a few more expensive, useless, counterproductive programs that JOG has dreamed up in order to drain the White American taxpayers of their money and substance.

Some of these are: the National Cancer Institute, not really looking for a cure, but spending about a billion dollars a year; **Community Action Programs, a perfect set-up for niggers and Mexicans to steal and pocket taxpayers' money; a vast network of prisons and penitentiaries,** where murderers and criminals who should have been executed in the first place get free room and board for the rest of their days at a cost of approximately $100.00 per day to the taxpayers; **The Space Program,** on which we have spent approximately 150 billion dollars of the taxpayer's money since its inception. And for what? Absolutely nothing except to further squander the taxpayer's money. (Read again, Racial Loyalty No. 33, "Planet Earth — Our One and Only Home.") For less than this sum we could have comfortably shipped all the U.S. niggers back to Africa in style.

CONCLUSION.

There are thousands more, and the list is endless. The evidence is overwhelming that the working White American taxpayer has been ripped-off on a scale never before encountered in history, as if he were an unending goldmine. The most amazing aspect of this whole phenomena is the patience and submissiveness with which the White Man has endured all this thievery, especially over the last 40 years.

The strong-arm goon squad that JOG has employed to threaten, cajole and loot all this wealth from the productive worker is the Jewish IRS (Internal Revenue Service). It, the Federal Reserve and JOG work together in a perfect three-cornered combination to loot, steal, and strip the working man of his means

and substance.

The basic goal is to destroy the productive and independent White family man. At the same time, no expense is spared to subsidize and support the shiftless niggers, spics and mud races so that they will breed, multiply like rats and proliferate the White Man's territory and crowd him out.

This process is expanding and growing exponentially, as we have shown repeatedly, both by statistics and by programs. It will continue to do so until every inhabitant becomes a drone, a shameless freeloading bum. Once the Jews have every one homogenized into this category, then comes the next sinister stage — hard-line tyranny and coolie type of slavery.

But by that time the White Man will have been exterminated.

So I say to you, my White Racial Comrades, unite, join together and help us build a mighty and massive steamroller. Let us get the Jewish tyrant off our backs. How much longer are you willing to play the world's favorite patsy?

Join with the Church of the Creator and be a submissive patsy no more. Stop helping finance your own destruction and enslavement. DELANDA EST JUDAICA!

* * * * *

It is time for the productive White American Taxpayer to bluntly tell the Jewish parasites: Enough! Get off my back!

* * * * *

The most astounding phenomena about the White American Taxpayer is the subservient docility with which he is submitting to this piratical outrage.

* * * * *

Groundless presumptions should not be confused with substantiated facts.

Comparative Religions — Part XII

ODINISM

In this series on Comparative Religions we have previously dealt with eleven different religions, cults or sects, all of which have either been extremely hostile to the survival, expansion and advancement of the White Race, or at best, indifferent and/or destructive to that goal. In analyzing Odinism, we have a religion that although small and insignificant, is at least concerned about the survival of our race. We Creators therefore consider them as our racial kinsmen who have the potential of helping win the fierce and hostile racial war which we are now inextricably locked into, whether we like it or not.

Let us make it clear at the outset that this overcrowded world of five billion hungry and clawing people is rapidly heading for more chaos, turmoil, anarchy, revolution and terrorism. We are locked in a racial war, in which each of the participants is keenly aware of their race and ready to fight for its survival, with one exception. *The only participant unaware is the White Race, and it is not so much as lifting a finger to defend itself. It is, in fact, giving aid and comfort to the enemy and massively collaborating in its own destruction.*

Therefore in order to arouse and rally the White Race to take up arms and fight for its very survival, we will need to take some hard and ruthless measures. We will need to follow a battle plan that is well thought out and is willing to go all the way to do whatever in the hell it takes to win and survive. In Creativity we have such a program and blueprint. It is the objective of this analysis to find ways and means by which the Odinist can join us in this endeavor in order to most effectively help win such a battle.

What is Odinism? Is it a religion? Is it a racial movement, or is it a social club embroidered with ancient myths and folklore?

Odinism is a recent revival in America of a few small groups who have resurrected the ancient myths and folklore of the bellicose Vikings who were the scourge and terror of Europe during the Dark Ages. “From the fury of the Northmen, Oh Lord, deliver us,” was a common prayer in the Christian churches of the Viking era, which was at its peak between 800 to 1000 C.E.

Before writing this article, I wrote to Mrs. Else Christensen of Crystal River, Florida, and asked her to send me whatever books or literature they had available on Odinism. Mrs. Christensen, a fine elderly lady (about my age) kindly sent me three booklets, namely *An Introduction to Odinism* (12 pages); *Wisdom from the Edda* (8

pages); and *Can We Still Say God?* (40 pages). Of these, the latter is really the only one of any depth in giving any philosophical insight about Odinism. It devotes practically all of its 40 pages in giving a scholarly analysis of what a pious and treacherous fraud is Jewish Christianity and how it has entrapped the White Man's mind in an alien philosophy that is repugnant to its own "Aryan Soul." We Creators have no argument with this either, and have more or less said so repeatedly and vehemently in our basic books *Nature's Eternal Religion*, *The White Man's Bible*, our supplementary books *Expanding Creativity* and *Building a Whiter and Brighter World*, and also our tabloid, *Racial Loyalty*.

However, much like in the case of Atheism, whereas all three booklets make it clear what they are against, they say precious little about what they are for, except they want to replace an ancient alien religion (Christianity) with an ancient religion based on the folklore and mythology of the Norsemen and Vikings. They say that instead of looking to the Jewish Yahweh and Jesus Christ, we should now worship Aryan gods, specifically Odin and Freya and Balder. Also enmeshed in this pantheistic conglomerate are Aesir, Loki and Tyr, not to forget Yggdrasil, that great ash tree whose roots and branches supposedly hold together the universe. Also in the picture, engirdled by a huge serpent, is Midgard, which represents the earth, and regarded as midway between heaven and hell. The Werewolves also play an important part in this droll and confused mythology, which, strangely, the Odinists have selected as their representation of the true "Aryan soul."

There are three aspects of this peculiar choice that we want to take a closer look at, namely (a) of all the thousands of myths and folklore with which the White Race is so richly endowed, why should anyone want to choose that of the Norse? (b) what, precisely, is the "Aryan soul", and what group represents it, and what meaning, if any, does the word "Aryan" have? and, (c) instead of asking "Can we still say God?" a better question in this enlightened and scientific age might well be: do we still need to play with imaginary spooks, White or otherwise?

Let us examine (a) first, and make a partial list of thousands of myths, legends, folklores and dead religions to which the present day White Race is heir.

A. Myths, Legends and Folklore of the White Race.

1. Probably two of the greatest of the very ancient literary epics are Homer's *The Iliad* and *The Odyssey*, dating back to the 8th century B.C.E. They are rich in heroism, drama and virtues characteristic of the White Race. Much better than the Norse myths.

2. The **Greek Pantheism and Mythology** are rich, colorful, and interesting.

3. **Roman Pantheism and Mythology.** Many of these are a take-off of the Greek models, but have Romanized names and many gods and goddesses are essentially Roman. Both Greek and Roman gods and mythology are wholly White in essence and evolved before Jewish Christianity contaminated their "pagan" gods. Both much superior to Norse mythology, and preceded the latter by approximately a thousand years.

4. **Teutonic Mythology.** I have a four-volume set of books by Jacob Grimm, (1785-1863) entitled, "Teutonic Mythology," a total of 1,887 pages. Whereas some of these interweave with Viking myths, they are essentially separate and much more extensive.

5. **The Sacred Books of Hinduism.** These consist of such classics as (a) The Vedas (b) The Brahmans (c) The Upanishads (d) The Bhagavad-Gita and (f) Epics and Puranas (See "Hinduism", Racial Loyalty No. 30). These were all written by "Aryans," but great literature though they be, they failed to stop the "Aryans" from race-mixing and being drowned in a sea of mud. An interesting side-note is the fact that bits and pieces of Norse mythology stem from these earlier "Aryan" writings.

6. **The British Edda** (See L.A. Waddell's classic by the same name). These stories recapitulate the Epic Poem of the Ancient Britons, the exploits of King Thor, Arthur (or Adam) and his Knights in establishing civilization, reforming Eden and capturing the Holy Grail. Great literature that supposedly goes back as far as 3380 B.C.E.

7. **Aesops Fables** that go back to the times of Ancient Egypt. In my opinion there is more good advice and common sense contained in these short and simple stories than all the Viking myths combined.

8. Donald A. MacKenze has put out a book that is a collection of **German myths and Legends** (different from Grimms collection of **Teutonic myths.**)

9. There is the **Nibelungenlied** around which Wagner built his "Ring" of four operas.

10. There are Irish myths, Scottish myths and legends, there are Rumanian myths (Dracula, etc.), there is a large collection of Hans Christian Anderson's Fairy Tales. There are the **Mother Goose Rhymes**, in which I am sure, if you looked hard enough you could find some kernels of wisdom. In fact, just about any and every country had their set of myths and legends, whether they are White or not. Even the Indians and the Mexicans have theirs.

So, with such a large selection on the menu, with such a vast array of myths and legends that originated with the White Race, what is so special about the Viking myths?

The answer is: not much. It is not a great choice.

B. Who or what represents the "Aryan soul?"

The word Aryan has been widely bandied about in the White Man's literature. Such people as Houston Stewart Chamberlain in "Foundations of the 19th Century" and Alfred Rosenberg in "Mythos of the 20th Century" have used the word extensively. However, it was brought into first rate prominence by Hitler and the Nazi Party during their hegemony in Germany, in fact, to such an extent that in the minds of the present White world the term "Aryan" is closely associated with Nazism.

We of the Church of the Creator shun the word, for several good reasons, but basically because the term is so vague and ill-defined that it is practically meaningless. Like the word "spirit" used so profusely by the Christians, it, too, is widely used, but nobody knows what it means, if anything.

I tried to look up the word in two encyclopedias I have and it wasn't even listed. Finally, I looked it up in an old Britannica (1929) and found a short paragraph on it. **ARYANS: This word is used by some of the "Satem" speakers of Indo-European languages with the meaning of "noble" and is the name of one of the tribes of these people. As Sir George Grierson points out, "Indians and Iranians who are descended from an Indo-European stock have a perfect right to call themselves Aryans but we English have not."**

The paragraph ends with this admonition: *There is not a better or more striking example in science than this (Aryans) of the danger of affixing labels without due scrutiny and intelligent discrimination.*

The Nazis, too, never really defined the word, but it had the implication of a Nordic type of people, with blue eyes and blonde hair, but even this they did not clarify. If that is what it was meant to imply, many of the most prominent Nazis and Fascists would not qualify. Hitler was not blonde, neither was Goebbels, nor Himmler, nor Mussolini. Expanding this to whole nationalities, most of the White Race would not qualify. It would exclude most of the Austrians, the Italians, the French, the Slavs and a hundred million others. So why make such a fetish of the word when its meaning is so obscure?

We Creators use the terms *White Race*, *White Man*, etc., as our standard definition of the people we espouse and for whom the religion of Creativity was conceived. We mean to accomplish for all the White nations of the world what Hitler did for the Germans. We want to unite them into one powerful massive steamroller with which to smash the Jewish monster. The word Aryan will not do. We discard it as not only being useless, but also as a detrimental roadblock in achieving this great and noble goal.

Now for the Odinists to say that the Viking myths represent the "Aryan soul" is a lot of nonsense. Just whose soul are they talking about? The Nordics? The Austrians? The French? The Polish? The

Hungarians? If we were to carefully catalogue the innermost feelings, the "souls" of all the White Europeans, we would find there is no one common "soul." We would find that not only would the different people "feel" and "cling" to thousands of different myths, fables, legends and folklores, but even in one and the same country there would be a vast diversity. The most common denominator, if any, would be alien Jewish Christianity, and even this is splintered and fragmented into a thousand different bits and pieces.

So let us forget about trying to represent or find the "Aryan soul." In the first place Aryan is next to meaningless, and secondly, if it is meant to imply the White Race, there is no common "soul" that represents it. The best we can do is to construct a common religion that is in the best interests of all members of the White Race, one that all can intelligently embrace and then rally the White Race through long and arduous propaganda and enlightenment to accept it as their own.

This is what we are trying to do in promoting Creativity, the White Man's religion.

Before we leave this subject, let me make one further cogent comment. We have often been criticized that the term "White Race" is an unprecise, unscientific description. Granted, it is. But then the White Race as such consists of a polyglot, unprecise group, or groups of people, with only certain common attributes (other than the color of their skin.) The Austrians are different from the Nordic Germans, who are different from the French, from the Irish, from the Italians, etc. So there is no precise definition. Nevertheless, it is the best there is. Everybody knows what and where the Atlantic Ocean is, but its boundaries too, become vague where it merges into the North Sea, or the Caribbean, or the Pacific. So, too, with the White Race. Everybody knows what the White Race is, although its fringe boundaries are somewhat obscure, and of some of which we are not too proud.

C. Do we still need spooks?

The Odinists evidently take the position that for some reason spooks are good for us. Why, they don't explain. Somehow to have a religion in which you, too, have a set of gods that you can bandy about, is a big asset, they say, even if you know they are phoney.

We Creators take a dim view of such nonsense. We don't need a belief of spooks, we don't need a belief in Santa Claus and as grownup intelligent adults we don't need a pacifier to suck on. It is this silly hangover from our primitive Stone Age ancestors that has so confused and distorted man's thinking over the millenniums and caused so much havoc and misery.

So let's have done with the spookie nonsense. Let's go about our business and solve our problems the way they have always been

solved correctly — by means of our intelligence, by means of reason and logic. In so doing, let us learn from the greatest teacher of all time — by observing the laws and workings of Nature.

Speaking of Nature, there is one other point to which we take exception with the Odinists. They claim that by reverting back to the ancient Norse gods they are more closely aligned with Nature. Not so. Any gods, spooks or spirits are not Nature. They are an unnatural aberration of the mind. They are not in harmony with Nature, but supposedly operating supernaturally, i.e., outside the Laws of Nature. So when someone tells us that what they call god or God is really the same as what we call Nature, we disagree. What they are spouting is an anomaly, a contradiction. We say: make up your mind. Do you believe in spooks or do you believe in the Laws of Nature?

CONCLUSION.

We believe the Odinists are a fine, intelligent group of people, and we want to remind them that the grim racial battle for the survival of our race is a desperate race for time, energy and resources. We cannot afford to indulge in childish games, nor dillydally in any half real, half make-believe fantasies on cloud nine. We cannot afford to do so any more than a fighting army can afford to indulge in LSD, go into battle half-stoned and expect to win battles against a deadly and determined enemy. We appeal to you, we implore you, forget about the spooks (even if they are White) and join with the Church of the Creator in a planned, militant, fully structured creed and program that is based on reality, on logic, on common sense and the wisdom derived from the Eternal Laws of Nature. We need you and you need us. Together we can wage a meaningful racial war and win.

Rahowa!

A religion that failed to withstand the Jewish-Christian onslaught a thousand years ago cannot reasonably be expected to roll it back now, under conditions a thousand times more adverse.

* * * * *

Odinism vs. Creativity
A Comparison

A. Basis of Belief.

What Odinists profess to believe in is rather vague and undefined. They claim to believe in a pantheon of Viking gods, of which Odin, a one-eyed old man, is the father. Built around this pantheon is a random collection of myths and fairy tales. While the Odinists claim this is the basis of their religion, they readily admit that they don't REALLY believe in these fairy tales. So where are we?

There is no recognized official text or literature, or even a set of beliefs in capsulate form.

Creativity on the other hand has clearly spelled out its militant creed, programs, philosophy and religion in **Three Basic Books: Nature's Eternal Religion, The White Man's Bible** and **Salubrious Living**. This is further amplified with **two supplementary books, Expanding Creativity** and **Building a Whiter and Brighter World**.

B. Goals and Objectives.

The basic goal of Creativity is clear and militant: to provide the White Race with a powerful racial religion (such as Judaism has provided for the Jews) and unite the White Race into one powerful battering ram (as Hitler did for the Germans some 50 years ago) and smash the Jewish behemoth. We are determined to do this and have the White Race again take full control of their own destiny. From there on out it is our goal to upgrade the genetic quality of our race (through our program of Eugenics) and expand the White Race at the expense of the mud races. We intend to keep building a Whiter and Brighter world.

Outside of promoting racial awareness, the goals of Odinism are as nebulous as is its religious creed. They do have social gatherings, drink mead (because the Norse drank mead) and discuss imaginary Viking exploits and folklore.

C. Racial Attitude.

The racial attitudes of Odinism and Creativity are both pro-White, although the Odinists like to talk about Aryanism instead, a next to meaningless word, as I have already explained in the main article. In any case, Creativity is more militantly pro-White, and more militantly anti-Jew, anti-nigger and anti-mud. It is the unswerving goal of Creativity to not only fight for the survival of the White Race but to expand our numbers until we inhabit all the benign territory of Planet Earth. At the same time it is our constant goal to upgrade not only the quality of our White gene pool, but also the quality of our environment and the quality of life itself for the White Race.

To sum up: A Sound Mind in a Sound Body in a Sound Society in a Sound Environment.

D. The basic question we pose is this:

If Odinism did not have the intellectual and spiritual strength to hold its own against Jewish Christianity a thousand years ago when the Vikings had Europe at its mercy, what would lead any reasonable person to believe it can now reverse the situation under conditions that are a thousand times more unfavorable than they were then? Why would anyone want to resurrect an ancient failure from the scrap heap of history?

* * * * *

When you encounter* CREATIVITY *for the first time in your life, you're presented with a Cause towards which you can finally dedicate Total Commitment.

* * * * *

Revolution, anarchy and turmoil throughout the world: it doesn't just happen. They are instigated by JOG, executed by the CIA, and paid for by the White American Taxpayer, the ultimate patsy.

Without a successful Creativity movement the White Race is dead. Our every thought and action must be — Will it help promote* CREATIVITY*?

A Letter to Mrs. Else Christensen inviting the Odinists to join with us

March 26, 1986

Mrs. Else Christensen
The Odinist Fellowship
Crystal River, FL

Dear Mrs. Christensen:

Thank you very much for sending the three booklets on Odinism, and also many thanks for your letter of February 27.

I don't know if you remember me, but we met accidently at Bob DePugh's meeting, 1977, in Kansas City. We were sitting beside each other in the audience and introduced ourselves.

Mrs. Christensen, I have no "beef" against the Odinists, and I am completely with Voltaire when he said "I may violently disagree with what you say, but I will defend unto death your right to say it." Although I disagree violently with all the spooks-in-the-sky religions that clutter up man's thinking, the White Man's in particular, I have the least disagreement with, and the most respect for, the Odinists. I believe they are among the finer and more intelligent members of the White Race, and I believe you are aware that I have said so on several previous occasions.

If you have read my editorial in Racial Loyalty No. 32 entitled "HUBRIS, HUBRIS," I believe that you will understand what my overriding concern is all about. If you have not, I will state it briefly. It is this: Unless the White Race polarizes into one united battering ram (one party, one movement, one religion, or whatever) soon, to smash the Jewish monster, it will soon be all over for the White Race. I cite the Nazi movement in Germany as a prime example, but history has many others.

We Creators do not believe that Odinism inherently has the credo, the philosophy nor the program to do that job. Neither does the Identity movement, or any of the other White Racial movements on the scene today.

If Odinism had it, I would dump my hubris tomorrow and join with you. The fact is that the Odinists of the Viking days hardly even knew what a Jew was, and when the cunning Jewish onslaught (in the form of Christianity) came along, they had no defense against it. It was, in fact, like taking candy from a baby.

Now I'll readily admit that most Odinist members of today are far ahead of their creed in this respect, but that's beside the point. Odinism itself inherently doesn't have it, any more than the Roman and Greek religions of Zeus, Neptune and what have you. Those same Odinist members would be ten times as effective had they a more comprehensive and militant creed and program to lead them, a better vehicle to ride in.

Let me ask you seriously — how many "Odinists" really believe in the archaic Norse gods? If so, who is kidding whom?

Hubris or no hubris, in Creativity we have it all. Just as Hitler designed and constructed National Socialism from ground zero specially tailored to unite the Germans and overcome communism and the Jews, so, too, do we now have a specially constructed racial religion to unite the White Race on a worldwide basis, and build a powerful racial steamroller with which to smash the Jewish monster. No hocus-pocus, no deceit, no make-believe, no silly games. Just damn good logic, common sense and militancy based on the massive problems at hand, based on reality.

We don't want to quarrel with you or any other Odinist members. We like you. We want you to join with us because you need us and we need you, if either of us is to survive.

The question you must ask yourself is this: which is more important — salvaging your own little hubris, or salvaging the White Race, including all our future progeny that is coming up?

Depending on what we do now, our future generations are going to be either eternally grateful for turning this sick world around, or they are going to curse us in our graves for the hellish mess we left them.

Rahowa!

Creatively yours,
Ben Klassen, P.M.

This letter was mailed March 26. Since no reply was received until May 8, we could not include it in this issue, but we did print it in a later issue. Here is her reply:

May 8, 1986

Dear Mr. Klassen:

Thanks very much for your letter of March 26/86. I appreciate your straight talk and I think we can trust each other enough to keep it on that line.

First let me tell you that I have been accused of being an Odinist who doesn't believe in Odin; and of course this is true; I do not 'believe' any of the gods exist in the same way the Christians say

they believe their god exists, or any of his three parts. What the gods represent to us is the natural forces, the universal powers, good or bad human traits. We might say when the thunder rolls — 'My, Thor is busy today!' but no sane Odinist believes that the god is travelling across the heavens in the goat-drawn chariot; to us Thor at that point is a reminder of the terrific powerful forces of Nature.

I would like to go back to one sentence in your letter — You say 'Those same Odinists would be ten times as effective had they a more comprehensive and militant creed..." You overlook the fact that these people don't want to be 'more effective' and yet they need something upon which to base their moral concepts. Odinism is that base. The belief we present is undogmatic, so people can chose how they want to see the gods; if they want the crutch, it's there, if they have progressed so that they can stand on their own two feet, the religion will let them do just that.

At the same time Odinism gives them an opportunity to light candles, to celebrate the seasons or other such 'days,' giving them an occasion to get together in an informal, friendly atmosphere. For, believe me, one thing our folk needs is companionship, to be among their own kind with a common purpose. And logic is not going to do it entirely. Odinism cannot, and should not, go against logic, but there must be something for the emotions as well, and this is what the gods provide.

You refer to Hitler; what he provided for the German people was solidarity, emotional involvement, inspiration, but these feelings are not rational. Man is (unfortunately) not a rational being; there are degrees, of course, but most people are directed by their emotions, not by their logic.

I believe that we need to fight on all fronts; your creed is built up logically and appeals to some people; Odinism, from the Fellowship's point of view, gives something for the emotions and at the same time also is acceptable to people with a rather good rational sense. The Asatru Free Assembly has more for the emotions than both you and we have, but they are not that far down the irrational path that their version cannot be acceptable to people with a fair sense of rationality. It's not a very good explanation but I hope you understand what I'm trying to show. We need to work on all fronts; what one organization cannot do, the people they cannot reach, one of the other two can (I hope).

We have members who are also members of the AFA; I gather simply because they think we do not have enough rituals and ceremonies (which I keep to a minimum); and obviously they have a need for some emotional expression. That's good, Steve can provide that and they do not need to go to the Moonies, the Hare Krishna or the Christian churches; they can stay within a religion that is based

primarily on our cultural heritage. They can follow the code of conduct as it is expressed in the Havamal and the code will not be imposed from some outside 'god' but from within, from their own intellect. And when they first understand this, when they feel the racial solidarity and have an emotional basis for their inborn inclination, then political action will follow. It takes time to get that far, but it'll come.

It is our destiny to be born in a historic period where the present cultural period is dying; it will still take maybe a couple of more centuries before the final collapse. The new has not been born yet, but I hope and believe that we are today doing the groundwork for the foundation upon which the new basis for the religious / philosophical moral concepts will be built. They will have to be racial, discriminatory, self-assertive, proud.

It is a shame that we haven't in English been able to stay with the, or get a better translation of, the German idea of 'Das Gottliche'; the godly is neuter, it is beyond gods and goddesses, and certainly a far cry from the Christian 3-in-one god.

I remember we met many years ago but never really had time to talk; it would be nice some day to have the occasion to sit down and exchange a few thoughts, I believe we would come to an understanding.

Before I finish, I'll have to add that I know that what I've been saying here is not understood by all Odinists; we have them right from the stage where they just want to exchange Odin for Jesus and carry on business as usual, so to speak. Many do not understand the depth of the beliefs or the potential they have. But everything takes time; it's a big jump from the Christian creed which most of us have been brought up in, and to a mature understanding of our emotional and intellectual needs, and then to absorb this understanding in an intelligent manner. As the saying goes, Rome was not built in one day, neither is Odinism. And as society changes and our culture becomes more and more distorted, we may have to change our approach somewhat; our enemy is flexible in the sense that he uses all physical and psychological methods available to him; we must do the same.

I hope this makes some sense to you and it might be expressed better but maybe you get an impression of what we're trying to do.

FOR FOLK AND FUTURE!

Conclusion of Our Series

This issue concludes our 12 part series on Comparative Religions. In our series we have tried to point out several cogent characteristics of religion and compared them to our own, Creativity.

One of the observations is that practically all other religions, whether ancient, medieval or modern, are man-made, all promote spookcraft and are constructed on a flimsy base of deception, lies and superstition. In general, they deserve neither the awe, loyalty or respect that a foolish and gullible mankind has been all too willing to give them.

On the other hand, we have also pointed out repeatedly that religions have had a powerful, if not major, effect on the course of history, unfortunately and invariably to the detriment of the White Race. Why? Because the White Race has never had a truly racial religion of its own, such as do the Jews, the Mohammedans, and even the Black Muslims.

Now the White Race does have such a religion in Creativity, comprehensive, fully-structured for the benefit of the White Race and the White Race alone. I hope it is not too late for the White Race to realize this phenomenon, to fully understand it, embrace it and polarize around it for its own salvation. The basic question is this: is the White Man's brain already too heavily encrusted with the barnacles of deceptive Jewish shibboleths, of spooks and ancient hangovers for the White Man to be able to think straight and fight his way out of his present predicament? It is our unswerving, irrevocable determination to pursue this fight, to scrape off the barnacles, to straighten out the White Man's scrambled thinking and unite our race under the one mighty banner of Creativity. Rahowa!

Roman Catholicism is the original well-spring of all — repeat, ALL subsequent Christian religions, thousands of which now rabidly denounce it. Some even call it the Church of the Devil.

Saving our Precious Planet from becoming a Poisonous Garbage Dump and a Human Pigsty

Part III: Clean Drinking Water

A Scarce Commodity

Supposing we were able to man a spaceship and roam throughout the vast universe in search of another planet that had all the right combinations of components that make life viable on good old Planet Earth. Even though we embarked on voyages to other galaxies, I doubt whether we would ever find another such genial environment in 10 billion years. This combination consists of the right temperatures, the right gravity, soil, elements, atmosphere, water, as well as thousands of other vital components of which we are not even aware.

But of all these that make Planet Earth unique and such a viable place to live, it is our vast atmosphere and the abundance of water that are the major contributions to life on this planet. Certainly no other planet in our solar system has anything like it to generate or sustain life. In fact, science has pretty well determined that no other life exists on any of our companion planets in our solar system. It is my opinion that life such as we experience here on Planet Earth is not duplicated anywhere else in the universe, and that we are uni-que. Nor do I believe that we are being visited by little green men from "outer space," or have been in the past, or will be in the near future.

Be that as it may, up until very recent times we have taken our two major assets, fresh air and fresh water, so for granted we scarcely give them a second thought. We assumed both commodities to be of such vast and boundless quantities, we took them for granted and as natural as breathing in and out. But no more. As the song goes — you never miss the water until the well goes dry.

Today we want to examine the water situation on this Planet Earth — our one and only home. The well is not only going dry

in some places, but in many others it is being turned into a cesspool. An overcrowded planet, too many people, too much industry and technology, and criminally irresponsible housekeeping on a worldwide scale are rapidly turning both of these, our greatest assets, into a polluted garbage dump, unfit for human consumption.

I read the morning paper. In the same issue I find on one page that "Large illegal chemical dump found," that 1,700 drums of chemical poisons have been dumped on some abandoned site on a farm in Georgia. Apparently these have been surreptitiously transported from some bankrupted chemical company in Tennessee, during many midnight forays. On another page I read "Soviets try to deaden nuclear reactor. Scientists fear a 'China Syndrome' with the hot nuclear molten mass burning its way down towards the center of the earth and on its way polluting vast quantities of underground water supplies." Meanwhile, millions of square miles of the atmosphere are being polluted with nuclear radiation that endangers not only vast areas of Russia itself, but also the nearby countries of Sweden, Germany, Austria, France, Poland and others. The jet streams in the upper atmosphere are even carrying the radiation to the United States, but, "our" government tells us, we have nothing to worry about. (Do you still believe anything JOG says?) On another page I read a little item by Evans and Novak that says, quote: "Top-secret White House information strongly hints that many of the 40 thousand Russians evacuated — 36 hours later — from the nuclear power town of Chernobyl will die of radiation exposure. That horrible possibility, not planned to be made public by the U.S. government, results from a long gap between the nuclear explosion and the beginning of evacuation a day and a half later. One Soviet specialist here believes the radiation victims will be shipped to remote towns to die forgotten and unknown."

Another item, next day, same paper, tells of the prolonged drouth in our area, North Carolina, Georgia, and the southeastern United States in general, and how a week old forest fire in eastern North Carolina has already devoured 73 thousand acres of forest land and is still going strong.

Another item: Forests are dying in many parts of the country, due to acid rain and due to thousands of tons of nitrogen oxides and sulfur dioxides being spewed into the air daily. Dumped into our atmosphere, they do not stay there. They come back down as either dry acidic powder, or as nitric or sulfuric acid with rain, snow or fog. And because of our moving atmosphere, it does not necessarily come down in the area that produced it. Hence, some international and regional disputes.

Another item: Poisoned wells. For instance, TCE (Trichloroethylene), a common chemical used as a solvent and hav-

ing dozens of other uses for the last 60 years, is now found to be highly carcinogenic and has seeped its way into the ground water in most of the wells in the country. But it is not the only substance. At least 22 other cancer causing chemicals and 1000 organic chemicals have intruded into the tap water we drink.

So there we have it. Polluted water on the surface, polluted water in the skies and polluted water under the ground.

Water. Yes, indeed, it is a precious substance. It makes up 77 percent of an infant's body, 59 percent of a child's body and between 45 and 65 percent of an adult's body. An obese person might be able to go without food for 120 days, but not without water. They would be dead in five days, or in a hot dry climate, in about half that time.

Water. There is a lot of it, but precious little of it clean enough to drink. Three quarters of the earth's surface is covered by it. Only .01 percent of the planet's water is in the atmosphere, whereas the bulk of it, 97.2 percent, is in the oceans and inland seas. Another 2.15 percent is locked up in ice-caps and glaciers, and a remaining .64 percent is liquid fresh water that is available to us in ground-water, lakes, rivers, streams and surface soil.

When we say fresh water, we should modify that and say it used to be relatively fresh and clean, but no more. It is almost impossible to find any unpolluted water anywhere near an inhabited area, now in the 1980's. Hundreds of contaminants now pollute our "fresh water" reserves. Concentrations of such metals as copper, cadmium, zinc, lead, mercury, and hundreds of toxic commercial chemicals, (as well as the TCE already mentioned) now pollute our water resources.

Many people are still under the mistaken impression that, well, at least in the cities, where our water has been processed by the municipal "treatment plants" it is safe to drink. Not so, my friend.

A recent study was made by the General Accounting Office (GAO) to provide Congress with facts about our drinking water. The study included 446 water supply systems in six states. Of those 446, only 60 systems met the Federal standards set for interstate planes, trains and buses. That's only 13.5 percent. But that does not mean that even that 13.5 percent of the systems had good water, only it passed minimum requirements.

There is one other pernicious factor about "treated" water that the government does not protect you from, and that is the addition of such chemicals as chlorine, and, in thousands of systems, fluorides, that are deliberately added in order to presumably kill "bacteria." In most cases the chlorine and fluorides, both deadly poisons, are more dangerous than the bacteria they are supposed to kill.

We could go on analyzing both the identity and quantities of

chemical poisons, not to mention the radio-active poisons, in our drinking water, but it would be a non-productive pursuit. I have already adequately covered the ominous aspect of pollution from chemical poisons *(Racial Loyalty No. 26)* and of radio-active poisons *(Racial Loyalty No. 27)* that contaminate our Planet Earth, and how we are reaching an absolute dead-end in this insane desecration of this unique, beautiful planet with which Nature has provided us.

The question is: what are we going to do about it?

In this respect there are two parts to the problem, (a) the short-range amelioration and survival until our Planet Earth is cleaned up, and (b) a total, fundamental and basic long-range solution to the whole worldwide pollution problem. This means restructuring our whole social, economic and racial thinking. Only then will we be able to restore our Planet to the clean and beautiful environment it once had, and make it a fit place for a proud and orderly White Race to live.

Let us tackle the short-range problem first, and say that as long as we have a Jew-dominated government and society worldwide, the problem will not be solved, it will get worse, much worse. The population problem will escalate, the mud peoples will desecrate an increasingly larger area of our planet, and both the toxic chemical wastes and the radio-active wastes will burgeon to ever more intolerable levels.

So what can we, the White Race, do about drinking water? We can do two things: first, go to drinking distilled water, which is what my family is doing. This can be done by either buying bottled distilled water at the supermarkets, or setting up your own household distiller. I have done both. For several years we used our own small distiller, until one day the safety-feature on it malfunctioned and nearly burned our house down. We have been buying bottled distilled water ever since.

The second thing we must do until such time as we get the world restructured is to reassess our whole approach to our fresh water resources. We must come to grips with the fact that the amount of fresh water we have available to us is strictly limited, that we are wasting a lot of it, polluting the rest, and there just is not enough to go around. We must do a better job of housekeeping — utilization and management of the fresh water available to us.

Worldwide, 75 percent of the available fresh water supply is used for irrigation. Much of this comes from dwindling underground aquifiers, such as the vast Ogallala aquifier in the Midwestern Plains, and the now almost exhausted San Joaquin Valley in California.

A partial answer to the irrigation problem is that if we (in the United States) changed our obsession about feeding all the freeloaders of the world and just took care of our own, we would not need to produce such a surplus of foods, and need much less irrigated

farmland. Secondly, if we changed over to scientifically planned organic farming, we would produce more nutritious food, and hardly need any irrigation at all.

About 40 percent of all water piped into homes is used (or wasted) by the flush toilet — one of our proud hallmarks of civilization. The most negative aspect of this is that some of the effluent becomes part of the water supply to those who live downstream. The average person using a flush toilet contaminates 13 thousand gallons of fresh water a year to wash away 165 gallons of sewage. Multiply that by 180 million people using such in the United States alone, and you have some idea of the dimensions of this problem.

A better, more efficient and less wasteful means must replace the flush toilet. There are already better systems available, and ever better means could be devised if we set our minds to it.

Let me reiterate what I have pointed out any number of times before: none of these problems will ever be solved as long as the Jewish behemoth is in control of the world. In fact, pollution, crowding, famine and anarchy will get worse, much worse, until and unless the White Man forcefully regains and takes charge of his own destiny. And unless he does this soon, it will be too late. We will only have a crowded, poisoned, polluted, radio-active planet to cling to, one in which the White Race will soon no longer be able to survive. The point of no return is rapidly approaching.

Therefore we must go back to square one:

1. Build up the Church of the Creator to one dynamic, aroused, unified battering ram, a powerful tool in the hands of the White Man with which to smash the Jewish monster.

2. Take charge of our own destiny, practice racial teamwork and stop subsidizing the mud races and freeloaders of the world.

3. The latter will then soon wither on the vine and the world population will shrink back to what it can comfortably support on a perpetual stable basis, probably about one-fifth of today's crowded five billion.

4. From there on out the problems can, and will, be solved. We can then go to work systematically and efficiently in cleaning up our precious Planet Earth to where it will again be a wholesome, healthy and beautiful place for our future progeny to live and to prosper for the next million years.

***If we are ever to restore this Planet Earth to its original pristine beauty and fecundity, there is only one answer —* RAHOWA! *Total racial warfare, total* WHITE VICTORY!**

* * * * *

Even if we overcome the mud races, it will be of little benefit to our future progeny if all we leave them is a Planet that is no more than a poisoned garbage dump.

Salubrious Living is a life style that is sound, safe, sane and sensible — the only way to go.

Don't Worship It.

Instead, Become One.

THE HOLY TRINITY

A Meaningful Program for putting Muscle into the White Racial Movement.

While professing to have a monotheistic religion, the Christians have their "Holy Trinity," a three-god complex, which is the central object of their worship. It consists of the Father, the Son, and the Holy Ghost. This three-god complex represents the ultimate in power and glory, in wisdom and in idolization. Any words (supposedly) emanating from the lips of the Holy Trinity are to be obeyed without question, and woe betide any sinner who dares to challenge the authority or the power from up on high. So intimidated are the gullible "believers" that neither the wisdom, nor the authenticity, nor even the existence of that supposedly "Almighty" power is ever questioned.

Getting back to the world of reality, we find that even without being on "Cloud Nine" and without being a believer in spooks, there is a sort of "Holy Trinity" that pulls the strings and wields power far beyond its entitlement. This they are able to do because the general public, like the spook chasers, "believes" in them. Like the "other worldly" religions, their premises are based on fraudulent dogma, and their power rests on lies and deceit.

* * * * *

If you were to take a street survey to find out what three professions were regarded as the most prestigious and the most influential in our everyday life, undoubtedly the ministerial (religious) profession, the medical profession and the legal profession would rank high on the list. We are talking about the preacher, the doctor and the lawyer. These three, although highly controversial, and not necessarily loved by everyone, do carry a tremendous amount of clout in the affairs of men.

It is our objective to take a closer look at all three of these professions, callings and/or businesses, and make an incisive analysis as to how these three (whom we will designate as the "Holy Trini-

ty") fit into the philosophical pattern of the Church of the Creator. We also want to examine their past records and see if they have honestly earned their prestige, and if they have been helpful, or detrimental to the White Race in the pursuit of their "callings."

In analysing these professions we find that all three have much in common, and all three have been thoroughly steeped in the Jewish milieu of what they profess, in contrast, to what they actually deliver.

Here are some of the many traits and characteristics they have in common.

1. All three profess to be "serving" mankind in a generous, charitable dedication to help work for the improvement of society and the common good.

   (a) The preacher claims that he is engaged in the noble "calling" (from God, no less) of saving souls from hell, of improving the public morals, and helping to build a better society.

   (b) The doctor professes to uphold his Hippocratic oath and help the sick and the ailing, to help them to better physical health and mental happiness.

   (c) The lawyer claims to help people in legal troubles, to uphold the law and serve justice, and to protect the individual's constitutional and civil rights.

The fact is all three are crassly mercenary, selling deceit and double-talk. Their main interest is taking in money and ripping off the public.

2. In actuality all three are a highly commercialized business, so much so, in fact, that they are a deleterious racket, intruding on the personal lives of people who "believe" in them. For this blind faith the public has in them, all three extract a heavy fee from their gullible victims.

3. All three are based on highly concocted conjectural dogma, each in their own category. This dogma is then heavily fortified with, and defended by, massive propaganda, much of it for more than two thousand years. Each will not only vociferously defend their dogma, but will brook no opposition. In the case of the doctors and the lawyers, they have gone further, and formed tightly knit unions, a closed shop, as it were, and will viciously attack either by ostracism, legal actions, deprivation of license, and/or other penalties to keep any outsiders from cutting into their racket.

The Catholic Church, during the Dark Ages, had the tightest "closed shop" of all. It not only used ostracism and excommunication against those recalcitrant members who would not toe the official line of their current dogma, but used the ultimate in terror to enforce its creed. The thumbscrew and the rack, burning at the stake, and other such gentle means of persuasion were the order of the day.

Whereas today's fractured churches no longer have the supreme

monopoly on using force and terror, nevertheless, ostracism and excommunication are still used very effectively by the Catholics, the Mormons and several other Christian cults.

4. All three of these rackets cut deeply into the private life of each citizen, and all three owe their basic attitude, their long-standing dogma to the treacherous influence of the Jewish power structure.

5. Furthermore, the medical and legal professions are heavily staffed by Jews. **The percentage of Jewish doctors and Jewish lawyers far exceeds that which their percentage of the total population would warrant.** But more than that, the control of the American Medical Association (AMA) at the top, whether on the local, state, or national level, is overwhelmingly Jewish. The same thing is true with the legal profession. The predominance of Jewish judges, the Bar Association's control of lawyer's guilds, of legal publications, all are heavily staffed with Jews, Jews and more Jews.

In the case of Christian preachers, the Jews, of course, cannot openly be a Christian preacher and a Jew at the same time. Nevertheless, the Jews wrote the Christian bible and told the Christian preachers to go out into the world and peddle the idea that the Jews, and the Jews only, were God's Chosen. This the Christian idiots have been doing faithfully for nearly two thousand years. Furthermore, through such organizations as the National Council of Churches, the World Council of Churches, the Conference of Christians and Jews, and hundreds of other "Christian" organizations the Jews lay a heavy hand on the doctrinal teaching of the goyim, all of which leads to the worship of the Jews and the Jewish Yahweh, and the glorification of modern day Israel, today's foremost parasite.

Also the publication of most of the Christian literature, such as model sermons, monthly publications, or whatever, is in the hands of the Jews. This is true whether it be the bible thumping Baptists, or the Presbyterians, or the Episcopalians, or the Mormons, or even the Mennonites. Back of it all is the hidden hand of the Jew.

6. All three professions are based on deceptive dogmas, on blatant lies. They are based on the con-artist's approach of "TRUST ME," never mind the evidence.

7. All three professions prey on the gullibility and superstitions of mankind. They capitalize on the misery and weaknesses of the human race, not by solving their problems, but by exacerbating and compounding them, and even inventing phoney problems that don't exist. A prime example of the latter is a Christian preacher convincing his gullible victim that he is going to "hell," a fictitious idea that has no basis in reality. It is, in fact, a horrendous concept invented by the Jewish scriptwriters by which they have over the centuries gained a handle on the minds of hundreds of millions of the goyim. We will have more to say about this in the following paragraphs.

8. According to the Protocols of the Elders of Zion, specifically No. 6, it is the objective of the Jews to consolidate all the reins of power into fewer and fewer hands, which are, of course, Jewish hands. (See Page 217, Nature's Eternal Religion.) All three of the "Holy Trinities" are doing just that so that more and more centralized control can be exercised from above.

9. All three of these mercenary con-games are not financially rewarded by solving your problem as quickly and as easily as possible, even if they could. On the contrary, it is in their financial interest to exacerbate, compound and prolong your problem, imaginary or real, as long as possible, and extract the maximum fee in so doing.

In summation of these nine points, let me say this: All three professions are based on deceit, on fraudulent lies, designed to exploit the goyim, particularly the White Race. Behind them all lies the hidden hand of the perfidious Jew in his fanatic obsession to destroy the White Race and enslave the mongrelized product.

Let us examine in further detail how this is being done, and take each of the professions or "callings" one at a time.

A. The Christian Preachers.

The Christian bible, both the "Old" and the "New" Testament, were written by Jewish scribblers. The "Old" Testament was supposedly written by such characters as Moses, Joshua, Jeremiah, Ezra, Nehemiah, Isaiah, Ezekiel, Micah, Obadiah, Solomon and a passel of other Jews, all of whose names are alien and repugnant to the innermost essence and nature of the White Race. Furthermore, as far as authentic history is concerned, with perhaps the exception of David and Solomon, all are fictitious and unheard of. I have grave doubts that such people as Moses, Joshua, and the rest of the passel of Jewish characters that are mentioned in the Old Testament ever existed. I am convinced that they are no more authentic than the myriad of characters enumerated in the Mother Goose rhymes. In any case, fictitious or real, they are all as Jewish as Henry Kissinger.

We now come to the New Testament, the hero of which is a character named Jesus Christ, which character the bible plainly tells us was a circumcised Jew, the seed of the House of David. Authentic history has no record that such a character ever existed, and until such time as the Christians come up with some meaningful evidence, we are entitled to conclude that said character too, is fictitious, a figment of the imagination.

But, who wrote the New Testament? Supposedly the whole Christian ethic is based on the four "Gospels" — Matthew, Mark, Luke and John, who (again, supposedly) were disciples of a fictitious Christ. History has no knowledge of these characters either and we can logically conclude that until such evidence surfaces (not likely

at this late date) that these characters, too, are fictitious and an invention of the Jewish conspiracy.

However, it was Saul of Tarsus who wrote over half of the Christian New Testament with his Pauline epistles, and there is substantial historical evidence that not only did he indeed exist, but he was the mastermind that concocted the whole Christian conspiracy in order to humiliate and destroy the great Roman Empire. (See *Creative Credo No. 43, "Confessions of a Jew — The Devastating Ramifications of Paul of Tarsus and Christianity in Destroying the Roman Civilization."*) This Jew — and practically any Christian Minister will admit that he was a Pharisee Jew — wrote more than half of the Christian New Testament. The other incidentals, Matthew, Mark, Luke and John and the 12 disciples of a fictitious Christ were all admittedly Jews, according to Christian literature.

* * * * *

I have said earlier that all three of the Holy Trinity are based on highly concocted conjectural dogma. This is especially true of the Christian "belief." This unworldly "faith" is based on the presumption that there are a flock of spirits (we call them "spooks") floating around in the atmosphere, or above it, or somewhere. The preachers con you into believing that although no one has ever seen, heard, felt or smelt a single spirit, there is a vast world of spirits existing out there along with the real world. Not only does it exist, they claim, but it is really much more important than the real world, because, they say, the real world will pass away, and when we die we will all turn into spirits and live forever and ever.

Now comes the real hooker, the real power play. These con-artists, known as preachers, claim that while we, the people, are alive these unseen spirits are hovering all around us, watching us, monitoring and recording not only our every word and action, but even our every silent thought. Talk about thought control in communist dictatorships! These sneaky little bastards (supposedly) hovering over and around us are evidently more efficient than the most sophisticated computer could ever be.

Comes the day when we shuck our mortal coil, we, too, become a spirit, but our troubles are far from over. All these little gremlins that have been monitoring and recording our every deed, word and thought now spring into action and haul us up for trial. We are now called on the carpet to account for our every deed, word and thought that has ever transpired during our long and eventful lifetime, and woe betide those of us who failed to shape up. For those poor unfortunates (99 percent) there will be wailing and gnashing of teeth as we are tossed into the fiery pit. (Those who were toothless when they died will be provided with a set of teeth so that they can gnash.)

What percentage will be able to cut the mustard and what percentage will be gnashing in the fiery pit? Well, according to the confusing set of rules, regulations and guidelines set forth in the New Testament just about nobody will be able to shape up and just about everybody will be wailing and gnashing. (Read again, "Getting to Heaven — Mission Impossible" Page 172 of Nature's Eternal Religion.) Not a happy prospect to look forward to, and hardly the "Glad Tidings" so many preachers contend Christianity has brought to a long suffering world.

But there is hope, the preachers say. Through the blood of Jesus Christ, in conjunction with their ministrations they can get you off the hook. Just keep coming to church every Sunday and put money in the plate (lots of money) and he, in collaboration with J.C., will save your soul from the fiery pit. It is a foolproof racket, and nobody has ever come back from the "Great Beyond" to press charges and demand a refund.

One question these con-artists will never explain to you is this: Who built this fiery pit in the first place so they could torture all those billions forever and a day? Who set the goddamned booby trap?

In compliance with Jewish Protocol No. 6, the Christian powerplay, too, is drawing the net tighter and converging more and more power into select and fewer and fewer hands. Whereas we have had the evangelical tent show artists, such as Billy Sunday, Elmer Gantry, Billy Graham and their ilk around for a hundred years and more, with the advent of the electronic age the scene is shifting to really big bucks on a national scale. We now have such electronic con-artists as Pat Robertson, Oral Roberts, Rex Humbard, Jimmy Swaggart, Jim and Tammy Bakker who persuasively peddle the spooks in the sky racket for a financial rake-in that far exceeds that which used to be the national budget of the entire nation in the days of Calvin Coolidge.

Many of these spook peddlers rake in 50, or 60, or 70 million dollars a year, and Pat Robertson, who now feels he has the cash flow (of about $340 million a year) and the muscle, thanks to TV, has decided to run for President.

One thing every one of these con-artists have in common is this: they are all unanimously in favor of the parasitic state of Israel, they all preach that the Jews are God's Chosen, and are rarely ever attacked or even criticized by the Jewish press. Of course.

B. We now come to the Medical Profession.

The heart of their dogma is the practice of medicine. What is medicine? Basically medicines are drugs, which are chemicals, which are inherently poisonous to the human system. Doctors claim that these poisons, if and when administered through their loving

care, can and do cure different illnesses that may afflict you.

For administering these potions and poisons unto you and into you they will not only charge you a pretty penny, but an exorbitant fee, a king's ransom in fact, that is yearly rising faster than inflation or the cost of just about any other product. But then, what the hell, look at all the years and money these fellows had to expend before they could legally be qualified to practice their voodoo art.

How valid is the theory that "Medicine" and the practice thereof cure illness?

Well, if you have cancer, it will take you about three years (on the average) to die after being subjected to a frightful ordeal of cut, burn and poison. It will also cost you, or your insurance company, or your relatives, about $50 thousand (on the average) to die this gruesome way. On the other hand, if you had cancer and never went near a doctor, your chances are you would (on the average) live another thirteen years, without being subjected to the torturous cut, burn and poison ordeal.

Here are a few more statistics. Records show that 40 percent of all deaths are iatrogenic, that is, directly caused by treatment administered by doctors, or the hospital staff. One ex-doctor who has written a book about his colleagues calls hospitals "Temples of Doom."

Here are a few more indicators. When doctors have gone on strike (as they did in Canada, in Los Angeles, in Israel, and other places) it was noted that deaths declined sharply and undertakers complained loudly.

Has the general health of the people improved with the ever increasing sophistication of "medicine?" No, it has not. People in America and other advanced nations are today sicker than they have ever been. More people suffer and die from cancer, heart disease, arteriosclerosis and other systemic ailments than ever before.

How about the practitioners of medicine — the doctors themselves? Well, strangely (and not so strangely) they are on the average sicker, mentally and physically, than the victims they treat. More of them commit suicide, more are addicted to drugs, more die of heart attacks, cancer and other systemic diseases at an earlier age than does the average individual who never goes near a doctor.

A recent (1986) Harvard University survey of doctors shows that more than half of the physicians and three-quarters of the medical students had used drugs (we are talking about marijuana or cocaine) at least once for self-treatment, to get high, or to help stay awake. Over half the doctors up to age 40 have used drugs recreationally and 38 percent have continued to use drugs, mostly marijuana and cocaine, to get high with friends. Three percent of the doctors and five percent of the students reported drug addiction at some time.

An additional four percent of the medical students were judged by researchers to have been at risk of abusing drugs at some point.

Dr. William McAuliffe, who directed the study which was published in the New England Journal of Medicine, added this comforting sop, however: "When psychoactive drug use becomes a fad and is approved by the broad spectrum of society, just about all groups get involved."

In other words, everybody is doing it, so what the hell, what if the doctors are somewhat more drug happy than the average yokel? Does that sound reassuring to you if you were lying there on the operating table and wondering if the doctor wielding the knife was high on cocaine? Not to worry, says the good doctor, only one percent "admitted" that their drug abuse had caused them to give poor care to their patients. Does that reassure you? It does not really answer the question how many were high on drugs at the time they treated patients but did NOT admit it. How many doctors would?

I could prolong this analysis to a greater length than this article warrants, but we have already covered the subject of medicine and its errant dogma fairly thoroughly in several chapters of the *White Man's Bible* and in *Salubrious Living*, and there is no need to prolong it here.

Let me, however, point out the Jewishness of the practice and the dogma.

The medical profession is one of the costliest and most lucrative rackets now in existence, even exceeding that of peddling hard drugs. (The latter is catching up, though.) In order to keep it so, the AMA has one of the tightest closed shops since the Inquisition of the Dark Ages. Woe betide any doctor who does not ascribe to the official dogma of the AMA. Ostracism, debasement and punitive strong-arm legal action await those who will aver that drugs do not cure illness.

The AMA, heavily staffed by Jews, runs a tight ship. They are one of the most affluent and powerful lobbies in the country to make sure that they and only they will have the legal monopoly to peddle "legal" drugs and practice the art of cut, burn and poison.

In true conformity with Protocol No. 6 to centralize the power into fewer (Jewish) hands, huge medical clinics and complexes have sprung up all over the country. These are run by a financial syndicate, operate strictly for profit and exclude other doctors from using their clinics, beds, or any part of their facilities. Strictly commercial, controlled at the top, and many of them operate nationwide in chains, as would any good hamburger business.

C. We now come to the third member of the Holy Trinity, the Lawyers.

Back about 400 years ago William Shakespeare already

recognized the sinister influence of the legal profession and in one of his plays — King Henry VI, he had one of his characters suggest "The first thing we do, let's kill all the lawyers," in order to remedy the situation.

But lawyers aren't all bad. They have a keen sense of loyalty and have their priorities neatly proscribed. The priorities of their loyalty run precisely in this order:

1. The first loyalty is to their pocketbook.
2. The second loyalty is to the Bar Association.
3. The third loyalty is to the bench.
4. The fourth loyalty is to their fellow colleagues.
5. The seventeenth loyalty is to their client, who pays for it all.

Of the three Holy Trinities, the legal profession is undoubtedly not only the most heavily infested with Jews, but it is also the most Jewish in its essence. They have their own set of unspoken and unwritten rules and every lawyer is keenly aware of them:

1. Never buck the Jewish establishment.
2. Never defend a White Man in his demand for his constitutional rights.
3. It is alright to do so for a Jew, a nigger or a Mexican, even a Cuban.
4. Never expose (or even question) the counterfeiting racket of the Federal Reserve.
5. Always urge the client to submit to governmental regulations and "guidelines", no matter how arbitrary or tyrannical.
6. Never sue another attorney for malpractice. (A handful of mavericks have violated that rule and have more business than they can handle.)
7. Never allow a layman to cut into their business, even though the constitution entitles him to do so.

Earlier I have stated that neither the preacher, the doctor, nor the lawyer is really interested in solving your problem, or problems, quickly or easily. If he did so he would be letting you off the hook too cheaply. When you come to them with a problem they want to capitalize on your misery to the ultimate since that is the basis of their livelihood. The best way to do so is to prolong your case as long as possible and keep you coming back indefinitely.

This is especially true of the lawyers and it raises havoc with the client, who is the victim. The client is seldom aware of the fact that when he enters the lawyer's office, the lawyer sees dollar signs in front of his face. He looks at his client as a milch cow to be milked, that he is planning to take his client to the cleaners. Seldom does the client realize this until the disastrous experience is behind him.

All my life I have tried to stay away from lawyers as much as

possible (also preachers and doctors.) However, when you do bring a problem to a lawyer it has been my experience that the first thing he will do is try to scare you to death, impress upon you that you are in deep trouble, and how lucky you are that you came to him just in the nick of time. He will then make several unnecessary moves that will compound your problem and involve you even deeper than when you first entered his office. This is especially true of divorce cases. (This observation from the cases of others. My wife and I are still married after 40 years.) He will then try to drag your case on and on, all the while impressing you with legalese mumbo-jumbo as to how professional he is, how complicated it all is, and how we need to go through endless moves and motions in order to "win" the case. He has a well rehearsed program for milking you dry.

The end result usually is that the only winner is the lawyer, who ends up with most of your assets, and chances are 50-50 that he will lose your case for you as well. Even if he "wins," you are usually no better off than before, but the lawyer is, and he couldn't care less about your situation. As I said before, his first loyalty is to his pocket-book. Rev. Don Johnson, who is joining with us as our layman legal consultant, regards the average bar lawyer as a "paid legal whore."

Not only has the whole corrupt legal racket been in the hands of the Jews from time immemorial, but of late there has been an ominous escalation to bring control of the massive collection of lawyers into fewer and fewer hands, strictly in accordance with Protocol No. 6.

We have all read financial articles in recent years about numerous megamergers of huge corporations in the airline business, in the oil business, in the field of banking, and many others. Not so aware, however, has the public been about the recent growth of megafirms in the field of law. The public image of lawyers still is that of a consortium of two or three lawyers, or perhaps even a dozen. This, however, is no longer the case. Huge legal megafirms are now in, the coming Jewish vogue, and they are expanding their bases with a vengeance.

Only as recently as eight years ago, the *National Law Journal* conducted its first survey of the biggest law firms in the country. They found that only one firm at that time employed more than three hundred lawyers. Today there are 28 such firms that have expanded (or merged) to that size, and there are 11 of those that have more than four hundred lawyers.

In his forthcoming book **"Power of Attorney: The Rise of the Giant Law Firms,"** author Mark Stevens says, "Ten years ago there was really no such thing as giant firms. Now there are these enormous firms that dwarf all others." Stevens defines a "megafirm" as a group of financially oriented law firms that employ more than three

hundred lawyers.

"You have a profession today where a lot of midsize and smaller firms are struggling for business and profitability, and the giants have twice as much work as they can handle," says Stevens. "They (the megafirms) have really cornered the market of corporate law."

The largest law firm today is **Baker & McKenzie** (now there is a nice Anglo-Saxon name! Would you care to bet that the overwhelming membership consists of Jews?) with 808 lawyers on its staff in 1986. Within 18 months it expects to pass the one thousand-lawyer barrier, the first firm to do so. Although it has no "main office," Baker & McKenzie has 31 offices dispersed over six continents. Big business, including the law business, is going international with a bang, and with its explosive expansion the control at the top is converging into fewer and fewer (Jewish) hands, as Protocol No. 6 has so clearly prescribed.

Gibson, Dunn and Crutcher (again, notice the Anglo cover) a 546 lawyer firm based in Los Angeles, had 115 law students working for it in its summer program this year (1986), which number in

Washington Post,

itself a short while ago would have been considered enough to staff a major law firm.

So we see from the above that the legal profession is moving progressively into that centralized state of affairs where fewer and fewer Jewish hands control more and more of the power below, as envisioned in the Protocols. We also know that behind the courts is the strong-arm police force of the whole state, the law enforcement agencies. This includes the local police, the state police, the FBI and the CIA, as well as a myriad of other special law enforcement agencies, such as BATF, and of late, we have seen the special SWAT teams in action. It is in the courts, however, that the decisions are made as to whether a murderer or a rapist is to be let off scot-free (which they often are) or whether a law-abiding White freedom fighter is to be framed and put away for the better part of his life (which also happens repeatedly). So we can safely conclude that whereas the shyster game played by the lawyers may be corrupt and chaotic, it is nevertheless extremely powerful and crucial to our welfare and survival.

Conclusion:

Although there are any number of other major influences, such as government, education, finances, and several others that severely affect our lives, we of the Church of the Creator zero in on these three, the Holy Trinity, as being the most important. If we, the White Race, can get a handle on these three areas we can get control of the government, the finances and, in fact, control of our own destiny and wrest it out of the hands of our pathological enemy, the sinister and rapacious Jew.

This we must do, and we of the Church of the Creator have a pervasive and meaningful program to do so.

* * * * *

Welcome to the Distinguished Order of the Holy Trinity.

The Church of the Creator has a basic and far-reaching program whereby every White Racial Comrade has an opportunity to become a preacher, a doctor and a lawyer in his or her own right, and all in the same person. We must realize that despite the fact that these three major fields are now occupied by a horde of con-men and swindlers that, nevertheless, religion, the physical well-being of each White individual, and the legal protection of our interests, are of prime importance. If we, the White Race are determined to survive we must get a handle on them, we MUST get control.

This we can do and the Church of the Creator has already taken two of the major steps in order to do so.

We have already instituted a basic new religion for the White Race to replace the Jewish spooks-in-the-sky swindle that hundreds of thousands of preachers have been peddling for 17 centuries. Now, by studying our Three Basic Books and the supplemental books, (which will further be expanded) any good member of our church can become an ordained minister and not only correct his or her own basic outlook on life, but also help straighten out the confused and muddled Jew-concocted philosophy with which his or her fellow kinsmen have been afflicted for the better part of their lives.

In the Health and Physical Fitness area that the drug-oriented AMA doctors now dominate, we also have a far-reaching and meaningful answer. By each and every Creator practicing *Salubrious Living* and promoting and teaching it to others, we can destroy and replace these odious "Temples of Doom" that now kill, injure and poison hundreds of thousands each year, and milk the general population of somewhere around three hundred billion dollars each year as well. (It will be much higher in the coming years.) We can and we must expose this nefarious cut, burn and poison racket, and educate the general public that drugs DO NOT HEAL, but on the contrary, they are toxic to the human body.

In this respect, besides our basic book, *Salubrious Living*, which covers the subject pretty thoroughly, and needs little further amplification, we now have a series of video tapes forthcoming that will add significantly to the health program. **Mr. T. C. Fry**, who is head of the Life Science Institute, is coming out with a series of 12 video tapes on the subject. You have probably read several of Mr. Fry's excellent articles under *Salubrious Living* in past issues of *Racial Loyalty*.

Let me make it clear that whereas I know Mr. Fry personally, he is not connected with the Church of the Creator in any way, but is head of a dynamic health movement based at 6600 Burleson Road, Austin, Texas 78744. He is undoubtedly the leading proponent today in the field of Natural Hygiene, and, in my opinion the rightful heir to the late Herbert M. Shelton, who recently died at the age of 90. Mr. Shelton has probably written more significant material on Natural Hygiene than any other man in history, and we owe much to his longstanding contributions over the years.

Let me further make it clear that the teaching of *Natural Hygiene* and *Salubrious Living* are practically identical, except that *Salubrious Living* includes a significant chapter on Eugenics, (i.e., genetic health) a subject that, unfortunately, *Natural Hygiene* has ignored.

We now have the first video tape of the series of 12 being compiled by Mr. Fry and we find it to be professional and well done. It

covers the subjects of (1) The 19 Elements of Health, (2) Food Combining Principles, (3) The most commonly asked questions about Natural Hygiene. This tape is the first of the series of 12 tapes, each of which is approximately 90 minutes in length.

This briefly, covers the second step, an ongoing process.

We now come to the third step upon which we are embarking, which is to provide our members with legal know-how in order to protect themselves, their property and their racial religious activities from the onslaught of the hostile Jewish establishment. We have become painfully aware that there is practically no lawyer that is a member of the bar who is not mortally afraid of the wrath of the Jewish establishment and will risk losing his license by defending the White racial cause. Nor will any establishment lawyer fight a case for you that involves defending your civil rights based on the constitutional guarantees. This they will dismiss as "not their specialty," and in any case it would cost you $100,000.00 and you would have to take it right up to the Supreme Court, they say. For niggers, Puerto Ricans, Cubans, Mexicans, Jews (especially Jews!) yes, no problem. But never, in any case, for a White racial freedom fighter.

Therefore we have to build a new force on the legal front, the citizen lawyer, the layman lawyer, who has the legal knowledge and expertise to fight his own case pro se, and not only his own, but who can also manage and provide expertise on another's case who lacks that skill and knowledge. There are a number of such layman lawyers active now, and it is surprising (even to the bar lawyers) how often they win.

In this matter we are most fortunate in having the able assistance of Rev. Don Johnson, formerly of Houston, Texas, who has joined us and is now residing at the headquarters building of the Church of the Creator. He and his gracious wife, Bobbi, are a most welcome and significant addition to our staff.

Rev. Johnson is now planning to institute a series of law classes at our school and our church during the coming months.

In any case, I am convinced that this third segment of our program, the legal action field, along with the Leadership courses for Gifted Boys that we intend to pursue, will do much to complete a powerful, well-structured program to give the Creativity movement the muscle and the know-how to survive and expand.

We therefore intend to build a corps of the elite which we will call the Distinguished Order of the Holy Trinity. Those who qualify will receive a Certificate of Membership.

In order to qualify, you must first become an ordained minister of our church, the requirements of which are set forth in *Racial Loyalty* No. 10, and again on Pages 189 and 196 of *Expanding Creativity*.

Secondly, you must become well versed in *Salubrious Living*,

which can be done by reading our basic text of the same name, and passing a proscribed test, the details of which are still to be formulated. Studying T.C. Fry's video tapes will also be of considerable help. Thirdly, by taking Rev. Don Johnson's law course and passing an exam at the end of it, will qualify a Creator to become a certified member of the Distinguished Order of the Holy Trinity.

That is our program. We want to build an army of qualified members. It is our passport to life, liberty and happiness and the redemption and resurrection of the White Race. So let us get to work and DO IT.

* * * * *

The medical profession is based on the false premise that drugs, which are chemical poisons toxic to the human body, can "cure" ailments.

* * * * *

By the time of the Middle Ages (The Dark Ages) the Christian church had already perfected all the basic techniques of torture, terrorism and mind-bending later to be copied by the Communists. Both are Jewish inventions.

When you ask the question: What is the alternative to Creativity? The answer is loud and clear: The dismal demise of Nature's Finest.

The Wildest Stories Ever Told

Part I of a Continuing Series

The Story of Adam and Eve

From time immemorial mankind has pondered some of the philosophical mysteries of the universe. These mysteries are endless and most of them will not only never be solved, but for many the questions have not even been framed. Some of the common questions that the inquisitive mind of the White Man has been asking during historical times are such as these: How did it all start? When did it all start? Who made it all? Where did we come from? What is our purpose in life?

Whereas the Church of the Creator does not have the answers to all, or any of these questions, it has at least set these questions in their proper perspective and looked at them squarely in the face, in an open common sense approach. For instance, in answer to the first three questions posed, the article "Not Likely a Who" in Booklet No. 101 examines these questions and delineates the areas we don't know, and those we do know, without engaging in endless hocus-pocus, superstition and double-talk. The last two questions are covered in a similar manner in *Nature's Eternal Religion* under the chapter "Our Purpose in Life" page 263, and many other supplementary chapters in both *Nature's Eternal Religion* and the *White Man's Bible*. All our conclusions are based on the Eternal Laws of Nature, on the Experience of History, on Logic and Common Sense. Nobody, I believe, has ever come up with a more reasonable approach, nor a more solid foundation on which to base a comprehensive and cohesive philosophy.

We now come to the other side of the coin — the kind of conclusions, lies and fairy tales our religious enemies, the Jews, have concocted for us, the White Race, in answer to some of these basic philosophical questions. Let us see what they have come up with, using superstition, hocus-pocus, ignorance and exploiting the gullibility of the masses. Let us see what kind of a story they have concocted.

Let us start at THEIR beginning, which is Chapter I of Genesis, the Old Testament, all of which was written by Jews.

According to their story everything that exists in this universe started only as recently as six thousand years ago. To be more exact, at 9:30 in the morning, on a Tuesday in the year 4004 B.C.E. That is the big watershed. Before that there was nothing. Then suddenly all hell broke loose.

Before that time there was no universe. There was nothing but darkness and void, and a lone, idle spook floating around in that darkness with nothing to do, nothing to see, nobody to talk to, leading an extremely useless and boring existence. Then, suddenly in that point in time, 4004 B.C.E., he got the brilliant idea of creating "heaven and earth" out of nothing. (It was a he, the Bible says so. Without any female counterpart, how could you tell, and what difference would it make?)

This he did on the first "day." What this spooky story fails to mention is that at the same time he also must have created that ghastly fiery pit in which he intended to torture people — millions and billions of them — people he had not even then "created."

How do we know he created the fiery pit the same day? Well, he laid the basic foundations of the firmament that day and hell was, and is, more basic in his plan than anything, because, the good Jewish book says, "heaven and earth shall pass away," but not hell. Besides, since hell is evidently where most people' souls are destined to go, (something like 99 percent, a conservative figure) it is, undoubtedly, the biggest project of all, the most important and the most permanent.

Let us not forget this key item in the Christian religion: HELL. It is the threat of hell, it is this diabolical brow-beating, to stampede the gullible yokel into obeying and pretending to believe anything the priesthood dictates that is the central driving force of Christianity.

We now come to the story of Adam and Eve. After all the creating this lonesome spook had done for five days, finally, after smugly surveying his handiwork and almost as an afterthought, he created man. How did he do it? Simple. He took a piece of clod, blew into it, and presto! there was instant Adam, full-grown and full-blown. The first thing Adam did after he was full-blown was take a snooze (there was little else to do). As the great Creator was still in a creative mood, he viewed Adam while he dozed, and suddenly he was seized by another brainstorm! He decided Adam needed a helpmeet, a female helpmeet, something the superspook, although a male himself, had never had the privilege of having. So he created Eve.

How did he do that? Well, to make the story more interesting, instead of taking another clod and blowing a whiff into it, he did a strange thing. He took a rib out of Adam instead, and presto again! in no time at all he had a female helpmeet for Adam.

And that, my dear friend, if you're willing to believe this droll episode, is how our first ancestors got their bearings, and this less than six thousand years ago. Never mind that there are fossil finds that show our human ancestors, such as the *homo sapiens*, were already present 300 thousand years ago, or the genus *Australopethicus boisei* already appeared 1.8 million years ago and

A. afarensis more than three million years ago. Just act dumb, pretend you can't read, and just believe! believe! believe! the Jewish scribblers. If you don't, they've got that terrible weapon, HELL, hanging over your head.

Anyway, so there they were, Adam and Eve in the Garden of Eden. Where was that lovely garden? Well, again, the scriptwriters are sort of vague about that, but presumably, it was somewhere on the face of the earth.

Things were going great at the beginning of the first day. Although Adam and Eve were naked as jaybirds, no problem. Christianity hadn't been invented yet, telling them that sex was evil. That was still another four thousand years down the road.

But soon there was trouble in paradise. In fact, it appeared in the middle of that very first day in the form of that evil serpent, called Satan (another spooky spook). Where he came from, the scriptwriters seem to have deleted from the script, but if we piece the pieces together, we must presume that the all-powerful, all-wise Creator created him too. (Satan, too, is a he, with no female counterpart, poor devil. It was strictly a man's world up there.)

Now at this point there is a queer quirk in this story, and it doesn't make much sense. For some reason God pointed out to Adam and Eve that there was one tree in the middle of the garden whose fruit was a no-no, they mustn't touch, they mustn't eat. If they did — horrors! They would have their eyes opened and know the difference between good and evil. So! They had been warned.

Along comes this slippery evil villian, the talking snake. (Everybody in this little party could already converse fluently with each other, although Adam and Eve were not even a day old. Evidently they conversed in perfect Hebrew, which hadn't been invented yet. But no matter. Adam and Eve didn't know that, so they had no problem talking with the snake.)

Now this snake was a real con-artist, and for reasons not too well explained he wanted to buck the establishment. In fact, he wanted to torpedo this nice, cozy little set-up and aggravate the hell out of the head honcho, the Lord himself. So he conned Adam and Eve into eating this forbidden fruit. First Eve took a bite, then gave the apple to Adam, who also took a chomp out of it. (We presume it was an apple, because I have seen a picture of an apple that Eve had taken a bite out of. The picture was used as a reinforcement to advertise Eve Real Estate.)

That did it. All hell broke loose. The superspook was mad, really mad. They had disobeyed HIS command! He would punish them for that, and severely, too.

Suddenly Adam and Eve were up on the carpet before the superspook. Their eyes were opened and suddenly they had become

wise. (Evidently prior to eating the fruit their eyes were closed and they were dumb.) In their new wisdom they suddenly realized they were naked and they were ashamed.

A little later, as the Lord was nonchalantly walking the garden in the cool of the evening, he did not see Adam and Eve anywhere around. (It was a big place!) They had hidden themselves, because now that they knew they were naked they were ashamed, and they also had the first pinges of a guilty conscience.

So the Lord called out, "Adam, where art thou?" He knew very well where Adam was, since he knew everything, but he was playing games with them. Also he figured if Adam showed up his helpmeet would be there too.

Adam responded from behind the bushes and said, "I was afraid because I was naked and I hid myself." Brilliant dialogue.

And the Lord said, "Who told thee thou wast naked? Hast thou eaten of the tree, whereof I commanded thee that thou shouldst not eat?"

The superspook had him there. But Adam took it like a man and blamed his wife. (Husbands have been doing the same thing ever since.)

"The woman whom thou gavest to be with me, she gave me of the tree, and I did eat."

Well, the fat was in the fire. The Lord was a vengeful fellow, and he was mad as hell. He cursed the serpent, told him he would have to crawl on his belly as long as he lived and eat dirt all the days of his life. There is a little bit of befuddlement here, since supposedly he was speaking to Satan, and all the pictures of Satan I have seen in Sunday school show him deftly dancing around on his two cloven feet, with horns on his head and fire in his eyes as he waves his red hot poker.

But poor Adam and Eve. He drove them out of the Garden (the very first day yet!) He cursed Eve and vowed to greatly multiply her sorrows and in sorrow shall she bring forth her children. (Did she already know about children that very first day?)

As for Adam, because he had harkened to the voice of his wife and eaten of that damned apple, he, too, was to have a sudden, drastic, shameful fall. The Lord cursed the ground that Adam would have to farm and decreed that it bring forth thorns and thistles just to aggravate Adam. Not only that, but he would have to work like a mule and eat his bread by the sweat of his brow.

So there you have the story, according to the Jewish scriptwriters, as to how your first human ancestors got their start in homesteading among the thorns and thistles.

Looking at it from the long dispassionate distance of six thousand years, I would say Adam and Eve got a raw deal. After all, why

did the superspook put that goddamned tree in the middle of the garden unless he wanted to booby-trap them. Was that fair? Why did he send that slippery snake of a Satan over to con them? After all, they were less than a day old and as innocent and naive as a new born babe. How would they know whom to believe? And while all this conning was going on where in the hell was the superspook who hears all, sees all, knows everything forwards and backwards? Why didn't he rush to their defense, unless he deliberately wanted an excuse to drive them out of the garden as he had planned to do all along.

Not only were Adam and Eve severely punished for having walk-ed into the booby-trap set by the superspook himself, but on top of that all of us millions and billions who are supposedly their progeny, we too are now guilty of their little faux-pas, which now has been full-blown into the "original sin."

So there you have the story of Adam and Eve as concocted and recycled from earlier pagan religions. This was done by the ignorant superstitious Jewish scribblers a few thousand years ago, and it has absolutely no relevancy to reality, nor is there any shred of historical evidence to substantiate this fantasy. Considering the importance that billions of gullible yokels have attached to this cock-and-bull tale, it is in fact, one of the silliest stories ever written.

Purpose of this Series

The overriding goal of the Church of the Creator is the survival, expansion and advancement of the White Race and the immediate goal is to free the White Race from the worldwide yoke of Jewish tyranny. In order to achieve both goals it is necessary to build a massive powerful movement that can smash the Jewish monster. Before the White Race can ever be in a position to unite, polarize and build such a power structure it will first of all have to get its thinking straightened out. This it can never do as long as it entertains in its innermost thoughts that most diabolical of all mind-scramblers, Jewish Chris-tianity. By using ridicule and exposing this idiotic age-old spooks in the sky swindle, we believe we can best help lead the White Race back to sanity, common sense and a healthy constructive attitude towards its own best interests.

Political parties are prone to enter compromises, but a weltanschauung never does this. A political party is inclined to adjust its teachings with a view to meeting those of its opponents, but a weltanschauung proclaims its own infallibility. — Adolf Hitler

The demise of Latin, the White Man's foremost language for more than two thousand years, is no accident. It is completely in line with the Jewish dictum of "always kill the best first." They deliberately set about in a gradual, but determined program, to first minimize Latin, then kill it altogether.

It is the aim of the Church of the Creator to reverse this Jewish atrocity. We plan to first restructure and modernize, then restore Latin as the universal language of the White Race.

I TALKED WITH GOD

Undoubtedly, you might think that I would be the last person in the world with whom God would have an in-depth, heart-to-heart talk, or even a *tete-a-tete*. But not so. There is every reason why he should, and the fact is, he did. The time was October 25, 1986, and we spent a cozy six hours, from 2:00 P.M. to 8:00 P.M. of that day, reviewing and discussing the overwhelming problems of the world, a world that is now in utter chaos and rapidly coming apart at the seams.

Talking with God is not really a new phenomenon in my family. My dear departed mother, bless her kind, loving soul, used to talk to God on an almost daily basis. Brought up along the strictly orthodox Mennonite creed, her religion was as vital to her as her daily bread and butter, if not more so.

Then there is my youngest sister, who is four years my senior. Although a sixth grade drop out, she suddenly got bitten by the Christinsanity bug some 45 or 50 years ago. She too, talked to God and claimed that God told her she should become a missionary in South America, which is overrun with those sinful, deranged Catholics. She promptly enrolled in a Bible school in Alberta and after a year or two of further intensive indoctrination she went to Colombia, South America, to "convert" these misguided Catholics, who, she was told, worshipped the "Church of the Devil". In Colombia she met another bible-thumping Christian missionary and they were soon married. Eighteen years and eight children later they returned to Canada, after having confused a relatively small number of Catholics with their own brand of Christianity. She may not have drastically changed the course of Christianity in South America, but she did do something very constructive. She contributed eight beautiful, healthy children to the White Race, and who could ask for more than that?

But going back to talking with God, and who can and who cannot talk to him. We have the story of Job in the Old Testament in which it says that one day "the sons of God came to present themselves before the Lord and Satan came also among them." Now we should remember that this was written long before there was a New Testament telling about the supposed birth of Jesus Christ. At this time God evidently already had a number of motherless sons, of which Jesus Christ was not one, but Satan was. Not only was he

a son of God, but evidently the most favored of them all, since the rest of the chapter chortles about how he and God had themselves a jolly good sport tormenting the hell out of poor old Job over a period of years. Who the other motherless sons were, it doesn't say, and we can assume that they got less than their share of fatherly attention.

Be that as it may, surely, if he can have a friendly chat with Beelzebub himself, he should certainly be willing to talk to a fine upstanding fellow like myself, whom he created in his own image. In any case, I want to state at the outset here that my credentials for talking to God are as good as those of any man in history. I challenge any doubting Thomas to produce meaningful proof to the contrary.

Then there is the story of Joseph Smith, the founder of the Mormon religion. Although he had all the morals of an alley cat, and "sealed" at least 50 women officially (and at least another 100 unofficially, and had a lot of fun doing it) he, too, claimed he talked to God. Well, if not God directly, at least his somewhat camouflaged surrogates. Anyway, and be that as it may, his deified and edified successors claim they have a direct hot pipeline to God, and get ongoing, (although strangely contradictory) messages from him repeatedly, and five million Mormons believe both Joseph Smith and his subsequent purveyors of this weird and confusing story. The most recent message from God to the head honcho was in 1978, when President Spencer W. Kimball claimed God told him to forget all previous directives to the contrary and invoke race-mixing in the Mormon church with all deliberate speed.

I could add here, that according to the Old Testament, God also communicated repeatedly and incessantly to the point of nausea with such pimps, murderers, whoremongers and swindlers as Abraham, Isaac and Jacob, but since in no way do I want to be in the same pen with such swine, we will blot them out summarily and flush them down the memory hole.

Now I'll admit, God and I have not been on the best of terms for the last fifty years of my life, and many is the time I have thanked God for not believing in him, and I still do so today. But no matter. I am as well qualified to talk to God as anybody. If Pat Robertson can talk to God, and have him tell Pat not only to run for president, but also how to run the country, why, so can I. If Oral Roberts can stand there and see a nine hundred foot high Christ looming up in front of him, telling him to build a half billion dollar medical center, then I, too, have such prerogatives. If Jimmy and Tammy Bakker, Billy Graham, Rex Humbard, and a host of other electronic conartists can talk to God, and have God talk back to them, well, so can I. I am here to tell these bible-thumping escapees from Cloud

Nine that they may be far more adept at scrounging for the big bucks, but they have no monopoly on talking to God. After all, we are all equal in the eyes of the Lord and we poor sinners too can establish a pipeline, even a hotline, to God. After all, if God can have habitual cozy chats with Satan himself, as he has done for the last six thousand years, why shouldn't he talk to Ben Klassen? After all, I am the founder of a highly constructive religion, a religion designed to save from extinction God's finest handiwork, the White Man, whom he created in his own image. Surely, he also would be interested in saving his most precious creation from pollution, contamination and devastation. The fact is he is very much interested, and he told me so.

The occasion was on a Thursday on the date I mentioned earlier and I was sitting at a big table in the empty meeting room of our Church, mulling over the miserable fate of the White Race unless there was soon some powerful intervention that at present had not yet materialized. Suddenly, as I looked across the big table, there was God, smiling at me.

Before I go into detail about our heavy conversation, let me first of all describe a clear picture of him as he appeared to me. Now we have all been burdened for centuries with this ancient image of God as was portrayed by Michaelangelo on the ceiling of the Sistine Chapel, namely that of an ancient Patriarch with blue eyes, white hair, and a long, flowing white beard. In fact, we have always pictured him as a wise old sage, but so old and grey that he is well over the hill and practically senile. Nothing can be further from the truth. Although he had been around from time immemorial, he appeared to me as a vibrant young man, about 35 years of age and in the prime of his life. He was handsome in a manly sort of way, average in height, but athletic of build. He had wavy blonde hair and blue eyes. He seemed, in fact, the epitome of the ideal Nordic. His voice was vibrant, resonant and mellifluous.

So there we were, sitting across the table from each other, eyeball to eyeball. He was smiling (he had gleaming white teeth) and he started the conversation.

"Ben, this may come as a surprise to you, but you and I have a lot to discuss and I want your undivided attention." His smile set me at ease.

I admitted I was surprised, but I quickly assured him that I was all ears, and had been wanting to discuss some extremely crucial matters with him for some time. I further assured him that he was most welcome to make his appearance here in our church, and did he mind if I turned on the tape recorder so that I could record our meeting for future generations. He declined the latter request on the basis that some pecuniary Yid would undoubtedly get hold of the tape sooner or later, botch it up to suit the Jewish storyline and fur

ther confuse an already too mixed-up world. He also said he had some secret directives to relay on to me as to how to deal summarily with the Jews, a matter that was for my ears only. I quickly realized the gravity of the situation, and that this was no incidental happenstance meeting, and therefore quickly withdrew my request about the tape recorder. Since he was not the type to waste a lot of time with meaningless chit-chat (he is a busy spirit, having a whole universe to run) he immediately got down to the nitty-gritty.

"Ben," he said, (I was pleased we were on such intimate terms) "I am here to tell you that I am extremely pleased with the course the Church of the Creator has taken. When I created this Planet Earth, I had in mind that mankind, whom I had created in my own image, would have at least the sense of a bird-brain and would follow my Natural laws. If you look at the world around you, you will find millions of species — animals, birds, reptiles and insects. In each creature I have implanted the natural instinct to propagate and perpetuate its own kind, to multiply its own kind, in short, to take excellent care of its own. Not only to preserve and take care of its own kind in the face of all opposition, but to cull out its defects and to upgrade its own species for a more secure and compatible existence on this Planet Earth. One of the basic natural laws I have promulgated in order to achieve this perpetuity and continual improvement is the segregation of not only each species, but even each sub-species to its most intricate hair-splitting difference. There may be 250 sub-species of hummingbirds, but each sub-species mates only and exclusively with its own."

"Then you are strictly in favor of racial segregation for the human race?" I asked.

"Absolutely!" he thundered, as he smashed his powerful fist down upon the table. "What is now happening to this once beautiful and pristine human race is the most disgusting spectacle that has occurred in the course of the living species over the last several billion years. It is an utter abomination in mine eyes. When I created the human race it was a beautiful intelligent creature. I proudly created it in my own image, as you see me today. I also created monkeys, gorillas, niggers and other inferior sub-species, such as you call the mud races, but that is another chapter. In no way were they representative of the human race, nor did they have any remote relationship to my own image. That there is now a total bastardization of all those inferior creatures with the human race I created in my own image, is a flagrant violation of my natural laws. What is now left of a muddled and contaminated 'human race' is going to pay dearly for that transgression."

"Then you don't consider the niggers and mud races as part of the human race?" I queried.

The color was rapidly rising in his florid cheeks and I could see the wrath of God erupting like a volcano before my eyes.

"Do I look like a goddamned stinking Hottentot? Do I look like a filthy New Guinea headhunter?" he thundered back at me with fire in his eyes.

The whole room was beginning to vibrate and I shook in my cowboy boots for having asked such a stupid question. "No," I admitted meekly, "you sure don't, and I retract the question. But what about the Mexicans?"

"I loathe and detest the Mexicans. I hate all mongrels whether they categorize themselves as humans, or whether they are in the bird, animal, insect or reptile groups. In fact, if you will open your eyes you will learn from the laws of Nature, which I instituted and are MY laws. You will learn that nowhere else outside of the degenerating human race will you see such bastardization taking place. Only in that species to which I have allocated the most precious treasure — intelligence, creativity, even genius, do I now regretfully find those precious gifts being trampled in the dirt and cast before swine."

"But what about the Jews? They claim that they are God's Chosen, and that you made a special covenant, an exclusive promise to them that they could have the world as their oyster. Even most Christians believe that. Is there any truth to that claim?"

I could see the color rising in his face once more and again there was fire in his expressive eyes.

"It is a damnable lie! The Jews are the excrement of humanity — doomed forever to be miserable parasites until such time as the White Race again regains its senses, its pride, and its fighting courage. It is this very issue that I came down to talk to you about, and we will get back to the Jews later. First of all let me put the picture in proper context for you.

"When I created this beautiful Planet Earth with its majestic mountains, with its clean lakes and rivers, its pristine forests replete with green meadows and beautiful flowers, I did not have in mind the despoilation and contamination to which the air, the water and the land has now been subjected. My beautiful Planet Earth, which is distinctly unique with life and which I created as the apple of my eye, has now been polluted, ravaged and raped! This must stop!

"Basically at fault is that greedy, grasping parasite, the avaricious Jew. He has first of all bastardized and contaminated the supreme pinnacle of my creation, the human race, and when I say that, I do mean the White Race, which I created in my image. Having despoiled my pride and joy, he then rapidly proceeded to exploit the intelligence of the White Race and despoil, pollute and contaminate my beautiful Planet Earth as well. Whereas the parasitic

Jews are the prime cause, I blame the White Race secondarily for allowing this abomination to be foisted on them and on the planet. The time has come for a drastic accounting and a ruthless correction."

"This brings me to an extremely important question I have been wanting to ask," I interjected. "The Sermon on the Mount repeatedly preaches the idea of perpetual subsidization of the misfits. 'Blessed are the meek, the halt, the lame, the idiots. Sell all thou hast and give it to the poor. Love your enemies,' etc. Yet this is completely contrary to all the laws of Nature followed by every other creature. What is your position on that issue?" I asked the great Creator.

"Of course it is completely contrary to my eternal laws and contrary to common sense. It is another treacherous and destructive idea spread by the parasitic Jew in order to sap the vitality of the human species, drag it down into helpless degradation and feed on its carcass. In their blind fury to do so they are too dumb to realize that when the parasite destroys the host, the parasite will die with it.

"Anyone observing the healthy propagation and perpetuation of the species, any species, will note that in order to stay healthy and viable, the culling process is absolutely essential. Cull out the misfits, the weak, the sick, the deformed. Do not allow them to reproduce. Put a premium on the reproduction and expansion on the strong, the healthy, the virile, the competent. Every species in Nature does so, except the White Race. This is an abomination in mine eyes, and it must change, and change immediately."

"But," I said, "all this runs counter to all the claims of the Jewish-Christian bible, which they say was written strictly under your direction. Then obviously you disavow writing it?"

"Most definitely! It is another abominable Jewish lie! Think about it! Would I write such garbage as having the Jews, that despicable parasite, as my 'Chosen People?' Would I care to have my image desecrated as that of a parasite? The very idea is enough to make a sane person throw up. The Jews, I am telling you right now, are going to have to pay, and pay dearly for such an insult to me. I will wipe this miserable pestilence from the face of the earth!"

"What about Christianity, the Catholic church and the popes?" I queried further. "What about the story that you fathered a son called Jesus Christ...?" Again, I saw that fire in the eye and a volcanic erruption of fury. I was sorry I had raised such a sensitive question.

"The story that I would stoop so low as to fornicate with a mere earthling, that I would commit adultery with a married woman and a Jewish hag at that, is one of the most repulsive rumors ever promoted by the dregs of mankind. Think of it, Ben! Here I am busy running a universe, so vast your little minds cannot even begin to encompass it. The galaxy in which your sun is placed and which you

call the Milky Way, alone consists of 200 billion stars more or less equal to the sun. But the Milky Way is only one of billions of other galaxies that stretch out in endless space and into infinity. I created all that and manage all that. This little planet you call Earth, is only a speck of dust in that vast and endless firmament. Do you think for a moment that I would indulge in such stupid peccadillies as humping a married Jewish broad?"

I admitted that I never did believe that stupid story, and apologized for even bringing it up.

"This idiotic rumor was recycled by the Jews from previous myths. It was then sold to the popes, who then peddled it with gusto. Damn the scurvy Jews! Damn the lying popes! If there really ever was a hell, I would gladly relegate all the Jews and all the popes to stew in it endlessly."

"You say 'if there was a hell'. That, too, is a myth, is it not?"

"Of course it is a myth, in fact, another contemptible slur on my character. Anyone who would create people by the billions and then build a huge fiery hot furnace in which to burn and torture them, would have to be a monster — a despicable sadist of the worst kind. Why in the hell would I want to commit such a horrible monstrosity?"

I admitted that no one in their right mind would, and that I never really believed that stupid story either. But why had this story reached such widespread publicity and acceptance?

"The cunning and treacherous Jews realized early in their conspiracy that by creating a horrible monster, a bogey-man so horrendous to contemplate that the average gullible yokel would panic at the very thought of it, that they would then have a weapon in their hands with which to cudgel and enslave their superstitious and gullible victims. This they contrived to do. They then sold it to their mouthpiece, the Catholic church from which the thousands of other Christian religions have spawned. As you can see, through this perfidious apparatus the Jews now control the wealth and the people of the world. But more than that, they are now destroying the very people that I created in my image, they are contaminating and polluting my beautiful Planet Earth, to which I devoted so much special care and attention."

"You say there is no hell. I presume then that it follows that the story about devils and demons is also a myth?" I queried further.

"Yes, of course. Even a fool should be able to see that Nature's laws are MY laws. Who else could and would institute such a vast complex of harmonious laws but I? Who else could get them to function and mesh perfectly? Now would I then louse it all up by creating a hostile adversary to continually throw a monkey wrench into the works and aggravate the hell out of me? Only an idiot would do that, and believe me, I'm no idiot. I never make mistakes, but if I had

blundered into creating a hostile, aggravating troublemaker I would remedy the situation in the flash of an eye. I would smash such abomination to smithereens and waste him in the outer fringes of the universe. The story about the devil, as the one about hell, and the rumor about my affair with the non-virgin Mary is a despicable lie, invented and spread by that perfidious parasite, the Jew."

"What is the solution?" I asked.

"That is the very reason I came down to see you. I am determined that this lovely Planet shall not be desecrated and polluted into a pigsty. I am determined that Nature's Finest, created in my own image, shall not be bastardized into a shameful mess of mongrelized zombies, to be ruled by the excrement of humanity.

"No! I will smash the goddamned Jew and wipe him from off the face of this beautiful green earth! I have chosen Creativity to be the instrument with which it shall be done. It is up to your movement to remind your racial comrades that the Laws of Nature are MY laws. If you want the truth and if you seek wisdom, do not waste your time reading and re-reading the idiotic, contradictory and slanderous shibboleths contained in that nefarious collection of nonsense known as the Jewish-Christian bible. It is the most insidious pack of lies ever assembled between two covers.

"No, indeed! If you want truth and wisdom, look to the Eternal Laws of Nature. They are MY laws. Who but I could create such a well coordinated and functioning system of laws that dove-tail beautifully in eternal harmony, that have functioned from time eternal and will forever continue to do so in the eternal future. These are MY laws, and mankind would do well to observe, to reason and to learn."

Having given me this intensive background briefing, the Masterplanner then got down to the essence of our prolonged meeting, namely his secret directives to me as how to deal summarily with the world's foremost parasite and its most persistent plague. He swore me to secrecy and then set forth the detailed plan and program. Whereas we, the White Race, needed much further preparation and build-up in the fields of organization and propaganda, he reminded me emphatically that we already had the means and the muscle to institute it now if we would get our act together. He would, however, give me a clear signal when he deemed us ready to strike and resolve the issue once and for all. At such time I should go public with the directives he had given me and broadcast them to the world at large.

He went further, "I hereby make a solemn promise and a binding covenant with the White Race, whom I created in my own image and love above all others. If your people, who are also my people, will obey the Laws of Nature — MY laws, rouse up your courage,

and your will power, unite and fight, not only for your survival, but also for your expansion and advancement, I will bless them to become super-beings, a true human race, in fact, demi-gods, faithfully created in my own image, a creation of whom I can truly be proud."

"In Creativity, you have made the first stumbling attempt to steer the best of mankind in my direction, to obey the Eternal Laws of Nature. I am here to tell you that you have my blessing and that you will succeed, I promise you. It is my will. God is on your side."

I was thrilled. I was exhilarated! I blushed and looked down on the floor. When I looked up he had vanished. But his message was indelibly etched in my mind. Now I didn't have to depend on the garbled and confusing reports of such con-artists as Billy Graham or Pat Robertson or all the rest of that money grubbing ilk. Nor would I ever again waste my time trying to unravel all that confusing and contradictory claptrap attributed to Moses, or Jesus Christ, or all the rest of that Jewish passel, whoever they were. Now, I had it directly from the highest authority, ex cathedra, straight from the horse's mouth! I heard it with my own ears. We were on the right track! It was God's will! We were going to win! God was on our side!

The Wildest Stories Ever Told

Part II of a Continuing Series

The Story of Noah and the Great Flood

Some years ago someone gave me a thick, heavy bible that was published around the turn of the century. A novel feature about this particular book, a King James Version edition, was that it captioned every page in the Old Testament not only with titles, but also with a precise date, as if to emphasize that each of the events and stories chronicled was an historical fact, whose year in history was well known. Apparently 80 or 90 years ago, they could get away with indulging in the risky art of lying with pretended precision. Today no publisher would dare to emulate such effrontery.

In this particular edition the date attached to the Great Flood story was the year 2348 B.C.E.

Now let us examine just what the King James Version says about that Great Flood that supposedly covered this Planet Earth to the top of its highest mountains and beyond. It is a droll story.

In Genesis, the first book of the Jewish bible, is unravelled the story of how a lonesome spirit floating aimlessly in the dark void for the last zillion years, suddenly, only six thousand years ago, got the brilliant idea of creating "heaven and earth" out of nothing. He wrapped up the whole job in six days, and more or less as an afterthought created man on the sixth and final day. He then told man to go to it, be fruitful and multiply and populate the earth with people. (See "The Story of Adam and Eve" in Racial Loyalty No. 37.)

This apparently they did with gusto, according to Genesis, but they had this damn nagging flaw in them — they were "sinful", and each generation continued to be as sinful as the previous, if not more so. Finally this began to get under the Creator's skin and he got mad — real mad.

He decided something drastic had to be done and he had just the ticket for these nasty sinners: he would drown them all, like a bunch of rats. That should not only solve the problem, but also teach them a lesson they would never forget.

In Genesis 6:12 it says: "And God looked upon the earth, and behold it was corrupt; for all flesh had corrupted his way upon the earth." Nowhere does it say that perhaps the Creator had somehow botched his prize creation, man, and done a sleazy job. Afterall, he

knew what he was doing, knew the precise consequences forwards and backwards, and everything was under his control. Why did he inject this sinful characteristic into mankind if he didn't like it?

The bible doesn't answer this question, but pretends it was totally the fault of the product rather than the designer, because "He gave man a freewill". Freewill in what direction?

Be that as it may, he decided to take precipitate action and get rid of his masterpiece — all of them — all except a fellow by the name of Noah and his immediate family.

Now this fellow, Noah, by this time was six hundred years old, and we would think that after having been under close observation for all that time a shrewd judge of character would have selected a paragon of virtue to be the lone surviving progenitor of the future race. Strangely enough the lonesome ghost made a poor choice, a boo-boo, in selecting Noah, as we shall see later.

Anyway, God told Noah what was coming up and he had better get ready for it. In Genesis 6:17 he says to Noah: "And behold, I, even I, do bring flood waters upon the earth to destroy all flesh, wherein is the breath of life, from under heaven; and everything that is in the earth shall die."

Poor animals; poor birds; even all the creepy-crawlies were to die. In fact, all flesh. However, it does not mention that all the fish — who also were flesh — would have a field day.

So the Lord told Noah to get ready for the greatest deluge in history. He told him to build an "ark", a sort of floating motel for people, animals, snakes, insects and birds. He told him to build it out of gopherwood and to build it in three stories. It was to be 300 cubits long, 50 cubits wide and 30 cubits high. Since a cubit is about 18 inches, this would make it about 450 feet long, by 75 feet wide, by 45 feet high, three stories yet — no small project to hammer together by the stick method, especially since nails had yet to be invented.

The Lord gave this six hundred year old man and his three sons, Shem, Ham, and Japheth, seven days in which to do the job. Not only were they to hammer together out of gopherwood this huge monstrosity in seven days and seal it watertight with pitch, but there is more, much more, they had to cram together in seven days.

The Lord instructed Noah to gather into this floating motel at least one pair of every kind of creature on the face of the earth, since he was going to drown all the rest along with his sinful people. Poor animals, birds, reptiles, and insects. What had they done to deserve this? Such a waste.

When you analyze the immensity of the job Noah had to perform in seven days, it staggers the imagination. Poor fellow, and him being six hundred years old. In Genesis 6:19 the Lord commands

Noah: "And of every living thing of all flesh, two of every sort shalt thou bring into the ark, to keep them alive with thee; they shall be male and female." Now, "every living thing" of course, also includes insects, not to mention animals, birds, reptiles and other categories. Since approximately six thousand years later scientists claim there are at least 10 million species of insects of which they have, after all these years, gotten around to identifying and cataloguing only about 10 percent, you can form some idea of the immensity of the job that Noah had on his hands.

According to a pulicologist, Professor Robert Lewis, there are 2,381 species of fleas in this world. (A pulicologist is a flea specialist, of which there exist only about a dozen.) Now, did Noah realize there were 2,381 species of fleas to round up and did he faithfully catch two of each, male and female, and put them in the ark? Or did the poor jerk know a flea from a louse? On having put 4,762 fleas into the ark, how did he keep them from spreading to all those cooped up animals and multiplying into the billions? The Jewish scriptwriters neglect to shed any light on this problem, as well as hundreds of other problems.

He only had seven days to do it in, which included building the ark itself. Would you believe your own daddy if he told you a tall tale like that?

But the Jewish scribbler's who wrote that story complicate it further by saying in the next chapter, Genesis 7:2: "Of every clean beast thou shalt take to thee by sevens, the male and the female: and beasts that are not clean by two, the male and the female."

So, Noah had a further problem: deciding which beasts are clean and which are unclean. Are elephants, rhinoceroses, hippos, and giraffes clean? I presume they are as clean as any animal, at least in their own habitat. So evidently, he would have to round up 14 of each of these, as well as horses, zebras, deer and antelope, not to mention lions and tigers and monkeys and gorillas. The task is endless, and even Frank "Bring 'em back alive" Buck, could not have accomplished this little feat in a lifetime. Then there are all those birds to catch, and all those snakes, pythons and cobras, and alligators. (I wonder how he got to Australia and back to catch the kangaroos and wallabies?) What a fantastic job — all in what was left over of the seven days after he got through building the ark.

But the job doesn't end there. They were to be cooped up in this watertight box for a whole year. It only had one small window at the top, one cubit square, and it was closed because it was raining. There was no light from any source, no electricity, no ventilation, no air conditioning. All these animals had to be provided with at least a year's forage of whatever food they preferred. How would you like to gather enough hay to feed 14 elephants, rhinos, hippos, giraffes

and thousands of other animals? Also, the lions, tigers and other meat eating animals, they, too, had to be fed and there was no cold storage refrigeration on board. On top of this was the messy job of cleaning out all the manure and offal from all these thousands of animals. Who was in charge of that stinky job? Fourteen elephants alone can do quite a job in short order. If all these animals were really in there and properly fed, they would have sunk that stinking ark within a week from the sheer weight of the refuse alone.

Anyway, according to this wild story the Lord himself sealed the door of this watertight box after they were all in, hay or no hay. A trainload of hay would not have fed all those browsing animals, and a million rabbits would not have fed all the meat eating animals for a year. If all these "creatures of the flesh" could have been crammed into that dark and unventilated box (which they could not) they would all have suffocated from the stench and lack of oxygen within 24 hours. Whoever wrote that dumb story certainly didn't take logistics, or even the slightest modicum of common sense into their calculations.

So, what with Noah having built the ark, rounded up all the millions of "creatures of the flesh", presumably provided them with ample provender, and also for his own family — all in seven days — the Lord sealed the door and let her rip.

In Genesis 7:11, 12 it says: "In the six hundreth year of Noah's life, in the second month, the seventeenth day of the month, the same day were all the foundations of the great deep broken up, and the windows of heaven were opened. And the rain was upon the earth forty days and forty nights."

Evidently all you had to do was open the windows in heaven and the water will gush out by the oceanful. Now that is real news. I had always been told that heaven was a wide airy place inhabited by harp playing angels. But evidently I was misinformed. It is filled with billions and billions of tons of water. Since that huge fiery pit called hell is right next door to it, I would presume that they would have a rough time containing all that water and getting a good hot fire going at the same time. Or having done so, why doesn't the good Lord have mercy on all those poor sinners cooped up in that fiery pit, open the windows on the hell side and douse that excruciatingly painful fire? I'm sure the victims therein would appreciate it, even if he had to drown them all along with it. It would be a lot better than eternal torture.

Good point. Why doesn't he open the windows on the hell side, deluge it with all that water, douse the fire and drown the inmates. They would greatly prefer that, I'm sure. It would be a tremendous "relief from that burning sensation."

Getting back to poor Noah and his family cooped up in the ark,

with all those millions of “creatures of the flesh,” and all that stench.

According to this wild story as it rained for forty days and nights, the waters rose and rose until it covered all the land of this fair planet, over and above the highest mountain tops. Now considering Mount Everest is more than 29 thousand feet high, that is one hell of a lot of water, more than our atmosphere could ever hold, or again re-absorb. But no problem for the scriptwriters. Within a year it had all subsided, and dried up. Noah and his family all survived beautifully and not a single “creature of the flesh” had starved or was lost in the stench and the darkness. After one year, the land was dry, the forests and the flowers were all intact after having been submerged under six miles of water for a year, and all the animals, birds, insects and reptiles traipsed out the door, happy as a lark and healthy as all get-out. Not a single mouse, mosquito or louse got sick or died during that year they were boxed up. Wasn’t that nice.

So every creature resumed mating and multiplying (with gusto!) to make up for lost time. They now had a brand new world to fill!

After building an altar to the Lord, Noah, “took of every clean beast, and of every clean fowl and offered burnt offerings on the altar.”

Since there are thousands of beasts and fowl in this world, one as clean as the next, it must have been some bang-up barbecue. But the Jewish God, being a bloodthirsty monster, relished it greatly. After drowning millions of people, and billions of “creatures of the flesh” it says: “And the Lord smelled a sweet savour.” Nothing like burning flesh to get his juices flowing. He must really get his kicks sniffing the burning flesh of billions in hell. The Jewish Bible is full of offerings of burning flesh. Anyway, that smell of burning flesh mellowed him and he promised Noah that he would never again do what he had just done — that is drown everybody, no matter how rotten they were. Just to remind himself not to pull this nasty trick again, he set a rainbow in the cloud, just to make sure he would remember to cease and desist and not go overboard again.

But to get on with the show. Apparently a layer of water six miles high for a year had not noticeably affected the forests, the trees, the grasses and the meadows, nor the vineyards, for it says, Genesis 9:20,21: “And Noah began to be a husbandman and he planted a vineyard: And he drank of the wine, and was drunken; and he was uncovered in his tent.”

Poor Noah. Back to his old tricks of nipping at the kickapoo joy juice. He not only nipped, he was stinking drunk and naked in his tent, dead to the world. While in this shameful condition, his three sons, Ham, Shem and Japheth saw him. The latter two were embarrassed and covered him up. But apparently Ham was a fag, a homo, and he went back and committed an obscene act with his drunken father.

It says in Genesis 9:24: "And Noah awoke from his wine and knew what his younger son had done unto him."

He roundly cursed Ham and doomed him to be a "servant of servants to his brethern", in other words, a slave. Not only did he doom Ham to a slave, but, all his descendants as well. All the dark skinned, niggers and muds are considered by theologians to be the descendants of Ham.

And so, we have another episode in the family of the Noahs as they set out to become the progenitors of all future mankind. The Lord had goofed again, and made a lousy choice in picking such a drunken lout as Noah to be the father of future mankind. (See C.C. No. 54 in the White Man's Bible, "The Lonesome Ghost Blunders from Blooper to Blooper all at the Expense of Suffering Humanity".)

Drunk or sober, the now 601 year old Noah lived on for another 350 years after the flood, if you care to believe such a wild story.

Evidently there are intelligent men and women, people who should know better, who will strip gears, throw their brains out of gear, and profess that such a wild story is the "gospel truth". This despite all the accumulated knowledge of history, geology, astronomy, anthropology and paleontology that overwhelmingly indicates: that the world has been around for approximately 5 billion years; that there has been life on earth for more than two billion years; that man's ancestors can be spasmodically traced for more than a million years; that civilized peoples, such as the Egyptians, existed long before the supposed "Great Flood" of 2348 B.C.E.; that their dynasties were recorded in considerable detail long before that date; and that the deserts on either side of the Nile were as dry before that date as after. Also, their Pharoahs lived normal life spans and none reached the ridiculous age of 951.

On the other hand, all that supports (if you can call it support) such a wild story is the lying claims of Jewish scriptwriters whose veracity at best is notoriously the worst in history.

Yet intelligent and well-educated people, and I use these descriptions loosely, will go and organize expeditions at great expense to their donors, to find traces of a lost ark, an ark that never existed. They will go to Mount Ararat in Turkey, where the non-existent ark is supposed to have made landfall. There is not the slightest connection between Mount Ararat in Turkey and the Jewish account, except for coincidence that some yokel during the Byzantine rulership of Asia Minor chose the name Ararat for an inconsequential mountain, just as hundreds of other names were picked out of the bible by Christian zealots.

When these modern day "explorers" then find some old decrepit piece of wood on the slopes of Mount Ararat, they will scream to the world that they have found a relic from Noah's ark and a

cooperative Jewish press, with tongue in cheek, will gladly spread the story for them. The Christian zealots of today, as in past centuries, will vociferously gobble it up and point with certainty that here is concrete evidence of Noah's ark and that the Great Flood did indeed cover all of the earth.

How crazy can you get?

We Creators take the position that: It is not only morally justified, but our beholden duty to ridicule that which is ridiculous when such garbage is deceitfully being disseminated as the "Gospel Truth".

It is not only morally justified, but our beholden duty to ridicule that which is ridiculous when such garbage is deceitfully being disseminated as the "Gospel Truth".

The Christian con-artists in two thousand years have never even bothered to define the basic product they have been so vociferously peddling. Pray tell me, Preacher, what is a "spirit"?

The Wildest Stories Ever Told

Part III of a Continuing Series

The Story of
ABIE, IKIE AND JAKIE

Once upon a time there (supposedly) lived three Yids. Their names were Abie, Ikie and Jakie, and they were father, son and grandson, respectively, but it cannot be said, respectfully. They were swarthy yellow Asiatics, and in their Gypsy-like travels they roamed in the areas of Mesopotamia, Egypt and that pesthole in the desert that has been in perpetual turmoil since Ancient Times. It was called Palestine.

These three Yids were strictly from hunger and abhorred doing an honest day's work. So they specialized in becoming con men and swindlers. For this they had an inborn proclivity and soon became experts in their field. Over the years they also became the most celebrated and notorious liars and swindlers in history.

Their special gimmick that really propelled them into the BIGTIME was to invent themselves a tribal god, for whom they had a number of names. At one time or another it was Yahweh, Jahwah, Jehovah, Immanuel, Emmanuel, and a whole passel of other Jewish names.

Now, they claimed this tribal god considered their nefarious antics as something sacred and beyond reproach, and had edified them and their descendants as a very special people. They further claimed that because they had this special privilege they now also had a license to indulge in any kind of criminal activity they pleased. So they soon became experts in pimping, thieving, whoremongering and in murder. They also developed an infamous reputation for being the world's most prolific liars. They skilfully plied their trades on Gentiles, whom they termed as "goy", their derogatory term for cattle. They were, it must be said, notoriously successful.

Abie and Ikie got their start in a remarkably similar way. When they got hungry they peddled their wives as prostitutes to a rich king or Pharaoh. By the time they got through confusing their victim with the proclaimed powers of their tribal god and blackmailing them with the dire consequences their tribal god would wreak on them, they usually walked off with loads of gold, silver, oxen and asses.

Strangely, old Abie's wife Sarah was barren, but somehow they managed to come up with Ikie when he was ninety-nine and she was ninety. They attributed it to the miracles their tribal god could perform. But then they used the same ruse for every other fantastic lie they conjured, so who knows?

Anyway, the favorite target of both Abie and Ikie was this same King Abimelech who must have lived a long time. He evidently didn't learn much over all those years, because Abie peddled Sarah as prostitute when Abie was seventy-five and she was an old hag of sixty-six. (These Semites get to be pretty haggy out there in the desert by the age of sixty-six.) It is extremely hard to understand why an affluent King such as Abimelech would fall for an old Jewish prostitute of that age when he undoubtedly had a choice of dozens of young beauties in his own realm. Be that as it may (and we must remember these Yids were notorious liars) it is even more strange that this same King some sixty years later fell for the same gimmick again when Ikie came around and peddled his wife, Rebekah, off on him. As had his father, Abie, so Ikie too walked off with a ton of loot. This he soon squandered, because in the third generation, Jakie was again hurting, strictly from hunger.

However, their miracle worker Yahweh produced another one of his slight of hands for his pet conniving Yids. Jakie had twelve sons by two wives, and one of these sons was called Joe.

Joe was an astute hustler in his own right after his brothers sold him into slavery. (These Yids would do anything for a little loot. Such a deal!) He managed to lie himself into the confidence of the Pharaoh of Egypt. Soon he had the Pharaoh so bamboozled that he didn't know which end was up and Joe was soon running the kingdom.

This opened the door wide to all the other Yids and their kidlings and they soon multiplied, overran the kingdom and looted it dry. All with the blessing of their own private Yahweh, of course.

This fairytale goes on and on, and ends happily for the Yids, but not the rest of the world. As told in the Yiddish Old Testament, the descendants of these original con men multiplied until they numbered as many as sands on the ocean beach, or at least so their private Yahweh promised they would. (Most of his promises weren't worth the paper they were written on.) Anyway, this robber band of Yids soon overran Egypt and were shortly in control of all the food in the land, as well as other goodies. They got so obnoxious the Egyptians finally ran them out. (The Yids claimed they left on their own free will, under the leadership of their hero by the name of Moses.)

After wandering in the desert for forty years and being fed intermittently by their private Yahweh with manna from heaven, this unruly band of cutthroats invaded the lands of the Canaanites, and the Phillistines. These Canaanites and Phillistines had been doing

real well in their vineyards and the invading pirates looked upon their properties as a land of milk and honey. Since their Yahweh had promised the Yids that the world was their oyster and that any other peoples' properties were theirs for the taking, the Yids after much conniving and treachery and an occasional boost from their Yahweh finally managed to steal these lands.

We will now skip the next three thousand years in this fairytale and come to the happy ending I promised earlier. These crafty Yids, spread all over the world, and over the centuries they developed their skills in lying, deceit, piracy and thievery to a fine edge. As a result of their cunning and treachery, their cohesiveness and racial loyalty, the world now is indeed their oyster.

There is one other aspect of this deceitful story the Jews have concocted about themselves that needs to be brought out at this point. The historical fact is that 90 to 95 percent of all the Jews who roam the world today are not descendants of any Palestinian Hebrews, but are the descendants of a fierce swarthy tribe known as Khazars, inhabitants of a small kingdom that some twelve centuries ago existed in the area between the Black Sea and the Caspian Sea in present day Russia.

In the year 800 C.E., or thereabouts, the then ruling King decided it was incumbent upon him to make up his mind and choose a religion for his subjects. He had Christian missionaries brought in, also Jewish rabbis, and even Mohammedan representatives. He patiently listened to the sales pitch of each, and finally decided Judaism was his best choice. He and his emissaries then promoted it to the lower peasants with a gusto, and history can vouch for their success.

These Khazars were a swarthy rebellious tribe of Mongol stock. They were later conquered by the Russians, much to the latter's misfortune. As they spread westward into the rest of Russia, Poland, the Ukraine and Europe as a whole, they became the money bags, the traders and manipulators, not only of business, but governments as well. There was continual subversive warfare between the Jews on the one hand and the Russian Czars and their government on the other. This was brought to a climax in 1917 when the Jews turned Russia upside down, shot the Czar, and clamped the Russian people into ironclad slavery under Jewish Communism.

So when the Zionist Jews profess that they have a religious claim to Palestine, they are, as usual, lying through their teeth. Ninety to ninety-five percent of their ancestors are Khazars and never set foot in Palestine. (See again **RAHOWA!** at the beginning of this book.)

The Jews now manipulate and control practically all the governments of the world, and its tax-paying slaves as well. They also own most of the gold, silver, real estates and Federal Reserve notes

(I.O.U.'s) as well. How lucky can you get?

And it all started with the fiction of Abie, Ikie and Jakie and their private tribal god named Yahweh. Such is the power of a RACIAL RELIGION.

* * * * *

Does the above sound like a ridiculous fairytale to you? Well, it sounds like a pretty stupid story to me, and all but the happy ending (for the Yids) is probably pure fiction. It is extremely doubtful there ever was an Abraham, Isaac or Jacob, and authentic history has no record of such. The strangest part of the whole story is that the hundreds of millions of Christians, past and present, believe the fictional part of the story about Abraham, Isaac and Jacob, and their shenanigans with the double-dealing Yahweh, but can't for the life of them see the tyrannical control the Jews exercise over the world.

Since I have already explored and documented the latter premise repeatedly and exhaustively, it is not my intention to review that aspect here. Instead, I will go straight to the source and briefly review the story of Abraham, Isaac and Jacob, as set forth in the Old Testament, which constitutes approximately 73 percent of the (Jewish) Christian Bible.

The story of the Israelites begins quite early in the Old Testament. After devoting only ten pages to the creation of the universe, to the story of Noah and the Great Flood, to the Tower of Babel and the confusion of languages, it then gets down to business in Chapter 11 of Genesis and gives a genealogy of Noah's descendants (a concocted melange, of no historical value). In Genesis 11:27 it comes up with the claim that "Terah begat Abram, Nahor and Haran." It then goes on and says in Verse 29 and 30 that "Abram and Nahor took them wives: the name of Abram's wife was Sarai; but Sarai was barren..'' So now we have laid the foundation for the progenitors of a people that was to be "as numerous as the stars in the sky". But no problem. With a little hocus-pocus Yahweh can do anything, as we shall see in the next chapter of this thriller.

In Genesis 12 the Lord really dishes it out, gratis, blank check, no limits. He tells Abram to get out of this country he is in and away from his father's house, because, man, oh man! have I got goodies in store for you. "And I will make thee a great nation, and I will bless thee, and make thy name great; and thou shalt be a blessing: ..." How blessed can you get! And all this from his private tribal god of whom Abe at this time knew absolutely nothing. He had just run into him, and he wasn't going to turn down any favors or ask too many questions. It was just an everyday occurrence. Doesn't everybody run into a Superspook who has magnanimous goodies to offer?

But the Superspook wasn't through with Abie yet. There is more,

much more. In Genesis 12:3 it says **"And I will bless them that bless thee and curse them that curse thee: and in thee shall all the families of the earth be blessed."**

Wow! That is quite a mouthful, especially coming from a Superspook who has unlimited clout. How lucky can you get?

What had Abram done to deserve all this good fortune? Well, here he was seventy-five years old, and we know absolutely nothing about his past except that he had a daddy by the name of Terah, brothers by the names of Nahor and Haran, and a wife by the name of Sarai, who was also his half-sister. Does that qualify him at the age of seventy-five to be picked from the multitude of millions and be showered with a profusion of blessings? Hardly.

Considering that we know nothing of his past but plenty about his next hundred years (according to this crazy story) we can presume that he indulged in the same activities in the first seventy-five years as he did in the last hundred.

And what did good old lucky Abie indulge in after he inadvertently ran into this super-generous, super-accommodating Superspook at the age of seventy-five years?

Well, since the next nine hundred pages of the Old Testament are concerned with the shenanigans of good old Abie and his multitudinous progeny, we have plenty of material to work with.

At the age of seventy-five and after the magnanimous promises the Lord had gratuitously given him, it says that "Abram took Sarai, his wife and Lot, his brother's son ... and went forth into the land of Canaan." After building a couple of altars to the Lord on the way (the Lord just loved the savor of burning flesh!) Abram kept pressing south. "And there was a famine in the land (Genesis 13:10) and Abram went down into Egypt to sojourn there."

So here he and his cabal were finally in Egypt, strictly from hunger. What to do?

Being a resourceful pimp he decided his wife was fair game and he successfully peddled her to the Pharaoh, it says. (Can you believe — a sixty-six year old Jewish hag?) Having at first pawned her off as his sister, he then used blackmail and apprises the Pharaoh that, hey! you have been messing around with my wife, and I have a spook out there that will make mincemeat out of you if you don't pay me off and let us go.

It was no idle threat. It says in Genesis 12:17 "And the Lord plagued Pharaoh and his house with great plagues because of Sarai, Abram's wife."

Such a deal! Abram pimps his own wife and sells her to the Pharaoh and the Superspook doesn't even admonish him for it. Instead he drops a plethora of plagues on the Pharaoh, poor deluded victim that he was. Anyway, it scared the hell out of the Pharaoh,

and the ruse worked beautifully. (Abe had good scriptwriters). The Pharaoh sent Abie and Lot and Sarai and their whole kit and kaboodle on their way, but not without first rewarding all of them, including Lot, with a slew of goodies. Would any Pharaoh in his right mind ever do a stupid thing like that? (As I said, Abie had good scriptwriters.)

Anyway, they left, and in Genesis 13:2 it says *"And Abram was very rich in cattle, in silver, and in gold."* After getting into a fight with Lot about dividing the loot, they parted company and Abe went back to the land of Canaan, Lot to the land of Jordan.

Let us just stop the scenario right here and again ask the obvious questions: Just what kind of a man was Abie, and what had he been doing in his first seventy-five years before the Superspook singled him out and went berserk over him?

Well, it can reasonably be presumed that he had been doing the same thing before as he continued to do in the next one hundred years, namely pimping, whoremongering, pirating, stealing, lying and cheating, even committing murder, as we can see if we care to continue his story further, which I do not.

Yet for some crazy reason, according to this stupid Jewish yarn, the Lord God picked this degenerate, scurrilous scoundrel out of millions and promised to shower him with untold blessings. Does that sound reasonable or does it sound insane? It sounds pretty insane to me, and it doesn't say very much for the integrity of the Lord, nor much for his sanity either.

If we follow the droll inanities of his offspring Isaac, Jacob, Joseph, Judah and all the rest of that Jewish passel, we find more of the same, as the Jews are carrying on today on a grandscale. Why not? They wrote the book and it has served them well.

Since I have already capsulized the shenanigans of Abraham, Isaac, Jacob, as well as the other stalwart heroes of the Jewish cabal in Nature's Eternal Religion, I need not repeat them here. Let me just say I find them extremely disgusting and repugnant. (See Nature's Eternal Religion "The Old Testament" P. 106.)

* * * * *

Whereas the antics of these Yiddish progenitors are disgusting, despicable and repugnant, there are two aspects that are extremely strange about this concocted story.

1. The first is, why would the Jews concoct a fictitious story about their ancestry and then depict such obviously sleazy characters as their role models?

2. Even more strange is the fact that hundreds of millions of White men and women who call themselves Christians should first

of all believe these stupid and degenerate stories; and then secondly, seemingly break their necks to want to have these unsavory criminals as the heroes of their religion, even to the point of where they will claim that these despicable bastards are the Lord's chosen and are their own forefathers.

Are there some people really that crazy? Yes, there are. There are hundreds of millions of them. As I have said before, Christianity is MASS INSANITY. Once you accept the claim "the Lord wrote it", well, that is the trap door that will lead to any aberration, no matter how insane. Going even further we have such White people as the British Israelites, and the Identity crowd who will chuck their brains overboard and vociferously proclaim that we White Europeans are the descendants of the Ten Lost Tribes of Israel, the seed of Abraham, Isaac and Jacob. Frankly, I would much prefer to have an honest-to-goodness old-fashioned horsethief as one of my ancestors than these degenerate Jewish bastards. (See "Identity" and "British Israelism", Issue No. 32 in this book.)

We Creators have a great and powerful job to perform, and the first step, as I have said inmemorable times before, is to straighten out the White Man's thinking. Once we have done that much, the rest will be relatively easy.

Let us bend our energies to that noble and sublime task.

* * * * *

Promoting the idea that the White Race is the seed of pimps, murderers and whoremongers like Abraham, Isaac and Jacob is not only an insult to any man's intelligence, but also a direct insult to the White Man's genealogy.

MIND POLLUTION

Part IV of a Series on Pollution

Cleaning Out the Augean Stables

As the population explosion in the latter half of the 20th Century continues unabated, this once lovely and pristine Planet Earth is becoming unbearably polluted to the point it will no longer be a viable habitat for Nature's Finest, the White Race. In fact, what with nuclear pollution, chemical pollution, the pollution of our land, our oceans, our lakes, our rivers, our air, the stage is rapidly being set for the extinction of all life on Planet Earth, except perhaps some most primitive and bizarre aberrations. We Creators are intensively concerned about this spreading cancer and I have written a series of articles about this escalating situation. (See Issue No. 26, "Saving our Precious Planet from Becoming a Chemical Garbage Dump and a Human Pigsty", P. 210 of BWBW; Issue No. 27, "Nuclear Pollution", P. 245, ibid; Issue No. 36, "Clean Drinking Water a Scarce Commodity.")

There are several other areas of pollution that are of major concern to us and need to be brought to the forefront. In this treatise we want to examine one particular phase of pollution from **which, I am convinced, stem all our other problems of pollution, in fact, all our other problems. That area of pollution is brain pollution, or more correctly, mind pollution, of our own White Racial Comrades.**

This problem is so vast, and of such long standing, that it preceded all other forms of serious pollution in the history of our race. Whereas chemical and nuclear pollution have only become major problems in the last 50 years, mind pollution has been going on since the dawn of history. Even our major classical civilizations, such as Egypt, Greece and Rome were polluted with erroneous and destructive ideas that were dumped like tons of garbage on their gullible and receptive victims. In fact, we, the descendants of these illustrious forebearers, are the heirs of much of this ancient garbage, debris that has piled up in our minds like mounds of manure in an uncleaned barn.

All of this reminds me of the story of a Greek myth written thousands of years ago and commonly referred to as "Cleaning out the Augean Stables." This story is part of the "Twelve Labors of Hercules", and it makes interesting reading. In fact, I find that most of the classical myths of Ancient Greece and Rome, not to mention

Aesop's Fables, make much more interesting reading and make more sense than do the stupid stories about Abie, Ikie, Jakie and their alleg- ed descendants as set forth in the Old Testament of the Jewish Bi- ble. But let us get back to the story at hand.

The scene of our story is Elis, a mythical little kingdom in the Peloponnesian Peninsula of Ancient Greece. The ruler of Elis was King Augeas, but he is not the hero of our story.

The hero is Heracles, or as he is better known from the Roman myths, the one and only Hercules. The Muses sang proudly of him and proclaimed him to be the strongest man that ever lived. Whereas his great strength was a creditable asset, it also proved to be his greatest problem, as we shall see.

Hercules was the son of the god Jupiter, and of Alcmena. Since the goddess Juno was always hostile to the offspring of her husband by mortal mothers, she declared war against Hercules from birth. She sent two serpents to destroy him as he lay in the cradle, but the precocious infant strangled them both with his bare hands.

Hercules was, however, by the arts of Juno, rendered subject to Eurystheus, King of Mycenae, a weak little man who was a cousin to Hercules.

As Hercules grew up, his superior strength, of which he did not seem to be fully aware, got him into some serious troubles, the details of which we will not go into in this dissertation. Suffice it to say that King Eurystheus imposed upon Hercules "twelve labors" or almost impossible feats he had to perform in order to redeem himself.

It seems that King Augean, mentioned earlier, had a herd of three thousand oxen, whose stables and barnyards had not been cleaned for 30 years. Heaps of dung rose mountain high. No man alive could clean these stables in a year, thought Eurystheus.

In order to humble his powerful cousin, King Eurystheus ordered Hercules to clean the stables of King Augeas. This was the fifth of the twelve labors. We will not go into the details of the other eleven, but take our lesson from how Hercules neatly disposed of this par- ticular mess.

With his tremendous strength, Hercules diverted the course of two rivers, the Alpheus and the Peneus. He flooded these combined waters through the stables and barnyards of King Augeas, and wash- ed them clean in less than a day. End of story.

* * * * *

Similar to the dung and garbage that piled up in the Augean stables in 30 years, so also has the dung and debris of ideas piled up in the minds of mankind over the thousands of years. Whereas this garbage collection of erroneous, stupid and destructive ideas has been collecting in the minds of Jews, niggers and mud races as well,

we of the Church of the Creator are primarily concerned with the garbage collection that has accumulated in the minds of our own race, our own White Racial Comrades. That collection is considerable, and unfortunately, no Hercules has ever come along to flush away all the B.S. that has been assiduously dumped on the minds of our people over the millenniums. That accumulation is now so overwhelming that it may very well not only suffocate our ability to think straight, but may also render our Planet Earth an intolerable, stinking cesspool, unfit for human habitation.

* * * * *

The brain of the White Man is one of the most wonderful and complex mechanisms in all of Nature's realm. In all the billions of years that inferior life has existed on Planet Earth, nothing like it has ever been witnessed before. Or if it has, at least there is no record of it, and with all the fossil evidence we now have available to us, such previous existence is most unlikely.

The brain is the seat of our intelligence, and it houses the human mind, that ethereal quality that enables us to think, to reason, to recall, to imagine and to create. Only a healthy, well-functioning brain that is alive can do that. We know of no dead brain, of no "spirits" that can do that, although there are any number of misguided "mystics" who would have us believe such nonsense.

Just as our physical bodies need proper nourishment of food to which we are biologically adept, so too do our minds need a proper nourishment of ideas to properly function. Just as our bodies need to avoid the ingestion of poison, chemicals and toxins, so also do our minds need to avoid the absorption of destructive and erroneous ideas. In a way our minds are very similar to huge computers (but with several added advantages.) As they say in computer parlance: "Garbage in — garbage out." So it is with our minds.

Just as much of the foods, medicines, drugs, and chemicals ingested by the bodies of today's consumers are not beneficial nutrients, but in fact are out right poisons, so too, are not all ideas being slopped upon us (and especially upon our children) beneficial, nor do they necessarily "enrich" our minds. As in the choice of our foods we must necessarily discriminate and be selective, so too must we be even more careful and selective in the choice of ideas that we embrace as "our own" and profess to "believe in."

There is one further analogy between the nourishment of the physical body and the ethereal mind, and that is the accumulation of, and disposal of, toxic wastes and poisons. No matter how careful we are in the selection of our diet, the body in its natural processes generates wastes and toxins that must be disposed of daily. This we do by means of our kidneys, by alimentary elimination, by means

of our lungs, our skin, our livers and other bodily functions. If, for instance, our kidneys fail to eliminate uric acids and other wastes for even a day, we are headed for the scrap heap.

If we further abuse our bodies by ingesting drugs, chemicals, medicines and other poisons, we may overload our eliminative systems to the point where they cannot get rid of the toxins as fast as they accumulate, and the result is toxemic poisoning and death. Furthermore, there are heavy metals (such as mercury) and thousands of modern-day chemicals (such as dioxins) that accumulate in our system and stay with us for years, if not the rest of our lives.

Our minds react in a similar fashion. We are today, unfortunately, the heirs to many erroneous, harmful and poisonous ideas that have accumulated in our civilization over the thousands of years. It is these erroneous, harmful and poisonous ideas, many of them deliberately slopped upon us by our enemies, that are slowly but surely killing the White Race in this century. Unfortunately, no Hercules has yet come along to cleanse and flush out of our minds all those poisons, toxins and aberrations that are perpetrating genocide on Nature's Finest — the White Race itself. Nor is it likely that there ever will be a flushing out of poisonous ideas in one fell swoop or in one day. As Hypatia of Alexandria said in the Fourth Century C.E. "Fables should be taught as fables, myths as myths, and miracles as poetic fancies. To teach superstitions as truths is a most terrible thing. The child-mind accepts and believes them, and only after great pain and perhaps tragedy can he be in after years relieved of them." (See P. 310 of WMB.) A most astute observation.

The fact is, bad, erroneous and destructive ideas, once implanted in the mind of a child, can, like a drug addiction, linger in the mind for decades, usually for the rest of their lives. Especially those ideas implanted at our mother's knee in early childhood are the most enduring and will affect us the rest of our lives. That is why the Catholic church brags that "give me a child until he is eight, and we will own him for the rest of his life." Yes, like dioxins, PCB, DDT, which can linger in our bodies and/or in our environment for decades, or like the nuclear pollution of Plutonium which has a half-life of 24 thousand years, so too can poisonous ideas linger in our minds for decades, and in our civilization for thousands of years.

As I have already alluded earlier, unfortunately there will never be a Hercules who will come along and flush away the mountainous dung heap of fallacious concepts in one day, or in one fell swoop. It took thousands of years to build this mountainous dung heap and we are going to have to clean it up shovelful by shovelful, one item at a time. However, it need not take thousands of years to do the job. It could be substantially cleaned up in a lifetime, once Creativi-

ty is in full swing. Once the White Race gets behind Creativity, once in control of its own destiny it will be like the torrent of several rivers washing away the superstitions, fallacies and idiocies of the millenniums. We will go back to the fundamental wisdom of all eternity: **the laws and lessons of Nature.**

As a small beginning in cleaning up the mountainous heap of disinformation, I am going to start by listing at random a few of the fundamental misconceptions that have misled and confused mankind from time immemorial, and some that are of more recent vintage.

1. **The Spooks in the Sky Swindle.** Undoubtedly the most pervasive influence directing the course of human events from time immemorial has been religion. I do not condemn religion as such. A good religion can be extremely constructive, unifying and a guideline to higher aspirations. However, nothing can be more treacherous than a misguided faith in a deceitful hoax. (See *"The Spooks in the Sky Swindle"*, P. 330, WMB.)

Most religions today are based on the swindle that there are spirits, ghosts, spooks, or what have you, out there somewhere which supposedly are extremely powerful, are in control of our lives, our affairs, our world, our destiny. Not only is there not a shred of evidence to support such a supposition, but nobody has ever even bothered to define just what a spirit is. (See *"What is a Spirit?"* R.L. No. 29 in this book.)

The most treacherous booby-trap of all time that has ensnared the White Race for the last two thousand years is Christianity, an extremely destructive hoax concocted by our natural enemy, the perfidious Jew. It is driving the White Race towards self-imposed genocide.

2. Belief in life in the "hereafter", in heaven and hell, eternal life, etc. This is an adjunct of the above. Again, no evidence whatsoever, but these fantasies have been most useful tools in the hands of the enemy, using the carrot and stick approach as a club with which to manipulate the gullible, the superstitious, the weak and the cowardly.

3. The Jews are a special people, they are "God's chosen." An idiotic scam giving a major advantage to our natural enemies, free and gratis. Only a perverted monster would choose such a perfidious people as his favorite. (See *"Masters of Deceit — A Short History of the Jews"*, P. 61, NER.)

4. The Sermon on the Mount. Love your enemies. Sell all thou hast and give it to the freeloaders. Judge not. Turn the other cheek. Pluck out thine eye. Cut off your hand. All the kind of advice you would dispense to an enemy if you wanted to drive him insane enough to destroy himself. One of the basic tenets of the Christian

religion. (See “The New Testament”, P. 144, NER.)

5. **Belief in the wandering “soul”**, that we have lived in a previous life, and that our “soul” will wander into another body when we die. This is also known as **“reincarnation”**, and widely held by the Buddhists and other eastern religions. Again, there is not a shred of evidence to substantiate this superstitious nonsense, and nobody has ever even bothered to define just what is a “soul.”

6. **Belief in the “rapture”**. A segment of Christianity that believes a select few of them will be sucked up into the sky at an undisclosed moment “when the Lord returns.” How silly can you get?

7. **Belief in prayer**. Evidently the “Lord” up in the sky somewhere can be cajoled or flattered into dispensing special favors. Not unlike the practice of bribing government bureaucrats that is so rampant in most Latin American countries (and fairly prevalent in our own.)

8 **All men are created equal**. This blatant lie, imbedded in our Declaration of Independence, has done more to aid the Jews in their vicious program of race-mixing and mongrelization of the White Race than any other single statement. Nature clearly refutes this deceitful piece of chicanery.

9. In a **“democracy”** the country is ruled by the will of the majority. Not true in the slightest. America supposedly is the epitome of democracy. But the real power is exercised by big money (The Federal Reserve), by the newsmedia, and by the bureaucracy, all firmly in the hands of a small coterie of international Jewish gangsters.

10. **The Federal Reserve is a Federal Agency**, owned and run by the government. Not true. The Federal Reserve is a private gang of international counterfeiters who own and run the government, and, in fact, this same international band of Jewish gangsters runs and controls the world. (See “The Federal Reserve Board”, P. 259, WMB.)

11. **The Social Security system will take care of the present working generation in their old age**. Another blatant hoax. The Social Security system is nothing more than a deceptive chain letter in which the present generation will be left holding the bag. Whereas the system started out with one Social Security recipient being supported by 15 workers, by the year 2000 (not far away) there will be only two heavily taxed workers for every recipient. That is if the system doesn’t break down in the meantime. Every indication is it will break down long before that.

12. **Foreign Aid**. (a) We owe every country in the world a huge supportive subsidy (b) This will buy us the friendship of these “needy” countries. Both premises are false. We have been subsidizing 126 countries, more or less (mostly more), for the last 40 years. We have never been hated by more people and countries in all our history than

we are now. The world is in greater turmoil than it has ever been, and more wars, insurrections and hatreds now abound than ever. In the meantime, due to our feeding and subsidization, the mud peoples are multiplying like cockroaches at an explosive rate, all the while hating us with a passion. (See "Operation Rip-off", R.L. No. 35 in this book.)

When I was a young man, aiding the enemy used to be called **TREASON**. Now it is called **FOREIGN AID**.

13. The idea that it is to the benefit of America to carry on foreign trade with all the world, carry on unrestricted free trade, or else foreign countries won't buy from us. Another fraudulent and cruel hoax on the American worker, where the Jews have put him in the position of competing with the coolie workers of Taiwan, Korea, Hong Kong and other mud peoples, dragging him down to their dismal level. The result for all plain to see is long unemployment lines, idle factories, our key industries going bankrupt and a plummeting standard of living.

14. The idea that due to our advancing technology, each generation will naturally live a better and more affluent life than their parents. This could be true if the White Man was in control of his own destiny, but since we are being manipulated, exploited and ripped-off by the world's most deadly parasite, the international Jewish powerhouse, unless we drastically change course nothing but a dismal future of slavery and poverty is in store for the present young generation of White workers. The way the system now operates the harder a White couple works the more free-loaders the government loads onto their back. The fact is that the chance of a young White married couple ever owning their own home are much more dismal now than those of only a generation ago.

15. Tolerance is a virtue. We Creators take the position that when tolerance as such becomes a cop-out in confronting either an insult to our honor or good sense, or a threat to our race, then tolerance is no longer a virtue but an excuse for cowardice. If niggers are moving into your neighborhood, that constitutes a threat to the safety of your family and property, not to mention a property depreciation to the whole neighborhood. To be tolerant and ignore such a situation is essentially a hypocritical piece of cowardice for which the neighboring residents will pay dearly.

16. We should always respect the other fellow's customs and religions. This fallacy is concomitant to the above. Again, we take the position of reason and good sense. If the Hindus want to practice some revolting and repulsive customs in their religion such as drinking urine, making patty-cakes out of dung, blood and milk from cows, that is their affair. But we will not condone such outrageous practices by "paying respect" to them. On the contrary, we will round-

ly condemn and denounce them and make damn sure they and their practices are kept out of our territory. We Creators look at everything through the White Man's eyes, and will do our own thinking and form our own conclusions, according to our own standards.

17. *Adolf Hitler was a power mad monster.* When we study the brief history of Hitler's Third Reich, we find that while the rest of the world was floundering and wallowing in depression, misery and unemployment, Hitler brought a defeated broken people out of their misery and lifted them to new heights of pride and enthusiasm, to full employment and productivity such as the world had never seen. He also broke the back of the Jewish money-changers in Germany, drove the Jews out of the German universities, schools and other cultural institutions, as well as government. He set the stage for a racial house-cleaning in Germany itself. The brief peacetime episode between 1933-39 was the happiest and most vibrant period in the history of the German people. For these accomplishments alone (there are many more) we Creators deem Hitler as the greatest leader the White Race has ever had and the greatest White Man that ever lived.

That the Jews were able to snooker the rest of the White nations to smash Germany and Hitler's ideas is small reflection on Hitler, but rather a shameful reflection on the stupidity and cowardice of the White Race under the heel of the Jewish monster. If you were bushwacked by a gang of ten niggers and beaten to a pulp, it does not necessarily mean that your ideology was inferior to that of the black bushwackers. (See *"Germany, Adolf Hitler and National Socialism"*, P. 290, NER.)

18. *Force is a nasty thing and should never be used.* This silly idea runs counter to all the experiences of history. The American Revolution of 1776 was decided by force. The Civil War was decided by force. So were World War I and World War II and thousands of other forceful, decisive actions. This includes not only military actions, but revolutions, police actions against criminals and many other situations, even football games.

There is an old maxim that says **"When reason fails, force prevails."** In the final showdown I am convinced that only force will break the back of the Jewish tyranny, and we had better make sure we build a power structure that is superior to that of the Jews. The only way to overcome force is to meet it and beat it with superior **force**.

19. *There is nothing you can do about it. You can't fight City Hall.* There is plenty you can do about it, and in this respect I am reminded of wisdom inherent in the basic prayer of A.A.: "God grant me the serenity to accept that which I cannot change; the courage to change that which I can; and the wisdom to know the difference."

This pretty well says it all, and we focus especially on the second part, namely to do that which we can, which is plenty. To throw up our hands and say there is nothing you can do to destroy the Jewish tyranny now destroying the White Race is to resign from life itself, and is a shameful, cowardly cop-out.

20. **The Holahoax.** This modern Jewish swindle is the biggest hoax since the Jews invented Christianity nearly two thousand years ago, and they have capitalized on it handsomely at the expense of the White Race. (For more details see *"The Six Million Lie"*, C.C. No. 37, WMB.)

21. *By feeding and subsidizing the niggers of Africa (or America) the mud peoples of India, etc., we are being kind and charitable, and it is our beholden duty to do so.* Wrong, from the beginning to end. It is neither kind, nor charitable, nor is it our duty. History shows that we have set the stage on a worldwide scale that these same mud races to which we have been so (stupidly) charitable, are going to wreak havoc on our own future progeny and exterminate them entirely. Another secondary consequence will be that this Planet Earth will be turned into a devastated, polluted, poisonous pigsty, unfit for decent human habitation. (See *"Expanding and Proliferating the Misery"*, P. 134, and *"Saving our Precious Planet"*, P. 210 of BWBW.)

22. *You can't unite the White People.* We just happen to believe that we can. If Hitler could unite the Germans, it is also logical that the White Race can be united on a worldwide basis. The problem in the past has been (a) Jewish Christianity, and (b) the White Race has never been given a worthwhile creed nor goal to rally around. In CREATIVITY we now have a more sensible and dynamic religion with which to replace decadent, suicidal Christianity, and a worthwhile creed and goal that deserves the loyalty and dedication of all White Racial Comrades. As the White Race is crowded further to the edge of the precipice, this will become more and more obvious and inevitable.

23. *Medicines, medications, pills, help to heal and restore people to health.* Rather than go into detail on the hoax of medicine, I refer you to the chapters on Salubrious Living in the White Man's Bible, which amply refute this long enduring hoax. This is further expanded and amplified in our book "Salubrious Living" 224 pages, which is one of our own Three Basic Books. Let me just add that all medicines are drugs, are poisonous chemicals that do not heal, but on the contrary, are toxic to the human body.

24. *Lawyers have their clients' best interests at heart.* Since I have gone into this in full detail in Issue No. 37 contained in this book under the title of "The Holy Trinity" there is no need to repeat it here. Suffice it to say that the first loyalty of the majority of licensed attorneys is to their pocket book, and loyalty to their client is far

down the line. That is why it is of major importance that the Church of the Creator build its own legal defense system through a comprehensive and aggressive Layman Law Course. (See "The Holy Trinity", R.L. No. 37, also contained in this book.)

25. All we have to do is expose the menace, the criminals or the conspiracy, and the problem will solve itself. Unfortunately, this is not the way it works. For instance, everyone in Sicily knows the Mafia is a gang of criminals, knows who they are, and what they are doing. But the Mafia is so powerful that there is no counterforce to oust them, and just about every law-abiding citizen is afraid to oppose them. The Jewish tyranny is in a similar position on a worldwide basis, only most White people are not really aware of the depth of the conspiracy, and the majority doesn't even realize that it exists. It is the goal of the Church of the Creator to lay out in clear detail the whole depth of the Jewish conspiracy, starting with Jewish Christianity, and expose it thoroughly. But we intend to go much further. By giving our White Racial Comrades a clear creed, goal and program upon which to build we intend to construct a powerful White tidal wave that will demolish the Jewish tyranny. We intend to meet force with superior force and smash the Jewish parasite once and for all so that we can get on with building that Whiter and Brighter World we envision.

* * * * *

Above I have listed at random more than two dozen basic fallacies that have cluttered and impeded the minds of our White Racial Comrades for centuries and have prevented them from using their innate common sense in thinking reasonably and logically. These are only a random sample of thousands of other misconceptions, lies, myths, fallacies and beliefs that have fastened themselves on the human mind like barnacles to the hull of an old ship, or to put it in the parlance of the Augean stables, like so much dung and debris piled up in a barn that has not been cleaned out for 30 years.

In this respect let me observe that the most treacherous booby-trap to which the human mind is vulnerable is having blind faith in some unsubstantiated supposition that is warranted neither by evidence, experience or common sense. Most of mankind's spooks-in-the-sky religions fall into this category, and consequently have been the cause of untold misery, confusion and chaos to mankind.

It is our devout hope and aspiration to clean up this mess, slowly at first, shovelful by shovelful. Then, as the White Race begins to step into the bright sunshine of common sense, reason and logic, it will at last be able to get a handle on its own destiny, and utilize its tremendous energy, intelligence and resources for its own best interests.

It is this lofty goal to which CREATIVITY is dedicated. Let us each and everyone devote our energies and resources to make sure this dream becomes a reality. We have the means to do the job. Let us do it. (See “We are not helpless”, P. 148, and “How to Utilize Your Wealth Effectively”, P. 203 of EXPANDING CREATIVITY.)

* * * * *

Even if we overcome the mud races, it will be of little benefit to our future progeny if all we leave them is a Planet that is no more than a poisoned garbage dump.

* * * * *

CREATIVITY

Creed and Program

Fundamental Points:

1. **CREATIVITY** is a racial religion whose prime goal is the survival, expansion and advancement of the White Race.

2. Our organization is known as the **CHURCH OF THE CREATOR**. Our movement and religious philosophy are called **CREATIVITY**, and members of our church are called **CREATORS**.

3. Every issue, whether religious, philosophical, political or racial, is viewed through the eyes of the White Man, and exclusively from the point of view of the White Race as a whole.

4. The cardinal test of any theory, plan, or program is this: Will it accrue to the benefit of the White Race?

5. We believe that the White Race is Nature's finest creation of all time and that our most precious treasure is our White gene pool. Guarding the purity of our worldwide gene pool, enhancing it, and the upgrading of our future generations is our highest responsibility and our most sacred duty.

6. The four basic foundations of our religious creed are: **A SOUND MIND** in a **SOUND BODY** in a **SOUND SOCIETY** in a **SOUND ENVIRONMENT**.

7. Our **GOLDEN RULE** is: What is good for the White Race is the highest virtue; what is bad for the White Race is the ultimate sin.

8. A thorough and comprehensive study of history has convinced us that the Jews, with their odious Talmudic and Judaic religion, are the most sinister and dangerous parasites in all history, and that they now control and manipulate the finances, the propaganda, the media and the governments of the world. It is our sacred duty and unswerving goal to get these parasites off the back of the White Race, and enable the White Race to again take control of its destiny and restore it into its own capable hands.

DELENDA EST JUDAICA!

9. We mean to cleanse our own territories of all the Jews, niggers and mud races, and send them back to their original habitat. Starting first with the United States, we then want to help each White country to free their territories of the contamination of mud races, and prevent not only race-mixing, but geographic mixing of races within any of the lands now occupied by the White Race.

10. A tremendous weapon in the worldwide Jewish drive of race-mixing and proliferation of the mud races has been Jewish Christianity, concocted for the very purpose of mongrelizing and destroying the White Race. It is our avowed objective to expose this Jewish

swindle and replace it with a sound, healthy racial religion of our own.

11. Our first and foremost problem in saving the White Race from mongrelization and genocide is to straighten out the confused and scrambled thinking of the White Race itself. Once we have accomplished that much, getting the Jews, niggers and mud races off our backs will be relatively easy. When this has been accomplished, we then propose to expand the White Man's territory slowly and gradually, similar to the historic "Winning of the West" in early America, until the White Man inhabits all the good lands of this Planet Earth.

12. Simultaneously with the above, we mean to promote and practice Eugenics for the upgrading and advancement of the human species itself, as is spelled out in our **THREE BASIC BOOKS**, *Nature's Eternal Religion*, *The White Man's Bible*, and *Salubrious Living*.

13. We also are deeply concerned about the now rapidly deteriorating environment of our Planet Earth, which has not only become racially polluted, but is becoming highly contaminated with overwhelming masses of chemical wastes, nuclear wastes, and other dangerous and toxic poisons. As soon as the White Race again has control of its own destiny we mean to reverse this process, clean up the Planet and again make it a clean, pleasant and viable place for the White Race to live.

14. We also mean to address the problem of farmlands and soil fertility, a problem that is now out of control. As set forth in *The White Man's Bible* (Creative Credo No. 13, 14, and 15), we plan to put in operation a program to restore the fertility of the soil and conserve its stability on a worldwide basis.

15. We are also concerned about the physical and mental health of our people. In order to enhance and upgrade the physical well-being of both young and old, we mean to promote a natural life style as set forth in *The White Man's Bible*, and further amplified in *Salubrious Living*. The salient components for such a program are summarized in both books under the "FOURTEEN BASIC POINTS" of *Salubrious Living*.

16. Our basic philosophy is spelled out under the heading of "THE SIXTEEN COMMANDMENTS" in both *Nature's Eternal Religion*, and *The White Man's Bible*, and is part and parcel of our creed.

17. Our "Declaration of Independence from Jewish Tyranny" is set forth in *The White Man's Bible*, (Creative Credo No. 67).

18. Our program to overcome the tyranny and violence directed against the White Race is spelled out on Page 401 of *The White Man's Bible*, and we mean to follow and implement these steps, including Articles 7 and 8 in the order listed, if and when the time should come

when we are compelled to do so.

19. In Creative Credo No. 65, we have an additional creed of our Church enabling the White Race to protect itself from a hostile government, under the heading of "Articles for the Defense of the White Race". This, too, is part and parcel of our creed and program.

20. In a rapidly degenerating world that is now overcrowded and overrun with an explosion of inferior mud races; a world that is drug-ridden and already overly polluted with toxic chemicals and nuclear wastes; a world now steeped in anarchy, chaos and terrorism, it is nevertheless our ultimate and continuing goal to build in its place a WHITER AND BRIGHTER WORLD for our future generations.

If we are ever to restore this Planet Earth to its original pristine beauty and fecundity, there is only one answer — RAHOWA! Total racial warfare, total WHITE VICTORY!

ABOUT THE AUTHOR: Ben Klassen has been a resident of four countries and a citizen of three. Born of German-speaking parents in Russia, 1918, he and his family were early victims of Jewish Communism, from which they fled in 1924. He was brought up and educated in Canada, where he earned a degree in Electrical Engineering and also a Bachelor of Arts. He has been a farmer, a school teacher, a hard rock nickel miner, an electrical engineer, an inventor, a realtor, and a Florida State Legislator.

Prelude

Now that I am into the 69th year of my life and attempt to retrace the early glimmerings of my racial consciousness, my memories go back a long, long way. Since everyone is a complex composite of their innate personality, the traditions of his or her people and their own personal experiences, it is interesting to speculate how destiny has helped shape our philosophy of life.

Perhaps I should start with my earliest recollections as a child of three or four, when still in Russia, where I was born and where it all started. I recall my Mennonite parents talking about Bolsheviks and Mensheviks, about famine and hunger, about Stalin and Trotsky. I also recall that during this revolutionary period our hapless Mennonite colony on the Molotschna river in the southern Ukraine was subject to repeated ravages and attacks by robber brigands on horseback. These brigades of brigands called themselves Makhnovskys, a name derived from a notorious criminal called Makhno whom the Communists had released so that he could carry on his effective campaign of devastation on an already war-torn and devastated countryside.

Be that as it may, my family and I left that chaotic and communist ravaged country in May of 1924, when I was six years old. Not being allowed to enter our first choice, the United States, (immigration laws still meant something then) we settled for Mexico, and specifically, located out in the wide open spaces in the State of Chihuahua. Here, at a rancho hacienda that consisted of a railroad watering station and two adobe buildings in the middle of a vast ranchero, my father and four other Mennonite families attempted to start life anew and begin a small settlement. The five families moved into the one flat-roofed adobe building that had exactly five rooms with dirt floors. Mexican railroad maintenance workers lived in the other building nearby. The one amenity we had was plenty of fresh water from the nearby water tower utilized by passing trains.

After a year and a half of growing beans, corn and potatoes, the settlement was deemed a failure and disbanded. We again pulled up stakes and embarked for Canada, Herschel, Saskatchewan, to be exact, where some of my dad’s relatives had preceded him by a year.

Here on the prairies of Western Canada approximately forty Mennonite families settled and began wheat farming, an enterprise that endured for several generations. The first thing these Mennonite families did was build a communal church, a project that was completed by 1927. Soon thereafter they assembled a library of German

books, since although everyone learned to speak a heavily accented English, German was still the only language in which they were fluent.

Among the books that I recall my older brothers and my dad reading were such as *The Protocols of the Elders of Zion*, *The International Jew*, by Henry Ford, and *All Quiet on the Western Front*. At this time I was about ten years old. World War I had ended when I was born and my family's memories of the Communist upheaval in Russia were still fresh. So also, I discovered as I began school, was prejudice against Germany and all things German.

None of this, however seemed to bother me much as I was growing up in Saskatchewan during the depression era of the thirties. We were poor, dirt poor, but we managed. I finished high school when I was sixteen. After staying on the farm and wasting a year I enrolled in the University of Saskatchewan, then studied at the Normal School in Saskatoon and became a teacher at age 19, obtaining a job as teacher and janitor at a small country school near home. The salary was $50.00 per month, when and if I got paid.

The year was 1938. I had been teaching for a year. At this time the ideological war about Hitler, the Nazis and the Jews was already raging on a worldwide basis. I was intrigued but still uncommitted. I was 20 years old. It was at this time that my dad and brothers borrowed the book from the Mennonite library that was to influence my life more than any other. It was called *Mein Kampf*, by Adolf Hitler.

Although I had never studied the German language formally, I had a fairly fluent working knowledge of it, and could speak, read, and write German on an effective level. In any case, I decided to read *Mein Kampf* in German and managed to wade through the entire book in short order. I had no difficulty in understanding thoroughly the clarion message Hitler was sending out to the world, and to the White Race in particular. I began to become politicized.

It was at this time that marked the beginning of a commitment that was to last for the rest of my life, and result in the final culmination of a full-fledged racial religion for the White Volk. The vague outlines began to formulate in my mind's eye. It was to take another thirty years.

After another year of teaching, I felt I had wasted enough time at something I disliked and I decided I would go to Heidelberg, Germany and study engineering. Electrical Engineering to be exact.

I made preparations. I got my passport, visa and other papers together, wound up my affairs and planned to leave for Germany in September of 1939. Then the war intervened and I was stymied. I decided to pursue the study of Electrical Engineering at the University of Saskatchewan instead.

It is not my intention to write an autobiography in this prelude.

I may do so in another book, should I live long enough. My specific purpose here is to trace my ideological Odyssey that culminated in evolving a racial religion for the White Volk. I will therefore more or less skip the next thirty years during which time that drive wavered and smouldered at various levels of intensity.

We, therefore, now arrive at the year of 1969. By this time I was well settled in the State of Florida, had a wife and daughter, had briefly been a State Legislator. I was established in the Real Estate business and had been an extremely active member of the John Birch Society for six years. I was also the head of the American Independent party for the State of Florida.

In all these endeavors, I felt that there was something missing. There was a key ingredient that had been left out. Although there were ten thousand different "conservative," "right wing," racist, Klan, pro-Christian, pro-American, Patriotic, parties, groups and what have you, there was something drastically wrong. I could not quite put my finger on it, but they were all on the wrong track, obviously, and the dismal failure of all these polyglot groups to stem the Jewish-communist tide proved that conclusion.

1969, I believe was an important turning point. I resigned from the chairmanship of the Florida segment of the American Independent Party (of which Gov. George Wallace of Alabama was still the ideological head) and I sent a strong anti-Jewish message to the Florida party, a message that shook it to its foundations.

I also resigned from the John Birch Society at this time. It is the letter to Robert Welch that marks the beginning of my groping and reaching out for a racial-religious solution that really marks the beginning of this book and the ensuing letters to various groups and individuals tell their own story.

At this turning point in my life I still did not know where the final answer to our dilemma did lie. But I most definitely knew where the answer did not lie, and I was heading in the right direction. The picture in my mind's eye was still not clearly formulated, but it was beginning to shape up. It has been shaping up in more clearly defined focus ever since.

Format Employed

The objective of this book is to trace the development of my own thought evolvement in the structuring of a racial religion. This I am endeavoring to do by publishing select letters from the earliest beginnings of the idea of a racial religion as it occurred by approximately the year 1970. Although the idea had not yet occurred, I consider the break with the John Birch Society and the formation of my Nationalist White Party in 1969 as the watershed, and I start this book with the letter to Robert Welch as the opening gun in the continuing war against the Jews.

The experience in trying to build the Nationalist White Party, and the repeated intrusion of Christian disruption was a major factor in raising a red flag in my mind that there was something drastically rotten in the realm of Christendom. It led me to an agonizing reappraisal of what I had taken for granted, namely, that Christianity, of course, was the "White Man's religion". My correspondence with General del Valle in particular set off a series of alarms, and this is further reflected in the controversial correspondence with some of my former members of the Nationalist White Party, who, when the Christian issue was raised, immediately became hostile and defected. This experience, demonstrating that there was a bitter conflict between the Christian creed and loyalty to the White Race convinced me more than anything that Christianity had to go, and that the White Race needed to replace it with a sane, basic religion of its own, freed from all Jewish pollution.

In tracing this development, I have more or less selected key letters of import. After I had written NATURE'S ETERNAL RELIGION the process of structuring a new racial religion was not necessarily complete, and after several more books that I have written, it is still an evolving, ongoing process. The questions and issues raised by many of our supporters and enemies have all been a strong inspiration to further hammer out the ideas, programs and positions taken by the movement.

Whereas this book by no means covers all the correspondence of any period, the prime purpose is to illuminate those issues that cropped up at particular times as the movement evolved. In so doing I have not attempted to publish any of the correspondence I received, since this would, in the first place, make this too voluminous a compilation, and we do not have the space. Secondly, we are not interested in using this book as a conveyor belt for a diversity of public opinions that would serve more to confuse than to consolidate our religion. On the contrary, it is my objective to bring forth a consis-

tent and homogenous creed and program and let my letters illustrate the markers along the way. I therefore have given only a brief background of the various correspondents' backgrounds and a short synopsis of what issues they raised, and let it go at that.

In many cases, there was, of course ongoing exchange that was not resolved and perhaps is still not concluded. But that is not im-portant and it is not my objective to wrap up in detail each episode that occurred. Rather as stated before, it is the objective of this book to record for posterity those key letters that furthered the develop-ment of the Creativity creed, program, and the issues that were argued, resolved or decided, and how they came about. In so doing, I feel that many additional issues and positions are clarified other than those that are already covered in our **Three Basic Books** and the ensuing **Supplemental Books**. Thereby, I hope this book will become not only a historical record of the development of the Creativity movement as such, but will also be a further source of in-formation illuminating the many facets and multitude of ideas in-herent in our religion.

A Choice of Terms

Aryan, White Race, or White Volk?

No matter what nomenclature is selected, none of the above accurately describes the group of people for whose survival, expansion and advancement Creativity is waging an all-out battle. Since there is no one and only, it is therefore more a matter of choosing the most appropriate term to describe that select group of humanity that is Nature's Finest. Should we refer to them as Aryans, or as the White Race, or perhaps as the White Volk?

In all my writings I have rejected from the very beginning of Creativity the "Aryan" terminology as being completely inadequate. And the reason I have done so is because the term is so vague, so nondescript as to be meaningless. Like the much bandied about word "spirit", when critically examined, nobody knows what it is, or what they are talking about. Like the "spirit" idea, why make such a big to-do about something when you don't even know what that something is? (See "What is a Spirit?" *Racial Loyalty*, Issue No. 29.) So it is with the term Aryan. What does it mean? Nobody knows. If so, why use it?

The word Aryan, is a technical term, derived from the Sanskrit *arya*, or the Zend *airya*. In later Sanskrit *arya* means "of a good family." In modern usage the word has become a fictitious concept, a meaningless word, that has done more to confuse our racial identity and biological heritage than it has to clarify or enhance it.

The word Aryan has been brought into prominence in the latter part of the nineteenth century, by such writers as Arthur Gobineau, John Houston Chamberlain, and in the twentieth century, by Hitler's ideological mentor, Alfred Rosenberg, and others. However, it was the rise of the Nazi Party in Germany that really made it a household word, a word that had become extremely emotionally charged and highly controversial. It has remained such ever since, and has the connotation of somehow being part of the Nazi idea, if not their sole invention. Yet, nobody really defined it specifically, not even Rosenberg or Adolf Hitler.

What then, if anything, does it mean?

Does it encompass all of the "White Race"? No, emphatically, it does not if it has any meaning at all. It excludes large segments of it. It would by and large exclude the Slavs, most of the Italians, the Spaniards, the Rumanians, large segments of the French, and even of the Germans and the Austrians, to name a few. It is doubtful that even the exemplary British would qualify as being Aryan, since English is not considered to be an Aryan language. A stinking, black

Hindu or Pakistani could technically be considered as being more Aryan than a solid White Anglo-Saxon.

Does *Aryan* mean the same thing as the *Nordic*? When we talk of *Nordics*, we recall an image of blonde haired and blue eyed peoples, a dying species, such as are still found in northern Germany, in Holland, the Scandinavian countries, and to a diminishing degree, even in the United States. But are the words *Nordic* and *Aryan* synonymous? By no means. By such definition, even Hitler would not be an Aryan, since although he had blue eyes, he certainly was not blonde. Nor would that foremost propagandist of the Nazi idea, Joseph Goebbels, qualify. He was a dark, physically diminutive and poorly constituted individual, certainly a far cry from the Nordic ideal. Nor were many other luminaries of the Nazi hierarchy, such as Heinrich Himmler and a host of others. Nor were such notable Fascist leaders as Mussolini of Italy, nor Francisco Franco of Spain, blonde haired and blue eyed. So it would be idiotic to use the two terms, *Aryan* and *Nordic,* interchangeably.

Again, when we examine the term *Aryan*, we get pushed further and further into the negative position of what it is not. Like the term "spirit", every time I ask a preacher what it is, he keeps postulating and expounding in an endless harangue of what it is not, never what it is.

Let us go back to as neutral a ground as we can possibly find, a source that carries some weight of authority, and one that goes back to the time prior to when Hitler and the Nazi movement made the word *Aryan* an emotional, a partisan and a controversial word. Let us go back to Volume II of the ENCYCLOPEDIA BRITTANICA, New American Supplement, 20th Century Edition, 1904. This is probably the most intellectual, factual and unbiased set of books available, compiled at a time before the Jew got his slimy hands on the company and managed to corrupt and render worthless the succeeding editions. Here is some of the information it provides.

ARYAN, a technical term, applied to one of the great families of language, which extends from India to Europe, and which, for that reason, is called INDO-EUROPEAN. Friedrich Schlegel, who first recognized the family relationship of these languages (Die Sprache and Weisheit der Indier, 1808) assigned to them the name INDO-GERMANIC, a name still used by preference by many scholars in Germany.

ENCYCLOPEDIA BRITTANICA then goes on to criticize both of these terms as being inaccurate and completely inadequate. It recalls other attempts to define this group of languages, such as *Indo-Celtic*, and *Indo-Classic*, since there are many languages in Europe that do not belong to this family. Other alternatives have also been offered, such as *Sanskrit* and *Japhetic*. However Encyclopedia Brit

tanica rejects both of these as also being inaccurate. **Sanskrit** would imply that all members of this family would be derived from Sanskrit, which is not true. **Japhetic** would seem to revive the Jewish conception of the three ancestors of the human race Shem, Ham and Japhet. This, as I have pointed out repeatedly, is based on an idiotic Jewish fairytale and must be rejected out of hand by any thinking, intelligent individual (See *"The Story of Noah" Racial Loyalty, Issue No. 38.*) Another term in an attempt to classify these languages is **INDO-IRANIAN**, as comprehending the language of India and Persia, which constitute the south-eastern as distinct from the north-western (Greek, Latin, Celtic, Teutonic, Slavonic) branch of the family. (We again quote from *Encyclopedia Brittanica*.)

Encyclopedia Brittanica goes on to say that the word Aryan became popular because it was short, it was of foreign origin (therefore had an exotic ring, presumably) and it covered a whole range of unexplained misconceptions. Nowhere in its long dissertation does *Encyclopedia Brittanica* ever even imply that it describes any race of people, or any biological group. It merely attempts to group a family of languages, and even in this it fails badly.

Are we therefore any closer in defining the word Aryan as a racial term? No, far from it. It is at best a confusing and misleading term for language groups and even in this category it fails miserably.

We now come to the present day scene in America and find such groups as the Nazis and Identity people and the Aryan Nations, trying to capitalize on this word. But they, too, have never attempted to tell us what it means. The Nazis take for granted that since Hitler, Rosenberg, and the Nazi movement used it extensively, we all should know what it means. But as I have already pointed out, they too left it in a vacuum, and left the world as confused about its meaning as have the Christian preachers about the word "spirit".

With both, the preachers and the Nazis, it is a case of trying to hang a whole battleship on a flimsy coathook.

Strangely, the Aryan Nations and the Identity people take a completely different tack from that of the Nazis. They claim we the Aryans, are descendants of the ten "lost" tribes of Israel, who somehow, about 1000 B.C.E., barged into Europe and settled a vacant continent, and now we White peoples are the true Israelites, the chosen of God. This idea is so preposterous, so contrary to the real facts of history, that it hardly needs further refutation. (See *Racial Loyalty, Issue No. 32 "White Men Wandering in the Wilderness"*.) It could only appeal to those poor individuals whose minds have been deranged by an overly massive dose of Jewish-Christian mind manipulation to the point where they themselves would like to become Jews.

So much for the term Aryan. In my writings since the inception

of Creativity (and even before) I have consistently used the term the **White Race**, because I consider it vastly superior to the term Aryan. However at the same time, I have repeatedly admitted that it is far from perfect in describing Nature's Finest. It is, at best, an approximate term, not an accurate definition, but it does have real meaning in that it differentiates us from the mud races — the [slur], the Semites, the Hindus, the Indians and the Orientals. Like the Atlantic Ocean, its boundaries in some areas are vague and undefined, but nevertheless, everybody knows what and where the Atlantic Ocean is. So it is with the **White Race**, which although technically does not have enough cohesiveness in its genes to even be defined as a race at all, nevertheless, everybody knows what the **White Race** is, especially so its multitude of enemies, the mud races.

So we have chosen to run with this term, the **White Race**, because we believe it is the best there is. You will notice that on the cover of this book I use the term **The White Volk**. The word **Volk** is a German word that has a meaning similar to the word people, yet it has more of an ethnic connotation than the English word. Hitler used it repeatedly in his speeches and writings (*Das Deutsche Volk*) and whereas it also is not the perfect word, it is more accurate in the meaning we wish to convey than the word race. I point out this distinction in answer to those critics who will critique us — that technically the **White Race** is not a race at all. In this they are correct, and for them I have substituted the world **Volk** as an alternative.

Nevertheless, accurate or not, I still believe the term **White Race** is the best there is, that it is most widely accepted and understood, and we Creators will continue to use it as our standard terminology. When we succeed in persuading the **White Race** that it has a wonderful legacy in its genes to pass on to future generations; that it has every right to claim this Planet Earth for its very own; that when it embraces Creativity as its own natural religion and practices Eugenics as inherent in such religion, then the time will come when the **White Race** will truly be a race in its finest biological sense and the undisputed master of this Planet. **RAHOWA!**

Segment 1

BACKGROUND. The late Robert Welch was the founder of the John Birch Society. Whereas the professed goal of this organization was to "expose communism", its real purpose was to throw up a smokescreen and run interference for the Jews. The movement was founded in 1958 and received much notorious publicity in the Jewish press, a factor that greatly helped its promotion. I joined in late 1963 when I began to become more and more aware of, and suspicious of, all the strange moves the U.S. government seemed to be making. Some of these events were: the vehement attack on Senator Joseph McCarthy in the 1950s; the obvious help given Castro by the media and the U.S. government in the take over of Cuba and turning it into a communist satellite; the stupid Bay of Pigs fiasco, which could only have been carried out with due deliberation to accomplish exactly what it did: to destroy the best of the militant Cuban opposition; the brutal strong-arm methods of school integration at Little Rock, AR, Oxford, MS, by the massive use of U.S. army troops (as many as 20 thousand in Oxford); the assassination of President John F. Kennedy; and a number of other seeming unexplainable events.

By the time I wrote this letter to Welch I had been a member of the Society for six years, had spent a considerable amount of time and my own money in promoting it. Besides having been elected to the Florida State Legislature (in 1966) I had become the most militant and aggressive Birch leader in Broward County, which then had a population of approximately 750 thousand.

What caused the break was my increasing awareness of the hidden Jewish hand in all these events previously listed, as well as the affairs and destiny of not only the United States, but past and present world history as well. What particularly disturbed me was that when I brought these matters to the attention of the hierarchy of the Birch Society, the Jewish issue was roundly rejected with fear and apprehension. I began to wonder why and began to smell a rat in the whole make-up of the Society. After informing myself more thoroughly on the issue by reading a number of books such as Henry Ford's *The International Jew* I finally came to the only possible conclusion. The Birch Society was fronting for the Jews, and I had been duped.

The reader will obviously notice, however, that at this point in time I had not yet seen through the religious scam that was Jewish Christianity.

Mr. Robert Welch **November 5, 1969**
The John Birch Society
Belmont, Massachusetts

Dear Mr. Welch:

I am resigning from the John Birch Society and I want my $1000.00 back.

I have been in the John Birch Society for six years. In my zeal to help save America from "Communism" I sent you a check for $1000.00 and became a life member. For two years I was chairman of Fact Finders Forum and promoted speakers from the American Opinion Speakers Bureau and was vice chairman a third year. I have promoted a multitude of sundry Birch projects from showing "Anarchy U.S.A." to recruiting dozens of new members and financing and running an American Opinion Bookstore.

Without a doubt, I have spent thousands of dollars and thousands of hours following your program of "Truth is our only weapon" and "Education our total program".

Now, after six years of dedication, time, money, and effort, I am convinced that this program is one of utter failure. Not only utter failure, but as you like to repeat again and again, "It was planned that way".

The fact of the matter is, Mr. Welch, I am sure that you are aware that you are not telling your members the whole truth. In turn the John Birch Society members are confusing the American people as to who our enemy is, thereby granting immunity and respectability to the real culprit.

You know as well as anybody that we are not threatened by a "Communist" conspiracy, but in the clutches of a Jewish conspiracy, that such nebulous fronts as socialism, communism, Fabianism, CORE, N.A.A.C.P., Black Panthers, S.D.S., and a thousand others are Jewish creations, instruments for the destruction and enslavement of the Gentiles in America and elsewhere.

Martin Luther knew this more than 400 years ago and wrote extensively about the Jewish conspiracy to destroy Christianity. Henry Ford, Senior, realized the threat and spent five million dollars researching the Jewish question and produced an excellent book "The International Jew". Although 50 years old, it reads like yesterday. Col. John Beaty, top man in Military Intelligence, wrote "Iron Curtain Over America" in which the Jewish conspiracy is laid bare for all to see. In fact, there have been innumerable writers who have realized the Jewish conspiracy and exposed it long before the word "Communism" was ever invented by the Jews as a smoke screen.

However, to read the Birch literature, one would never even get a hint of the real culprits. In fact, the members are led to believe

that no Jewish conspiracy exists, and to even look into the facts of history is the cardinal sin and grounds for expulsion from the Birch Society.

Well, I have looked into the facts of history and the evidence is overwhelming that the Jews by deceit and treachery have managed to gain control of practically all financial institutions, all means of propaganda such as movies, T.V., radio, news wires, magazines, and all major newspapers, the theater, the sugar industry, the tobacco industry, jewelry, grain, cotton, oil, steel, the liquor industry, news distribution. These, to name only a few, are in the hands of the Jews of the United States either alone or in association with the Jews overseas.

The age old drive of the Jews is complete dictatorship over the people of the world — with every Jew a king and every Gentile a slave. This they have already accomplished to a major extent, with the cooperation of a few Gentile traitors fronting for them.

There is no "communist" conspiracy. There is only a Jewish conspiracy, consisting of (a) Jews and (b) Jewish agents. Elizabeth Dilling, an American patriot, writer and a Christian Gentile, has stated that you fall into the latter category.

I agree with her that you have rendered a tremendous service to the Jewish conspiracy by confusing thousands of concerned Americans, throwing up an effective smoke screen for the protection of the real culprit — the Jews.

For one who keeps expounding "Our only weapon is the truth", you have cleverly and deceitfully suppressed the most important factor in the whole conspiracy, instead, urging the Birch members to flail away in dozens of different directions, keep 'em running, keep 'em reading, keep em' contributing. You know — "we mean (good) business every inch of the way."

Well, I was foolish enough to contribute $1000.00 to your outfit over and above the bookstore and hundreds of other projects you dreamed up. Now I am resigning from the John Birch Society and I want my $1000.00 Life Membership contribution back. I want it back because I feel I have been lied to and betrayed by you. I am convinced that your movement was planned and organized with the help of the Jews as an effective instrument to keep the patriotic militant Americans from pointing the finger at the real and only culprit — the Jew — while he was forging the chains for our slavery.

Thank God there are a number of patriotic American people and organizations who are exposing the Jew and fighting for the survival of the White Gentile race. I am going to devote my time, energy and money to aiding them, those few who have neither been brainwashed nor succumbed to the Jewish bribe. I find there is a tremendous movement rising from the grass roots that will run over the false

leaders like yourself and drive the traitors and money changers from our shores.

I shall never quit in this fight, no matter how devious, treacherous or deceitful the enemy, no matter the obstacles. In the end I am supremely confident that Western Civilization and its creators — the White Christian Gentile — will prevail.

Sincerely yours,
Ben Klassen

RESPONSE. *Welch was an expert in the art of neutralization. He responded with a lengthy letter (2-1/2 pages) the main theme of which was "What in heaven's name has happened to you?" and then went on with a laborious and convoluted attempt to absolve and whitewash the Jews. I never did get my $1000.00 back.*

BACKGROUND: *William C. Douglass, M.D., was a prominent Birch advocate noted for writing and promoting the Let Freedom Ring message which the Birch Society distributed nationwide to subscribers as a weekly recorded telephone message. Allen Greer was Vice-chairman of the American Independent Party when I was chairman in 1969. Jimmy Harrison was an active promoter of the A.I.P., of Citizens Councils, and of the Birch Society. All three of them lived in the Tampa Bay area. All three were completely deaf to any information about the Jewish conspiracy, and would defend the Jews in various and devious ways, without seeming to take a position. When I resigned from the Society, the whole Birch network in Florida was alerted to attack me (I must be a communist!) and I promptly received hostile letters from my former Birch buddies. I tried to reason with them, but to no avail. However, a number of lower functionaries and members of the Society did listen and joined with me when I then formed the Nationalist White Party.*

Dr. William C. Douglass
Sarasota, Florida

December 5, 1969

Dear Bill:

You cannot be aware of a diabolical evil without taking sides — either you are for it — or you are against it.

This letter is written not in bitter recrimination but in the hope of constructive criticism. I hope to keep your friendship, but it must be based on a frank exchange of ideas. If we cannot do that, our relationship is of little value.

Getting back to the first paragraph, I am sure you are aware

of two related conspiracies that are out to destroy everything you have worked for and everything you stand for, at least as I have understood your position to be ever since I have known you. The conspiracies I have in mind are:

(a) The destruction of the Florida A.I.P. by the Montgomery Mafia;
(b) The destruction of the White Gentile race and the Christian religion by the Jewish conspiracy.

In your letter of November 14th, in which you straddled the fence with some rather contradictory double talk, you nevertheless took a meaningful position against me personally and FOR both (a) and (b).

Considering the fact that you yourself have told me that the Wallace Mafia is the worst bunch of lying highbinders you have ever had dealings with, and that if we are going to pin our hopes on Wallace we are hopelessly lost; considering the treacherous lying double cross they dealt you when you were chairman; considering that you are perfectly aware that they have destroyed or tried to destroy the independent third party movements in every state where the latter have had the courage to spring up; in view of all this and much more that you and I are aware of, I ask you, Bill, in heaven's name, how could you support the Andrews-Powell-Lent abortion to turn over the A.I.P. to the Mafia when you and I have spent so much time and effort in building it?

Yet, when you publicly urged me to resign, you knew that this meant turning it over as a tool for the Montgomery Mafia, all the shibboleth about keeping the party independent notwithstanding.

Which brings us to conspiracy (b). Your hints about me being a racist and a bigot because I have enough guts and intelligence to insist that two and two do make four, is hard for me to understand. You literally parroted the Marxist line "regardless of race, creed or color". It is hard for me to understand why someone like you who is dedicated in exposing the "Communist" conspiracy, so fanatic in his "search for the truth", becomes completely dumb, deaf and blind when the evidence is presented that this is a Jewish conspiracy, basically consisting of Jews and Jewish agents who are Gentile traitors to their race and to the Christian religion.

If the Birch Society were really on the level, why would they not at least allow a fair hearing or discussion of the Jewish conspiracy? Why is it alright for me to carry the "Communist Manifesto" by Jew Karl Marx in my bookstore, but verboten to carry a book by an American Folk-hero like Henry Ford, Sr., who exposes the real and only culprits? Or to carry the writings of the Father of Protestantism, Martin Luther, who more than 400 years ago wrote about the "Jews and Their Lies"? Or Maurice Pinay's masterful work "The Plot Against the Church"?

If, as Welch claims, “Our only weapon is the truth”, why did he purge from “The Suicide of Europe” extensive references to the Jewish conspiracy that would have put an altogether different implication on this first hand report on the culprits in the murder of Europe?

Evidently the aims of Welch and his J.B.S. is not to expose the truth but enough half-truth to do an effective job of protecting the historical enemy of Christianity.

If it is fear that motivates people like yourself from delving into the Jewish conspiracy, why is it that you are so fearless in the fight against “communism” but struck dumb and paralyzed when the Jewish question is brought up? Surely you must be aware that if it is so much more dangerous to expose the Jews than the communists, that they must, ipso facto, be the real powerhouse, the real conspiracy. Which of course they are, and communism is only one of the many fronts they manipulate. This attitude of gung-ho against communism but “mum’s the word” when it comes to the Jews, is about as idiotic as saying that you, as an M.D., are a dedicated fighter against small-pox, but will take up arms against anyone who dares expose the small-pox germ (or virus).

Claude Boring himself told me that every Bircher knows that the Jews are behind communism, that Welch knows it and he practically spells it out in the Dozen Trumpets, “but we don’t talk about it”. Our only weapon is the truth? No wonder we have been rendered defenseless in the face of our relentless enemies. I would say that until such time as we have a discussion about the Jews going on on every street corner, will we even have started to win the fight for our survival.

Why is it that practically every man off the street that walks into my bookstore is receptive to literature exposing the Jews and already is instinctively aware of it, but that when a man like myself dares say so publicly, it is the “stalwart Birchers” that are the first to yelp and tear at my heels like a bunch of snarling hyenas? Could it be that their first loyalty lies in protecting the Jew, rather than their own race and religion?

You will remember your anger and frustration when after giving your dedicated time and effort to the Wallace campaign, they stabbed you in the back and in your own words, “treated you like you had leprosy”. Now I find the Kosher Konservatives trying to give me the same treatment. And I ask you, is it fair? Has my loyalty to my country, to Christianity, to the White race been questioned? Just because I have the guts to put the finger on the real and only culprit, the Jew, who would destroy all these? Remember, even Claude Boring, our State Co-ordinator, said every Bircher knows it is really the

Jew. Austin Davis is a witness to this statement.

Furthermore, I ask you, is the Jew above criticism? If so, why?

History has shown overwhelmingly that the Jewish race has destroyed the Egyptian civilization, the Babylonian civilization, the Persian civilization, the Greek civilization, the Roman civilization, perpetrating the French Revolution, the enslavement of Russia, Poland, Yugoslavia, Rumania, etc. etc. Read Eustace Mullins' "The History of the Jews", and form your own conclusions.

Bill, this is where I stand, so help me God. I repeat, you cannot be aware of a diabolical evil without taking sides.

Would you care to explain where you stand?

Sincerely yours,
Ben Klassen

Mr. L. Allen Greer
Sarasota, Florida

December 15, 1969

Dear Allen:

I have received the letter from your attorney, Mr. McDonald, and also talked to him. With all due respect for Mr. McDonald, I see nothing significant in his letter that requires the attention of an attorney. What your purpose is in doing so is beyond me. If it is intimidation, it doesn't faze me at all.

I find it rather strange for one that has pleaded press of business, lack of time, etc., to even help write up the platform of the party to now be so zealous in taking the lead in getting the chairman removed, and selling the party out to an alien leadership who stand in opposition to what is the party's reason for being in the first place. It is a rather strange position you now take when you consider that George Wallace received his first national prominence when he stood in the schoolhouse door as a staunch segregationist. He became a hero to the white people of America because he seemed to take a defiant stand for the white Christian people of America, though the press branded him a racist. Gov. Lester Maddox was elected governor of Georgia because he took a stand on racial segregation and proudly proclaims today that he is a segregationist. The third party was built by the people who believe in racial integrity and are against mongrelization of the races, for segregation.

Now we find people like T. Coleman Andrews, Jr. and Fitzhugh Powell arrogantly talking about taking over the Third Party and "purging it of racists and bigots", which is even further to the left than the Democrats and Republicans are openly advocating. You are obviously in league with those who now want to take over the party and turn it over to the race-mixers.

I am strongly opposed to selling out to the left, like Goldwater did, a group of people who worked hard building a patriotic right-wing party. I believe this is a vicious betrayal and major sell out.

It is rather strange that it is the "staunch conservatives and Birchers" who are the first to pounce upon someone like myself who takes a stand in this racial issue as soon as the Jewish involvement is brought up. I understand that you publicly called me a "Hitler" at the November 15 meeting, and that a friend of mine got up and apologized for you.

Now I ask you, do you consider this the Christian charitable way — to lash and smear a fellow white Christian? All this in the defense of the Jews, who hate Christianity and have been conspiring with great success to destroy Christianity for almost two thousand years. I ask you, has my loyalty to America been questioned? My loyalty to Christianity or to the white race? Since the Jews have declared their determination to destroy Christianity and never have veered from that goal, why do you turn on a fellow white Christian with such zeal to defend the Jews? You've never even bothered to hear my views before heaping abuse and condemnation upon me.

Why is the defense of the Jews more important to you than the survival of the white Christian people? Whose side are you on?

I have not changed my position in regard to the principles upon which the A.I.P. was founded and which is spelled out in the brochure. In fact I wrote most of it and stand 100 percent behind it today. It was approved by the Executive Board at the June meeting. It is a lie to say I am not in agreement with the party principles.

A Chairman cannot be removed in violation of our constitution and bylaws by calling up a rump meeting reinforced by Democrats and Republicans who have no business in any A.I.P. meeting, much less selling out our party to people like Fitzhugh Powell, who is a registered Democrat. If you have reason to remove me, why don't you do it the legal way — come out and state your cause.

If you think I am anti-semitic, say so, and lets find out how many members would vote for the Jews and how many are on the side of white Christianity. Let's discuss it openly. I am tired of the Christians being attacked, smeared and slandered every day in our Jewish controlled news media, but no one dare even look into the Jewish conspiracy.

Again I ask you whose side are you on, the Jews or the Christians? You can't be on both sides since the Jews have long ago declared their objective to destroy the Christians. They declared war, they are the aggressors. Realizing a threat does not make me a Hitler. Martin Luther 400 years ago set this forth in a tract, "The Jews and their lies". Are you going to call him a bigot and a liar? The evidence is overwhelming for anyone who wants to read even a small part of

the history and bibliography on the Jews. But with the help of the J.B.S. and others like yourself, all this evidence is being viciously suppressed and more and more vigorously so as the conspiracy nears complete take over of this country. Or are you saying there is no conspiracy?

I have more to say on this but I believe that the letter to Bill Douglass (enclosed) will explain my stand further.

In conclusion, I am willing to relinquish the Chairmanship gladly, especially since the Andrews-Powell-Lent conspiracy has practically wrecked the A.I.P. as far as achieving the aims for which the party was originally founded. If you can find someone to take over the leadership but will not sell out to the dictatorship from Virginia and Montgomery, I will be most eager to resign.

Another thing, Allen, do yourself and your country a favor. Fortify your education and find out what millions of Americans already know. Your neck is at stake just as much as mine if America is destroyed. Read Eustace Mullins "History of the Jews". I am forwarding it to you, gratis, under separate cover.

Sincerely yours,
Ben Klassen

Mr. & Mrs. J. L. Harrison, Jr.
Palmetto, Florida

December 18, 1969

Dear Doris and Jimmy:

Thank you for your letter of December 11th, and the report on the meeting.

I am now more firmly convinced than ever in my assessment of the conspiracy. The attack and smear campaign being directed against me by the Kosher Konservatives (Zionists) reminds me of St. Paul's epistle to the Galatians, "Am I therefore your enemy because I tell you the truth?"

And the truth is exactly what the Kosher Konservatives want to suppress at all costs. The Jews in the A.D.L. don't need to expose themselves clubbing down someone who starts exploring the Jewish conspiracy. That's what they have the J.B.S. for. The A.D.L. assigns this dirty work to the "Birch stalwarts" like yourself, Larry Lent, Fitzhugh Powell, et al, and these Kosher Konservatives do the job very nicely, thank you.

However, if they fail, then they bring in their heavier artillery and have the Drew Pearsons and Jack Andersons do the job.

But obviously you are on the same side with Jack Anderson. Anyone who keeps yakking about "communism" out of one side of their mouth without delving into Jewish history has only skimmed

the surface. Anyone who refuses to dig into it and expose it when they are aware of it, must needs be in collusion with them, either wittingly or unwittingly.

For you to keep ignoring, and in fact, violently suppressing mountains of evidence which overwhelmingly indicates the culprits as plainly as two plus two makes four, can only result in one of the following obvious conclusions: dishonesty, cowardice or treachery, but hardly ignorance.

Let's look at the people who control one of the most powerful conglomerates in this county used to destroy us — the news media.

Let's look at the news media, which Spiro Agnew said was controlled by "a handful of powerful men". Of course, being a tool of "this handful", how could he say a "handful of Jews"? But here's how it lines up in the T.V. networks:

C.B.S. — Chairman of the Board - Wm. Paley, a Jew. President of C.B.S. news - Richard Salant, a Jew. And a host of lesser executives - Jews.

N.B.C. — Controlled by David Sarnoff, a Jew. President - Julian Goodman, a Jew. Producer of the Huntley-Brinkley show is Lester Crystal, a Jew; and the news editor is Gil Millstein, a Jew.

A.B.C. — President - Leonard H. Goldenson, a Jew. Executive Producer of A.B.C. news - Avram Westin, a Jew; along with key personnel well fortified with Jews.

Now, this presents a pattern of a type, doesn't it? A pretty tight conspiracy, in fact, in which the Christians are excluded without a voice, don't you agree? But can you pin anyone of these down as a "communist?" Can you prove it? So, this "communist" pursuit is a nebulous smoke screen, but the Jewish conspiracy is real, all pervading and strangling us to death. How can they do this when we have them outnumbered more than 20 to 1? Because they have people like you cutting down people like me when we try to expose them.

So, whose side are you on, the Christians or the Jews? Are you, in fact, a Zionist?

I thought it a real cute trick to hint to me that Bill Shearer might be a Jew (he isn't) and then turn around and send him a letter accusing me of being anti-semitic. (I'm not, I have nothing against the 100 million Arabs.) In both cases, of course, you had our best interests at heart, didn't you, or were you hoping for some other results? How tricky can you get?

Why are you so "dedicated" to "exposing" and fighting the "communist" conspiracy but become ten times as zealous and energetic in smearing and cutting down a fellow white Christian when he goes to the heart of the conspiracy and puts the finger on the real culprits — the Jews? Utterly idiotic, unless, of course, you are working to protect the Jews.

Why is it patriotic, noble, courageous to fight “communism”, but as soon as this same dedicated patriot speaks the whole truth about the Jews, he is viciously attacked by these same Kosher Konservatives as being a “racist”, “bigot”, “Nazi”, and smeared with every dirty epithet the Jews have invented? Completely unreasonable, unless, of course, you are in cahoots with the Jews.

Robert Welch prides himself in that he and the J.B.S. have been attacked more viciously than any other group in American history. Yet you joined the J.B.S. and that doesn’t bother you. But when the Jewish question is raised you run like jack rabbits, and say “it isn’t a matter of courage.” Oh really? Not only do you then collaborate in suppressing the truth but frantically try to keep any patriot to whom it is a “matter of courage” from even talking about it. This is highly inconsistent and contradictory, unless, of course, your objective is to protect the Jews. Exposing the truth means the whole truth and not skimming the surface and suppressing the crux of the matter. In other words, you are really spreading a lie, while yakking about “our only weapon is the truth.”

Now it is not just my isolated little conclusion that the Jews have a vicious, hateful conspiracy to destroy the best of the white Christians and enslave the rest like a bunch of cattle. Read the teachings of the Jewish Talmud. Martin Luther, the father of the Protestant movement, said it 400 years ago. Are you going to call him a bigot and a liar? Benjamin Franklin at the framing of the constitution pleaded fervently to exclude the Jews or in two hundred years they would have us “working in the fields to furnish them substance, while they will be in the counting houses rubbing their hands.” And he concluded, “I warn you, gentlemen, if you do not exclude the Jews for all time, your children will curse you in your graves.” You want to argue with Ben Franklin and call him a “Natsee”?

Claude Boring sat right here in my bookstore and admitted that “everyone in the Birch Society” knows “the insiders” really are the Jews, that Robert Welch undoubtedly knows it and “practically” spells it out in the “Dozen Trumpets”. But!!! we don’t talk about it. He calls this “exposing” the conspiracy? “Our only weapon is the truth”? How ridiculous, unless, of course, the real objective is to protect the Jews.

Your “sticking” with Medford Evans really only proves that the Kosher Konservatives pretty well know what their job is, namely, talk a good “anti-communist” fight, but above everything protect the Jews, and silence, smear, discredit anyone who dares expose the Jew.

In conclusion I want to ask you, where has any battle in history been won without identifying the enemy? Is that how we beat the Indians while winning the West? Is that how we beat the British in the Revolutionary War? Is that how we beat the Germans? The Japanese? Use your God-given common sense. Do you really think

you can out-trick the Jews by pretending you are not against them? For every trick you might try, they have a thousand up their sleeve, time-tested through the centuries. They are Masters of Deceit.

If the Jews do succeed in making "every Jew a king, every Gentile a slave", where are you and your children going to be in the line-up? Remember, they killed 30 million Christians in Russia — the best — the elite — in order to institute their diabolical regime. Where do you plan on fitting in on this program? Have you really made up your mind to defend the Jews and smear your fellow white Christian brothers? When they can destroy me, they will also be powerful enough to hang you, and believe me, they will show no mercy. Think it over.

Sincerely yours,
Ben Klassen

FOLLOW-UP. *My resignation from the Birch Society stirred up considerable ruckus, especially in the State of Florida. Whereas the Birch stalwarts denounced me, it also caused a strong rally of support from many rank and file, who, like myself, had been wondering why the Society had such a cozy relationship with the Jews. It is a coincidence that whereas Douglass, Greer and Harrison were all from the West Coast of Florida, the strongest initial support also came from that area of the state. Among these were Omar C. Miller, a strong Nazi supporter, and Mrs. Eleanor Kramer, a long time member of the Birch Society, who was, however, beginning to become highly disillusioned by the course the Society was taking.*

Dear Mr. Miller:

Thank you for your kind letter of January 25.

We enjoyed the visit by Mrs. Kramer, John Adams, and Phil Ward and had a delightful exchange of views.

Mrs. Kramer told us about you and I am very much interested in meeting with you and discussing further what action we can organize to stop the Jewish conspiracy dead in its tracks.

I would be happy to have you come down and visit us here any time that is convenient for you. However, it might be a good idea to let us know in advance.

I look forward to seeing you and your friends in the near future.

Sincerely yours,
B. Klassen

FOLLOW-UP. *Four of us from Pompano Beach flew into Tampa to a Nazi meeting Omar Miller arranged at his home one evening in February of 1970. Representing the Nazi Party were Matt Koehl, the new commander, and Robert Lloyd, a reformed drug addict. After listening to their presentations, I was convinced that the Nazi Party did not have the answer, nor the leadership necessary to do the job. We needed something better. What, I did not yet know.*

To the Editor:

The deadliest enemies of the White race are now evidently ensconced in Washington. When Negroes burn down large sections of Detroit, Washington and a hundred other cities, loot, pillage and terrorize at will, the order is given to the police to just stand by and do nothing.

In the meantime, alien enemies like Henry Kissinger, Arthur Burns (Burnstein) and their ilk are ruthlessly pushing forced busing, integration and mongrelization down the throats of White America. When the white people of Lamar, S. C., in righteous indignation upset

two empty buses, all Hades breaks loose. The Washington race mixers send out the National Guard with helmets, bayonets, tear gas and armoured vehicles. Helicopters fly overhead. The F.B.I. routs dozens of White Americans out of their homes in the middle of the night in the style of the brutal Russian NKVD.

How much more are we going to take? It is high time we White Americans rise up in anger to a man and throw out these international alien traitors and again become masters of our own country.

Dear Mr. Miller:

Thank you for your kind letter of March 4, and also your hospitality when we visited your home.

I have given considerable thought as to what course we can best pursue in preventing the Jews from destroying the White Race. At this point I'm not sure whether the NSWPP or whether the National States Rights Party out of Savannah offers the most positive program. Frankly, I was somewhat disappointed in the speaking abilities of the two gentlemen from Arlington. I was also somewhat disappointed in their projections that it might be three to five years before the party would be ready to hold mass rallies.

In the meantime, J. B. Stoner and Dr. Edw. R. Fields of the NSRP are holding mass rallies of 1500 people or more in Jacksonville and other cities. They are protesting the vicious Jew programs of school busing and race mixing, and thereby building up the Party and an informed and aroused following. The NSRP is also either running candidates directly or backing candidates who take a strong stand on the racial-Jew-nigger issue.

As far as platform and philosophy is concerned, I find the two parties are pretty well identical, although I admit that the NSWPP has more depth of background in being an extension of the German NS movement and standing upon the principles propounded by Hitler. This is in their favor.

Nevertheless, as Hitler says, unless these principles and ideals are put into effect by aggressive and determined action they remain lifeless and academic principles. In this respect, and this is important, I believe the NSRP is much superior to the NSWPP.

Although I have not joined either party I believe that I will join with the NSRP.

At the present I have been helping both, but principally pursuing our Bookstore activities of putting out as much literature and

as many books as possible that will expose the nefarious Jew plot to destroy us. This has been encouragingly successful. We now have a considerable library of anti-Jew books and do a pretty healthy volume in sales. We have especially pushed "Behind Communism" and sell them three for $1.00. I might suggest that you could also keep a stack of these on hand and get as many people distributing them as possible.

It was a pleasure meeting your charming and gracious wife, and again many thanks for your hospitality from all of our group. I look forward to hearing from you again soon.

Best regards,
Ben Klassen

To the Editor:

Vice President Agnew blew up a storm when he rapped the manipulation of the news by the TV industry. But Agnew really only scratched the surface.

What he did not do is identify "this small group of men numbering perhaps no more than a dozen." Who are they? The chairman of CBS is William Paley (Pallinsky). President of CBS News is Richard Salant. NBC is controlled by David Sarnoff whose president is Julian Goodman. President of NBC News is Reuven Frank. Editor of the Huntley-Brinkley show is Gil Milstein. ABC president is Leonard H. Goldenson. Exec. Producer of ABC News is Avram Westin. The middle and lower echelons are monopolized by the same "Mystic Brotherhood."

If you have wondered why TV News and programs are predominently anti-Christian, anti-White and promote race mixing, a close study of who the manipulators are will provide the answers.

Dear Eleanor:

It was good talking to you on the telephone last night. It is rather maddening to have the Jew Built Society harassing you, but I'm sure you can take care of them.

I am enclosing the following items, some of which you requested:

1. Copy of 3rd page of letter to Rabbit Welch.

2. Copy of my letter to the Editor.
3. Copy of principles of the National States Rights Party.
4. Copy of Sons of Liberty and letter to Wm. C. Douglass.
5. Copy of letters Chas. Putnam of Lakeland wrote to Tampa Tribune and the reaction from Jew stooges.
6. Copy of the latest Thunderbolt.

I am happy to hear that you are considering going with the NSPR and taking a good group along. I think this is highly constructive.

We might take you up on your invitation and fly up perhaps Sunday, April 5, if we can get Tony Lucas to fly us up again. We'll let you know.

BACKGROUND. The following letter was written by me, but since I had been sending in more than my quota of letters to the editor I had one of our supporters (of the NWP) send it in under his signature. This letter is of particular interest due to the vicious response it evoked.

Sun Sentinel (Printed) April 9, 1970

To the Editor:

The Zionist octopus in the U.S. is composed of 21 major organizations, over 100 minor organizations and a network of small community centers. The Zionist high command is exerting tremendous pressure to railroad the U.S into a Middle East war. This war is designed to further Israeli expansion and territorial aggression. It is an imperialistic war to steal more Arab lands, including the rich oil fields of the Middle East.

The pawns in the game to power this war of aggression and plunder are to be American planes, American money and American boys. If we are duped into another idiotic war, America's reward will lie in a pile of dead bodies and a pile of very live debts to haunt us.

Twenty-five years ago we were duped into fighting a war in support of Russian Communist aggression. Let America beware of being suckered into a Zionist war of aggression in the Middle East.

Guy Lethiecq

RESPONSE: There were three especially nasty letters that were written by Jews and subsequently printed by the paper on its editorial page. However, the most bloodthirsty letter was written by an anonymous Jew who mailed his venom directly to Mr. Guy Lethiecq. We reproduce it here verbatim:

"Christian", bastard Lethiecq:

In the paper you are talking now for many months in the **LETTERS** column, but who of your fellow "Christians" is listening. . . . . no one!

Your letters indicate you are **beginning** to understand but fortunately they are limited to the local paper. The plan, however is now complete except for time, so anyway you are too late. And even here no one buys your merchandise. For don't you see, you dirty, "Christian" bastard Lethiecq, (we local Jewish people speak amongst ourselves of you as "Christian" bastard Lethiecq), you are few, **count them**, while we are **all. OURS IS THE WHOLE WORLD.** And all its ruling governments, monies, TV, magazines, newspapers, movies, books, radio news, clubs, schools, colleges, associations, professions, hospitals, "churches" (ha!), stores, banks, and everything you can name and everything you buy or rent, and much more which you are not to know, ... ever!

Have you read the clipping editorial here, you "Christian" bastard Lethiecq? Aiken is not Hebrew and it ran in hundreds of thousands, yes millions, in hundreds of papers and magazines in America, our America, **our country.** (CHODESH) **One** of them. Now how do you feel?

Write more letters in the paper, "Christian" bastard Lethiecq so we can laugh at you some more.

Work hard, earn much money and pay your taxes like a good American "Christian" for isn't that the good American citizen way?

What good would it do for you to ever understand for before you did you will die and now children in school don't even know the word, "Jew". So you see we have time on our side, **time always** favors those in the right, ... so we have but to wait.

Yours truly,
Marty

I am most interested in hearing from you again as to what success you are having in enlisting white people in your area who are interested in defending and preserving their race, culture and heritage from annihilation and mongrelization by you know whom. Have you contacted Dr. Fields as yet?

The article about the J.B.S. is coming out in the Thunderbolt

this issue (which will be off the press today). We have ordered a few hundred. If you want a quantity from us we can send them for eight cents each. We will send you a sample as soon as we get them so you can decide if you want some.

(Printed May 28, under heading "Israel Condemned")

The Sun Sentinel

To the Editor:

This letter is written in defense of Guy Lethiecq, who is under vehement attack from the Jews because he dared tell the truth about Israel.

I agree with Mr. Lethiecq that Israel is a bandit nation. The Jews had absolutely no claim on Palestine. In the first place 100 per cent of today's Jews are not even descendants of the Biblical Hebrews, but descendants of the Khazars, an Oriental Asiatic tribe from eastern Russia converted to Judaism in the 8th century A.D. Furthermore, the Arabs have lived in Palestine for nearly 2000 years. If the rest of the world were to unscramble to the ancestral status quo of 2000 years ago, the Jews should set an example by vacating New York en masse as a start.

The viciousness and cruelty with which nearly two million Arabs were driven from their homes and farms in the late 1940's is one of the darkest blots in the history of mankind. This the Jews were able

to do because of their tremendous worldwide powers in government and finance, especially the United States.

My sympathies are with the Arabs, who have not only been terribly robbed, tortured and plundered, but are also being daily maligned in our news media.

To the Editor:

The letter by Myrtle Newman (July 14) contains so many distortions of logic and history that it cries out for a rebuttal.

To say that Palestine rightfully belongs to the Jews is about as justifiable as saying that Broward County belongs to the Mafia should they take it over. (Don't laugh, they might.) In the first place 90 to 95 per cent of today's Jews are not descendants of the Biblical Hebrews at all, but are descended from the Khazars, a fierce Asiatic tribe of eastern Russia, converted to Judaism in the 8th century A.D.

The reasoning that Jews make a lot of money, pay taxes, therefore, ipso facto, our tax money should go to Israel, is most peculiar. Thirty-seven per cent of today's (tax paying) Americans are of British descent, 25 per cent of German descent, etc., and only three per cent Jewish. Why special privileges for Israel? Should they be rewarded for robbing a predominantly Arab nation of their land, their homes and driving them into the desert to starve? This they did with the power of International Jewish money.

The Jews are not God's chosen people. Because they flagrantly violated His commandments, the Lord laid upon them numerous curses.

Jesus Christ was not a Jew. The Jews crucified Him and have waged unrelenting war against Christianity ever since.

BACKGROUND. THIS NEWS ITEM WAS PUBLISHED IN THE FT. LAUDERDALE NEWS, NOV. 18, 1970.

'Third Party' Gets Charter

Damning an alleged coalition of Blacks and Jews in American politics and finance, a new "third party" to pursue the interests of White Christians has been formed by two North Broward men — one a former Republican state legislator.

The Nationalist White Party, with former state representative Bernard Klassen as its national director, recently was issued a charter as a non-profit corporation by Florida Secretary of State Tom Adams.

In addition to Klassen, Austin C. Davis Jr., is listed as assistant director of the party, which has its headquarters at 882 N. Federal Hwy., Pompano Beach. Both men are Lighthouse Point residents.

Klassen, who ran George Wallace's presidential campaign in Broward in 1968, said the purpose of his new third party would be to emphasize that "the White Christian people who conquered America don't intend to be relegated to second-class citizenship."

The Nationalist White Party was incorporated under the laws of the State of Florida on November 3, 1970.

* * * * *

BACKGROUND. ONE OF THE FIRST FLYERS PUT OUT BY THE NEW NATIONALIST WHITE PARTY WAS THE FOLLOWING:

WHAT'S WRONG WITH BEING WHITE?

The answer, of course, is nothing! In fact, you, as a White person, have every reason to be proud. After all, while the Negroes were running around in the jungle eating each other, your White ancestors were building the world's mightiest civilizations, including ancient Greece, Rome, modern Europe and America, to name a few. All of the technological advances and wonderful conveniences you enjoy today were brought about by creative Whites: people of your race.

But now you're being told that you should be ashamed of your race. The Jew-controlled media — television, radio, and newspapers — keep telling you that you have "oppressed" the Negro, and that

you should make up for this alleged "oppression" by offering the blacks your job, your neighborhood, and your daughter.

It is never pointed out that the black race in Africa sat on its collective behind for thousands of years, oppressed by no one, without even developing the wheel. Nor is it mentioned that the Negro's only real contributions to America have been rising rates of crime, illegitimacy, and venereal disease.

What's more, White Americans aren't being informed that the latest scientific research confirms that the backwardness of the Negro is due not to his environment, or to "oppression", but to his natural biological inferiority.

Why aren't these facts brought to your attention? Simply because the Jews and their stooges aren't interested in publicizing the facts, but in peddling the "equality" lie, in order to bring about race-mixing, the downfall of White culture, and the destruction of the White race itself.

The effort to instill a guilt-complex in Whites over the uncreative Negro's inherent lack of progress is just one of the many vicious tactics being used by the Jews and the integrationist fanatics to reduce the White race to a cowering herd of mongrels.

If you're tired of hearing about what a "dirty Honkey" you are, and want to do something to preserve your racial heritage, then join with other concerned White men and women in an organization dedicated to supporting White people's interests. For a free copy of Our Creed, write today to:

Nationalist White Party

OUR CREED

FOURTEEN POINTS

POINT 1.

We believe that the White Race was created in the Image of the Lord, and represents His noblest and loftiest creation. Whereas, the first and foremost of God's Natural Laws is the preservation and propagation of the species, we believe that in preserving and protecting the White Race from pollution, mongrelization and extinction, and promoting its constant improvement and increase, we are carrying forward the work of the Lord.

POINT 2.

The White Race is now in mortal danger of being mongrelized and enslaved by a diabolical worldwide conspiracy. This treacherous program is set forth in the Protocols of the Elders of Zion, in the Jewish Talmud and in Karl Marx's Communist Manifesto. At the root of this whole deadly conspiracy is the International Jew. COMMUNISM IS JEWISH. The Jew has been a blood-sucking parasite on the backs of the White people since the dawn of history, promoting the collapse and destruction of every civilization the White man has ever built. The White Race has now become the most persecuted, abused, plundered and mistreated people on the face of the earth. It is an appalling fact that the White people of America alone, who have never known military defeat, have been forced by their treacherous Jewish controlled government under the pretext of foreign aid, welfare, and other hoaxes to pay more tribute to hostile colored races at home and abroad than all the vanquished peoples of the earth have paid to their conquerors. The White man has lost control of his land, his government, his schools and his money. He cannot even get basic justice in the courts of America. On the contrary, the courts are now being used as a tyrannical instrument for the subjugation and destruction of the White Race. We are engaged in a vicious battle for life and death against Bolshevist Judaism. It is a fight we cannot escape. We do not wish to avoid it. We wish to make sure the sides are squarely lined up and the enemy clearly identified. Once we have done this much, the battle is practically won.

It is our sacred determination to drive the Jew from all vestiges of power and influence, first in America, and finally, render him harmless in, and to the whole family of White nations throughout the world.

POINT 3.

America was founded and built by the White Race. THIS LAND IS OURS. We are determined to have it remain so forever. We will allow only members of the White Race to become citizens of America. This excludes members of the Jewish race and the Black race. Only American citizens will be allowed to hold public office and positions in governments. Only American citizens will be allowed in the professions, in banking, in the judiciary, in the news media, in radio and television, and in positions of education and cultural leadership.

POINT 4.

Since the African Negroes were brought to America as slaves, largely by Jewish slave traders, they have been a serious problem to White America, and a spreading cancer in our midst, greatly aggravated by the Jewish drive to mongrelize the White Race. Their

presence here in America is a dire threat to the very survival of the White Race itself. Under the present course of events, America will be a polluted brown mongrelized mass of riff raff and scum by the end of the century, reduced to a level of degradation where our White civilization will collapse. We are determined this must not happen to God's finest and noblest creation — the White Race.

This precious land was conquered and wrested from the wilderness at great sacrifice of blood and toil by our pioneering White ancestors. Having won this precious land, we are not now about to flee and abandon our sacred soil to a vastly inferior race, the African Negro. We are therefore determined to carry out Abraham Lincoln's plan, the repatriation of the black man back to his native Africa, the homeland from whence he was forcefully torn. This resettlement of the black man to the underpopulated black countries of Africa will be carried out with just compensation and in such a manner as to increase the economic viability of the resettlement areas.

POINT 5.

Not only must the White Race guard against pollution of its blood from the inside but by immigration from the outside as well. We plan to change the immigration laws to prevent any further colored masses from migrating into our land, or mixing into our national blood stream. We are therefore determined to strictly control immigration, and limit it to people of the White Race only.

POINT 6.

We look upon the family unit as a most sacred institution and the building block of our civilization. We believe that all possible measures must be instituted to safeguard and sanctify the family as a continuous chain in the life of our race. We must first of all make it financially more feasible for young couples to marry at an earlier age. Secondly, we must reduce the awful burden of excessive taxation, which discourages large and healthy families.

We believe that the children belong to the parents and not to the state and that it is the parents' responsibility in giving their children their ideology and orientation in their early formative years.

Our founding fathers had the healthy instincts and the good sense to institute laws against miscegenation. These laws are now being struck down by our Jewish controlled Supreme Court to further the insane Jewish drive to mongrelize the White Race. We must again institute strict racial laws against mixed marriages, and again have our people realize that he who sins against the blood of his own race commits the crime of racial blood poisoning, a dastardly crime, the consequences of which can never be fully erased.

We believe that once the working White family is relieved of sup-

porting millions of black parasites, that all those women who would prefer devoting their time to home and family, will be able to do so. We must, in any case, stop the present insane program of the White husband and wife both having to work so that the Negroes can live on welfare, breeding increasing numbers of parasites to further burden the productive White workers. Not only is the present situation shrinking the size of the White family, but we are participating in our own racial suicide. This must stop, and repatriation of the Negro back to Africa is a major constructive step in this direction.

POINT 7.

We believe that the productive White American worker is the backbone of the nation and its greatest strength. He is entitled to the protection of social legislation in his work, in sickness and in old age. His unions should have the honest constructive leadership that he deserves and his work should receive the reward, the dignity of recognition, that he has so well earned.

The unions now are in the control of Jews who exploit the workers, manipulate the unions for political ends harmful to the White worker, discriminate against capable White workers, and promote the interests of incompetent blacks. We will therefore make it mandatory that no Jew can exercise any control or hold office in any labor union.

POINT 8.

A basic strength of any nation is in the number of farmers who till the soil. Not only do the farmers produce the nation's food and fibre, but also greatly fortify the strength of our White racial stock. We intend to protect the farmer from cheap foreign competition. We intend to have a program to encourage more people to return to the land. We intend to reverse the trend of larger and larger farms in the hands of fewer and fewer large operators. Our American soil is sacred and no one but the White American will be allowed to own farm land.

POINT 9.

Expanding prosperity and greater stability for America are augmented by encouraging a larger group of individuals in acquiring a personal stake in their own small private businesses. It is our objective to promote a broader base for small privately owned enterprises and professions, since this has been the foundation of the economic health and mercantile expansion of America. Emphasis will be placed on promoting the interest and well being of millions of family owned businesses and preventing the monopolization of business by corporate giants.

We are determined to free the economy of continued manipulation by the clique of international bankers and the perennial uncertainty created by such manipulations. We want to create stability and confidence. We are firmly resolved to relieve business of the oppressive regulations and restrictive measures that stifle economic life.

POINT 10.

Our money system is now in the hands of the Federal Reserve which in turn is in the hands of the International Jewish bankers. Every dollar that is printed accrues to the benefit of the International Bankers who acquire it free of charge, except for small printing expenses. It is then loaned out to the American people, who then are yoked to paying interest forever on their own medium of exchange. This is the most gruesome and powerful tool in the hands of the Jews for the enslavement of nations. We are determined to forever abolish the Federal Reserve Board, and to have the Government (in the hands of White people) issue the nation's money, interest free. This is what the Constitution calls for and this is what Abraham Lincoln briefly accomplished during the Civil War. For this reason, the Jews had Abraham Lincoln assassinated.

POINT 11.

The White man has for centuries brought law, order and civilization to every corner of the world and ruled over 90 per cent of its area. However, the last few decades have seen the culmination of the International Jewish conspiracy and the White man is now in full retreat all over the world. In the last two generations, the ratio of the colored population to White has mushroomed from 2 to 1 to an alarming 7 to 1, a suicidal catastrophe often aided and abetted by misguided White "humanitarians" in collaboration with the Jew's program. This trend must and will be reversed by a cessation of White aid to the colored and instead the White Race banding together to promote their own interests.

On the international scene, we envision an expanding family of independent White nations, friendly in the exchange of trade and culture and rallying together for mutual benefit and protection in times of danger. We will preach "White Power through White Unity" and once America has freed itself from the clutches of International Jewry the American White people must help rid the rest of its White brother nations from the same scourge; otherwise we will again become victim of the same cancer from the outside. The United States is now the only nation powerful enough to dislodge the Jew from its national body. The power of the International Jew must be broken once and for all. Never again must the family of White nations let the Jew dupe them into fighting fratricidal wars, White

brother killing White brother. Once awakened and organized, the White Race is the most powerful force on the face of the earth and never again shall the Jew enslave, plunder, and put into bondage the Creators of civilization, culture and beauty.

POINT 12.

It is our objective to raise the cultural, ethical and moral values of White America to ever greater heights and finer values. We must promote the teaching of the value of our White racial heritage, the unique value of our blood lines, that race is all and that the survival of culture and civilization is dependent upon its creator — the White Race. This must be strongly instilled into the minds of our children throughout their formative years, and promoted in our educational systems from kindergarten through college. We must keep impressing upon the mind of every child, every adult, the ideals of "Racial Loyalty, Racial Pride, and Racial Unity." Also, our news media, theatre, radio and television must be utilized to impress this great truth upon the White people of America so that never again will the White Man's thinking be sabotaged and subverted for his own destruction.

POINT 13.

Every law that is passed, every action that is taken will have this as its basic and only consideration: Will it benefit the White Race? This is the guiding principle of our movement.

POINT 14.

Gaining the above objectives is a matter of life and death for our people, the White racial family. Unless we drive the Jew from power and have our people again in control of the American government, we are hopelessly lost. But we, the White people, can and must get control of government. We have overwhelming power. The task is clear and it is attainable. After all, we the White people, outnumber the Jews 30 to 1. Once aroused and united in purpose, the White man can and will outfight any other on the face of the earth. The Germans proved that.

Having realized these fundamental truths, our people must again be inspired to a fervent, resolute will to power, to an unshakeable faith in their ability to gain that power and a fiery determination to again be masters of their own destiny. We must exalt and glorify our White heritage and instill Racial Pride. This is the true task and ideological objective of the Nationalist White Party.

We have therefore set forth a new creed in which White men can again have hope and confidence, a program that is designed for nothing less than victory. We have raised a standard around which

all brave and decent White men can rally to battle. We have organized a party all White Americans of honor can be proud to be part of. We have hurled a symbol of power into the political arena — White Power. We have brought forth the highest cause to which men can truly dedicate their lives, their fortunes and their sacred honor — and this, the noblest of all causes, is the preservation and advancement of their own people — the White Race.

We must therefore make every White man conscious of where his true loyalty lies — with his own racial family, his own people. We intend to field an increasing number of political candidates every year until we are in power. We must make every political candidate face the crucial acid test — is he on the side of the White race or is he on the side of the Jews and the Negroes? We intend to force every candidate to take sides. Just as the Jews and the Negroes have bloc voted for years, the White man must bloc vote for the loyal White candidates. Every candidate must stand exposed — is he loyal to the White Race or is he a race traitor? And woe to him that is a race traitor. **White Man — Unite and Fight! Victory is Certain.**

NOTE: At about this time I designed our future logo, then had a commercial Pompano Beach artist draw it up in good form. Unfortunately, the name of the artist has been lost.

OUR INSIGNIA — WHAT IT MEANS

The Crown over the "W" signifies that our White Race is the Aristocrat of all races and is the Creator's crowning glory. It is a symbol of White Supremacy; that we are the Master Race.

The Halo signifies that we regard our White Heritage and Blood Lines as a divine trust and that it is our eternal mission to pass this sacred heritage on to future generations, pure and unimpaired.

NOTE: Probably the most significant four page flyer we compiled during the Nationalist White Party period was the "Fifty Phoney Arguments" piece. The following gives it in total, unabridged, although, we were later to reject most of the pro-Christian arguments.

FIFTY PHONY ARGUMENTS

USED BY KOSHER CONSERVATIVES TO CONFUSE GENTILES AND PROTECT THE JEWS

BY BEN KLASSEN & AUSTIN DAVIS

1. The Jews in Israel are strongly anti-communist and a bulwark against communism in the middle east (Billy James Hargis).

Correction: The same Jewish Network that controls Russia is building up Israel to become the central seat of World Government and the future home of the Jewish United Nations. Communism is a Jewish creation lifted right out of the Talmud, and its system of communes, kibbutzes and other attributes are widely practiced in Israel. Israel is the only country in the middle east that hasn't outlawed the communist party. Communists occupy seats in Knesset (Israel Parliament).

2. Don't you think that attacking the Jews will be divisive to the conservative movement and perhaps even wreck it?

Answer: The objective is not to preserve the "conservative" movement but rather to preserve our White Race, our Christian Faith and our Nation. Telling the truth cannot hurt the conservative movement, but it will strengthen it. It will, however, expose that tiny minority, the Kosher Konservatives who have usurped leadership and who are zealously protecting the Jews.

3. I have a dear Jewish friend who has converted to Christianity and I wouldn't want to do anything to offend him.

Answer: If he has rejected Judaism and sincerely embraced Christianity why would he be offended if you attack the Jews, unless his secret loyalty still remains with Judaism.

4. Judaism is incompatible with communism.

Answer: Communism is the Jewish concept of government as set forth in the Talmud (Jewish Bible). Communism is a Jewish creation, a tool designed to enslave the world under Jewish dictatorship (example Russia).

5. I am not going to attack anyone on a religious basis.

Answer: Why not? They certainly are out to attack and destroy our Christian faith. Bernard Lazare, a Jew, says, "The Jew is not satisfied with de-Christianizing. He Judaises, he destroys Protestant or Catholic faith, he provokes indifference but he imposes his idea of the world of morals and of life upon those whose faith he ruins; he works at his age old task, the annihilation of the religion of Christ."

6. Communism is a philosophy based primarily on economics.

Correction: Nonsense. Communism is a Jewish conspiracy created to destroy the White Race through mongrelization, annihilation and degeneration (M.A.D.).

7. Since the Jews are part of the White Race why would they want to destroy their own kind?

Answer: The Jews do not consider themselves as part of the White Race. Professor Leonard J. Fine says: "We are not white symbolically, and we are not white literally. We should not permit ourselves to be lumped together with White America, for that is not where we belong."

8. What do you want to do — Kill all the Jews?

Answer: No. The objective is to prevent the Jewish Marxist conspiracy from slaughtering the White Christian people as they did in Russia after the Bolshevik Revolution. In order to protect ourselves, we must — by whatever means — drive them from power — in government, finance, education and propaganda. In short, render them incapable of destroying us.

9. I can't put all the blame on the Jews. It would let too many non-Jews off the hook (Medford Evans).

Correction: We are not letting any non-Jews who are traitors, off the hook. (We're not letting Medford Evans off the hook either.)

9. (B) But are you going to blame all the Jews?

Answer: Yes. If they are Jews they study and practice the Talmud. The Talmud has the whole dastardly program of destroying Christianity and the White Race inherent throughout its many volumes. Even the Jews who are more or less inactive participants are aware of the conspiracy and certainly are not blowing the whistle on the rest. In fact, just about every Jew is a member of some Jewish organization like the B'nai B'rith, A.D.L., A.J.C., Kahilla, etc., whose main efforts are bent on promoting the conspiracy.

10. Don't the communists in Russia persecute the Jews? How can the Jews support communism?

Correction: Jewish terrorists (Trotsky et al) trained in Eastside New York, financed by New York Jew bankers (Jacob Schiff, et al) perpetrated the brutal Russian revolution and have had a death grip on the Russian people ever since. Anti-Semitism in Russia is a crime punishable by death. The Jews have 28 million Russians in their concentration camps where the Russian inmates are treated worse than animals.

11. If the Jews have such tremendous power over America, why hasn't the news media told us about it?

Answer: Since the Jews control the news media, don't expect them to blow the whistle on themselves.

12. The Jews are superior in intelligence to the White Race and therefore are entitled to have control over us.

Correction: The Jews are inferior to the White Race in intelligence and creativity. They have achieved their tremendous power through conspiracy, bribery, theft, murder, lies, tenacity, and above all, by banding together in their fanatic hatred toward the White race.

13. Wouldn't it be easier to fight the communists rather than confuse the issue by dragging in the Jewish question?

Correction: Since communism is a Jewish creation clearly spelled out in the Talmud, we can hardly defeat it without exposing its Jewish origin. Communism is merely a smoke screen for the Jewish conspiracy. Communism was conceived by the Jews, is financed by the Jews, and is ruthlessly being carried out according to plan for Jewish world control.

14. Isn't it ridiculous to think that the Jews could take over the whole world when they are only such a small minority?

Answer: Ridiculous or not, it is an accomplished fact and we'd better face up to it. The Jews already have complete control over 40 per cent of the earth's people and exercise enormous control over the remaining 60 per cent. Read Protocol 5 of the Learned Elders of Zion.

> *"By all these means we shall so wear down the goyim that they will be compelled to offer us international power of a nature that by its position will enable us without violence gradually to absorb all the State forces of the world and to form a super Government. In place of the rulers of today we shall set up a bogey which will be called the Super-Government Administration. Its hand will reach out in all directions like nippers and its dimensions will be of such colossal dimensions that it cannot fail to subdue all the nations of the world."*

15. Why should the Jews want to destroy this country when they already own most of the wealth? Wouldn't they be worse off than they are now?

Correction: Perhaps, but is is the nature of a parasite to feed upon the host regardless of the consequences. If this kills the host, the parasite moves on to a new victim.

16. We all know its the Jews, but since they have all the power and money they will smear you unmercifully and ruin you.

Correction: Do you know anyone in the United States that has been smeared and ruined because they attacked the Jews?

17. By attacking the Jews you are stirring up hatred between the Jews and the Christians. This is exactly what the communists want you to do. Just like they want to promote dissention between Protestants and Catholics, between Germans and Englishmen, between management and labor.

Answer: The Jews instigate hatred and exploit as many differences as they possibly can to weaken the Gentile White Christian. The one group that they make sure will not be attacked is the instigators themselves — the Jews, the real culprit. To quote Marcus Eli Ravage, a Jew, *"Our tribal customs have become the core of your moral code. We have been at the bottom not merely of the latest great war, but of nearly all your wars, not only the Russian, but of every other major revolution in your history. We have brought discord and confusion and frustration into your personal and public life. No one can tell how long we shall go on doing it. . . We still dominate you. At this moment your churches are torn asunder by civil war between Fundamentalists and Modernists."*

18. It is dangerous to attack the Jews. They will kill you.
Correction: They are more likely to kill you if you don't. The best defense is attack.

19. There are some things — like bad breath — we just don't talk about (Dr. William C. Douglass).
Answer: Talking about a problem goes a long way towards solving it whether it is halitosis or Jewish communism.

20. Can you prove the Protocols of the Learned Elders of Zion are not forgeries?
Answer: Mr. Henry Ford I, one of our greatest Americans said in 1921: *"The only statement I care to make about the Protocols is that they fit in with what is going on. . . They have fitted the world situation up to this time. They fit it now."* Today, nearly 50 years later it is overwhelmingly evident — even to the man on the street, that the program of the Protocols is being ruthlessly carried out to the letter and no other group fits the conspiracy but the International Jews.

21. If you attack the Jews you are a bigot, a racist, a Nazi.
Correction: The Jews are the aggressors bent on our destruction. When Gentiles resist, the Jews seek to frighten them with preconditioned smear words designed to trigger hate and ridicule. No one is more racist than the Jews, as is clearly demonstrated by the extremely racist laws of the state of Israel.

22. People just won't believe it's the Jews. It's hard enough to get people to understand there's a communist conspiracy (Robert Welch).
Correction: Actually the whole communist conspiracy becomes much more credible when you expose its Jewish foundation — even the average man in the street knows that, and has an instinctive aversion of the Jewish menace.

23. The Jews are a religion, not a race.
Answer: To quote Rabbi Stephen S. Wise, *"I am a Jew. I have been an American for sixty-three years, but I have been a Jew for*

four thousand years. Hitler was right in one thing. He calls the Jewish people a race, and we are a race."

24. I have some dear friends who are Jews and I don't want to do anything to offend them.

Answer: These same Jews study their Hebrew bible, (The Talmud) which portrays the Virgin Mary as a harlot and the father of our Saviour as a Roman soldier. The Talmud does more than just offend Christians. It is a blue print for the destruction of Christianity.

25. We all know it's the Jews — but we've been exposing them without success for 50 years (Maj. Arch Roberts).

Correction: Most so-called conservative organizations have not been exposing the Jews. Organizations like the John Birch Society have been frantically protecting the Jews. Whereas these Kosher Konservatives pointlessly talk ad nauseum about the deplorable state of affairs, about the dangers of "communism", they reserve their special wrath and choice invective for those Americans who have the courage to expose the real enemy, the perfidious Jew. The only way to really fight the Jew is direct confrontation and all out warfare, as Franco successfully did in Spain.

26. If you bring up the Jewish question, you are mentally sick.

Correction: Perhaps a Jewish psychiatrist would find you psychotic but to defend yourself against a deadly antagonist is the only healthy sane thing to do.

27. It is dangerous to hand out anti-Jewish literature. You never know when you might be handing it to a Jew.

Correction: The Jews have been handing out violently anti-White, anti-Christian hate literature for years and they seem to have survived.

28. If the Jews exercise such tremendous power in government, how come so few elected officials are Jews?

Correction: Contrary to popular opinion, Jews do occupy a relatively high percentage of elective offices, but their real forte is controlling Gentile office holders by bribery, blackmail, terror, news manipulation and by thoroughly staffing the administrative, judicial, appointive and bureaucratic echelons with their own breed.

29. Hasn't there been a reconciliation of late between Christians and Jews as exemplified by the Conference of Christians and Jews?

Answer: Absolutely not. The Jews are trying to Judaize the Christian religion, and secretly hate us more than ever. To quote Ben Hecht, "One of the finest things ever done by the mob was the crucifixion of Christ. Intellectually it was a splendid gesture. But trust the mob to bungle. If I'd had charge of executing Christ, I'd have handled it differently. You see what I'd have done was had him ship-

ped to Rome and fed to the lions. They never could have made a saviour out of mincemeat."

30. The Jews are primarily a very peaceful people.

Correction: The Jew, Oscar Levy, says, "We, Jews, who have posed as Saviours of the world, we are today nothing less but the world's seducers, it's destroyers, it's incendiaries, it's executioners."

31. When we attack American Jews we are attacking people of our own nationality.

Correction: The Jews' overwhelming loyalty lies with the Jewish nation and belongs to the state of Israel. They consider all other nations as their enemies. Louis B. Brandeis says, "Let us recognize that we Jews are a distinct nationality of which every Jew, whatever his country, his station or shade of belief is necessarily a member. Organize — organize — until every Jew must stand up and be counted — counted with us, or prove himself wittingly or unwittingly of the few who are against their own people."

32. Wouldn't it be better to just attack the Zionists rather than to attack all the Jews?

Correction: Chaim Weizman, the founder of the State of Israel, quotes an oft-repeated saying of his mother in his autobiography: "Trial and Error:" "Whatever happens, I shall be well off. If Shemuel (the revolutionary son) is right, we shall all be happy in Russia; and if Chaim (the Zionist) is right, then I shall go to live in Palestine." History reveals that both Shemuel and Chaim were successful. Zionism and Communism are actually two prongs of the same movement — Jewish enslavement of the world.

33. Let's stick to the issues rather than attacking anyone on a racial or religious basis.

Answer: Right! And the issue is, will Jewish Communism triumph or will White Christian civilization survive.

34. Now that the Jews have established their own homeland in Israel we won't have to worry about them anymore.

Correction: (A) Since American Jews owe their first allegiance to Israel they are now plotting to involve the U. S. in a Middle East war against the Arabs in support of a Jewish war of conquest to seize the oil rich lands of the Middle East. (B) The Jews envision Israel as the seat of power for the coming Jewish world government. (C) The Israeli budget is 70 per cent handouts, mostly from the U. S. and 30 per cent from the sale of tax deductible, but worthless Israeli bonds, peddled almost exclusively in the U. S. Since the establishment of Israel the Jews' worldwide power has increased tremendously and they are now more dangerous than ever.

35. If the Jews push race mixing, won't they destroy their own race by mongrelization?

Correction: The Jews push race mixing between blacks and

White people with great zeal, but they fanatically oppose any Jewish race mixing. England's Chief Rabbi, Immanuel Jakobovits recently made a visit to New York, and in point blank terms declared: "Jewish teenagers shouldn't date non-Jews . . . Interfaith marriage is something we view in horror, almost as apostasy. For Jews, the problem of intermarriage is the problem of sheer survival. Countless Jewish martyrs did not die for their faith so that we might fritter away our heritage."

36. If the Jews push birth control, won't they destroy their own race?

Correction: The Jews encourage large Jew families and large black families. They promote the proliferation of the colored races at the expense of the White race all over the world. The Jews like to see small White families with both husband and wife working to support large black families.

37. If you try to start a political movement free of Jews and Negroes you are a racist.

Correction: Amongst their own people Jewish leaders demand absolute obedience and loyalty to the Jewish race. They encourage black people to follow their black leaders under Jewish control, but if a White man shows any loyalty to the White race they hysterically scream "Racist" and try to destroy him.

38. But don't the Jews promote "Brotherhood"?

Correction: The Jews are the original hate group. Their whole religious racial nation is built upon a fanatical hatred of the Gentiles. However, their most hysterical, unrelenting blind hatred is reserved for the White Christians. The slogan, "Kill Whitey" is a Jewish slogan put in the mouths of Negro agents of the Jews.

39. If you attack a racial group like the Jews you are guilty of genocide.

Correction: The Jews invented genocide. Read Joshua, Chapter 10. Their plan of genocide for the White race embraces a program of mongrelization, annihilation and degeneration (M.A.D.).

40. Well, aren't the Jewish and Christian religions very similar?

Correction: No, they are diametrically opposed. The Christians praise God and mourn the suffering of Christ on the cross. The Jew praises the power and the glory of the Jew here on earth and mourns the suffering of the Jew here on earth. While the Christians celebrate the birth of Christ (Christmas) the Jews celebrate the slaughter of their enemies. Feast of Purim, the Book of Esther.

41. Don't we have a common religious heritage with the Jews?

Correction: When Christ preached the Gospel the White Gentiles accepted his teachings and were converted to Christianity. The

colored Gentiles rejected Christianity and founded other religions such as Moslem, Hindu, Buddhism, Shintoism, voo-doo, black magic, etc. The Jew has not only rejected Christianity but has fanatically pursued the destruction of Christianity as a prime goal for the last two thousand years.

42. Well, you can't blame the Jews for the Negro racial problem in the U. S.

Correction: Yes, we can. The Jewish slave traders were the prime instigators in bringing the blacks to America in the first place. Trading in slaves has historically been monopolized by the Jews. Having brought them to America they then proceeded to promote mongrelization — as set forth in the Talmud — to pump the black blood of Africa into the veins of White America.

43. What do you want to do, send all the Negroes back to Africa?

Answer: Exactly. The Negro leadership in the U. S. says it was cruel to bring the Negroes over here in the first place, that they have been badly treated ever since they got here. So we believe the natural solution to this problem is to send them back to Africa. We don't feel it is cruel to send a Negro back to his homeland. We are faced with two choices: either the Negro is repatriated to Africa, or the White race will be reduced to a mongrel race in America. God's finest creation, the White race, will disappear from the face of the earth and with it western civilization.

44. If you spread anti-Semitism, aren't you really helping the Communists?

Correction: Most definitely not. On the contrary, the most effective method of fighting Communism is to get people to become aware of its Jewish origin.

To quote the American Jewish Congress (The Congress Bulletin, Jan. 5, 1940), *"Anti-Semitism was classed by (the Soviet Gov't.) as counter revolution and the severe punishments meted out for acts of anti-Semitism were the means by which the existing order protected it's own safety."*

45. How can you attack the Jews when Hitler killed six million?

Correction: This is the biggest of all the Jewish lies. Hitler did not do any such thing. He had no program of exterminating, but rather a program of expulsion. Historically, when Jewish monetary strangulation became unbearable in a country, they expelled the Jews. During the last two thousand years they have been expelled on at least 27 different occasions. England expelled them in 1290. Spain expelled them in 1492. France expelled them in 1597, etc., etc.

46. If he didn't kill six million Jews, why do the Jews hate Hitler with such vehemence?

Answer: Here are some of the reasons the Jews hate Hitler. (1) He drove the Jew-Marxist Communists from power in Germany and expelled many from its borders. (2) He drove the International Jewish bankers out of the German monetary system and gave the people interest free and debt free money. (3) He made the German people conscious of the value of the White race. (4) He helped General Fran- co successfully drive the Jewish Communists out of Spain — an achievement still in existence today. (5) He almost succeeded in purg- ing Russia of Jewish Communist control, and would have succeed- ed but for U. S. intervention at the instigation of International Jewry. By contrast, the U. S. after spending 279 billion dollars, hasn't even made a dent in what Hitler almost succeeded in doing in two years!

47. If Hitler didn't kill six million Jews, why would they want to invent this monstrous lie?

Answer: This lie has been extremely useful to them. They con- tinue reaping tremendous benefits from it. (1) It has enabled Israel to extort 10 billion dollars from the German people since 1945. Con- sider that this extortion is being extracted by a country that didn't even exist at the time of the alleged killings, from millions of Ger- mans today who weren't even born at the time. (2) It has enabled the Jews to cover up the rape of Palestine where 1-1/2 million Arabs were either slaughtered or driven from their homeland. (3) It has enabled the International Jewish propoganda network to cover up some of the most horrible atrocities ever perpetrated on the White race (a) the fire bombing of Dresden at the end of the war where 300 thousand helpless women, children and refugees were in- cinerated. This was ordered by Jewish agent Roosevelt to impress Jewish agent Stalin. (b) It has enabled the cover up of the massive and heinous rape of White women when the barbaric Asiatic hordes from Russia over-ran White Christian Germany. This was ordered by Stalin to impress Eisenhower. (4) This massive lie, the myth of the six million, has been used repeatedly to club any Gentile opposi- tion into silence when an attempt is made to expose the Jewish- Marxist conspiracy or to make any rational examination of the Jewish connivance to bring about World War II. (5) It has been used exten- sively by the Jewish leadership to frighten any Jewish dissident into line.

48. Even if they aren't exposing the Jews, aren't some of these conservative organizations like the Birch Society at least do- ing some good?

Correction: No, they are doing a great deal of harm when they mislead the best militant patriots into wasting their time and money pursuing useless will-o-the-wisps. Many of these groups are organized by the Jews so they can control their opposition and the John Birch Society is the foremost in this category. As one leading patriot has

so succinctly said, “If you’re not fighting Negroes and Jews, you’re not even in the fight.”

49. Haven't the “Protocols of the Learned Elders of Zion” been proven to be forgeries?

Correction: They certainly have not. The Jews keep screaming that they are “forgeries”. This in itself is fairly good evidence that the “Protocols” spell out the Jewish program for the destruction of the “Goyim” (their term for us White Christian Gentiles). Rabbi Julius J. Nodel (The Oregonion, April 1, 1956) speaks for his race when he also branded the New Testament “a work of malicious libel and the story of events leading to the trial of Jesus and Crucifixion a dragon seed from which has come misery, bloodshed and suspicion.” Anyone who doubts the authenticity of the Protocols, should look into the Jewish Talmud, now over 1,500 years in existence, and the basic Bible of the Jewish race. In the Talmud you will find the same Jewish program for the destruction of the White race as in the Protocols. In fact the Protocols were lifted from the pages of the Talmud.

50. But you cannot oppose the Jews, they are God’s chosen people.

Correction: This is another big Jewish lie ranking in importance with the myth of the six million. It is, however, much more ancient, and has been used to disarm the Gentiles for millenniums. The Jewish propaganda machine has been so successful in propagating this lie that even our most ardent fundamentalist ministers are deceived into serving the “Synagogue of Satan” in spreading this falsehood.

God clearly and unequivocally linked the privilege of being the chosen people to the condition that they, the Israelites, faithfully fulfilled the commandments and other commands of God under the threat that if they would not, the distinction of being the chosen people would be withdrawn, and they would be transformed into an accursed people who would encounter diverse punishments.

Instead of fulfilling the commandments and other conditions made by God, they killed the greater part of the Prophets, denied the Son of God, and slandered and killed our Lord Jesus Christ. To mention just a few of the transgressions, they sinned against the first commandment, which commands love God above all things, against the fifth, which commands, not to kill, and against the eighth, which forbids the bearing of false witness and lying. In addition they murdered various disciples of Christ, soiled their hands in bloody revolutions, during which opportunity they killed millions of Christians, plundered the wealth of Christians by first robbing the latter through usury, and afterwards through Communism. The list of crimes committed could go on and on.

In Deuteronomy, Chapter 28, and Leviticus 26, the Lord God

laid upon them numerous curses, of which we will only quote a few:

Deuter. 28: Verse 16: "Cursed shalt thou be in the city and cursed shalt thou be in the field." V. 20: "The Lord shall send upon thee cursing, vexation, and rebuke in all that thou settest thine hand unto for to do, until thou be destroyed, and until thou perish quickly: because of the wickedness of thy doings, whereby thou hast forsaken me."

We suggest you read the above chapters in full. Also read pages 157-162, "The Plot Against the Church."

Furthermore, 90 per cent of today's Jews are not even descendants of the Biblical Hebrews at all. They are instead, descendants of the Khazars, a fierce bloodthirsty tribe of Asiatics from central Russia, who adopted Talmudic Judaism in the 8th century A.D.

If your minister is one of those promoting the ridiculous premise that the Jews are God's chosen people, it might be well to ask him why he is defending the deadly, sworn enemies of Christ instead of defending Christianity from the Synagogue of Satan.

The Jews have pursued the destruction of Christianity with a fanatical zeal and blind hatred for nearly two thousand years. The Christians are Christ's chosen people and God's chosen people. It is fantastic and inconceivable that a true Christian could support the monstrous Jewish lie that the Christ-killers could be God's chosen people.

Tax Drain Deplored

To the Editor:

Today's headlines (Nov. 19) trumpet "Nixon Ups Israel's Aid". This is wonderful for the Jews but catastrophic for the White Christian people whose hard earned savings are being shipped abroad. As a plundered taxpayer, I say it is an outrage to reward a robber nation like Israel with 500 million dollars after the Jews have robbed the Arabs of their lands.

At home we are further being plundered by huge amounts of welfare going to the blacks.

Both of these programs add up to nothing less than a "legal" means of stealing from the productive hard working White Christians and transferring our life's earnings to the Jews in Israel and the blacks here in America.

It is time the good White Christians in this country organize politically, bloc vote, reclaim political power and protect what is rightfully theirs.

Why Not White?

In a letter of Dec. 7 the writer launches a vitriolic attack on the Nationalist White Party apparently for no other reason than that we take a stand for the white race, and are tired of being relegated to second class citizenship in our own country. Evidently it is fine for the Jews to organize a multitude of organizations such as the A.D.L., A.J.C., the Kehilla, etc., all exclusively Jewish and all fanatically promoting the interests of the Jewish Race. It is regarded as a benevolent service to their race when negroes organize the NAACP, CORE, SNCC, and a host of other organizations promoting solely the interests of the blacks. But, strangely, when an organization is formed dedicated to protecting the interests of the white race, immediately the Jacobsons and their type spring into action and hurl accusations, insults and invectives at the white Christian people.

It is further strange that the writer accused our platform of "hate and lies." Since our platform is only now in the process of completion and writer is totally ignorant of its contents, such words probably best reflect her own position, not ours. Our party is based on love for the white race, not hate, and formed to help protect our people from such outrages as forced busing, among many others.

Dear Eleanor and Rudi:

We received your nice card and note. Thank you very much.

This is to let you know we have organized a new political party, as you can see from the letterhead.

We have finished constructing our "Creed" and battle plans. We believe that we have something to offer no one else has.

Enclosed is a copy of a newspaper reaction (Yiddish) before we have even begun to fight — we must be on the right track.

We plan to get together with you sometime in the middle of January if this is convenient for you.

Please let us know what is developing in your area.

Mideast Conspiracy Claimed

Editor:

The American public is being betrayed and trapped into fighting an Israeli war of aggression to help Israel steal more of the Arab's lands. We are being deceived that Russia is helping the Arabs and is an enemy of Israel. Therefore, ipso facto, we must shed American blood for Israel. This is a grand deception.

Here is what Saudi Arabia's King Feisal said: "Zionism and communism are working hand in glove to block any settlement to restore peace. It is all part of a great plot, a grand conspiracy. Communism is a Zionist creation designed to fulfill the aims of Zionism. They are only pretending to work against each other in the Mideast. The Zionists are deceiving the U.S. into believing they are on their side. The Communists, on the other hand, are cheating the Arabs, making them believe they are on their side. But actually the Communists

are in league with the Zionists."
Truer words were never spoken, and the best proof is that the Communists and the Israelis are both winning in the Middle East. The U.S. and the Arabs are losing.

Dear Eleanor:
Austin and I want to thank you and Rudi for your hospitality on Sunday the 24th last. We enjoyed the good dinner and most of all having a good get together again.
I was highly encouraged by the response of your "Group." I hope it will prosper and grow rapidly.
I would suggest that the aims at the initial meetings should be:

- **a.** Recruiting members
- **b.** Distributing N.W.P. approved literature
- **c.** Holding a monthly meeting
- **d.** Finding and grooming candidates to run for election for **any office**, political office, especially the school board, but by no means limited thereto
- **e.** Building up the party as quickly as possible in this manner. We will have application forms and membership cards printed up as soon as we can. We expect membership dues to be $10.00 per year, which will include receiving a news letter from Headquarters.
- **f.** Going around with an anti-busing petition which will have the N.W.P. marking on it. The aim will not so much be to actually try to stop busing (since we can't do that at this stage anyway) but as an excellent means to contact and find the right people to recruit into the N.W.P.

We have enclosed suggested copy for a petition.
We mailed 50 copies of "Our Creed" to you two days ago (Wednesday). Hope you have them by now. Good luck.

Party Aims Explained

Editor:
In his recent letter attacking the Nationalist White Party a Mr. Ballard promotes the usual liberal, left-wing line about love for all

humanity. In my opinion however, his hatred for the white race shows through.

We in the NWP believe in practicing racial loyalty. We believe racial loyalty to be a fundamental instinct given by our Creator for our own self-preservation.

Other groups bloc-vote and have achieved overwhelming political power far out of proportion to their numbers. We mean to organize white power to achieve our rightful control of our own destiny. For Mr. Ballard's information, this includes putting a stop to having our school children forcibly bused around like cattle, a dastardly program designed to lead to mongrelization of all races in the next generation or two.

Sun Sentinel — February 18, 1971

To the Editor:

In his letter of February 17, 1971, Mr. Ozer becomes somewhat indignant over the fact that there is such an organization as the Nationalist White Party taking a stand for the White Race. Evidently it's alright for the Jews and Blacks to be organized to the teeth, but not the Whites.

His reasoning is the Good Lord made us all, therefore we are all the same. I want to remind Mr. Ozer that the Good Lord also made blue birds and rattle snakes, deer and skunks, but this hardly proves that every one of God's creatures is the same. On the contrary, the color of the skin might be the least of their differences.

However, we in the N.W.P. are not particularly interested in debating that the White Race is the Aristocrat of all races and created in the image of the Lord. The facts of history speak for themselves. What we are concerned about, however, is that in the U.S., where the Whites outnumber the Jews 30 to 1 and the Blacks 9 to 1, we have an intolerable situation where we see the government, the establishment and the news media in general being pro-Jewish, pro-Black and anti-White.

It us the objective of the N.W.P. to correct this situation. By organizing White Power, by bloc voting as do the Jews and the Blacks, we mean to reclaim the political power that we are entitled to, and again gain control over our own destiny.

Party Stand Explained

Editor:

Mr. Ozer evidently resents the fact that the white people of America should also have the right to organize politically. In answer to his letter of Feb. 17th, we want to say that we in the Nationalist White Party are here to stay.

However, we are not particularly interested in debating that the white race is the aristocrat of all races and created in the image of the Lord. The facts of history speak for themselves. What we are concerned about, however, is that the United States, where the white Christians outnumber the Jews 30 to 1 and the blacks 9 to 1, we have an intolerable situation where we see the government, the establishment and the news media in general being pro-Jewish, pro-black and anti-white.

It is the objective of the NWP to correct this situation. By organizing white power, by bloc voting as do the Jews and the blacks, we mean to reclaim the political power that we are entitled to, and again gain control over our own destiny.

Editor:

My thanks to political writer, Jim Guier, in the Feb. 21 Outlook section, for giving Ben Klassen, former Republican State Representative and organizer of the Nationalist White Party recognition.

Mr Klassen—whom I've never met personally—speaks sensibly when he says: "The white Christian people who built America don't intend to be relegated to second-class citizenship."

Let's hope he is right as those referred to, in large measure, have long been sleeping away their precious inheritance. They need awakening.

It's also evident that the two major political parties—in the last analysis—draw their financial aid and power pretty much from the same tap and are beholden to the same interests. A realignment there is long overdue.

I hope every dedicated American who loves his country and respects its roots, within reach of Mr. Guier's article, has read or will read it. I would like to see more of Mr. Klassen in your columns.

Dear Phil:

I have received your letter of February 28th and the script of the accompanying flyer.

I believe the flyer is well written and I approve of it. I would suggest adding to the end of the fifth paragraph ---"and, in fact the destruction of the White Race itself". I would also add the insignia and an offer of a free copy of the Creed at the bottom of the flyer.

You ask what the cost of the leaflets per hundred would be. We can get this size printed at a cost of $11.60 per thousand. We will go ahead and do so if you give us the word.

We appreciate receiving your application for membership. We have also received that of Mr. M. Kuhn who gives your address on his membership. We are glad to have him join the fight.

The membership cards are now at the printers. He is taking longer than promised, hence the delay. We will have them next week, and will send yours out promptly.

In closing I would like to emphasize that each White Power Group should strive towards becoming a political power in their community and their country. Think in terms of grooming political candidates, especially for the school board.

Contests Writer's Accuracy

To the Editor:

Mr. Waldman's letter of March 11 has a number of inaccuracies. He boasts that Israel has the most intelligent fighting force in the Middle East, and then goes on to claim that the Israeli attack on the USS Liberty was an error. For a supposedly intelligent air force to make three separate air attacks over a period of several hours on a clearly marked U.S. Naval vessel in broad daylight staggers the imagination. Either the Israeli command is incredibly stupid or the attack was deliberate.

Mr. Waldman further claims Israel is a deterrent to communism in the Middle East. The truth is that the military occupation of Palestine by the Israelis has invited Soviet Russia into neighboring Arab lands. Israel has caused 120 million formerly friendly Arabs to become our bitter enemies. The establishment of the state of Israel has brought nothing but war, starvation and misery to a formerly relatively peaceful area of the world.

OCCASION: In the summer of 1971 my wife and I revisited many friends and relatives in Saskatchewan, many of whom I had not seen for 25 years. Among them was George, whom we visited in Calgary during our tour of the Canadian Rockies.

Dear George:

It was a delightful pleasure visiting with you again after such a long time span. Also many thanks for the luncheon at the Petroleum Club. It certainly was great to review the meaningful events of the last quarter century and also those previous.

In our conversation, I spent some time telling you about the new party I had formed and that I was writing a book on the subject of

the desperate need of a new religion for the White Race. Since you seemed interested in the subject (and being a member of the White Race yourself) I am sending you further articles I have written, also other books pertaining to the subject under separate cover. I am enclosing only a copy of "Our Creed" herewith.

However, none of this material will delve into the part relating to the need of a new religion for the White Race. This is a rather recent development in my thinking over the last year or two, and it has really opened tremendous new vistas. I did, however, cover the ground briefly in our conversation.

The interests and the preservation of the White Race has become the most abiding consummation of my life and I believe will remain so until I die. I believe this urge is as fundamental as nature itself, and I can think of no higher ideal to strive for, nor one that has been more sadly neglected by the bearers of the highest gift endowed by nature.

I hope you will read the material I am sending you and hope to hear your views on the subject. I also hope to see you again soon, and hopefully also the rest of your family.

Segment 5

BACKGROUND. General P. A. del Valle was a military man who won his spurs and honors fighting the Jewish war in the Pacific, leading thousands of White young men to their death fighting for "their (?) country". Comfortably retired after World War II, he became a notorious "conservative", and formed a post office box organization called The Defenders of the American Constitution, Inc., in Annapolis, MD. Like the Birch Society, he was all for God and country, the flag and the constitution, but never for the White Race, and never would he point the finger at the real culprit. I met him at Countess Guardabassi's Palm Beach mansion, where he was giving one of his "patriotic" speeches on April 4, 1971. At this time I had already formed the Nationalist White Party and gave him a folder embodying the "Fourteen Points", along with an application form to join. Shortly thereafter (April 7) I received a letter from him, in which there was a paragraph that said:

"Another point I'd like to know about refers to your membership application. Name, address, telephone number and national origin I understand. But Religious Affiliation (if any) puzzles me. Because no organization of the sort you propose should be open to non-Christians."

P. A. Del Valle, President
Defenders of the American
Constitution, Inc.
Annapolis, Maryland

April 13, 1971

Dear General Del Valle:

Thank you for your letter of April 7, in reference to "Our Creed".

Since we are now at the mercy of a Jew controlled, White-hating government it seems overwhelmingly obvious to me that the White people should organize politically in order to recapture control of their own destiny. It is our aim to do so. Enclosed is a clipping in which Rep. Wm. L. Clay, a member of a 13-man black group. He says, "We are organizing politically because we found that unless you have political clout you can do all of the other things that you're talking about and it's meaningless." Here is a stupid black African not only telling us, but doing what we should have done long ago. Yet there has been no significant White organization that has organized political clout. Why?

Why is it that brave men like yourself, General, will rush into battle, white man killing white man, for no other purpose than to further consolidate the Jewish strangle hold (as witness W.W. I and

W.W. II) but timidly talk about “Pharisees” when it comes to defense of the White Race against the blood-sucking Jew?

I am puzzled about the third paragraph in your letter that Mrs. Klassen or myself wrote a report about Mr. Nakhleh in the Palm Beach paper. We have, of course, not written any such report in any paper. In fact, Mr. Nakhleh’s speech was one of the few I’ve heard there that at least laid the problem out and named the Jews as the perpetrators from beginning to end. As usual, however, no solution to the problem was offered.

Regarding whether we should take in loyal White people who are not affiliated with a Christian church, I definitely think we should and we do. In fact it seems Christians are much more dedicated in destroying each other than taking up the fight against their mortal enemy, the Jew. Witness for instance Catholics versus Protestants in Ireland, witness the 30 years war (1618-1648) that horribly decimated the German people, the St. Bartholomew’s Massacre in which 50 thousand Protestants were massacred in the name of Christ. W.W. I and W.W. II were ostensibly fought to preserve Democracy and Christianity.

Have you read the Sermon on the Mount recently where Christ propounded his “new” teaching? You'll find it in Matthew, Chapters 5, 6, 7. The key concepts are: “Love your enemies.” “Turn the other cheek.” “Sell all thou hast and give it to the poor.” “Judge not.” “Blessed are the meek.”, etc. Re-read those three chapters for yourself.

Now I ask you, do you really believe in these teachings? If so, have you practiced them in the past seventy years? Do you intend to practice them in the future? Did you “love your enemies” as you led eight thousand white men to death in the South Pacific? Have you sold all your belongings and given it to the poor?

By the year 200 A.D. the White Race as embodied in the Roman Empire had built the greatest civilization man had ever built, and for that matter has to this day. Then Christianity, originally promoted by Jewish proselytes like Paul, began permeating the Roman thinking. By 313 A.D. a Christian Emperor, Constantine, declared Christianity the state religion. By 468 A.D. the Roman Empire and White civilization collapsed. It was followed by a thousand years of Dark Ages. And no wonder. Any family, any people, any nation that buys suicidal, self-destructive ideas like that is soon headed for death and oblivion. Meanwhile they offer themselves as an easy victim for the parasitic Jew.

Would you care to comment on this?

Now we come to the second last paragraph in your letter. “.....every effort will be made by the powers that be to oppose the success of a White party.” I assume you mean the Jews. Why not

spell out “the powers that be”? General, since you have studied military strategy all your life, does this not tell you something as to what is significant and what is not? The enemy does not waste efforts attacking harmless positions. Even the stupid Blacks know your efforts are meaningless unless they are transformed into “political clout”. Why have you made no effort organizing “political clout” for the White Race instead of talking about meaningless generalities, “Christian principles”, etc.?

If you are really interested in our Creed as summed up in Point No. 13, “Will it benefit the White Race?”, we would be glad to have you help build “political clout” for the White Race. I am anxious to await your answer on this matter.

Yours for a White America,
Ben Klassen

General P. A. Del Valle, President
Defenders of the American Constitution,
Inc.
Annapolis, Maryland

April 26, 1971

Dear General:

I appreciate your reply of April 19th, and I find it highly interesting.

Evidently we both PROFESS we are for the White Race and we both KNOW that the Jews are the culprits that are destroying us. However, as a “practicing Christian” you studiously avoided coming to grips with the questions that are really the nitty-gritty of the Christian doctrine---the Sermon on the Mount, Matthew, Chapter 5, 6, and 7. Nevertheless, you staunchly maintain that the belief and practice of “Christian principles” are the solution to the Jewish plague, and will free us from it.

I therefore ask you again in all sincerity, in reference to the Sermon on the Mount:

1. Do you believe in this suicidal advice?
2. Have you practiced it in the past?
3. Are you practicing it today?
4. Are you going to put it in practice in the future?
5. Could any individual, family, nation or race long survive if they did practice it?
6. Isn’t it true that for seven hundred years Rome grew from an obscure primitive village to become the greatest civilization the world has ever known without the benefit of Jewish Christianity and their Jewish God of Abraham, Isaac and Jacob, but went into rapid decline, degeneration and chaos when the Jews succeeded in afflicting them with Christianity? Isn’t it therefore utter nonsense to say that the

Roman Empire fell because of "the abandonment of Christian principles"? If Christianity was so uplifting, why did the White Race wallow in the Dark Ages for over a thousand years after the advent of Christianity? Why did it take more than a thousand years to get back to the civilization it already had?

Read Matthew, Chapters 5, 6 and 7 again and tell me if you practice:

1. "Judge not". You rose to be a General yet abandoned judgment of officers, men, battle plans, weapons, etc., etc.? Most people exercise their best judgment a hundred, maybe a thousand times a day. Anyone who abandons use of their judgment is ready for a mental institution.

2. "Love your enemies". You became a soldier whose profession it is to kill, so you could love your enemies? What did you do, kill the Japanese and the Germans with love? No indeed, you killed them with bombs, bullets and incendiaries, and your troops were primed with hate to kill, wantonly instigated by Jewish propaganda.

3. "Turn the other cheek". Is that the advice you gave your assault troops as they went into battle? Again resoundingly no. Remember Dresden, the city of art and culture, burned to a crisp along with 300 thousand helpless white men, women and children? This was done by your military.

4. "Sell all thou hast and give it to the poor". Do you own a home, a car, a bank account, stocks and bonds? As a practicing Christian, why haven't you sold it all and inflicted all that filthy wealth upon the poor so that they would be burdened with repeating the process? How idiotic. If all capable men followed this suicidal advice we would have a country overrun with starving bums and society would indeed fall back into barbarism.

5. "Resist not evil". Do away with the police force, abolish law and order and let the criminals take over? Do you really subscribe to this?

There are many more gems of suicidal advice contained in the "Christian principles" as spelled out by Christ himself in the Sermon on the Mount. But why belabor it further. In my previous letter and this one I have enumerated enough for you to get the idea. I contend that neither you nor Billy Graham nor Billy James Hargis or any of the other self-styled "holier than thou" "practicing Christians" singing hosannahs of praise for Christianity and Christian "principles" either believe or practice these principles. And that includes Rev. Carl McIntyre who has just glummed on to a 25 million dollar complex in Cape Canaveral while preaching "it is more blessed to give than to receive". He also buys Israeli bonds with money conned from deluded hard working Whites. What hypocrisy, what a living lie!

You see, I don't believe in "Judge not". I judge constantly and

I call it as I see it. I believe that a keen judgment is one of the finest attributes a man can develop. How did you get to be a General without it?

Now if Christianity were the salvation to all our problems, why is it that with hundreds of thousands of organized Christian churches and 50 million followers in the U.S. today, we are falling apart as did the Roman Empire?

The fact is that Christianity is a Jewish creation and the Jews used it to pull down White civilization 1500 years ago. Today they have added a new plague to inflict on the White race and that is Jewish Communism. Both of them are equally powerful tools to disarm the White Race and then grind it into the dust. And the Christian Churches are not lifting a finger to stop the Jews in their wanton madness. In fact the churches can roughly be divided into two categories (a) the Liberal churches and the (b) Fundamentalist churches. The Fundamental Christians preach that the Jews are God's Chosen—therefore untouchable—and thereby render the Jew immune and provide him with unlimited protection. In fact, you get the feeling that the Jews, who don't believe in Christ, are the only real Christians. The Liberal Churches, also Jew controlled, teach mongrelization, that you should give your daughter and everything else you have to the nigger because we owe it to him. After all, we are all Gods creatures, aren't we, they say. So are skunks and rattlesnakes, I might add.

You claim you have been active in the defense of the White Race and have opposed the Jews. Well, I would never have known it from the one and only time I heard you speak. You did point to the "Pharisees", but then were quick to add that not all Jews were Pharisees and vice versa. Whereas technically true, it certainly leaves your listeners more confused than ever. Certainly as a military man who fought in both world wars you fought both times to enrich the Jewish bankers and help millions of Whites kill each other, and thereby further tighten the Jewish stranglehold all over the world. Why did you not instead take up the fight as zealously against the Jew? Why did you fight against Adolf Hitler, the greatest champion the White man ever had, and the greatest White man that ever lived?

You say "As a soldier for Christ I will fight to the death...". Why such ardent zeal for a dead Jew whose "Christian principles" you in fact repudiate by deed and act? Why such apathy in defense of the White Race, over half a billion of which are alive today and are marked for destruction by the treacherous Jew? Why your apathy in preserving the Creator's finest handiwork of which you are a part?

Haven't your life-long wars and killings been a lot more helpful to the Jewish cause than to Christ, but nevertheless to the detriment of the White Race?

In making this judgment, I am using the criteria "actions speak louder than words", although the words I heard you speak certainly gave me cause to believe that your words had done little to pin-point either the problem or the solution.

General, what the White Race desperately needs is a new philosophy, in fact a new religion based upon the concepts of preserving the White Race, not a rehash of old Jewish shibboleths. If a religion helps to sustain, strengthen and build the race that embraces it, it is good. If it destroys that race, it is bad. By this test Christianity has been a colossal disaster for the White Race, a tremendous success for the Jews, who themselves were not dumb enough to buy it, but peddled it to their intended victims.

I regard you as a highly intelligent person and therefore await with anticipation your reply to the issues raised.

Yours for a White America,

General P. A. Del Valle **May 12, 1971**
Annapolis, Maryland

Dear General:

Your letter of April 29th has been received. I herewith wish to conclude the exchange. I now know where you stand, and it is evidently not in the ranks of those defending the White race. Evidently you consider it more important to rehash old Jewish shibboleths whose practical application even you find impossible to practice.

Your attempt to explain away Christ's teachings in the Sermon on the Mount are a case in point. Unable to explain why you don't practice these teachings, which are the heart, the core, the essence of Christ's "new" teaching, you come up with "dispensations", tricky double talk, to say the least.

You say I'm not a student of the Scriptures. Well, I'll match my knowledge of the Scriptures with yours anytime, although I'm not particularly proud of it. However, I know enough to recognize this attempt to explain the Sermon on the Mount "in the light of dispensations" as a phoney fabrication, pure and simple. Principles are eternal. If they were good in Christ's time, they are good today. If they are suicidal today, they were such 1900 years ago, which they were, and the tragic attempt by the Romans to embrace these suicidal teachings resulted in the wreckage of the Roman civilization, the highest achievement of the White race ever reached.

I challenge you to show me anywhere in the Bible that your ridiculous contention is upheld, namely that those teachings were

alright at the time, but we can now "dispense" with them. If we can pick and choose what principles set forth in Christ's teachings we accept and what we can "dispense" with at random, why, that opens up a whole new field. And who is going to judge what parts we keep and what we "dispense" with? You? Pretty flimsy point to offer for something you cannot explain, but it does prove that as a "practicing Christian" you don't believe in the heart, the essence, the core of what Christianity is all about.

So much for that. I am no more trying to "make you desert" your beliefs than you are trying to change mine. In conclusion I contend that (a) although you profess to be a "soldier for Christ" who "will fight unto death", you neither believe in nor practice Christianity, (b) that the practice, or even the attempt to practice Christianity is suicidal for its victims, (c) that it was and is a creation of the Jews for dividing, fragmenting and destroying the White Race, (d) that your lifelong career as a military man has served well the Jewish drive of using White men to kill each other, (e) that you have not, and are not now pursuing with half the zeal the defense of the White Race as you have in the past pursued its destruction.

I herewith rest my case, General.

Yours for a White America,

CONSEQUENCE: *The General did not answer my last letter, but either he (or someone in his office) sent it back, marked up with a number of nit-picking, smart aleck remarks. There is no other encounter that convinced me more strongly than my exchange with General del Valle that the White Race needed a completely new religion, a fresh approach, nor did any other event do more to trigger my determination to see what I could do to bring about such a happening.*

Segment 6

BACKGROUND. I was beginning to get a few rumblings about Christianity from **Eleanor Kramer** that somewhat concerned me. The following letter was the first in which the subject was discussed by me.

Mrs. Eleanor Kramer
Largo, Florida

June 16, 1971

Dear Eleanor:

In our last telephone conversation you mentioned that you were planning a rally or meeting in St. Pete sometime this summer at which you wanted me to speak. Since we are planning to take a trip to Canada during most of the month of July, I thought I would let you know in advance, so that you wouldn't schedule anything for me during July.

I hope everything is progressing favorably with your building of the party. Please write and give me all the details.

The more I study this foul conspiracy the more far-reaching the Jewish web seems to spread. I feel that I have made some further significant discoveries and I am gathering material to write a book on it.

Have you read the Sermon on the Mount recently? Read Matthew, Chapters 5, 6, and 7. Please study it and ask yourself the following questions: Could any race of people for long survive if they followed such suicidal advice? Were not Christ and all the Apostles Jews? Why did they sell the "new" creed to the White Race (the Romans) but not the Jews? What happened to Rome when it embraced Christianity?

Once you realize that (a) Christianity is Jewish, (b) the "new teaching" is suicidal advice, (c) that it destroyed Rome in short order after it was hit, (d) this suicidal creed had been solely a "gift" to the White Race; then a lot of "mysteries" start to clear up. It also helps to explain some of the strange antics of such people as Billy James Hargis, Rev. Carl McIntyre, Dr. Potito and others. It also explains why 100,000 organized Christian churches in the U.S. spending billions presumably fighting "evil" haven't made the slightest dent on the communist Jewish menace.

I am enclosing a copy of my correspondence with General P. A. del Valle that sheds a little more light on the subject. However, this is only scratching the surface and there is much more. What the White Race desperately needs is a constructive sensible religion polarized around the survival and supremacy of the White Race. I

am starting to write a book on this subject and I believe it will be earth shaking, if I ever get it finished and published. I would like to discuss this further with you next time we meet.

In the meantime, don't let this interrupt your political work. Not one iota has changed in our Creed. We are only going deeper into the whole matter, and mean to pursue it to the bitter end.

Hope to hear from you before we leave.

Yours for a White America,
Ben Klassen

BACKGROUND. Surprise! Surprise! The issue of Christianity has cropped up and become an insurmountable bone of contention to wreck our whole enterprise. It has happened every time. This affair with Gen. P. A. del Valle and the Tampa Bay group convinced me more than anything that Christianity was the submerged torpedo that had wrecked the efforts of the White Race in its fight for survival. It also convinced me that the White Race needed a better religion, in fact, a racial religion of its own.

Mrs. Eleanor Kramer
Largo, Florida

August 5, 1971

Dear Eleanor:

We have just recently returned from vacation and what with a heavy backlog of work, I have just now had time to reply to your last letter.

I regret that you expect me to accept principles that are suicidal to your race and mine, are Jewish in inception, have caused the downfall of the Great Roman Empire, and to this day provided an ironclad protection for the Jews.

However, I do not hold against you any beliefs that you have honestly and in good conscience arrived at. On the other hand you cannot hold against me beliefs and conclusions I have honestly arrived at after a great deal of study and reasoning.

I would be happy to get together with you and discuss this issue with you in full, because I believe this is a key issue in the struggle for the survival of the White Race. History shows that from the time the Jews were successful in selling the self-destructive ideas of "Christianity" to the White Race, the latter went into rapid decline, from which it has not recovered to this day.

"By their fruits ye shall know them". After 2000 years what are the fruits of "Christianity"?

1. The first immediate effect of Christianity was the destruction of the Roman Empire, a colossal disaster for civilization as a whole and for the White Race in particular.

2. For the next 1000 years after the advent of Christianity the White Race wallowed in ignorance, oppression, poverty, superstition and disintegration. The Dark Ages followed the destruction of Rome, and hung like an evil pall over the continent of Europe, the home of the White Race.

3. This was followed by a vicious and destructive series of religious wars which set White brother against White brother. Of these the Thirty Years War was only one example. It almost destroyed the German people, and in any case set them back 300 years.

4. It laid the groundwork for today's Jewish communism. The Jews have no better ally than the Christian church in the enslavement of mankind.

    a. The Liberal churches preach mongrelization of the White Race, and that we owe our daughters, our homes, our money and our very blood to the niggers.

    b. The "Fundamentalist" churches preach the Jews are God's chosen people, and are untouchable. While the Fundamentalists are most vicious in attacking other "Christian" groups such as Catholics, Mormons, Christian Science, Presbyterians, Lutherans, etc. (anybody that is a triviality different in belief from their own) they never, never, criticize the Jewish religion, which doesn't even believe in Christ at all.

5. This whole humanitarian philosophy has promoted the suicidal idea of "Reward your enemies, punish your friends" into our system of government and political thinking.

6. If Christianity is so uplifting and constructive why after 2000 years hasn't it solved some of mankind's problems? Why are the hundreds and thousands of organized churches today not solving a single problem for the survival of the White Race? What, in fact, has Christianity ever done to help the White Race?

Then we come to the crux of the matter, and I ask you the same question as the General — Do you believe in the Christian Principles as set forth in the Sermon on the Mount and throughout the "new" testament? Do you believe in and do you practice:

1. Turn the other cheek.
2. Love your enemies.
3. Sell all thou hast and give it to the poor.
4. Resist not evil.
5. Judge not.

The answer obviously is no, you don't. If you did, neither you nor your family could survive. Furthermore you would certainly be useless in the struggle for the survival of the White Race, which, I am sure, you are most concerned about and determined to fight for.

Now if you don't believe in the above and other suicidal principles (such as "Think not of the morrow", "Give to him that asketh

of thee and from him that would borrow of thee, turn not thou away", and dozens of others) as are spelled out in the "new" Testament, what makes you think you really believe in "Christianity" at all?

If you read my letter to the General carefully you will find there is more which I don't have space to repeat here. In fact there is so much more massive evidence that "Christianity" was an early major blow successfully waged by the Jews for the destruction of the White Race that I am writing a full book on the subject. And the evidence is massive and impressive.

Neither you nor General de Valle have come up with a single meaningful refutation to the overwhelming evidence I have already presented. It is like me spending an hour bringing massive evidence to you that two and two makes four. After it is all over you just blandly state "The thesis you present is untenable from both the standpoints of history and of other scriptures". However, you show no history that refutes what I have said, whereas, I show you the downfall of the Roman Empire, the ensuing Dark Ages, the persecution and wars all in the name of Christianity. You quote no other scriptures that refute what I have cited, and even if there are quotes to such effect they still do not explain nor do they nullify all those suicidal teachings that fill the "new" Testament, and is in fact the central theme of the "new teaching" that the Jews so benevolently bestowed upon us, but were certainly not fool enough to buy themselves. In a tasty seven course dinner, if one of the courses is poisoned, it hardly matters at all how delicious the other six are. The same with the "new" Testament. What I have quoted is in there and it is suicidal. It matters little what else it contains. Nor does the General come up with a single sensible argument in reply to all the questions I put to him, nor does he even answer whether he believes in all the suicidal "teachings" inherent in the "new" Testament. He doesn't answer them because he can't, and instead resorts to the old Jewish trick of name calling when cornered.

You say "that the fortunes of White men's culture and Christianity have for the past two thousand years been inextricably intertwined". True, but what does it prove? Was it a blessing or a plague? You can also say that tuberculosis, hepatitis and polio, which are often called "White Man's diseases", have been inextricably intertwined, but have they been in any way responsible for helping and creating the White Man's civilization? No, indeed, and neither has Jewish "Christianity". The facts of history speak loud and clear that the White Man already had a beautiful classic civilization before "Christianity" raised its head. The Roman civilization embraced most of the White Race and brought law and order, civilization and peace to the then known world. Pax Romana lasted for two hundred years (to 200 A.D.) the longest period of peace known to the world. It was

shattered by the onset of Jewish Christianity and the disintegration of the Roman civilization, and then the Dark Ages. Nor is it true that America is based on "Christian" principles. Our Republic was modeled after that of pre-Christian Rome, as are most of our laws, our architecture, calendar, etc., and our very languages have their roots in Rome's Latin. So it is a monumental hoax that the Liberals and Kosher Konservatives keep spouting about this country "being founded on Christian principles". What Christian principles for instance? Turn the other cheek? Love your enemies? Is that how we conquered the savage redman and won the West?

I want to make sure you get this one point straight. We are not atheists, so you can't throw this pre-conditioned Jewish trigger word at us. We believe in a Creator who created the White man in his image as per Point No. 1 in the Creed. We believe in a God who looked most favorably upon the White man because he endowed him with a higher level of Godly attributes than any other creature — intelligence, creativity and beauty. We do not believe in a Jewish God of Abraham, Isaac and Jacob, nor that the Creator of this great universe, embodying billions of constellations, would make a special deal with a sleazy treacherous tribe such as the Jews. We reject that in total. We further do not buy the suicidal principles as set forth in the "new" Testament as promoted by a Jew and his band of Jewish apostles. We believe it is completely contrary to what Nature and God's natural laws say. We further believe such beliefs are and have for 2000 years been extremely destructive to the White Race and tremendously beneficial to the Jewish race. We believe the Jews planned it that way. We, therefore, reject these teachings in total.

You then say that if the White Race had a religion that was good for the White Race as I suggest, that this sounds to you like "an Aryan Judaism". How mixed up can you get? This is like saying that if the Chinese Communists invaded America and used the best modern weapons they could get, and if we then fought and resisted them with the best weapons we could devise, why we would be just as bad as the Chinese Communists. This is exactly the kind of logic you are using, and it doesn't make sense.

In summation I want to say that the highest law of Nature is the preservation of your own species, and for us that means the White Race. Our most deadly enemy is the Jewish Race, and their most potent weapon in overcoming the much more powerful White Race has been cunning, and their ability to derange the minds of their victims by polluting them with false and self-destructive ideas. Christ and the Apostles were practically all Jews. The first and most massive blow the Jews successfully struck against the White Race were the suicidal teachings of Christianity as embodied in the "new" testament and sold to the Romans. We will never be able to launch a

meaningful fight against our mortal enemy until we are able to straighten out our own thinking and replace the suicidal teachings with teachings that promote the value of our race, our White civilization, our White culture, and in general teach that idea which Nature has already instinctively implanted in every living creature — the survival and propagation of its own species, and the survival of the fittest. Any philosophy that is not in harmony with Nature's first and highest law is artificial, is doomed to failure, and is, in fact, trash.

If you have a specific reply I would be more than interested in your comments. In the meantime, I am going full speed ahead in the writing of the book I previously mentioned. In the confused, twisted state of mind the White Race finds itself today, some cold clear reasoning is essential to our survival, and I believe the project I am working on is the most lofty goal I can possibly pursue, and nothing will deter me.

Yours for a White America,
B. Klassen

EXPLAN.: At this point Eleanor evidently felt she was somewhat out of her league. She therefore decided she would have another member of her group, a certain Prof. John R. Adams write me a letter and do a more professional job. This he did in a long rambling dissertation, contending how Christianity had historically been the "faith of our fathers", and suggesting that since I hadn't been snookered into accepting it like the rest of them, that, ipso facto, I must be a Jew, an accusation which, understandably, roused my ire. He concluded eloquently by quoting Rudyard Kipling's poem "Lest We Forget" in full.

Mr. John R. Adams, Ph. D. **January 10, 1972**
St. Petersburg, Florida

My Dear Professor:

I had been on vacation to the state of Colorado for approximately three weeks during December and when I came back I found your most interesting letter on my desk, amongst much other mail, much of which was trivial. I appreciate your letter greatly, because embodied in it are so many ridiculous and confused arguments that I am sure I can use some of the material for the book I am writing.

I notice that your name is signed John R. Adams, Ph. D. I suppose I should be impressed by the Ph. D., but frankly I am not. On the contrary, since I have a few college degrees myself and have too

long associated with people who have Ph. D.'s, I have no respect for them whatsoever. The fact is that some of the most confused and over-educated fools that I know are those that have a Ph. D. after their name. Although there are exceptions, it is my observation that their minds are something like concrete, all mixed up and hard set. Their main problem seems to be that after too many years of Jewish indoctrination of all the wrong ideas, it is extremely difficult, if not impossible, for them to come up with some sensible conclusions. It is my further observation that the average working man has more common sense and a much healthier instinct than does the average Ph. D.

Your main charge, Professor, seems to be that I have changed my position regarding Christianity from what it was when I wrote the "Fifty Phoney Arguments" and the "B. K. Letters". You are right, I have. I'll admit to you freely and frankly that at one time I believed in Santa Claus, but when the evidence kept piling up that this was a fraud, I revised my position. Not too many years ago I also believed in Robert Welch and the John Birch Society. When I took a closer look at this operation and the evidence kept piling up that I had been snookered, I did the honest thing and reversed my position and exposed it for what it was. I also once had confidence in Barry Goldwater, and also in George Wallace, and contributed considerable time, money and effort towards the election of these impostors. As time passed on and evidence kept piling up that these people were deceiving me and millions of others, I again reversed my position and called a spade a spade.

Does this make me unusually naive and gullible? Not particularly. When I look around me I seem to be miles ahead of the average snookered goyim, including you. The Jewish network is so entrenched and has one layer of the conspiracy after another enmeshed throughout its apparatus that as you discover and expose one it takes awhile until you find there is another underlying layer of the conspiracy beneath. Most people haven't even uncovered layer number one. One big difference between you and myself seems to be that you have not the necessary mental capacity of reasoning and deduction to unravel the Jewish-Christian echelon of the conspiracy. Another difference seems to be that when the evidence becomes overwhelming, my mind is not necessarily hard-set like concrete, as some people I know.

However, when you brazenly accuse me of being in league with the Jews because I don't go along with your sick version of Christianity, then I'm going to give you the answer you deserve straight from the shoulder: you are nothing but a cheap unmitigated liar. You are lying through your filthy teeth, Professor, and you know it.

So you want to quit. That's fine with me. So quit. There is

evidently a vast difference between your objectives and mine, between your loyalty and mine. It seems that your prime purpose is to perpetuate the ridiculous and idiotic, not to mention suicidal, teachings of a circumcised Jew, now long dead, if he ever lived at all. On the other hand I have no desire whatsoever to perpetuate this sick and dying creed, on the contrary it is my objective to expose it. But even a thousand times more important to me is the survival of the White Race. While you are going around re-hashing old Jewish shibboleths, it is my purpose, in fact the greatest dedication of my life, to lay the foundations for a new creed or a new religion that will be instrumental in the future survival of the White Race. I am firmly convinced that the book that I am now writing contains more common sense, is more in harmony with the laws of nature; in harmony with the lessons of history; and constitutes a more ideal religion for the White Race than any book that has been written in the last five thousand years. It is based on a clear and simple creed: what is good for the White Race is the highest virtue; what is bad for the White Race is the ultimate evil. Had the Romans had such a religion two thousand years ago they would not have succumbed to the perfidious Jew, but instead we would be living in a beautiful bright world peopled by a race that would have reached heights of excellence yet undreamed of. Furthermore, I can tell you this: If only ten per cent of the time, energy and money were devoted to the of such a religion as is today wasted on keeping alive the sick and dying Christian creed, I guarantee you, it would spread like wildfire. If that task overwhelms your little professorial mind, and appears beyond your grasp, that is your problem, not mine. You can quit if you want to. That's always easy and cowardly. But I shall not, and nothing on the face of the earth is going to stop me.

Until about a year ago, like millions of other people, I was as confused and deceived by the "Christian" hoax as you now are, although I always did feel there was something queer, and much that was silly, about Christianity. Nevertheless, when I started to organize the new party, the N.W.P., I found that not only did I get opposition from the Birchers, but my strongest opposition came from the "Born Again" Christians, and even the "Unborn Again" Christians. (By the way, Professor, are you a "Born Again" Christian? If not, why not?) This, despite the fact that I wasn't particularly raising the issue of Christianity at all, in fact, was trying to leave religion out of the picture, arguing that this was a political issue. Notwithstanding my attempt to avoid religious entanglement, I got nothing but opposition from these Jesus people. Continually the argument would come up "but isn't racial discrimination against our Christian principles?" "I can't be against the Jews. After all they are God's chosen people." "We shouldn't be against the Jews." The Bible says, "I shall bless

them that bless thee and I shall curse them that curse thee." "I haven't got anything against the Jews. I have a very good Jewish friend who has just recently become a Christian." "We are all equal in the eyes of the Lord." (All except "the chosen", of course. Like George Orwell's pigs in "Animal Farm", the Christians view the Jews "more equal" than the rest of us.) And so it went. Much to my surprise I found that the best protectors the Jews have are the Christians and none are more adamant and fanatic about it than the so called "Born Again" Christians.

After awhile this started me to thinking as to why this should be so. Although I had been fairly familiar with the Bible since my earliest childhood, I went back to the Bible itself to find out just what was the Christian Creed. To my surprise the most damaging indictments against Christianity itself did not come from reading any Communist literature, but came from reading the "Holy" Bible itself. I started with reading the much ballyhooed "Sermon on the Mount." As I took it piece by piece, I was overwhelmed at the stupid, idiotic, destructive, and suicidal advice that was contained in these pages. It was fantastic. This was the most obvious collection of bad advice you could give anybody. "Love your enemies." "Turn the other cheek." "Sell all thou hast and give it to the poor." "Resist not evil." "Judge not." If somebody borrows from you and refuses to repay you, loan them more. If somebody asks you for your coat, give it to him and give them your overcoat too. If some lousy Jew threatens to take you to court, don't contest him. And so on and on. On mulling this over I came to the conclusion that this was the most insipid garbage that anybody could possibly give you. Not only that, but if you followed it you'd destroy yourself, your family and your nation.

Then I investigated further as to who were these perpetrators and promotors of this so called "new teaching"? And I found all these disciples — Matthew, Mark, Peter and Paul, John, — almost unanimously — they were all Jews — headed up by that duly circumcised Jew himself by the name of Jesus Christ. With the Old Testament written by nothing but Jews (about Jews) and the New Testament written by the same breed, that should raise the red flag of suspicion in anybody's mind. It did for me.

The next stage I looked into was what happened to the great Roman civilization after they went Christian. Not much to my surprise I found that within six generations after Emperor Constantine proclaimed Christianity as the official state religion of the Empire that Rome had completely disintegrated from the greatest civilization and power that the world had ever seen to a complete shambles, and in fact by 476 A.D. Rome was no more. Their fatal mistake was that they had bought this mess of garbage, and as could be predicted, they destroyed themselves.

I further studied the Old Testament to find out what the Bible said about all those "great" patriarchs and Jewish heroes, with whom, according to the Jewish script-writers, God made so many beautiful and far-reaching sweetheart arrangements. I studied what the Bible said about Judah, Abraham, Isaac, Lot, David, Solomon and all the rest of these scoundrels, and I found that by and large they were the most reprehensible bunch of murderers, whoremongers, and moral lepers that you could possibly all get together in one book. In fact, the Old Testament is replete with nothing but Jews killing their enemies, of pornographic stories about Lot fornicating with his daughters; Abraham marrying his half sister Sarah and then pawning her off as a common prostitute to King Ahasuerus so that he could con him out of his cattle and goods; David fornicating with Bathsheba and then treacherously having her husband killed; of Solomon having a menagerie of seven hundred wives and three hundred concubines, and so on and on. And these were the "great", "lofty" characters that we are supposed to be looking up to as God's "chosen"; and from which you evidently get such great inspiration; characters about whom we are supposed to teach our children. What trash.

There is a lot more but I don't want to take the space in this letter to give you all the gory details. For your enlightenment, I am enclosing copies of my manuscript on an analysis of the Old Testament and the New Testament and I am sending them to Eleanor. This is, however, only a small part of my whole book, something like two chapters out of 25 or 30 chapters. Furthermore, this is only a rough draft as transcribed by my secretary from my dictation on tape, being unedited and basically uncorrected. I suggest you read them, Professor, and just for your own enlightenment find out how little you really know about the Old Testament and the New Testament. I believe you will find that for a book which is supposed to be just chock full of the wisdom of the ages, it is instead full of pornography, dirty stories about dirty Jews, killings, mostly by Jews, victoriously slaying and slaughtering the Gentiles, and above all just outright bad and stupid advice, some of which I have already noted in this letter. More of it is contained in the resumes of the Old and the New Testament that I just mentioned.

Surely, the White Race deserves a much, much better religion than that, and to this great cause I am going to dedicate the rest of my life.

Now, Professor, I have heard all kinds of attempted rationalizations of the impossibly bad advice dished out in the "Sermon on the Mount" and all of these explanations are of necessity highly contrived, tortured types of reasoning, as is yours. To say that the principles espoused in the Sermon on the Mount were addressed primarily to

Christ's disciples and don't apply to the rest of the Christian followers is doing violence to fact and reason. It is as lame-brained an explanation as what Gen. del Valle came out with when he said that the principles were great two thousand years ago but were not meant for the present times, that we could dispense with them now. I want to remind you that if they are no good now they were no good then and vice versa. They were bad two thousand years ago and they are in fact bad today. If they were good for the disciples, they are good for the followers, and vice versa. Nevertheless, there is no way in the world you can ever talk yourself out of the fact that these are the very essence of the "new teaching" of Christianity, these are the highly touted Christian principles everybody is supposed to think are so fantastic, and are basically the essence of the whole Christian program. Your further attempted explanation to rationalize "love your enemies" by suggesting that we distinguish between private and public enemies doesn't really make too much sense either. There is no reason why I should be foolish enough to love a single nigger that attempted to murder my family or that I should love a whole horde of Chinese Communists that would invade our country and commit widespread slaughter. This is a pretty feeble attempt to rationalize the suicidal Sermon on the Mount. But even at that, you only scratch the surface by mentioning only one piece amongst a profusion of bad advice that is interlaced throughout the rest of the text of the New Testament. You don't attempt to answer the rest of them, because you can't, and nobody else that I have ever talked to, including a number of Reverends and Ministers, have come up with one single sensible answer to something that is completely too idiotic for anybody to even try to rationalize.

No, my, dear Professor friend, you don't really even believe such garbage yourself. I contend that you're lying to the world (and probably to yourself) when you say you believe something you have never practiced throughout your adult life, don't practice today, and have no intention of practicing in the future. If you really believe that Christianity is the answer, why would you even want to join or form a new party to combat the Jews? In fact, why would you want to do anything? Why not just sit back on your big fat harunka and wait for the second coming of Christ? Isn't he going to take care of everything anyway? And why, "lay up treasures on earth"? Christ tells you not to. But you don't do any of these things, really, do you? On the contrary, you are pretty anxious to get your mitts on that next salary check each month, aren't you? And so it goes.

Any way you look at it you find yourself in the ridiculous position of hypocritically and stupidly espousing impossible ideas foisted upon you by a bunch of Jewish script-writers on the one hand and then disavowing them in your every act and deed in order to survive.

When such behavior becomes habitual and chronic, I can only contend such a person is either a hypocrite, or a liar, or both, lacking the guts to admit he has been snookered.

The crux of the matter, my dear professor, is that Christianity not only is not the answer for the White Man's survival, but on the contrary is a major part of his problem.

Christianity is in complete conflict with the laws of nature. Every living creature in nature has been given an inborn instinct for its own self-preservation and above all for the survival of its own species. When Christianity teaches you to "turn the other cheek", "love your enemies", "resist not evil", and all that other suicidal garbage, it is in complete contradiction to what nature has told us over the last many millions of years. Furthermore, Christianity says that our creator has done a lousy job in designing us, the human race, that we are fundamentally bad, and that our every natural instinct is sinful, and that we must re-model ourselves and be "born again" in order to meet the approval of Christianity. It blunts and deadens the natural instincts nature gave us for our own survival.

The question therefore arises: either nature is awfully stupid or Christianity is awfully stupid. We have to choose between one or the other. You apparently think that Christianity is right and nature is wrong. On my part I would choose nature's natural laws in preference to Christ's unnatural (and therefore perverted) laws, one thousand times over. After all, nature's myriad of laws have been functioning smoothly from time eternal, long before this circumcised Jew appeared on the scene to perpetrate his suicidal advice and confuse and confound the Romans. Secondly, let me ask you, where has there ever been a society that has ever followed Christ's advice and survived? The Romans were gullible enough to try and they were utterly demolished in short order. The Romans are no more. The White Race has only survived (barely) in so far as it has ignored this bad suicidal advice and has not survived because they have followed it. Let me repeat this because this is where you always seem to slide off the track: the White Race has survived despite Christianity, not because of it. It has done all the great things it has done because of its native inborn characteristics, because of its innate superior qualities generously endowed upon it by a bountiful nature, not because of any assistance that Christianity has given it. On the contrary, Christianity has suppressed, blunted and deadened the natural creative aggressive abilities with which the White Race has always been endowed.

Your argument to the contrary that the Spaniards drove out the Moors because Spain was Christian is completely without foundation and the weakest argument of all. The Spaniards drove them out because they had been invaded by a foreign hostile force and fought

them the same way as armies have always fought whether they were Christian or non-Christian. They fought the same way as when during the Hundred Years War (1337 - 1453) the French drove out the English when they were invaded by the English. There was no difference in religion. They were both "Christian" nations. The Spaniards were successful at the time of Queen Isabella because Queen Isabella was an outstanding White leader. Indeed, had she invoked her "Christian principles" she would not have fought at all, but loved her enemies, turned the other cheek and let the Moors take over. It was the superb inbred fighting qualities of the White Race that came to the fore and impelled her to fight for survival and supremacy. Joan of Arc during the Hundred Years War was equally heroic, if not more so. Again, your insane penchant to give Christianity credit where none is due comes to the surface. To again credit Christianity where no credit is due is about as idiotic as giving credit to the disease instead of the man who has become a great poet despite the fact that he was afflicted with polio. Certainly the Romans without the benefit of the Jewish God of Abraham, Isaac and Jacob had no great difficulty in subduing not only Spain but most of the Moorish areas of Africa as well, but lost all when the Christian plague hit them.

You are being shabbily dishonest when you say that I liken the accomplishments of the White Race in the latter years to tuberculosis, hepatitis and polio. I said no such thing, and you know it. My point was pretty clearly stated and there is no excuse for you pulling such a sleazy trick. What I said was pretty plain and you don't need a Ph. D. to understand it. I said that, true, Christianity had been "intert-wined" with White civilization for the last two thousand years but so had tuberculosis, hepatitis and polio and that neither Christianity nor the White man's diseases had been responsible for creating the White man's civilization. The White Man has accomplished what he has despite disease, plague and Christianity, I have pointed this out before and I think it is a point well taken.

You make a great to do about whether or not the Greek civilization was superior to the Roman civilization and in your woolly-minded professorial thinking raise a side issue that has nothing to do with my statement about the suicidal effects of Christianity upon the great Roman civilization. If you believe the Greek civilization was superior, be my guest, you will get no argument from me, but the point is this: at the time of Augustus Caesar the Roman civilization was supreme throughout the then known and worthwhile world. It was unchallenged and the White man was in charge of his own destiny. For two hundred years thereafter the White Roman world enjoyed Pax Romana, an unprecedented period of peace and prosperity that has never again been equalled. There was no other force in the world

that could challenge Rome, militarily or any other way. Nevertheless the Jews, dispersed like a virus throughout the Roman Empire, and being experts at manipulating other peoples minds, came out with this suicidal new teaching, successfully sold this mess of garbage to the Romans, and utterly destroyed them. Not only that but they therewith plunged the White Race into the devastating and dismal "Dark Ages" for the next one thousand years — a period during which all learning ceased, not only ceased but retrogressed, a period filled with superstition and fear and poverty. After one thousand years the White Race finally did extricate itself from this mess, partially at least, and to the credit of the great Roman civilization, they built their foundations on the laws, the architecture, the literature and the learning of what the Romans had already produced one thousand years earlier. But never again did the White Race shake off the control of the Jews. That is my point, Professor, and no amount of doubletalk can erase these facts from history.

I take further issue with you on your bizarre analysis of more recent history regarding Spain, Germany and Italy vs. "Western Civilization". Your analysis appears to be that Spain and Portugal are still Fascist today because they were in league with the Christian Church, whereas Mussolini and Hitler's "Fascist" regimes were destroyed because they "took repressive measures against it" (Christianity). In this fantastic analysis of recent history which only a woollyminded Ph. D. could contrive, you completely ignore the fact that in the last horrible holocaust instigated by the Jews, namely World War II, the real victors were not even the "Western democracies", but Jew dominated Soviet Russia, a horrible slave labor camp. Now I suppose you're going to tell me that Soviet Russia won because they were more kindly dispossed and more benevolent to the Christian Church than were Germany and Italy, and that God was on the side of Soviet Russia. You completely ignore the fact that Spain would never have survived but for the overwhelming help that it received from Hitler's Germany. Without that help Spain would today be in the grip of Communism, and Portugal along with her.

In summation let me say that until about a year ago I was as confused about the "intertwining" of "Western Civilization", Christianity and the White Race as you still seem to be today. I too thought that the Jew was trying to destroy "Western Civilization" and Christianity. Upon deeper study and more deliberative reasoning it has become abundantly clear to me that these terms are not synonymous with the White Race, and that it is not at all Christianity that the Jew is trying to destroy. It is in fact a viciously powerful tool that he has himself invented in order to destroy, mongrelize and enslave the strongest living force in nature, namely the great White Race itself. They are in fact successfully rendering that destruction today

with the strongest weapons they have, which is the manipulation of the minds of other people. In this field, in mind manipulation, Christianity has been the biggest triumph the Jews have ever achieved.

The fact that the Jews are not trying to destroy Christianity, until, at least such time as they can dispense with this useful weapon, is abundantly clear all around us. You can go into any chain of motels or chain of hotels owned by Jews and in every room you will find the Bible lying there open for you. You can be sure if these Jewish owners didn't want them there they wouldn't be there. You will find that Christian Churches (as other religious institutions) are exempt of property taxes, they are exempt of income taxes, and again you can be sure that this would not be so if the Jews did not want it to be so. You will find Christianity promotors like Billy Graham given millions of dollars worth of free publicity on the Jewish TV networks, in the Jewish magazines and the Jewish news media in general. And don't tell me that his message isn't genuine. He is spouting the same suicidal messages you are, namely love your enemies, turn the other cheek, etc. He quotes from the same Jewish Bible that you do and which you think is so fantastic, the same Bible that has quotations such as Deuteronomy 20, v. 10: "When thou comest nigh unto a city to fight against it, then proclaim peace unto it. And it shall be, if it make thee answer of peace, and open unto thee, then it shall be, that all the people that is found therein shall be tributaries (read slaves) unto thee, and they shall serve thee. And if it will make no peace with thee, but will make war against thee, then thou shalt besiege it; And when the Lord thy God hath delivered it into thine hands, thou shalt smite every male thereof with the edge of the sword". Now remember, I didn't make this up. It's right there for you to read and it is supposedly being spoken by the Jewish God of Abraham, Isaac and Jacob which evidently is your God also, at least so the Jewish script-writers tell us. I can't think of anything more horrible and treacherous than passages such as these. I would enjoy hearing some of your woolly professorial double-talk for the next half hour or so trying to explain such passages.

The fact of the matter is the Bible is a Jewish book, designed to unite and fortify the Jews on the one hand with the Old Testament, in conjunction with the Talmud, and to divide, confuse and confound and destroy the White Race with the New Testament on the other hand. Whereas the Old Testament advises the Jews that "Where there is no vision a people perish", it advises the White people in the New Testament to "think not of the morrow, behold the lily in the field, etc." I am not at all convinced that such a vast collection of bad advice in the New Testament was not deliberate.

No, the Jews are not trying to destroy Christianity at all. They

invented it and they are using it as the most powerful weapon that they have ever molded, even more powerful than Communism. In fact, Communism could never have come about had the Jewish ap- paratus not first undermined the White man's mind with the false principles of Christianity. They will finally destroy Christianity when they have no further use for it, namely when they have established their ironclad dictatorship over the White man and enslaved him as they already have in Russia and elsewhere. Then they will cast aside Christianity just as they do away with Liberals and Communists who were useful to them along the way, but throw them to the wolves as soon as their job is done.

It is rather passing strange that you should be so vituperative about the fact that I might be "divisive" when there are millions in this country and elsewhere whom you could more justifiably turn your attack upon. I suspect that the real purpose of your letter is revealed towards the end when you state "we hope that ... you will see fit to abandon it". Evidently you want to stop me from writing my book. And why do you want to stop me? Because it explodes some of the most cherished myths you have nurtured all these years and you can't answer the overwhelming evidence that I bring to bear. As the old saying goes, "Ye shall know the truth and the truth shall make ye mad". Like the little boy who has just been told (truthfully) that there is no Santa Claus, you are mad at the discovery itself. And like the little boy, instead of turning your wrath upon your deceivers, you stupidly choose to turn your wrath upon those that have exposed this farce. A common trait of human nature, but not too commendable.

I shall not stop writing my book, Professor. I am convinced that the implications of my book are overwhelming and that it will lay the foundations for the future White man's religion for his own salva- tion and ultimate triumph. I believe that I have achieved a devastating breakthrough, and the more I study the Jewish plague, Christiani- ty, religion, and the laws of nature, the more compelling the solu- tion thrust itself upon me that a new religion for the White Race was the greatest contribution any man could make to his own people. This I am laboring on and shall dedicate the rest of my life to this monumental task.

Speaking of sheer arrogance, you have colossal gall to tell me what I can write, or what I can think. Who do you think you are? Jesus Christ? Henry Kissinger?

I sense a hostile note in your letter toward Hitler, in my opinion the greatest White man that ever lived, and also hostility towards the White Race in general. I cannot believe that Eleanor and Rudy subscribe to this kind of treason. They have always impressed me with having good sense and healthy instincts. Eleanor has told me

time and again that “Race is everything”.

In conclusion, I want to ask you some serious questions: Of the hundreds of thousands of Christian churches in this country, can you name one that is really fighting the Jews? Is Christianity really even trying to stop the White Race from being mongrelized with the niggers? Aren’t most of them promoting mongrelization with a vengeance? Where is there one single Christian church, not only in America, but in the world today that is dedicated to the preservation of the White Race? I contend that there is not one single such Christian church in the world today that is lifting a finger on behalf of the White Race itself. On the contrary, Christianity as embodied in the Old Testament and in the New Testament is the worship of the Jew, which the Jewish script-writers claim are God’s “Chosen”. It was written by them, for their preservation and our destruction.

Besides quitting, wringing your hands, and “deploring the situation”, what other brilliant solutions have you come up with? Do you have any?

I'd love to hear from you again, but please don’t pull that sleazy trick again about quoting Ben Klassen before he saw through the hoax perpetrated by a bunch of Jewish script-writers. Instead, I would appreciate it if you would devote your next letter to explaining to me in greater detail the myriad of bad advise set forth in the Sermon on the Mount and interlarded throughout the New Testament. I am sure I should find it most interesting.

Yours for a greater White Race,
B. Klassen

CONCLUSION: The letter to Adams, copies of which I also sent to other members of the group, predictably, wrecked the NWP activity in the West Coast area for good. However, I was not too concerned. By this time I was convinced that because of the Christianity issue, I needed an agonizing new appraisal of the whole situation, and I had started putting my thoughts together about a new racial religion for the White Race. It was at this time I started writing the manuscript for NATURE’S ETERNAL RELIGION. As a postscript, almost ten years later Eleanor Kramer called me from an airport in Ft. Lauderdale. We had lunch together and a long friendly discussion. Although she admitted that she no longer had been attending any church for many years and she was still fighting for the White Race, the original militancy for the cause was gone. After the visit I wrote her the following letter.

Eleanor Kramer **November 13, 1980**
Seminole, Florida

Dear Eleanor:

It was real good to see you again last Sunday after almost ten years of going separate ways in our eternal war against the Jews. I think our divergence was a real tragedy, and again Christianity was the divisive issue and the destroyer as it has been for millenniums between millions of other White Racial Comrades.

Be that as it may, I hope we will be able to combine and unify our efforts in overcoming the enemy and building a Whiter and Brighter World. I am glad to know that you are taking the coming collapse seriously and preparing for it by militant and defensive measures.

I hope you have read the Q & A flyer by now and are proceeding deliberately with the book itself. It is my cogent observation that before we can use our firearms effectively we first of all have to straighten out the White Man's thinking and give him a meaningful creed and program every good White Man and Woman can rally around. This I have endeavored to do in my two books about CREATIVITY. Unless this groundwork is laid first the White people will only use their firearms to kill each other, as they have been led to do by the Jews for hundreds of years.

It is our initial goal to place 10 million of our White Man's Bible and NATURE'S ETERNAL RELIGION books into the hands of our White Racial Comrades. Once we have accomplished that much we will have the Jews and the niggers on the run. When you consider that we spend more on the shiftless niggers on welfare in half an hour than those 10 million books would cost, you can see what a tremendous bargain this would be for the White Race!

In CREATIVITY I believe we have the TOTAL PROGRAM, the FINAL SOLUTION, the ULTIMATE CREED.

I hope you will see fit to become a Miniature Distribution Center for the book and the creed in your area. Should you wish to order more copies enclosed is an order form and also a membership application. We would be proud to have you as a member.

I look forward to seeing you again and hope we can get together soon. May the CREATIVE FORCE be with you.

For a Whiter and Brighter World,
Creatively yours,

B. Klassen, P.M.

P.S. By the way, I received another invitation to come to Bob De Pugh's meeting in Kansas City at the end of November. My experience there three years ago was one of a confused mass of diverse groups spouting off their particular version of bedlam. It reminded

me of the poem about the six blind men from Hindustan describing an elephant. There was no plan, no program, no unity, no purpose, and De Pugh himself when I talked to him seemed to be waffling on every issue as much as anybody. Enclosed is a clipping of the article I told you about. I consider the $300.00 I spent making the trip a complete waste of time and money. But don't take my word for it. Experience it for yourself.

Questions Ecologist

To the Editor:

We are becoming so used to idiotic bureaucrat drivel these days that it is hard to decide which one should get the booby prize. However, that of I.I.F. Director Kuperberg is certainly in the running.

According to a Sun Sentinel article (February 9, 1972) Mr. Kuperberg comes out with these choice pronouncements: Build no more canals, it will hurt the ecology. Florida in any case is unsuitable for human habitation and the worst catastrophe that has befallen Florida is the 7 million people who came to live here, he says.

The implication according to these demi-gods is that we should all commit hari-kari and leave the land, air and water for the birds, alligators and snakes. The latter are evidently more important than people.

If Mr. Kuperberg really believes this kind of moronic nonsense why doesn't he set an example and leave the State making room for some alligator or snake? Or remaining here, why doesn't he try to collect his salary from the birds and the palmetto bugs, if he considers them so much more important than people?

To the Editor:

What a deceitful, hypocritical speech on forced busing we got from Nixon! No longer able to stem the wrath of the people he gave us sop and double-talk.

If forced busing is bad (and it is vicious) then it should be done away with altogether, not allowed to remain at its present intolerable level. Furthermore, it was Nixon's administration that ruthlessly pushed it to its present catastrophic mess.

Busing is a tyrannical strong arm program aimed at destroying the White Race by mongrelizing it in the next generation. The White Race is being relegated to second class citizenship, despite the fact it constitutes over 80 per cent of the American population. Racial loyalty means racial survival. It is high time the White Race drove

the race traitors from power and again regained control of its own destiny.

Gentlemen:

In your Custer story, I must say I resent your attitude towards the White Race. I believe the Winning of the West is one of the most productive, creative periods in the history of the White Man. If our ancestors had not fought the Indians and built up this land, you fat-cats would not be sitting in your plush offices in Denver today. In fact there wouldn't be any Denver, or anything else.

I'm getting a little sick and tired of hearing how everything the White Man does is wrong and everything the Noble Savage (who was a lot more savage than noble) does is just wonderful.

If you really feel so bad about the Indians losing this land we now call America, you can make compensations, you know. Stop being a hypocrite. Why don't you set an example by vacating your home and property in favor of some Indian and making yourself disappear?

Sincerely yours,

Lauds Mayhue

To the Editor:

I say bravo to Carl Mayhue for a job well done. As in past periods of history, when law enforcement agencies become so corrupted that criminals can run rampant with impunity, then a citizen has to rely on himself to protect his life and property. I have only the highest commendation for men like Mr. Mayhue, who have the courage to do that which must be done.

The blame is not on the police force, as such. It is on the criminally negligent courts and judges who repeatedly spring obvious criminals so that they can again steal, rape and murder. I also blame the news media who continuously slant their stories with an idiotic,

bleeding-heart sympathy for the criminal — not the victim. To headline Mr. Mayhue as an "angry merchant," and the criminal found with the loot, sawed-off shotgun, et al, as a "suspect" is a prime example.

To The Editor:

A recent letter (Feb. 3) by "Northerner" brings home some shocking facts for the White people of this country to consider.

At the Pensacola High School, where the Whites outnumber the blacks more than ten to one, they were forced to abandon their traditional school flag of many years standing as well as the name "Rebels" for their football team. Why? Because the blacks didn't like it. An anti-White Federal judge ordered this tyrannical edict. He too hated the Confederate Flag.

In New Jersey on the other hand, a Federal judge ordered that the "Black Liberation" flag, a symbol of treason, must be flown with the American flag at each of dozens of schools.

I believe this, again, is further evidence that today's courts are heavily loaded against the White race; that in America today we have a government, a court system and a news media that is pro-Jewish, pro-black and anti-White.

My White fellow citizens — it is time to wake and organize. If the Jews and blacks can organize for their own partisan interests, we, too, can and must organize to protect our own.

Agrees With Letter

To the Editor:

I agree with Mr. McCoy's letter (Nov. 16) that the interests of the United States overwhelmingly lie with the Arab states and not with Israel. Whereas the Arabs have repeatedly sought our friendship and supplied us with huge quantities of oil so vital to our survival, what has Israel ever done for us?

I can think of several things, none of them good. Israel has continuously drained us of money and supplies. Recently the huge sum of $2.2 billion went to Israel, one of a long, unending series of "gifts." Israel has continuously dragged us into her Mideast wars and antagonized 120 million formerly friendly Arabs against us. In the 1967 war, Israel, in broad daylight, wantonly attacked the unarmed $100 million USS Liberty, an American communications ship, leaving 40 Americans dead and 75 wounded.

It would appear that Senator Fulbright's allegation that Congress is controlled by "the Israeli lobby" is well founded. He should know. I believe it is high time we Americans came to our senses and think of our own interests, or there will be a lot of Americans "freezing for Israel" this winter.

Deplores 'Cut-Off'

To the Editor:

In your December 3, issue Ben Klassen is absolutely right in his scholarly comments on Israel, reason for our loss of Arabian oil, et al.

Though a matter of dead seriousness it is almost laughable how senators and commentators beat all around the mulberry bush in their efforts to avoid identifying palpable responsibility for the energy crisis. "Call me anything — just don't call me what I am" seems their theme.

Several weeks ago in Wisconsin, I had Sen. Fulbright on television on "Face The Nation" through a Green Bay outlet. Agree with him, or not, the senator was laying the facts on the line when suddenly he was whipped off the air at half time of a usually thirty minute program. Balance of the time was filled with irrelevant matter. Whether the cut-off was nationwide, I do not know. He referred to Israel's control of the Senate and someone apparently didn't like it.

Have things come to such a pass that the chairman of the important U.S. Senate Foreign Relations Committee can thus arbitrarily be cut off?

Dear Mr. Guthrie:

After waiting to hear from you I finally received some literature. However, it leaves me as puzzled as ever as to what it is all about. From the literature all I can gather is your conclusion that this country is in a mess. With this I agree.

However, from your literature, it seems to me:

1. You have no program.
2. You don't know what the problem is.
3. You fail to identify the enemy.
4. You don't seem to identify who "we" are or who is on "our" side.

These are, I believe, very serious shortcomings. I have written a book recently called "Nature's Eternal Religion". I believe you will find the answers to the above four questions in the book. You will also find much more. It is based on the eternal Laws of Nature, on the lessons of history, on logic and common sense.

I am sending you a complimentary copy. If you have a basic loyalty to the White Race, and if, after reading the book, you find that we are on common ground, please give me a call. Perhaps we can get together and do some good.

Sincerely yours,

Dr. Revilo P. Oliver
Urbana, Illinois

June 19, 1973

Dear Dr. Oliver:

I received your book CHRISTIANITY AND THE SURVIVAL OF THE WEST about a month ago, and I had intended to write to you sooner about it. First of all, let me express my appreciation for your sending it. I found it highly interesting, although I have some reservations about the conclusions and premises contained therein.

Your book is undoubtedly an erudite and masterful (although short) panorama of religion vs. the White Race, with a number of

colorful montages. However, as I understand your conclusions, what the White Race needs is more Christianity, a strong revival of Christianity, rather than ridding itself thereof, as I advocate in my book.

I find your premise rather puzzling in view of your own statements and attitudes towards Christianity. In your letters to me, and also from passages in your book, I get the impression that you yourself regard it as a hoax, and that most of us intelligent people of the 20th century are not, and will no longer be snookered by it.

In my book I have set forth evidence upon evidence that it is a hoax. I further identify the perpetrators of the hoax—the Jewish race—and why they perpetrated this suicidal hoax upon the White Race. The reason for its perpetration is the most vicious objective pursued throughout the annals of history—the destruction of the great White Race.

In view of all this, and more, namely:

1. You yourself consider it a hoax.
2. It was concocted and perpetrated on the White Race by our most vicious natural enemies—the Jews.
3. It destroyed the great Roman Civilization.
4. Its tenets are basically suicidal and self-destructive to the adherents that embrace it (e.g. the Sermon on the Mount).
5. And finally, after nearly 2000 years, it certainly hasn't improved the position of the White Race nor mankind as a whole. On the contrary, it plunged the great White Race into a thousand years of the Dark Ages, and any progress we have made, has been made despite Christianity, and solely by the White Race.

To link two millenniums of Christianity with the White Race and thereby jump to the conclusion that it is an integral part of the White Race that we must keep, is something I cannot buy. We could just as easily say that the White Race has been afflicted with smallpox, leprosy and the plague for 5000 years and that they, too, are an integral part of our makeup and we should therefore preserve and promote them.

The question is—like smallpox, has Christianity been a blessing to the White Race, or has it been an affliction that we would well be rid of?

My contention is the latter—it is a Jewish plague we would be well rid of, and the sooner the better. I believe the wonderful rise of the Greek and Roman civilizations without the benefit of Christianity, indicates (to me, at least) that the White Race did not need Christianity for its advancement nor for the creation of its great civilization. I am convinced such civilization is embedded in our racial stock, and our very genes. Christianity only blighted, thwarted and impeded that development as is shown by the miserable decline and collapse of the great Roman civilization when Christianity struck it

like a plague.

However, I agree that Nature has ordained religion, per se, as a necessary attribute for the survival, development and progress of man. In this respect we cannot operate in a vacuum. If we don't replace suicidal Christianity we are not going to abolish it at all. It will run its course into various further perversions as it is doing today, continually changing, but not necessarily for our benefit.

In other words if we don't give the White Race a good religion, we are going to be afflicted with a bad one. It is therefore my contention, that rather than seek a revival of Christianity, we should chuck this whole miserable abortion overboard and replace it with a completely new dynamic religion that will promote the survival, expansion and advancement of Nature's finest—the great White Race.

Since this is what we have sought to do in the book NATURE'S ETERNAL RELIGION and since you already have copies of the book, there is no need for me to repeat the contents.

However, I repeat, I am puzzled by your position as expounded in your book. I would be most interested in hearing from you further.

By the way, I note that James Hervey Johnson had a review of both of our books in the last issue of the Truthseeker. Did you see it?

Cordially yours,

B. Klassen

Dr. Revilo P. Oliver **July 5, 1973**
Urbana, Illinois

Dear Dr. Oliver:

Thank you for your most interesting letter of June 27.

Now really, Dr., there is no reason to be chagrined at my previous letter. Certainly it was written in a totally objective manner, meant to be constructive, and to further our common goal — i. e., having the White Race regain mastery of its own destiny.

Certainly I am not mad at anybody who is a loyal member of the White Race. Least of all do I have any feelings of antagonism towards yourself, especially after you pay such a noble compliment as referring to me as "obviously one of the most intelligent men of our time."

I am, however, puzzled as to what it is about my letter at which you were chagrined. I can only surmise it might be any one of the following reasons: (a) I didn't agree with your premise, (b) I didn't get the intended message from your book, (c) that most people reading it don't derive the conclusions you state in your letter of June 27, including myself.

Now whichever reason, or combination of reasons it might be, you must admit that none of them are really valid to take offense over, especially when none is intended.

After reading your letter, and further contemplating your book, I am still as puzzled as ever. I am puzzled about (a) what the whole point of it is, (b) what your position is, (c) what your solution to our dilemma is, (d) what conclusions you project, (e) what constructive purpose does it serve. It reminds me of a comment I read by a friend of Dean Rusk's after the latter had made an "important" speech: "That was a most brilliant and eloquent speech. Now the question is: What in the hell did he say?"

Likewise, your book is a brilliant exercise in scholarship, displaying a wide and erudite knowledge of history and religion, and a flamboyant command of the English language. But when I finished reading it, it left me puzzled and up in the air. Not only did it not provide any answers, it left me more confused than ever. Furthermore, it is highly defeatist. After all, if a highly intelligent man like yourself can see nothing but defeat and catastrophe ahead, the average yokel reading it would most likely say to himself "What chance have we got? What chance have I got of finding a solution?"

I deplore the spreading of defeatism. It is one of the worst things we can do to the White Race. Please read again Pt. 4 page 412 of my book. All the White Race really needs is the confidence and determination to fight in order to win. The last thing it needs is more defeatism. Furthermore, there is nothing in this world that is "inevitable", except, perhaps, death and taxes. Certainly the White Man's demise is by no means "inevitable". All the White Race has to do to become masters of the world is to want to save it. What we don't need is more doom and gloom preached to us. What we do need is someone like Glenn Turner preaching to us "You CAN do it! Go! Go! Go!"

Now as far as my not being an "attentive" reader of your book and not getting the message — two questions arise: (a) Was it the writer's fault, or the reader's fault? And (b) what IS the message? As far as (a) is concerned, if, as you say, I am one of the most intelligent men of our time (and I don't really take this too seriously) then WHY DIDN'T I get the message? Evidently I am not alone, and am in good company. On the lower back cover of your book, Professor Austin J. App, Ph. D., who also is not stooped-over in the brain, says, (I quote) "Dr. Oliver's book is a cutting and logical analysis to the effect that the West is declining as its Christian Faith has declined, and needs a renewal of it to survive."

Then we come to the review of your book in the Truth Seeker by Jas. Hervey Johnson. In referring to the survival of the White Race, he says in the second paragraph of the review, "He (Dr. Oliver) thinks

that if anything can be done it must be by a revival of Christianity".

Now it is rather strange, that since the impression I received was very similar, and when I conveyed this to you in my previous letter, you were chagrined at my misunderstanding, but evidently condoned to have the same review grace the most conspicuous place in your book. Yet in your letter of the 27th you chastise me for coming to such an outlandishly erroneous conclusion. Obviously, there is something strangely peculiar here in the communication of ideas.

This is even more strange since you are undoubtedly (and deservedly) a renowned Professor of the Classics, a master of the English language with a vast and diverse vocabulary at your command.

Now I am not any of these things. In fact, I am only a poor immigrant boy who came up the hard way. However, when I say something, most people usually seem to clearly understand what I mean. They do not have to read between the lines. Enclosed is the first page of a four page letter from one of my readers who thoroughly disagrees with me. But he states it succinctly — that my message is clear — and I am flattered.

Since none of us is perfect — and this includes you and me, professor, I will take the liberty of pointing out further criticisms of your book, and you may take them for what they are worth.

1. You talk about "we, Indo-Europeans". I contend this is a most confusing and meaningless term, as are such words as Western Civilization, Aryans, etc. Please read again Pt. 29, P. 430 of my book.

2. In the middle of page two of your book you seem to conclude that there was no adequate word to describe our common bond other than "Christendom". I disagree. I find the most meaningful bond amongst us is the biological bond, and it can best be described by the words the WHITE RACE. I use it repeatedly in my book and spell it in capital letters. Please read again P. 32 of my book, starting after the asterisk.

3. Despite your claim that you have written the book so "perspicuously", no "attentive" reader could fail to comprehend, I do not find it that way at all. In fact, after I finished it, I was as confused and depressed as I used to be after attending a J.B.S. meeting.

4. Despite your wide knowledge of history and your excellent command of English (for which I admire you) your book is possessed of a dire paucity of constructive ideas. I find in it no constructive advice, no positive program, no enthusiasm, no motivation, no hope.

Which brings me to the final question: What was the purpose of your book, what did you intend to accomplish, and how?

Now I am aware that this book was written in 1969 and was only the first part of a three part series, as I understand it. Four years have passed since 1969.

I am most curious as to what the rest of it may be, and are you going to finish the series. In the meantime, if you will just answer the vital and final question, namely what it is you intend to accomplish, and how, I will be most grateful.

Sincerely yours,

B. Klassen

Mr. Earl E. Commins **February 6, 1973**
Avondale, Arizona

Dear Mr. Commins:

Thank you for your letter and also your check in the amount of $5.00. We will mail out your order under separate cover including the twelve copies of the N. W. P. creed.

Regarding the White Party, I should inform you that we are no longer active as such, and therefore I would not want you to send your membership in at this time. I am however, still tremendously active in the cause. In fact, my experience with the N. W. P. convinced me that we weren't going far enough. Much to my surprise, my main objection did not come from the Blacks or the Jews, but from White "born again Christians". I found to my surprise that I was continually undercut morally with such principles as: "I will bless them that bless thee, and curse them that curse thee", "but my Saviour was a Jew", etc.

After an agonizing reappraisal, and much further searching and study, I came to the conclusion that what the White Race really needed in its fight was a new religion.

It is a long story from that point on, but I have over the last year and a half, written a comprehensive book of five hundred twelve pages which does just that: propound a dynamic and new religion for the White Race to rally around in its fight for survival on the face of this planet.

The book is being printed right now, and should be out in another three weeks. It will sell for $3.00. I believe that it will be a major milestone in the thinking of the White Race. The letterhead that this is written on gives you the name of the church itself that I have founded. The name of the religion is called "Creativity" and members thereof are called Creators. I believe you will find the book highly interesting and constructive. I hope to hear from you further soon.

Again, many thanks for your kind letter, and we will mail out the material as per your request.

Sincerely yours,
B. Klassen

Mr. B. D. Robinson, Jr. **April 4, 1973**
St. Augustine, Florida

Dear Mr. Robinson:

I appreciate your reply in reference to my religious convictions

as expounded in the Creed of the Church of the Creator.

Unfortunately, some peoples minds are like concrete — all mixed up and hard set. Evidently our dynamic movement is not for you. Some people are beyond the reach of reason, beyond examining the overwhelming evidence that abounds all around them, and beyond utilizing the native intelligence with which Nature blessed the White Race.

So be it. Fortunately over 95 per cent of the replies and comments I have received are highly laudatory. So I am tremendously encouraged. In fact, yours is the only directly nasty note I have received, although some others have disagreed in various details. Enclosed is a typical note from one of my readers.

I take issue with your nasty description of my sacred cherished convictions being in "Satan's realm". May I remind you that your "Christian" religion, as all others, too, is man-made. Not only that, but it has the dubious distinction of being concocted by a passel of Jewish scriptwriters whose exact identity is completely unknown at this stage of history.

We do know, however, that it was perpetrated by these perfidious Jews in order to unhinge the minds of the Romans, in particular, and the White Race in general, and that they thereby destroyed the great and wonderful Roman civilization and plunged the creative White Race into a thousand years of the Dark Ages.

So, my dear friend, if you want to be a gullible yokel and swallow such trash as "love your enemies"; "turn the other cheek"; "sell all thou hast and give it away"; "resist not evil"; "judge not"; "pluck out thine eye"; "cut off thine hand"; etc., why go right ahead. Be my guest. It has about as much merit as millions of Hindus believing that cows are holy.

There is hardly any merit to being overly gullible and clinging to myths, fairy tales, nostrums, and superstitions that are completely unsubstantiated by any evidence whatsoever. It is therefore my studied conviction that you, yourself, are the victim of a Jewish hoax, are intolerant of any other peoples convictions, and become most vitriolic when your untenable position becomes exposed to the light of reason and overwhelming evidence.

I hope this gives you something to think about.

Sincerely yours,
Ben Klassen, Founder
CHURCH OF THE CREATOR

Mr. A. J. Winfield
Montgomery, Alabama

April 29, 1973

Dear Mr. Winfield:
We have received your letter in which you become extremely

exercised over the religious beliefs of our Church. Evidently you don't believe in religious freedom for people other than yourself. This, of course, makes you a bigot of the worst kind.

Please be advised that you are NOT on our mailing list and we have no record of sending you any mailing. From your acid remarks I presume the someone has sent you a copy of our book "Nature's Eternal Religion", and that you have read it.

Since you take such strenuous objections to the contents thereof, I must presume from my past experience that you are either (a) a Jew, or (b) a perfidious traitor to the White Race, dedicated to doing the dirty work for the Jews.

I believe it is highly presumptious on your part to claim that you represent "the prevailing philosophy of the overwhelming majority of the citizens of this state and nation." Speak for yourself, Jack. You may represent the thinking of the Jews and the niggers of Alabama, but not the sentiments of the White Race, my friend. They are overwhelmingly on our side. It is only a matter of time until their interests are organized and their power will be felt. This is the overriding objective of the Church of the Creator —to unite, organize and arouse the White Race—and it will be achieved.

When the White Race again gains control of its own destiny it will know how to deal with both categories (a) and (b) mentioned above.

Sincerely yours,
Ben Klassen

Mr. Harry LoGiudice
Wethersfield, Connecticut

Dear Mr. LoGiudice:

Thank you for your donation in the amount of $5.00 towards the cause. This will help us distribute five more books to other people.

My experience with the Birch Society is briefly related on pages 403 and 404 of the book. In summary, I can say that the J.B.S. was formed by the Jews to act as a camouflage to divert attention away from the Jews and point to a phantom culprit. In other words, it is a smoke screen for the Jews.

The objective of our movement is to put the finger on the real culprit — the perfidious Jew, and to unite, organize and arouse the White Race in its struggle for survival. To help do this, distribute as many copies of the book as you can and keep spreading the word.

Sincerely yours,
Ben Klassen

Mr. Philip Ward **April 29, 1973**
St. Petersburg, Florida

Dear Phil:

Thank you for your note acknowledging receipt of my book **NATURE'S ETERNAL RELIGION.**

Evidently you are the eternal student and still "studying" the situation. If and when you come to a conclusion, I hope you can and will translate such into decisions and actions for the benefit of the White Race. The time for action is long overdue.

In the meantime, please re-read the last paragraph on page 265 of the book.

Sincerely yours,
Ben Klassen

Mr. Ralph J. Dickson **May 8, 1973**
Pompano Beach, Florida

Dear Ralph:

This will acknowledge receipt of your most interesting and informative letter. I greatly appreciate the fact that you have read, and even re-read, parts of my book in such short order and promptly sent me back the benefits of your thinking. Whether you agree or disagree with the contents is not really material, but any time I get the honest commentary of an intelligent thinking man like yourself, I feel highly privileged. The first page of your letter is, I believe, highly complimentary, and I feel rather flattered. The fact that you found it clear and straight out, without double-talk or shilly-shallying, without having to read between the lines or having to consult a dictionary as to what I might have meant — all this coming from you, I find highly laudatory. The fact that it has evidently made a big impact upon your thinking, too, is very gratifying, for you say that it hit you like a bomb shell. This, too, I find highly encouraging. The fact that it triggered a response from you on some of the vital questions of life encourages me to believe that the book is achieving its purpose. In fact, everything you say on the first page is so highly gratifying that any further disagreement in regards to the contents thereof are by no means negated by it.

However, you do me a grave injustice when you charge in the first paragraph of the second page that "a review by anyone is precluded by your statements that 'the brain polution, done for years by Jewish propaganda' makes a review (not agreeing with your statements or plans) not accurate, as it "has the Jewish propaganda in it, and whoever makes the review, must have his thinking straightened out". You are hereby making an assumption that is not

in line with my thinking. To have put the last phrase in quotations is somewhat dishonest, because you will not find such anywhere in my book. When you put it in quotations, it can correctly be assumed that you are quoting me. But you are not.

On the contrary, I would not only appreciate, but I would welcome a review by a man like yourself if you wish to take the time to do so, of any part, or in whole. After all, my search is for the truth and I consider you highly intelligent. Any intelligent man's views and thinking that I may get the benefit of I greatly appreciate, whether I agree with those views or not. Coming from you, I know they are undoubtedly going to be your honest views. Therefore I cannot quarrel with listening to and considering them.

I therefore repeat: I would be very happy to give full consideration to any full or partial review that you might want to undertake. After all, what knowledge I have gathered over a lifetime has been gleaned by examining evidence, judging, selecting, accepting and rejecting. To live at all is to come to conclusions, followed by decisions, which are then translated into action.

With your permission I am now going to take issue with the arguments you bring up in your letter.

In reference to the question of being greatly pleased by a lovely female adorned by a fine perfume, my answer is overwhelmingly yes: More than most people I fully appreciate an elusive, exceptionally pleasant odor and pleasant atmosphere. I not only have great capacity for appreciating fine perfumes but I also appreciate the fine females that go with it. Not only that, but I further have great capacities for appreciating most of the finer things in life. I admire and appreciate fine paintings, fine music, beautiful architecture, great and outstanding literature, gorgeous scenery and beautiful sunsets. Without extending the lists endlessly, I could sum it all up by saying I appreciate EXCELLENCE. In contrast, I detest ugliness, stupidity, filth, and in general the whole "the slob is the hero" mentality that is so constantly being promoted by the Jewish propaganda outfit of today.

Furthermore, I am impatient with people who can never make up their mind. There are some people like the mugwump, who continually straddle the fence, with their mug on one side and their wump on the other.

You indicate that Christianity is not all disease. Perhaps not. But if it has some redeeming features, I don't know what they are. Of course you can always find some good to say about any evil, and vice versa. I heard a fellow tell me the other day that hanging wasn't really so bad, because you completely get used to it, given a little time.

In this same vein I am sick and tired of hearing some of my White

racial comrades keep emphasizing that "Oh yes, I know some real good Jews (or niggers)." And in the next breath "I know a lot of bad White people." Why pursue a course of voluntary racial suicide?

We now come to the crux of your letter in which you state that the great thing a religion must have is HOPE and that Christianity has it and CREATIVITY is devoid of it. I couldn't differ with you more strongly on both counts.

Let us first examine whether or not Christianity offers HOPE or whether it offers one great big HOAX. There are only two letters different in those two words, but the gulf that separates them is tremendous. In fact, that gulf is wider than the Pacific ocean. If you have read chapter 15 of my book, namely 'Getting To Heaven: Project Impossible; or Everybody is Going To Hell", and I presume you have, I believe you will have to admit that I have brought massive evidence to bear based on the supposed words of Christ himself that the chances of anybody getting to heaven are practically nil, or at best negligible. In fact, the New Testament repeats over and over again that the road to heaven is narrow and the road to hell is broad as a country mile. So if the "hope" that you are talking about is that pretty well everybody is programed to go to hell and burn forever and ever in an everlasting torture chamber without even the mitigating mercy of being able to die to end it all, then I fail to see any great uplifting hope in such a vicious and horrible threat. In fact, I can't think of anything more horrible, sadistic, cruel, unjustified, masochistic, tyrannical, monstrous, fiendish, and ghoulish than the very concept of hell itself, a concept dredged up from the very lowest depths of the depraved mind of the Jewish scriptwriters who wrote the New Testament. And you have the audacity to call this kind of teaching HOPE? Even if I myself were to go to this Jewish heaven, but found that most of my friends, relatives, sisters, brothers, children, grandchildren, etc. were roasting in the fiendish clutches of hell, it would be a most unbearable contemplation. How you can find in the horrendous and frightful stench of a Jewish hell any comparison with the beautiful and pleasing perfume and aura surrounding a beautiful woman is hard for me to grasp.

Regarding hell, read again page 148 and the main paragraph in the middle of page 134.

Now we come to the second word, "HOAX". Is Christianity, or is it not, a HOAX? Whereas I feel highly gratified by your comments that the book is clear and to the point and that I take an unequivocal stand on most of the issues that I bring up, I find your position on this particular issue highly ambiguous, and in fact extremely contradictory. From all that you have not only said in your letter, but otherwise also from your actions as I have observed them, you yourself evidently don't believe in heaven and hell, concepts which

are the very basis of the whole Christian creed. From your words, and from your actions, I get the impression that you yourself don't believe this whole mess of garbage about the nebulous hereafter, but recommend it is good, useful medicine to feed to the less sophisticated and more ignorant plebians in order to keep them in line. This view, of course, has been promoted by hundreds of thousands of priests, preachers and ministers as well. What hypocrisy!

So let me get a clear unequivocal answer from you. Do you, or do you not, believe in heaven and hell? Do you believe in the old Christian creed as expostulated in the Sermon on The Mount? Do you believe in selling all thou hast and giving it to the poor? Do you believe in turning the other cheek? Do you believe in loving your enemies? If so, why did you go to war and participate in killing Germans, your White racial blood-brothers? Why haven't you sold everything you have and given it to the niggers? If you don't believe all that hocus-pocus, then you must admit it is not only a hoax and a fraud, but it is a COLOSSAL hoax and fraud. I contend that it is a hoax, and I bring forth a mass of overwhelming evidence in chapter 16 entitled "Christ's Existence Not Substantiated By Historical Evidence" and further in chapter 17 "A Closer Look at The JudeoChristian Hoax".

Pursuing this further — if you do believe Christianity to be a hoax — then how can you possibly in your right mind recommend it to the gullible stooges as being a noble teaching that holds out hope to them? Isn't this the worst kind of a fraud as would be practiced by an expert con man? If someone were to sell you the Brooklyn Bridge on the installment plan promising you great dividends and rewards in the nebulous and distant future, would you really consider this as a noble and beautiful act comparable to the aura of a beautiful woman surrounded by sweet smelling perfume? I most decidedly would not. I would consider it having the stench of a perfidious Jew. I would say he was lying to you. I would say that through lies and false promises he would have you making installment payments for the rest of your life without ever delivering a shred of reward or reimbursement to you. I contend that Christianity is the same kind of a con game. It has not delivered a shred of evidence after all the billions spent by the gullible; all the lives and blood that have been spilled in the name of Christianity; all the physical and psychological terror that has been heaped upon the victims of this fallacious hoax; despite all this, it has not, in 2000 years, dredged up one iota of evidence to show that there ever even was such a personage as Jesus Christ, not one shred of evidence to show that there is a hereafter, that there is a heaven and hell, or to substantiate any of the psychedelic and far-out stories of the Great Flood, of the Israelites marching through the Red Sea, or the sun standing still for 24 hours,

etc., etc. Not one shred of scientific or historical evidence has been produced to back up this ridiculous pack of lies.

No, my dear friend, I disagree with you thoroughly that lies and false promises can be equated with the word HOPE. They are not hope at all. They represent nothing more than a cheap, lying fraud, of the worst kind.

Let's consider further the word "evidence". Although you do not bring it up in your letter, the last conversation I had with you about this subject, you stated to me in words to the effect that hundreds of millions of people, having believed in Christianity for all these centuries, was evidence of a kind in itself, and that it therefore must be true. To me this appears a real flimsy, de-railed type of reasoning. Before the days of Columbus 99.99 per cent of the people believed the earth to be flat. The fact that the overwhelming majority of the people were wrong did not make the planet earth flat. It was just as round then as it is today. Likewise, there are hundreds of millions of people in India today who believe that cows are holy, and have believed so for perhaps more centuries than people have believed in Christianity. Now you must admit, Ralph, the fact that all these people believe cows are holy is a lot of nonsense, and them believing so in large masses for a long period of time does not now, nor ever will, make cows holy. To follow your line of reasoning, however, it would be evidence that cows were holy. The fact is: when it comes to religion, most people are terribly confused, and until I get some straight answers from you I will consider you in that same category, as far as your religious thinking is concerned.

Let us now turn to the creed of Creativity. At the bottom of page two you ask the monumental question 'Is hope held out (as we understand the word) — by your religion?' And the answer is overwhelming, yes it is, my friend. If you have read the last chapter, namely "Our Brilliant Future", you can hardly fail to acknowledge that a bright and wonderful future awaits the White world of the future, provided the White Race realizes its own wonderful potential that Nature has so benevolently bestowed upon it. Nor is this a false or illusive hope or goal. The great and noble White Race, having inbred in its very genes the remarkable attributes of creativity, productivity and genius, not only can, but will, achieve those goals. It will achieve them as soon as it recognizes its own worth and is able to shake off the parasites and the brain-distorting propaganda to which it is now unwittingly being subjected. There is nothing fraudulent or unrealistic about striving for such a goal. In chapter 27 entitled "The Road to Greatness", I lay out the program as to HOW we can achieve this goal. Unlike Christianity, which would pawn off a fraudulent and non-existant reward, this is something that we not only can, but we must, and we will, achieve.

In the first paragraph of page three of your letter you set forth evidently what are your conceptions of the objectives of our religious movement. I say your conceptions because they certainly do not accurately describe mine. I envision a world in which the White Race has expanded and inhabited all the good lands of this fair earth; where it has dislodged all the parasites from its back that are now so voraciously feeding upon its very life blood; to where the White Man is again in control of his own destiny. I contend that the highest law of Nature gives every species the right to fight for its own survival, to secure the survival of its future progeny, and to expand to the limits of its capabilities. Since the White Race is so amply blessed with an overwhelming amount of capability of doing so, I foresee that it will do so. This is completely in line with one of the foremost laws of Nature, namely the law of the Survival of the Fittest. You seem to deride that law, and berate me for even mentioning it. Ralph, let me remind you, I didn't invent the laws of Nature, I only observe them. I didn't invent the fact that Nature declared that grass should be green. I merely observe it. I didn't invent the law of gravity. I merely observe it. I didn't invent the mathematical equation that two and two makes four. I merely observe it and I reject any spurious and specious arguments that it might make seventeen. So if you have any quarrel with the laws of Nature, be my guest: stand on the roof tops and shout forth your protest with a bull-horn. But I assure you that it will do you no good. Despite any objection you may have, Nature's laws in the future will continue to be obeyed, precisely and immutably as they have in the billions of years in the past.

Contrary to your charge that it is my objective to deify Hitler etc., such is not the case. I give him full credit for being the greatest White leader that our race has ever had. But it is neither my objective to resurrect Adolph Hitler, nor the Nazi Party. Rather it is my overwhelming and dedicated objective to fight for the survival of my own race — the great and noble White Race. If you will again read from the middle of page 310 to the middle of page 314 you will see that I differ decisively with the National Socialist philosophy on at least four major points and some other minor points. Here again, it is my objective to take that which is good and reject that which to me seems not to our benefit.

I know that the whole book must come to you as a great major shock because it is so contrary to many of your most cherished illusions that you may have nurtured throughout the years of your life. I know that listening to the many episodes that you have fondly related, probably one of the most glorious and exciting periods of your life was that in which you were in the armed services, fighting against the Germans and Adolph Hitler. For me now to tell you that it was a major catastrophic blunder, and that you were fighting not

for your own race but to perpetuate the power of the treacherous Jew, undoubtedly comes to you as a most unpleasant trauma. But that's the way I see it, my friend. Now after nearly 30 years in retrospect, I think you must admit that you did not fight to save the world for DEMOCRACY, for there is less democracy now than ever before, but many more dictatorships have spawned under the Jewish-Communist heel. Nor was there any honest intention by our leader-ships either in Britain, France or the United States to save poor Poland, for poor Poland is now more divided than it ever was before, half of it being completely subjugated under the Russian heel and the other half being subjugated under the Jewish-Communist terror that now has overwhelmed all of the Balkan countries and Eastern Europe, as well as many others. Not only that, my friend, but your glorious "victory" strengthened the Jewish strangle-hold over the so-called non-communist world to a degree that they never had been able to flaunt before. And our so-called "leaders" betrayed us to bring about this catastrophe.

Furthermore, it seems exceedingly strange to me that you seem to be so completely overcome with compassion and crocodile tears worrying about the White Race breaking the Jewish propaganda machine and that it might become a seven-headed monster if it then was to be captured into our own hands. Yet on the other hand, when the Germans were organized and had built up a military machine as well as a propaganda apparatus, for what I consider the benefit of the White Race, you had no compunction whatsoever in rushing in, using the utmost brutal military force possible and smashing their organization by force. Remember Dresden? It seems to me that there are no pangs of conscience involved there on your part except that it was one of the most exciting and glorious chapters in your life. Therefore let me ask you, why was it so good to use military force to smash the Germans, but why are you so apprehensive about us destroying the Jewish power apparatus that now dominates, not on-ly a minor part, but the entire world?

Furthermore, nowhere have I stated that we should go out and kill the Jews, or the coloreds, or anybody else. The first objective that I set forth is for the White Man to regain control of his own destiny. You can hardly argue with that. Having done that, we must then proceed on a program of expanding the White Race, as we have historically done in the past, and pursue a program of shrinking our enemies.

I do not say that we should kill our enemies. I say that we should stop subsidizing them, feeding them, and giving them all the benefits of all our military and technical knowledge and other aid. I suggest that the White Man start looking after his own, that he start pro-moting his own interests rather than that of his enemies, that he en-

courage the expansion of his own kind over the face of the earth, rather than feeding, nursemaiding and promote the breeding, of the scum of the world, to his own detriment, until such scum push us from off the face of the earth. If it be necessary that we must fight for our own survival and self-preservation, then so be it. There is nothing new about that. After all, you yourself engaged and participated in the killing and smashing of what you considered the enemy when the powers that be told you that this is what you should do.

Furthermore, I strongly promote in our creed a basic law of Nature — loyalty to our own kind. Loyalty to our own kind means RACIAL LOYALTY to the White Race. You are a member of that race and I am greatly puzzled why you are so worried and apprehensive about the White Race being supreme, but seem to completely ignore all that I have written about the objectives and programs of the Jews in the Old Testament, in the program set forth for the last several thousand years in the Talmud, in the program and execution thereof in the Protocols of the Elders of Zion, and the overwhelming success they have achieved with these programs dove-tailing and culminating in the communist conquest of the world. It greatly puzzles me why there are so many White people who seem to be idiotically cheered and elated by every defeat and set-back that the White Race seems to suffer, but, on the other hand, vociferously applaud every success and triumph that our enemies seem to accomplish. This seems to me to be an idiotic program for suicide.

We of the Church Of The Creator have formulated a program for living — living life to achieve the highest benefits, and to reap the fullest enjoyment. We do not subscribe to the idea that life must be unpleasant and miserable, that we must seek refuge in a dream world, in a nebulous netherland, the existence of which we have not the foggiest outlines. I would suggest that anybody who subscribes to that kind of theory should get himself a truckload of opium, or hashish, and set up an opium den and do the job right.

We of the Church Of The Creator believe that Nature gave us life to enjoy to its fullest in this world, the only world in which man has ever been known to exist. She endowed us not only with the highest gifts of intelligence, productivity and creativity, but also with a tremendous appreciation for the fine and beautiful things in life. We believe that the White Race, when once again in control of its own destiny and supremely conscious of its own value, can, and will, achieve a bright and beautiful world where living is a beautiful experience, and where living in harmony with the laws of Nature, is not a crime against its religion, but a rich and wonderful experience.

Now I realize that this letter is entirely too long, but I must confess that I did not write it entirely for your benefit, but rather also

for my own. I am at present compiling three other books that relate to the Church Of The Creator. In answering the points that you bring up, I am not only clarifying the answers for your benefit, but I am also laying out some of the material in my own mind.

Let me once again assure you that I welcome any further comments, reviews or thoughts that you may have about my books. As I have stated before, I am fearlessly setting forth the truth as I see it — in the framework of the Eternal Laws of Nature, based on the experience of history, and as my own common sense and judgment dictates. That being the case, I have absolutely no fear or the slightest reluctance in hearing other people's views on this subject, be they pro or con. My overwhelming objective is to be of service to my own race, the greatest value on the face of the earth.

After all, if the White Race isn't worth saving, what is? Frogs and alligators? Niggers and mulattoes? Monkeys and apes? If you can think of a more noble objective than fighting for the survival, expansion and advancement of your own race, the White Race, please clue me in on what it might be.

Fortunately your type of dissent is in the minority. I am beginning to get reports back from all over the United States, and 90 per cent of our White racial brothers are responding positively with strong support for the Creativity movement. Enclosed are a limited few excerpts.

It convinces me that the majority of the White Race does not wish to commit suicide, but will fight for its survival.

All this is tremendously encouraging. It reinforces my conviction that there is HOPE for the White Race and that a bright and dazzling future lies ahead.

Best Regards,

B. Klassen

Dear Mr. Klassen:

Congratulations for an excellent book. Here is a small contribution. Have you sent a copy to Ned Touchstone of The Councilor? He should have one, although I believe he will not agree with all of it. Keep up the good work.

Sincerely,
Willis A. Carto

Dear Mr. Carto:

Thank you for your kindly note about my book. Also many thanks for your contribution.

On your suggestion I am forwarding a copy of "Nature's Eternal Religion" to Ned Touchstone.

If you would like, I would be happy to ship an equivalent, i.e., 10 books, to you for further distribution. Please advise.

Mrs. Bonnie Parker May 22, 1973
Torrance, California

Dear Mrs. Parker:

Thank you for your good letter of May 18, also your order. We have mailed a copy of "Nature's Eternal Religion" to Axel Johansen as requested.

Regarding the N.S.W.W.P.: I have gone to their meetings and I have met Commander Koehl. He wanted me to head up a group here in South Florida. Whereas I am in favor of what they are doing, I don't believe they go far enough, and are dodging the most important issue of all — Jewish Christianity. It seems to me that you cannot tacitly condone a suicidal creed of such overwhelming destructive influence on the White Man's thinking and ever hope to come to grips with the real problem. How can anyone teach such suicidal garbage as "love your enemies", "turn the other cheek", "the Jews are God's chosen", etc. on Sundays, and then hope to go out and fight the Jews the rest of the week? Until the N.S.W.W.P. takes a stand on this vital issue, I believe they are spinning their wheels.

Commander Koehl has a copy of my book but he evidently wants to ignore the issue of Jewish Christianity. I wish you would write him and ask him where he stands on this issue. If you get a clear and meaningful answer, please let me know.

I have been a great admirer of Adolf Hitler throughout my adult life and I say so loud and clear in my book. I do not say that the spirit of Hitler is dead. On the contrary, I say on page 316 "Today...the spirit of Hitler is more alive and flourishing in the hearts of militant White racial comrades than ever before in history."

Let me make it clear however, that the objective of the Church of The Creator is neither to resurrect Adolf Hitler, nor the Nazi Party. Our goal is the survival, expansion and advancement of the White Race, period. Inasmuch as Hitler has helped that cause, we give him full credit. But we are not blindly enslaved to worshipping Hitler, or anybody else. What is good for the White Race (about Nazism) we adopt. What is not, we discard. There are several things about the Nazi philosophy that I believe are detrimental to the struggle of the White Race. Pan-Germanism, Nationalism, not coming to grips with Christianity are some of them. Without going into further detail here, I suggest you re-read pages 310 to 316, also chapter 6 on Racial Socialism. It is all spelled out in those pages.

Having a political party is not enough. It must be undergirded by a solid religious philosophy that an intelligent person can honestly believe in without compromising his intellectual integrity. I believe we now have such a religion in Creativity.

I would like to see you start a Church of The Creator group in your community. It embraces the whole spectrum—religion, politics, race, philosophy, business and every other meaningful aspect of living.

So let us proceed to build. Remember, in the White Race you embody the most meaningful and precious value on the face of the earth. Go to work now to protect, promote, expand and advance Nature's finest creation until we again regain control of our own destiny to build a White World.

Best Regards,
B. Klassen

Mr. J. B. O'Connell
Glastonbury, Connecticut

June 14, 1973

Dear Mr. O'Connell:

I am sorry I disappointed you in my last letter and I'm afraid you will be disappointed again.

However, the point is, Mr. O'Connell despite your listed martyrdom, I don't care to waste my time trying to wet-nurse anybody

who has nothing to offer to the cause but whimpering defeatism.

If you are convinced we are licked, why that is your privilege, but why inflict your unwarranted pessimism on the rest of us that are determined to survive?

I believe I have clearly laid out the program for victory. If you are too bushed and beat to fight, why, just stand aside and let those of us that are determined to fight and conquer do our job as we see fit.

Just what is your program? What is it you are trying to accomplish? What is your solution?

Until you have something positive to suggest that makes sense, please don't take up any more of my time.

Sincerely yours,
B. Klassen

June 15, 1973

Dear Bill:

Thank you for your letter of June 3, also the letter from Dr. Edward Fields to you.

I agree with your appraisal of the "Dispossessed Majority". It presents a huge volume of statistics but then so also does the N.Y. Times Yearbook. The conclusions it draws however are most lamentable. To equate the Jews and the Irish in the same boat as "troublesome" minorities and let it go at that is most misleading, and, in fact, preposterous.

The book has two other glaring fatal flaws. (a) It does not identify the enemy, and (b) it offers no meaningful solution whatsoever. By never really getting to the crux of the problem, which again, is the perfidious Jewish apparatus, is giving protection to that enemy.

Dr. Fields is not correct in saying that I sent him a copy of my book. However, as of today, I am sending one each to him and J. B. Stoner.

Now that they are bound to have the book, why don't you follow this up and bug them to committing themselves on the subject of Jewish Christianity. You might well ask them how they can not only condone but promote a religion that says the Jews are God's Chosen, that tells us to love our enemies, to turn the other cheek, to judge not, to sell all we have and give it away and a lot of other suicidal advice; how they can swallow all this on Sunday and then go out and fight the Jews the rest of the week.

Dr. Potito told me he worked for the N.S.R.P. for a number of years and finally concluded they were phoney. Of course I think Dr. Potito is phoney himself, so the question remains, what about the N.S.R.P.?

In any case why don't you press this issue further with them about NATURE'S ETERNAL RELIGION and the question of the incompatibility of their stand?

Let me know what response you get to this highly interesting issue.

Sincerely yours,
B. Klassen

P.S. I am very much interested in reading "Tax Revolt U.S.A." and will call Mrs. Lucas.

Mr. Harry J. LoGiudice **June 15, 1973**
Wethersfield, Connecticut

Dear Mr. LoGiudice:

Thank you for your interesting letter.

You say the Jews have a major advantage over us — dedication to their race.

Let us remember that they have no monopoly on this attribute. The White Race, given a creed and given leadership, can be as fanatically dedicated to their race as are the Jews. The Germans under Hitler proved this beyond a shadow of a doubt.

This is what Creativity is all about. Now that you have the creed and the program, instead of spreading defeatism, why don't you take the lead and inspire dedication and the zeal for victory. Remember, united and organized the White Race is ten times more powerful than the rest of the world combined.

If you aren't going to do the job, who is? After all, what is more important than the survival of the White Race?

Sincerely yours,
B. Klassen

Mrs. Irene Payson **June 15, 1973**
Los Angeles, California

Dear Mrs. Payson:

Again many thanks for your interesting letter, also the $5.00 check. We are mailing you four copies of the book.

In your letter, you bring up the question as to why we consider our movement a religious movement. It is a good question and I am glad you brought it up.

I am convinced that the most important influence on our thinking, attitudes, actions and on our life as a whole, is religion. It is the fountainhead from which all other attitudes and motivations spring. Unfortunately for the White Race, this highly important field is usurped by the suicidal Christian religion foisted on us by the Jews

for our destruction.

Nothing operates in a vacuum. Until and unless we supplant it by another, more powerful and more appealing religion, we will never shake it off. You cannot replace religion (any religion) by political parties, by social clubs, fraternal organizations or anything else other than another religion.

This we believe we have accomplished with CREATIVITY. Given organization and propaganda, I believe it will spread like wildfire, and I am sure it will drive Christianity from off the face of the earth. This is what the White Man needs, a new, wholesome, natural religion designed for his own survival to replace Jewish suicidal Christianity.

So this is what our book is all about. It was not just a random idea. It is the crux of what it is all about. So now you can spread the word to your doubting Thomas friends...it was our deliberate design to create a dynamic new religion to supplant a suicidal one and finally wipe the latter from the face of the earth. Only in this way can we hope to win the fight for the survival of the White Race.

Sincerely yours,
B. Klassen

P.S. I am sorry that we are out of the Ben Klassen Letters, but since they no longer represent my position on Christianity I am not too anxious to re-issue any.

Miss Barbara von Goetz June 15, 1973
Washington, D.C.

Dear Miss von Goetz:

Although I consider the item about Loyola itself of minor importance, it bugs me that you should imply that I just pulled the statement out of thin air.

I am therefore enclosing a photostatic copy of the article from which I derived this tid-bit. It is part of a lengthy article about the Kehilla, written by Mr. Al Mesagadis, published in the National Chronicle, of Burney California.

Now in all fairness to both sides, you might also ask the same question of the New Catholic Encyclopedia 1967. After all it, too, like the Bible, was written by a diverse number of people of unknown origin.

You might also ask these further questions of this unimpeachable source: (a) Are their versions unbiased as far as Christianity is concerned, and especially as far as the Catholic Church is concerned? (b) Do they deny that Loyola was of Jewish ancestry? (c) How reliable is the Catholic rendering of history in any event when it presents to us as God's truth such cock-and-bull

stories as Jonah and the Whale, the Jews walking through the Red Sea, Joshua (successfully) commanding the sun to stand still, and a hundred other idiotic stories that insult our intelligence?

Now, Miss von Goetz, neither you nor I presided at the birth of Ignatius Loyola and we therefore have to take the word of many others. Since history comes in many conflicting versions, we have to make our own choices as to whom to believe. If you have read the chapter on Queen Isabella you will have to admit that the Catholic Church was polluted with Converso Jews who outwardly professed Christianity but "carried the law of Moses in their hearts".

Since the whole import of my book is that the Jews invented and fervently foisted Christianity on the White Race in order to destroy us, it makes a lot of sense to me that Loyola not only could possibly be a Converso Jew, but, in fact, highly probable that he was noneother.

Since you say you agree with 98 per cent of my book, why not quit this nit-picking bit and get down to basics — which is — joining the struggle to fight for the survival of the White Race.

What is more vital than that?

Sincerely yours,
B. Klassen

Mrs. M. Gray
Arcata, California

June 19, 1973

Dear Mrs. Gray:

Thank you for your kind and gentle note about my book, from a Christian who practices nothing but love and tolerance.

I am neither disturbed nor surprised that you burned my book, since Christians have a long historical record for burning books. Not only did they try to suppress the opinions of those that disagreed with them by burning their books, but they also burned thousands of people who disagreed with them. So you are running true to form. I'm sure if you could, you would burn me, too, the hate is there.

So why be mad at Hitler for book burning when you indulge in the same practice? Whereas you love your enemies, (the Jews and the niggers), and hate your friends, (the White Race), Hitler at least knew the difference between his friends and his enemies and acted accordingly.

Since I don't consider your hate letter worth spending too much time on, I am enclosing a copy of a letter to another lady in California, much of which applies to you.

Sincerely yours,
B. Klassen

Mr. Millard F. Cornwell **June 26, 1973**
Wilmington, Delaware

Dear Mr. Cornwell:

Thank you for your letter(s) of June 22, also your check in the amount of $20.00.

The letter from Mr. Richard S. Armstrong of the Princeton Theological Seminary (to you) was rather interesting. Whereas he was politely thanking you for your contribution, I read between the lines that the last thing in the world he would want to see is the book widely distributed throughout his staff or his college.

Regarding Mr. Ian Smith, I believe it would be wonderful if you would send him a copy of the book and get him to read it. It seems overwhelmingly obvious to me that history has repeatedly proven that the policy of promoting the "advancement" of blacks in the midst of White people is blatantly suicidal. That is one of the obvious messages in the book. If Mr. Smith could be persuaded to see that, even partially, I believe it would be a positive gain for the White Race. If he will read it, I am sure that it will have some influence, since good logical ideas always have had an influence on thinking men.

I don't see where sending a book would hurt your relationship, since Mr. Smith would undoubtedly realize that your intentions in so doing are constructive. However you are the best judge of that.

Seeing as how the pressure on Mr. Smith is continually from the left, i.e., to liberalize his racial policies, I would think that some ideas from the White Mans point of view would be welcomed.

I appreciate your sending me the names of the people to whom you have distributed the book. I am keeping track (as much as possible) of the people who have my book, as a future nucleus for organization. Therefore, carry on the good work.

Best regards,
B. Klassen

Mrs. Phyllis Kavich **18 June 1973**
Oakland, California

Dear Mrs. Kavich:

Thank you for your letter June 12, in which you express your comments on my book. I always appreciate hearing from my readers, whether they agree or disagree. Fortunately about 90 percent of the letters have been favorable, many of them highly enthusiastic.

For 50 years, Mrs. Kavich, I was as confused about Christianity as you are today, trying to reconcile all the obvious absurdities, contradictions and dirty stories. After much soul searching, I finally achieved a breakthrough. Now the picture is as clear as day to me,

and I wonder how I could have been so stupid for so long. As to how it happened, please read the chapter "My Own Spiritual Awakening" in Book II of NATURE'S ETERNAL RELIGION.

Mrs. Kavich, everyone has a right to believe whatever they want to, and also a right to reject that which does not make sense to them. To me and millions of other intelligent White people, Christianity is a superstitious holdover from the Dark Ages, written by ignorant and superstitious desert tribes who did not even know the earth was round. To us, it represents a repugnant insult to our intelligence and an abominable affront to the Laws of Nature. In my book, I spend 508 pages piling up evidence upon evidence to substantiate this position, evidence that nobody can refute. Being unable to refute the evidence, most of my critics resort instead to the lowest form of argument — name calling.

It saddens me to say this, Mrs. Kavich, but unfortunately you exemplify the very essence of the problem the White Race finds itself in today, and why it cannot extricate itself from this catastrophic dilemma.

The Jews have so imbued the White Man's brains with such idiotic and suicidal ideas as "love your enemies", "turn the other cheek", "sell all thou hast and give it to the poor", "judge not", "resist not evil", etc., that all the basic weapons needed to wage the battle for survival are struck from out of our hands before we even start. Please re-read Chapter 13, Book I.

Regarding the Old Testament — let me ask you, Mrs. Kavich, how in the world can you regard as sacred such a bunch of dirty stories as Abraham and Sarah, and their offspring, Isaac and his wife Rebecca, pimping and whoring for a living; Judah fornicating with his daughter-in-law; Lot fornicating with his daughters; David gathering 200 foreskins from slain Philistines to please Saul (I Samuel 18:27), and dozens of other downright lewd, filthy stories. How ugly, how repulsive, are these so-called "men of God"! Now, I take no delight in re-hashing these dirty stories but they are in the Jewish bible. So may I ask you, Mrs. Kavich, how in the name of sanity can you hold such filthy trash as being sacred? Please re-read Chapter 10, Book I again, for the rest of what is in the Old Testament that I find vile, stupid, reprehensible and ugly.

Let me further ask you, Mrs. Kavich — when you look at the Grand Canyon, something your brain tells you took millions of years to erode, how can you believe these ignorant superstitious Jewish scriptwriters that tell you the world is only 6 thousand years old? When you read Egyptian history which goes back over 5 thousand years with unbroken continuity, can you really believe such nonsense as the whole world was flooded in the year 2348 B.C. and only one family survived? How ridiculous!

If the bible said two and two makes seventeen, and your common sense told you it made four, which would you believe?

When you contemplate the boundless magnitude of the universe in which our earth is only a tiny speck revolving around the sun, which is only one star out of millions in our own Milky Way constellation, and we find that in the vastness of space there are billions of other constellations, some of them billions of light years away; considering such background, can you rationally believe such nonsense as Joshua successfully commanding the sun to stand still so he could kill more desert tribesmen that day? How idiotic! It seems that one would have to take leave of his senses to give credit to such bilgewater. When we have such a mass of knowledge available to us we should know better. Do you really believe the Jews marched through the bottom of the Red Sea, just because these lying scoundrels put such nonsense in print? How naive and gullible can you get? Please read again Chapter 12, Book I.

I could of course go on for pages, piling evidence upon evidence as to what a filthy pornographic book the Jewish bible is, and how ridiculous it is for the White Race to be obsessed with fear and trembling by this silly Jewish collection, but I have already compiled a book to that effect, and you have it available, so why should I repeat myself.

Let me repeat this however: until we overcome this Jewish piece of brain manipulation, we will never be able to rally the White Race to fight for its survival. It is the purpose of our movement to expose this foul Jewish chicanery and polarize the White Race around those sound principles with which Nature has endowed us in our very instincts, just as she has her every other creature.

This is what the Church of the Creator is all about.

I am hopeful that you will re-read the book and see the light. Furthermore, I hope that you will then spread the word and enlighten other White brothers and sisters until we, the great White Race, united and organized, will like a huge powerful giant, fight for our survival and again become masters of our own destiny. That will be a great day — and I am confident that we shall achieve it.

Sincerely yours,
B. Klassen

Mr. Walter White, Jr. **July 6, 1973**
Los Angeles, California

Dear Mr. White:

Thank you for your letter of July 1.

I am not going to take too much space to answer, since the arguments are the usual hackworn exhortations and rhetoric im—

ploring an intelligent person to throw overboard all the overwhelming evidence around him, to abandon his reason and just simply "believe" that which a passel of ignorant and malicious Jewish scriptwriters tell you to believe. I am therefore just enclosing a routine copy of a letter I sent to a lady in California.

I will, however answer the few specifics you bring up.

1. You say you cannot read my book. Strange, after being capable (and willing) of reading so much Jewish trash you cannot read this book. Could it be that facing truth and evidence is too painful?

2. In answer to your question—from whence did "nature" spring—the plain simple answer is we don't know how it all started—(if there ever was a "start")—least of all those superstitious Jewish scriptwriters of over 2000 years ago who wrote your "Holy" bible. These desert tribesmen were so ignorant they didn't even know the world was round, and you want to take their word for it that they encompassed all knowledge and we have learned nothing since?

3. Now in answer to the old trick question. "Somebody had to make it all and that somebody was God". The question then immediately arises "Who made God in the first place?" The stock answer to that then reverses this logic and the Christians answer "Well, God always existed." If such a "God" whom we have never seen, could always have existed, then it is more logical to presume that the universe which we do see and is all about us, could have always existed. So it goes around and around. But the plain simple honest answer is: We don't know how it all started, or if there ever was a start. Certainly all the evidence points to the fact that the universe has been around for billions and billions of years, not just the 6000 years as portrayed by the ignorant Jewish scriptwriters of your "holy" bible.

For further details on this question see the Chapter in my book "A Closer Look at the Judeo-Christian Hoax", especially pp. 196 - 197. Also see bottom of p. 141.

4. Regarding your claim "Christ was not a Jew". Your own Jewish "holy" bible refutes this in the first chapter of the New Testament, Matt. 1:1. Also Luke 2:21 says he was a circumcised Jew. See Pt. 25, p. 427 of my book for further details. Your tract about the rooster and the egg is about as silly as any I have read. Aren't you obviously ignoring the fact that the hen's genes are also in the egg?

5. Your claims that the Jews did not invent Christianity is so overwhelmingly refuted by the evidence of history that I am not going to take space here. Just read again pp. 144 and 145 of my book dealing with the New Testament.

Your seemingly hostile attitude towards the Jews and at the same time your avid promotion of Christianity, can lead me only to one conclusion. Those conclusions are spelled out in Chapter 17 in

the second half of my book, entitled “False Leadership.”

Sincerely yours,
B. Klassen

Mr. E. S. Cooke **July 7, 1973**
La Jolla, California

Dear Mr. Cooke:

Thank you for your most interesting letter and also the photo.

Mr. Cooke, I am sure that you are a most intelligent man. Since you say you are in electronics and since I graduated in electronic engineering (a long time ago) we have quite a bit in common. Since we both have studied science, electricity, etc., I am sure that you are well aware that what we were studying was the Laws of Nature. In order to unravel and understand such laws (a) we start out with evidence (b) we use reason and logic to bear on the evidence, (c) we learn to distinguish between unsubstantiated claims and hearsay vs. substantiated evidence.

Now the entire source of the Christian claims come from the same unsubstantiated set of claims as set forth by the Jewish script-writers in the Jewish bible that you use as the source of all your information. These claims are totally unsubstantiated and as phoney as the “photograph” of Christ you sent me. Nobody has the foggiest idea of what he looked like and the “photo” you sent is only some artists imaginary version painted a thousand years after the supposed “fact”. It is like the story of the man with the phoney $10,000.00 check (see p. 445.) There is no evidence that Christ even lived at all. See Chapter 16, p. 180.

For further discussion of the above, I am enclosing a copy of a routine letter I sent to a lady in California.

Please, Mr. Cooke, look at the evidence around you — then, please — use the intelligence and reasoning powers with which Nature so amply endowed you.

Sincerely yours,
B. Klassen

Mr. Millard F. Cornwell **July 7, 1973**
Wilmington, Delaware

Dear Mr. Cornwell:

Thank you for your letter of June 26.

Yes, a lot of the members of the White Race are sorely confused about Christianity. Straightening out their thinking is what a large part of my book is all about. I prefer to use the term “brain pollution” rather than “brainwashed”, as I explain in the book.

Your mention of Hugh Monjar and the "Decimal Club" sounds interesting. I had never heard of either. But it spurs the idea I have been kicking around without having found a solution, and that is, we have to find some system whereby it is profitable and self-sustaining for an activist member of our organization in spreading the gospel. Somehow this could be tied to the sale of books, or some other supplementary means. Any ideas?

Will be glad to meet with your son-in-law. You say, help him if I can. What is the problem?

How are you coming along on the distribution of books?

Sincerely yours,
B. Klassen

Mr. C. M. Hampson
Winter Park, Florida

July 7, 1973

Dear Mr. Hampson:

Thank you for your letter of June 28.

I thoroughly agree with the premise of your letter, namely, that we need more books to expand the field of that which is covered in NATURE'S ETERNAL RELIGION. In fact, it opens up an entirely new world, a new dimension, and the books that could be written to amplify the creed are endless — witness the tens of thousands of books that have been written to supplement and amplify the Christian religion.

Practically each one of the chapters in my book, not only could, but should, be expanded into a full book. Many such as the history of the White Race, of the Jews, etc., could accommodate several books.

What I studiously tried to avoid is to make the book too lengthy, yet cover the territory and at the same time formulate a hard-core creed and program. As to whether or not I succeeded, every reader will have to judge for themselves.

My purpose was not so much to write another book as to found and get moving a new creed for the survival, expansion and advancement of the White Race. This we have sorely needed for the last 6000 years of our history.

In view of the above, I would definitely say: go ahead and proceed on your book.

I myself have another three or four books in mind that I am working on.

The other bit of advice I would like to transmit is that we need to dwell more on the solution, on positive programs rather than reams of details bewailing and deploring our lamentable situation. What we need more of is inspiration, the Glenn Turner type of motivation: "You can do it! Go! Go! Go!"

Too many of the books that are fed to the White Man are completely sterile — long on endless recitation of past catastrophies and completely devoid of any program, or any hope, or any constructive advice.

My friend and I might be up in Orlando shortly. I would like the privilege of meeting with you at such time. Likewise, if you are down here, please call me for a get-together.

Sincerely yours,
B. Klassen

Segment 10

Mr. Harold A. Covington
Arlington, Virginia

July 23, 1973

Dear Mr. Covington:

Thank you for your letter of July 12, in which you state the position of the National Socialist White People's Party on Christianity.

I am quite familiar with "Mein Kampf", having read it in the original German back in 1938 and re-read it several times in the English version since then. I have also read George Lincoln Rockwell's "White Power" in which Rockwell states on page 176 — that the Nazi philosophy also now most "hated" "despised" and "feared" "as Christianity once was" will likewise grow. In the footnote starting at the bottom of page 77 and continuing to the top of page 78 he says, "Technically, I am thus a pro-Christian Agnostic", etc.

Whereas I have openly stated in my book "Nature's Eternal Religion" that Adolf Hitler was the greatest White Man that ever lived, and whereas I deem Rockwell's book as an outstanding contribution to our cause, I cannot help but come to the conclusion that both their positions on Christianity were weak, naive, contradictory, pusillanimous, and in fact, ridiculous.

In your letter you further amplify and state your position as, "it's very simple — we have none". Mr. Covington, I do not think it's that simple at all — it's absurd, incompatible and untenable. It's as ridiculous as the Birch Society saying "we are gung-ho in our fight against Communism, but we take no racial stand against the Jews and the niggers".

When you say you take no stand, you are, of course, taking a stand and saying that it is (a) not an important factor in the fight for the survival of the White Race (b) in any case, it is not prejudicial to such a struggle. As I have shown overwhelmingly in my book, Christianity was by far the most important breakthrough the Jews made in their age-old campaign to destroy the White Race. When they perverted the Roman civilization with the Jewish-Christianity philosophy, they converted the strong, virile, heroic, aggressive conquering Roman soldier into a cowering, whimpering milksop. They robbed the Roman people of their healthy natural instincts and polluted their minds with a self-destructive philosophy that left them helpless and naked before their enemies. Whereas the Roman "Pagan" had built the greatest civilization known to mankind at that point in history, the Roman "Christian" pulled down that beautiful

civilization in shambles and plunged the White Race into a thousand years of the Dark Ages.

From this mortal blow we have never recovered, and the Jew, through Christianity has fastened his tentacles on the White Race in an iron grip from which we have been unable to extricate ourselves to this day.

For you to come along now and say that (a) yes, we are fighting the Jew, hammer and tongs, and (b) no, we don't take a stand on Christianity because it is irrelevant, is about as silly as the Birch Society saying we're gung-ho on fighting Communism but we won't touch the racial issue because it would tear our organization apart.

Now I realize that like the John Birch Society, as soon as you make a switch in policy, you would lose some of the little old ladies in tennis shoes who are kicking in some of the bread, and undoubtedly some bible-thumping old codgers who are doing the same. So, like the John Birch Society, you are locked in with the status quo.

So the question arises, what the hell is it you are trying to accomplish? Promote a phoney cause and retain a position you, yourself, don't believe in, or are you trying to make an honest, all-out effort to save the White Race? After all, if it's only money you are interested in, why I'm sure you fellows could go out individually and make a better income than keeping those donations coming in from the old ladies and old codgers.

You know and I know that as long as we refuse to face the issue that pulled down the White Race in the first place, namely, Christianity, we are never going to get a racial ideology established, and the blacks, and the mud people are going to take over the world.

So why not get down to earth and down to brass tacks?

I would very much like to hear further from you and also from Cdr. Koehl as to what your thoughts are on this key issue.

Sincerely yours,
B. Klassen

Cdr. Matt Koehl
National Socialist White People's Party
Arlington, Virginia

September 18, 1973

Dear Cdr. Koehl:

Since I was puzzled regarding the N.S.W.P.P. stand on Christianity, I appreciate your recent letter in which you answer my previous letter to Harold A. Covington, which originally raised this question.

After reading your letter, however, I am still as puzzled as ever as to how you can presumably reconcile your strong advocacy of White Supremacy and condone (by tolerating and by avoiding the

issue) such a huge set of powerful institutions as Christianity has built. Since these institutions in this country alone control over 100 billion dollars of assets; are tax-free; rake in billions each year from gullible White people, to dispense on the promotion of inferior coloreds at home and abroad; shape and distort the minds of our White comrades to be humble, to turn the other cheek, to love our enemies, to worship the Jew, to believe the Jews are God's chosen; have close to 100 million White supporters in this country alone; and in various other ways work fervently and relentlessly for the mongrelization of the White Race, busing, and race mixing, I ask you — how can you ignore such a fundamental threat to the White Race and still claim to be championing the cause of our race? It seems to me that such a stand is nothing but sheer double-talk.

You say that Adolph Hitler and George Lincoln Rockwell have the formula for the salvation of the White Race. Whereas I admire both these men as heroes of the White Race, there is a serious flaw in equating the situation of Germany in the 1920's with the U.S.A. in the 1970's. As I have pointed out in Chapter 5 of my book, "Nature's Eternal Religion", the situations are entirely different, and the Nazi creed of that day is not transferable in toto to America today. Since I have reviewed those reasons in my book I am not going to repeat them here. Furthermore, even Hitler's program was based on German Supremacy, not White Supremacy, and is totally inapplicable to America and the world as a whole. I, therefore, reject Nationalism per se and replace it with Racial Socialism based on the White Race. I challenge you to defend your stand of Nationalism, which is a key word in National Socialism.

The best proof of what I am saying about National Socialism not being the answer to America's (and the world's) problem is that in all the years your party has been at it, it has not made the slightest dent or appeal on the American mind. If I were to ask the question: has it (a) done more for the A.D.L. and the Jews to rally the Jews and raise subscriptions and money for the Jewish cause, or (b) helped unite and organize the White people of America; I would have to guess that for every dollar that has been raised by the Nazi party, the Jews have raised perhaps a hundred-fold or a thousand-fold for their own cause BECAUSE of the Nazi party. And I suspect that is why they have given such wide and exaggerated publicity to the activities of such a small group. This raises a host of other questions, the implications of which are significant.

Without belaboring the question further, it is my conclusion that (a) you cannot pursue an ideology of White racial supremacy without coming to grips with Christianity (b) Christianity is in direct conflict and incompatible with such ideology (c) Christianity is an insidious

means of subverting and confusing the White mind into docile submission (d) Christianity, unless met head-on and exposed for the Jewish fraud it is, will always have the upperhand in cutting the moral grounds out from under any White Supremist party, movement or religion.

I believe my conclusions are not only realistic, but make a great deal of sense. I would therefore like to suggest (that if you really are more interested in the survival of the White Race than some theoretical dogmatic position) that whereas you keep your party organization intact per se, you at the same time promote CREATIVITY as the official religion of the party members.

This is an easily explainable position to take. Whereas every man should have a religious conviction, it will fill a void that the National Socialist party has glaringly left unfulfilled in the past. As this transition is made the emphasis then can gradually shift to the dogma and creed of the CHURCH OF THE CREATOR, which is the much more fundamental and far-reaching creed and program for all time to come.

I urge this program, not because I wrote the book, but because logic and common sense tells me that this is by far the more sane and sound course to take — if the survival of the White Race is uppermost in your mind.

Sincerely yours,
B. Klassen

Mr. Millard F. Cornwell
Wilmington, Delaware

July 26, 1973

Dear Mr. Cornwell:

This is in answer to the last letters I have received from you. I appreciate your keeping me informed on the names of the parties to whom the books have been directed.

“The Divine Plan of the Ages”, however, served no purpose and, like you, I have no intention of wading through it.

Regarding your letter of July 11, I find the story about Hugh Monjar highly interesting. The key to the success of the organization evidently was LOYALTY and UNITY. In my religion I am stressing Racial Loyalty and uniting the White Race against all others. I don’t think that secrecy is necessary, nor is it possible, In fact we want a mass movement and have nothing to hide.

I disagree with your suggestion of doing away with the concept of “Church” or religion in our organization. There might be a lot of them, but these are mostly all doing pretty well, my friend. A church

down the road on Federal Highway in Fort Lauderdale that started from scratch only ten years ago, are now building a six million dollar edifice. This they are doing with nothing to offer but fraud. Billy James Hogbody is doing very well with his "Christian Nationalist" movement. Carl McIntyre has more than a thousand radio stations going, and recently latched on to twenty-five million dollars worth of prime real estate at Cape Canaveral.

Garner Ted Armstrong takes in forty million a year selling "Revelations". Oral Roberts takes in the green stuff by the truckload. And it's all tax-free, my friend.

There may be a lot of them, but they are doing mighty well — with nothing to sell but a hoax. We too can do it — especially when we have the most vital cause in the world to promote — namely the survival of the White Race. And we will do it.

By the way, it may interest you that I am incorporating the CHURCH OF THE CREATOR at this time as a non-profit, religious organization.

Regarding our insignia, everybody has their own particular idea — like their own preference in clothes, food, etc. I am quite happy with the way it is. It looks striking — like the Nazi insignia, with the same color scheme, and it is loaded with meaning. As for doing away with black, what the heck, everything that is in print is in black.

Mr. Layton from Dover, sent me a clipping of an attack on my book in the Delaware State News by a Jew named Ihlenfeldt. Enclosed is a copy of my answer to him. Perhaps you would like to join in the melee? Anyway, controversy attracts attention, and I believe this is all to our advantage.

Sincerely yours,
B. Klassen

He Leads White Man's Fight for Survival

To the Editor:

Today I received a belated clipping of a letter by a certain Walter Ihlenfeldt published in your paper July 13th. In this letter the writer launches a wild attack on my book "NATURE'S ETERNAL RELIGION", which is the basic creed of the CHURCH OF THE CREATOR. He also irrationally blasts away at the White Race as a whole, and at me personally.

Since I haven't the foggiest idea who this fellow Ihlenfeldt is, and have never met him, I am somewhat baffled at his unwarranted onslaught. I don't have the faintest notion whether Mr Ihlenfeldt is White, Black, Brown or Semite. If he is White, then it would seem

that he harbors a pathological hatred for his own race, and in fact, is a traitor to it, and we don't want any part of him. If he is not White, then his objectives are easily discernible.

The late and unlamented Congressman Adam Clayton Powell sneered, "We've got Whitey on the run. Let's keep him running". Well, I've got news for Powell, Ihlenfeldt and Co. The White Man is turning on his heel and running no more. The White Man is going to fight for his survival and the CHURCH OF THE CREATOR means to not only lead that fight, but has furnished the basic creed and program to win that fight. That is what "NATURE'S ETERNAL RELIGION" is all about. United and organized, the White Race is ten times more powerful than the rest of the colored races combined.

Whereas Mr. Ihlenfeldt contends that the White Race is the most destructive of all the world's creatures, we of the CHURCH OF THE CREATOR contend that the White Race is the most creative, intelligent and productive creature Nature has ever produced. We are most proud to be Nature's Crowning Glory. Furthermore, we are determined to exercise the highest right Nature bestows on any and all of its creatures — namely the right to survive, to expand and advance our own kind.

Whereas, the Blacks have their NAACP, the Jews have their B'nai B'rith and a thousand other organizations to promote the exclusive interests of their race, strangely, when the White Race speaks for itself, it is viciously attacked. In fact, our government, our newsmedia, and the power establishment of this country are pro-Jewish, pro-Black and anti-White, despite the fact that the White Gentiles built this country, are still a majority, (though decreasing), and pay the overwhelming bulk of the taxes. In fact, every government, tax-and-aid program is so designed as to shrink the Whites, expand the Blacks.

Since I don't have the space here to refute Mr. Ihlenfeldt's tawdry tirade, I will do better: To anyone interested in what the CHURCH OF THE CREATOR stands for, we will, for the next fifteen days, send a free copy of my 508 page book, "NATURE'S ETERNAL RELIGION". Dear Doug:

First of all I want to express my appreciation of your recent visit

and let you know that I greatly enjoyed our exchange of ideas.

1. On further reflecting on our discussions, I am somewhat alarmed at your toying with the idea of supporting the "Identity" hoax. I believe this would be a grave mistake, and for the following reasons:

   (a) You know, and I know, that it is a hoax and a lie, with no foundation on evidence whatsoever.

   (b) Not only is there no evidence, but it is not even a plausible lie.

   (c) If you are going to advance this hoax, then you are obligated to support it with all the rest of the Judeo-Christian fraud, leading you (and your misguided followers) right back to the mind warping insanity that brought down the Roman nation in the first place.

   (d) Once you have embarked on this treacherous path, the creed of race "blood, soil, and honor", is completely out the window.

   (e) Finally, how can you ever hope to straighten out the White Man's thinking if you are offering nothing but another pack of deceptive lies that will make our people wish they were the "true Israelites" and vie for the position now held by the Jews?

Doug, I believe this is another one of those Jewish tricks that comes under the heading of "You're doing great, but we have a better idea", and then they neatly sidetrack you into a dead-end street.

2. Going to another subject, as you probably recall, I have several other books in mind that I want to write, or believe somebody else should write. One of these I had in mind as being entitled, "LOADED AGAINST THE WHITE RACE". In this, I planned to show how practically all our laws, and most of the ideas being promoted by our Jewish-controlled establishment are designed to expand the blacks and shrink the White Race. In this category we can cite hundreds of laws, programs, ideas and issues — all the way from welfare, integration, school busing, aid to dependent children, to the idea of population zero.

Since your visit the idea crossed my mind that you would undoubtedly be in a better position to write such a book, having more documentation and material at your fingertips. Anyway, it was not my next project on the list, and it might be sometime before I could get around to it. I would like to see you write such a book. How about it?

3. I believe you mentioned that you were sending out a summer mailing to a select list which would encompass perhaps five books, including mine. How is this project coming along?

Please let me hear from you on these and other issues that have come up since our last meeting.

Sincerely yours,
B. Klassen

Mrs. John Franciscus **August 9, 1973**
San Juan, Puerto Rico

Dear Verena -

I was most happy to receive your good letter, and excited about the "blessed event" that probably already has taken place by the time you receive this letter. Why, that will make us "grandparents"! We will be anxious to know whether it is a boy or a girl.

I am batching right now., Mrs. K. is visiting her mother in California. Kim and Walt are on their way here now, and Walt will join me in my real estate business. He has finally gotten his separation from the Air Force, and they are taking a cross-country tour in their Volkswagon van from Sacramento to Florida.

We have made a down payment on a home for them that is being built in Coral Springs, about ten miles west of us. However, it probably won't be ready until the end of the year.

I was happy to hear that your mother was so well impressed with my book and hope to hear further from her. We have great expectations from this movement. Whereas most books give you only the superficial part of the problem and no solution, this book goes all the way to the root of the problem and then presents a dynamic solution that is not only sensible, realistic and possible, but inescapable.

In any event, I am happy that you and John have become politically and racially aware of the conspiracy that is threatening to destroy the White Race. I hope that you will not only read the book, but study it repeatedly and distribute it to your many contacts. I mailed the four books to you on July 31st, surface mail, since air mail is so high. You should probably have them by now. If you would like to send the Church $10.00 in return, we would appreciate it. Whereas we give away a large number for free, we have to have money coming back so that we can keep distributing further copies.

The books come in cartons of 32. If, after reading the book, you would like to have us ship you a carton of 32 books, we can do so at a cost of $40.00, shipping charges included.

Getting back to the family, I expect Kim and Walt to arrive here about the 15th, and about a week later I expect to take off for Colorado and meet Mrs. K. there. We have a 155 acre ranch there and plan to build a mountain cabin near Ouray, Colorado, a most scenic area, rivalling anything I have seen in Switzerland. In fact Ouray

is called “the Switzerland of America”.

Then the latter part of September and the first half of October we plan to take a tour to Greece, also including Vienna, Belgrade, Yugoslavia, Turkey and a boat tour of the Ionian islands. Well that is all for now. We will be most anxious to hear from you. We also are most anxious to meet John and hope to have both of you (three of you!) visit us in the not too distant future.

Love,
Your “Dad”

EXPLAN.: *In 1967 my wife, daughter Kim (16) and I took a tour through Europe. The tour guide was Verena’s mother, and Verena was also on the tour. She and Kim became close friends, and she began to call me “Dad”.*

Miss B. von Goetz August 9, 1973

Dear Miss von Goetz:

Thank you for your recent letter, and also the “The Misery of Christianity”.

I read the first part of the book, but began to lose interest when Joachim Kahl, who, I’m sure, is a Jew, went into a long tawdry tirade about how anti-Semitic the Bible is. Frankly, I couldn’t care less about this subject, which seems to be the favorite obsession of all Jews in general. I am herewith returning your book.

I am enclosing a book called “SUPERIOR MEN”, which you may keep. I hope you find it interesting.

Sincerely yours,

Mr. Martin Millard **September 20, 1973**
Santa Monica, California

Dear Mr. Millard:

Thank you for your most encouraging letter. I will, of course be most interested in hearing your most valuable comments on the book when you next write.

We have just recently incorporated the Church of the Creator and now have a charter as a non-profit religious organization.

I would most definitely like to encourage you to go ahead and establish a Church of the Creator in your area. The procedure would be very similar to starting any other church, which basically consists of gathering supporters, establishing a meeting place and a regular time for meetings, and from there on out recruiting and expanding. As far as the activities of such a group is concerned, they would of course consist in general in promoting the best interests of the White Race. In other words, we would be fighting for the survival, expansion and advancement of the White Race.

In general I believe the program is pretty well set forth in the second last chapter of the book, namely, "Road to Greatness", and there is very little that I need add to it at this time.

The best way to get going, is to get started, and work out the problems from there. I repeat, all you have to do is look at other churches as to the promotion and programs they utilize in order to gain support and membership. If they can grow and prosper utilizing the sleazy product that they do, certainly we can do better by offering the White Race a genuine program for survival. We not only can, but we will.

Ms. Marie Fredrick, Curator **September 21, 1973**
Cortez, Colorado

Dear Ms. Fredrick:

Thank you for your letter of August 28th, regarding the question as to whether or not the Indians of North America had invented the art of weaving cloth or rugs before the White Man came.

I appreciate the trouble you have gone to, but my own independent research of this question disagrees with the unnamed archeologist you evidently talked to. Despite his enthusiastic "My, yes!",

the facts of history are that the Indians didn't know a thing about weaving, warp and woof, or the loom, until the White Man came along and taught him. He had no wool, silk or cotton. Although the White Man in Egypt had already invented the art of weaving over five thousand years ago, the Indians were totally ignorant of it and never so much as even invented the wheel.

Any Indians that have been found buried in the Mesa Verde in blankets were of a later date, and were buried in blankets made by the Spaniards.

In summation, I am getting somewhat tired of the Indians being glorified and heaped with all kinds of undue credits that they never earned and do not deserve. The man who wrote those pages you enclosed is a prime example. He is just out and out lying in order to glorify the Indian and make him look good. Whereas, the White Man, who has accomplished a thousand times more, is continually maligned and downgraded, the parasites and the freeloaders, it seems are being praised and credited where no credit is due.

I am enclosing a copy of a letter to Mr. Cal Beaber which touches on the same subject, and, I believe will elaborate further on this strange and suicidal attitude of glorifying the inferior and downgrading the White Race.

Sincerely yours,
CHURCH OF THE CREATOR

Mr. Cal Beaber
c/o Beaber Printing Company
Cortez, Colorado

September 18, 1973

Dear Mr. Beaber:

A few weeks ago when visiting your fair city of Cortez, I had the privilege one evening of viewing your slide show given outdoors behind the Chamber of Commerce Building. I thought that your presentation was very interesting, well done and sprinkled with a fine touch of humor throughout.

There was one aspect, however that puzzled me, in fact, perturbed me, and that was your obsession of repeatedly glorifying the Indian and downgrading the White Man. It seems that interwoven surreptiously throughout your presentation was the message that everything the Indian did was wonderful, and everything the White man had done (or was doing) was wrong. In fact, according to your view, we should apologize and beg forgiveness for being here at all, since the land belonged to the Indian and we were larcenous trespassers who had stolen this land from these wonderful savages. To hear you tell it, the Indians' rug-weaving, his so-called turquoise

jewelry, etc., were out of this world, and it was even an honor for you to wear the symbolical black hat of the Indians.

Now I don't know whether you have any Indian blood in you at all, but I'm sure if so, you were predominantly of White racial stock, it seemed to me. I am therefore puzzled why your loyalty should be overwhelmingly towards the Indian, whose accomplishments compared to the White Man are so vastly inferior that there is hardly any comparison.

Let me remind you that the highly touted "Noble Savage" was, before the advent of the White Man, a lot more savage than he was noble. He still is today. Innately, the average Indian, minus any White blood, is lazy, stupid, shiftless, dirty and obese. He is fat, obese and overfed not because he is so capable of providing food for himself, but primarily because of the White Man's productivity and perverted sense of generosity. He is addicted to alcohol, a non-productive parasite on the White Man's society, and, like the niggers in this country, should they multiply and expand and the White Race shrink into a minority, this great country that the White Man and the White Man alone has built would fall into savagery and rack and ruin in short order.

The Indians (and the niggers) have contributed less than nothing to our society and our civilization. Even those highly (and overrated) crafts falsely credited to the Indian, namely Navajo rugs and turquoise and silver jewelry, are not Indian at all. The Indian knew nothing about weaving until the White Man taught him the art, and the same thing with "Indian" jewelry. Even today these two highly overrated and oversold items would never reach the market at all, if the White Man was not in charge of designing, financing, promoting, advertising, distributing and supervising what little part the uncreative Indian plays in the whole setup.

Nor am I obsessed with any guilt complex that we "stole" this land from the Indians. We conquered and overcame the vastly inferior Indian, a normal process of history that has determined the ownership of all the good lands of this earth from the beginning of time. If you have studied the history of the Indians themselves, (and I am sure you have) you will find that the Indians carried on continuous warfare among themselves, killed and scalped each other and the territory was occupied by the victor. I say "territory" because the Indians were a migratory bunch who never "owned" or had title to any land as such in any civilized sense, any more than the buffalo who roamed over it "owned" the land. I therefore reject your implication that the White Man is a usurper on the Indian's land, and your glee at the Indian's "success" of collecting undeserved millions in our law courts, at the expense of the White taxpayer.

Let me point out that these "compensations" given to the Indians are a farce and a fraud perpetrated upon the White Man.

How is this possible in a country supposedly dominated by the White Man? Strangely, and contrary to the average White American's distorted assumption, this country is no longer in the control of the creative and productive White Race who built America. Our government, our news media, and the power establishment that controls the country is blatantly pro-Jewish, pro-black, and anti-White, with an organized, united Jewry calling the shots. The insane program that we are caught up in is to expand the blacks, the Indians, and all other mud people, and either shrink, mongrelize, or exterminate the creative and productive White Race that built America, the greatest country in all history.

I therefore resent you aiding and abetting this program of destroying the White Race. If it's so wonderful for the blacks to be loyal to their race, the Jews to theirs, and the Indians to their race, why should the White Man play traitor to his race? I believe in racial loyalty and I am rightfully proud of my race and my loyalty to it. To what race do you pledge your loyalty?

Let me further ask you, would you really like to see the great White civilization here in America destroyed and revert back to the crude savagery of the Indians? If not, why repeatedly glorify the fat, stupid, shiftless and parasitic Indian at the expense of the White Race?

Sincerely yours,
B. Klassen

Mayor Orville Hubbard
Dearborn, Michigan

October 16, 1973

Dear Mayor Hubbard:

On a recent trip to Europe, I happened to be traveling with some residents of your fair city. In talking with them, I learned that the city of Dearborn has been successful in excluding Blacks from its city limits for all these years, and has been successful in winning all lawsuits challenging this action.

I also understand that you have a commendable record of being Mayor of the city of Dearborn for the last thirty-eight years. I find this all very encouraging and commend you for your courageous stand. I would be happy to meet with you some time and discuss the implications of the racial problem further with you.

In the meantime, I have written a highly controversial book on this subject, and I have taken the liberty of mailing one to you for your appraisal. I would be happy to hear from you after you have

had a chance to read the book and get the benefit of your ideas and comments.

Sincerely yours,

Mr. L. C. C. Liebenberg
Pretoria, South Africa

October 25, 1973

Dear Mr. Liebenberg:

Thank you for your most interesting letter of October 15th, in which you give a graphic picture of present day South Africa. Much as I suspected, Africa is not the hard core racist nation that is portrayed to the world. As I gathered from your letter, it, too has a press, a government, and a financial establishment all dominated by our arch-enemy, the Jews.

I don't particularly worry whether the Jews have any designs on me or not. In this respect I take the philosophy of Horatius at the Bridge. How can any man devote his life to a better cause than to the cause of our great troubled race? Furthermore, I feel it is negative to keep talking about what the Jews might, or might not, do to us, personally. Instead we should be talking about what we are going to do to them, and talk about constructive plans for the extension of our own program and philosophy. A soldier going into battle does not keep re-hashing all the dangers of battle, but concentrates on victory.

As I told you in the previous letter, we mailed five books to you last month. We have mailed another six books to you today and hope you will receive them. Your letter does not specifically say that you have received the previous five books but we presume that you have. I would appreciate confirmation of both sets.

In the meantime, I would appreciate hearing from you further about your own background and what the activities of the Educational Book Club are. I appreciate your suggestion of sending me some copies of the South African Observer and would be indeed interested in receiving them.

Sincerely yours,
B. Klassen

Mr. Frank H. Niles
St. Paul, Minnesota

November 6, 1973

Dear Mr. Niles:

Again, many thanks for your fine letter of October 25th. Also thank you for your money order in the amount of $32.00, received. We have shipped to you a carton of thirty-two books on October 31st.

I believe your idea of promoting them is very good.

I am glad to hear that you are thinking of forming a local church group and that you have four good men to start with. In so doing, just proceed on this course as outlined in the chapter, "The Road to Greatness". I don't think that there is any great secret in forming a new church. It is pretty well a standard procedure that the Christian churches have been following for years. It is a matter of promoting, speaking, of holding meetings, and of spreading the word. When you think of how much more valuable and important a cause we have to pursue than that of our competition, then I believe we just can't get started too soon.

Regarding Fred Farrel: I have met this man a few years back, and I am sorry to say that I was not very well impressed with him. I have also read some of his writings in "COMMON SENSE", especially those dealing with Russia. It is my considered opinion that he is completely confusing a lot of fine people with the same line of nonsense that the Jews themselves are putting forth, namely that Russia is persecuting the Jews. This is purely for the consumption of the goyim. The facts themselves speak loudly that the Jews in the United States are collaborating 100 per cent with the Jews in Russia, who are collaborating 100 per cent with the Jews in Israel. That's why the Arabs are continuously and forever losing despite their overwhelmingly superiority in numbers.

This line of hokum is part of their "phoney fight technique" described on page 420, and also "the policy of reversal" described on page 423. After all the books that you and I have read you know and I know that the Jews engineered the revolution in Russia and killed off twenty million of the best White Russians there. There has been no period in the last fifty-seven years since then, that there has been any reversal in the power structure there. The Jews grabbed the power in 1917 and they have kept it ever since. You can be sure that should they have lost it, at any time during the ensuing period, the Jews in control in the United States would immediately not only turn their propaganda guns against Russia, but would cut off all aid to Russia immediately and also would, turn their military guns on Russia. In this respect, without repeating myself, I would suggest that you read "The Red Terror in Russia" on page 96 of my book.

As far as Fred Farrel is concerned, I have heard him accused of being a Jew by several people. It is my opinion that he deliberately helped scuttle "COMMON SENSE".

Again many thanks for your letter and also your order. May your small little group grow to where it will be a force to be reckoned with.

Best Wishes,

Sincerely yours,

B. Klassen

Mrs. E. Christensen
The Odinist Movement
Toronto, Canada

November 5, 1973

Dear Mrs. Christensen:

Thank you for your kind letter of October 5th. I hope that by now you have finished reading "NATURE'S ETERNAL RELIGION" and that you have come to some cogent conclusions about it. I would be most interested in hearing what your conclusions are. I hope that they will have a far-reaching influence on your thinking in regards to religion and, in fact, your philosophy of life itself.

Thank you very much for sending me the several copies of your publication. I have, of course, a more than passing interest in our ancient White culture, and I therefore very much appreciate your sending them to me. However, I must make this criticism — and I think it is highly valid — that ancient religions are not the answer to today's problems. After all Druidism, the Norse, the Viking and the Teutonic myths were invented and perpetuated by ignorant superstitious men. This may sound like a harsh judgement, but the fact is that they knew much less about the world, about the planets, the solar system, about physics, about chemistry, about electricity, etc., than the average sixth grader of today. Furthermore, you know and I know that their ancient so-called "pagan" religions although superior to Christianity, were not a shield against the perfidious and rapacious Jew, nor could they stand up against the more aggressive and militant Christian religion. The proof of this is that Christianity overwhelmed them and the Jew is now in control of those same Vikings, Teutons and Norsemen.

Therefore I think it is wrong to look into the past for anything more than mere background. Certainly the answers do not lie in reverting to superstitions and myths of the past as a guide for our future. What we need today is to rely on our superior reasoning in solving the problems of the world today. And the prime prerequisite we need for this, is a religion that is based on the laws of Nature, the experience of history, and on logic and common sense. In other words, I believe what we need is a religion like CREATIVITY, that is promulgated for the survival, expansion and advancement of the White Race. I firmly believe, and I challenge any man to refute this — that the greatest value on the face of the earth is the White Race itself. Therefore, our religion and our philosophy, and all our efforts should be dedicated towards, first of all, the White Race regaining control of its own destiny, secondly, promoting the best interests of the White Race.

I hope that you will think more along these lines, rather than reverting to the superstitious mythology of the past. I think that by

distributing and promoting "NATURE'S ETERNAL RELIGION" among your followers you could best achieve this purpose. I hope that you and I can get together some day and discuss this further and in much greater depth.

Right now we have a pre-Christmas special for our supporters, namely, you can order a carton of thirty-two copies of "NATURE'S ETERNAL RELIGION" for $32.00 postpaid. If you are interested in distributing and/or selling copies of this book, why not get a carton now at the special price.

Again many thanks for sending me your publications and your interest in our creative movement.

Sincerely yours,
B. Klassen

NOTE: Walter Plett is a nephew of mine.

Mr. & Mrs. Walter Plett
Yerington, Nevada

November 6, 1973

Dear Walter and Pauline,

We certainly appreciated getting your nice letter, Pauline, and were ever so glad to hear from you. Your letter was most interesting to read. I think it is very good for people to set down in writing those things they believe. There is nothing that is more helpful and clarifying and questioning what one's ideas and beliefs are than when you try setting them down on paper. I know this from my own experience of writing my book. It has certainly helped me to come to many conclusions and clarify my thinking in those areas in which previously might have been somewhat unresolved and fuzzy.

I thoroughly subscribe to the idea that everyone is entitled to believe what they wish, and that includes you and it also includes myself. When I wrote my book I clearly stated my ideas on some of the major issues in life, and they were conclusions that I had come to, not only after just reading thousands of books, but conclusions that crystallized from my own experience over more than fifty years. This includes my experience in the different walks of life that I have been in, including politics, business, and travels over many countries. These conclusions are my own and are not something that somebody else has manipulated my mind into accepting. These ideas and conclusions are such as I have arrived at after weighing and sifting the evidence, after rechecking those that are not substantiated by evidence, and putting in their proper perspective those that I found were substantiated by evidence.

Therefore, when I avidly studied the Bible I found that most of the material was completely unsubstantiated by evidence that could

be verified. Not only that, but most of the claims that were thrown at me such as the Jews walking through the bottom of the Red Sea, such as various characters living to be more than 900 years old, such as the whole world being flooded in the year 2348 B.C., and a host of other idiotic and completely unsubstantiated claims, I found, were ridiculous and they insulted my intelligence as well.

Now you do mention a tiny bit of seeming evidence. You say that the British archeologists excavated the ruins of Jericho. This is again one of those non sequitur arguments like “it must be Tuesday because it’s raining”. Nobody is arguing that Jericho existed at one time, and we know for certain that Jerusalem, Bethlehem, and Rome which are mentioned in the Bible exist today, as well as a lot of other named places. But what does it prove? And the answer is, it doesn’t prove a thing as far as all these other outlandish claims are concerned.

However, so much for that. It is not my intention to change your beliefs. All I want to do is offer you logical ideas and substantiated evidence with which you may do as you like. Along this line I am sending you another very enlightening book called, “SUPERIOR MEN”, written by James Hervey Johnson. I think you'll find it not only enlightening but very interesting as well. I am also sending you a little catalog which contains the titles of a large number of books that I believe substantiate, in large part, what I say in my book. You'll probably find it strange that you had never heard of any of these books before, but the reason is that they have been largely suppressed.

Getting back to family affairs, we had a real nice trip last month to Vienna, Austria, and to Budapest, Hungary, to Istanbul, Turkey, to Athens, Greece, and to Dubrovnyk, Yugoslavia. We also took a nice four day cruise in the Aegean Islands to Rhodes and Crete and to some of the other islands.

Kim and Walter Moore are now temporarily living with us. They are having a nice four bedroom, two bath, house built here in South Florida in Coral Springs. Walter is coming into the business with me and is doing very well. We are happy to have them near us since they are the most important family that we have.

I am glad to hear that your family is getting along fine, and that your children are doing well. Actually I must say that you are really following the advice that I set forth in my book, namely that of raising a nice family of White children that will be a credit to you and your race. We think highly of all of you.

Let us hear again from you soon. With best wishes from all of us,

Your Uncle,
B. Klassen

Mr. Douglas T. Kaye
Union, New Jersey

November 12, 1973

Dear Doug:

I was ever so glad to receive your informative and most interesting letter. I have wondered what had become of you over the months and thought I might give you a call if possible. That is why I called your mother's apartment. I do hope when you get a phone in, that you will inform me so that I might give you a personal call.

I regret that your projects have not been panning out recently. Your reference to the "right wing" as an insane asylum is most vivid and descriptive. Although I have never met Bob DePugh, I have always been somewhat leery of his whole approach, which namely is to be gung-ho against "Communism" (but never mention the Jews) and basically to grab your guns and groceries and head for the hills. I believe this approach is cowardly and basically wrong. I say so most emphatically in my book. However, his description of the right wing being similar to his cronies in the pen is probably not too far off.

Your Weltanschauung regarding the niggers and the Jews, race and Christianity in general, I believe parallels that of mine. But it seems to me that your activities appear to be desperately concerned about staying in the good graces and working within the framework of the right wing, which you correctly describe as an insane asylum. This somewhat puzzles me. Has it ever occurred to you that we might be better off telling the right wing to go to hell and working with the average, ordinary working Joe Blow whose basic instincts, and in general, uninformed though he is, has a much more receptive and better view of life than the mixed up right winger? I believe we have plenty of evidence by now that trying to work within the confines of the Christian, patriotic American is a losing battle. So why bother with them? Isn't it time that perhaps you make an agonizing reappraisal of your whole approach and project? I am overwhelmingly convinced that ten thousand failures over the last fifty years of using this approach have a message to tell us, namely, forget it. So why pursue a proven failure? What the White Race needs, and needs desperately, is a new religion. Without a racial creed to rally around it is hopelessly lost. I believe that Creativity meets that need. It is overwhelmingly the answer. It is as basic as the laws of Nature itself.

I cannot go along with your theory that "food, clothing, shelter, will be the new religion of the dispossessed majority". It seems to me that such a program marks the last refuge and stop-gap of a bunch of fleeing cowards on their way to extinction.

How I will be able to better fight as an isolated individual seeking refuge with my groceries up in some mountain cabin, nobody has ever explained to me. In no way, shape, or form can this type

of program lead to victory.

The White Man is at his best arm-in-arm with his fellow comrades, openly fighting, fanatically dedicated to the creed that is above groceries, shelter and survival.

Perhaps my religion is not the most popular philosophy to espouse these days, but then I am not looking for the first prize in a popularity contest. What I am looking for, and what the White Race has been looking for, is a fighting creed that will lead to victory. And I believe we have it.

Doug, I believe you highly overrate the invulnerability of Christianity. Contrary to your views, I find a large percentage of people are totally indifferent to it, and many outright hostile to it. I can show you a mass of letters in my files to this effect. Even the supporters, who are in the minority, are hopelessly defenseless when you sock it to them how idiotic and absurd are their irrational and superstitious tenets.

No, Christianity is far from impregnable. In fact, it is long dead, and most people are looking for a better religion. Some, stupidly, are turning to astrology, etc. Even the Asiatic Buddhist cult is drawing to it hundreds of thousands of new White adherents in the United States, though it is as incredible as all this other cock-and-bull.

All we really need is an organized propaganda base and I believe the militant White loyalists will flock to our colors by the millions.

But rather than set on our duff and speculate what might or might not be, it is urgent that we get going and do what we must. The answer to what we must do is simple: organize and propagandize, organize and propagandize, in ever-widening circles.

At the rate things are falling apart we've got to get moving. Why waste time with your Common Sense list when they are at best as you describe, dedicated to Christianity and so-called Americanism, and at best, are a bunch of old fogies, getting older everyday.

As I mentioned to you when you were last here, I am looking for a dedicated young White leader to head up the Church of the Creator. To help facilitate this, I might receive the aid of a multimillionaire who is favorably disposed to probably financing the organization of the Church. I plan to make a trip shortly to see him and try to arrange this. We are now incorporated as a religious organization. Shortly, I'm going to the IRS to get tax-exempt status.

The question I want to put to you is this: should I be successful in financially setting it up as described, would you be interested in coming down here and heading up the organization on a salary of perhaps, say, $1000.00 a month? While this might not be economically too lucrative, it is probably better than the business you are now pursuing. In terms of constructive results for the White Race, I believe it would be many times more productive.

I want you to understand that at this stage it is not a concrete offer, since I don't have the financial arrangements tied down as yet. Therefore the proposition is conditional — would you do so if I can make the arrangements? It is important for me to have an answer to this so that in making a presentation to the financial angel, I have one of the key ingredients present in the total picture.

I'd appreciate it if you would give this some serious thought and let me know as soon as you come to a conclusion.

Sincerely yours,
B. Klassen

Miss A. M. Uys
Natal, South Africa

November 14, 1973

Dear Miss Uys:

Thank you for your kind letter of October 29th from South Africa. I now have two other correspondents from South Africa and I am most happy to hear from this outpost of the White Race in the Dark continent.

I share with you your admiration for Adolf Hitler and as you know in my book I credit him as being the greatest White Man that ever lived and the greatest leader the White Race has ever had. Without detracting from this great man, I believe that our religion, CREATIVITY, carries on the work and the creed where Adolf Hitler left off. I believe that it goes further than the National Socialist philosophy in that we embrace the program of the survival of the White Race as a religion rather than a political party. Furthermore we meet the Jewish concocted creed of Christianity head on and ex-pose it for what it is. It is furthermore our goal to erase artificial na-tionalistic antagonisms and unite as one great Race into a worldwide brotherhood acting as one great team for their own survival, expan-sion and advancement.

We do not have any catalog of books at this time. I do have some other books on the drawing board that I am working on. When they come out I will be happy to inform you of them. In the meantime I would like to hear further from you as to what is going on in South Africa and whether the White Man there is holding his own, or is being driven to extinction.

Sincerely yours,
CHURCH OF THE CREATOR

Mrs. Paulette Siegrist **November 23, 1973**
LaSalle Reporting Company
Chicago, Illinois

Dear Paulette:

This long delayed letter is in answer to your letter of July 25th, which I was very happy to receive. Since you have already apologized for being remiss in writing, I will not repeat my apologies for being remiss in answering your letter. Let me just say that I had counted on writing several months ago, but so many things have happened in the meantime.

In August, my son-in-law finally succeeded in severing his relationship with the Air Force and Kim and Walt came to join us here in Florida. At the same time Henrie was in California visiting her mother for over a month. I have been hoping for some time to have Walt come down here and join me in my business, which I am happy to say has finally happened. I believe it is a tremendous start for the young couple to get established in business for themselves, and I think it will enable me to give more time to pursuing the building of my Church and many other pursuits that I am interested in.

A week after I had Walt initiated into the business, I left for Colorado and Henrie joined me there. We have a ranch up there and stayed up there for approximately three weeks. We hope to build a cabin up there next summer.

About a week after we got back to Florida we took off again and this time on a three week tour of Eastern Europe. This included Vienna; Budapest, Hungary; Istanbul, Turkey; Athens; and a four day boat tour to the nearby Aegean Islands, and finally a beautiful four day stay at Dubrovnyk in Yugoslavia before we flew back home. It was a tremendously interesting trip, and one which I am sure you would have enjoyed, and we would very much enjoyed having you in our tour.

Now that we are back home again I am busy in getting all the business affairs back in order again and also coaching Walt to learn all the ins and outs of the business. In this respect I find that everything would be going smoothly if it weren't for our government. In this respect I believe I spell my views out fairly clearly in the chapter, "WHOSE LAW AND ORDER?" It is my considered observation that our Jew-controlled government does everything it possibly can to break down this great and rich country, to make life as miserable for its citizens as possible, to contrive as many crises as

possible, and to stifle all businesses and citizens with so much harassment and red tape that finally the whole structure will break down as did the Roman Empire a millenium and a half ago. Their unceasing objective is to destroy the civilization that the White Man has built, the prosperity that it has built, and with it, destroy the White Race itself. Their overwhelming and fanatic objective is to mongrelize the White Man with blacks and reduce us to the same abject animality as the Blacks in Africa and the mulattoes in Haiti.

I am glad that you agree with most of my book. I am sure that when you understand the magnitude of the outrage that the Jews are perpetrating upon us, you will be as "radical" as I am, if not more so. Actually considering the viciousness of the crime that the White Man is enduring at the hands of the Jews, I don't think I am being radical at all. On the contrary I think I am being much too tolerant. It is not the nature of the White Man to be tolerant when a horrible outrage is being perpetrated on him. As I point out in the book, when a danger and a threat presents itself in Nature, then nature tells that creature to instinctively pursue and destroy that threat or danger to its existence. Believe me, the White Man is threatened to extinction in the near future, and it is only his muddled thinking that is allowing this to happen.

It is my overwhelming goal and objective in life to straighten out the White Man's thinking to where he will realize that the greatest goal in life is to aggressively and consciously pursue the vital expansion and advancement of the White Race — the greatest and most meaningful value on the face of the earth.

I hope that Michael and Linda will read the book and get some inspiration from it. With the brains, intelligence and abilities with which they are endowed, I'm sure that they will find they can do much better than wasting those talents on trying to teach and "uplift" a bunch of black ignoramuses. In any case, I wish them much success and I'm sure with all their ability and talent they will find their proper niche in life.

We will be very happy to have you come down and visit us any time that you see fit. Just let us know in advance. In the meantime I hope that you will help promote the idea of the great cause that Nature has set before us — the perpetuation and advancement of the White Race. Hope to hear from you soon.

Best regards,
B. Klassen

Mr. Gilbert H. Wheatley
Dover, Delaware

November 26, 1973

Dear Gil:

It's been some time since I last heard from you and I guess part-

ly the problem is that I haven't responded to some of your last letters. However, I have been pretty busy, having been to Colorado for three weeks in August and September, and then soon thereafter my wife and I took a three week tour of Europe, mostly eastern Europe such as Greece, Turkey, Yugoslavia, Vienna, etc.

I hope that despite the fact that I haven't heard from you for some time that everything is going well with you.

I haven't really heard from you since I sent the reply to the Dover State News to Walter Ihlenfeldt's letter. The paper was very good about it and printed my letter word for word. I wondered what response you received there in your own circle of acquaintances, and what Mr. Lee Layton thought about it. For my part I was quite well satisfied, since I received inquiries and sent out approximately sixteen or seventeen books. I would definitely say that we got the better of that deal. However I wondered what the further consequences were, and if Ihlenfeldt ever followed up that subject with any more letters.

Now that I am back home again for a while I intend to pursue the building of the Church of the Creator with greater energy and gusto. We have had the Church incorporated and have received our corporation charter as a religious organization from the State of Florida. I have further filed for a tax exemption so that any contributions may be tax deductible. I hope to receive approval of that application in the near future.

I wonder if you have been in contact with Mr. Layton recently, and if you know whether he ever finished reading the book. If so, I would be very much interested in his total reaction to the total book. I believe more strongly than ever that the course we are pursuing, the idea we are generating, and the cause to which we are dedicated is greater and more vital than ever before. Furthermore, all the crises that the Jews are perpetrating upon the White Race, such as the energy shortage, sending unlimited amounts of money and materials to the bandit state of Israel, and all the other woes and frustrations that they are heaping upon the White Race, more and more bears out what I'm saying in my book. More than ever, it is vital that we get organized and that we take action. I believe that the best course of action that we can pursue in uniting and organizing the White Race is to give it a religious zeal and foundation.

Please let me hear from you in the near future. I had planned on coming to Delaware and visiting with yourself and Mr. Layton. Perhaps if everything is favorable I may be able to do it before Christmas. In any event, I am most anxious to hear from you and have you bring me up to date as to how things are in your territory.

I hope that you have had a most satisfactory and happy

Thanksgiving, that everything is going well with you, and that I will hear from you soon.

Best regards,
B. Klassen

Mr. Clifford Anderson **December 31, 1973**
Pompano Beach, Florida

Dear Cliff:

I thoroughly enjoyed our exchange of ideas the other day and found it productive and highly stimulating. You have convinced me that you have a brilliant mind and a wealth of experience to draw from, all of which should be put to a highly productive use for a higher purpose than you are now employing it.

It appears to me that you are subconsciously searching for a higher purpose and a deeper meaning to life. You stated that you have finished studying five of the greater religions on the face of the earth, but it does not appear to me that they have given you any great satisfaction as such. I have found however that by pursuing the purpose that Nature has set for us, that individuals achieve the greatest reward and the highest satisfaction. This creed I have attempted to spell out in "NATURE'S ETERNAL RELIGION" and can be summarized for us, the noble members of the White Race, as being the survival, expansion and advancement of the White Race itself. From our discussions I conclude that you at least summarily agree that this should be done and that it is indeed a worthwhile goal to pursue. I, in turn, think it is the highest of all goals. If the White Race isn't worth saving, what is? What goal in life could possibly be more important and meaningful than working for, and achieving such? I have never yet found anyone to give me a meaningful answer to that question.

Assuming that you do agree that this purpose is at least somewhat meaningful and important, and assuming that you do want to put your intelligence and experience to beneficial use, I am requesting that you do the following things for the CHURCH OF THE CREATOR:

1. SUCCESS: THE MOTIVATION HANDBOOK. Since you seem to have a wide knowledge of metaphysics, the teachings of Napoleon Hill and others, I believe you would be well qualified to compile a handbook that embodies the best of Napoleon Hill, Glen Turner, and all the others that have set forth success motivation schools and programs, under whatever name they went. Add to this the rich experience of your own lifetime and base this furthermore on the sixteen commandments of the CHURCH OF THE CREATOR, and the

creed of CREATIVITY as a whole. Get me some further information as to what kind of programs Napoleon Hill set up in his schools with details as to the length of time involved in each course, the number of hours a day or week, the methods used, the fees that were charged, etc. Also some similar information about Dale Carnegie's schools. It would be not only necessary to get all these details together, but to actually compile a textbook or handbook to be used for teaching in our own school.

2. FINANCIAL ANGEL. As I also discussed with you what we need to implement our church, organize an ever-increasing membership, and disseminate the creed throughout the world, is a financial angel to start the ball rolling. I wonder if with the many contacts that you have had you might be able to line up some appointments for me that I could present my case.

If you will take charge of these two projects and get action on them, I would greatly appreciate it. In the meantime I look forward to getting together with you again soon and hope to give you my evaluation of the URANTIA book.

Sincerely yours,
B. Klassen

Miss A. M. Uys **December 31, 1973**
Rep. of South Africa

Dear Miss Uys:

Thank you very much for your long and informative letter of November 28th. In summary I conclude that your letter says that conditions in South Africa are bad. Like all over the world, the Jews are in control and they are marching onward in their program for the destruction of the White Race.

Whereas we can sit on our hands and lament the miserable conditions of the White Race, this does not help to solve the problem. Like so many letters I get, this only states the problem but goes no further in searching for the solution for taking action to solve the problem.

The prime objective, of course, is to solve the problem. And the solution to the problem is to enlighten and organize the White Race to fight for the survival, expansion and advancement of the White Race. The ideal thing to do is to organize in your area a Church of the Creator. Falling short of that, the thing that anyone can do is to distribute copies of our book, "NATURE'S ETERNAL RELIGION". The best way to get started on this is to take advantage of our special

offer of a carton of thirty-two books for $32.00. I would appreciate hearing from you at the earliest opportunity.

Best wishes for a prosperous, happy and productive New Year.

Sincerely yours,
B. Klassen

Mrs. George Anderson
Williston, North Dakota

December 31, 1973

Dear Mrs. Anderson:

Thank you for your Christmas card and also your letter.

I am quite familiar with the Christian Science doctrine and have a copy of Mary Baker Eddy's book in my library. However, if you will finish reading my book I believe it is self-explanatory as to how I might feel about this teaching, since it is another take-off of the Judeo-Christian bible. It is furthermore a hazy meandering into the dream world, claiming faith healing and all that kind of hocus-pocus. Since in our book we strictly adhere to reality, to the laws of Nature, to the best experience in history, the exercise of our common sense and logic, I really cannot be too much impressed with claims of the supernatural.

If you should be impressed by the program that we have set forth in the book, I would appreciate your active participation in distributing it. Right now we have a special offering of a carton of thirty-two books for $32.00. I hope you will see fit to take advantage of it.

Best wishes for a happy, prosperous and productive New Year.

Sincerely yours,
B. Klassen

Mr. Michael McLaughlin **January 11, 1974**
British Movement
Bebington, England

Dear Mr. McLaughlin:

Thank you for your highly interesting letter of December 26th and for the two enclosed copies of the British Free Press.

I have been to Britain several times and on our last trip to Europe last summer, we had a British tour guide who was not only highly intelligent, but most charming and affable. In short I have a great liking for the British people and am highly alarmed at the tragedy of mongrelization and Negro infestation that is taking place in Britain today.

From your letter I conclude that you are by and large in agreement with the creed as expressed in our book, "NATURE'S ETERNAL RELIGION". This is highly gratifying and I hope that you can and will be able to help disseminate the creed contained therein and be instrumental in distributing the book throughout England. The White Race has for a long, long time needed a creed that would unite and solidify their race. I think that we have finally put together such a creed, in a book whose purpose overwhelmingly is the survival, expansion and advancement of the White Race.

To start the ball rolling I am willing to send you a carton of thirty-two books. We are furthermore willing to give you an extra special bargain of thirty-two books for $32.00, postpaid. We are shipping these books this week and will trust that you will reimburse us in the above amount when they arrive.

I personally wish you the greatest of success in your struggle for the survival, expansion and advancement of the White Race. When I think of the great and mighty empire that the British nation forged in the past three centuries and how this was dismally and treacherously betrayed, and then, now, instead of colonizing the world with British White men and women, the British kingdom itself is now shamelessly being colonized and mongrelized by the scum of the world, the Jamaicans, the niggers, and the mud people in general, I shudder at the tragedy of it all.

May our communication be a new strong vibrant call-to-arms for the British people. Do your duty as proscribed in the Tenth Commandment on page 280 of my book.

Sincerely yours,

B. Klassen

Mr. C. J. Richardson **January 22, 1974**
Phoenix, Arizona

Dear Mr. Richardson:

Thank you for your letter of December 31st.

I am not familiar with the issue of Christian Vanguard regarding the article on Willis Stone. However I have known Willis Stone a number of years back. In fact I picked him as one of our speakers from the John Birch Society when I was head of Fact Finders Forum, a Speakers group. It is my opinion that both Christian Vanguard and Willis Stone are confusing the people with all their fraudulent piety and all their hocus-pocus about Communism, all the while never pointing out what a tremendously destructive tool Christianity has been in the hands of the Jews for the destruction of the White Race.

I think I have summed up this whole situation in Chapter 17 of the second part called FALSE LEADERSHIP, and the last paragraph on Page 408 sums it up pretty well.

I hope that you will become active in distributing the book so that the White Race will wake up to the danger in which it is now enmeshed. Right now we have a special offer of a carton of thirty-two books of "NATURE'S ETERNAL RELIGION" for $32.00. I hope you will see fit to take advantage of this offer and distribute as many books to outstanding White men in your area as you possibly can.

Mr. R. Todd **January 23, 1974**
North Wales, Great Britain

Dear Mr. Todd:

Thank you for your most interesting letter from Britain just received. Yes indeed, the struggle for the survival of the White Race is not limited to Great Britain by any means. It is a worldwide problem, and a matter of life and death. Time is rapidly running out on us, and unless we educate our fellow White comrades to the danger, and specifically point out the enemy, the Jewish conspiracy will certainly mongrelize and destroy the White Race.

When I think of the mighty empire that the British people built from their small island base, an empire that covered one-quarter of the globe, and brought civilization to all parts of the world; and then when I think of how after winning two World Wars the British people were snookered out of their empire without even firing a shot, an empire that they had built over three centuries with a tremendous amount of effort, it's hard to believe.

To add insult to injury, however, not only are the British no longer colonizing the continents of the world, but the scum of the earth is now invading, colonizing and breeding like rats in the small island itself. Again, the British are allowing this to happen without so much as firing a shot. This is what I call the UNAVENGED OUTRAGE.

I have sent a copy of my book to Enoch Powell, M.P. However, I have not heard a word from him. I have many doubts in my mind as to his real loyalty. Is he for real, or is he just another one of these false leaders that the Jews always put out to confuse the White Race? I would appreciate your opinion on this question.

I believe the answer to our dilemma is propaganda and organization, and more organization and more propaganda. The two go together and one feeds and enlarges the other. The best place to start I believe would be to distribute the book "NATURE'S ETERNAL RELIGION". Right now we have a special offer of a carton of thirty-two books postpaid for $32.00. If you would like to send us a check or money order for this amount we will ship you a carton postpaid as soon as we receive your instructions. I hope that I may be able to hear from you by return mail.

White Power!

Mr. M. Montgomery **January 22, 1974**
Nashville, Tennessee

Dear Mr. Montgomery:

Thank you very much for your letter of January 18th.

Welcome to the club of ex-JBS members. I am happy that you have seen the light, not only about the JBS and Communism but also gone further and deeper to see the light about Christianity and the Jews. I hope that on behalf of the White Race you will become very active again in the distribution of literature that will wake up the White Race, and we believe that the most effective book in this respect is "NATURE'S ETERNAL RELIGION". Right now we have a special offer whereby you can purchase a carton of thirty-two books for $32.00. I hope we will hear from you soon on this special offer.

Let's not be grim. Let's be optimistic and fanatically dedicated to the task. We have a job to do and let's get to it. The best place to start is to start distributing this book. Then having formed a base of supporters the next step is to form a group of a CHURCH OF THE CREATOR. However, start at the beginning and get busy with the distribution of this basic information.

Sincerely yours,
B. Klassen

Lt. Gen. P. A. del Valle February 12, 1974
Annapolis, Maryland

Dear Lt. Gen.:

About three years ago, we had some correspondence back and forth regarding your pet superstition, namely, Christianity. At that time I was still under the impression that you were probably just a misguided old fool, but that perhaps your intentions were sincere.

Since that time it has come to my attention that you are deliberately spreading the rumor that I am a Jew. I have therefore now come to the conclusion that you are not just a doddering old fool, steeped in a silly superstition, but a vicious and unmitigated liar. When you categorically put in writing to other people that I am a Jew, you are lying through your filthy teeth, General, and you know it.

If you would read Chapter 22 of my book. "NATURE'S ETERNAL RELIGION", "My Own Spiritual Awakening", (despite your protestations I suspect that you have read it since you lie so flagrantly), I give a fairly detailed account of my racial background, and, in fact my whole biography. I state that my ancestors were of White Mennonite origin for at least the last four hundred years, and there is not a drop of filthy Jewish blood in my veins.

The shoe is on the other foot, General, since I am not familiar with your dubious ancestry. I am not going to be as stupid as you are, and call you a Jew, but I will say this: you are a willing stooge for the Jews. They have a derogatory term for this — you are a CHABEZ GOY. You were, in fact, a stooge for Churchill and Roosevelt, who in turn were manipulated by the Jews, and you served them well. In your career, you have undoubtedly led tens of thousands of White Men to their deaths fighting to maintain the Jewish stranglehold of the world and also save Communist Russia's neck. For you now to go around prattling anti-Communism and Christianity is about the most perfidious and hypocritical piece of play acting that I have ever seen.

Yours in contempt,
B. Klassen

Mr. Millard F. Cornwell February 18, 1974
Wilmington, Delaware

Dear Mr. Cornwell:

In our correspondence some time back you mentioned something about the Decimal Club, that you had knowledge of, and sketched out a few of the details. I have given this matter some further thought in the meantime as to how it could be built in and expanded in the

CHURCH OF THE CREATOR. It seems to me it could be quite useful. I would appreciate therefore if you would fill me in on further details about the history and operations of the Decimal Club. Some of the matters that you might inform me about in more detail are such as the following:

1. What was their stated purpose — financial, political, et cetera?
2. When did it start and how long did it continue?
3. Approximately how many members did they have at the time of their best activity?
4. Did they have regular meetings, and if so, where were they held? How often?
5. Were there any rituals involved?
6. Were the meetings secret?
7. Was it based on the leadership principle as set forth in my book?

Any other pertinent details or history that you can inform me about would be appreciated.
Hope everything is going well with you. It will be a pleasure to hear from you again soon.

Sincerely yours,
B. Klassen

Controversy Again

To the Editor:

A letter of Jan. 20 by "A Friend of Islam" sets forth the Israeli problem in stark outline and tells it like it is.

Why in the world the once powerful United States should tolerate the Israeli monkey on its back is beyond comprehension.

We have no reason whatsoever to get involved in Israel's wars of aggression.

The facts of history are plain for all to see: the Israelis drove the Arabs off their farms and lands that the Arabs had settled for over 2,000 years.

With the help of the well financed Zionist movement and U.S. taxpayers money they then expanded their aggressions and for the last 6½ years have been occupying Arab soil.

We are therefore completely wrong, morally, politically and economically, to support Israel, a tyrannical theocracy, whose racial and religious discriminations are the most fanatic of any country in the world.

When we contemplate the horrible price the U.S. is paying in terms of fuel and energy shortages thereby created, in terms of our

total economic disruption, we should ask ourselves who are the traitors that are selling this country down the river.

It seems that many of the men that control the news media, and many that are in the highest echelons of government think nothing of betraying the United States in their fanatic loyalty to Israel.

Mr. Marshall McNeer
Tampa, Florida

March 26, 1974

Dear Mr. McNeer:

It was real good to hear from you again and I apologize for being remiss in not answering your letter of February 25th more promptly. From your letter I understand that you are busy and active in the American Party. As you get back on the road on party business I will be happy to collaborate with you in the matter of distributing books on the same basis as we have worked before.

It continues to astound me how cowardly people are of even writing me, as you mentioned in your letter. When I think of the great and heroic deeds that the White Man has achieved in the past, such as discovering this continent and other areas of the world, flying the Atlantic, sending men to the moon, not to mention the thousands of useless battles in which they have lost life, limb and their necks, it is unbelievable how the mind of the White Man shrivels in fear when it comes to confronting the perfidious Jew. For my part, it never enters my mind that there might or might not be danger involved, for after all, everything we do in life has some element of danger in it, even in driving your car down the road there is always danger that you could be hit by a truck, etc. Anyone going through life channeled with such a phobia would have to lead a miserable life indeed. Furthermore, despite the fact that I have written numerous flyers, pamphlets, letters to the editor, and the present book, not to mention the tape that I am now distributing, I have not experienced any particular dangers that amount to anything. But believe me, even if I had, it would not slow me down in the least.

I hope you can imbue your friends with the same idea. Tell them to read the chapter on “Horatius at the Bridge” again.

In the meantime, the best of luck in further promoting and distributing the book, and in your fight for the survival of the White Race.

I hope you have received a copy of our latest flyer on our sixty-minute cassette tape which sells for $4.00. I believe it has proved to be a tremendous aid to promoting and distributing the book.

Sincerely yours,

Mr. H. L. Crowder **April 8, 1974**
Goodlettsville, Tennessee

Dear Mr. Crowder:

You are so right in your last note of April 2nd. People's brains are so scrambled with the Judeo-Christian hoax that they will not examine the evidence before their eyes. Nevertheless, as you point out, if our civilization crashes, we who do see will pay the same penalty as those who would rather be blind.

It therefore behooves us to awaken as many as possible and get them working for the survival of the White Race. I hope you have received the tape by now and are using it to alert others, to distribute books. To spread our message and open the eyes of our racial Comrades is the greatest cause we can possibly dedicate ourselves to.

Sincerely yours,
B. Klassen

Mr. W. J. Gutterman **April 8, 1974**
New Brighton, Minnesota

Dear Mr. Gutterman:

Your letter of March 25th is most interesting. It is extremely encouraging that you have been working on the idea of building a political party for the promotion of the interests of the White Race.

As you probably know from reading the chapter "My Own Spiritual Awakening", I went through the political party route of trying to accomplish something for the White Race. I called my party "The Nationalist White Party". Enclosed is a brochure.

To my surprise I found that I was continually being undercut by my White racial comrades on Christian "principles". Re-read the chapter again to get the whole story.

Since then through experience and much soul-searching I came to the conclusion that those suicidal and paralyzing Christian principles that the White Race was hooked on would have to be met head on. This is what produced the CHURCH OF THE CREATOR.

I found several things wrong with the political party idea I was trying to promote. (a.) The Nationalist idea is wrong as I explain under Racial Socialism. (b.) Unless and until the White Man breaks the shackles of his religious idiocy he will never be able to come to grips with the enemy. (c.) To launch a racial battle, we are in a much stronger position from a religious base than as a political party.

Now I bring these things up not to discourage you, but to give you the benefit of my experience. I believe it would be more effective and more constructive to proceed in the formula of building a Church.

Once you have followers, an organization and some muscle, you

can indulge in political power plays to the utmost. After all you can run your people for political office under the old parties, (Democrat or Republican) much easier than trying to get your new party on the ballot for the next umpteen years. You know how difficult it has been for the American Independent Party to get on the ballot. I know because I worked on it. And all they really accomplish is to neutralize the voting powers of their members.

I strongly believe the route as set forth in the book is the only realistic and productive program open to us. It may be a tough battle, but it is an extremely productive and worthwhile cause to work on—the survival, expansion and advancement of the White Race— the finest of Nature's handiwork.

We now have a sixty minute cassette tape that is a powerful tool in drawing in new people. I believe I sent you a flyer on it.

Give the subject some more thought and then let's get to work.

Mr. Brian Fenton
London, England

April 23, 1974

Dear Mr. Fenton:

Thank you for your letter of April 15th.

The main thrust of your letter seems to be that I "roundly condemn Christianity". This is very true and since you have read my book, I'm sure that you are aware of my contention that what the White Man needs more than anything else is a better, sounder, and saner religion than Christianity, and that Christianity was the main spearhead of the Jews conquest of the White Man's mind. The fact that the Russians still have some Eastern Orthodox religion is not of any great consequence. If you have read the Protocols of the Elders of Zion you will note that whereas they intend to use Christianity until they have the entire world enslaved, it is only a tool, a means to an end. Once they have their tyranny firmly established and the "King of the Jews" on "the throne of the world", all religions except Judaism will be banned.

As far as having enough enemies, this is of course true. However, if we are going to straighten out the White Man's thinking, we've got to do the job all the way. One of the great failures of our past programs has been to tolerate Christianity as a harmless creed, when in reality, it was the tool with which the Jews brought down the Roman Empire in shambles, and it is the suicidal creed with which they are still controlling the minds of a great number of White people.

Furthermore, eighty to ninety per cent of the White Race are indifferent to Christianity, and are not going to be particularly an—

tagonized. Millions of them already think the way we do. Furthermore, this is a problem that exists, and it is not one of my making. If we are going to straighten out the White Man's thinking and have him take up arms against the Jew, then we just have to simply overcome such suicidal ideas as "turn the other cheek", "sell all thou hast and give it to the poor", "love your enemies", etc.

That's the way I see it. As I have said time and again in my book — what the White Man really needs is a new religion, a new creed, and a new philosophy. Until he breaks the shackles of this superstitious and suicidal creed that teaches him that the Jews are God's Chosen, he never will be able to make a serious fight against his most deadly enemy.

I have recently come out with a sixty minute cassette tape that sets forth in concise but fairly complete detail the creed of the CHURCH OF THE CREATOR. It sells for $4.00. If you would like to send for it I believe you would find it very useful in winning converts and helping to straighten out the thinking of our White racial kinsmen.

Sincerely yours,
B. Klassen

Mr. Robert Larden
Birmingham, England

April 23, 1974

Dear Mr. Larden:

Thank you for your letter of April 8th. It is gratifying to hear that you found the book invaluable in helping to straighten out the White Man's thinking in the field of race and religion. Nevertheless, I deplore your statement that the book could not be circulated in Britain, since the Jews have restrictions and a race relations ban that would forbid its distribution. In this respect I would like to refer you to Chapter 19, in the second part, namely, "Respect for Whose Law and Order"? And especially to the middle of page 441 where I say, "When traitors and enemies have usurped the government, the courts of the land, and the law enforcement agencies, in order to commit genocide on the White Race, then the time has come to invoke Nature's highest law that supersedes all others — that is the law of survival. Such a time is now at hand".

That the White Race should bow to such a vicious and intolerable law, is most shameful and despicable. If you are going to supinely let them get away with that kind of treacherous crime, then you are rapidly on your way to oblivion.

Regarding your query about the existence of the Kehilla, let me just say that rather than going into long detail, my chapter on it is the result and combination of much study and gathering of informa-

tion. I don't know why you particularly question this issue of the thousands of others that are in the book and are certainly equally as controversial.

Then you raise the question regarding the non-existence of Christ, and pose the question of whether or not it is so that Pontius Pilate sent reports back to Rome concerning Christ. You ask, aren't they still in existence today. I have certainly heard of none such records in existence today, and neither has anyone else that I have ever contacted. If you have any such information, the burden would be upon you to furnish it, rather than for me to furnish evidence about something that is questionable.

I don't remember making any claim about the longevity of King Solomon. However, the Bible does say Methuselah lived for 969 years, and Noah and several other characters supposedly lived for nine hundred and some years. Then you pose the question again, isn't it true that they had a different measurement of years. Again, instead of posing a riddle to which you don't have the answer, the burden of furnishing evidence is up to you and not up to me to disprove it. If they had some other measurement of years I failed to have found it anywhere in the Bible, and if they had a different span of time designated as a year, it would certainly be up to them to make that clear. They have failed to do so. As far as I'm concerned, this is just another ridiculous claim, as are the stories about Jonah and the whale, Joshua causing the sun to stand still, and dozens of others that the Bible is chock full of.

Regarding your criticism that I take the Bible too literally, I again refer you to the middle of page 429 of the book and a heading, "You Shouldn't Take the Bible Literally". I believe I answer your question in the last sentence of that dissertation, in saying, "if it (the Bible) isn't telling the truth, if it doesn't mean what it says, and if it doesn't say what it means, then it is, lying".

Regarding your questions about the National Socialist White People's Party and the National States Rights Party, all I can say is that they certainly seem to be fighting the Jews. The National States Rights Party at the same time seems to be strongly promoting Christianity, which is a built-in self-destruction bomb. However, this does not mean that they are not sincere, and I am not in a position to judge whether they are or not.

In any event, I believe that formulating a religious movement rather than a political movement polarized around the idea of the survival, expansion and advancement of the White Race is far superior to any political organization, and both our moral and legal positions are a thousand times stronger by forming a religious base than a political base. I believe that with the CHURCH OF THE

CREATOR and its sixteen commandments, we now have a creed upon which we can build forever.

I have received a number of inquiries and letters from both your organization and also the National Front. I hope that our book, "NATURE'S ETERNAL RELIGION" will become the basic creed of all racial and religious organizations in England. Please do whatever you can to distribute it.

Sincerely yours,
B. Klassen

Rear Adm. John G. Crommelin **May 7, 1974**
Wetumpka, Alabama

Dear Admiral:

Thank you for your campaign literature and other information you mailed me recently, as well as your short note. I'm glad to hear that you received the book. I hope that you will not skip-read it, but read it from cover to cover. I believe that what you have been trying to accomplish throughout your long and energetic life and what I am trying to accomplish is exactly the same.

Evidently the Kosher Konservative approach that we have been mutually snookered into pursuing in the past is not the answer. Our enemies, who are fewer in numbers than we are, and also inferior in intelligence, evidently have creamed us, slaughtered us, time after time after time. When this happens repeatedly, it is obvious that we are using the wrong weapons and we are using the wrong approach and need a completely new creed for the survival, expansion and advancement of the White Race.

After you boil everything down, what the fight really amounts to is to build a world for the survival, expansion and advancement of our own kind. And without a doubt our own kind is the White Race. I believe in the book I have laid down an aggressive creed and a program with which we can do just that.

If the White Race survives and flourishes, civilization will survive and flourish. If the White Race goes down the drain, civilization and everything that is good and worthwhile in this world, will also go down with it. It's as simple as that.

I hope that after you read the book you will become an ardent promoter of the new creed and program embodied in the book. The White Race needs a lot more leaders like yourself. Please read the book as soon as you can and let me have your thoughts on the total creed and program.

Sincerely yours,
B. Klassen

Dear Mr. Krohn:

This letter is to thank you most generously for the wonderful parcel you sent me. Although I apologize for being late in answering (I was out of state for awhile), I want you to know that I did receive both the flag and Hitler's glasses. I will treasure them as long as I live.

Some day when the Church is firmly established, I hope that we will have a museum in which we can display historic treasures of this kind. I will keep your letter with it so that the history of it will be authenticated.

Again, many thanks. I hope that you will aggressively promote our creed, our philosophy and also the book.

Best wishes,

Mrs. R. G. Hamilton **May 17, 1974**
Vanguard Books
Berkeley, California

Dear Mrs. Hamilton:

Thank you for your letter of April 26th and also the ms.

I have perused the ms. and am returning it without notations. I am doing this because I am not too clear regarding

(a) its intent and purpose
(b) its definition of the problem
(c) its solution to the problem
(d) your conclusions

I would appreciate if you would clarify the above questions. Also I would appreciate your comments regarding "NATURE'S ETERNAL RELIGION" and what results you are getting from promoting the book.

Best regards,
B. Klassen

Mr. Robert Larden **May 24, 1974**
Birmingham, England

Dear Mr. Larden:

Your letter of May 14th is most appreciated, however I heartily disagree with some of your basic premises.

The one that is most deplorable is the idea that you would rather kow-tow to the tyrannical Jewish decrees, because (and here's a real non-sequitur) you might end up in jail. The question, my dear friend, is, how far are you going to let them push you before you defy their arbitrary and tyrannical Jewish edicts? They are enslaving you, fencing you in, taking one weapon after another out of your hands, and all you can say is you would rather have "freedom of movement" than go to jail. This is the coward's type of rationalization — "I'd rather not fight — I might get shot". It is a cowardly way and one that has led to slavery. You have "freedom of movement"? What a laugh! All you are free to do is keep your mouth shut, work like a horse so you can subsidize an increasing horde of niggers to take over your land and your country. The only answer is fight — resort to Nature's HIGHEST LAW — survival of the species. Read again Chapter 19, Book II, "Respect for Whose Law and Order?"

Regarding "proof" of the Kehilla, I don't care in the slightest whether you accept it or not. I have no interest in furnishing you with further background material. There is plenty of material around regarding the Kehilla — Henry Ford's "The International Jew", encyclopedias and hundreds of other sources. I neither have the time nor the interest to satisfy each reader on some nit-picking item that he might want "proof" on. I tell you in the book there is no such thing as "proof", there is only evidence. It is not a matter of "faith" as you insist, but the evidence is overwhelming in the Jewish and anti-Jewish literature that abounds. I repeat, I care not a whit whether you are convinced. Dig it up yourself — it's there — just like the evidence that the world is round. No "blind faith" necessary.

Sincerely yours,
B. Klassen

June 11, 1974

Dear Doug:

Thank you for both letters. I hope that by now you have had an opportunity to listen to my tape entitled "CREATIVITY: THE WHITE MAN'S RELIGION". I am strongly thinking of pressing 1,000 records of it, which of course would mean a considerable outlay. Before I do so, I would like your comments as to the merits of the material, what improvements might be made, and if you would be interested in selling and promoting it. I could deliver it jacket and all for $2.00 and it could be sold for $5.00.

The quality of the recording would be much superior and the delivery more polished. Basically I did the cassette as a trial balloon, with home recording and an inexpensive experiment. Most comments

have been extremely favorable, and so far I contemplate only minor changes in the script. Your valuable comments are most welcome.

Doug, reading your letter I sense the familiar old malaise of the White Race — frustration, defeatism, and hopelessness. Did it ever occur to you that this "conservative", "Christian", "right-wing", approach could be basically and fatally wrong? Perhaps a blunt militant approach as on the tape and as delineated in the book could be much superior.

It reminds me of an old hill-billy joke. An Arky up in the hills when asked by a tourist why he hit his mule on the head with a 2 x 4, dryly replied, "When dealing with mules you gotta first learn to attract their attention". I believe the tape does this.

What the White Race needs is organization and propaganda. Leadership and unification will follow.

Yes, you can send me the 95 copies of "case". Enclosed is a check in the amount of $5.75. I had read it before and believe it is useful. However I believe "NATURE'S ETERNAL RELIGION" is the real answer.

Please give me specific details as to how I might improve the tape (other than recording qualities). Also please let me hear what your future plans are and if you think you might fit into the CHURCH OF THE CREATOR organization in the near future.

Sincerely yours,
B. Klassen

Mr. John P. Kay **July 15, 1974**
Chicago, Illinois

Dear Mr. Kay:

Thank you for your letter of July 5th. I see that after reading the book you have been doing some hard thinking.

To answer some of your questions: It seems to me there is no conflict whatsoever between instinct and reason. Instinct is a built-in pattern of life in each creature for the survival of itself and its species. It has been implanted over the millions of years and is the result of millions of experiences leaving their imprint in the structure of the creature itself — nervous system, physical structure, etc. The fit survived and passed on their experiences and better qualities. The unfit did not survive to perpetuate their mistakes. Instinct does more. It also passes on the URGE to survive, flourish and propagate. Without this inborn urge all the intelligence in the world would not survive a second generation of anything.

Now regarding this Creator creating everything six thousand years ago as per the cock-and-bull story in the Jewish bible — every piece of evidence we turn to refutes such idiotic claims — geology,

astronomy, history, common sense — you name it. There is nothing whatsoever to support it except the lying claims of a passel of Jewish scriptwriters. To the question who created all this in the beginning, it is just as logical to ask: who created the creator? The plain simple answer is, we don't know how it all started. We don't even know if there ever was a beginning or if there will ever be an end. We do know that our particular solar system has been around for at least five billion years, and scientists tell us that in probably another five billion years our sun will be sailing through space a cold, burned-out cinder. In the meantime, billions of other stars are being born, and others dying out at this very time in geological history, in a universe so vast that the human mind cannot comprehend it.

But why should we preoccupy ourselves with such pointless questions when we have much more immediate and important problems that are a thousand times more pressing, namely the survival of the White Race? So let's get busy!

Regarding Latin, it does not particularly matter that Lithuanian and Latvian were not derived from Latin, nor does it matter that Sanskrit may be an older language. The wonderful organization of Latin, its preciseness and the major role it has played in the history and civilization of the White Race make it so vastly superior, in my opinion, to Sanskrit or any other language, that there is no competition. I believe it would be a tremendous boon towards solidifying the White Race, if we, over a period of many decades, made it our universal language.

Regarding your P.S. South Florida is a good place to live, but not Miami. It has been taken over by the mud races, Jews, niggers and Cubans. The White people are being crowded out. You might think about that. Broward County is better for now, but if we don't get racially organized and united, who knows how long before it too will be overrun and ruined by the mud races.

I hope this letter has cleared up some of the questions in your mind. Further, however, it is my hope that you will become active in disseminating and propagating our creed and distributing the book. **Become a CREATIVE ACTIVIST.**

Dr. Mack R. Douglas **July 25, 1974**
Atlanta, Georgia

Dear Dr. Mack:
Last week when I was on my way back from some of my properties around Franklin, N.C., I stayed at Unadilla, Ga. overnight. While browsing at a bookstand, I happened to notice your book "SUCCESS

CAN BE YOURS". I bought the book and have since read it. I find it very excellent in the wide range of books that it draws from. Although I had not been aware that you had written any books, it also told me a great deal about your intellectual interests and abilities.

Whereas the book systemizes into methods of obtaining efficiency, results and success, and does a real good job of it, it does not focus on what those goals should be. It does of course point to wealth, esteem, affluence, mental and personal improvement, all of which are good and I am in favor of all of them.

But Napoleon Hill, Dale Carnegie and many others that you mention have already done that, although I believe you do a better job. Nevertheless our WORLD is not getting better, it is rapidly going into an abysmal decline. In fact, this world in a generation or two, I predict will end up in a hellish jungle of clawing, screaming, hungry hordes of mongrelized mulattoes (including America) of which rancid, starving, stinking and filthy India is a prelude.

The one thing none of the books mentioned, including yours, touch on, is: The overwhelming purpose of life itself as NATURE, in her eternal wisdom, has set forth for us.

In a book I have recently written, called "NATURE'S ETERNAL RELIGION", I have set forth that goal and purpose. In fact I have formulated a new religion (that is really as old as the universe itself) based on the (a) eternal laws of Nature, (b) on the experience of history, (c) on logic and common sense. It brushes away all the rot of superstition and ignorance that has cluttered and hamstrung the mind of the White Man for at least two thousand years.

Under separate cover I have forwarded you a copy of my book. I believe it has the real answers for building a better world, if that is what we really want to do. I also believe it will probably answer many of the questions that have puzzled and confused you over your lifetime.

My purpose in writing you is to enlist your aid and help in promoting and expanding the new religion on a worldwide basis. What we have in our hands is dynamite — we have in our book and our Creed — CREATIVITY — the most dynamic and powerful force in the world waiting to be brought home to the minds of Nature's finest masterpieces. Knowing personally (from our past association) what a dynamic leader of men you are, what an accomplished and persuasive speaker you are, and furthermore, what a keen and logical mind you have, somehow, I would like to see you take hold of this powerful new religion CREATIVITY and lead its promotion to cover all the worthwhile lands of this planet, as set forth in the last two chapters of the book "The Road to Greatness", and "Our Brilliant Future".

This might sound extravagant, even fantastic perhaps, but I

know it can be done, and one way or another, it WILL and MUST be done. I am going to gather around me the most brilliant, affluent, aggressive group possible to do the job. I am looking for a LEADER such as you. Do you think you could fill the bill?

Anyway, not only read the book, study it exhaustively and let me know your reaction. I know it is highly controversial, but it MAKES SENSE, and it is urgent. It is the only program to follow, if we, NATURE'S ELITES, are to SURVIVE.

I hope to stop in and see you on my next trip to North Carolina, should you be favorably inclined. Dr. Wyn Blair Sutphin told me he had read the book "kivver to kivver", and found it highly fascinating.

Please give me the benefits of your thoughts on this most urgent matter.

Sincerely yours,
B. Klassen

Mr. John P. Kay
Chicago, Illinois

July 29, 1974

Dear Mr. Kay:

I don't want to spend too much time splitting dogmatic hairs with you when we should be utilizing our time and energy recruiting and organizing the Church of the Creator for the survival of the White Race.

Yes, of course we are above animals. I have pointed out repeatedly that the White Race is unique in that it is the most in-telligent, creative and productive creature Nature has ever produc-ed in all the eons of time. No where do I say that the White Race is among the animals, which is at best a loose term. What I do say is that man, including, the White Man, is a creature of Nature, not an animal. Certainly and of course we are far above the other creatures, including far above animals and the mud races, because of our superior intelligence and reasoning. As I explained in my earlier letter, reasoning is not in conflict with experiences that helped the species to survive over the hundreds of thousands of generations that have gone before. Good intelligence (reasoning) goes to reinforce in-stinct and the two are inextricably intertwined.

I don't get your point about Mr. Dilys "showing his literature to the negro, who can then face his real enemy, namely the Jew". The niggers and the Jews are BOTH our deadly enemies. We don't need to kow-tow to either one. We need to organize the White Race. United and organized the White Race is ten times as powerful as all the mud races combined.

I don't want to pursue this any further. I suggest that you re-

read “NATURE’S ETERNAL RELIGION” again and I believe the picture will become not only clearer, but more urgent and powerful each time you read it. Please remember, our goal is to unite and organize for the survival of the White Race, the crowning glory of Nature’s creation.

Mr. Dennis Nix, Chairman **July 29, 1974**
American Nazi Party
St. Louis, Missouri

Dear Mr. Nix:

This is in follow up of the letter I wrote to you on July 26th.

On reading your form letter, I note that you are breaking from the Arlington H. Q. and striking out on a new orientation that is more in keeping with the needs of America today. I believe it is a wise and cogent move, and I wish you the best of success.

I would be quite interested in hearing further what your fundamental creed now is, and whether it agrees with the ideology and the approach of CREATIVITY. I believe, of course that Creativity and the program set forth in “NATURE’S ETERNAL RELIGION” is the total answer.

I also notice that the letter said that Ralph Forbes will be the Party Chaplain. I happen to know Ralph Forbes from Jacksonville, or at least I presume it is the same man. He seems to be very dedicated, but he did have this hang-up about Christianity. I do hope that he has been converted to CREATIVITY. As you undoubtedly know, the two religions are completely incompatible, and as I point out through 508 pages in the book, it was Christianity that unhinged the minds of the Romans in the first place, and has continued to wreak havoc with the White Race in the ensuing 2,000 years.

I would be greatly interested in hearing further about your successes and your program. I presume you already have my earlier letter with the application for Ordaining for the Ministry of the Church of the Creator.

Best regards,
B. Klassen

Mr. M. Stanton **August 2, 1974**
London, England

Dear Mr. Stanton:

Thank you for your letter of July 24th. It is a pleasure indeed to hear from another staunch supporter in England who has a grasp

of the racial and religious situation, (or should I say predicament?)

Also thank you for the three pound notes received. In return we are sending you a carton of seven books prepaid and insured.

Weightwise, nine books is the economical limit per package in shipping books overseas. We would be happy to form an arrangement with you in the distribution of our book, "NATURE'S ETERNAL RELIGION". Since our shipments would of necessity be limited to packages of nine books each, we will ship you such on the receipt of six British pounds. You could probably send them the same way as you sent the previous three pounds, although there is always the risk of loss both ways.

Considering what the Jews and the mud people are doing to the once great and glorious British Isles (for which I once had great admiration) it is high time you got organized and drove the rascals out. The prerequisite to so doing is to first of all have a creed and a program all the good White people can believe in and rally around. I believe we have furnished this in our book, "NATURE'S ETERNAL RELIGION", not only for your country, but for all the good White people of the world to militantly rally to and fight for.

It is my hope that you will organize a CHURCH OF THE CREATOR in your area as proscribed in the last two chapters of the book. All we need to win is the WILL TO WIN. From there on it is only a matter of organization and propaganda. Should the White Man determine to do so, there would hardly be a contest against the mud people. We do not have any agents in your area. In fact we are hardly organized over here. But the program and the procedure for solution are quite specifically spelled out in the book and it is only a matter of dedication and organization.

I do not know too much about Wotanism, but would be glad to receive any literature on it. I may add that going back to our ancient pre-Christian and pre-Jewish superstitions is not the solution to our (very real) problems of today. I do know all about Howard Rand and Theodore Fitch and regard them as first class bunco artists who are misleading the White Race into thinking they are the real "Israelites". After reading the Jews' own rendition of what a bunch of whore-mongering scoundrels their "heroes" such as Abraham, Sarah, Judah, David, etc. were, what White Man in his right mind would want to have them for an ancestor? In any event, the whole thing is based on a silly cock and bull story.

It is good to know you are a Latin scholar. What do you think of the idea of promoting the Latin language as the primary language for the unification of the White Race?

Best wishes for your success.

Sincerely yours,
B. Klassen

Mr. George Schwegler **August 5, 1974**
St. Louis, Missouri

Dear Mr. Schwegler:

Thank you for your letter of July 14th. I appreciate your commendation and your encouragement.

Yes, in my book "NATURE'S ETERNAL RELIGION" I tell it the way I see it — no holds barred — and as I see it, the most astounding breakthrough the Jew achieved over the mind of the White Race was when he successfully foisted the suicidal Christian creed on the White Romans and thereby unhinged the mind of the White Man for the next 2,000 years to collaborate with the Jew in the destruction of the White Race.

There isn't one in a thousand among our White racial brethren that has comprehended the tremendous ramifications of this colossal disaster. They do not even suspect it to this day. It is up to us to wake them up — and I believe the only way we can shake them loose from this mind-warping disease is to give them a new religion.

This we endeavor to do by giving them CREATIVITY — a wholesome, dynamic philosophy grounded in reality and in the great laws of Nature herself. We believe that in organizing the CHURCH OF THE CREATOR we are not only giving the White Man a dynamic new religion, but a PROGRAM for his own salvation — his own survival.

Unfortunately, we do not have much in the way of manpower, finances, nor organization to work with as yet. But we will. We do not have any flags or armbands at this stage. I presume you belong to the same group as Dennis Nix in your area, and, of course what you can do is help organize and expand your group in your area, help distribute the book, recruit and spread the word. Or you might have yourself ordained as a minister of the CHURCH OF THE CREATOR and start a CREATIVITY church of your own, following the program as set forth in the last two chapters of the book.

Best wishes for your success,
B. Klassen

Mr. Steven D. Love **September 9, 1974**
NSWPP Cincinnati Unit
Cincinnati, Ohio

Dear Mr. Love:

Thank you for your letter of September 1st. I am glad to know that you have received the carton of "NATURE'S ETERNAL RELIGION" and will be eagerly anticipating the results of your meeting.

You might be interested in knowing that as a church we are in a position to ordain you (and/or several other leading members of your group, if you wish) as ministers of the CHURCH OF THE CREATOR.

The advantages of fighting this battle on religious grounds instead of political grounds are manifold. In addition, being a minister of our religion has several other advantages. The respect and privileges accorded a minister are out of all proportion to what the ordinary preacher (who is usually a con-artist) deserves. As a minister you can fight them on their own grounds and readily expose their race-mixing Jew-loving racket.

There is no conflict in belonging to N.S.P. politically, and to the CHURCH OF THE CREATOR religiously. In fact the two reinforce each other.

Enclosed in duplicate is an application form. We have ordained several N.S. members from other units. They have found it has opened doors they could never have entered otherwise and given a tremendous boost to their prestige and attracted attention from people they could never have reached otherwise.

Please give this some further thought.

Dear Mr. Loughran:

Thank you for your book "Wesen Weg Ziel". I will try to read it when I have time.

Regarding Norbert Murray. I do not think much about his "The Great Conspiracy". He keeps going round and round on the problem, and even that he hasn't got straight. Instead of polarizing it around the Jewish network he confuses it by putting a lot of emphasis on the Rockefellers.

I don't have any information at all about the Aegis Publishing Party, Ltd., nor the Boswell Printing Co., Ltd.

Regarding your question as to whether I am related to the Klassen who heads the U. S. Postal Service, a loud emphatic "NO", thank heaven.

I hope you have had time to give this issue some further thought.

Mr. Robert W. Corson
Avenel, New Jersey

Dear Mr. Corson:

Thank you for your letter just received regarding our book, "NATURE'S ETERNAL RELIGION". Your life history sounds very interesting and I only wish that there were more fellow racial comrades like yourself that think as we do.

The purpose of my letter is to inspire you into action. Unfortunately too many of our White fellow compatriots indulge in recrimination and wallowing in self-pity. It seems that most of the more intelligent people who should be taking action prefer in re-analyzing and re-hashing the deplorable situation we are in. To me, it seems that this is pointless and self-defeating. It only helps to discourage those that would be active waging the battle.

Now I realize that it is hard to do something with the news media and most of the other powerful forces stacked against us, and furthermore, the White people lacking any concerted organization. However there is something very constructive that you could do right now, and that is to become a distributor of the book, "NATURE'S ETERNAL RELIGION". I believe that once we get ten million copies of the book in the hands of the White people of America, the battle against the Jews and the niggers can be considered as well as won.

We have a special deal for our distributors. You can order a carton of 32 books for $32.00, (in other words, a dollar a book). I would like to see you become a distributor. Our first task is to have enough knowledgeable and dedicated people to know both what the problem is and what the solution is. I believe our book makes both clear. Once we have enough ideologically dedicated followers we can then next organize them into a powerful fighting force. So to get started I would therefore first urge you to become a distributor and sell, loan, or give away as many copies as possible and then order another carton and do it all over again.

Please let us hear from you at the earliest opportunity and give my best regards to Frank.

Sincerely yours,

B. Klassen

Mr. Jim Hill **November 19, 1974**
Huntingdonshire, England

Dear Jim:

Thank you very much for your letter of November 13th. I find it most interesting and a definite indication that you are an intelligent and independent thinker, especially for your age. It is most important that the White Race enlist the loyalties and energy of young people such as yourself. I can assure you that had I known when I was fifteen, what I know now, and that which it is your privilege to know now, I would have been ten times more effective during my lifetime, economically, culturally, and in the benefits that I could have bestowed upon my race. Therefore I trust that since you have this advantage you will use your knowledge and your ability in the best interests of the White Race.

You seem to be somewhat exercised about separating the different branches of the White Race and singling some out because you believe they might be harmful or dangerous to our movement. If you will read my book more carefully, I believe I make it quite clear that this is not the time to be hassling about who does, and who does not quality within the confines of the White Race. We all know that there are fringe elements in our race, the same as there are in the Jewish race, or any other group. However this is no problem whatsoever that cannot wait and be solved in the future. Actually, our program of promoting the expansion of the best elements of our race, regardless of what nationality they may belong to, will insure the advancement and upbreeding of our race. Again, I repeat, this is a program for the future. I cannot emphasize too strongly that our present overwhelming problem is the very survival of the White Race itself. Therefore, if we are going to win the battle against the Jews and the niggers we need all the help we can get. True, there might be some elements in the Italian race that we would not wish to be identified with, but then, to be honest with you, I have also seen some individuals of English nationality that are of no credit to the White Race.

So let's not get sidetracked. Let us keep our eye on the ball. First things first. Our first and foremost battle is to UNITE the White Race and WIN CONTROL OF OUR OWN DESTINY — control of our Government — control of our finances and economics, control of our culture, and in short, control of our total destiny.

I believe the obstacles about sending books and sending correspondence back and forth to England have been highly exaggerated by the loss of our package of books to Mr. McLaughlin. Other than that, practically every other package has gotten through to England, currency enclosed in letters to us have been received, and so far as

I know all other correspondence has been successfully delivered. The best way to order books from us is to send us American currency, not money orders, or checks. If you will send me $2.00 American, we will send you a copy of "NATURE'S ETERNAL RELIGION". Or if you or any of your friends want to send us $10.00 in American currency, we will send you a carton of eight books.

Again, let me repeat the most urgent pursuit at this time is to give the White people a creed and a program by which they can survive and advance. I believe we have this creed and program in our book, "NATURE'S ETERNAL RELIGION". The most positive thing you and others can do is to distribute as many copies of this book to our White racial comrades in the shortest possible time.

Best regards and best wishes for your future success.

Sincerely yours,
B. Klassen

Mr. Watson S. Koldys **November 19, 1974**
Conshohocken, Pennsylvania

Dear Mr. Koldys:

Thank you for your letter of November 14th and the $10.00 money order enclosed. It is always such a pleasure to hear from you. I had therefore wondered what had happened to you, since I had not heard for some time. I hope you have fully recovered by now and are again strong and vigorous in spreading the word.

The Truth Seeker is a good publication in as far as it goes. It performs a tremendous service in making available a large selection of Rationalist and Atheistic books that are not available anywhere else that I know of. Its main weakness as I see it is that it lacks a positive creed. True, it repudiates Christianity and other religious superstitions, but it still does not spell out any positive creed to live by. It does not answer the question: What is our purpose in life? Nor does it have the answer, nor the program for the survival, expansion and advancement of the White Race, the most precious value on the face of the earth.

That is why I believe our book is so important. It has the positive creed and program for the survival, expansion and advancement of the White Race, a program that is terribly urgent today. I would therefore appreciate anything you can do to further disseminate our creed and our ideas. Remember we have a special offer of 32 books for $32.00 for our distributors.

Keep pushing!

Sincerely yours,
B. Klassen

Mr. Wolfram Toepfer **November 26, 1974**
Pretoria, South Africa

Dear Mr. Toepfer:

Thank you for your letter of November 15th, and also the other material enclosed.

I have read the MS. about "The Auschwitz Lie", and all I can say is of course the hoax about the six million gassed Jews is a monumental lie. So what else is new?

The refutation of this lie has already been made numerous times in articles, books and other manuscripts. I already have a book called "The Myth of the Six Million" done by an anonymous author. Another excellent booklet by Austin J. App, Ph.D. "The Six Million Swindle" documents the story of this big lie used to blackmail the German people. Recently I have received a scholarly treatise on this same subject from England, but do not have the name of the author or the booklet before me.

So what further purpose would be served by going to the expense of printing another one? After it was printed just how would you get mass distribution?

Personally I have no interest in getting it printed. It would only refute one lie in a whole carload of lies that are being dumped on us.

Frankly I am tired of hearing complaints without a positive program of organization and action. As I state on page 408 of my book: "if they do nothing more than deplore and lament, but offer no solution", then I am not interested.

Which brings me to the gist of your letter. I perfectly well understand what you are saying but I am somewhat mystified by the purpose of it all. You spend long pages reiterating that my book is obviously full of shortcomings, how the more knowledgeable Germans would want a more thorough and accurate rendition; how the naive Americans might not detect all the superficialities, etc. Yet at the same time you don't pinpoint one single error; you don't spell out what would be a such grand and superior philosophy or religion; just what program we should pursue, or, for that matter, you don't mention one single constructive idea as to what your version of a superior book would be. At the same time you keep assuring me that with all the shortcomings, errors, superficialities, etc., what a great job I have done! I am truly puzzled. Just what is your point?

Let me make this clear. The book represents my philosophy and my program. I have no desire for someone to come along, inject their ideas and urge me to revise and reprint it. If they think they have a better program, let them spell it out, write their own book and have it printed at their own expense. Of the thousands of my readers, there are thousands of reactions, running all the way from fanatical sup-

port of my doctrine, agreeing 100 per cent on the one side, to diabolical hatred on the other side. Nevertheless, of all the letters I get, I would say 99 per cent favor the book.

Furthermore I have a large sum of money invested in the printing of the book and still have a warehouse full to sell. For you to suggest that I should throw these overboard and have it revised and reprinted to more nearly fit your version, is pretty ridiculous — especially since I haven't the faintest inkling of what your version is.

So much for that. Let me state plainly that I am interested in only one thing: to build a growing organization based on the creed of the CHURCH OF THE CREATOR. Those who want to build such an organization can join with me. Those who have other ideas are free to pursue them at their own expense of time, money and labor. I am fanatic and singleminded enough to believe that we have the best creed, philosophy, Weltanschauung, religion and program for the survival, expansion and advancement of the White Race that has yet been propounded. My sole interest now is getting on with the job and implementing it. I hope you will be of help in this greatest of all tasks.

I am returning your ms. so that you can have it printed as you see fit. I hope you do, because I believe it is good, but it is only a small part of the whole problem.

Best regards,
B. Klassen

Mr. Paul Englert, Secretary
Confraternity of Deists, Inc.
Homosassa Springs, Florida

November 26, 1974

Dear Mr. Englert:

Thank you very much for your letter of November 23rd and also the enclosed literature explaining the Confraternity of Deists. Also thank you for the $3.00 in cash enclosed.

We are mailing a copy of our book, "NATURE'S ETERNAL RELIGION" today. I believe you will find it highly interesting, although as I warned you, highly controversial. I certainly don't expect you to agree with everything in the book, but from reading your literature it seems to me that we are very much in agreement on the main points.

In the philosophical outlook of CREATIVITY, which is the creed of the Church of the Creator, I believe we go very much further, from what I can gather from your literature, than do the Deists.

Although I have not of course made a thorough study of your beliefs, it seems to me that although we are in agreement that Chris-

tianity has held back the advance of our civilization and created nothing but confusion, the question is: Where do we go from there? Supposing that we convinced everybody in the world of that position — namely that Christianity is a hoax, the question still remains: What positive program do we have from there on out? What cause and what purpose can we wholeheartedly devote ourselves to? What values in the real world are worth preserving, fostering and nurturing?

I believe in our book, **"NATURE'S ETERNAL RELIGION"** you will find the answers to these very vital questions. In any case, I will be very much interested in learning your valuable comments on our book. It is my earnest hope that we will be able to get together in the future and discuss further in depth what positive actions we can take to organize and advance our creed and our program.

Best regards,
B. Klassen

December 3, 1974

Mr. A. U. Brown
Orange, California

Dear Mr. Brown:

I have just finished reading your book **"DIGNITARIAN WAY"**.

Two years ago I finished writing a book of my own called **"NATURE'S ETERNAL RELIGION"**. To my surprise I find a great similarity in the ideas expressed. I had arrived at the conclusion on my own that both Communism and Christianity were invented by the Jews as destructive tools with which to destroy the White Race. It is interesting to find the same idea expressed in your book, and I may say that this is the first publication other than my own that I have seen this idea expressed.

My book, too, lays down a new religious creed completely outside of the Christian series of religions. However our conclusions differ substantially from Dignitarianism. Basically our creed is designed for the survival, expansion and advancement of the White Race, the highest and most precious value on the face of the earth.

If you are still at the above address, I would appreciate hearing from you. Upon reply, I will be glad to send you a copy of our book, **"NATURE'S ETERNAL RELIGION"**, the White Man's Bible.

Sincerely yours,
B. Klassen

Mr. Jim Hill **December 2, 1974**
Huntingdonshire, England

Dear Jim:

Your letter of November 25th has been received, along with the $2.00 cash enclosed. Thank you very much. We are mailing one copy of "NATURE'S ETERNAL RELIGION" as of today.

You seem to be overly preoccupied about "purifying" the White Race here and now, when I believe our most urgent problem for the next several decades will be the SURVIVAL of our race, per se. I repeat, as I did in the previous letter, and as I have numerous times in the book, until we REGAIN CONTROL OF OUR OWN DESTINY, nothing else really matters. Once we have done that much we can then, and only then, proceed on the other numerous programs, of which upgrading and up-breeding our own race is of major importance.

On pages 284 and 285, in the 12th Commandment on "Up-breeding" I cover this subject specifically. It will not be the most difficult part of our program. The main objective to keep in mind is to first REGAIN CONTROL OF OUR OWN DESTINY. This is by far the toughest and most precarious part of the whole struggle. If we don't do that much, nothing else matters. So let's keep our eye on the ball.

The most constructive work you can do in this respect is to distribute as many copies of "NATUURE'S ETERNAL RELIGION" as you can, keep recruiting members to our ideology, and if possible organize a group of young people around you along the lines as spelled out in Chapter 27 of Part 2.

Good luck. Let me know when you receive the book.

Sincerely yours,
B. Klassen

Mr. Wilmot Robertson **December 11, 1974**
c/o Howard Allen Ent.
Cape Canaveral, Florida

Dear Mr. Robertson:

Your letter of December 4th was received and much appreciated.

It appears to me that one of the maladies the fighters (if any) for the survival of the White Race most consistently suffer from is DEFEATISM. In this respect I believe we should take a page from the history of the Jews: WIN OR DIE, but fight an all-out fight for the survival of your own kind. And our kind is not the MAJORITY, a meaningless term, (what would happen to the "majority" theory

if in a dozen or so years the negroes became the majority in this country) but the White Race, our own generic and racial entity.

Basics are basics. You cannot solve any problem unless you recognize the fundamental basics in any problem. You cannot progress in mathematics and have your multiplication tables all screwed up. You cannot navigate around the world accurately if you continue to pretend the world is flat, etc. Similarly, we the White Race will never solve our predicament if we don't squarely face the basics of our problem.

And the fundamental basic facts of life are these: Christianity is a hoax and a fraud designed to unhinge and scramble the White Man's brains; it has done this thoroughly for nearly two millenniums; this tool has been concocted by the Jews to destroy the White Race; the Jewish apparatus is the root of our problem.

This, in short, is basic and fundamental. In order to survive we must face these fundamentals. They are not insurmountable.

The fact is the White Race has never really tried to overcome them. I know of no one before myself that has really tried to replace the suicidal Christian religion with a sound, solid religion formulated for the survival, expansion and advancement of the White Race.

I believe in CREATIVITY we have accomplished this historic feat. Whereas it may not be perfect, it is fundamental, sound and adequate to do the job.

And the job now is to organize and proselytize until the racial issue reaches an all-pervading crescendo. It can be done. It must be done and it will be done. Nothing else really matters. I have absolutely no interest whatsoever in leaving behind me all the culture, art, technology and other creative works that the White Race has created to a world populated solely by a bunch of cannibals who would debauch and destroy it. Until the White Man shakes off the hallucinations that he is now drugged with, NO OTHER PROBLEM WILL EVER BE SOLVED. He will just go down, down to a miserable and ignoble death. He will become extinct.

In Creativity, I believe we have not only the creed and the religion for the White Man's survival, but we also have the goals and the program for his glorious advancement to loftier heights than have ever been dreamed of.

It is my self-appointed and self-anointed goal that before my demise I want to have a viable, dynamic and rapidly expanding, self-perpetuating religious organization on its way towards wresting control of the White Man's destiny back into the hands of our own.

I disagree that this need take hundreds of years. Hitler almost achieved it in his lifetime. As I point out in my book, had certain circumstances been a little different, atom bomb, etc., he could have won. If he had won, the White Race of the world would, in essence,

have triumphed with a new racial religion, albeit one that needed improving.

The thing that we need more than anything is more guts, more courage, more confidence, more aggressiveness and more dedication. We should keep telling ourselves again and again, that if the White Man is exterminated, nothing else matters — it is our sacred duty to our forefathers, ourselves and our future generations to see to it that this horrendous calamity does not happen and to ensure that such a possibility can never again arise. This we must do by invoking the Eternal Laws of Nature — survival of our own kind at all costs.

I hope we can get together soon and discuss ways and means. Please don't get on this defeatist kick that there is little we can do. There is a hell of a lot we can do and we had better get at it.

Creatively yours,
B. Klassen, P.M.

Mr. Paul Englert
Homosassa Springs, Florida

December 19, 1974

Dear Paul:

This is in response to your letter of December 15th and also further to your previous letter which I only partially answered.

I appreciate your concern about wanting to protect me from Jewish retaliation, if any. Let me say that it is far too late for that, since I am sure that my book has long been perused by the ADL, and that my name is undoubtedly somewhere at the top of their you-know-what list. In fact, when the M.S. was in the printers, some Jewish couple was already reading parts of it and fuming at the mouth.

My philosophy regarding exposure is this: no one has ever engaged the enemy without sticking their neck out. When I consider the thousands of innocent young boys who were sent to Vietnam and elsewhere, were shot, killed and maimed, without having been guilty of the slightest provocation, or ever knowing who their real enemy was, I consider that for whatever risk I am taking I shall at least exact a heavy price. Anyway, somebody has to do it, and since I am convinced that we have the ultimate in understanding the cause, the ultimate in a perpetual program for the upgrading and improving the welfare of the White Race, the ultimate in the remedy to the Jewish plague as a whole, I cannot, will not and have no intention of slowing down in the least due to timidity.

On the contrary, my position is that of Horatius at the Bridge "How can a man die better-". I don't worry about it one damn bit.

My main concern is to live long enough to get the Church of the Creator established as a viable, expanding and self-perpetuating organization.

We now have practically all the ingredients necessary to bring this to realization: We have our White Man's Bible. We have our Creed and the 16 Commandments. We have our insignia. The book has already been field tested and proven to convert and inspire dedication and action. We are incorporated as a religious institution by which we can demand all the privileges, immunities, and protections all the phoney religions enjoy. We have even obtained tax-exempt status from the I.R.S.

What we still lack is not at all insurmountable. We now need a financial angel to underwrite our initial springboard, i.e., a H.Q. and meeting place, a full-time young man on salary to lead, promote, lecture, hold meetings, etc. Thousands of churches have obtained all these things, despite the fact they had nothing to sell but fraudulent merchandise, namely fear of a non-existent hell. Many of these bunco artists like Herbert W. and Ted Garner Armstrong, Carl McIntyre, Billy James Hargis, Oral Roberts and thousands of others have built multi million dollar empires, all based on merchandizing a hoax and a fraud. While they are selling "heaven" to their victims, they are appropriating unto themselves all of the treasures of the earth. This, the greatest racket in the world is taking in 17 billion dollars a year in the U. S. alone from their "hell-frightened" and confused victims.

This, the greatest racket on the face of the earth, is well-imbedded, safe, respectable and amply protected by all the "laws of the land", most of which the religious establishments have euchered our crooked and spineless politicians to enact.

I am only reviewing the obvious to conclude that we, too, as a bona fide religious organization, can and must take advantage of all the privileges, protections and immunities that the law provides. We too have tax-exemption. We, too, can ordain ministers and are now doing so. Enclosed in duplicate is an application form.

You might consider whether you would like to become a "Reverend". There is no cost involved, but we would expect our preachers to work harder in recruiting, organizing, proselytizing and advancing the cause.

If the thousands of existing church organizations can thrive and prosper selling nothing but hocus-pocus by words, words, words, surely, we can do better, we, who are promoting something real and genuine, namely the survival, expansion and advancement of the White Race, Nature's pinnacle of creation.

As I see it, the first phase in our development is the distribution of the book, "NATURE'S ETERNAL RELIGION". Nothing sets forth

the whole idea and program more completely and precisely than the book. Did you know the Jehovah's Witness first 20 years were utilized in doing nothing more than selling and distributing their books? Today they are one of the fastest growing sects in the world.

Then, after we have a broad segment of known supporters, we can organize our dedicated followers into a veritable battering ram. This does not at all preclude, in the meantime, of ordaining ministers, setting up church groups and organizing our forces as much as possible.

By now, I have been getting return literature from about half a dozen of the Rationalist/Atheist organizations I wrote to. So far, I can find very little in all the mess that is constructive and productive. Some have a strange little twist here and there, but so far no one has one single constructive idea on which you could build a life-philosophy, or a program, or a worthwhile and lasting organization. In contrast, the Church of the Creator has a never-ending program of promoting the welfare of the White Race and improving its genetic qualities for the next million years. Whereas they are all negative, we have the greatest goal and program in the history of the White Race.

So much for now. I will be up in North Carolina during the last ten days of the year. Please let me know whether you received the carton of 32 books sent earlier. Let me know more about yourself and your past activities, if you will.

Best wishes for a productive and Creative New Year.

Creatively yours,
B. Klassen, P.M.

P.S. Since this letter was typed I have received yours of December 16th along with the $32.00 check and the $3.00 cash. Thank you very much. We will send out the book to Mr. Knepprath today. Also please let me know your telephone number in case I want to contact you. **B.K.**

Mr. E. W. Vaden **January 6, 1975**
Delray Beach, Florida

Dear Edgar:

I read your letter in today's SUN SENTINEL and note that you are again belaboring a dead horse, namely Socialism instead of putting your finger on the real culprit, namely the International Jew.

A few months ago I sent you a copy of my book "NATURE'S ETERNAL RELIGION". In the book I have a chapter on RACIAL SOCIALISM which I presume you have read. In this chapter I carefully distinguish between socialism and collectivism, per se, and the corrosive, destructive influence of the Jewish conspiracy.

Now, Edgar, if you just use a little bit of common sense you can't help but come to the same conclusion that every advance that the White Man has made has been done because he successfully organized society, i.e., he acted collectively. Every government, every organization, every church, every school, etc. is a collective effort or socialist. Without such collective effort you could not have a country, or law enforcement agencies, schools, airports, harbors, or anything else, for that matter. Acting as sole individuals we would be back into the primitive stage of development of the Australian bushmen. Is that what you want?

Let me repeat: it is not collectivism or socialism that is the culprit, but Judaism. The Kosher Konservatives are adding nothing but confusion to the problem by berating socialism per se. They are thereby putting up a very useful smoke screen for the real culprit — the perfidious Jew.

Is that what you want to do? If not, why don't you go after the real criminal — the real conspiracy and render a service to the survival of the White Race.

Drop in some time and we'll discuss further action, or let me hear your answer by mail.

Creatively yours,
B. Klassen, P.M.

Gentlemen:

Thank you for your book "The Fountainhead" received today. I read many of Ayn Rand's books several years ago including "Atlas Shrugged". Whereas at one time I was impressed with her philosophy, I believe we, of the Church of the Creator, have progressed far beyond her ideas.

We are forwarding a copy of our bible, "NATURE'S ETERNAL RELIGION". We hope that it will make a meaningful impact on the cause we are fervently promoting — the survival, expansion and advancement of the White Race — the epitome of Nature's creation.

Should you be motivated to support this noble cause, we hope you will become a distributor for our bible. We have special rates for our distributors.

Segment 16

Mr. Paul Englert **January 13, 1975**

Homosassa Springs, Florida

Dear Paul:

Many thanks for your morale-lifting letter of January 9th. We are mailing out 20 copies of "A Real Case Against the Jews" today. True, it is almost 47 years old, but its main impact is timeless, and I believe, it packs a lot of wallop in confirming what I believed was my original discovery: namely that the Jews concocted Christianity in order to destroy the White Race.

I have underlined those parts of one copy again that I believe stress the above point. Whether you want to do that on all copies or not is up to you, but I believe it is helpful.

I hope you establish a rapport with Eleanor Kramer. If we can get her to see the light, I believe we will have a most valuable worker back in our camp.

Regarding Jas. H. Johnson and the TRUTHSEEKER, I agree that his single-minded Atheist philosophy is most sterile and has no positive solution to replace the destructive Christian philosophy he is exposing. This is the trouble with most of these groups. All negative, and nothing positive to build on. I get tired as hell of just hearing our people complain, complain, complain, and then when you ask them what can we do about it, what are they doing about it, they come up with a big flat blank. As Lenin (the Jewish fiend) said "Ideology without action is sterile". Very true, and sadly most of those supposedly on our side don't even have an ideology, much less action.

However, on the positive side, I would say the TRUTHSEEKER is doing a lot of good in digging up a mass of old out-of-print books that are highly informative about the Christian conspiracy. Although I wrote "NATURE'S ETERNAL RELIGION" before I ever heard of the TRUTHSEEKER, my own education in this field has been greatly enhanced by the dozens of books I have ordered from them and read.

Am enclosing a copy of the 14 POINTS OF THE NATIONALIST WHITE PARTY which I started before I saw the whole picture. It is, of course, outdated by now and superseded by "NATURE'S ETERNAL RELIGION". However, it was the transitional stage that gave me the impetus and inspiration to proceed to the founding of the CHURCH OF THE CREATOR. So it was not completely a lost motion.

No, I did not form it in conjunction with the N.S.W.P.P. I have never been quite sure whether or not some of these anti-Jewish groups are for real or whether they are the "organized opposition". If you re-read the chapter on "False Leadership" you will, I am sure, under-stand what I mean, without me elaborating any further. I too subscribe to their paper and also to the THUNDERBOLT out of Marietta, Ga., put out by the National States Rights Party. They both put out a lot of real good material, but for various reasons, my suspicions still endure.

Enclosed also is a copy of the people I have written and also sent books to (from your list). Have received reams of literature from a lot of them, but little positive response. The only exception is from Garry De Young, of the Minnesota Institute of Philosophy, who has responded with a long letter of support of a kind. Mostly it is down with Christianity, but practically nothing beyond that. I have written him a long letter pointing out to him there is a lot more to it than that — so we'll see what happens. He seems to be full of energy — most of it misdirected — a Rebel without a cause.

You might be interested in the fact that the only hostile reply I received was Independent Publications. They came out with the usual "racist poison", "Nazi", etc. It clearly identified them for the Jewish plant that they are.

In total, very little positive constructive material was gleaned out of all the literature I received. However, there are still about half a dozen to be heard from.

Regarding your previous suggestion, you can go all out in boosting our creed and THE BOOK to any and all individuals and/or group organizations that you want to. I would particularly like to have you write the N.S.R.P. in Marietta, Ga. and ask them how they can ignore my book, how they can be pretending to fight the Jews and at the same time promote Jewish Christianity, etc. A boost from a third party is always more effective than blowing your own horn. I personally know Dr. Fields and J. B. Stoner of the N.S.R.P. and THUNDERBOLT, but fail to understand their schizophrenic stand of anti-Jew and pro Christianity. Unless, of course, ---.

Am sending a book and letter to R. M. Higdon of Colo. Springs. Keep searching for (a) dynamic young leadership and (b) a financial angel who can put this whole movement into high gear. They are out there and we'll find them. WE SHALL OVERCOME.

So much for now. I hope you have received either carton no. 1 or no. 2 by now. Let me hear further.

For a Whiter and Brighter World,

Creatively yours,
B. Klassen, P.M.

Mr. Dewey Collett
Erlanger, Kentucky

Dear Mr. Collett:

Thank you for your letter of January 21st and also the copy of SECULAR SUBJECTS.

You say your organization SAS is primarily in advancing the philosophy of Atheism. As I have stated before Atheism is not enough, and is at best purely negative. All it really says is "I don't believe in the other guy's spooks." But it is hardly a philosophy, much less a positive philosophy to live by. It is like somebody asking you "where do you live?" and you say "Well, I don't live in England." It is negative.

True, you don't live in France, Italy, Afghanistan or Timbuctoo either, but the negative answer doesn't tell me much about where you DO live. It is the same with Atheism. It tells me what you have rejected but you haven't told me much of what you are for.

I am glad you have read the book, "NATURE'S ETERNAL RELIGION". I hope that you therein have found an answer to what your purpose in life must be, what is worthwhile, what program you can pursue to justify your stay here on earth.

I hope you will think about this and will carry the Creativity message on to others.

Keep fighting for a Whiter and brighter world.

Creatively yours,
B. Klassen, P.M.

Ms. Katherine French **January 27, 1975**
Lubbock, Texas

Dear Ms. French:

First of all I want to thank you for the quantity of literature you sent me, and also, under separate cover, the book DIGNITARIAN WAY. I have read much of the material in the first enclosure, and find it an amplifying addition to my already well stocked library on the religious hoax and on the Jewish conspiracy in general.

Just recently, it so happens, I had already read the DIGNITARIAN WAY, and found to my surprise that A.U. Brown had already preempted my idea, which I arrived at on my own volition, that Christianity was invented by the Jews to bring down the great Roman Civilization.

When the Jews sold Christianity to the White Race they accomplished their most devastating blow to the White Man's advancement. Through it they still control the mind and soul of the White

Race today. See “The Real Case Against The Jews” enclosed. The Arabs DID NOT sell us Mohammedanism — a point to remember.

Now about your letter. You seem to emphasize that the malaise that grips the world is a long-standing Semitic conspiracy. That much I agree with and of course pursue in my book. However when you contend that it is primarily an Arab conspiracy with the Jews only playing second fiddle, then I say that this theory completely flies in the face of mountains of past history and the facts that are obvious today. I know there are all kinds of books out that “prove” (there is no such thing as “proof”. “Proof”, like beauty, is only in the eyes of the beholder) that we are being visited by flying saucers from outer space, that the earth is hollow, etc., etc. But writing a book is only a juxtaposition and jumble of words and does not “prove” anything. Just because somebody wrote that the Jews walked through the Red Sea on dry land, or that Joshua “made the sun stand still”, doesn’t “prove” anything except perhaps that whoever wrote it was a liar.

Transferring the aegis of the world Jewish conspiracy to the Arabs is absurd. It reminds me of the present campaign that is afoot of claiming it is really the BRITISH-ISRAEL Identity group that is the central culprit and that the British Empire (what empire?) is taking us over. I view it as just another clever ruse on the part of the Jews to confuse. Point the finger at everybody else. Throw out a thousand confusing ideas and you can be sure that the stupid Goyim will latch onto 999 of them — that is the Jewish modus operandi.

The Arabs are not the culprits. It just so happens by a quirk of geography that these stupid Arabs are sitting on a large part of the world’s oil reserves, a quirk that has only come into prominence in the last few decades and will be exhausted in the next few decades. In contrast, the Jews have been in the business of destroying the White Race for thousands of years. The Arab oil had nothing to do with any cunning foresight, planning, conniving or intelligence. In fact, the Arabs are a stupid, disorganized mud people, who are playing their trump cards extremely poorly. If they had had any brains at all they would never have allowed the Jews to get a foothold in Palestine in the first place, and having goofed on that, they would have run the Jews out post-haste. But, they are 120 million strong, have the oil, the money and the numbers, they are divided, bickering amongst themselves and completely confused and ineffective.

Has it ever occurred to you that even the Arab Oil is probably being milked and harvested by Jews? It has to me. If the Jews are sharp enough to fool the White people and pass themselves off as one of us, certainly they can infiltrate and fool the Arabs and get into key positions of their government, finance and other nerve centers of power by passing themselves off as Arabs. Since Jews and Arabs are both Semites and physically hardly distinguishable, this would

be duck soup for the Jews. And don't think that they haven't done it.

So let's stick to the main issues: **THE SURVIVAL, EXPANSION AND ADVANCEMENT OF THE WHITE RACE.** That's what it is all about if you are WHITE. Let's concentrate on getting all the monkeys of the world off our back. Let's get the Jews and all the other mud peoples off our back. Let's build a world of beauty, culture, civilization and prosperity — let's build a WHITE WORLD.

The best program with which to do this is build the program of **CREATIVITY** as set forth in **"NATURE'S ETERNAL RELIGION"**. If you know of any better, I'd like to hear about it. Spread the word, spread the idea — organize, proselytize, propagandize: The best place to start is by distributing **"NATURE'S ETERNAL RELIGION"** to all the important individuals with whom you are in contact. We have a special offer of a carton of 32 books for $32.00. We would like to ship you a carton. May we?

Also would you care to tell me a little more about who you are and your background?

Keep fighting for a Whiter and brighter world.

Creatively yours,
B. Klassen, P.M.

Mr. Garry DeYoung, Ph.D. **January 27, 1975**
Minnesota Institute of Philosophy
St. Paul, Minnesota

Dear Mr. DeYoung:

Thank you for your letter of January 15th.

Evidently you found two instances of "direct offense" in my previous letter. This is really unfortunate, since none was intended in either case. It seems to me that you are extremely thin-skinned and hypersensitive about anyone expressing **THEIR** ideas, should they conflict with yours. Are you against freedom of speech? Or only for yourself?

This is rather a strange and immature attitude on your part. You seem to think it is great sport to bombast Christianity, Theism and all the other peoples' spooks and that you have a perfect right to do so. In this I agree with you and I even agree in your criticism. However, why is it that when somebody suggests that there might be a few pages missing from your philosophical portfolio you scream and squeal "foul" like a stuck pig?

What I said in my previous letter is that Atheism is not enough. It is purely negative. It leaves me cold. I will further add here that it answers nothing, provides no program, no hope and is strictly from hunger as a philosophy, if it can be called such. All it really says is "I don't believe in the other guy's spooks." But it is hardly a

philosophy, much less a positive philosophy to live by. It is like somebody asking where do you live?" and you say "Well, I don't live in England." It is negative.

True, you don't live in France, Italy, Afghanistan or Timbuctoo either, but the negative answer doesn't tell me much about where you DO live. It is the same with Atheism. It tells me what you have rejected but you haven't told me much for what you are for.

In "NATURE'S ETERNAL RELIGION" you have all these answers laid out for you. We have thoroughly analysed the disease that is destroying us, and we have also laid out the salvation in great detail. The overriding purpose is the survival, expansion and advancement of the White Race, the highest achievement in Nature's universe. A higher goal than this does not exist. You are either for the White Race or a traitor to it.

If, after having a Ph.D. and being chancellor of an Institute of Philosophy, you still can't distinguish the White Race from the inferior mud races, then I believe you are hopelessly confused, and I am not going to waste any further time trying to straighten out your thinking. All I can do is hope you will see the light of your own accord.

Creatively yours,
B. Klassen, P.M.

Dr. W. M. Hart
Los Angeles, California

February 3, 1975

Dear Dr. Hart:

This will acknowledge your curt reply to my letter of January 9th regarding our book, "NATURE'S ETERNAL RELIGION".

In your reply you state that you never got past the dedication to "The Noble White Race" and immediately jumped to the conclusion that it was "racist" and therefore must immediately be dropped like a hot potato.

There is some suspicion in my mind that you did read considerably further in the book and that you are not quite honest about the point at which you stopped, if you stopped at all before the end. Obviously you did not like what you read because it exposed your own fraudulent racket of disgorging a slippery mess of garbage and double talk on your gullible and unsuspecting victims and taking in exchange cold hard cash. You smooth talking bunco artists then expertly convert this cold hard cash into tangible real estate and other goodies for your own comfort and self indulgence. Then you point to the opulent real estate fraudulently acquired as visible proof of the correctness of your "doctrine", which, in reality, is no doctrine at all. It is nothing but garbled double-talk, deceptively dressed in an attractive, sweet-sounding wrapper, but in essence nothing more

than fuzzy, vacuous platitudes, with much sound and fury, signifying nothing.

Your "religion" vaguely infers that you are "Christian", which in itself is the biggest hoax and fraud in all history. But you reject most of the creed of Christianity, do not accept heaven or hell, or at least not hell. You realize of course, that you are thereby completely undercutting Christianity itself by denying that it is the "unalterable word of God". For if it was "God's Word", then there is no room for any deviation, or any error whatsoever. You further talk about an all-encompassing "God", the definition of which is so vague and fuzzy you might as well be talking about the ether that supposedly fills all space, about which too we know nothing.

In short, you have one of the oldest and safest rackets in the world — peddling meaningless nonsense and hocus-pocus in exchange for good hard cash. You know it and when my book exposes it, your grinning but deceptive benevolence turns into the wrathful fangs of a snake.

Nor do you have any great claim to your teaching being of a high moral nature, "uplifting" to your victims. Right here in Broward County the leader and founder of your deceptive church is a man who, I am told, cheats on his wife, drinks like a fish and fornicates repeatedly with his secretary. This I am told by some of the leading financial angels who originally helped build and pay for the church. His cynical gratitude in return is to deny all, and defame his accusers.

So I ask you — if this is what your damned religion does to its leaders, how can it be so "moral" and "good" for the hapless followers? The answer is, of course, that it isn't any good for anything or anybody, except the top echelon who is on the take. Nor is there any "science" in your religion. You are prostituting the word in connection with your name. The only "science" involved is how to extract the maximum of cash with the least pain from your gullible victims.

In your case, where you have yourself ensconced in Beverly Hills, one of the nation's wealthiest communities, you can really go to town with your racket. I suspect that you even have a few wealthy Jews kicking into the collection plate, but how many niggers do you have? Since the discussion of race is such a taboo subject, how does it happen you don't have a totally integrated membership? The answer, of course, is that you don't believe your own double-talk, but like Herbert Armstrong and all the other expert religious bunco-artists, you want to continue in raking in the dough, and rake it in you do.

Well, good luck in your racket and "may peace be with you".

Creatively yours,
B. Klassen, P.M.

Mr. B. T. Rocca **February 3, 1975**
San Francisco, California

Dear Mr. Rocca:

This will acknowledge receipt of your letter of January 22nd. From the background in your letter I am convinced that you are an intelligent and capable individual as is evidenced by your successful business background. I note also that you have an engineering background, a background I share with you. Your letter is intelligent, and well written and logical for the most part. Also I am happy to learn you are not a Jew.

However, your good logic seems to leave you when you start talking about equality of the races. This just is not true, Mr. Rocca and you know it. Just because you do business with many races and have friends among them does not make them intellectually or culturally equal, or equal in any other way. Emotionally and by compassion you may wish they were, but again this does not make it a fact, any more than "believing" in spooks in the sky, heaven and hell, etc. turns those fantasies into facts.

The cold hard facts of Nature are these: All species are unequal, and even creatures in the same species are unequal. Of all the human species, the White Race is by far the most intelligent, creative and productive race on the face of the earth. All you have to do is turn page after page of any encyclopedia and see which race has produced the overwhelming amount of scientists, inventors, physicists, mathematicians, artists, musicians, you name it! They are practically 100 per cent of the White Race. The fact that we have mongrelized fringes neither alters nor obliterates that fact. It is incomprehensible for an intelligent man of your calibre to claim that the African Hottentots or the Australian bushmen, or the American Indian, (unmixed with White blood) or the Eskimo, has proved equal in intelligence, creativity or productivity.

Now since the White Man's technology is helping to cause a population explosion among the mud races while his own numbers are declining at a rapid rate, I believe this should be of some concern to those of us who are loyal to our own race. It should be because we are headed on a collision course with disaster. We are headed for suicide and extinction, a calamity of massive proportions. As you show in your letter, the population of the Philippines is doubling every 20 years. Similar phenomena, more or less, is happening with India, South America, Mexico and most of the other mud races of the world. The White Race meanwhile is shrinking. It does not take a great mathematician to predict where the White Race will be in a generation or two — extinct.

Now, this is not an accident, nor is it natural. This is what my book is all about. I contend that the highest law of Nature is the survival, expansion and advancement of your own kind. This is an unnatural violation of Nature's law. It is instead promoting its enemies. This too is no accident. It is viciously and fiendishly being promoted by the whole worldwide Jewish network. It is being pushed with a fury unparallelled in all history. All you have to do is watch any T.V. program and you will see race-mixing being pushed in practically every program and even every ad. In the meantime the Jews in the synagogues and their own newspapers preach racial purity to their own race.

Their obvious objective is to mongrelize and pull down the great White Race to where they will be even easier to enslave and control like a bunch of stupid cattle. They are rapidly succeeding. The fact that you have friends among the Jews and all the other mud races may blind your judgment, but it does not change the grim danger of extinction the White Race now faces.

That is what my book is all about — to prevent this tragedy from happening. It is to straighten out the muddle-headed thinking with which the Jews have completely befuddled the White Race — the loftiest creation produced by Nature at this stage of evolution.

We do not have "to live along with others". In fact, the Jews and the mud races won't let us survive, even if we collaborate with them, as we have. We can and must pursue the policy of expanding our own and shrinking the parasitic mud races whom we are carrying on our back. If we do not, we will be exterminated, despite all the stupid "hopes" and the foolish, mushy tweedle-dum of the bleeding hearts among our own. If the Japs had won the last war, they would not have been kind and generous to us. They would have expanded their own to the limit of their abilities and exterminated us. Wherever the niggers take over in this country they make it impossible for the White minority to survive. And so it is worldwide.

Please read again the chapters on "The Importance of Land and Territory" and "Manifest Destiny" in Part II. of my book. In fact, why don't you read the whole book again and think it over. It makes a lot of sense — although it might take time and repeated study to really hit home.

With your wealth you could help promote the book and the survival of the White Race. If the White Race goes down the drain, with it will go civilization, culture and everything else that you and I deem worthwhile. Think it over.

For a Whiter and brighter world,

Creatively yours,
B. Klassen, P.M.

Mr. T. W. Johnson **February 17, 1975**
St. Louis, Missouri

Dear Mr. Johnson:

Thank you for your recent letter. We will be happy to take your application for the ministry of the CHURCH OF THE CREATOR. Enclosed in duplicate is the application. Please fill out, and if favorable, you will be ordained.

We expect our ministers to exert a special effort to promote the creed of our church; to be exemplary in their public image and behavior; to recruit members to our cause and to distribute as many copies of "NATURE'S ETERNAL RELIGION", the White Man's bible, as possible. We would expect at least a carton of 32 books to be distributed each month. We supply them at $32.00 per carton, postpaid, to our distributors.

Are you ready, willing and able to meet these requirements?

For a Whiter and brighter world,

Creatively yours,

B. Klassen, P.M.

Prof. R. Ben Kriegh **February 20, 1975**
Boulder, Colorado

Dear Prof. Kriegh:

Thank you for your letter of February 9th. I don't know who mailed you a copy of our book, "NATURE'S ETERNAL RELIGION", but I'm glad they did. This random act may ultimately have some very important ramifications in your future.

You bring up several interesting points in your letter that require more time to cover than I can set forth in this letter. I hope that sometime soon we will be able to get together and go into further discussions. I believe that the phenomenom of Creativity will become an historic event of the first magnitude and that you and I will be credited as being some of the earlier initiators of this worldwide White movement.

Thank you very much also for the $21.00 received. Since the book was printed, in our eagerness to get widespread distribution as soon as possible, we have been giving a special rate — a carton of 32 books for $32.00. Therefore, we shipped you a carton of 32 books instead of just the ten you ordered. If you wish to send us another $11.00, this will cover the carton in full. However, this is optional, at your discretion, since you did not order that amount.

The fact that you and I have reached more or less the same conclusions from basics is very interesting, and I think it confirms what

you say, i.e., a testament to the fact that our ideas are both natural and logical and characteristic of the true Aryan mind. It is similar to two scientists working independently on the same thesis in different parts of the world, and coming to the same conclusion.

Regarding your question whether the affinity for Christianity is something that may or may not be inborn in the typical White racial individual, I think the answer is overwhelmingly, no, it is not. On the contrary, it is an alien creed, completely repugnant to his native instincts. The White Man in his natural element is a fighter, builder, creator. Christianity is the very antithesis of all this. Christianity subverts and destroys all these natural inclinations, and instead, tries to mold our people, e.g., the Romans, into a pacifist, whimpering milksop instead. I am enclosing a copy of the Marcus Eli Ravage tract, "THE REAL CASE AGAINST THE JEWS" (Ravage himself was a Jew). He has this to say about the matter. In effect, that you Gentiles have been neither able to swallow or digest Christianity, nor have you been able to reject it, and he clearly indicates that it was the Jews who foisted this teaching upon us nearly 1,900 years ago.

Regarding the philosophies set forth by either the Nazis or by the N.S.R.P., I have the following observations:

Regarding the Nazi Party — I have already outlined in my book that it has several shortcomings and I will briefly again review them here. They are:

(a.) Their book, MEIN KAMPF, is completely out of place in present day America and was specially geared for a prostrate, depression-ridden, bankrupt, defeated Germany of the 1920's. There is not one American in a thousand who can read the book and intelligently either understand it, or get fired up about it.

(b.) Hitler's creed was basically concerned with Pan-Germanism, whereas we of the CHURCH OF THE CREATOR mean to embrace the entire White Race in our movement. We believe that for too long the Jew has used Nationalism to divide the White Race.

(c.) He did not tackle the problem of Christianity, and I say that unless we make our racial survival the basis of our religious creed, we are spinning our wheels.

(d.) Any philosophy that does not get at the root of the problem, namely, Jewish Christianity, just does not have the answer.

I have personally met Matt Koehl and I am not all impressed with him. He is a poor speaker. Several of my supporters have broached the subject of religion to him and he prefers to ignore it. Furthermore, in present day America the Nazi symbol, as such, is a completely misunderstood and misrepresented insignia that I believe at this stage, it is more of an obstacle than a benefit in our fight for the survival of the White Race.

The NATIONAL STATES' RIGHTS PARTY on the other hand has some good general principles regarding the White Race and a real good paper in their THUNDERBOLT. However, they seem to be promoting two different and diametrically opposed and incompatible philosophies at the same time. N.S.R.P. is pursuing a suicidal "a house divided against itself" policy, and, I suspect, deliberately. In contrast CREATIVITY is in perfect harmony with the White Man's natural instincts and the Laws of Nature. They (N.S.R.P.) are promoting White Supremacy on the one hand (which is good) and at the same time they are promoting Christianity, which is bound to undercut and nullify any headway we might make in preaching racial integrity. I know both Stoner and Dr. Fields personally. In fact, Stoner has spent a couple of days as a guest at my house. I have strange misgivings about their sincerity about this Christian bit, and am somewhat puzzled by their promotion of it. Neither one has written a book that spells out their creed in depth. I have seen the same double-talk practised in some local churches I attended about ten years ago, and the trick is to pull in all the good White racists and slowly turn them around and make Christian pacifists out of them instead. And I'm very much afraid that the N.S.R.P., when they get a big enough following, will pull the same caper.

In any event, I would rather fight for a movement that may fail temporarily, but will triumph in the long pull because it is fundamentally sound, than one which is inadequate and can never really triumph because it has a shoddy foundation to start with. The present saleability of a creed should not be the main criteria as you suggest, but rather its correctness and its future potential.

Now regarding Socialism. It is true, of course, that the word Socialism means many things to many people and the Jews have bandied the word about so much that nobody knows exactly what it means. However, I repeatedly define it in my book as ORGANIZED SOCIETY.

What I am saying is quite simple. What we need is to primarily organize our whole society for the promotion and advancement of the White Race. In other words, we must collectively practise WHITE RACIAL TEAMWORK, and this is what RACIAL SOCIALISM is all about in my lexicon. I think this is clear, simple, and makes good sense. We of the CHURCH OF THE CREATOR are not particularly concerned about the theories and dogmas of Capitalism, Socialism, Collectivism, Free Enterprise, etc. We repeatedly revert back to the same question: What is best for the White Race? We want to organize a viable White Society that will best serve the interests of the White Race. Hitler did a pretty good job of it for the German people. In this regard we are convinced and determined that the White Race must organize, must unite and work as a team for its own survival,

expansion and advancement. Nature clearly and repeatedly points out that eternal struggle is the price of survival. Organized and united the White Race is an awesome power that transcends all obstacles — a power that dazzles the imagination. Let's strive to harness that tremendous power for the benefit of the White Race.

I hope that this clarifies some of the questions you raised. I'm certain there are many more. I furthermore hope that this will coalesce and crystallize your thinking to the benefit of becoming a White racial activist.

Be sure to notify me when you receive the books, since we have had some non-deliveries, what with the Post Office being in the mess that it is in.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Bruce Russell **February 24, 1975**
Glen Ridge, New Jersey

Dear Mr. Russell:

Thank you very much for your five page letter in which you express your thoughts and comments about our book, "NATURE'S ETERNAL RELIGION". I very much appreciate the time you've taken to both study and give us the benefit of your comments.

From your letter I gather that you are 28 years old, and you have not only evidently done quite a bit of thinking on your own, but also considerable traveling. I realize that to change over from your previous convictions, although it has taken a number of years for you to do so, seems to me that you are still in the process of changing and maturing your life's philosophy. You have evidently reached the stage where you're saying, "No, I don't believe in Christianity anymore — Yes, I believe in the Laws of Nature," but have not quite reached the stage where you have crystallized this thinking into the main point of our book, which is, "What can I do with my new found information that will contribute to the survival, expansion and advancement of the White Race?"

The more you think about it the more you will come to the same conclusion that I have, that the survival, expansion and advancement of the White Race is not only the greatest philosophical goal we can reach for, but that very goal is already dictated to us by the laws of nature. Once we get the White Race united and organized, we will have the greatest and finest force on the face of the earth working for our present and future betterment. I would like to see

you utilize your talents and energies to help bring this about. Evidently, if you have done extensive traveling, you are not completely without means. Therefore as a start in helping contribute to the advancement of the White Race, I would like to see you distribute to your many contacts a carton of 32 books which can be obtained from us at a cost of $32.00 per carton. This would be a start. If you then feel dedicated to further action we pretty well have the program outlined in Chapter 28 towards the end of the book.

Regarding the Jews, if they're not the root of all our problems, they are, at the very least, the source of most of our problems. You mention that you take a dim view of motor cars and Henry Ford, and that motor cars as such contribute to some of our problems. I would say that it is not the technological advances that cause our problems like pollution, etc., but the expansion of the population itself is the problem, and mostly it is the expansion of the parasitic non-producing mud races that are pulling us down. Invariably you will find that the people who laud their desire to be out in the wilds of nature, as soon as they have such a spot of land out in the wilds, they immediately want telephones, mail delivery, paved roads, motor cars, refrigerators, and all the other benefits of civilization that they are so loud in decrying. So I think it is rather pointless to denounce those creative and productive members of the White Race that have helped to bring civilization. There is nothing wrong with civilization — it is the Jew's destruction of all that is good in our civilization that spells our doom, unless we change this situation. Enclosed is a copy of THE THUNDERBOLT which points out the preponderance of Jews in control of most of the key positions in government and elsewhere.

Thank you for the $3.00 received. I would appreciate hearing from you.

For a Whiter and brighter world,

Creatively yours,
B. Klassen, P.M.

Mr. William K. Shearer **February 6, 1975**
Lemon Grove, California

Dear Bill:

You will probably remember me in some of the Wallace campaigning in which we participated back in 1967 and mutually repudiated Wallace in '68. You will also probably recall that I was at one time Chairman of the Florida AIP (1969) albeit my tenure was short and stormy.

Since then I have made an agonizing re-appraisal of the dilemma the White Race finds itself today; and why we cannot and never will win by the old political methods that have resulted in perpetual failure for the last two generations. From this re-appraisal emerged a creed and a program which is embodied in a book I have written called "NATURE'S ETERNAL RELIGION".

On January 14th I mailed you a copy of this book. I wonder if you have received it. If so I hope you have read it and that I will be able to get the benefits of your comments.

I see in your flyer that you are now again courting the perfidious G. C. Wallace. Is this for real? How can you, when Wallace has persistently betrayed the White Race and is now all but sleeping with the freeloading niggers?

Please let me hear from you again.

For a Whiter and brighter world,

Creatively yours,

B. Klassen, P.M.

Mr. Joseph Czumbil **February 17, 1975**
Wakeman, Ohio

Dear Mr. Czumbil:

It was good to hear from you again. Your letter brings up several interesting questions. I will attempt to answer your letter in two parts.

1. The PROBLEM and the SOLUTION

You infer in your letter that from our meeting you received the impression that I had an "urgent need to find a quick solution," whereas you believe it will take centuries to do the job of re-orienting the thinking of our people.

Neither one of these contentions is exactly accurate. I am not looking for a quick solution, because I know that the task is tremendous, and the road hard and long. What I am saying is that disaster is imminent and real for the White Race and it is absolutely urgent that we get organized. Once the White Race is mongrelized the process is as irreversible as putting a scrambled egg back into its original form. And since the Jews are being diabolically successful in their program of mongrelizing and exterminating the White Race, we have to get going NOW. I have no idea how long our fight might be and have no timetable. But I can assure you of this: we don't have hundreds of years to do our job. By that time our progeny will be a degenerate horde of mindless beasts, brown in color and sunken back into crude jungle existence similar to Haiti and India.

Now I have no illusions about accomplishing an overnight solution. I repeat, I have no idea how long it will take. Actually, even after the White Man has finally wrested control of his destiny back into his own hands, our CHURCH OF THE CREATOR program of upgrading and upbreeding of the White Race and colonizing all the good lands of this planet will be endless. This is what I like about CREATIVITY. Our job is never done.

However, what is urgent, MOST URGENT, is that we get organized to implement our program AS SOON AS POSSIBLE, otherwise we will never again be in a position to take action. It is for this reason that I deplore the continual rehashing of the problem, when we should be moving to the next stage — organization and action. You will remember me reminding you of this again and again. I cited to you the pointlessness of somebody coming along and telling you again and again that you have a flat tire when you already know you have a flat tire. Once you know the problem, it is imperative to move to the next stage — action. No point in getting stalled with merely an endless rehash of the problem.

Unfortunately I find that too many of our good people get hung up on rehashing the problem rather than devising ways and means of getting organized and taking action. And one of the reasons, I guess, is that it is so much easier to just complain and recount what the Jews have done to us this week than it is to swing into action. As I reminded you when you were here, I have become increasingly intolerant of this repeated failing among some of the people who should be our best workers. Many people say "Well, I don't know what to do." This is not true. One of the easiest and most effective things they can do is distribute the book, "NATURE'S ETERNAL RELIGION", the White Man's bible. If they want to go further they can organize a church group. In fact, the chapter on "The Road to Greatness" spells out the whole program.

The urgent thing is that we take action NOW and get going,

before it is too late. It is pointless in speculating either about how long it might take or what our chances of success might be.

2. Your second question — Are moral laws eternal, immutable, etc., as are the laws of Nature?

This is a good question and my answer is a big flat NO. I point out in my book that Nature is not in the least concerned with the morality of its procedures. So called "moral" laws, like civil laws, are man-made and forever changing. For instance the Hindus would consider our irreverence for their "holy cows" as abominal, and the fact that we kill them and eat them as horrible. We, on the other hand, consider their superstitions as idiotic, and consider the cannibal niggers' practice of eating people as horrible.

As I state in the book, if there is a moral law in Nature that is eternal it is doing that which will contribute to SURVIVAL OF THE SPECIES. Nature cares about no other "moral" law. If you will study the life of a coyote, or a rattlesnake or a fish, or millions of other species, you will find that Nature condones killing, treachery, camouflage or ANY MEANS WHATSOEVER that will contribute to the survival of the species.

As I state further in my book, I have a very low regard of the so-called Ten Commandments, which are a loosely written jumble in two different parts of the bible and don't even coincide in their two versions. In the first place, the first three commandments have absolutely no bearing on us White Gentiles. Since we were never "delivered out of the Land of Egypt," apparently the Jewish god is only talking to the Jews, not us. In fact we are more closely related to the White Egyptians of those times, whom the Jewish god considered his (and the Jews') enemy. Secondly, about observing the Sabbath, who knows what day that might be since the world has been around for billions of years and was not created by any spook in the sky six thousand years ago, in any event. It is just a custom that has developed from a number of civilizations and the Jews merely copied it from them, and we from the Jews.

I could spend a lot of time taking the rest of the Ten Commandments apart, but I have already done so in the book. In summary, I re-state that they are a crude compilation the Jews copied from primitive peoples before them. There is a lot of silly nonsense in them and compared to the vast network of intelligent and brilliant laws the Romans devised, the Ten Commandments are next to nothing.

No, they do not embody any permanent eternal, moral laws. The greatest moral laws that I read in the Laws of Nature is — SURVIVAL OF THE SPECIES at any cost. Nothing is more important. If your kind isn't around any more, everything else is meaningless. In Creativity we have enshrined this law as our Golden Rule — DO THAT WHICH IS BEST FOR THE WHITE RACE. (P.275)

I appreciate your sending the clippings. I have made copies and are returning them to you. Again they are of value only in "What are the Jews doing to us this week?" Which again is re-stating the problem.

Rather than receive more news in the vein of how we are going down the drain, I would, however, much prefer to hear some positive reports about how many books are being distributed, how you have won more converts to our cause, how somebody is starting a new CHURCH OF THE CREATOR group or how we can tie in with some newly discovered White activist group that is fighting for the Survival of the White Race. In short, I hear too much about how we are losing, instead of what are we doing to build an active, effective fighting organization.

I would prefer to have you THINK and ACT along constructive lines. We don't need to be told again and again we have a flat tire when we already know it. We need to get it fixed. We now need organizers and doers. We now have the tools and we have the program. So let's get with it.

How have you done with the books you picked up at the office? Let me hear some GOOD NEWS.

Creatively yours,
B. Klassen, P.M.

Prof. R. Ben Kriegh **March 10, 1975**
Boulder, Colorado

Dear Prof. Kriegh:

Thank you for your most interesting letter of February 25th, in which you further delineate your philosophical observations and conclusions. There is nothing in any of them that I can find fault with. You further observe that whereas I had a more pragmatic approach, you are pursuing a more academic basis. The fact is of course that we need both. First of all, our philosophy must be based on sound principles that are in harmony with the laws of nature, i.e., reality. Secondly, having found our way through this maze of ideas that flood the world today, many of them intentionally erroneous, it is then our solemn duty to disseminate our ideas to the best of our ability and put them into practice for the benefit of our race. As Lenin so aptly said, "Creed without action is sterile".

At this point, I feel that the creed of the CHURCH OF THE CREATOR, namely, CREATIVITY, is firmly established in our book. Whereas it may not be perfect, I am fully satisfied that we have by far the best there is. As in manufacturing a car, for example, you design the best you can, and finally there comes a time when you

have to freeze the plans, make the dies, and get the model into production. If Henry Ford had kept frittering away at his plans and altering them forever and a day, he would never have gotten the Model "T" into production, and would have gone broke. It is the same thing with us. I believe the time has come when we should freeze the dies, and go into production. This is what I am trying to bend my every effort towards.

Colorado apparently is fertile ground for our philosophy. I have a young man coming in from Colorado Springs this Tuesday, who is thoroughly dedicated to devoting his life towards making CREATIVITY the worldwide religion for the White Race. We are getting together to discuss ways and means, plans, programs, buildings, etc. It is my intention to have him be the executive head of the movement, should he prove to be capable and qualified.

In answer to some of your questions — we have no franchise setup, dues, or any means of policing the movement. We just don't have the manpower or organization to do so. We hope to get organized soon, but so far our efforts in the field rest basically on the dedicated members themselves. The procedure for organizing an active church group, are set forth in the second to last chapter in the book "The Road to Greatness". We have ordained several ministers in the different states. If you would like to apply, we would be glad to send you the forms.

Other than that, our main thrust has been the distribution of the book, "NATURE'S ETERNAL RELIGION". We want to get ten million copies into the hands of our White racial comrades as soon as possible. Once we have gotten that far, we can consider the battle as good as won.

In the meantime, I hope that you will bend every effort to get an active group going amongst your associates. It is gratifying to hear you confirm my conclusions about the N.S.R.P., and about the Nazi party. Whereas we may be behind both of those at this time, both organizationally and timewise, I believe our prospects for total success are much superior.

Keep me informed as to what progress you are making in your area.

For a Whiter and brighter world.
Creatively yours,
B. Klassen, P.M.

Mr. Rudy Vallee, Radio & Screen Star **March 3, 1975**
Hollywood, California

Dear Mr. Vallee:
I have recently been reading about your continuing struggle

against the news media and the so-called “establishment” in your efforts to restore law, order and sanity in this country.

I highly commend your efforts. Recently I have written a book which, I believe, more clearly delineates the problem we are facing and also the solution. It is called “NATURE’S ETERNAL RELIGION”. I believe you will find that it fits in with your thinking and undoubtedly goes much further. In any case, I believe you will find it highly interesting. It is not pro-Christian.

Under separate cover we are mailing you a complimentary copy of the book.

Creatively yours,
B. Klassen, P.M.

Mr. Stephen A. McNallen **March 17, 1975**
APO, New York

Dear Mr. McNallen:

Thank you very much for your letter of February 28th and also your publication, “The Runestone”.

I respect your opinions and your ideas and find them very instructive and interesting. It is also further encouraging that we agree on many points of philosophy, especially on the relationship between Christianity and Communism. It is gratifying that the chapters on the Old Testament and on the relationship between Christianity and Communism made a strong impact on you. I regret that evidently you disagree with me about Adolf Hitler. To me he is the greatest leader the White Race has ever produced — as I say in the book — head and shoulders above any other man that ever lived. The reason that I come to this conclusion is that since we are fighting Judaism and Jewish Communism, the question arises — which other man has fought as bravely and as aggressively and as vigorously against the Jews and against Communism as Adolf Hitler? Words and sweet talk may be fine, but he took well-planned and aggressive action. From the time he decided to go into politics his life was continuously a brave and valiant struggle against the forces of evil. No other man has done so much to make the rest of the world conscious of the fact that it is the Jew who is the root of all our evil. No other man before has ever formed a government founded on a racial base. No other man has in such a short period of time revived and built up a torn, bleeding, downtrodden and dispirited nation as did Adolf Hitler. The fact that the Jews were able to rally the rest of the world in ganging up on Germany and finally smashing it, does not detract from his genius, his bravery, and the rightness of his ideology. In my chapter on Adolf Hitler, I criticize that ideology in certain respects. There are four particular items that I bring out as to why

it is not suitable as the foundation for the future religion of the White Race. I will not repeat them here since you have the book and can review them for yourself.

Whereas all the bold Nordic and Germanic myths, etc. are very interesting, and give us a sense of belonging, all this is very fine. However, I must point out to you that this course is completely inadequate to do the tremendous task that lies ahead of us. It is all very well to indulge in Mother Goose fairy tales (which at least are our own myths instead of being the Jewish myths of the Old and New Testaments) but it is at best only a playful indulgence, that will get us nowhere. We are only playing games with them. The White Race in the here and now is faced with mongrelization, genocide, destruction and extinction. This is not in the far-distant future, but in the here and now. We need something a hell of a lot better and stronger than old Norse myths to bring us out of it, and I think that in our book "NATURE'S ETERNAL RELIGION" we have the program and we have the answer.

In any case that's the way I see it, and I hope you will sooner or later see it the same way. Let us therefore unite on those sound principles that we have in common, and wage the good fight.

For a Whiter and brighter world,

Creatively yours,
B. Klassen, P.M.

Mr. B. T. Rocca
San Francisco, California

March 19, 1975

Dear Mr. Rocca:

Thank you for your interesting letter of March 11th. Your letter indicates that you're searching for answers, a pursuit engaged in by the inquiring mind, of which unfortunately there are only too few.

Whereas you and I are both searching and thinking and searching, we seem to have arrived at the same conclusion in answer to some of life's puzzles, but apparently disagree on others. Your contention that there is but one human race (a broad term) implies that such race must be one species and on equal grounds. You then follow this with the (non sequitur) argument that they must be such because they can mate and produce offspring.

You seem to completely ignore one of Nature's laws which is that Nature pursues the segregation of the species. In my book I have quoted this prime law of Nature, again and again. You quote for example that a lark cannot mate and produce with a robin. I don't know that it can't, but it has enough sense and innate inborn instinct not to try to do so. But Nature goes much further than this. It segregates

the lark family into at least 75 species, all of which DO NOT MATE WITH EACH OTHER, although they could. There are also 175 species of woodpeckers, who do not mate with each other, because Nature tells them not to. There are 258 species of sharks in the ocean. They too, do not mate with each other. If they did, there would not be any distinct species. I have some literature on a case history of a successful mating between an African nigger and an ape. This occurred in the early 1900's and the resulting abomination, a female, was shown as a freak in sideshows. I make it abundantly clear in my book, that Nature has decreed the segregation of the species, and that she despises mongrelization. Only under the most contrived and unnatural situations do different species interbreed. A jackass can mate with a horse, and produce a mule under unnatural conditions. Nature frowns on such bastardization and makes the mule sterile. Left to their natural instincts in the wild, no wild horse will ever mate with a wild burro. So we should learn a lesson from this. Nature in her grand design demands the segregation of the species, so she can produce better and better species in competition with each other, with the fittest surviving, and those not so fit, falling by the wayside. To violate such a clear and basic law is an outright abomination against Nature.

So it is with the human species. It too has a great many variations and sub-species, all of which are different. At the lowest scale of the ladder probably is the Australian bushman or the African bushman, and in general, the nigger. At the top of the scale is the intelligent White Race. Somewhere in between are the mud races, the colored races, the Japanese, the Chinese, Koreans and others that you mentioned. Not only is the White Race at the top of the human ladder, but in all of Nature it is the one species that is by far, the first and foremost, in intelligence, creativity and productivity. This is a great and tremendous honor that all of us should be tremendously proud to safeguard with the utmost vigilance. Nature clearly desires the segregation of the species. If segregation is wrong, then Nature has been wrong for all these billions of years, and let me assure you that Nature is never wrong. We might be wrong in interpreting her phenomena and her laws, but I repeat, Nature is never wrong.

Now that we have clearly established the superiority of the White Race, not only over all human beings, but also all other creatures on the face of this planet, let me pursue further the idea of how idiotic it is for us to debauch our valuable inheritance by race-mixing. If, for instance, a millionaire were to go into partnership with a drunken bum, who had neither intelligence or assets, nor much of anything else to contribute to the partnership, he would be indeed foolish. And so it is with the White Race. For us, the highest epitome of Nature's

creation, to debase, corrupt, degrade, debauch and adulterate our precious bloodlines by race-mixing with inferior niggers, for instance, or any of the other mud races, is stupid, foolish and an abomination against Nature.

Why in the hell should we do such a stupid thing? What have we to gain? It is about as silly as that millionaire forming a 50-50 partnership with a useless, stupid drunken bum. Why should we do it? We need to come to our senses. We need to have pride in our race. We need to follow Nature's eternal laws, of namely, segregation of the species and the survival of the fittest. Having the intelligence to be able to do this consciously, we should pursue it with a fervent dedication, and furthermore, we should follow Nature's law like every other creature does, that is to promote, to expand, and to advance our own kind, in the face of all hostile opposition.

You speak of the Koreans whom you once considered a backward people but now see them progressive, intelligent, energetic and quick to learn modern technology. But in your previous paragraph you stated that one of your sons, who is president of one of your companies, is now in Korea, where your company evidently has built the first modern grain elevator for handling grains and rice in bulk. And right there you state the key to all the so-called advances of the mud people, the so-called emerging nations. The lying, perfidious Jews are continuously spreading the story that all these mud races are "emerging", "under-developed", and that it is just a matter of time when they will be just as intelligent, educated, technologically developed, wealthy, and civilized as we are. This is just another one of their great big grotesque lies. There is a saying you can take the nigger out of the jungle, but you can't take the jungle out of the nigger. And this is true for all the other mud races.

Everywhere you go in the world, whether it was the Congo, or whether it was Korea, or India, or China, you will find that it was the White Man's money, the White Man's brainpower, the White Man's technology, the White Man's medicine, the White Man's planning, and the White Man's generosity that built up whatever it is that was built in these perpetually backward races. It is the White Man who is carrying the whole load to his own detriment. Whether it was Singapore or Hong Kong, or Delhi, Calcutta, or you name it, it was the White Man that built them. There was nothing there, until the White Man came along. It was the White Man that built the Suez Canal, the Panama Canal, that built the cities, that built the skyscrapers, that built the railroads, that built the jetports and built everything else that was worthwhile in all these so-called "emerging" nations. And don't you ever forget it. As soon as the White Man leaves such areas (as for instance the Congo) in no time at all those facilities start falling apart and revert back to the jungle. If we gave

America back to the Indians, it would soon revert back to a savage and primitive land, the way it was five hundred years ago. If we gave all of America, rich as it is, to the niggers, it would soon fall into decay and revert back to primitive cannibalism and the jungle type of society found in the heart of Africa.

As for the Jews, they have been a parasite on the back of the White Man not only for centuries, but for thousands of years. I have no resentment against the Jews because of their religion. I hate the Jews because of the horrible catastrophes they have heaped upon the White Man in the latter's struggle for advancement over the last several thousands of years. Since I have already covered this fairly thoroughly in my book I am not going to repeat the history of that subject again in this letter. I am, however, sending you a book call-ed "Behind Communism" and also a tract called "The Real Case Against the Jews" under separate cover. I think they will add con-siderably to your knowledge about the Jews and in forming a con-clusion about them.

In one of your paragraphs you say "you must have asked yourself many times, what is the purpose of it all? To this there is no answer". I have asked myself that question for fifty years, and I have finally come to a REAL GOOD ANSWER. It is summed up in Chapter three of my book, entitled "The Purpose of Life". On page 265 I say "THE PURPOSE SET BEFORE US BY NATURE HERSELF FOR US, THE WHITE RACE, IS NAMELY, TO PROPAGATE, ADVANCE AND EXPAND THE WHITE RACE, the highest pinnacle reached in the handiwork of Nature". That is the purpose, my friend, and it is something Nature has told us to do, and we had better get with it. On the same page there is a paragraph at the bottom of the page that says something about some people searching for the truth and continually stumbling over it without finding it. Please give that some more thought.

I do not think that just expounding on atheism is of any great value. It may be an intellectual exercise that some may find in-teresting, but as far as I'm concerned, it is perfectly useless. It is com-pletely negative. All it really says is that you don't believe in the other guy's spooks. It doesn't tell me anything about WHAT YOU DO BELIEVE IN. There is no creed, no program, no answers to the ques-tions of life. It is something like in answer to the question "Where do you live?" you say, "Well, I don't live in London". Which doesn't really tell me very much. You might not also live in Nigeria or Australia, or Timbuctoo, but I still don't know where you live with that kind of an answer. And so it is with atheism. All it tells me is that you don't believe in the other guy's spooks, but it is not a positive creed or philosophy that is a guide or answer to life.

In our book, "NATURE'S ETERNAL RELIGION", we have tried

to COME UP WITH ANSWERS. These are not my conclusions, but these are deductions from the laws of Nature herself. I believe they are a firm and solid FOUNDATION FOR LIVING, since only those species survive and prosper that follow the laws of Nature. The White Man has not been doing this, and he is rapidly being destroyed by the voracious and parasitic Jew. It is our avowed purpose to prevent this overwhelming catastrophe from overtaking us, The White Race, and relegating us to the scrapheap of evolution. I hope you will THINK ABOUT THIS, and furthermore, I hope that you will use your good and superior intelligence and the financial assets at your disposal to help in this great and noble battle for the survival, expansion and advancement of the White Race — Nature's highest and greatest miracle.

For a Whiter and brighter world,

Creatively yours,

Rev. Wm. A. Burke, D.D. **March 24, 1975**
Westfield, New Jersey

Dear Father Burke:

Thank you for your letter of March 2nd in which you both criticized and commended my book, **"NATURE'S ETERNAL RELIGION"**. I especially appreciate your comments when you compare my book to **MEIN KAMPF** and even infer that I may be a political genius.

When it comes to the religious part of my book, however, you seem to take vigorous exception and seem to wildly flail at my well established and well corroborated position. You go completely berserk, resort to name-calling (a favorite Christian trick, both Catholic and Protestant) without offering one shred of evidence of where I am wrong in the thousands of rational conclusions I set forth (another favorite Christian trick).

Unfortunately some people's minds are like concrete — all mixed up and hard set. From your letter, Father, I must conclude that yours falls into such category. I fully admit that I have been wrong any number of times in my life. I also admit I have been puzzled by things unknown and been gullible enough to believe in things that were not true. In fact, when I was five years old I still believed in Santa Claus. When I was seven years old I found out I had been hoaxed by my elders and that the story was pure myth. About a dozen years later I became intelligent enough to see through the Christianity myth because of the mounting evidence that led to the conclusion that it, too, was a myth and a fraud.

However, it wasn't until I was 50 years old that I had finally put the whole picture together as to how the Jews had concocted Christianity in order to bring down the Roman Empire and have used it as a powerful tool to manipulate the minds of the goyim (such as you) in order to control, plunder and enslave us. To date, it has worked wonderfully well for them, and you are one of their tools they are doing it with. The Jews call such Gentile tools "Chabez-goi".

Your remarks about me being an "amateur" and "sound like a little boy" when discussing religion, are somewhat off the mark, Father. The fact is, when it comes to religion, I am probably one of the best informed experts in the world. I make this claim, not only because I have read all sides of the question, but mainly because I have finally cracked the Christian fraud in terms of how the Jews concocted it to bring down the Roman Empire and becloud the Gentile mind with guilt and masochism in order to better destroy them. I have solved the WHY of Judeo-Christian hoax. The reason I don't

believe in your Super-Spook-in-the-sky surrounded by good and bad mini-spooks, is because the story is so utterly ridiculous that it should be a hilarious joke if it weren't for gullible fools like you running around and making a highly profitable racket out of it.

Unfortunately the average run of yokel has an affinity for being both **GULLIBLE** and **SUPERSTITIOUS**. Throughout history the shysters and con-artists have taken advantage of this human frailty and have built a highly profitable racket on these weaknesses. Whereas the different civilizations have over the period of recorded history concocted a total of some 30,000 gods and spooks, not one of them has ever produced a shred of hard evidence to substantiate their claims.

Christianity has been unusually successful in this racket because it has fastened itself like barnacles mostly on the most productive race in the world — the White Race. In the U. S. alone con-artists like yourself bilk the American public of at least $17 billion a year — that's 17 thousand million dollars, Father — just think of it! And what do the duped victims get in return for their $17 billion? Nothing but lies, unsubstantiated claims, threats of torture, doubletalk, stupid stories about pie-in-the-sky when you die, spooks in the sky and a lot of other utter nonsense. Not only do you have nothing to back it up other than the lying claims of a gang of Jewish script-writers (who were so ignorant they didn't even know the earth was round) but you Christians can't even agree amongst yourselves as to what all this Jewish hocus-pocus means. Witness for instance the (Christian) Irish Catholics and the (Christian) Irish Protestants who have been at each others throats for over 400 years and are cutting each other up with a vengeance even to this day. How silly! How stupid!

Now since you contend you are such an expert and I am an "amateur", would you kindly answer the following questions for me:

1. Since "God" is all powerful and created everything; since he also created the devil and also hell; since the devil is the cause of all the sin, suffering, and misery in this world, then, (a) Why doesn't God get to the root of the trouble and kill the devil? (b) Did he deliberately create the devil or was it a blooper? (c) Why is the devil continually winning this game of cat and mouse (at our expense in torture) and God continually losing? (d) If it was a blooper, why doesn't he correct it? (e) Aren't God and the devil really in cahoots, or how else do you explain the devil being in business at all? (Remember, God is all-powerful.)

2. Since those that don't believe in Jesus Christ are all going to hell; since this includes the Jews (God's chosen people), the Mohammedans, the Hindus, 700 million Chinese, 100 million Japs, and untold billions of mud people that have never heard of Jesus Christ, as well as an overwhelming majority of the so-called Christians (a

recent survey in England disclosed 71 per cent of the people there didn't even believe in God. Horrors!). Now then, therefore, it is safe to conclude according to the standards (there are more) as laid down in the bible, over 99 per cent of all people are going to hell. Looking at the whole story as told in the bible, the sum and substance of the whole GRAND DESIGN of YOUR KIND LOVING GOD is that billions and billions of poor miserable victims will be tortured forever in a sea of hot molten sulphur — What a sorry mess! Looking down on all these shrieking, suffering, miserable creatures will be a smirk-ing, gloating Super-spook, who planned it all and it came out just exactly as he planned it. He created us and it from beginning to the end.

Now my next question to you, Father, are these (a) Do you call this LOVE? (b) Would you do this to your children? (if you have any) (c) How could you mouth everlasting praise to such a cruel, vicious and bloodthirsty monster?

When you can come up with some sensible answer to the above questions, then I will concede you know what you are talking about. In the meantime, I have good reason to thank God that I don't believe in all that Jewish tripe and that I no longer believe in him. The way I see it, Christianity feeds on the superstitions and gullibility of those who can't think for themselves. Through fear of threat of hellfire and torture it alters their brain to where they can no longer think logically. Like taking a cat to the vet, very often this alteration, unfortunately, is irreversible, (and I am afraid that is the sad situation you find yourself in) Father. Your brain has been so altered and indoctrinated with fear and superstition over the years to where you can't think straight.

However I could be wrong about you. The best way to convince me is to come up with some straight answers to the questions I have posed to you.

In the meantime I will stick with logic, evidence and the Laws of Nature which have been around from time eternal and will be the same long after the transient human race has vanished from this planet. In the immediate short term future, I have an important job to do — namely, to spread the word and save the White Race from the genocidal diabolical program of the perfidious and parasitical Jews.

For a Brighter and Whiter world,

Creatively yours,
B. Klassen
Pontifex Maximus

P.S. For your enlightenment, Father, I am enclosing a tract in which the Jew Marcus Eli Ravage spells out the hoax they, the Jews, have perpetrated on the White Race.

Mr. Paul Englert **March 24, 1975**
Homosassa Springs, Florida

Dear Paul :

In reviewing your letter of March 6th and also that of J.H.J. (James H. Johnson, of the TRUTHSEEKER) of March 2nd to you, I have sort of mixed feelings. I agree with J.H.J. that things are getting worse by the day and something must be done.

The question is what?

It does not seem to me that J.H.J. has much of a plan, although I don't want to discourage him. Frankly, the most significant contribution he has made, as far as I see, is making available and distributing a large selection of books exposing Christianity. As far as his positive philosophy is concerned, I don't seem to be able to discover what it is. Nor can I discover what program he has, if any, in his Truth Seeker, other than repeating gloom and doom and reiterating how stupid everybody is.

So what is his answer? What is his program? What is his ideology or creed? Just to try to call together "patriots" is no answer. What are these "patriots" loyal to? The country? The Constitution? The flag? The White Race? The Jews and the niggers? To Christianity? Most of the so-called "patriots" of the so-called "right-wing" are more confused than the average man on the street.

I don't believe anybody would travel any great distance to attend a vague program to see what can be done with people they probably have little in common. Whereas I agree something must be done, I am doing that something the best way I know how—namely by organizing the CHURCH OF THE CREATOR. We have a solid creed and a solid program and I mean to pursue it to the fullest. It is the soundest I know of and gets right down to fundamentals, namely religion itself. It is no "pet" program but basic as hell if we ever want to overcome the Jew. It is the ultimate.

When J.H.J. talks about enlisting the aid of such traitors as George Wallace, then I am convinced that J.H.J. himself does not understand the problem.

When these right-wingers, Birchites, etc., talk about patriotism and loyalty, you don't know who or what they are loyal to. Most likely it ends up promoting the Jews and niggers, as e.g., "patriotism" during World War II. When a Creator speaks, you know exactly where he stands—loyalty to the White Race. As far as George Wallace and his supposed 15 million, I worked for Wallace in 1968 and knew him only too well. My suspicions at that time that he was a Chabez-goi traitor selling us out to the Jews and the niggers has been only too well confirmed by ensuing events in the meantime.

Richard Higdon was down here all of last week. We have some

financial problems to work out, but I believe I have found my man. Time will tell.

I now have a quantity of "BEHIND COMMUNISM". If you would like to get some for further distribution, you can get them from me at two for $1.00.

In the meantime, keep working and building for the day when the White Race will again have control of its destiny in its own hands. Let's keep our eye on the ball and do our part.

For a Whiter and Brighter World,

Creatively yours,
B. Klassen, P.M.

Mr. B. T. Rocco
San Francisco, California

March 28, 1975

Dear Mr. Rocco:

In follow up to my previous letter pointing out the inequality of the races, and in particular the damage done integration of blacks with Whites, I am enclosing a copy of "The Black Man's Gift to Portugal". I apologize for the fine print. Perhaps you can get your secretary to transcribe it. I believe it would be well worth it.

Whereas the article shows how Portugal declined from a first rate nation to a has-been in a century due to importation and mongrelization with black slaves imported from Africa, this was due to only 10 per cent intermingling of black blood. The way the niggers in America are breeding, the amalgamation here will be somewhere around 70 per cent black, 30 per cent white blood.

Do you want this for your future progeny? I surely don't.

Am also sending you a book "BEHIND COMMUNISM", which I believe you will find highly enlightening in shedding light on the Jew's role in the destruction of the White Man's civilization.

For a Whiter and Brighter world,

Creatively yours,
B. Klassen, P.M.

Mr. William L. Pierce
National Youth Alliance
Washington, D. C.

March 28, 1975

Dear Mr. Pierce:

This will acknowledge receipt of your letter of March 22nd. I regret that you are unable to advertise our book, "NATURE'S ETERNAL RELIGION?" at this time since I believe that not only would it find a ready market among your readers, but also that your readers

emphatically need the book.

Some time ago you wrote me that you had read our book, but were still hesitant to take an open stand on the issue of Christianity being a Jewish tool for the destruction of the White Race. (The latter is my phraseology.) From what I have read of some of your writings and some of the taped messages while you were with the N.S.W.P.P. I respect you as a courageous, intelligent and forthright thinker, writer and speaker. I believe the time has now come, however, where despite fear or hazard of losing some of our (still befuddled) supporters, we get down to the nitty-gritty. And I believe in "NATURE'S ETERNAL RELIGION" we have set forth both the problem and the solution in its ultimate and basic form.

It is therefore my cherished hope that you will join with us in not only exposing to your readers, but in one way or another, promoting the book and the creed contained therein. We will be glad to use paid advertising. However if we can't do that, if you see fit to favor us with editorials or news items about the book, I believe you will be doing your readers and the White Race a genuine service.

Please let me hear from you as to your present views on this matter.

My best regards to Dennis Nix, who, I understand has joined your staff.

Creatively yours,

For a Whiter and Brighter World, **B. Klassen, P.M.**

Rev. Wm. A. Burke, D.D. April 2, 1975
Westfield, New Jersey

Dear Father Burke:

Your letter of March 27th has been received. I appreciate your attempts to partially "explain" some of the questions I posed to you about the overwhelming horror that the Super-Spook has in store for 99 per cent of his "beloved" victims. I can't blame you for not coming up with better answers, since nobody else that I have ever talked to has come up with a sane answer either. Mainly this is due to the fact that the whole Jew concocted story is so ridiculous that when exposed to light and reason it falls apart like a rotten apple.

It's like claiming 2 and 2 makes 17. Then you say, "well, of course there are those of you misguided unbelievers that 'believe' 2 and 2 makes 4. However, we are just as right and have just as much right to believe it makes 17, and nobody should meddle in our belief. Our position is as valid as yours, if not more so".

No, it is not, Father. We determine facts on evidence. And your whole Jewish concocted cock-and-bull stories about the three-in-one Super Spook, all the mini-spooks, bad and good spooks in the sky, about pie in the sky when you die, and fry in the sky when you die doesn't have a leg to stand on. Not a shred of evidence to back it up. It is a throwback to the stone age, and a hold-over of ignorance, fear and superstitions about the unknown nurtured by primitive savages. The Hindu's "belief" that cows are holy is no more nor less valid than your "belief" in the spooks in the sky being holy. At least you can see the Hindu's cows. Nobody, but nobody, has ever seen those much ballyhooed spooks that are supposed to be floating about in the sky.

Now it seems to me it is kind of pointless to dissect the few arguments you offer. They are so flimsy and irrational that I would rather argue with a four year old as to whether or not Santa Claus is real. To say that God could, but won't destroy the devil because, is like, "why, if losing at chess, don't you just sweep your opponent's pieces off the board with a single gesture?"

Now really Father, you can do better than that. So the Lord is really only playing a game of chess in which we are the pawns? The fact that he is a lousy player and that billions of his poor creatures are going to be tortured in a lake of burning sulphur (or whatever) is not as important as "saving face" with the devil? What a horribly stupid story.

Furthermore it ignores (according to your story): (a) that God is supposedly OMNIPOTENT—all powerful (b) supposedly OMNISCIENT—knows everything forwards and backwards (c) supposedly in complete control of everything—not a hair falls from our head and not a sparrow from the roof, but what he wills it (d) he made the rules of the "game" (e) he planned the "game" (f) he created his opponent (g) he knew what the outcome would be and it came out the way he wanted it. Remember, omnipotent, omniscient, not a hair, etc.

Although there is much more hokum to expose and explode I would rather that from here on out you think this through for yourself, especially with the help of the Bible Handbook. I would rather that we join on the common ground we have and do battle against the Jews and the niggers as best we can, each in his own way. How much more effective your battle could be, if, having the confidence of the young people you have contact with, you taught them pride in their White racial heritage, the Sixteen Commandments as set forth in "NATURE'S ETERNAL RELIGION", and built up a positive program for their racial future.

I hope this will come to pass, and I hope the books I have forwarded to you will be of significant value to you in waging that bat-

tle. Good luck on your trip.

For a Whiter and Brighter world,

Creatively yours,
B. Klassen, P.M.

Mr. Emory Burke **April 7, 1975**
Eclectic, Alabama

Dear Mr. Burke:

You will, I am sure, recall your letter of July 22, 1973 regarding your interest in the expansion of our religious movement, and also your visit here in August of 1973. I regret that I have not heard further from you, since you expressed deep interest in our book "NATURE'S ETERNAL RELIGION", and the promotion of our creed. I am interested in hearing from you again as to what success you are having in promoting our movement for the survival, expansion and advancement of the White Race.

We have acquired some acreage on which we hope to build our first church, or CREATOR TEMPLE as soon as we get enough finances together. I have also made the acquaintance of a young man who, I believe, has the fervor, dedication and ability to lead the movement.

In your last letter, and also in our conversations you mentioned that you were an architect and especially had experience in the design of churches. What I would like to have you do, if you would, is draw up some general exterior design sketches of a CHURCH OF THE CREATOR church or temple that would embody some recognizable, unique feature, or features, that would be characteristic of our buildings and would distinguish them from other churches, temples or buildings.

We would want such a building to be highly functional without being bizarre (as so many of today's churches are) and without adding appreciably to the general cost of the structure. For this you might reach into Greek, Roman, Nazi Germany, English, French, Spanish or what ever period would lend itself to our purpose. I know this is a tall order but I am confident you can come up with some meaningful ideas. We are not asking for a structural blueprint, only some characteristic ideas that would distinguish our temples and at the same time be in harmony with our creed and philosophy.

Please let me hear from you and bring me up-to-date.

For a Whiter and Brighter World,

Creatively yours,
B. Klassen, P.M.

Mr. Paul Englert **April 7, 1975**
Homosassa Springs, Florida

Dear Paul:

This will acknowledge receipt of your letter of March 30th, and also the $2.00 for four copies of BEHIND COMMUNISM. We shipped the four books to you a few days ago.

Just heard from Rich Higdon again yesterday and they are doing a great job of distributing books and organizing members. They are holding weekly CHURCH OF THE CREATOR meetings and hope to build quite a significant following in Colorado Springs. So spreading the word and making contacts does pay off.

You might send me a copy of "BILLIONS FOR BANKERS?" if you would.

By the way, in a previous letter I mentioned to you the idea of planting Letters to the Editor in various papers promoting interest and curiosity in the book "NATURE'S ETERNAL RELIGION". Have you followed through on this, and if so, what success have you had?

I have recently subscribed to the paper ATTACK! put out by the National Youth Alliance. It is quite good — similar to the THUNDERBOLT, without the Christian nonsense. Enclosed is a coupon. You might want to follow up.

Recently I received a letter from a certain Burke, who is with us in our racial stand against the Jews and the niggers but deplores our stand on Christianity. Enclosed is a copy of my reply, which I shaped into a form letter. You might get some benefit from it in using some of the arguments in it. I have yet to find anybody that could give me a sensible answer to the questions raised and expect that no one ever will.

STOMP THE HEAD OF THE SERPENT, indeed.

For a Whiter and Brighter World,

Creatively yours,
B. Klassen, P.M.

Mr. Henry Madeksho **April 7, 1975**
Houston, Texas

Dear Mr. Madeksho:

Thank you for your letter of April 2nd, and also the literature enclosed.

I have no quarrel with you that the F.B.I., C.I.A., etc. are interfering with the mails as are the government agencies as a whole in almost every facet of our lives. The question is what are we going to do about it? What are you going to do about it, other than deplore the situation?

In reviewing my previous letter, I pointed out that "fear of the Jews" can become a paralyzing obsession, and is in any case overrated. I don't thereby mean that what damage they are doing to our race is overrated. Far from it. Few people realize the damage they are inflicting upon us. But to be afraid to fight back is inviting suicide. Not a handful are doing as much as they could. In this respect my attitude is pretty well summed up in the chapter "Horatius at the Bridge", in "NATURE'S ETERNAL RELIGION". Please read it again.

Regarding the mails, I have found no evidence of tampering. Increased sloppiness, lateness and inefficiency, yes, but no tampering.

Regarding Christianity, as I have pointed out consistently in my book, it is a weapon in the hands of the Jews. They concocted it in the first place and are using it with devastating effect with which to scramble the minds of the White Race. If this offends some of the Christian Anti-Jew organizations, this is unfortunate, but they themselves in order to be more effective need their thinking straightened out. I might add that 99 per cent of the correspondence I get praises my stand on Christianity, and only perhaps 1 per cent is opposed. We try to enlighten that 1 per cent.

Enclosed is a copy of a letter I sent to a certain Father Burke, who criticized me on the same issue. Until you or anybody else can come up with some sensible answers to the points I raise, then Christianity needs to be exposed and exploded as a Jew concocted nightmare, and I will do so with all the energy I can muster.

In the meantime, I wish you would ignore the "fear of the Jew", order some more of our books and spread the word. We will not feel any measure of security until we get 10 million copies of "NATURE'S ETERNAL RELIGION" into the hands of our White Racial comrades. In "NATURE'S ETERNAL RELIGION" lies the ultimate and only solution I know of. Do your part!

For a Whiter and Brighter world,

Creatively yours,
B. Klassen, P.M.

P.S. Thank you for the letters to the Editor. I have sent copies of "NATURE'S ETERNAL RELIGION" and a letter to three of the writers. **B.K.**

Mr. Francis K. Campbell **April 18, 1975**
Houston, Texas

Dear Mr. Campbell:

Thank you for your letters of April 13th and April 15th, and also your book "Secular Facts". I read your book in its entirety last evening.

No, I was not "kidding" when I wrote "NATURE'S ETERNAL

RELIGION", and I am not now. In fact, I couldn't be more serious about our problem for the survival, expansion and advancement of the White Race. It is an issue that is so important it transcends all others. That your inquiring mind should have missed it, is amazing and hard to believe.

You seem to consider yourself a logical individual who searches out the facts and much of your book would indicate that. Then you blow the whole image in your letter when you jump to the conclu-sion that I must have been one of the Hitler Youth.

That's a pretty stupid assumption, although I would have been proud to have had the privilege. If you read my book as you claim you have, you could hardly escape reading Chapter 22, Part 2, "My Own Spiritual Awakening", in which I give a fairly detailed biography of myself, and state that I lived in Canada during my teens. Somebody is evidently not paying much attention to EVIDENCE. You proceed from this non sequitur and erroneous "conclusion" to say that you were "tempted" to answer point by point, but then remembering that "indoctrinated youths carry such early learning to their graves--"

Wrong again, pop. I was thoroughly indoctrinated, not in the Hitler Youth, but in the Mennonite Christian faith in my early youth. So now you can answer point by point and give your (Jewish) ver-sion of history. Be my guest.

Whereas we seem to agree on the widespread damage Chris-tianity and other pie-in-the-sky religions have done, and are doing today, your main beef seems to be that I seem to have a love for, and a loyalty to my own race. Yes, you bet I do, and I will continue to do so as long as I live, despite the fact that it is at present riddled with RACIAL TRAITORS (like yourself) who would rather see the great White Race go down the drain than lift a finger in a fight for its survival.

And that's what we are in my friend — a fight for survival of Nature's finest, most productive and creative handiwork — the White Race — us! Now if you would rather be a Jew and nigger lover — because the Jewish news media has so befuddled your confused lit-tle brain — again, be my guest. But in my book you will go down as a traitor to your race.

For a man that claims to be so logical, it is strange how confus-ed you are on most of the important issues — namely, race, love and hate. Rather than take up space in this letter, I suggest you again read the section on "Love and Hate", page 434 of my book. Let it sink in for a while and read it again. You phoney hypocrites who claim they are against hate, come in pretty strong when it comes to hating the Nazis, or Adolf Hitler, or the Germans, or anybody else for that matter who will not knuckle under to the Jews. What you fellows really are saying is, love your enemies, and hate your friends.

Well sorry about that, pop. I will damn well choose my own friends and my own enemies. I will hate whom I wish, and I will like whom I like, and no Jew, nigger or mixed up goyim is going to tell me different.

Now regarding your philosophy. A few months ago I received a whole roster of all the "Atheistic and Rationalist" societies in the U.S.A. and elsewhere. I wrote to practically all of them to see what they had to offer. By and large, they came up with a great big negative zero, if that is possible. In total, I can sum up their philosophy in one sentence. What they are basically saying is — "We don't believe in the other fellow's spooks" — and that's as far as they go.

Basically from your book, all I can glean as far as your philosophy is concerned, is that you, too, don't believe in the other guy's spooks, and that is as far as YOU go.

No, I don't believe in spooks either — the other guy's or any other variety. However, this is purely negative and answers none of life's pragmatic questions and problems. As I state in Chapter 1, Part 2, everybody needs a creed, a philosophy or a religion to live by, and to be without such a philosophy is to be adrift like a ship without a rudder or a sail. Unfortunately the "charlatans" have given us mostly bad, phoney, fraudulent religions. What my book is all about, in case you have missed the point, is to supply the White Man with a GOOD religion, one that will help his own kind to thrive and prosper and expand, in harmony with the basic laws of Nature. If you can't grasp that point, read the book again and it will finally penetrate.

I believe you almost stumbled on the same truth yourself. The second paragraph on page 83 of your book does point out how "Man" exercises selective breeding with dogs, horses, cattle, etc., but somehow completely fails to apply it to his own improvement. Very good. In your letter of April 15th you admit (in the second paragraph) that we (the White Race) are a bit higher on the evolutionary ladder than the mud races. Very good again. Put these two ideas together and you will pretty well be in harmony with "NATURE'S ETERNAL RELIGION" and with the laws of Nature herself.

I hope that despite your 74 years you will dedicate your efforts to doing some good where it counts — not in promoting the Jews, the niggers and the mud races, but in fighting for the survival, expansion and advancement of the White Race — Nature's greatest Miracle.

By the way, I sent you a book called "Behind Communism" which should greatly enhance your education on the Jewish problem.

For a Whiter and Brighter World,

Creatively yours,
B. Klassen, P.M.

Dr. William L. Pierce **April 21, 1975**
National Alliance
Washington, D. C.

Dear Dr. Pierce:

Your letter of April 16th is hereby acknowledged. Thank you for your candid and open discussion of a very vital subject, namely religion, which unfortunately seems to be completely taboo in our so-called right wing circles.

The reason for this taboo, is, of course that most religions, especially Christianity with which we White people are concerned, cannot stand an open discussion. Its tenets are so far out, so untenable, so steeped in Jewish myth and doublespeak that any sensible probing investigations immediately lead to disaster. So the best defense against an untenable position is to suppress discussion, (except favorable) as do our Jewish news media on the issue of race, and especially the Jewish problem.

This would all be very well, and I could be completely tolerant of somebody (or whole masses) meandering in their fantasies and daydreams, were it not for the fact (a) that Christianity is a powerful mind twister (b) that completely neutralizes the White Man's ability to wage even a defensive battle against the Jew for his own survival. Furthermore, (c) it teaches "fear of the Jews" that (d) the Jews are God's Chosen people, therefore we should not resist, but bow down to them. Its very dogma as expressed in the Sermon on the Mount furthermore (e) is a prescription for suicide. It teaches such suicidal advice as (f) love your enemies (g) turn the other cheek (h) resist not evil (i) sell all thou hast and give it to the poor (j) judge not (k) etc., and much more of the same as I have spelled out in my Chapter in "NATURE'S ETERNAL RELIGION" entitled THE NEW TESTAMENT and elsewhere. (l) And finally, the whole Christian church has sold out and is dominated by the Jews.

Now, I ask you, with his brain polluted with that kind of garbage, how in the hell can the White Man ever win, without first exposing and ridding himself of such suicidal basic premises? The answer, I am convinced, is we can't and 10,000 Right Wing organizations in the past 50 years have been a complete failure, as Revilo Oliver points out. Unfortunately, he does not point out the WHY of the failures.

Now I can understand your position and you state it pretty clearly in the second paragraph of your letter. In fact back in 1969, I myself started the Nationalist White Party, which was strongly Pro-White, anti-Jew and anti-nigger, but avoided the issue of Christianity. I had anticipated a lot of static and feedback from the Jews and the niggers. But to my surprise this did not materialize. Instead I got a lot

of filibuster from good (?) White Christians, who time and time again would inject the Christian issue, would ask "Is that Christian?" "But aren't the Jews God's chosen people?" etc., until it drove me to distraction.

It was this phenomena that drove me to take a fresh look at Christianity. The rest is history and the story is well laid out in my book. I then faced the same dilemma as you do. Should I take a firm stand and tell it the way I see it, and thereby lose many of my supporters, or should I suppress my new found knowledge and fly on one wing as before?

My decision was prompted by the same question you are asking yourself, namely, which course would be more effective to get the job done? And my conclusion was that we have to get to the root of this evil cancer. If the White Man is ever going to extricate himself from his Jewish slavemasters, he would first have to break the weapon that destroyed the Romans and had enslaved him in the first place, namely his Jew-foisted religion. I saw clearly what the White Man needed was not another political party or political movement, but a TOTALLY NEW RELIGION, one that would enable the White Man to first of all survive, then further expand to the limits of the fertile earth, and advance his own species in each succeeding generation.

The result is "NATURE'S ETERNAL RELIGION", which embodies the new religion, CREATIVITY. I kept what followers I could, and built a new organization with new adherents. I find that the NEW RELIGION is more acceptable and more attractive to more people than the previous POLITICAL party. I am convinced it is much more solid, more complete and embodies the ultimate creed for the White Race, not only for the present but for the next million years. It has a never-ending program of upgrading and improving the White Race long after the Jewish peril is dead and gone.

Now I realize that you have a much tougher decision to make, since you have a larger following and establishment than I did when I made the break, and you have a larger establishment now. So you have a dilemma and I am not sure what I would do myself were I in your position. I do believe this however, that I would rather build something that was bound to succeed in the long run, than build something that would sooner or later have to be torn down or at least drastically revised. Frankly I can't see how we can ever win as long as we embrace, or ignore, or tolerate Christianity in our supposedly sincere life and death struggle against the Jews. Anyway, we have been completely unsuccessful and under a drastic handicap with it during the last 2,000 years. At the rate the Jews are now pushing mongrelization we don't have another 2,000 years to fiddle. In fact, the whole question of the survival of the White Race will be no more

than an academic issue in another generation or two — unless we drastically change our thinking and our tactics.

Well, that's the way I see it, my friend. I hope that I can get together with you sometime this summer, either here or in Washington. I realize it's a tough decision, but sooner or later there comes a time —

For a Whiter and Brighter world,

Creatively yours,
B. Klassen, P.M.

Mr. Paul Englert **April 21, 1975**
Homosassa Springs, Florida

Dear Paul:

Many thanks for your letter of April 9th and also the booklet "Billions for Bankers".

You are probably right about Father Burke. I probably was too hard on him. But we are still friends and I have sent him "Behind Communism" and also "Did Six Million Really Die?", an excellent booklet on the SIX MILLION HOAX coming out of Britain. Have you read it? He was going send them to a group (religious, I believe) in Germany as he wanted to straighten them out on this big lie about the six million dead departed Jews that were all gassed six, seven, eight times and then came back to Jew heaven in New York.

Feel free to write him if you like. I believe he is on the trip to Europe right now and should soon be back. I expect to resume correspondence with him and just received another letter from him about a week ago. He has a copy of "NATURE'S ETERNAL RELIGION" of course. However don't let him know I sent you a copy of what I intend to be a general form letter to answer all those who criticize my religious views as stated in "NATURE'S ETERNAL RELIGION". My sole purpose in sending it to you was to fortify you with some additional ammunition, if and when you should need it.

Regarding your emphasis on the Federal Reserve, of course I agree with you it is vital. Unfortunately it is one of the hardest components of the Jewish conspiracy for the average yokel to understand. In any case, I regard it as only a part of the whole ball of wax. One of the problems I have observed in the whole right-wing movement (of which I no longer consider myself as a part) is that they will latch on to a part, like the United Nations, or the Supreme Court, or the news media, or busing, etc. The way I see it is that we have to rout the Jewish conspiracy on the whole front and that we can never win isolated battles as long as the Jews are still entrenched.

In order to do this we have to straighten out the White Man's thinking and give him a new religion, a new program and new goals. This of course is the whole purpose of our book, the White Man's Bible. We have to build and organize, organize and propagandize.

Re - Christian Vanguard, I don't think much of it. Their main purpose, it seems to me, is to convince us goyim that we are the real Jews or the real Israelites, take your pick. After reading about what scoundrels and whoremongers were Abraham, David, Solomon, Judah and the rest of their ilk, I'd rather have a good honest horsethief for an ancestor, wouldn't you?

For a Whiter and Brighter World,

Creatively yours,
B. Klassen, P.M.

Mr. Michael von Bergen **April 23, 1975**
Miami Beach, Florida

Dear Mr. von Bergen:

Thank you for your letter of April 20th (which, as you know, is also Der Fuhrer's birth date). It is gratifying to learn that our book, "NATURE'S ETERNAL RELIGION" gave you so much encouragement and inspiration. I hope that it will further spur you to action in the White Man's fight for the survival, expansion and advancement of the White Race.

I agree with the positions taken in your letter, especially that the Jews have deceived us in their numbers and that their rigged census figures are to deceive rather than inform us. Whether there are 30 million Jews in this country or not, I don't know. In my book I estimate there are probably 80 million in the world rather than the claimed 18 or 20 million. But again this is only a guess. However, I am sure there are a lot more Jews and niggers in this country than the Jew-rigged census would lead us to believe.

The key to all this is the question you raise — What to do? Living as you do in Miami Beach, I am sure you must feel most uncomfortable living in the midst of all those Jews. As to what we can do — the program is spelled out in the second last chapter of the book, THE ROAD TO GREATNESS. What you can do immediately is distribute as many copies of "NATURE'S ETERNAL RELIGION" to your White Racial loyalists. We have a special deal of 32 books for $32.00, which is $1.00 per book.

I would like to see you order a carton of books — distribute them, proselytize, propagandize and organize. So let us get on with the task.

For a Whiter and Brighter world,

Creatively yours,
B. Klassen, P.M.

Segment 19

Mr. Michael McLaughlin **May 5, 1975**
Merseyside, England

Dear Mr. McLaughlin:

Your letter of April 28th has been received with much interest. Also I have received your April issue of the BRITISH PATRIOT. Many thanks for both. I am awaiting the arrival of the tape Mr. Carr ordered for me and will confirm to you its arrival.

It is gratifying to read of your courageous fight against the Jews, against their vicious program of mongrelizing the once heroic British race, and against their depraved, criminal R.R.A. In regards to the latter, let me say this: DEFY IT BY ALL MEANS as long as you have breath and life. The Jews themselves would never stand for it. Once you capitulate and allow yourself to be silenced on this issue, they have struck your most potent weapon from out of your hands. Without speaking out, identifying and attacking the enemy — the perfidious Jew — you are done for. Never submit! Do just like the Jews under similar circumstances — scream loud and long about freedom of speech, persecution and discrimination. Defy them at all costs!

I regret that the shipment I sent last year never reached you. As I remember, however, I had not received any money for it in advance, nor later. Be that as it may, I will in the next few days ship 24 books, three cartons of eight each, of "NATURE'S ETERNAL RELIGION" to you. In deference to the heavy costs you have incurred in defense of your right to fight for the survival of your race, I am going to contribute these to the cause, gratis.

In the future in ordering the book, I would prefer to have you handle it as Mr. Carr does. He sends me $50.00 (U.S.) in currency, (not checks or money order which are difficult to cash) and I ship him 40 books, five cartons of eight each. So far all have safely arrived.

I notice that you are advertising my tape and presume they are copies you have made. This is perfectly fine with me provided they have not been altered, and provide the sound quality is fairly good.

Best of luck in your fight. STOMP THE HEAD OF THE SERPENT!

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

P.S. I also have a letter from you addressed to the American Patriotic Bookstore at my business address in Pompano Beach in which you inquire about William Joyce's "Twilight over England". I no longer have the bookstore and I never did have Joyce's book. Sorry. B.K.

Mr. K. O. Kleffel **May 6, 1975**
Libri International
Rep. of South Africa

Dear M. Kleffel:

Thank you for your letter of April 26th received today. I am pleased to hear that the previous shipment of books arrived safely.

Yes, I am perfectly capable of reading your letter in German, but am much more readily conversant in English.

I am pleased to learn that our book "NATURE'S ETERNAL RELIGION" has created quite a bit of excitement in your circle. We will be pleased to ship you more books. The best way I have found to handle this is to have foreign customers send us American bills rather than checks or money orders. We find the latter almost impossible to cash. Foreign currency is highly cumbersome and takes time. I would therefore suggest that if you would send us a $50.00 bill (American) we will send you 40 books which will consist of five cartons of eight each. Cartons of eight seem to be the largest economical book rate we can get for foreign shipments.

As soon as we receive this from you we will immediately proceed to ship.

For a Whiter and Brighter World,

Creatively yours,
B. Klassen, P.M.

Mr. William L. Pierce **May 9, 1975**
National Alliance
Washington, D.C.

Dear Mr. Pierce :

Thank you for your letter of May 1st, and also the booklet written by Dietrich Eckhart and translated by you.

In these "dialogues" with A. H., Eckhart does an excellent job of defining, delineating and characterizing the root of all evil, the perfidious Jew. What is extremely puzzling is his and Hitler's confused and self-contradicting assessment of the Jewish bible, of Christianity, and of Jesus Christ.

On the one hand they tear to pieces the Old Testament and its brutal killings of men, women and children, of the slaying of 31 Gen-

tile kings, of how ridiculous it is to contemplate the idea of "Hebes are God's chosen people," as you put it. All very good. But then they infer that Christ was a noble Aryan warrior who drove the moneylenders out of the temples, and performed other heroic deeds, but whatever they might be escapes me. They again infer that old saw I've heard a thousand times, i.e., that the GENUINE, ORIGINAL Christianity was great, but the Jews, et al, have perverted it badly, and it is in sad shape today.

This is, of course, a lot of hogwash. There is not a shred of evidence such a character as Jesus Christ ever lived in the first Century A.D. or any other century. Furthermore the Jewish New Testament says in Luke 2:21 that Jesus Christ was a circumcised Hebe. It says the same thing again over and over in his ancestry, etc. The whole philosophy is so extremely suicidal and self-destructive, as I have pointed out in my previous letter, and of course, also over and over again in my book. For two such astute scholars and philosophers as Eckhart and A. H. to be so confused on this issue is, to say the least, idiotic and inexcusable.

That is why I believe the creed as set forth in CREATIVITY is much more advanced and far superior to the Nazi philosophy. They paved the initial way, but they only did part of the job.

Now as far as "Letting it all hang out," this is not exactly what we propose to do, but there is much to be said for an all-out stand. There are adherents for almost any kind of philosophy, as witness e.g., PLAYBOY, who lets it all hang out, does not cater to Christians, and has 6.5 million subscribers. The weakness of most so-called right-wing groups is they are catering to various shades of Christians, and thereby gather a following that comes equipped with a built-in self-destruct mechanism.

This reminds me of my rapping with Douglas T. Kaye and his Atlantis books. He is so anxious to "preserve" his COMMON SENSE mailing list, which is strongly anti-Jew but pro-Christian, that all he can feed them is the same old pap, most of which he knows is not going to do any good. He is so hamstrung with his Christian adherents, and so obsessed in keeping them, that he can't talk "common sense" to them about the basic facts of Nature and survival, although he himself knows better.

The main trouble in all these efforts is we are trying to compromise an unbridgeable gap — an irreconcilable antithesis — CHRISTIANITY AND THE SURVIVAL OF THE WHITE RACE. We will have to realize this and make up our minds which way we want to go.

I would like to see you covertly distribute our book, which we consider the White Man's Bible, among your contacts, especially among the higher echelons, or wherever you can. We ship cartons

of 32 books for $32.00. Perhaps you would at least like to make some limited tests and see what happens.

In any case, I believe that time is running out for playing limited games. Sooner or later we are going to have to take a hard stand, and when we do, I'm sure you will not find the muddle-minded Christians in our ranks. They are not the solution. They are part of the basic problem.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Emory Burke **May 12, 1975**
Eclectic, Alabama

Dear Mr. Burke:

In follow up to my letter of May 9th, in addition to any other avenues you may have in mind, would you try to come up with a particular design expressing the

(a) Western Frontier motif (false front stores, verandas, etc., as found in some of our old mining towns).

(b) The Roman Motif — i.e., that of classical Ancient Rome.

For a Whiter and Brighter world,
Creatively yours,
B. Klassen, P.M.

Mr. James F. Dedo **May 12, 1975**
Miami Lakes, Florida

Dear Jim:

Thank you for your invitation to your graduation and commencement exercises on June 6th. Your kind notation about what an influence our CREATIVITY philosophy has brought to your life is very touching and makes me feel that if you can be so inspired, then so also can fifty million other young men and young women.

May this be the beginning of a creative and productive career for you — not only for yourself but also for the contributions you will be making towards your race.

I hope that when your children start going to school and graduate they will be doing so in and from a racially dedicated CREATIVITY SCHOOL.

Let us bend our efforts to that task. THINK WHITE!

Let me know what your future plans are.

For a Whiter and Brighter world,
Creatively yours,
B. Klassen, P.M.

Mr. William K. Shearer **May 20, 1975**
American Independent Party
Lemon Grove, California

Dear Bill:

Thank you for your letter of May 14th. I am most pleased to hear that you have received my book, "NATURE'S ETERNAL RELIGION" and that you intend to read it in the near future.

I most earnestly hope you do read it. In it, I believe, you will find the basic malaise defined more clearly than in any political book, document or movement. In it, also, the remedy is clearly set forth. It all evolves around race, and Nature's eternal laws regarding the struggle for survival, expansion and advancement.

It is hard for me to understand how a man of your intelligence can still pin his hopes — any hopes — on the personage of George Wallace. His track record has shown that he is a miserable, ruthless, self-centered con-artist of the first water. He will lie, cheat and steal in order to enhance his political advantage and/or his financial coffers. I could say a lot more, but this sums it up in a nutshell.

Anyway, please STUDY my book and give me the benefit of your appraisal at your earliest opportunity.

For a Whiter and Brighter World,

Creatively yours,
B. Klassen, P.M.

Rev. James L. Betts **May 21, 1975**
Overland, Missouri

Dear Rev. Betts:

It was good to hear from you again despite the fact that I feel very grieved about the sacrifices you have been made to suffer. Nevertheless, despite the setbacks and sacrifices, it is encouraging to learn that you are going out to the hustings and spreading the word. Evidently you are hurting the enemy or they would not have attacked you. I admire your courage.

I have not received any news clippings about your activities. If you could send me some, I would appreciate it. Also I would like to have you give me more details about your meetings and what response and results you are achieving. Do you have a regular meeting place?

Enclosed is the photo you requested. I am forwarding a copy of our tape — CREATIVITY: THE WHITE MAN'S RELIGION to you under separate cover.

Mr. Bumgarner's letter is a further indication of high dedication towards our cause. It is most inspiring. He has also written me

a letter, which I am answering.

Keep up the good fight. I am glad you now have a bodyguard of troops when you speak — don't let the Jewish scum ever again beat you down.

STOMP THE HEAD OF THE SERPENT.

For a Whiter and Brighter World,

Creatively yours,
B. Klassen, P.M.

Mr. Michael McLaughlin June 9, 1975
National Secretary & Treasurer
Bebington, Great Britain

Dear Mr. McLaughlin:

Yours of May 26th has been received, as also has the tape you sent me. Thank you very much for both.

Regarding the treacherous and tyrannical Race Relations Act, it was, of course, perpetrated on your White Racial comrades by the perfidious Jews in order that they can thereby gag you, tie you up hand and foot, and more easily destroy you. The Jews always have two sets of rules — one set for you and one set for themselves.

In essence, these rules always add up to the following: They tell you to love your enemies, they themselves kill and destroy their enemies. It goes right back to the Sermon on the Mount — leave the White Man naked and defenseless with his own cooperation and then destroy him.

Therefore, I repeat — never, never submit to this suicidal R.R.A. Either fight it tooth and nail, or you have had it.

I hope our three cartons of books have safely arrived by now. Regarding the German tape, I am sorry to say I am disappointed in it. I had expected it to mostly be a collection of speeches by A. H., Goebels, and others. However, it appears to be the sound track from a movie, I presume, and I can't really make much out of it.

STOMP THE HEAD OF THE SERPENT!

For a Whiter and Brighter World,

Creatively yours,
B. Klassen, P.M.

NOTE: Mr. Foote is an Indian who wrote us a nasty letter.

> **Dear Honky:**
>
> Just read your book — *NATURE'S ETERNAL RELIGION*. I agree to drive the nigger and Jew out of America. And you too, Honky. Go back to your Fatherland. We don't need you.
>
> **Kenneth R. Foote**
> Gray Bird—Chippewa Tribe

Mr. K. R. Foote **July 1, 1975**
Minneapolis, Minnesota

Dear Redskin Savage:

The above is in answer to your addressing me as "Honky". Whereas the latter is a meaningless and derogatory term invented by the Jews and the niggers and copied by you, the term redskin savage is full of meaning, means exactly what it says.

Let me straighten you out on a few simple facts of life. When we, the White Race, regain control of our own government and our own destiny, which we will through the teachings of our CREATIVITY religion, the Indians will no longer be any problem at all.

We will not have to resort to any violence. All we will have to do is stop feeding and subsidizing you freeloaders and you will just simply shrink into oblivion. Like the niggers, you are an obsolete, outdated species, bypassed by the tremendous progress of the White Race. Like the nigger, you cannot compete in the White Man's society, because you are too stupid, lazy and shiftless. You would have died out generations ago if it weren't for the Jews befuddling and confusing the White Man's brain with a lot of stupid "Christian ethics".

Since in our religion, CREATIVITY, we throw all this Christian garbage overboard and return to the basic laws of Nature, you will be on your own, redskin. And on your own, in competition with the White Man, you won't last very long, and you know it.

For a Whiter and Brighter World,

Creatively yours,
B. Klassen, P.M.

Mr. R. W. Corson **August 7, 1975**
Avenel, New Jersey

Dear Mr. Corson:

Thank you for your letter of July 9th which arrived just after I took off for a three week vacation to points West. As a result of that absence I am somewhat snowed under.

Your experiences in attempting to straighten out the White Man's thinking in regard to the Jews, niggers and Christianity are most interesting. Though it may at times be somewhat discouraging, it is a job that has to be done and as soon as the CHURCH OF THE CREATOR gathers the wherewithall to do a proper organizational job, the progress can rapidly snowball into an avalanche. We have a terrific potential to work with — common sense, the laws of Nature, instinct, and above all, the tremendous potential power of an aroused, unified and organized White Race — the greatest power on the .

face of the earth. In the meantime, planting as many copies of "NATURE'S ETERNAL RELIGION" as possible in the hands of our White racial comrades will go far in laying the groundwork. Remember you can order a carton of 32 books for $32.00. Why not get busy.

Regarding Fred Farrell, whom I have met a number of times, I say he looks like a Jew, talks like a Jew, walks like a Jew, acts like a Jew, and is one.

I am totally convinced that Russia was brought down by the Jewish conspiracy and is still gripped as in a vise by this same perfidious, treacherous gang. The U.S. is not in opposition to Russia. The Jew run American government has been subsidizing, and propping up the tottering Communist slave state for the last 58 years. The illusion that Russia is helping the Arabs is only a hoax for the benefit of the gullible American yokels. Did you ever ask yourself why 120 million Arabs plus 240 million Russians seem to be losing one war after another to only 2 1/2 million Jews, who at best are miserable and cowardly fighters in the field?

The answer is obvious. The Russian Jews have not been helping the Arabs, but betraying them. Let me tell you furthermore, that if the Jews had lost control of Russia, the full might and fury of the U.S. would have been turned on Russia and it would have been destroyed as was Nazi Germany. Instead we are shipping them millions of tons of free wheat and billions of dollars worth of other goodies. Our presidents go over there repeatedly and kiss their butts, and in general the Jewish press paints a beautiful picture of a strong, invincible "progressive" U.S.S.R. versus a blundering floundering "decadent" U.S. Get the picture?

Anyway, let's spread the word as widely as possible and the best way to do that I know of is to spread the White Man's bible as wide and far as possible.

For a Whiter and Brighter World,

Creatively yours,
B. Klassen, P.M.

Mr. & Mrs. Carlton Lillie
Tallahassee, Florida

August 12, 1975

Dear Mr. and Mrs. Lillie:

It was good to talk to you on the phone last night and hear from you again. The Jews have made great strides in the mongrelization and enslavement of the White Race, since we last saw each other about six years ago. All of which proves what Revilo P. Oliver said about "after 50 years" and 10 thousand right-wing organizations, this

"conservative", "right-wing", "Christian", approach must be considered a colossal failure. Unfortunately, he did not suggest a solution. In our book, "NATURE'S ETERNAL RELIGION" we do have a total, sweeping solution.

It is encouraging indeed to learn that even after you have had the book for two years, that the portents and the ideas of the book prevailed. It goes to vindicate what I have long believed, that when you distribute books bursting with a great new idea, it is like planting seeds waiting for the proper condition to develop before they can germinate. The long term ramifications of placing our White Man's Bible and allowing the seeds to germinate can be tremendous. I am convinced that the creed and program is the one the White Race must follow or else face mongrelization, genocide and the destruction of all civilization.

In accordance with our conversation last night, I am shipping you a carton of 32 books for you to sell, give away, or distribute to carefully selected White Racial comrades. We must spread the word as rapidly as possible and everyone do what we can. I would appreciate being repaid $32.00 — when you see fit, so we can get more books out to others. If you would like a number of flyers on the book, please let me know.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Dr. Edward R. Fields, Editor **August 18, 1975**
The Thunderbolt, Inc.
Marietta, Georgia

Dear Dr. Fields:

As a reader of the **THUNDERBOLT** and also a reader of **THE BRITISH PATRIOT**, I am somewhat puzzled regarding your speaking tour in England. On P. 6 of the Thunderbolt (July 30) you state that upon your return from Diksmuide you were surprised by a welcome crowd of the **NATIONAL FRONT** and spoke before it.

According to Mike McLaughlin, publisher of the **BRITISH PATRIOT**, the main organ of the **BRITISH MOVEMENT**, the National Front is a pseudo-Jewish movement headed up by, and firmly in the hands of Kingsley Read, a Jew, and in fact, the leadership of that movement, as a whole, is headed up by Jews.

Without any preconceived conclusions on my part, there seems to be a puzzling set of contradictions here. Since you were in England, would you care to explain the situation to me?

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

P.S. By the way, I have also received a letter from a party in England who asked you about our book, "NATURE'S ETERNAL RELIGION", and he said that you had recommended it. I greatly appreciate your endorsement. B.K.

Hayward Chamber of Commerce **August 18, 1975**
Hayward, California

Gentlemen:

About 20 years ago when I resided in the Hayward area, I was impressed by the design of a Savings and Loan Bank that was built in Hayward in a style reminiscent of the Western Frontier. Although I knew the man that founded it at that time, unfortunately have forgotten both his name and the name of the institution itself.

We would be interested in perhaps utilizing the style of the building as a format for a church. If you could forward this letter to the management of the bank, perhaps they would be kind enough to forward some pictures or sketches of their bank that could be of help to us.

Sincerely yours,
B. Klassen, P.M.

Segment 20

Mr. Clifford H. Knowlton **September 8, 1975**
Laguna Hills, California

Dear Mr. Knowlton:

Thank you for your letter of August 23rd in which you pursue the further analysis of my book. I appreciate your methodical approach to the matter and regret if I should seem a little over-exercised in my previous letter to Mr. Jas. H. Johnson. Perhaps this was because it seemed to me you completely missed the point of my book, whereas everyone else who has read it tells me that while they may or may not agree with what I say, they have no problem understanding what it is I am saying — that it comes through loud and clear.

To quote one of my correspondents — "you have listed what you consider as 'enemies' in no uncertain terms. There has been no shilly-shallying — no weasel words or doubletalk — no beating around the bush — straight out and out words where one does not need a dictionary alongside to understand your position, or what you have meant."

It therefore dismayed me somewhat, when in your first letter to Mr. J. H. Johnson, you seemed to so completely miss the target as to what I was trying to do. Therefore, let me state again clearly what the objective of the CHURCH OF THE CREATOR IS — **TO GIVE THE WHITE RACE A CREED AND A PROGRAM AROUND WHICH ALL THE WHITE PEOPLE OF THE WORLD CAN RALLY AND UNITE FOR THEIR OWN SURVIVAL, EXPANSION AND ADVANCEMENT.**

This is something the White Race has never before had in all its history — as far as I can discover. True, Adolf Hitler gave the Germans a POLITICAL creed that came close, but as I point out on P. 310-314 of my book, it had several flaws: (a) It promoted Pan-Germanism instead of encompassing the total White Race. (b) It had a political foundation instead of a religious base. (c) It never tackled the basic rot that undermined the great Roman Empire and plunged the White Race into a thousand years of the Dark Ages — namely, Christianity. (d) His uniting with the mud people of the Japanese Empire to kill other White Racial comrades is counter to our innermost creed.

I realize that he was pressed by time and circumstances and that had he had more time and resources he would have perhaps used a different approach. I also realize that had he won the war, that

racial creed that started as a political party, would perhaps have shifted to a religious basis and crowded Christianity out of the picture. These are only conjectures of what might have happened had Hitler had more time, resources and had the circumstances been different. My point however, is that MEIN KAMPF does not fill the bill as a religious creed for the White Race. It is outdated time-wise as I point out in my book, and proscribed geographically and racially to the Germans. For further details read the whole chapter on "Germany, Adolf Hitler and National Socialism" starting P. 290, "NATURE'S ETERNAL RELIGION".

Despite all this, I consider Hitler the greatest leader the White Race has ever had, and the greatest White Man that ever lived. True, he was not victorious in the end, but there never is an end. He did start a movement of White Race consciousness and pinpointed the Jew as the major culprit as no man has ever done before — a movement that will be hard to stop. It is up to us to see to it that it is NOT stopped — in fact, that it mushrooms into a worldwide ground swell of such proportions that we finally overwhelm our enemies and accomplish what we set out to do in CREATIVITY — the survival, expansion and advancement of the White Race.

Now in your second letter I notice a distinct change of tone as far as your position is concerned. We seem to agree more on objectives, but you fear that Creativity is divisive and it will arouse our enemies to crush us even more cruelly and more completely. You cite the fact that Hitler confronted the Jews, Hitler was defeated by the Jews, therefore, ipso facto, that is the end of that approach. You infer we can never beat the Jews by openly recognizing them as our enemies and confronting them and the other mud races.

This conclusion on your part, is premature, to say the least. I can cite any number of cases in history where defeat and devastation was temporarily overwhelming, only to have the pendulum swing the other way to victory. The Jews' own example is another case in point. When the Romans leveled Jerusalem to the ground in 80 A.D. and sold the men, women and children into slavery, that should have been the end of the Jews. But not so. Through their tenacity and through the unity of purpose supplied by their Mosaic religion, they finally humbled Rome and destroyed her. Rome is no more, but the Jews now own the world. It took many centuries, and it took determination, tenacity and racial purpose to accomplish it — but accomplish it they did. And remember, my friend, back of it all was their RELIGION. Without it, as I quote Golda Meir in my book, the jews would have once existed, and then vanished from the face of the earth, like hundreds of other races and nations.

Now this is what I am trying to give the White Race, and I believe in "NATURE'S ETERNAL RELIGION" we have just that — a basic

creed by which the White Race can survive, expand and advance for the next million years. If only the Romans had had such a religion they would never have perished, nor would the perfidious Jew been able to overcome them. Instead, we would have today, a beautiful world, populated by beautiful, intelligent, cultured White people — advanced to a plane of increasing perfection that would be thrilling to behold. To save space here and to get the projection further, please read the last chapter of "NATURE'S ETERNAL RELIGION", "Our Brilliant Future".

But, you say, we mustn't do it that way — Hitler lost and that is the end of it. There must be a better way, you say. You say that, but then you completely forget or neglect to say what that better way might be. And I say, my friend, there is not only no better way, THERE IS NO OTHER WAY. Never in all history has any group, race, nation, etc. ever won without first identifying the enemy and recognizing them for what they are. And at no time has the White Race ever recognized itself as a worldwide entity, or realized its awesome power and potential. It has been left to "NATURE'S ETERNAL RELIGION" to spell this out in no uncertain terms.

Furthermore, no group has ever won without having a specific goal and program. Again, in CREATIVITY, we have spelled this out, clearly and in no ambiguous terms. I believe and I say it again and again in my book, that we do have the power to overcome and I say that the White Race — united and organized — is ten times more powerful than all the mud races, including the Jews, put together. It is now our task to unite and organize that awesome source of power.

You talk vaguely of "understanding" Yockey's IMPERIUM, propounding such phrases as "Social variation", "mutation" and "cultural drift", and alot of other vague and meaningless phrases, none of which will do a damn thing to solve the problem. I, too, have read Yockey and all I can say about IMPERIUM is that it is theoretically and intellectually so broadminded, that its head sags in the middle. As far as it having any viable solution to the desperate situation the White Race finds itself in today, it has none whatsoever. Even its basic premise of a "cultural organism" being predestined to develop in a "whatever will be, will be" course, is fundamentally faulty. There is, in my opinion, no such thing as predestination, and only the superstitious will be gullible enough to entertain it. You speak fearfully of "confrontation", that it would arouse the Jews to do us in. What utter nonsense! The Jews already understand thoroughly what they are doing and they are hell bent for leather to destroy us as quickly as possible, before we catch on and become "aroused". The only way out for the White Race is to become "aroused", becoming aroused and confronting THEM, because such confrontation would blow their conspiracy sky-high. We can, we must, and we SHALL overcome.

I believe that men, people and races change the course of their fortunes and their destiny by sheer determination, effort, goals, and above all, by being PROPERLY MATCHED TO A RELIGION that brings out their greatest potential.

This latter the White Man has never had. In fact, after the pointless Pagan religions of the Vikings, the Greeks, the Romans, etc., the whole White Race was smitten like a plague by the new Semitic religion that smothered it like a poisonous fog and plunged it into a thousand years of the Dark Ages. It robbed the White Race of its virility and aggressiveness and converted it into whimpering milksops who were now paralyzed with fear of the Super Spooks in the sky that threatened to fry them and burn them if they didn't "believe" as they were told to believe. They lost all interest in the real world and their unhinged minds were now preoccupied with meandering in the never-never land of fantasy — to the neglect of their real problems.

This was the Jews most spectacular breakthrough, the most phenomenal conquest in history. To this day, the White Race has not been able to shake off this mind-scrambling opiate, and the Jew is still in control.

Because of the havoc that Christianity has wrought on the White Race, you jump to the conclusion that religion, all religions, per se, are detrimental and destructive. I say not so, this is an erroneous conclusion, just as much as to say fire is always harmful because it burned your house down. Not so, fire properly used and controlled, can and does heat millions of homes, cooks meals, drives locomotives, and is tremendously useful in thousands of ways. The same way with money, or government, propaganda, or religion. They can be useful or destructive, depending how they are used, by whom and for whom, and who has control.

Which brings us to the issue of Creativity and our Bible, "NATURE'S ETERNAL RELIGION". The White Race has the intelligence, the productivity, the creativity to be so far ahead of all the mud races, that it is hardly even a contest. We claim that it has failed to do so because for the last two thousand years it has been strangled by a BAD religion, one that has promoted such suicidal advice as "love your enemies", "sell all thou hast and give it to the poor", "judge not", "turn the other cheek", "resist not evil", and alot of other fundamentally bad advice. The programs of the Atheistic, agnostic, or "Freethinker" groups to destroy Christianity have been of no effect, or next to nothing, to say the least. The reason is that they have not come up with a positive substitute to put in place — and you can't fight something with nothing.

CREATIVITY was instituted to fill this dire deficiency. There was

(and still is) an urgent need to give the White Race a positive creed, a constructive philosophy to live by, one that is based on reality, and not pie in the sky. In short, what the White Race needed was a religion that would give it purpose, inspiration and direction for its own survival, expansion and advancement, and enable it to overcome its enemies. In "NATURE'S ETERNAL RELIGION" I believe we have supplied that urgent need. The blueprint and architectural design have been drawn up and completed. We now still need the building contractor to implement the design. This we will also achieve. It is a matter of time, money and leadership, and I hope before my demise I will put them all together. If not, my successors will. In any case, I believe it is not very astute on your part to willy-nilly dismiss all religions as being destructive, and put Creativity in the same categories with the myths and hocus-pocus of Christianity and other spook oriented religions. We do not believe in any supernatural phenomena. We believe in Nature's eternal laws and phenomena, the understanding of which is the source of all the knowledge and advancement the White Man has made. We do not worship anything, not even Nature or the White Race. We do put priorities on values, and we believe the White Race is the No. 1 value, and its survival, expansion and advancement is the top priority. If you can think of anything that has more priority, I'd like to know what it is.

We are not interested in the salvation of "all mankind". We are not interested in upbreeding monkeys into niggers, nor niggers into the White Race. We recognize that we, the White Race, have our natural enemies, like every other creature in Nature, and the cold hard facts are that the Jews are our most deadly enemy, but furthermore, by their very expansion and race mixing potential, the nigger in particular and all the mud races in general, are a real and present danger in the demise and extinction of the White Race.

That's the way it is, my friend. I didn't create the mess, I am only stating the cold hard facts as I see them. Again, in "NATURE'S ETERNAL RELIGION" we don't only proclaim an alarming problem, then throw up our hands and walk off without a solution. Whereas the first half of the book spells out the problem and analyzes it in cold, hard outlines, the second half draws the blueprint for the solution. We believe we have gone further and laid out the solution more thoroughly than any White Man in history. We now need the "contractor" to build the structure, to implement the program and this, too, we will achieve.

This is the way we see it my friend, and if "there is a better way" that you keep talking about, please let me know what that program might be. Your solutions of attacking the individual effects — crimecontrol, capital punishment, etc., leave me cold. This is the old conservative, right-wing approach, and as Dr. Revilo P. Oliver says, after

fifty years and ten thousand organizations, we have gotten nowhere. This is as pointless as running around putting out fires, but taking no interest in capturing or stopping the arsonists. It is the old useless ploy of going after the effects but ignoring the cause. Nor am I especially impressed with this "understanding" bit. For the answer to this point, see P. 432, "NATURE'S ETERNAL RELIGION".

Mrs. Minnie R. Favro
Kent, Washington

September 8, 1975

Dear Minnie:

This will acknowledge receipt of your letter of August 31st. I note with regret that you still haven't answered the basic questions I put to you. Why not? COULD IT BE THAT YOU DON'T HAVE ANY SENSIBLE ANSWERS?

You say I have not disproven anything old, or this or that. For your information I don't have to DISPROVE ANYTHING, least of all the collection of mythical idiocies written by a gang of Jewish scriptwriters of unknown origin, and held so dear and sacred by you. You claim they are true — IT IS UP TO YOU to supply credible evidence for your claims. If I set my mind to it I could dream up a million idiotic CLAIMS that you COULDN'T DISPROVE. For instance, I could CLAIM there is a diamond as big as a railroad box car 50 miles vertically down below my house. Can you disprove it? No, you can't, because you can't get down there to check. You can counter that it is unlikely, BUT YOU CAN'T DISPROVE IT. Nor should you have to. It is up to THE PERSON MAKING THE CLAIM to prove his claim has validity by supplying sufficient and meaningful EVIDENCE. The key words are MEANINGFUL EVIDENCE.

And so it is with all your hocus-pocus claims about your Super Spook, mini-spooks, bad spooks, good spooks, man angels and the whole spook infested bit. It is only a claim based on the stupid, farfetched fables of a gang of Jewish scriptwriters of whose identity neither you nor I have the faintest information. (Would you buy a used car from a salesman like Moses who described his own funeral in the past tense?) Now just because somebody wrote a book about Mother Goose doesn't mean she existed, nor did Little Miss Muffet who sat on a tuffet. They are figments of somebody's imagination, and it isn't up to me to DISPROVE their existence any more than I need disprove all your spooks and other characters that walked

through the middle of the Red Sea on dry land, or lived to be 960 years of age, or camped in the belly of a whale for three days, no damage done. (With all that sulphuric acid and no air?) These stories are just plain silly as hell and it isn't up to me to disprove them. It's up to you to come up with some better evidence than the CLAIMS of a passel of lying Jewish scriptwriters. In your letter you say "Lest you say I now avoided giving you any straight answers to your questions". Then you follow that up with God is good, Satan is bad, and ipso facto, you've answered my questions. Talk about non sequiturs. Now Minnie, you know better than that. You haven't even scratched the questions. Please read them again.

Your letter also seems to show that you have a hatred for your own race. How tragic! Why don't you become a Jew, or a nigger, or if you can't do that, why don't you marry a nigger and raise black half-niggers? The Jews have done a thorough job of indoctrinating self-hate in the minds of the White Race, especially the younger generation. You have evidently fallen for their garbage also. Too bad.

You ask — who is Ben Klassen? What the hell difference does that make? The four questions that I put to you stand on their own feet, regardless of who asked them. It doesn't matter whether you don't like what my book says. The questions I put to you are still there, and until they are answered they are as new as tomorrow. Even if a drunken bum claimed 2 and 2 makes 4, and a professor with half a dozen college degrees after his name claimed it made 17, then I would still reject the claim of the professor and accept the claim of the bum, regardless of their individual credentials. And the reason I would rather accept 2 and 2 makes 4 to 17 is because it is confirmed by my own judgment and common sense. Now even if they held a gun to my head and threatened to fry me in hell, I would still believe 2 and 2 makes 4, because of the overwhelming evidence supporting it, and I would reject the 17 answer because there is no evidence to support it, and is, in fact, contrary to all reason, judgment and previous experience.

And so it is with your damned spooks, (3 in 1) super-spooks, mini spooks and all the rest of all that silly, stupid nonsense on which you are so horribly hung up. I have never seen any of them, my dad never saw any of them personally (although he too believed in that garbage), my grandfather never saw any either, nor has any other sane person seen any spooks that I have ever met or talked to. It all hinges on the Alice in Wonderland CLAIMS of these lying Jews that you hold so dear, second hand hearsay handed down (and continually changed) over the centuries, a collection of garbage that any court would throw out as inadmissable and irrelevant hearsay in two minutes.

So I repeat — I DON'T HAVE TO DISPROVE your hang up —

THE BURDEN OF PROOF IS ON YOU to support them with credible evidence. Since the challenge has been thrown in the face of all Spookcraft worshippers before, but never answered — you will say this is old stuff — but until it is satisfactorily answered it is as new as tomorrow.

You say in your letter that "Christians have no fear of going to hell for they understand the hellfires of revelation are mere symbols". Strange, very strange. Are you saying that Jesus Christ is a liar? He says it again and again, (e.g. Matt. 13:41 "and shall cast them in a furnace of fire".) If you don't cut the mustard he is going to burn you forever and ever, roast you, fry you, barbecue you and watch you sizzle and scream. Now I read and understand English very well, and I don't need some yokel with scrambled brains to interpret for me what the English language means in the bible or any place else. When you say Christians believe in the bible, but you have no fear of hell for yourself or your children, all I can say is that you are either stupid as hell or an unmitigated liar, or both. If there are any other reasonable alternate conclusions, please clue me in as to what they might be.

In your letter you say Rome has done no good. The White Race has done no good. Well, my dear, as long as your mind is polluted and impregnated and obsessed with the Jewish world of Spookcraft, everything in the real world to you will be meaningless, worthless and no good. If you really believe in your (other) world of spooks, pie-in-the-sky-when-you-die, fry-in-the-sky-when-you-die, well, then, I would think you would want to rush into death so that you could get to your dreamy world of spooks as quickly as possible. There in your New Jewrusalem, you could co-habitate with your favorite Super Spook (all three of them) and the few of you could watch in glee, within spitting distance, the thousands of millions of poor souls writhing and screaming in agony as they are being fried and barbecued and incinerated. That should be so much fun I would imagine that you would want to leave the real world for the spook world as soon as possible. What could you possibly be waiting for? Before you rush into this New Jewrusalem, however, you might want to go take a look at what a messy dump the Jews have made of the old Jewrusalem. It would be worth your while.

So let's get back to reality and **ANSWER THE FOUR SETS OF QUESTIONS** I put to you and Fr. Burke (and others). Nobody has yet come up with a sensible set of answers. **UNTIL THEY DO, THE QUESTIONS STAND ON THEIR OWN FEET.** There is no use of attacking Ben Klassen, or the Romans, or the White Race, or my book, or anything else — just answer the damn questions. Until they are answered, they are as new as tomorrow.

As far as Fr. Burke is concerned, it makes absolutely no dif-

ference as to who he is. I have no obligation or intention of giving out his address. I don't know if he would want me to. It is completely irrelevant to our discussions. His name could just as easily be Brown or Smith. What would it change, or in what way does it affect the questions?

Under separate cover I am sending you a copy of "The Bible Handbook". In the preface the publisher says it will raise more questions in five minutes than you can answer in a lifetime. The book also is not new — it was first published in 1888. But until all the obscenities, contradictions, unfilled promises, etc., are explained or answered, it too is as new as tomorrow. If your mind is still capable of reading clear English, it should be tremendously enlightening to you.

So I hope in your next letter YOU WILL ANSWER MY QUESTIONS if you can. Of course, if you can't, then you will have to admit that your gullibillity in the Jewish scriptwriters' Spookcraft is on pretty shaky grounds.

In conclusion, permit me to add this little bit of wisdom to your collection:

BEING SKEPTICAL AND INQUIRING IS NO VICE.
BEING GULLIBLE AND SUPERSTITIOUS IS NO VIRTUE.

Ask yourself, which category are you in?

For a Whiter and Brighter World,

Creatively yours,

Mr. M. Montgomery
Brentwood, Tennessee

September 15, 1975

Dear Mr. Montgomery:

Thank you for your letter of September 11th. Your letter deserves a fuller answer than I will be able to give in this letter. However, I believe that the answers are really all there in "NATURE'S ETERNAL RELIGION", if you would review the book.

There is a saying "There are a thousand hacking at the branches of evil to one who is striking at the root". I believe the essence of this phrase covers most of the new "causes" that you seem to have discovered. Among these I would list "Momism", the feminization of our male population, and other malaises of the White Race that you ascribe as "causes". These are not causes, my friend, but effects. The basic cause is and remains the perfidious Jew who has poisoned and controlled the minds, manners and morals of the White Race, both men and women, for the last several thousand years. The Jew has cleverly and effectively used his tools and improvised them to

the weaknesses of his victims. Among these tools are Christianity, communism, propaganda, money, the mud races and any number of other devices. True, the niggers are not a cause, but they are a powerful and dangerous tool the Jew is using to mongrelize and destroy the White Race.

Nor can I ascribe much merit to the idea of switching from one set of myths and spooks to another such as Odinism. In today's modern world of science and technology, even the Christian myths are rapidly losing credibility with all but the most gullible and superstitious. To try to indoctrinate the modern generation with a new set of old Norse myths is worse than pointless and solves nothing. What our White Racial brethren need are not more mind-warping myths (lies) but a credible philosophy that makes sense and will serve as a reliable guideline in the real problems of this world. This we have endeavored to provide, and I believe, successfully so, in "NATURE'S ETERNAL RELIGION". It is a matter of priorities, and we contend that as far as we are concerned, the White Race is the most significant value on the face of the earth, and the survival, ex- pansion and advancement of the White Race is the No. 1 priority. Everything that follows is a logical extension of that basic premise.

You may have been spinning your wheels handing out right-wing literature, but you are not spinning your wheels when you distribute copies of "NATURE'S ETERNAL RELIGION" and spread the word. In the first place we are not a right-wing organization, nor are we a conservative group, ten thousand of which have come and gone in the last 50 years, with little avail. We are a White, racist, revolu- tionary, new religion that strikes at the root of the evil. And that evil is the parasitic Jew utilizing all the weapons at his command as aforementioned.

Could it be that rather than pursue the hard road that we must travel in order to survive that you would rather evade facing the task and find new theories as an excuse for inaction? I think so. I am con- vinced that in "NATURE'S ETERNAL RELIGION" and our CREATIVITY religion, we have laid the groundwork for the salva- tion of the White Race for all time. If we can but get ten million copies in the hands of our White Racial comrades, this would be about equivalent to what we now spend in subsidizing the niggers for a cou- ple of hours. The need is not another book and yet another, like the Birch Society, but rather implementing the program that we now have. I can't do it all by myself, and we need people like yourself to do their part. Every time you distribute a copy of the book you are planting a seed, the ramifications of which are impossible to foresee, but can be tremendous. It is not that we don't have the right program. The real problem at this point in time is too few have done too little to implement it.

Creatively yours,
B. Klassen, P.M.

Mr. Peter Banks **October 1, 1975**
Liverpool, England

Dear Mr. Banks:

It is real gratifying to hear from a good young White Racial comrade from England. I shun the word "Nationalist" since I believe nationalism is divisive and has been used by the Jews to divide and conquer the White Race for many centuries. We Creators therefore espouse Racial Socialism as set forth in our Bible.

We want to unite and organize all the good White people of the world.

I am glad to hear that "NATURE'S ETERNAL RELIGION" has answered what you have been searching for over the last 10 years. It is even more encouraging that you have been distributing copies to many of your racial comrades. To recruit 17 activists with 20 books I believe is tremendous. If every activist did likewise, we would soon have the Jews and the niggers on the run and would again be masters of our own destiny.

If you would like to order books from us directly we will ship (postpaid) 8 books for $10.00 U.S. Please send U.S. currency, otherwise we have cumbersome problems. It has always come through in the past.

We don't have membership forms per se, but encourage you to build Church of the Creator groups as spelled out in Chapter 27 Part 2 of our Bible.

For a Whiter and Brighter World,

Creatively yours,
B. Klassen, P.M.

Hon. John R. Rarick **October 1, 1975**
St. Francisville, Louisiana

Dear Mr. Rarick:

Thank you for your circular "You've a Right to Know". I have met you in person at some Birch gathering and have heard you speak several times. I admire your endeavors — up to a point.

Like so many right wing projects, e.g., the J.B.S., Carl McIntyre, Billy James Hargis, Liberty Lobby, etc., you pursue and denounce the effects and ignore the cause. This is like chasing around after a bunch of arsonists, trying to put out their fires, but being completely silent and disinterested about catching the arsonists themselves. Such a policy, as you know, can be highly frustrating, and forever unsuccessful.

As you must surely know by now, behind all this treason, liberalism, communism, etc. is the worldwide Jewish network working feverishly to enslave the world, and in particular, to mongrelize and destroy the White Race.

Yet I have never heard you mention the real enemy — the international Jew. In my 508 page book, "NATURE'S ETERNAL RELIGION", I not only lay out the entire problem, but in the second half, the solution. I am sending you a copy under separate cover.

If you are as dedicated and as fearless speaking out as your reputation warrants, I hope you will soon get to the heart of the problem. Otherwise you will only be hopelessly and forever chasing fires already in progress and getting there too late.

For a Whiter and Brighter World,

Creatively yours,
B. Klassen, P.M.

Segment 21

Mrs. Marie McAfee
Alpine, Texas

Dear Mrs. McAfee:

Thank you for your kind letter of September 4th and the literature received. I hope by the time you receive this note you will have completed reading "NATURE'S ETERNAL RELIGION".

A few years back I too was active in the American Independent Party. In fact, at one time I was Florida State Chairman. However, it gradually began to dawn on me that this organization, too, was a smokescreen manipulated by the Jews and that the leadership had not the slightest intention of exposing the root of all evil — the perfidious Jew.

There is a saying "There are a thousand hacking at the branches of evil for one who is striking at the root". In NATURE'S ETERNAL RELIGION we are taking a completely fresh, fundamental approach and striking at the root as no other movement has in the last two thousand years.

As for George Wallace, it is my considered opinion that he is a phoney scoundrel of the first water and a useful ploy for the Jews. His most remarkable achievement is his continuing ability to rake in the cash from his deluded supporters. Whereas the A.I.P. counts him as the leader of the Third Party movement, the fact remains he has never left the Democratic Party for the last two decades. He has added nothing but consternation and confusion, parading as a White Supremist. The fact is that whereas a dozen years ago he (deceitfully) made his reputation on that claim, he is now a No. 1 nigger-lover, openly bragging how much he has done for these parasites in Alabama.

I am firmly convinced that the road we must travel is as is laid out in NATURE'S ETERNAL RELIGION, no matter how hard or how long that road might be. The best way to help spread the word is to help distribute the book. We are offering a carton of 32 copies of NATURE'S ETERNAL RELIGION for $32.00. Please let me hear from you.

For a Whiter and Brighter World,

Creatively yours,
B. Klassen, P.M.

Mrs. Annie Laurie Reaves **September 18, 1975**

Eufaula, Alabama

Dear Mrs. Reaves:

Thank you for your letter of September 14th and also the seven page review and criticism of my book, "NATURE'S ETERNAL RELIGION".

You make so many mistaken assumptions (of what I say in the book) in your critique that I hardly find it worth my while to go to the trouble of correcting them. For example, in the very first paragraph you "assume" that we call our church the CHURCH OF THE CREATOR because we believe that Nature is the creator. If you would have read the foreword carefully, you would have noted that we explain explicitly that we believe that the words CREATIVITY and CREATOR "in essence, best describe the characteristic soul of the White Race". (P.7). Furthermore, we do not regard Nature as our god, do not worship Nature, or the White Race or anything else. We believe "worship" per se is silly and demeaning, and have the same opinion about believing in spooks, spirits and the supernatural.

Since all your premises originate and go back to "belief" in the bible, a book that we regard as a lot of unfounded garbage written by a gang of lying Jewish scriptwriters of unknown origin, there is really no point in my engaging in dialogue about something that is as absurd as trying to reason with a Mohammedan who is hung up on his Koran, or a Hindu about his holy cows. Therefore, after a precursory examination of "The Tempter of Eve" I don't find it worth my while to read it.

I'm sorry about that, but it is pointless to discuss issues with someone whose mind has been "altered" by Jewish Christianity to the extent where meaningful evidence is a stigma and "faith" in the world of spooks, "pie-in-the-sky-when-you-die", etc., becomes a virtue.

For instance, there is a mountain of evidence that the earth has existed not only millions, but several billion years. You scoff and denounce "some so-called scientist" for saying so. Let me remind you, my friend, if you still are capable of reasoning, that all scientists agree on such premises, and that furthermore "scientists" observing the laws of Nature, are responsible for all meaningful progress we, the White Race, have made. They have gathered millions of relevant facts that confirm observations independently made. Scientists have discovered millions of facts about Nature and the universe. In contrast, you don't really know one single item about your Super Spook about which you are so obsessed, and you and your fellow Christians disagree on just about every sentence in the Jewish bible. Whereas all the real progress and learning has come about by careful

gathering and analyzing of information by scientists, Christianity has contributed nothing, been a continual roadblock to clear thinking and shackles and blinders to man's reason. 1500 years ago it destroyed the great and wonderful Roman civilization and plunged the White Race into a thousand years of ignorance, superstition, and misery, a period known as the Dark Ages.

Since you are such an authority on your bible, I would appreciate your coming up with some rational answers to the same four questions as I put to Fr. Burke. (Never mind who he is, the answers stand on their own base.) If you can't come up with some intelligent, credible answers, there might be some good reason to re-examine your most cherished "faith" in the netherworld of spooks.

Also please consider the following:

BEING OF A SKEPTICAL AND ENQUIRING MIND IS NO VICE.
BEING GULLIBLE AND SUPERSTITIOUS IS NO VIRTUE.

For a Whiter and Brighter World,

Creatively yours,
B. Klassen, P.M.

R.O.A.R. **September 23, 1975**
Boston, Massachusetts

Gentlemen:

Our organization commends and supports the courageous fight you are waging against the crimes of tyrannical forced race mixing. We believe that having ones' children forcibly loaded on motor vehicles and shipped across town like a bunch of cattle in order to mix with niggers is slavery at its worst, and an abominable outrage.

The question is: how can we best fight? As we see it, the White Race neither recognizes the real enemy, nor the real objective of the enemy. Nor does the White Race realize its own identity nor its awesome power, were it organized and united.

In our book, "NATURE'S ETERNAL RELIGION" we believe we have the creed and also the program around which all good White Men can rally in their fight for survival. The heart of our religion is: the survival, expansion and advancement of the White Race, all over the world.

We believe our creed can give tremendous impetus and impact to your movement. If it becomes the universal handbook of your movement, I am sure you would have your vicious tormentors on the run in short order. We are enclosing a copy of our flyer on the book and also mailing you a copy gratis under separate cover.

Please let us know of anything else we can do to help in your fight.

For a Whiter and Brighter World,

Creatively yours,
B. Klassen, P.M.

Mrs. Minnie R. Favro **September 30, 1975**
Kent, Washington,

Dear Minnie:

Just when it seemed that we were making progress and you were beginning to see the light, in your last letter, you strip the gears and slide back into your never-never land of fantasy. I give up.

You start out fine — talking about analysis, deduction, logic, intelligence, until about halfway through the letter. Then you blew it all. You proclaim all intelligence is SPIRITUAL and anyone who relies on the observance of physical phenomena has the brains of a root hog.

How silly can you get?

Have you ever seen an intelligence detached from a live, healthy human brain? How many brains do you know of that retained their intelligence "in the spirit" after the brain was dead? How many spooks and "spirits" have you talked to lately that were devoid of a live physical brain?

Getting back to observing the physical, everything we know, every advance the White Race has made, every scrap of knowledge was the result of observing first of all the physical phenomena, Nature's laws and Nature's universe, and then using logic and reason to understand these observations. That is how Newton discovered the laws of gravity, Koepler the solar system, etc., etc.

Now, Minnie, before you can ever get your thinking straightened out, you've got to realize one simple fact: THERE AIN'T NO G.D. SPOOKS! Until you get that one simple idea to penetrate your thick skull all else is pointless.

Did it ever occur to you that you could be wrong? that you might be superstitious? that you might be gullible? that because of the latter two characteristics you may have been snookered for 60 years and had your brains somewhat twisted out of shape by that good old Jewish mind bender called Christianity?

Give it a lot of careful consideration. When you get it all put together, give me some straight answers.

I would like to have you send the "Bible Handbook" back, since they are hard to come by and evidently you refuse to face the obvious that it points out.

For a Whiter and Brighter World, Creatively yours,

B. Klassen, P.M.

Mr. E. R. Collins **October 24, 1975**
Herts., England

Dear Mr. Collins:

Thank you for your letter of October 10th. It is gratifying indeed to learn that all of our Bibles have arrived safe and sound. It is always a precarious situation, but actually all our shipments to Great Britain have gotten through, with the exception of one small one about a year ago. You are doing a great deal of good by distributing and promoting the White Man's Bible to your fellow-countrymen and your racial comrades. Spreading an idea is like planting seeds. The ramifications are manifold and unforeseeable. You never know when it will inspire a dynamic new leader like Adolf Hitler to arise from your ranks. The creed, philosophy and program are all there — just waiting for an energitic dedicated young leader to pick it up and run with it.

I am only too keenly aware of what the perfidious slimy Jew is doing under the guise of the foul R.R.A. However there is no other choice for you but to fight it. Ask yourself — what would the Jew do under similar circumstance — what did he do in Russia under the Czars? And the answer is he intensifies his hatred and fights all the harder.

The inescapable reality of the situation is either the White Man fights and destroys the treacherous Jew, or the Jew wins and the White Race is destroyed. It's a case of winner takes all. You have no choice — there is no placating the Jew. He will never be placated until he has destroyed the White Race or we have destroyed him.

Therefore — CARRY ON — stomp the head of the serpent! Distribute as many copies of the White Man's Bible as your time, money and energy will allow.

For a Whiter and Brighter World,

Creatively yours,
B. Klassen, P.M.

Rev. Wm. A. Burke, D.D.
Westfield, New Jersey

October 24, 1975

Dear White Racial Comrade:

We may have our differences as far as the Jewish bible is concerned, but I am convinced that when the chips are down and it's the White Man fighting for survival against the slimy perfidious Jew, you are with us all the way. I am glad to know that you are passing on and inculcating to your students and followers the primary importance of **RACIAL LOYALTY** — loyalty to the White Race. So let us continue to unite and stomp the head of the serpent.

In regard to the citizenship question, the Jew is the only exception to the law of the United States. Any one who fights in the service of a foreign army automatically forfeits their citizenship. However, fighting in the Israeli army by an American citizen (Jew

or goyim) is not only condoned, but encouraged and rewarded, and, I expect, will soon become mandatory.

So what else is new? The slimy perfidious Jew has two sets of laws for everything — one for the Jews, another for the goyim. Heads they win, tails we lose. Since they are in charge of the courts (also government, money, propaganda, etc.) they call the shots. Not until the White Race gets a completely new philosophy, can shake his mind of the Jewish spooks, and can make it his life's dedication to fight for the survival of his own race, not until then will we again regain control of our own destiny.

In my book, "NATURE'S ETERNAL RELIGION", I have tried to give the White Man the necessary information, the fundamental creed and the program with which to fight and accomplish this most vital and significant goal. We cannot possibly win by fighting on technicalities such as the U.N., the Federal Reserve, Supreme Court, etc. We have to have a mighty mass movement of the whole White Race and demolish and disintegrate the Jewish network in its entirety before we can win. It's a case of winner take all. Either we win and survive, or they win and we die — winner takes all. And the only way to win is as set forth in the program of the CHURCH OF THE CREATOR. I see no other way, and, as far as I have surveyed the field, THERE IS NO OTHER WAY.

I appreciate your dedication to the cause of the White Race and hope that you will continue to do your part in our fight for the survival, expansion and advancement of the White Race. I further hope that you will help distribute copies of "NATURE'S ETERNAL RELIGION" so that more of our White Racial comrades will see the light and enlist in the fight to stomp the head of the serpent.

For a Whiter and Brighter World,

Creatively yours,
B. Klassen, P.M.

Mr. Paul Englert **November 3, 1975**
Homosassa Springs, Florida

Dear Paul:

My apologies for not answering sooner, but as you know, I have been up in North Carolina for nearly a month.

First of all I want to convey to you personally and to your family, my sincerest condolences with respect to the tragic demise of your daughter-in-law, Naomi. I know it has been a terrible strain on all of you, especially your son. Although her passing was expected, when it does happen it is still a numbing shock, and there is not much I can say to alleviate the loss. So all I have to offer is my heartfelt sympathies.

I have read Ron Marke's letter to you and am returning it to you for your records. In analyzing his letter, it strikes me ominously as to how ignorant he is of the whole Jewish network and how the Jews have programmed him to eagerly come to their defense. He automatically invokes the favorite Jewish cliches — "racism", "blatant capitalism", "Fascist", "Nazi", etc. — all in their proper Jewish framework. I believe he is a lost cause and I am not going to waste my time answering him. Nevertheless, I believe your letter of October 20th to him is a real masterpiece of logic and persuasive elegance. I hope it will start him thinking, digging and studying. You never know which will sprout and bear fruit when you plant seeds.

Have tried to make several contacts through different channels with the White groups in Boston that are fighting Jewish tyranny. So far have come up with nothing but blanks. I wonder if their mail is being intercepted. Have you had any luck?

I have pretty well put the material together for our flyer "Questions and Answers about Creativity". Have also added into it a smaller section entitled, "A few OBVIOUS QUESTIONS we would like Christians to explain with some SENSIBLE ANSWERS". There are thirty some, in the Fr. Burke vein. Now all (?) I have to do is re-arrange the material, edit it, get it type-set and printed. You will be the first to receive a copy. The objective is to send them out as a general mailing to all our supporters so that they can then order a quantity for distribution to their own mailing lists. We hope thereby to be planting more seeds in an expanding territory.

Best regards to you and let me hear from you soon.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Frank Collins, Party Leader
N. S. P.
Chicago, Illinois

November 3, 1975

Dear Mr. Collins:

Over a year ago, in September 1974, to be exact, we sent you a carton of 32 copies of "NATURE'S ETERNAL RELIGION". We were of the understanding that you would reimburse our cost of $32.00 when you had sold some of the books, which sell for $3.00 each.

We have had some enthusiastic reports about the book from some of your members and have even had a personal visit from one, bringing us up to date on your activities. I understand you are building up a strong movement in Chicago that has the Jews and niggers considerably worried. More (White) power to you!

We would appreciate if you would not only send us a check for the previous shipment but would also order another carton. After all there is no conflict in ideology. National Socialism is your political party, augmented by CREATIVITY as the religious underbase. No different than a Republican being Catholic, etc.

On another point, I understand that our CREATIVITY insignia on the book has had the Swastika glued on and superimposed over it. Not that we have anything against the swastika. On the contrary. But I believe that is only fair that the book should remain labeled under its own credentials and not be mis-labeled.

I would appreciate hearing further about your latest activities and also regarding our book. We want to get ten million copies out to our White Racial Comrades here in America — not at all an impossible task. Please do your part.

For a Whiter and Brighter World,

Creatively yours,
B. Klassen, P.M.

Mr. Paul Englert
Homosassa Springs, Florida

November 13, 1975

Dear Paul:

The United Nation resolution branding Zionism as "racist" has evidently touched a raw nerve with the Yids. Could it be that just stating the obvious is more devastating than beating about the bush with insinuations? Evidently so. Dumb as they are, the Afro-Asian blacks consisting entirely of backward mud races evidently has had more guts than all the White Races of the world combined in calling a spade a spade.

It is rather ironical that after all the efforts by the J.B.S. and other right wing organizations to oust the United Nation over the last 30 years, not the slightest dent was made in such a move. But just as soon as it becomes a vehicle to make just one attack on these slimy parasites, all hell breaks loose and the President of the United Nations, numerous senators and congressman and the United Nations Ambassador all let loose with vitriolic attacks on the United Nations, threatening to throw it out of the United States. What better proof of where the power lies!

I am not sure I understand your alarm about the symbol adopted for the Bi-Centennial celebration, since I have only observed the five pointed star used. Perhaps you could fill me in.

The whole '76 celebration makes me vomit. When I think of how the Founding Fathers and their supporters were ready, willing and able to rise up and revolt against such minor infractions on their liberties as a tea tax, and then think of all the outrageous atrocities such

as busing our kids into the black nigger jungles, confiscatory taxation, sending huge amounts of aid and comfort to our enemies at home and abroad, etc., etc., it makes you sick. To think that today's White Man is so cowed and submissive in the face of all the obvious Jewish outrages turns my stomach.

Let's get more of the White Man's Bible out!

Regarding Ron Marke, I agree. Keep working on him as long as he is receptive. People do change and he does seem to have considerable intelligence.

For a Whiter and Brighter World,
Creatively yours,
Ben Klassen, P.M.

Mr. & Mrs. Everett Thayer
Hallandale, Florida

December 2, 1975

Dear Everett and Donna:

It's been too long since we have seen you and we should get together more often. How is Neva doing? She will be three years old in January — nothing makes you realize how time flies than your growing children.

Somehow I have lost the copies of both Neva's CREATIONING Certificate and also the script of the ceremony. I wonder if you would send me a copy of each, providing of course, you have a copy of the script of the ceremony. Please let me know.

As you know, we have become grandparents. Walter Scott Moore III is the young fellow's name and he is growing like a weed. Also, we have moved our office to 9675 W. Sample Road, Coral Springs.

Best wishes to all of you, and keep up the good fight.

For a Whiter and Brighter World,
Creatively yours,
Ben Klassen, P.M.

Mr. H. L. Crowder
Goodlettsville, Tennessee

December 2, 1975

Dear Mr. Crowder:

Your note of November 17th along with your check in the amount of $32.00 has been received. Thank you very much. We shipped a carton of 32 copies of NATURE'S ETERNAL RELIGION to you yesterday, December 1st.

First of all let me say that I am as disappointed as you are about the poor election results after all the work you put into it. True, it proves how sadly demented is the state of the White Man's mind to-

day. Unfortunately, we cannot let the matter rest with that conclusion as an alibi to quit. The White Man is a sad victim of Jewish mind manipulation and brain twisting. Our White Racial Comrades are victims rather than culprits and we are all in the same boat. Therefore, it is our sworn duty to fight the battle and to win it over the perfidious Jew. It is either victory or extinction — we have no other choice.

It is my considered conclusion that exposing the Jewish fraud that parades as Gentile Christianity is the first major step in breaking the back of the Jewish conspiracy. It is the major prerequisite in putting the White Man's mind back on the road to sanity.

I believe that in CREATIVITY, we have the total program and creed for saving the White Man from total degeneration and putting him back on the road to salvation of his own.

Therefore, I hope you will promote and distribute NATURE'S ETERNAL RELIGION, the White Man's Bible, vigorously and aggressively. Reports I get from various correspondents lead me to believe that racial sentiment is beginning to polarize. And with a proper creed and leadership on our part, millions will flock to the banner.

Keep up the fight and stomp the head of the serpent.

For a Whiter and Brighter World,
Creatively yours,
Ben Klassen, P.M.

P.S. The flyer you enclosed about the niggers entitled "Awaken White Man" is real good. However, it does not state who wrote it or who puts it out other than P. O. Box 6102, Nashville, Tennessee. Please advice. Perhaps they could use a copy of our book. B.K.

Mr. Michael E. Breda
Pasadena, Texas

December 30, 1975

Dear Mr. Breda:

Thank you for your letter received the day after Christmas. I am not sure whether I have your name spelled right, but I am sure this will be straightened out in our next correspondence.

I am glad to hear you are determined to take constructive action. As the saying goes, for every thousand that are hacking away at the branches only one is chopping at the roots. When you promote CREATIVITY you are down to the roots of the problem, the Nitty-Gritty.

There is no great secret about starting a church. In our case, it is done just like thousands of other Christian churches are started except where they are selling hocus-pocus and pie-in-the-sky, we are dedicated and promoting the survival, expansion and advancement of the White Race, the most precious value on the face of the earth.

The first thing to do is to become ordained as a Minister of the CHURCH OF THE CREATOR. There is no charge for this, and we are enclosing the necessary application form in duplicate. Fill out, keep one copy and send us the other. The next thing is to gather a group of dedicated White Racial Comrades, starting small if necessary. The rest of the procedure is pretty well spelled out in the second last chapter, "The Road to Greatness" in our White Man's Bible.

Be sure to utilize the door to door approach as used by the Mormons and the Jehovah's Witness. In your weekly meeting, the speeches can be based on different chapters of the book, or facets thereof.

There are a number of vital projects to pursue, but I would suggest that initially you concentrate on two: (a) Distributing the book. Selling, loaning, giving, whatever it takes. (b) Recruiting members.

Before we can go into more extensive projects, these first two steps are vital. We first of all have to build a power base before we can do anything else. This takes people — good dedicated White people.

I am convinced that in the CHURCH OF THE CREATOR we have the creed, the program and total ball of wax to achieve the paramount goal — the survival, expansion and advancement of the White Race. All we have to do is IMPLEMENT IT.

So let's get the job done. We have a special offer of a carton of 32 books, NATURE'S ETERNAL RELIGION, for $32.00. I would suggest you avail yourself of these immediately. They are the most potent tool you have to work with. It is our unflagging goal to get ten million copies into the hands of our White Racial Comrades as quickly as possible. Once we have done that much, we will have a broad enough base so that nothing can stop the spread of our idea, and we can consider the fight against the Jews and niggers as good as won. Enclosed also is a flyer you may want to duplicate or revise in your house to house effort. Also enclosed is a button with our insignia. Wear it proudly. People will ask you what it stands for. This is your opening for giving them the story of our movement.

Good luck and let's get the action going!

For a Whiter and Brighter World,
Creatively yours,

Mr. John L. Kucek **December 30, 1975**
Brooksville, Florida

Dear John:

Thank you for your letter of November 27th, which I am herewith

belatedly answering. I appreciate your thoughts on the subject of Christianity and related matters. I know you are sincere, although I believe you are tragically deluded by that old Jewish brain twister that has done the same damage to the brains of many an otherwise fine White Racial Comrade. I am just sorry it had to happen to you and break up your family.

Thank you for returning the BIBLE HANDBOOK. I can pass it on to someone who can read more clearly and understand.

Now to get to the nitty-gritty. You claim you have read the BIBLE HANDBOOK by Foote and Ball. You claim you found no serious challenge to the accuracy of the Jewish Bible and that regarding immoralities, indecencies and obscenities, you would find worse in a fifth grade social studies book.

For a man who claims he can read and understand the English language, these are some strange pronouncements indeed. A person would have to be deaf, dumb and blind to miss the (a) contradictions, (b) absurdities, (c) atrocities, (d) unfulfilled prophecies and broken promises, (e) immoralities, indecencies and obscenities, with which the Jewish Bible abounds.

To have read the HANDBOOK and have missed the above after 175 pages, is about as stupid as if you had a guest in your living room and a skunk entered, started hopping about, spraying the room and piddling on the furniture, and somebody pointed out to you "a skunk!" and you blandly said, "What skunk? I don't see any skunk!" Really, John, how could you?

I don't have space in this letter to review the book and there is really no need to, since you claim to have read it. So I will point out just a few (of hundreds) of the OBSCENITIES to refresh your memory. (a) David collects two hundred foreskins from dead Philistines as a dowry to Saul to get his daughter (Sam. 18:25, 27). (b) God talking: "I will corrupt your seed and spread dung upon your faces" (Mal. 2:3). Also, read Ezek. 4:12. (c) Lot offers his daughters to a mob of homosexuals (Gen. 19:1-8). (d) Lot's daughters get their father drunk and then fornicate with him. (e) Judah (who in Revelation becomes one of the esteemed four and twenty Elders in heaven) fornicates with his daughter-in-law thinking she is a roadside whore. Out of this filthy mess supposedly came one of Jesus Christ's paternal ancestors, Phares.

There are hundreds of pages of more similar examples, but unless you are either completely dishonest or utterly stupid you must have gotten the point by now. To say there are more and worse in any fifth grade social studies textbook just isn't true. I haven't even seen that many in Jew Ralph Ginzburg's pornographic magazine "Screw", and that's about as vulgar as you can get.

How can anybody worship such idiotic trash, regard it as

"sacred" and "holy" and recommend it to their children?

Now I see by your letterhead that you are a C.P.A. This takes logic, reasoning, and intelligence. So you must have it somewhere. Now supposing when you were studying the fundamentals of arithmetic in your early grades and your teacher would have screwed up your times tables and told you 2 X 2 makes 11, 3 X 5 makes 27, 4 X 7 makes 89, etc. How far would you ever have gotten in mathematics? Supposing he further pounded into your gullible little brain that you had better believe, son, because it was "holy", it was "sacred", it was a sin not to believe and that you would be roasted eternally in a hot oven for punishment if you dared not to believe. How far could you have gotten in your profession as a C.P.A.? The answer is — nowhere, until you again got your fundamentals straightened out.

And that is exactly the story of this Christian garbage that you have swallowed wholesale. It tells you the Jews are God's chosen people. (I can read English — nobody needs to interpret it for me.) It tells you to love your enemies; sell all you have and give it to the poor; resist not evil; judge not; turn the other cheek and a lot of other basic bad advice and garbage with the repeated threat of roasting you in hell if you dare to question.

So, my friend, you ask me — why do I "waste" so much time and effort against the "Lord" and his "holy" word. What I have already said should already have answered that question for you. But I will elucidate further. (a) There is not a shred of proof about any of the spooks or super-spooks in the sky that you are obsessed with to the point of insanity. (b) All that crap and garbage you have swallowed as being "sacred" was written by a gang of lying Jewish scriptwriters of unknown origin. (Do you know any of the writers personally? Have you yourself seen any of the spooks they tell you about?) (c) It is basically rotten advice, as I pointed out earlier. (d) Just like in the scrambled times table, until you and our other White Racial Comrades get off these lousy, silly spooks and get your minds straightened out on the realities of life, we will never get out from under the Jewish rat trap.

As for these "Christians" being such a small minority without influence, this just isn't true. You Kosher Konservatives talk about how the "Commies" are ruining the country, etc. The fact is, despite having studied communism very thoroughly for years in the J.B.S., I can't say that I don't know a single card carrying communist in all of Broward County of one million people. On the other hand, all I have to do on Sunday is go a couple of blocks down the street, and there at a huge "Pink Palace" (as we call it) — a Presbyterian Church — there are hundreds of Cadillacs and other cars lined up, with their owners fervently getting their brains scrambled — Jews are God's

chosen — love your enemies, etc. This goes on in three separate sessions in the morning. Little further up the road is another similar church with similar goings on — and another and another. the National Council of Churches claims over 40 million members in the United States alone. The Catholics another 20 million. That's a hell of a lot more than there are commies. Furthermore, these institutions of spook-craft fleece the public out of 20 billion dollars a year. Think of it! Twenty Billion! All in the name of chasing non-existent spooks in the sky. What a nefarious racket to addle peoples' brains! If we in the CHURCH OF THE CREATOR just had one percent of this amount to work with (that's $200 million) to spread our ideas for the survival of the White Race, it would spread like wildfire. I am sorry to disagree with you about the Christian influence in the government, but the same Christian suicidal ideas ARE carried through by Washington — love our enemies, give everything away to the parasites, resist not evil, turn the other cheek, etc.

Until we replace this fundamental nonsense of chasing non-existent spooks through the sky, we will eternally be doomed to fall prey to the Jews. And there is your answer as to why I am promoting CREATIVITY and the CHURCH OF THE CREATOR.

Think it over, John. Use your brains, man. Get back to reality. You have the basic intelligence, so why not apply it to a very serious situation. As far as the questions I posed to Father Burke, you have really NOT answered them at all. Would you like to make another stab at it?

For a Whiter and Brighter World
Creatively yours,

Mr. Rick Crain
Alexandria, Virginia

January 6, 1976

Dear Rick:

Thank you for your Yuletide card. Let's hope this originally White Pagan Festival will become WHITER with the years instead of a Jewish commercial windfall.

I'm glad you read NATURE'S ETERNAL RELIGION and that it has made an impact on your thinking. One of the most meaningful contributions you can make in 1976 to the survival, expansion and advancement of the White Race is to put as many copies of our White Man's Bible — NATURE'S ETERNAL RELIGION — in the hands of our White Racial Comrades as you possibly can. You are thereby straightening out their thinking and planting seeds — the ramifications of which can be tremendous.

We have a special offer of a carton of 32 copies of NATURE'S ETERNAL RELIGION for $32.00. I hope you will avail yourself of this opportunity and do your part.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Paul Englert
Homosassa Springs, Florida

January 6, 1976

Dear Paul:

May 1976 be THE YEAR OF THE CREATOR. I hope that you have had a happy and festive Yuletide Season, that great celebration of a non-event.

As you undoubtedly are aware, the Yuletide celebration was a festive White holiday in Europe long before the Jews came along and perverted it to their advantage and made it a Christian holiday celebrating the "birthday" of their spook-idol. The date of the month was invented, the year was invented, and the very event itself was invented, all several centuries after the supposed non-event.

The Jews have reaped tremendous profits from this hoax ever since, exceeding even the hoax of the six million myth.

This reminds me of a story I heard over the holidays. It seems a Catholic, a Protestant and a Jew were telling about how they usually spent Christmas day. Without going into details about what the

Catholic and the Protestant related (and thereby spoiling the joke), the Jew said "Well, we do things different. Comes Christmas day, my family and friends and partners gather at the department store. We look at the empty shelves, count the money in the full cash registers and then altogether we sing, 'What a friend we have in Jesus.'"

I am glad that you are converting some members in your immediate family circle and making more good contacts across the country. Actually, our book sales have been increasing, especially England. I am even hearing from new organizations that are highly impressed with the book from countries such as Norway and Sweden that I had not heard from before. I have high hopes that I will obtain the financial wherewithall to really get the Church into a full fledged organization this year. The potential is there and we must bend out utmost efforts to promote our creed and prepare as broad a base as possible among our White Racial Comrades. When the showdown comes, as it must, we must have enough of us who know the enemy and know the SOLUTION.

I have completed the QUESTIONS AND ANSWERS ABOUT CREATIVITY script some time ago, but have not gotten around to having it printed as yet. It seems I have more projects going than I can find time for, but we are moving forward. I repeat, may 1976 be the YEAR OF THE CREATOR.

For a Whiter and Brighter World,
Creatively yours,

January 13, 1976

Dear Bill:

Enclosed is a check in the amount of $3.00. Please send 25 copies of ATTACK! January 1976. It is a real good copy and I want to send a copy to some of my correspondents.

I have been meaning to write you ever since we got together in Arlington last summer, but never had a specific occasion. I am still interested in joining forces with you and the financial wherewithall to do so might materialize in 1976.

In reading your editorial under "Questions People Ask", I can't help but agree that your analysis of the White Man's dilemma and diviseness is pretty much on target. However, I can't help but also come to a further conclusion that the basic, underlying reason the White Race has never polarized around any one ideology is because they have never had one that was really more than fragmentary, but

never fundamental. Hitler's National Socialism was a beginning, but it did not really have a moral or religious base, and until it confronted and demolished Jewish Christianity, it never could have. Also it was too narrowly polarized around Pan-Germanism to embrace the biological White Race as a whole. Even being for the White Race and against the Jews and the niggers is not enough. Remember how impressed you were with Marjoe?

Well, in CREATIVITY, I believe, we have the whole package put together — religious, moral, political, ethical and racial in harmony with the instincts with which a bountiful Nature has provided us. In order for the White Man to be able to think straight, he has (a) first got to purge his brain of the idiotic spook-in-the-sky stories with which the Jew has scrambled his brain, and (b) understand the Laws of Nature, of which he is an integral part.

I hope you have given the subject some more thought since our discussion last summer. I would appreciate hearing from you further.

May 1976 be the YEAR OF THE CREATOR and a productive year for you personally.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Paul Belknap **January 14, 1976**
United States Industrial Council
Nashville, Tennessee

Dear Mr. Belknap:

I have been the recipient of your recent USIC pamphlet. At the outset let me say that I couldn't agree more with your position on the deliberate destructive policy the U.S. government is pursuing in destroying the productive element of other issues on which you have expressed yourself. I repeat — I couldn't agree with you more wholeheartedly.

The real question is: HOW DO WE BEST COMBAT A HOSTILE RUNAWAY GOVERNMENT?

In this respect it seems to me you have chosen the old SURE-FAIL program that is so dear to the hearts of the Kosher Konservatives, namely the conservative, God and Country approach that has sent into failure and oblivion more than 20,000 such organizations over the last 60 years. (I, too, travelled that pointless, frustrating path for years until I finally woke up.) While that approach is doomed to certain failure, our enemies in the meantime have been increasing their power in giant strides, until they now have us at their mercy with practically no opposition in sight.

Now I'm sure you are an intelligent man, Mr. Belknap. If the

methods employed during the ignorant Dark Ages of bloodletting as a cure for all ailments repeatedly produced negative results, I am sure you would not use it today when you have available much more scientific and effective procedures. Only a fool would stick with methods and premises that are bound to fail.

And so it is with the Kosher Konservatives approach. It completely ignores a number of realities that are causing our destruction and until and unless they are recognized and acted upon we will repeatedly be doomed to failure and finally extinction.

These obvious factors are:

1. That RACE is the predominant issue of the day, as it has been since the dawn of history.

2. That the Jews are the powerful active ingredient that is in control of the world today, as they have been for centuries.

3. It is the aim of the Jews to mongrelize and destroy the White Race and govern a world of ignorant, colored scum which can easily be controlled without any danger of rebellion.

4. The White Man's religion, Christianity, based on the "Spooks-in-the-sky" story has been powerfully instrumental in crippling the White Man's ability to think straight.

5. The White Man's religion, Christianity, was foisted on him by the Jews, and its first disastrous effect was to pull down the magnificent (White) Roman Empire and leave it in shambles. The subsequent effect was to plunge the White Man's civilization into a thousand years of the Dark Ages, a period of ignorance, superstition, gullibility, poverty and regression.

6. There are no spooks in the sky or anywhere else.

7. The White Man needs a new and better religion that will free him from the overwhelming tyranny of the perfidious Jew if the White Man is to survive.

Unless and until the above basic realities are recognized, any other protests such as yours are just so much bleating into the wind. A few days ago I mailed to you, gratis, our book NATURE'S ETERNAL RELIGION. I hope you will read it. In it you will find the complete scientific analyses, just like a good doctor would pursue, of the cause of our malady. It isolates the active ingredient that is causing the demise of the White Race. In the second half it gives a thoroughgoing program and a total solution for the survival, expansion and advancement of Nature's finest creation, the White Race, of which I presume you are a member. I presume this since a Jew would not likely take a position you have taken, but I could be wrong.

Anyway, please read the entire book. It is all in there for those who have eyes to see and ears to hear and the intelligence to correlate and form conclusions. Then let me know: Are you loyal to the White Race or are you a traitor to it? In our religion, CREATIVITY,

we tolerate no in-betweens.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. J. Martinsons **January 21, 1976**
Silverdale, Australia

Dear Mr. Martinsons:

Thank you for your letter of January 13th. I don't know of anything further I have to say that I haven't already said in my book NATURE'S ETERNAL RELIGION is going to make much difference. Evidently your mind is so obsessed with the "spooks-in-the-sky" story that you can no longer rationally entertain the idea that such spooks do not exist, in the sky or anywhere else, and that they do not control our lives. Nevertheless, let me remind you again that our lives and the universe are governed, not by supernatural spooks, but by the Laws of Nature, which are rational, which are eternal and which we understand to a limited degree.

Since I despair of convincing you of the non-existence of spooks, holy, evil or otherwise, my only purpose in writing you at all is to not leave the impression that I am unable to answer your arguments, that are, at best, feeble.

A. You spend a great deal of time trying to substantiate a premise that I have already stated myself — namely that the White Race needs a religion for its own survival, expansion and advancement. I loudly proclaim that the Jews have such a religion for their own race and for the last five thousand years the Mosaic religion has given the Jews purpose and a program and that they owe their very existence and survival to their religion. I loudly proclaim that the Jews early in their history recognized that religion was a powerful weapon with two edges — one, to unite their own race, and two, a weapon with which to destroy their enemies. I contend in my book that they invented Christianity in order to destroy the great (White) Roman civilization as an act of vengeance, and destroy it they did. I further observe that we can and should learn much from the Jew's use of religion and I apply those lessons to the formation of CREATIVITY as a religion for the White Race to polarize around and fight for its own survival.

Alright, so far you and I have no argument, except that you spent a lot of time trying to convince me of making statements that I freely admit and are the essence of my book.

Now the overwhelmingly obvious point that you miss is that I don't condemn the Jews for practicing Judaism and promoting their

own race, I admire their ingenuity in this respect and if I were a Jew I would undoubtedly practice it also. I would be interested in the survival, expansion and advancement of the Jews.

The point is, you and I are not Jews, but members of the White Race. The Jews are our mortal enemies and are rapidly achieving the culmination of their age old goal — the destruction and genocide of the White Race. The situation is similar to discovering a nest of rattlesnakes under your bed. The conflict is irreconcilable. Either you exterminate the rattlesnakes or they will use their weapons — their poisonous fangs — and cause the death of you and your family. You don't blame the rattlesnake for being what it is, nor do you blame it for using its fangs. If you were in its position you would do the same — you would fight for the survival of your own kind. However, not being a rattlesnake and being possessed of common sense, you would club it to death as quickly as possible before it got to you. The conflict between you is mortal and irreconcilable.

The situation regarding the Jews is as basic and simple as that. It is so obvious that I can't understand how it has escaped you. Throughout the book I have re-iterated one of Nature's most basic laws: Nature tells each creature to strive for the survival of its own kind — no holds barred.

And so it is with the Jew. For thousands of years he has employed his instincts for survival as a parasite on the body of other races and he has done his job well. He has used tools and weapons that we too could employ and we too could and must use religion for our own survival, expansion and advancement. This is the lesson I have learned from the Jews and I have learned it well. I make no secret of it.

B. Now from there on out our religion and our program differs drastically from Judaism or the Mosaic religion. (a) In the first place Jews are a parasitic race and must live off the productivity of other races, particularly the creative and productive White Race. We, the White Race, being productive, creative and self-sustaining, do not need the Jews, nor do we need the niggers or any of the other mud races for our survival or subsistence. (b) Therefore we do not need to deceive, trick, confuse, or befuddle the minds of the other races. We do not need to, nor do we want to, enslave, destroy, peddle drugs, rob, kill, murder any of the other peoples of the world, whether they are Jews, niggers or other mud people. (c) We do not need the other people at all. What we are saying in NATURE'S ETERNAL RELIGION is that what the White Race, in accordance with the Laws of Nature, should and must do (as does every other creature) is take care of its own. This we are extremely capable of, if our minds are not befuddled with the spooks-in-the-sky nonsense and other alien garbage. (d) We do not propose mass killing, extermination, genocide

or any similar measure of the mud people and the Jews. CREATIVITY advocates taking care of our own and expanding to the utmost of our ability, and deliberately advancing the quality of our race over the generations — goals that are noble and constructive — goals that Nature urges us to pursue. (e) If we quit subsidizing the mud races they would shrink of their own accord because they could not compete with the creative intelligent White Race, as witness the dull lazy and shiftless Indian in our own country, or the similar genetically retarded sub-human Bushman in your country. With your befuddled and suicidal Christian ethics you might argue that this is wrong. We Creators say, no, it is ethically, morally and naturally correct and Nature tells us so loud and clear. Whereas you Christians mouth all these suicidal Christian teachings, I notice you don't practice them and you would be even more stupid if you did. If you really believe what you preached, you would give everything you owned to some stupid Australian Bushman, crawl in a hole and disappear. That would be true Christianity in practice.

C. So much for the similarity and differences between Judaism and CREATIVITY. There is much more but I have not the space nor inclination to go into it here.

I just want to comment briefly on the obvious fallacies of your claims that Christianity is the answer to the world's problems. (a) In the first place, there are no spooks-in-the-sky, or anywhere else, controlling our lives or our destiny. There are no ghosts, holy, evil, or otherwise, no demons, no devils, no fairies, no leprechauns or any other kinds of spooks. I have never seen any, neither have you, nor anybody else in their right mind. It takes a person unhinged with superstition and gullibility to believe in such silly nonsense. It is a hangover or a throw back to our savage and barbaric past and will, I predict, be eradicated in the not too distant future by knowledge, logic and common sense. This is one of the objectives of my book. (b) There never was such a character as Jesus Christ. As I point out in my book, he was invented by the Jews a century or two after the non-event as a revenge on the Romans. The suicidal Christian teachings were a rehash of the Essenes who preceded the Christian era by at least a hundred years. (c) Christianity has not improved the world. It has spawned untold misery, hate, wars, poverty and insanity. It plunged the great White Race into a thousand years of the Dark Ages — misery, filth, poverty, superstition and ignorance. What a pity, after the Romans had made so much progress! (d) You Christians use the same stupid excuse for failure as do the Communists — they claim that all the other Communists are not practicing true Communism. If they did, we would have a paradise on earth. Likewise you Christians claim nobody but yourself REALLY understands or practices true Christianity. What nonsense. The true

historical record is that Christians have burned each other at the stake by the hundreds of thousands. They have practiced every grotesque macabre means of torture on their victims known to man, and in fact invented most of them — the thumb screw, the iron corset, the rack, etc. They perpetrated wholesale murder on their rivals, such as the Bartholomew Massacre, etc.

Well, so much for Christianity. I could go on — but as I said in the beginning — reason, logic, evidence, history have little effect in a mind once unhinged and corroded by the Jewish brain scrambler known as Christianity. Their spook-in-the-sky story backed up with the threat of torture in hell are to the gullible and superstitious more powerful than they can withstand. Such is the fate of the gullible and superstitious.

Fortunately, an increasing number expanding by geometric progression, especially among the younger generation, are beginning to see through this Jewish hoax, and are rallying to our creed — a creed as old and basic as Nature and her laws itself. I am making it my life's work to advance this triumph over gullibility and superstition and work for the survival, expansion and advancement of the White Race — Nature's crowning glory.

Mr. Ed. Gocek
Gainsville, Florida

January 28, 1976

Dear Mr. Gocek:

Recently I resurrected your sheet "Survival in the 20th Century" and for various reasons decided to go on your whole wheat, bran, etc., diet. I thoroughly agree that our over-processed foods are a major cause of debilitation and accompanying maladies that plague so many people today. Enclosed is a little booklet one of my supporters sent me recently. It claims, among other things, that the Jews back in the Roman days deliberately encouraged the aristocratic Romans to eat demineralized white bread while their genetically inferior slaves ate whole wheat, with the consequences that the Romans became weak, sterile, mentally degenerate and died out. Whether or not this is true, it is mighty interesting. Please return the booklet after reading it as it is the only one I have.

I am wondering what further you have learned about the diet you recommended since you last wrote. Also you were going to make a new flyer and advertise NATURE'S ETERNAL RELIGION on the back of it. Enclosed is a flyer on the book if that would be of help.

Ed, whereas I agree we could all be physically healthier, and I am a strong advocate of **A SOUND MIND IN A HEALTHY BODY** (it is part of our Creative creed), I am convinced that **THE MOST FLAGRANT SICKNESS** of the White Race is a befuddled mind. Our biggest problem **IS STRAIGHTENING OUT THE THINKING** of our own White Racial Comrades.

In this respect you can do a tremendous amount of good whether you have an organization, or are only one man. In **NATURE'S ETERNAL RELIGION**, we have **THE TOTAL SOLUTION, THE COMPLETE PROGRAM**, and **THE ULTIMATE CREED**. By fervently, aggressively and even fanatically **PROMOTING AND DISTRIBUTING NATURE'S ETERNAL RELIGION**, the White Man's Bible, you can contribute tremendously towards straightening out the White Man's thinking, giving him a purpose and a program and thereby expediting the survival, expansion and advancement of our race. Don't let the Jews and niggers take over!

We still have a special deal of 32 books for $32.00. Stock up and distribute as if your life depended on it. It does!

In the meantime, bring me up to date and lets get those White Man's Bibles into the hands of our White Racial Comrades. It is our initial goal to get ten million copies out as soon as possible. Do what you can.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. J. J. Lambert
Rochdale Lancs, England

January 29, 1976

Dear Mr. Lambert:

Thank you for your recent letter regarding our book **NATURE'S ETERNAL RELIGION**. It is gratifying indeed to learn that the contents have made a significant impact on your philosophy and thinking. I hope that it will spur you on to become involved and committed in the battle we face for the survival, expansion and advancement of the White Race.

Regarding the Arab Israeli conflict you inquire about, appearances again are deceptive. The Jews control Communist Russia, lock stock and barrel. Russia is not really helping the Arabs, but cutting the ground out from under them. If you just ask yourself this question — Why is it that 220 million Russians plus 120 million Arabs are always losing to 2-1/2 million Israelis, I believe the answer comes into focus.

Regarding the Salvation Army, the best way to deal with them is the same way as the Christian movement as a whole: expose their

spooks-in-the-sky racket and replace it with our dynamic new religion CREATIVITY. The best way to get started is to distribute as many copies of NATURE'S ETERNAL RELIGION to your White Racial Comrades as you can. You can order them from us in cartons of 8 books for $10.00 U.S. Please do your part!

Mrs. Hedy E. Greene
Republic of South Africa

February 10, 1976

Dear Mrs. Greene:

We are in receipt of your letter of January 27th, and also your check in the amount of $70.00. Thank you very much for both.

I regret the delay about my letter of December 3rd, since I had not intended it to go surface. We had a change in secretaries at that time and I guess I had not sufficiently impressed her that all overseas mail was to go by air.

Your news clippings about the open brazenness of the Jews in South Africa comes as no surprise. As they become more powerful and unchallenged, they also become more arrogant and open in flaunting their vicious designs. This is one of their weaknesses and has led to their downfall many times and many places in the past.

However, at no time has a broad, permanent, conscientious program been organized and launched to permanently neutralize the Jewish plague, except perhaps in Hitler's Germany. Even that was not broad enough and had a number of limitations, as I point out in the book. In NATURE'S ETERNAL RELIGION, I believe we have the total program and the ultimate creed to do the job. It is our relentless goal to place ten million copies into the hands of our White Racial Comrades in the shortest possible time. Once we have done that, I believe we are well on the way to victory. Thank you for doing your part. We will be shipping your order of 56 books this week.

Tell me more about South Africa and why you moved there.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Segment 23

Mr. A. H. von Zeck
Tampa, Florida

February 11, 1976

Dear Mr. von Zeck:

Thank you for your letter of February 5th. Your group seems to have commendable aims and I wish them much success. However, it seems to me to be another conservative approach about picking one particular aspect of the Jewish program and hoping for success. It is my considered opinion that success on such premises has been tried by more than 20,000 such organizations over the last 60 years and consistently met with failure. That is a pretty sorry record, so why go that route again? It is like chasing fires set by arsonists, but never bothering to catch the instigators of the fires themselves. You can't win that way, only forever be chasing fires, usually too late to do any good.

And so it is with the Jewish menace. Unless the White Race organizes on a broad front, builds an overwhelming position of power, we will never win the war against the instigators. We won't even win any small battles. Until we, the White Race, know the enemy and organize to neutralize that deadly enemy — the WORLDWIDE JEWISH NETWORK — we will be wiped off the face of the earth. The historic, unrelenting goal of the Jew has been for two thousand years to mongrelize and commit genocide on the White Race. They are rapidly on their way to victory, perhaps in the next generation or two — unless we can reverse the trend of the war — and we had better get going.

Now then, the problem as I repeatedly state in my book is not so much in overcoming the Jews, niggers and mud races, all of which are feverishly working towards our demise, but the problem is basically ONE OF STRAIGHTENING OUT THE WHITE MAN'S BEFUDDLED THINKING. That is it in a nutshell — and that is what our book NATURE'S ETERNAL RELIGION, is all about. Once the majority of our White Racial Comrades understand that it is a matter of survival of the White Race and not the Constitution, America, the economy, etc., and that the Jews are viciously pressing their program for our destruction, then the battle would immediately take a different course, believe me. That is what NATURE'S ETERNAL RELIGION is all about. If we can get ten million copies of NATURE'S ETERNAL RELIGION — that is our goal — into the hands of our White Racial Comrades, the battle against the Jews and niggers is as good as won.

Instead of playing the Jews' game, if you will do your part in spreading the word, you will accomplish much permanent and lasting good for the White Man's cause. We have a special offer at this time of 32 copies of NATURE'S ETERNAL RELIGION for $32.00. I hope you will take advantage of this offer and spread the holy message.

Regarding the Kehilla, don't expect Jewish sources to confirm it, or inform you. One of the basic tenets of any conspiracy is to convince the world it doesn't exist.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. George Ludick
Plantation, Florida

February 13, 1976

Dear George:

It was good talking to you again last night. As we talked, I began to recall our previous association. I am glad to know that you understand the overriding fact that the Jewish network is the overwhelming cause of all our miseries and troubles.

In my book, NATURE'S ETERNAL RELIGION, I thoroughly analyze the cause in Part I and lay out the total solution in Part II. You will, I believe, be amazed at the depth of the Jewish conspiracy that has plagued the White Race for the last several thousand years and whose overwhelming objective is the mongrelization and destruction of the White Race.

George Wallace is not the solution to anything. I have studied him and his sleazy program thoroughly. It didn't take me forever to see through this con-man par excellence. Whereas back in 1962 he attracted attention by posing as a champion of the White Race, he long ago has shown his true colors, bragging constantly how much he has done for the filthy stinking niggers. He is not only a nigger lover but a stooge for the Jews. When I knew him back in 1968, he had Jews like Joe Fine in his inner circle of command. Through treachery and deceit, Wallace had snookered his befuddled White supporters in sending in monthly contributions that run into millions each year, mostly going into his pocket.

George, if you would spend half the time, money and energy promoting the creed and program set forth in NATURE'S ETERNAL RELIGION to straighten out the befuddled thinking of your White Racial Comrades you would accomplish a thousand times more than supporting that perfidious Jew and nigger lover, George Wallace.

I am sending you a copy of the book, compliments of the CHURCH OF THE CREATOR. Read it thoroughly, then place as

many copies in the hands of your White Racial Comrades as you possibly can.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. M. Montgomery February 16, 1976
Brentwood, Tennessee

Dear Mr. Montgomery:

Thank you for your letter, your check in the amount of $6.00, your tape, and also the other printed material.

We mailed two copies of NATURE'S ETERNAL RELIGION to you February 12, 1976. Regarding the I.O.U., I had forgotten about it, am not worried about it one way or the other, but hope that you will make good.

I have listened to your tape and read the Odin literature, and also the denouncement of the Protocols. Let me take these in reverse order.

1. THE PROTOCOLS. The first thing we must remember about a conspiracy (any conspiracy) is that it is highly vulnerable and once thoroughly exposed it is destroyed. Therefore a conspiracy must go to great pains to deceive and convince the world that it does not exist. This is the precarious position of the Jews and their treacherous blueprint as set forth in the Protocols. They have denied and denounced them repeatedly, even set up a Senate Committee (headed by such Jews as Jacob Javits) to "investigate" the Protocols and "prove" that they are a "forgery". Since that is what their objective was in the first place, that, of course, was their predictable "conclusion". But the Protocols won't go away, because as Henry Ford said (in 1921) they fit the picture of what's going on. Today, 55 years later the program has unravelled further to the point where you have to be an idiot after reading the Protocols not to see the design being carried out to the letter. I don't know who Ravenscroft is, but he is obviously trying to cover for the Jews. If investigated in depth, I am sure you would find a perfidious passel of Jews in the background. It is the usual Jewish trick just like the "Big Lie Technique", to then dump all their heinous designs and treachery on Hitler and the Nazis.

Hitler wasn't around when the Jews destroyed the Roman Empire. He hadn't been born when the Jews perpetrated the Civil War in the United States and had our White Racial Comrades massacring each other like a bunch of idiots. Hitler wasn't around either when the Jews instigated the French Revolution. Nor did he have any influence in perpetrating the Russian Revolution, nor World War I. But it all is in conformity with the Talmud, the Protocols and the Jewish

program of destroying the White Race — a program that goes back to the days of Solomon.

2. REGARDING ODINISM. I have been reading their stuff for years. I even used to correspond with the head of it, a certain old gal in Toronto, whose name I can't recall right now. Anyway, I find their stuff silly, useless and pointless. They have no intelligent creed, program or even worthwhile idea as to how to stop the Jewish onslaught. Like Christianity, it has silly stories about spooks in the sky or mists on the mountain tops, or wherever, spooks like Thor, Firthiof, Odin, and other children's tales who are as real as Santa Claus and his fairies. I admire the Vikings for their virility, manliness, energy and fighting qualities, the same as the Romans. But when it comes to their religion, they were stupid as hell, the same as the Romans. And that is the reason both went down the drain.

No, my friend, we need a better plan and a more intelligent creed and program than they had, if we are going to confront, battle and overcome the treacherous, vicious, power structure that is grinding us into oblivion. The Vikings and the Romans both succumbed to Jewish Christianity. In NATURE'S ETERNAL RELIGION, if you will study it more closely, we have the COMPLETE PROGRAM, THE ULTIMATE CREED and the TOTAL SOLUTION. Use your head. Get involved. Help carry it out. Don't sit there on your ass dreaming about spooks in the sky, even if they are in the form of Vikings.

3. NOW REGARDING YOUR TAPE. There are the THINKERS, the DOERS, and the TALKERS: Thinkers plan. Doers work the plan. And the Talkers explain why a plan won't work and criticize even if it works. Personally, I judge myself to belong basically in the first category and only partially in the second category. Architects are as important as contractors. Each has different talents, but both are needed. It takes teamwork to get things done. Not one in a million has the talents of a Hitler to be a planner, thinker and doer all in one person. We need to enlist every red blooded White Racial Comrade in our program of CREATIVITY if we are to survive. The first prerequisite to channelling the awesome might of the White Race into constructive, meaningful results IS TO STRAIGHTEN OUT THE WHITE MAN'S THINKING. That's what I am trying to do and that's what NATURE'S ETERNAL RELIGION is all about. You can't even begin to think straight if you are still hung up on spooks in the sky, whether they be Christian or Viking. When you finish your dissertation on the tape with a dramatic "Odin lives!" you are on the same stupid LSD trip as are the Christians with all their spooks in the sky. In order to think and plan logically you have to stick to reality, use logic and common sense. The spooks won't cut the grass for you, nor will they give us any help in the impending battle. It seems to me the whole philosophy as expressed on your tape is a total cop-

out. You hate women, and blame them for the mess we are in. You also hate your White Racial Comrades of either sex because they are too stupid for you to associate with. You didn't get married and have any children, choosing instead to end in ignominious oblivion despite all that fantastic development your Irish and Viking ancestors compiled into your genes. What a tragic betrayal! Your total philosophy is a rush to end it all, from what I understand. If that is really what you want to do, you can accomplish it all in short order by taking a powder. It is the negative, cowardly approach to life. We Creators take a different view. We say yes, we are glad to be alive. Yes, we have a hell of a lot of problems to solve, and by God, with our intelligence and energy we are the most powerful force on the face of the earth — AND WE SHALL OVERCOME! That makes life a lot more interesting, dynamic and meaningful than copping-out, whining, and denouncing the stupidity of your White Racial Comrades. In the first place, most White couples who have brought children into the world have already contributed more to posterity and the White Race than you have and have demonstrated healthier instincts besides. If your White brothers have their thinking screwed up, its up to you to straighten them out. It seems to me you have a hell of a lot of straightening out to do yourself. Your thinking is negative and nihilistic. If you have a copy of NATURE'S ETERNAL RELIGION in your hands, read it again, and you will know what to do. Do it! By talking constructively and spreading the word YOU ARE IN FACT A DOER. We want to get ten million copies of our White Man's Bible, NATURE'S ETERNAL RELIGION, into the hands of our White Racial Comrades in the shortest possible time. I don't know how old you are, but I hope you are not beyond salvage in contributing to the task that lies ahead. So why don't you come off this suicidal idea of self-pity and crawling into a hole and instead GET BUSY AND BECOME A DOER!

For A Whiter and Brighter World
Creatively yours,
Ben Klassen, P.M.

Mr. Gert J. Hetterich
Ft. Lauderdale, Florida

February 18, 1976

Dear Gert:

A correspondent from South Africa sent me the enclosed BRIEF, put out by a certain German attorney by the name of Manfred Roeder. According to my South Africa correspondent, Mr. Roeder and myself are working on exactly the same course. However from what I can gather from the BRIEF, it is only somewhat similar, not the same. Mr. Roeder apparently does not go into Christianity, the need for

a completely new religion for the White Race, the idea of building a future world exclusively for White people, and many other ideas we have incorporated in NATURE'S ETERNAL RELIGION. He is nevertheless putting up a fight against Jewish domination in Germany, something I hear very little of. I have sent Roeder a copy of my book and a letter.

I meant to give this to you when you were here, but forgot. Please read it and see what you think of it. You may want to contact Mr. Roeder when you get back. Regardless what you may or may not think of Hitler, the Jewish plague is still very much with us and we are going to have to come to grips with it, if we have any regard for our children and future generations. I hope you have read the additional material I gave you.

We very much enjoyed having you and Mrs. Hetterich over last night, and look forward to seeing you again next week.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Rev. Michael E. Breda **February 27, 1976**
Pasadena, Texas

Dear Rev. Breda:

Your application for the ministry in the CHURCH OF THE CREATOR has been accepted and enclosed are your Ordination papers. Congratulations! May your contributions to the cause of the White Race live up to all our expectations. We have a tremendous, but highly rewarding job to do and I hope you will do more than your part.

Also, thank you for the check in the amount of $32.00 received. We shipped a carton of 32 White Man's Bibles today. It was insured. Please confirm when you receive them.

Regarding your question regarding a charter, we are incorporated as a non-profit religious organization in the State of Florida. We have received a tax exempt status from the I.R.S., so any money donated to our church is tax deductible. Your status would be a branch church of the main headquarters. Actually, nothing further is needed, although if you'd like to incorporate your organization in Texas, I have no objection. I don't really see any need for it. According to the First Amendment to the Constitution "Congress shall make no law respecting an establishment of religion, or prohibit the free exercise thereof;" this is an extremely broad statement and means that government, Federal, State and local, have no jurisdiction over any religious body. It means further that if I say, or you say, we are a church, we are, ipso facto, a church and no government guidelines

are permitted to interfere or pass judgment. If we ordain you a minister of our church, you are in fact a minister, with all the privileges appurtenant thereto, your credentials are as valid as any minister on the face of the earth.

The main activities I would like to have you pursue are threefold (a) Recruiting, (b) hold meetings and (c) distribute NATURE'S ETERNAL RELIGION as widely and rapidly as possible.

The best insurance we can buy against Jewish communism blanketing the world is to get as many copies of our White Man's Bible, NATURE'S ETERNAL RELIGION, into the hands of our White Racial Comrades as quickly as we can. Our initial goal is ten million copies. Once we accomplish that much, I believe we are over the hump. What a bargain that would be for the White Race! Why we spend more than the cost of ten million copies of NATURE'S ETERNAL RELIGION every half hour of the day subsidizing the stinking shiftless nigger alone, not to mention all the thievery the Jews and other mud people take from our productivity every day.

I would strongly recommend employing the door to door method as suggested in the second last chapter of the book. Print up flyers, invite people to meetings, sell, loan or give away copies of the book to selective, thinking, White Racial Comrades. If you are familiar with the Mormon technique, you can't improve much on that. The big difference is that instead of selling our prospective members a lot of silly hocus-pocus about the (non-existent) spooks in the sky, we have a real big story to tell — the survival, expansion and advancement of the White Race of which your prospects are members. It's a do or die program — so give it all you can.

Best wishes for your success. May your endeavors be creative and fruitful. Ours is a dynamic program that will change the course of history. Be a part of it!

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

P.S. Enclosed also is a flyer you might modify and use for flyers of your own. B.K.

Mr. J. C. Jordan
Harrogate, England

March 26, 1976

Dear Mr. Jordan:

Someone sent me a flyer about your camp activities and proposed pagan society named Thorgard. This letter is sent to you in commendation of your activities in this regard. I notice that in the flyer you recommend our book, NATURE'S ETERNAL RELIGION. You will probably recall that we have had some correspondence

about the book a few years ago.

In order to help you in your program of helping to straighten out the thinking of our young White Racial Comrades, I am willing to send you free of charge two cartons of eight copies of our book, NATURE'S ETERNAL RELIGION (16 altogether). You may distribute them any way you see fit, making sure that they are placed selectively where they will do the most good.

I don't know exactly what your ideological program is, but I would like to make the following suggestions, if I may: rather than promote the revival of the Old Norse gods who did not save us from Christianity and the Jewish onslaught in the past, and will not do so in the future, (and who are just as fictitious and non-existent as all the other supposed spooks in the skies) why not build it on a sound and meaningful base of reality, race and the Laws of Nature? This will orient their thinking in terms of rationality and the real world, something that our White Racial Comrades have lost and something that is sorely needed if the White Race is to survive.

Anyway, if you will advise me what address you would like to have me ship the 16 books to, I will be glad to donate them to the cause.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. John L. Kucek
Brooksville, Florida

March 31, 1976

Dear John:

Thank you for your letter of March 20th and also for the Emry flyer.

John, I think that essentially you mean well, but unfortunately you are lost as far as the best interest of the White Race is concerned. That old Jewish mind scrambler about the wild "spooks in the sky" story has so crippled your reasoning powers that you are no longer able to distinguish reality from fantasy.

What you need to do is re-examine your basic premises. Think, probe, investigate from OUTSIDE SOURCES, other than the Jewish bible and decide once and for all, are there, or are there not spooks in the sky which you imagine are controlling your life. If there are, and if this is as overwhelmingly obvious as you say it is, why then there should also be an overwhelming mass of evidence around to substantiate it, other than that put out by a gang of Jewish scribblers thousands of years ago.

I have searched diligently and honestly and have found no wor-

thwhile evidence whatsoever about spooks floating around in the sky, or anywhere else. If you can come up with some hard evidence that a person named Jesus Christ lived, I will give you a thousand dollar reward. If you can come up with any substantiated, hard evidence that there is a ghost world of holy ghosts, demons, spooks, etc., that rule our lives, I will reward you with another thousand dollars. If you find out just where they reside "up" in the sky ("up" from Florida, or "up" from Australia?), I will reward you with another thousand dollars. Isn't that a pretty fair offer?

If you don't have any evidence, only what the lying Jewish scribblers wrote, and it is just another myth like the story we used to believe about Santa Claus when we were kids, why not be honest with yourself and admit it. I repeat: Re-examine your basic premises. If the spook in the sky story is a hoax, then it is certainly a cruel hoax that is robbing our White Race of 20 billion dollars in America alone, not to mention the number of lives it has wrecked, such as your own marriage.

I have painstakingly searched for evidence and have found absolutely none to substantiate the spooks in the sky story as concocted by that perfidious gang of lying Jewish scribblers. I have, however, found plenty of comprehensive evidence that the Jews instigated Christianity and used it as a vicious tool to poison the minds of the Romans and destroy them. They found it so effective that they have continued using it to this day in controlling and destroying the White Race. In conjunction with another deceitful Jewish creed, communism, the Jews are effectively destroying us with a vengeance.

John, your problem is you are so overwhelmed by this spook in the sky story, so paralysed with fear that they will burn and torture you in a fictitious hereafter, that you can no longer think straight in this area. Just like a little boy who wants to hang on to the Santa Claus story, you cannot get down to examine the basic premise, namely, are there really spooks in the sky or is it a fraudulent story?

Until you can get this one basic fact through your thick skull: that there are no g.d. spooks in the sky, it is pointless for me to pursue the silly issue with you any further.

As far as Emry is concerned, I have read his garbage before, have analysed it and found it to be a distorted concoction of trying to build a desirable conclusion without a single piece of evidence supporting what he has decided to "prove" in the first place. It all goes back to the Jewish scribblers CLAIMS. First of all, like a gullible bumbling idiot, you've got to "have faith", you have got to "believe" the claims of the Jewish scribblers, then perhaps, maybe, etc., is his line of persuasion.

Historically and every other way, his claims are fraudulent tommyrot, irrelevant speculation and a piece of far fetched manipula-

tions of unfounded claims. It all goes back to one basic premise about which you have to come to a conclusion: Are there or are there not spooks in the sky controlling your life? If there are, come up with some hard evidence and collect your reward money. If there aren't, then all the rest of these concocted claims and arguments collapse like a house of cards.

As to your question, which side am I on, I will tell you plainly: I have dedicated my life to help straighten out the White Man's thinking from fallacious idiocies, such as you have fallen into. It is my overwhelming goal to again give the White Man a sound and sane philosophy to live by, so that he can extricate himself from the catastrophe in which the Jews have entrapped him, and can then again freely pursue the sovereign right Nature has granted him: The survival, expansion and advancement of his own race.

Which side are you on, the Jewish concocted spooks, or on the side of the White Race? I hope the aberrations will soon clear from your mind so that you can again dedicate your intelligence and energy towards the best interests of the White Race to which you belong.

For a Whiter and Brighter World
Creatively yours,
B. Klassen, P.M.

Mr. Wilfried A. Kernbach
Friends of Germany
Rochelle Park, New Jersey

Dear Mr. Kernbach:

Thank you for your letter of March 22nd. It is gratifying indeed that my book, NATURE'S ETERNAL RELIGION, has made a meaningful and constructive impact on your thinking. Your first paragraph is very encouraging, and could well be used as a testimonial to promote the book.

I read you enclosed treatise regarding a supplement to our creed. Whereas I find it very interesting, I do not think it serves any purpose in promoting our Weltanschauung. We are trying to straighten out the White Man's thinking to where he will gather the facts of reality and come to the obvious rational conclusions about race, religion, Jews, niggers and the eternal Laws of Nature, all of which will help to win the battle against the Jews and promote the survival, expansion and advancement of the White Race. In short, we are trying to give the White Race a sound and sane philosophy based on the experience of history, on the Laws of Nature and on common sense.

In your presentation, you go off on a flight of fancy that is as unreal as the Jewish bible itself. Your thesis is not substantiated by any known facts of science, geology, anthropology or astronomy. It is purely fantasy, and therefore not at all constructive to our creed, which is based on logic and fact.

What we really need is not a continual revision of NATURE'S ETERNAL RELIGION, but a massive program of distribution. That is the real problem that we should concentrate on. It is our relentless goal to put ten million copies of NATURE'S ETERNAL RELIGION into the hands of our fellow White Racial Comrades. Once we have accomplished that much, the battle is as good as over.

Please do what you can to spread the word. We have a special offer at this time of 32 books for $32.00. Please do your part.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Larry Torri **April 27, 1976**
Pidgeon Forge, Tennessee

Dear Larry:

Thank you for the several notes and clippings you sent me before you left for Tennessee. It is most regrettable that you were beat out of your rewards back in 1962 by the Jews and their stooges, cronies and lick-spittles. But this seems repeatedly to be the story of our White Racial Comrades. AND WHY? Because the Jews stick together like glue and we are too dumb to even recognize our enemies. Once we get CREATIVITY on the move, things will be different, damned different.

The Oxford dictionary is calling the shots straight, but I am surprised that the Jews haven't covered that base, just as they do everything else. By now they probably have. As far as Harry Golden is concerned, he is only voicing what every other Jew feels and thinks — Loyalty to their race supersedes every other consideration. This is what we are trying to pound into the heads of our White Racial Comrades — What's good for the White Race is the highest virtue. What's bad for the White Race is the ultimate sin. PERIOD. To hell with everything else. THIS IS OUR GOLDEN RULE. Unless we preach and practice this Golden Rule, we will be exterminated. So let's get with it.

I am of course sorry that we could not get together before you left. I feel sure that you are going to make a major contribution to the survival, expansion and advancement of the White Race before you have run your course. You have the ingenuity, the intelligence, motivation and the drive to do so. Be sure you are heard from.

I am in the process of cutting a record entitled SURVIVAL OF THE WHITE RACE. I believe it will be a real bombshell and a terrific aid in promoting the White Man's Bible, NATURE'S ETERNAL RELIGION. It is going for $5.00. I hope you will avail yourself of a copy and play it to your numerous contacts. Especially, I would like to see you play it before Tom Anderson, who, I am convinced, is playing a treacherous game of selling the White Man down the river, all in the name of being a great "patriot" fighting "communism". Just who is he loyal to, the White Race, or a country that is being phased into becoming a mongrelized Jew-ridden, nigger infested America? Find out for me and let me know. I am convinced that he is nothing but a stooge, playing the Jewish game, as are the rest of the John Birch Society, of which I myself was once a gullible dupe for six years.

Sometime during the middle of May I hope to be up at our cabin on our property south of Franklin. At that time, I hope you and I

can get together and plan the rout and demise of our treacherous enemies.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. John P. Kay, Jr.
Miami, Florida

May 5, 1976

Dear Mr. Kay:

It was good to hear from you again. Regarding your questions on Vietnam, the only significance I can see is the tremendous damage it has done to the White Race in general and in America in particular — and reaped a harvest of gain and profits to the Jews.

The damage done to the White Race is:

(a) Sixty thousand American men killed, mostly the cream of the crop in their most productive years.

(b) Three hundred thousand more wounded, maimed or crippled.

(c) Untold thousands returned as dope fiends and criminals.

(d) Miscegenation — White men marrying orientals and hastening the mongrelization of America.

(e) The U.S.A. is 150 to 200 billion dollars deeper in debt to the Jewish International bankers — huge drain on the White American taxpayer.

There are many other losses to the White Race and the American people but this will give you some idea.

We of the CHURCH OF THE CREATOR are not particularly concerned about the "unfortunate refugees" as long as they stay out of our country. The fact that after we have senselessly smashed their country, turned it over to the communists, and then import them into America to further pollute the racial garbage-can here, is probably the most sickening aspect of all.

Let me hear further what you are doing in the fight for White racial survival.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. L. C. White
Jefferson, Oregon

June 10, 1976

Dear Larry:

It was good of you to call Wednesday night. I always enjoy hearing from you and learning about your activities. You should, however, not try to avoid writing the written word since it is a tremendously

important means of communicating as you very well know. It has many advantages — it is a permanent record, it is much cheaper than Ma Bell, and the written word can be proliferated by being put in print and disseminated to hundreds of thousands and millions.

So I would suggest that if you have an aversion to writing, OVERCOME IT. If you want to spread our ideas, you need to master all the tools available and certainly the written word is one of them.

We shipped a carton of 32 Bibles on May 27th. If you will send us a check in the amount of $40.00 we will appreciate it. At $40.00 we are still losing money, what with shipping charges and all, but we want to get that first ten million out A.S.A.P. Much depends on our success.

The energetic group in S.F. that I mentioned is headed by Allen Vincent. It is a NSWPP organization that is energetic enough to make big enough waves to definitely worry the Yids and have been written up in the newspapers. Their address is P. O. Box 1981, S.F. 94101. They evidently have a taped message whose number is (or was) 398-8948. They have bought several cartons of our books and embrace our religion.

A similar group you may want to contact on your trip is headed by Frank Collin in Chicago. (Rockwell Hall, 2519 West 71st Street, Chicago, Illinois 60629.) They put out a magazine called THE NEW ORDER, were struggling to set up their own radio station and have been quite effectively running candidates for public office. They too have distributed (one carton) our Bibles, but with less emphasis than Allen Vincent.

I am firmly convinced however that our doctrine and program is much broader, more sound and fundamental and much more far reaching than the Nazi doctrine for a number of reasons that I have cited in the book and we have previously discussed. I would therefore say that you, as a true believer, should see as many people and groups on our side as possible, encourage them and enthusiastically promote to them the CREATIVITY creed and program. And above all, distribute the book.

We are coming out with a full dress LP record entitled SURVIVAL OF THE WHITE RACE which will sell for $5.00. In quantities of 10, we will sell them to our distributors for $25.00. I would like to see you avail yourself of a quantity and push them to the limit of your ability. I am convinced that they will inspire countless numbers of our White Racial Comrades to read the book and join the movement.

Will be glad to see you when you arrive in Florida. I would say August is best, but I will be happy to visit with you whenever you arrive. Please inform me in advance to make sure I am not out of state.

Creatively yours,
B. Klassen, P.M.

Mr. Steve Keller **June 21, 1976**
St. Paul, Minnesota

Dear Mr. Keller:

Yours is about the most ignorant letter I have ever received. You say you have a feeling you won't hear from me. Like in just about everything else you claim, you are wrong. You are hearing from me, but good.

You are evidently shocked that Christ made such stupid remarks as I set forth on page 145, claiming they don't exist. They exist alright, not in Luke 13, but Luke 12:51-53. It is not particularly relevant whether there was a typographical error in my book about the chapter. The important fact is that I am quoting a purported saying of Christ. Since you are such a fanatic about the bible, how does it happen that you didn't recognize it? Any half-baked scholar of the bible would have recognized that quotation, idiotic as it is. All you have to do is look at the page in the bible, immediately above Luke 13 are the verses 51-53 I quote.

That isn't the only inane and divisive saying Christ is quoted in expounding the break-down of the family. Here is a quotation even more shocking and destructive. So hold your hat — in Luke 14:26 he is quoted as saying "If any man came to me and hate not his father, and mother, and wife, and children, and brethren, and sisters, yea, and his own life also, he cannot be my disciple". How do you like that?

Are you gullible enough to follow such miserable advice? Probably so.

That you are inexcusably ignorant I have no doubt. You claim to be the custodian of TRUTH but don't even know how to spell it. Even a fourth grader would know better than to spell it "trooth". You should be quite at home in the liar department, but you mispell that also (lier).

You scream about the fact that I made a typographical error in 500 pages and 220,000 words. If that is such a crime you should be hung before breakfast from the nearest lamppost, since you make three errors in a short letter that would take up less than a quarter of a page in my book (trooth, lier, weekness, instead of truth, liar, weakness). How dim-witted and ignorant can you get?

You are welcome to show this letter to the people you refer to, and expose your own stupidity. To insure that you do I am sending a copy of your letter and this one to one of the people you refer to.

You further infer that my father was the devil. Wrong again, you hare-brained S.O.B. My father was an intelligent, hard working White Man who didn't raise any stupid idiots like your father evidently did. Who was you mother, you silly S.O.B.? (Stands for Silly Sucker

of the Bible.)

By the way, it might help to straighten out your thinking if you would just understand one simple fact: **THERE ARE NO SPOOKS IN THE SKY.** Think about it.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Manfred Roeder **June 21, 1976**
Richberg, Germany

Dear Mr. Roeder:

Thank you for your kind letter of May 29th. I am happy to know that you have received my book, NATURE'S ETERNAL RELIGION, and that you concur with the main philosophy of the book. Evidently, like yourself, I had to grope and search through a jungle of misleading ideas and organizations before I could clarify my own conclusions. It was a matter of battering down many illusions and delusions before I could finally see the light at the end of the tunnel.

Undoubtedly my biggest and most important discovery was that Christianity was a poisonous snare concocted by the Jews in order to destroy their enemies, the Romans. It worked so well for them that they have kept the White Man's mind crippled with it ever since, much to our detriment.

In reading the Jewish Encyclopedia, I find that a German by the name of Eugen Duhring (1833-1921) wrote a book called "Die Judenfrage als Frage des Rassencharacters". Evidently in this book he comes to conclusions about Christianity similar to mine. However, I have never been able to get ahold of a copy. Would you know where it could be obtained? Also if you could send me a tape of any of Hitler's speeches I would greatly appreciate it and would gladly reimburse you for the cost.

If you would like to distribute copies of our book, NATURE'S ETERNAL RELIGION, we can ship you cartons of eight books for $15.00 U.S. If ordering, please send U.S. currency rather than drafts, checks or money orders.

Best wishes for your further success and let me hear from you.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Dr. William L. Pierce **June 30, 1976**
The National Alliance
Washington, D. C.

Dear Bill:

Many thanks for your letter of May 26th, also the catalog from Joachim Reinhardt, and last but not least your summary of messages to members of N.A. entitled "The Path".

I read the latter with considerable interest since it is directly in line with what I have been doing over a lifetime: namely searching for a meaningful purpose in life and a coherent, realistic philosophy of bringing it about. That is what my book is all about, and in it I believe I have not only found the answer to the question of purpose, but also a realistic program in implementing and achieving that purpose.

It is therefore with some trepidation that I give you my thoughts on this matter, some of which are critical.

Man over the last six thousand years of recorded history has been fumbling and bumbling with that question and come up with a million different answers. Unfortunately, most, if not all, are tied in with the "spooks-in-the-sky" story, which in itself has a million variations. I contend that there are no spooks in the sky and therefore basing any philosophy on the premise that there are, is ill-founded and erroneously conceived per se.

The Romans in the earlier, constructive part of their history were practical and were realists. As early as 450 BC one of the basic premises of their legal code was: the burden of proof is on the party affirming, not the party denying. This makes a hell of a lot of sense. I could invent a thousand different claims such as I am Napolean Bonaparte re-incarnated, there are little pink elephants (invisible) walking on the ceiling, etc., etc., that you couldn't disprove, despite the fact that I don't even claim to have any proof of these affirmations.

So we come to the established axiom that a "belief", "claim", "affirmation" that can neither be proven nor disproven is worthless, and we should not waste our time even discussing such.

The only thing that should occupy our attention and interest is EVIDENCE.

So when we come to the "spooks-in-the-sky" story which has been kicked around for at least 5,000 years since the Egyptians came out with it in a big way (they were not the first), the most outstanding attribute of this hoax is that in 5,000 years not one scintilla of EVIDENCE has been dredged up to support it.

My dad never saw any, although he believed in them. My grandfather, great-great grandfather, etc., etc., as far as I know, never saw any. In fact, I have never yet met any rational person that has

seen a ghost (holy or unholy) a gremlin, a fairy, a spirit, a spook or what have you. In short, it is a hoax with a million disagreements and variations, not substantiated by any evidence founded in fact.

Being realistic about accepting this one basic, solitary fact, i.e. that **THERE ARE NO G.D. SPOOKS IN THE SKY**, or anywhere else, is the first basic step in any rational thinking, and most of all, in formulating a sound, basic purpose and philosophy.

Reality is not necessarily the way we may wish things to be, and usually not even the way they seem, but **THE WAY THEY REALLY ARE**. To find out how they really are takes reasoning, logic, and a searching of the evidence, not necessarily in that order. Practically all the evidence, everything we know, comes from observing the phenomena of Nature, not trying to second-guess the invisible and non-existent spooks in the skies.

In my book, I have tried to go back to fundamentals — to the Laws of Nature — where the real answers are. In so doing, the answers to our purpose in life come out strong and clear and I spell it out on page 265. It is to **PROPAGATE, ADVANCE AND EXPAND OUR OWN KIND**, which for us is the White Race.

I am therefore somewhat dismayed when in your discourse you drag in such phrases as "God's purpose", the "Divine Spark", "Upward toward the Creator", "the Whole". When you do that you are not coming up with any answers, but obfuscating the issue, an extremely important issue, with a lot of meaningless double talk. If there are no spooks in the skies then all those concepts are only meaningless confusion. If there are spooks in the skies, then the burden of proof is on you to supply evidence. In 5,000 years nobody has.

In our discussion last summer, you claimed that you were a Deist. When I pressed you further what your idea of Deity or God was, you said it was synonymous with Nature.

Not so. This is a misleading confusion of reality. The concept of God with its millions of variations, is nevertheless circumscribed by the popular conception set forth in the Jewish bible or the Koran, or other "holy" books. Basically, he is a spirit in the likeness of a human man (anthropomorphic) who created all, knows all, controls all, and supposedly resides somewhere "up there" in the sky. ("Up" from Australia, Siberia, New York or the South Pole?)

As I have gone to considerable length to show, such concept is completely unfounded by any rational evidence. It is nothing more than a superstitious hang-over from our barbaric and ignorant past. There is not a shred of evidence to substantiate this spook image. On the other hand, **WE HAVE A GREAT DEAL OF KNOWLEDGE ABOUT NATURE**. Think of all the information we have gleaned about astronomy, the atom, physics, optics, chemistry, geology, etc., etc. The amount of knowledge is fantastic and rapidly increasing.

So whereas we do know a great deal about Nature, we know absolutely nothing about the spooks in the skies. In fact we don't have the slightest evidence that they exist at all.

Therefore, I contend it is not only extremely confusing to equate the concept of God (or any other group of imaginary spirits) all of which is in the realm of fantasy, with the concept of Nature, which is real.

Since you are a highly intelligent individual and fully understand these basics, I am extremely puzzled as to why you hitch your purpose and philosophy to the extremely doubtful "spooks-in-the-sky story" when Nature so plainly tells us what our purpose is. Even a robin or a deer or fish knows instinctively what its purpose in life is and waste little time in implementing and fulfilling that purpose. So do the stupid niggers and the perfidious Jews. Why is it that the White Man, who is so brilliant in so many other endeavors, is so utterly stupid in the No. 1 issue? It just isn't that complicated that we must dress it up with endless hocus-pocus and hitch it to the spooks in the sky story.

To me this issue is not merely an academic exercise in semantics, but so vitally basic to the progress of our movement that I hope to be able to get together with you sometime in the future and further clarify this issue.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. John L. Kucek
Brooksville, Florida

June 30, 1976

Dear John:

Your memo was greatly appreciated. If nothing else it does show you are still thinking and I hope you will continue to do so until you finally resolve the puzzling contradictions that I am sure are plaguing your mind.

You say, "When it comes right down to it, all people believe only what they want to believe, myself included".

Not ALL people, John. Some of us doggedly try to use our reasoning powers, a process with which Nature endowed the White Race more generously than any other creature. I am sure that even you use it frequently or else you couldn't be an accountant. Surely, when figuring someone's net worth you don't "believe" someone is worth $5 million when your logic tells you and the figures indicate he is only worth say $3 thousand, even though you might "want to believe" the higher figure. So it is with everything else in life, or

should be. You accept reality as is indicated to you by facts and logic.

So why is it that when it comes to the so-called "spirit world" you spook-lovers think you can toss logic out the window and just wander in a nebulous world of non-existent spooks which no one has ever seen, felt, heard or smelt. It's like going off on a LSD trip. Of all the nonsense in this world, the most nonsensical nonsense is religious nonsense. Even when you wish to indulge in this nonsense you have to use some brains in deciding which brand of nonsense you are going to pursue since none of you spook-lovers can agree amongst yourselves. As witness your tract: "In demolishing the 'hell' of the Catholic and Protestant churches —".

In answer to "Where is your soul after death?" since neither you nor I nor anyone else who is not an escapee from a nut-house has ever seen any soul, spirit, spook, ghost or any facsimile thereof, I see no more need to worry about such nonsense than where do all the little pink elephants go that are walking on the ceiling.

This silly idea about life after death isn't all that great, you know. If what the Jewish bible claims had any validity, we could look forward to 99 percent of billions of poor "souls" sizzling, screaming, frying, roasting and barbecuing in a lake of hot, molten sulphur.

What a brutal and horrible prospect! If this hoax is not true (and is isn't) then these Jewish scribblers at the least have inflicted horrible mental anguish on billions of superstitious and gullible victims, driving many into insane asylums.

Either way, it's not such a great idea.

If we of the CHURCH OF THE CREATOR do nothing else, we will at least help some people arrive at a vital Freedom — FREEDOM FROM FEAR OF HELL.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

ABOUT THE AUTHOR: Ben Klassen has been a resident of four countries and a citizen of three. Born of German-speaking parents in Russia, 1918, he and his family were early victims of Jewish Communism, from which they fled in 1924. He was brought up and educated in Canada, where he earned a degree in Electrical Engineering and also a Bachelor of Arts. He has been a farmer, a school teacher, a hard rock nickel miner, an electrical engineer, an inventor, a realtor, and a Florida State Legislator.

Dedicated to Posterity

Over the many centuries, Jewish Christianity has been a more destructive, pernicious mind-bender than all the hallucinatory drugs in history combined. Unless the White Race soon replaces it with a sound, militant racial religion of its own, gets the Jewish parasite off its back, and takes charge of its own destiny, all will be lost. Nature will relegate it to the ranks of the extinct, a species that had not the will nor the vigor to survive.

Preamble

This second volume embraces the five year period between 1976-1981, a time-span during which there was considerable further expansion of contacts and publicity. It was during this period that I compiled the two major additional books that comprised the THREE BASIC BOOKS of our religious foundation, namely the *White Man's Bible*, and *Salubrious Living*. These two additional books widened our basis comprehensively, extending our purvey on the one hand into the area of global environment, the problem of worldwide pollution and its reversal, as well agriculture, food production and soil conservation. *Salubrious Living*, on the other hand thoroughly covered all aspects of personal health and well-being, a subject that is of major importance to us all.

It was also during this period that I was left to manage my real estate operation almost single-handedly, an operation I now seriously began to wind down. This I did by divesting myself of as many properties as possible and converting into liquid assets so that I could begin to plan building a permanent church center and turning my total energies towards building the movement. The location of the center itself was at this time still undecided.

Meanwhile, the search for the Great Promoter continued.

Segment 25

Mr. Walter Russell **July 8, 1976**
Auburn, Washington

Dear Mr. Russell:

Thank you for your letter regarding our book, NATURE'S ETERNAL RELIGION. It is very gratifying that it is making a meaningful impact on your thinking. I hope it will give you a firm foundation for a sensible philosophy of life and a viable program to live by. Furthermore, I hope it will awaken your basic instincts to become RACE CONSCIOUS as Nature intended you to be, so that you will dedicate your best efforts towards our basic goal — the survival, expansion and advancement of the White Race.

The best way to do this is to distribute as many copies of NATURE'S ETERNAL RELIGION as you possibly can to your White Racial Comrades. We have a special offer of eight copies for $15.00 or a carton of 32 copies for $40.00. We also are coming out with an excellent L.P. record, SURVIVAL OF THE WHITE RACE for $5.00.

In answer to your question as to why the White Race has allowed itself to be destroyed by the Jews, although we are superior in intelligence, creativity, and productivity, I believe you will find the question well answered in the L.P. record I just mentioned. There are several contributing factors to this crazy dilemma, but basically it is this: whereas the White Man is so superior in all these other categories mentioned, when it comes to race and religion, and concern about his own survival, strangely enough, he is the most stupid creature on the face of the earth. But be sure to listen to the record to get the full story.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Czeslaw J. Witkowski **July 8, 1976**
Ft. Lauderdale, Florida

Dear Mr. Witkowski:

Thank you for your letter of July 5th and also the $10.00 check enclosed.

We are forwarding a copy of NATURE'S ETERNAL RELIGION to each of the two parties you requested. I hope it will make as meaningful an impact on their philosophy and thinking as it has on so

many others.

Regarding Polish history, I am sure I could learn a lot from you. When I said "several thousand years" I was not quite accurate, but my point really was to bring into sharp focus how it is always portrayed to us that it is "unthinkable" when it comes to moving the niggers out, but no hue and cry is raised when Germans, Arabs and other peoples are moved and displaced by the millions. Such are the double standards of Jewish propaganda and the White Race is gullible enough to accept it.

Anyway, what we must concentrate on is not the past wars between our White Racial Comrades, but the eternal war of survival against our arch-enemy: the Jews. I am sure that if we could properly review history we would find that most wars between White peoples were viciously and deliberately instigated by the Jews.

Next week I am coming out with a new L.P. record (40 minutes) called SURVIVAL OF THE WHITE RACE. Since you sent $10.00, this will also cover the cost of the record and I will send it to you. (Records $5.00 each, 10 for $28.00.) We are also coming out with a four page flyer for mass distribution. Will also send you a copy of it.

I hope to be able to get together with you and discuss ways and means of waging our war for survival. The first major step I believe is propaganda — the distribution of the book, the flyers, and the record.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

July 20, 1976

Dear Bill:

Many thanks for your letter of July 8th. I believe we are in basic agreement in our philosophical outlook, and I am especially gratified to know that you will have no part in the "spooks in the sky" story.

It is therefore a matter of tactics. You evidently favor the oblique approach. Since I haven't set the world on fire at this stage of history, (and actually, nobody has made much headway in the White Man's struggle against the Jews) who am I to say which tactics are best. Nor do I want to take up your time and divert you from the great job you are doing in putting out ATTACK! and your other activities.

Thank you also for your tape, which, I believe reflects the ideas set forth in your previous bulletins. After listening to the tape, I still find the PURPOSE OF LIFE you set forth somewhat blurred although

most of the remainder you expound upon is to the point. I still think stating that purpose as: THE SURVIVAL, EXPANSION AND ADVANCEMENT OF THE WHITE RACE is much more lucid, succinct and to the point.

Enclosed is a four page flyer I am distributing widely. I am also coming out with a 40 minute L.P. record entitled SURVIVAL OF THE WHITE RACE. I will mail you one in the next few days.

Best wishes for your continued success.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. M. Childs
Johannesburg, South Africa

July 27, 1976

Dear Mr. Childs:

Thank you for your interesting letter of May 16th. It arrived here more than two months later with 40 cents postage due. (It had a 5 cent stamp on it.)

Your advice about the rituals, organization and form our church should take are well advised. However, we are not really far enough along at this stage to worry about such details. Actually, once we have the membership, such items as ritual, etc., will shape up with out too much of a problem. I have in mind following the format of the Nuremberg rallies and the Hitler Youth programs.

The most important pursuit at this time is to spread the idea. We have, I am convinced, a great idea whose time has come. Therefore your help in distributing the Questions and Answers flyers (a copy is enclosed), the book, NATURE'S ETERNAL RELIGION, and playing the record to as many of your White Racial Comrades as possible is of utmost importance at this time and time is running out. So please do what you can.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. George Weaver
Riviera Beach, Florida

August 12, 1976

Dear Mr. Weaver:

Thank you for your letter of August 6th regarding the unavailability of an appointment with Mr. John MacArthur at this time.

I am, of course, disappointed since the subject I wish to discuss with Mr. MacArthur is of vital importance not only to Mr. MacAr-

thur himself, but especially to those of his children, grandchildren and heirs, as well as those of millions of others in this country.

The way this country is going, our children will not only be stripped of their financial inheritance, but also their precious liberty. I believe Mr. MacArthur does not dispute this view. The only difference in our opinions seems to be that he believes it is hopeless anyway. I, on the other hand, am confident that we can overcome the present sickness that is enveloping the world. Not only am I confident, but I believe in Nature's Eternal Religion we have the creed and the program to do it with.

It is not a political approach, but a racial and religious program. The idea is new only in that the White Race has never utilized it before. The Jews have done so with fantastic success for the last 3000 years, and as a result are now sitting on the top of the world.

As long as there are still 500 million White people on this planet, the situation is far from hopeless. Organized and united the White Race is ten times as powerful as all the Jews, niggers and mud people combined. Once the White Race has been mongrelized and/or destroyed, then all hope will be gone forever. It is our unalterable program to organize and harness the awesome power of the White Race for our own survival. The reason we have not succeeded so far, is we have made no attempt, or at best only feeble attempts to do so.

There is no material gain for me in this, but our mutual concern for our future program. I sincerely hope that you will try to persuade Mr. MacArthur to gamble 15 minutes of his time to discuss with me this most urgent issue and how to implement this vital program.

Please try to arrange a meeting. My home phone is 941-1173 and my office phone is 752-7980, (my son-in-law's office). I can assure Mr. MacArthur that 15 minutes of his time will be the most valuable investment he can possibly make at the time to "buy insurance" for the future of his estate, and above all, the future survival of his progeny.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

P.S. I am forwarding another copy of NATURE'S ETERNAL RELIGION to replace the one that was loaned out and not returned.

Mr. Lawrence Torri
Pigeon Forge, Tennessee

August 20, 1976

Dear Larry:

Thank you for your check in the amount of $38.00. We shipped 10 records and 100 plus Questions and Answers to you on August

18th. I believe both will prove to be a major aid in promoting our White Man's Bible, NATURE'S ETERNAL RELIGION.

I am glad to hear that you intend to give Tom Anderson a record. His off-hand reaction undoubtedly will be — "I don't want to hear about it".

The best way to counter this, I have found, is to present them with the following situation:

Supposing your enemies hauled you into court and accused you of rape, murder and mayhem. They falsely ripped you up and down before the judge accusing you of acts you had not committed. When it came your turn, you said to the judge "Now I would like to tell my side".

How would you feel if the judge then brushed you aside and said: "I have made up my mind that you're guilty. I don't want to waste my time hearing your side".

In a nutshell, that is the closed-mind position a lot of these spook-loving Christians take. So sometimes we have to draw them a picture as to how ridiculous such a position is.

Another good question to ask them is: Are you afraid to look at the other side because you fear you might have been wrong all these years?

Keep on pushing — we are steadily gaining ground against the treacherous Yids and their traitorous stooges.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Rev. William A. Burke, D.D. August 31, 1976
Westfield, New Jersey

Dear Rev. Burke:

It was good to hear from you again. I hope that you are expanding your classes of young people and are continuing to inculcate them with the ideas of racial value, racial loyalty and to recognize our mortal enemies.

I was very much grieved to learn that our mutual friend, Frank Niles, had died. Whereas I had been informed by some of my other correspondents in the Minnesota area that Frank had a problem with the bottle, it never showed in his letters. I have a heavy file of correspondence with him over the last three years, and I would say that his letters were the most sane and intelligent of any. They always showed purpose and great determination. Considering his age and how little he had to work with, I would say he was a great fighter and I wish the White movement had ten million more that tried as hard as he did. What a shame he could not have started on that

same course and purpose when he was a young man instead of being diverted into a thousand useless diversions along the way. He could have accomplished much. Too bad that other young men who do have the years, opportunity, health and energy do not grasp the realities of life, as he did in his later years so that they would dedicate themselves to the survival, expansion and advancement of the White Race.

Let me hear further as to what success you are having in stomping the root of all evil.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. David Rust, C.O.
N.S.L.F.
Panorama City, California

September 1, 1976

Dear Mr. Rust:

I was delighted to receive your letter of August 23rd, along with your excellent N. S. Review and other material. Also thank you for your check in the amount of $3.00. We mailed a copy of NATURE'S ETERNAL RELIGION to Mr. Bitner as you requested (August 27th).

Matt Koehl seems to be universally disliked and mistrusted by our White Racial Comrades with whom I have talked. Last summer I visited Hersheytown, D.C. (80 per cent chocolate, 20 per cent nuts) and talked to Dr. William Pierce, with whom I have good rapport. I also stopped in at the N.S.W.P.P. headquarters but to my (then) surprise Koehl refused to see me. Now I believe I understand why, and I suspect that he is a stooge as described in my Chapter 17, Part II under FALSE LEADERSHIP. However, I haven't really followed the break-up of Rockwell's organization too closely. I would appreciate hearing your observations and experiences regarding this subject, and particularly your evaluation of just what it is Koehl is doing.

Back in 1938 when I was 20, I first read MEIN KAMPF in the original German. I have been a staunch admirer and disciple of Adolf Hitler ever since, but my thinking has progressively evolved forward ever since, albeit in fits and starts, with numerous interruptions. Finally about six years ago everything fell into place and I feel that I made a tremendous breakthrough. If you read the chapter on MY OWN SPIRITUAL AWAKENING, page 455, it pretty well tells the story and there is no need to repeat it here.

This brings us to your suggestion about me running for political office. Ten years ago when heavily involved in the Birch Society, I did enter politics and ran for the Florida State Legislature and won.

It was this experience along with the J.B.S. that brought me to the conclusion that we were heading up a dead-end street, that we neither had the ideological nor the political tools to ever have a Chinaman's chance of wresting control of our destiny out of the hands of our mor-tal enemy, the perfidious Jew.

After going to a meeting in Tampa, Florida (1969) at which Matt Koehl and some blond young fellow (I forgot his name) spoke, I didn't feel that they had the answer either. I then started up my own party, the NATIONAL WHITE PARTY, but to my surprise, I found Chris-tianity continually cropping up as a road-block to thwart, divide and divert and confuse our fight against the Jew. This brought about an agonizing re-appraisal of our whole sitution, and my book, NATURE'S ETERNAL RELIGION was the result.

I am as convinced now as I was then that until we gave the White Man a completely new religion, a religion based on Nature's Eternal Laws, based on race, based on our own superior worth, until such time we would continuously be meandering in a fog, torn between the Christian morals imposed upon us by the Jew, and our own instincts.

I therefore feel any venture into politics is useless until such time as we lay a broad enough base by straightening out the White Man's thinking along the lines set forth in NATURE'S ETERNAL RELIGION. However I don't preclude some of our members running for office in the meantime as a means of getting publicity, spreading the word and recruiting members. In fact, it is an excellent tool FOR THAT PURPOSE. But as far as any meaningful political success is concerned, forget it. We have a lot of groundwork to lay first.

What I am saying is similar to two armies opposing each other, one armed with machine guns, the other with slingshots. The ob-ject would not be to engage in battle if you were the party with the slingshots, because you would be annihilated. The first objective would be to get more and better machine guns and/or other weapons than your enemy had, then engage him in battle.

It is the same in our situation. The problem is first of all arming our people with a better ideological weapon before we can ever suc-cessfully hope to engage the enemy in meaningful political combat. Whereas the Nazi creed was successful and adequate in the Germany of 50 years ago, as I state in my book, for various reasons it is not adequate for America of 1976. Some of the reasons are that it em-phasizes Pan-Germanism, but it does not confront the Judeo-Christian question, which I found continually undermined our moral position and you could not answer it unless you first attacked and demolished Christianity on a broad front.

It is my belief that we therefore have to organize the whole bat-tle along religious lines, which, as I mention in the book, HAS ALL

KINDS OF SUPERIOR ADVANTAGES OVER A POLITICAL PARTY.

This I have sought to do. I believe if we could get even ten million copies of NATURE'S ETERNAL RELIGION in the hands of our White Racial Comrades we would have the battle as good as won. The niggers, Jews and mud people are our real enemies but THEY ARE NOT THE REAL OBSTACLE. The real obstacle is the perverted thinking of our White Racial Comrades and the Jews did a real poisoning and perversion job when he sold us Christianity nearly two thousand years ago. Read Marcus Eli Ravage's "A Real Case Against the Jews".

This letter does not tell the whole story, but it is getting too long. Briefly, I have no intention of again invading politics, because I think it is futile at this stage. I believe in NATURE'S ETERNAL RELIGION we have the whole package put together, the whole ball of wax. We have the TOTAL PROGRAM, the FINAL SOLUTION, the ULTIMATE CREED. I am, however, looking for a fiery young leader to act as the spear head of the new CREATIVITY movement, (someone similar to A.H. would do), and lay the groundwork for a permanent worldwide White racial religion and keep expanding it until the White Race inhabits all the good lands on the face of the earth.

I would be glad to hear your views in exchange. In case you get the impression that I am trying to divert you from your present program, nothing could be further from the truth. I say full speed ahead — you are doing a good job. However, I would like to see your members fortified on the religious side as well so you won't be vulnerable in the flank. So push your political program at the same time undergird it with a powerful religious racial creed, namely CREATIVITY.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Rev. Ben Kriegh **September 1, 1976**
Boulder, Colorado

Dear Rev. Kriegh:

This will acknowledge receipt of your letter of August 23rd, your application and the check in the amount of $20.00.

Your application for the ministry has been accepted. Enclosed is the Certificate of Ordination. Congratulations! May this be the beginning of a long period of constructive and creative activity accruing to the benefits of the White Race!

The key to most effectively accomplishing results is organization. Well organized and with unflinching purpose in mind, even a small group can accomplish wonders, way beyond anything that in sum total they could do as individuals.

At this stage of our small beginnings, the most important thing we can do is spread the idea and recruit others. This means SELLING THE BOOK, not just distributing it, but at the same time CONVINCING our confused and frustrated White Racial Comrades of the urgency and correctness of the doctrines therein.

An idea is like a seed, it can be shipped to any part of the world — South Africa, England, Australia — germinate, take root and spread.

It is our MAJOR TASK to disseminate our idea as widely and quickly as possible. In CREATIVITY, I believe, we have the most powerful and constructive idea in history. Had the Romans had it, what a different world this would be today!

While we were at it, we shipped (Aug. 31st) 100 plus Questions and Answers flyers, and 10 buttons. Your check covers all. I hope you have received the record by now.

Your idea about titles, I. D. cards, etc., has a lot of merit and I have given it a lot of thought all along. In fact, our needs are endless. We need rituals, songs, parades, uniforms, speakers groups, schools from Kindergarten to University, Theological training centers, above all, money, etc., etc. I have endless plans, but first we must have a substantial body of like-minded followers, who are the real base from which to build the whole structure.

Good luck! Keep me informed.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. William J. Gutterman **September 1, 1976**
New Brighton, Minnesota

Dear Mr. Gutterman:

Many thanks for your letter and your order for 100 Questions and Answers flyers. We shipped the latter August 31st. I hope they will be a real aid in getting our White Man's Bible as widely distributed as possible. By so doing, we are laying the groundwork for changing the world. In CREATIVITY, I believe, we have the most POWERFUL AND CONSTRUCTIVE IDEA in history. Do your part in expanding it.

I received word from Rev. Burke (an old Nazi friend of his) that Frank Niles had passed away in July. I had heard from several other people in Minnesota that Frank had a problem with the bottle and this finally proved his undoing. Poor Frank! I feel real sorry about him. I have a large volume of correspondence with him and his letters are among the most courageous and intelligent of any in my files. From what I hear, also, he was a real feisty and courageous fighter, despite his age, despite his drinking problems, despite his health and despite his destitute financial position. He just could not cope with a hostile world of Jews and niggers, and having limited means of fighting back, he took solace in the bottle. Poor Frank! How different his life might have been had he had a sound racial religion from early youth, instead of confusedly meandering through the deceitful shibboleths of Jewish Christianity for the major part of his life. Had he had the picture straight at say age 20, with his guts and fighting spirit, who knows what great accomplishments he might have rendered in the service of the White Race. So let us who are fit make hay while we can.

It is inspiring indeed that you credit our White Man's Bible for the coming increase in your family. That alone makes the book worth writing. I hope that this same conclusion will result in millions of others of our White Racial Comrades and I am sure it will. I already have received several other reports from as far away as the state of Washington. More White Power to us! May you have many more! Keep me informed.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Ralph Dickson **September 17, 1976**
Hillsboro Beach, Florida

Dear Ralph:

I thoroughly appreciate your letter of September 7th in response

to the record I sent you. Also I appreciate your expressions of respect for a "worthy opponent."

For all these years you have repeatedly emphasized that you "disagree" with me, and to this you have, of course, an indisputable right. In fact, I would be the first to defend that right.

There is one thing that bothers me, though. Whereas you repeatedly insist you are against my creed, philosophy, and program, you have never, never let out any inkling as to what you are for, as to what your own creed, philosophy and program, if any, might be. You have consistently kept it "under your hat", a deep dark secret.

Am I therefore to presume that since I am for the White Race and against niggers, that you are for niggers and a traitor to the White Race? For the Jews and against the White Gentiles? That whereas I want to see the expansion of the White Race and a shrinkage of niggers, you want to see the expansion of niggers and shrinkage of the White Race? That since I don't believe in non-existent spooks in the skies, lurking over our shoulders and threatening us with eternal torture in hell fire, that you believe the very opposite?

It would be more enlightening if you would spell out specifically what your creed and philosophy is rather than by just en-blanket saying you oppose mine, that is, if you have a positive philosophy on race and religion. I am not very impressed by people who "pose wisely in silence". I have known several such people before. When I smoke them out, tilt their hat to take a peek underneath at what it is they are keeping a deep dark secret, I have usually in the past, discovered only a desert wasteland of vacuity.

Please don't get me wrong. I am not casting derogatory reflections on your intelligence. On the contrary, I am convinced that you are unusually intelligent and competent in numerous fields, much more so than the average individual. What I am saying though is that like the average yokel, in the field of race and religion, and in the area of being able to recognize their natural enemies, the White Man is the most stupid creature on the face of the earth. In this respect, you conform to the average yokel.

Now if I am wrong and if you really oppose every issue on which I take a firm stand, please prove me wrong. A good way to start would be to give some good, logical straight answers to the questions I pose at the end of the enclosed flyer.

Now remember, I don't want any double talk, or soft soap. None of those "you wouldn't believe me anyway" evasions. Just put it straight on the line. Straight, logical, sensible answers, BASED ON MEANINGFUL EVIDENCE.

Until these questions are satisfactorily answered, they are new as tomorrow's newspaper.

Creatively yours,
Ben Klassen, P.M.

Mr. David Rust **September 17, 1976**
N.S.L.F.
Panorama City, California

Dear Mr. Rust:

Thank you for your comprehensive and interesting letter of September 5th. It is all very interesting what you say about Matt Koehl. Also it is rather depressing. I am sure it is of considerable value for the Jews to have their controlled stooge heading up the Nazi organization for at least two reasons: one, it acts as a collecting basin for neutralizing the more aggressive element of our race, and secondly, it acts as powerful goad to unite, coalesce, organize and extract funds from the Jewish people themselves. The Jews have their troubles, too, you know.

So much for Koehl. As I told you before, I didn't see any future in him anyway after I met him and heard his amateur and uninspired speaking ability at St. Pete back in 1969. Therefore, I didn't pay too much attention either to him or his organization and concluded we need a better and more basic creed and organization. I have done my best to lay the foundation for such a creed ever since.

Regarding Marcus Eli Ravage, he is a genuine Jew alright, and he did write that article in January 1928 edition of Century Magazine. I have reproduced photostatic copies of it. I checked the background of Ravage with Dr. Revilo P. Oliver, from Urbana, Illinois with whom I correspond occasionally. He thinks similar to what is set forth in Nature's Eternal Religion and is a leader, international scholar of literature, history and the letters. He gave me a pretty thorough background and info about Ravage. Ravage was a Jewish writer and correspondent, evidently fell out of grace with the Jews in later years, who dropped him from Who's Who of American Jewry.

I was unaware of his A REAL CASE at the time I wrote the book. A reader sent it to me after the book had been published. The thing I like about his article is that it states so succinctly the story of what the Jews did to the Romans through Christianity and the tremendous impact on the destruction of the White Race to this very day. It therefore does an excellent propaganda job, which is all I am really interested in. As to what his motives were, who knows. It is like trying to second guess the intentions and desires of the non-existent spooks in the skies who are continuously supposed to be looking over our shoulders. I can't be sure of anybody's motives, and a lot of people don't even understand their own motives.

Regarding Allen Vincent and his organization. I have been in contact with them for about two years. They are quite favorably inclined to my books and creed. In fact one of his women members ordered a carton of 32 books from me initially. They have been order-

ing more books ever since from time to time, as well as sending me news clippings of their activities and otherwise keeping me informed.

I would like to establish a similar, though stronger, relationship with your group. Everything evolves and changes, and either progresses or regresses. The racial creed is no exception. Adolf Hitler gave it a tremendous impetus, but it is not the end of our development by any means. In CREATIVITY, I believe, we have made tremendous further progress in giving the White Race a sound, viable religious base for the survival, expansion and advancement of the White Race. I hope that you will see fit to undergird the creed, philosophy and aims of your group by promoting and distributing our White Man's Bible, NATURE'S ETERNAL RELIGION.

Please let me hear further from you.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. E. P. Thornton **September 29, 1976**
Myrtle Beach, South Carolina

Dear Mr. Thornton:

Thank you for your letter of September 23rd, regarding CREATIVITY. Since you have read our Questions and Answers about CREATIVITY flyer, evidently there are a few not covered that you raise in your letter. I will try to answer them.

1. P.M. stands for Pontifex Maximus, as you can see from this letterhead. Whereas, the Pope in Rome has that title also, it was as I learned from the study of ancient Roman history, originally the title of the head of the state religion, pre-dating the times of Julius Caesar. When Rome changed from a republic to Empire, the Emperor combined that title also as head of the state religion. When Christianity destroyed the Roman Empire and built its own power structure on the shoulders of the Roman Empire, it usurped many of the forms of the former empire, including the Roman genius for organization; and also, as stated, the title Pontifex Maximus. Our title refers back to the historical Roman usage, not that of the Catholic church.

2. No, Klassen is not a Jewish name, although there may be some Jews that have sought disguise under it, just as they have gone under the names of Smith, Jones and, undoubtedly, Thornton. Klassen is a good German name, and is particularly common and widespread among the Mennonites, a religious Protestant group originally coming out of Holland, who were my ancestors.

Am I Jewish? Hell, no! How could you possibly get that kind of screwy idea? How can you make a flat statement to the effect that

Klassen is a Jewish name when there is no basis in fact? In my over half century of existence, I have never even heard of a Jew by that name, much less met one. If you want to read more about my background, read Chapter 22, Part II of my book, NATURE'S ETERNAL RELIGION.

3. Are the Jewish people white? No, they are not. They are yellow Semites, along with Arabs and others, and of Asiatic origin. They themselves disavow being White. Read page 77 of NATURE'S ETERNAL RELIGION for further discussion of this point.

4. I am not particularly interested in whether Jews are Orthodox, Reformed, Sephardic or Ashkenazi. They all go by the Talmud and stick together like glue in their age-old program of destroying the White Race. If you are bitten by a rattlesnake, you don't particularly waste time classifying it as a diamond-back, sidewinder or whatever. They are first and foremost rattlesnakes.

Regarding George Dietz, I know of him, and get his excellent magazine LIBERTY BELL, but have never met him. I don't know whether Mr. Dietz espouses National Socialism per se, or whether he promotes first and foremost the best interest of the White Race, as do I. Evidently, he does not disagree with me or he would not have ordered several dozen copies of my book, NATURE'S ETERNAL RELIGION, which he also lists in recommended books.

Regarding the founding of our new religion, CREATIVITY, let me say this — the White Race has never had a good racial religion (as do the Jews) in all its history, and that's why it is in the deplorable situation it is in. In CREATIVITY, I believe, I have given the White Race that vital creed around which they can build and rally for the next million years. Unlike N.S., which narrowly espoused Pan-Germanism, CREATIVITY embraces the whole WHITE RACE. To say that Christianity and Judaism have been around for thousands of years, therefore, should not be disturbed, is like saying small pox, the black plague and leprosy, which have been around even longer, should not be challenged.

My answer to the White Race not working together is this: (a) They never have had a good racial creed to rally around, and; (b) every racial creed is in conflict with Christianity; (c) until this issue is faced, the White Race will forever be splintered and fractured and turning on itself in suicidal self-destruction. The Jew planned it that way.

CREATIVITY is the ULTIMATE CREED, the FINAL SOLUTION, the TOTAL PROGRAM. I am sending you a copy of NATURE'S ETERNAL RELIGION so you can study it yourself. You say we won't see its fulfillment in our life time. So what? It took Christianity 300 years to break through and another 1000 years to reach many parts of Europe. By now laying the ground work for CREATIVI-

TY, we can take pride and have the satisfaction of building a solid structure for our future generations and for the survival, expansion and advancement of the WHITE RACE. What's more meaningful and important than that?

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

P.S. About two weeks ago, I sent you our newest record, SURVIVAL OF THE WHITE RACE. You did not mention it in your letter. Did you receive it? **B.K.**

Mr. M. Childs September 30, 1976
Johannesburg, South Africa

Dear Mr. Childs:

Thank you for your letter of September 11, and the ten dollar check enclosed. This will adequately cover two records and we are shipping two to you as of September 21.

Also, many thanks for your good will and expressed future support of our church, both morally and financially. I hope that you can give the other record to some good energetic WHITE RACIAL COMRADE, who will spread the message to as many others as possible. Our initial objective is to spread the book, NATURE'S ETERNAL RELIGION as widely as possible. When we have a wide enough base, we then want to organize that widespread support.

The way that Jewish snake in the grass, Kissinger, has been "shuttling" around South Africa is a foreboding of an evil tragedy to the White People of South Africa. As I see it, the White People of Rhodesia are going to be sold down the river and slaughtered first. Then the pressure will turn to South Africa. How do our WHITE RACIAL COMRADES over there see it?

This again shows how important it is for the White People to thoroughly understand the Jewish menace and be organized to destroy it. If everyone in Rhodesia and South Africa had read NATURE'S ETERNAL RELIGION, they could never have been betrayed into the trap that is now being prepared for them. Do what you can for the survival, expansion and advancement of the WHITE RACE.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Floyd K. Bitzer **September 30, 1976**
Lodi, California

Dear Mr. Bitzer:

Thank you for your letter of September 16, in which you severe-ly criticise the book, NATURE'S ETERNAL RELIGION. I am the author of the book.

You state you have only read half of NATURE'S ETERNAL RELIGION, but already jump to a number of what I consider un-justified conclusions. Why don't you read the whole book, before you start firing from the hip? Reading only half the Bible would com-pletely exclude the New Testament, which only takes up approximate-ly the last quarter of the Bible. What kind of picture would that give you of Christianity, when you had not even come in contact with the New Testament?

In any case, your comments seem to be wholly based on whoever doesn't agree with your "beliefs" must be insane, etc. Name calling in a debate is the last resort of a scoundrel, I am told. A Hindu who "believes" cows are holy would have equal claims for calling you in-sane, because you believe in demons, spooks in the sky, while he prefers to believe cows are holy.

Our religious beliefs as set forth in NATURE'S ETERNAL RELIGION are not based in wild "claims", nor unsubstantiated "beliefs" in some netherworld of demons, ghosts, spirits and spooks, but on observations of the facts of Nature, life and history. In other words, MEANINGFUL EVIDENCE.

If you are so sure about second guessing the plans, programs and intentions of all those spooks in the sky, with whom you have never spoken or even seen, then please answer the list of questions on the last page of the enclosed flyer.

In answering, please, no soft-soap or double talk. No "you wouldn't believe me anyway" evasions. Just logical, straight answers, based on SUBSTANTIATED, MEANINGFUL EVIDENCE.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. John A. Stormer **October 11, 1976**
Florissant, Missouri

Dear John:

It was good to hear from you again after all these years. As you know, I have written a 508-page book, NATURE'S ETERNAL RELIGION, which many people consider as the White Man's Bible, and its main thrust is the survival, expansion and advancement of

the White Race. I might add that in this book I am "expressing myself in very important areas", believe me. It has been distributed in all 50 states and many foreign countries and I had meant to send you a copy. However, I never did, since I felt that it would not be received with an open mind. Since you have written me and raised several issues, I am now sending you a copy of the book.

I hope that I was wrong and that you will read it carefully, with an open mind, using all the intelligence, common sense and logic that you are capable of and were endowed with by Nature. After helping to sell 80,000 of your books, I would say the least you can do is read mine and give it some honest thought. It is a book and a whole philosophy of life that probably takes a little more intelligence to understand than the average yokel can manage, but this should present no problems to a man of your calibre.

John, I have given a great deal of thought and study to the subject of race, religion and the horrible dilemma in which the White Race finds itself in today. I was thoroughly indoctrinated with Christianity while I was still an innocent little babe and before I was capable of making sound judgments. I also believed in Santa Claus until the gullible age of six. I was thoroughly aware of communism before you were even born, my family fleeing that Jewish plague in 1924. I have run the gamut of the deceptive and treacherous J.B.S. course, being one of the main promoters of that false Jewish smoke screen for six years in Broward County. I was Florida State Chairman of the American Independent Party in 1968. I have been a member of the Florida State Legislature. Without being boastful, I can show that I have an unusually high I.Q. not equalled by one in 5000, I am told.

So, I wasn't exactly born yesterday, nor am I a naive yokel who still believes in Santa Claus. All these years I have been searching — searching for better answers than I was being given by the Jewish-Christian bible, by Robert Welch, by George Wallace, by Lester Maddox, by Wes Auger, and a host of other deceptive con-artists. The conclusions I have come to are my own. I have reached them the hard way — by experience, the school of hard knocks — and most of all, by observation and the application of logic. I have tried to avoid those twin debilities of the human mind, superstition and gullibility.

Having given you this background, the most significant conclusion I have come to is that your "Spooks in the Sky" religion, dominated by that horrible Troika "Father, Son and Holy Ghost" garbage, is the biggest fraud perpetrated on the White Race that has ever been invented in all the history of mankind. Christianity is the most destructive mind-boggler of all time, and has caused incalculable damage to the White Race in particular. It was perpetrated on us by our mortal enemy — the perfidious Jew.

John, use what intelligence Nature has endowed you with. Have you ever seen any ghosts, holy or otherwise, in the sky, or anywhere else? Any devils, demons, satans, lucifers, angels, seraphims, gremlins, witches, fairies, etc., etc.? Has anybody ever seen them? I never have. My father and mother never did, although they, too, were gullible enough to allow themselves to be indoctrinated with this crazy superstition. My grandparents never came in contact with any of these spooky characters either, nor do I know of anybody that isn't a refugee from a nut-house who has seen any of these imaginary spooks-in-the-sky.

Furthermore, in researching legitimate history, there is not a shred of evidence that such a character as Jesus Christ ever existed. Although the Roman civilization of the First Century, A.D., was well advanced, had innumerable historians, play-writers, sculptors, artists, chroniclers, etc., not a single one left the slightest notice of any such phenomena as the "Son of God" bursting upon this earthly scene. In fact, there is not the slightest shred of evidence to substantiate all this wild, silly hocus-pocus as described in your so-called "holy scriptures". It was all invented at least a hundred or more years after the supposed event by a lying gang of Jewish scribblers and fraudulently promoted by the whole Jewish network, as is communism today.

For further details, see Chapter 16, Part I, of my book, NATURE'S ETERNAL RELIGION, entitled "Christ's Existence Not Substantiated by Historical Evidence".

The whole purpose of this nefarious teaching that the Jews perpetrated on the Romans was to unhinge the minds of their enemies, the Romans, with whom they were at war. They were successful beyond their wildest dreams. Not only did they destroy the Roman Empire, but they pulled the whole Roman civilization down in a horrid shambles and plunged the White Race into the Dark Ages of superstition, ignorance, poverty and fear for the next thousand years. The Jews had their revenge. Read Marcus Eli Ravage's piece, which I am enclosing.

And this is the lurid, fraudulent pestilence that you are dedicating your life to by spreading this infection to your fellow White Racial Comrades. Actually, Christianity is more deceitful, treacherous, tyrannical and destructive than is communism, its Jewish twin. Without Christianity softening up and scrambling the White Man's brain first, the Jew would never have been able to perpetrate the final stage of tyranny — communism — on the world.

John, it grieves me sadly to think that a fine, capable, otherwise intelligent man like yourself has thrown his judgment and logic out the window and succumbed to gullibility and superstition much like an African nigger in the bush succumbs to voodoo and spooks,

or the Hindus in believing cows are holy. If you will stop and think a minute, there is no more MEANINGFUL EVIDENCE for your spookcraft than there is for theirs. It all is based on the wildest CLAIMS, CLAIMS, CLAIMS, without an ounce of logic or a shred of evidence.

In the meantime, you are a useful and willing tool in the hands of the Jews in their age-old vendetta of destroying the White Race — the highest pinnacle of Nature's creation. It makes me very sad to see this when I am dedicating so much of my time, money and energy in the struggle for the survival, expansion and advancement of the White Race, to see you working on the other side, on the side of the Jews, in destroying all that is worthwhile in the world — the only place man has ever been known to live.

It is just completely incomprehensible to me how anyone can fall for such a wild, stupid story as set forth in Jewish-Christianity. The whole end result of this horrible nightmare is that 99 per cent of all human beings would end up in a horrible torture chamber, in a sea of molten sulphur, billions and billions of helpless souls scream-ing, writhing, clawing, kicking like a bunch of live animals being barbecued. And who's in charge? Why, your sweet, loving little Jesus and his big daddy who created this whole horrible, sadistic, monstrous mess.

You call that love? All I can say is, I thank God I don't believe in him and the whole ghoulish macabre, monstrous hoax. Read Chapter 15, "Getting to Heaven: Project Impossible; or, Everybody is Going to Hell". I ask you what is so wonderful, so loving, so great about your idea of the hereafter if billions of people supposedly created by your loving Super Spook, if 99 per cent of them are know-ingly destined to be barbecued alive like a bunch of roasted pigs? How can you be hooked on such horrible, such idiotic garbage? Use your brains, John. Surely you can think more intelligently than to be sucked into such a mess of superstition like a gullible barbarian.

John, I'm sure you have heard of Rev. Moon from Korea and the many good young people who get "Moonstruck" by this despicable con-artist. He has these young people so confused they are out selling flowers 10 hours a day while he is raking in millions. It takes days of therapy and deprogramming to get these people's thinking back to reality again, if ever. They are poor, deluded vic-tims of the second oldest racket in the world, next to prostitution — spookcraft.

You can see the hoax with the Moonies, but isn't your delusion and your obsession with the non-existent spooks-in-the-sky equally silly? Why are you so blind about your own affliction? It is a cop-out, a flight from reality into a stupid fantasy world. If you think it is such a great idea to live in a world of fantasy instead of the real world,

I would suggest you really do it up right — get yourself an opium pipe and really take a trip. I've never done it, but they say it is better than spookcraft.

John, all you have to realize is there are no goddamn spooks-in-the-sky, or anywhere else, never have been and never will be. This earth has been floating through space for billions of years and undoubtedly will be for many more billions of years, probably long after the White Race has destroyed itself by falling victim to such stupid, suicidal religions as you espouse.

Anyway, I am sending you a copy of NATURE'S ETERNAL RELIGION. I hope it will help you to see the light and bring you back to your senses. I am also sending you a copy of "The Bible Handbook", written back in 1888, which does nothing but quote from your beloved Jewish Bible. As it mentions in the foreword, it raises more questions in five minutes than you can answer in a lifetime. Please read and think. Also, I am sending you one of my records, SURVIVAL OF THE WHITE RACE, hoping that it will enlist you to work for the survival and best interest of the White Race, the most important value on the face of the earth.

Now if all that is of no avail, and you are so sure of your spooks-in-the-sky story, then you must have a gold mine of evidence that has completely escaped me in my search over the last 50 years. I would, therefore, be eternally grateful if you would answer the questions that I have posed on the back page of "Questions & Answers about CREATIVITY".

Just give me straight, honest answers, based on MEANINGFUL EVIDENCE. No double-talk, no soft soap, no references to that collection of Jewish lies, fraudulently called the Holy Scriptures, no "you would not believe me anyway" evasions. I will believe anything that is based on meaningful evidence and makes sense.

For a Whiter and Brighter World,
Creatively yours,

Mr. Dana E. Keech, Attorney **October 11, 1976**
San Bernardino, California

Dear Mr. Keech:

Thank you for your letter of October 7, and the $14.00 enclosed.

I have been called by many names, some good and some bad, but never before a "master iconoclast". I can't disagree with you on that, and it ranks among the kinder descriptions. Actually, rather than an idol-smasher, I prefer to think of myself as a builder, giving the White Race a proud new creed, CREATIVITY, one that it can live with and build on for the next million years.

In CREATIVITY, I believe, we have the FINAL SOLUTION, the TOTAL PROGRAM, the ULTIMATE CREED.

The two books, NATURE'S ETERNAL RELIGION, 25 plus copies of "Questions & Answers about CREATIVITY" and the record were shipped today (10-12-76). I hope reading NATURE'S ETERNAL RELIGION will make a meaningful impact on your future philosophy, and will inspire you to dedicate your life to the survival, expansion and advancement of the White Race, the highest pinnacle of Nature's Creation.

For a Whiter and Brighter World,
Creatively yours,

P.S. Also enclosed is Marcus Eli Ravage's confession, which is very enlightening.

Mr. Wilhelm Landig **October 12, 1976**
Favoritenstrasse, Austria

Dear Mr. Landig:

Thank you for your letter. I will be glad to have a review of our book, NATURE'S ETERNAL RELIGION circulated in your newsletter. Here is a suggested review:

NATURE'S ETERNAL RELIGION is unlike any other book ever written. It seeks to lay the foundation for a completely new religion whose overriding goal is the survival, expansion and advancement of the White Race, and the White Race alone. It is not based on any supernatural hocus-pocus, but relies heavily on the Laws of Nature, the experience of history, and on logic and common sense.

NATURE'S ETERNAL RELIGION sharply criticizes Christianity for softening up the Romans, destroying their natural instincts and bringing about the collapse of the great Roman civilization in a heap of ruins. It further indicts Christianity on the score of keeping the White Race locked in a state of superstitious ignorance and poverty for the next thousand years in the period known as the Dark Ages.

The book calls itself the White Man's BIBLE and its religious creed is known as CREATIVITY. Its organization is known as the CHURCH OF THE CREATOR and its members are CREATORS.

End of review. I don't know how much space you wish to use, but the review could stand on its own after any of the three paragraphs. I would be pleased to receive a copy of your newsletter containing the review.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Phil Reynolds October 18, 1976
Van Nuys, California

Dear Mr. Reynolds:

Thank you for your letter of October 15 and the $3.00 enclosed. A copy of NATURE'S ETERNAL RELIGION is on its way to you.

No, I did not make the discovery in Southern California that Christianity is the worst plague ever to hit the White Race. If you will read Chapter 22, Part II of NATURE'S ETERNAL RELIGION, entitled "My Own Spiritual Awakening", you can trace the story of how my thinking evolved over a lifetime — much of which was dedicated to searching for better answers. I think it is an exciting story culminating in a breakthrough — CREATIVITY — a powerful new religion for the White Race.

I resent your last paragraph. I think it is stupid and uncalled for. In answer, I will return tit-for-tat, and say to you "I hope you are not a buck hungry White freedom reader pimp, who, like the rest, does nothing!" Well, are you?

Might I say that I have a sum in the five figures invested in producing the book. I doubt whether I'll ever get my investment back and I don't care. What I do want, more than anything, is to wake up the White Race and straighten out their thinking. When we can get 10 million copies of NATURE'S ETERNAL RELIGION into the hands of our White Racial Comrades, we can consider the battle against the Jews, niggers and mud races as good as won. What a bargain that would be for the White Race! When you consider that

we spend more money in half an hour subsidizing the shiftless niggers than it would cost to place those 10 million copies, you get an inkling of the bargain I am talking about. That is my life's goal. You can help by distributing as many copies of NATURE'S ETERNAL RELIGION as you can afford. I hope you will get with it.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

November 2, 1976

Dear Bill:

Thank you for your letter of October 25th and also the tape, giving your speech at the Introductory meeting. I appreciate both.

By the way, did you get my record, SURVIVAL OF THE WHITE RACE, I sent you about six weeks ago?

I listened to your cassette with interest and attentively. In fact, I played it twice and took notes. What I have to say is only one man's opinion and does not imply either inferiority or superiority of one opinion over the other. I am not sure whether I am even doing any good by voicing my comments, but in any case, I want to assure you that they are given in an attitude of being constructive to a White Racial Comrade, and the best interests of the White Race. I hope they will prove to be so.

Hoping you will accept them in this spirit of constructive criticism, I suggest the following comments.

I find the ideas expressed rather puzzling and too vague for the ordinary White Racial Comrade to understand, and they even leave me confused. In fact, I am not clear on many of the concepts myself because they are too much in the realm of obscurantism, much as the Christian church has used to confuse and to awe its subjects.

For instance — starting with the Affirmation, which seems to be the basis of the whole speech or concept: What is THE WHOLE? What, or who, is the CREATOR? What is the SELF-CREATED? What is the CREATOR'S purpose? How do you know? What is the path of divine consciousness?

Are we talking about Nature and the universe as a whole? Or are we talking about a supernatural spirit, a God, a concept as ambiguously portrayed by the Jewish bible? Are we talking about a vague God as does the Church of Religious Science whose God is spread all over the universe like the ether and just as vague and undefined?

Perhaps you purposely introduce a sort of mystic hocus-pocus

to give your message a religious flavor. I don't know, but if so, I think it is completely redundant and unnecessarily adding confusion to minds that are already overly confused.

Your total speech does not resolve the basic questions I have posed. It seems to me it makes the issues extremely complicated when they are, in fact, fairly clear and simple. Basically, the issue is the SURVIVAL, EXPANSION AND ADVANCEMENT OF THE WHITE RACE. It comes in this order of progression. THE JEW IS THE ROOT OF ALL EVIL and is destroying the White Race. In accordance with the Laws of Nature we must destroy our enemies and recapture control of our own destiny.

This is the basic start and the all-important hurdle. Unless we do that, we can forget about building for eternity, about developing the superman and "beyond".

Nor is this as tough and impossible as you portray. We have, in abundance the wherewithal to do it. To start with, there are 500 million of us White Racial Comrades and we outnumber the Jews 20 million (presumably) in a ratio of 25 to one, fairly decent odds. We are more intelligent than the Jews. True, they've got the jump on us by about two or three thousand years, when they harnessed religion to their advantage and for our destruction. But there is no law in Nature that says we can't do the same.

And this is what I have set out to do in CREATIVITY. In Creativity, I believe we have the whole ball of wax. We have the FINAL SOLUTION, the TOTAL PROGRAM, the ULTIMATE CREED. Not that we can't embellish and improve it from time to time in the regular evolutionary process. But what I am saying is that the basic idea — the foundation — is all there. It is not vague, it is not complicated, it is not an impossible chore.

Basically, it is just a matter of straightening out the White Man's befuddled thinking — at the root of which is Jewish Christianity. Until we have ridded him of this Jewish poison, there is no hope he will ever be able to approach the problem rationally.

In your dissertation, you take a "yes, we do — no, we don't" attitude towards Christianity, towards gods, the supernatural and all the hocus-pocus that has so long plagued the superstitious and the gullible. As well-trained as I am in these matters, I am completely unable to determine where you stand in regard to the supernatural and the Laws of Nature.

Let me report that they are not the same. About Nature, and her laws we understand a great deal. As a professor of Physics, I hardly have to point this out to you. About spirits, demons, gods, spooks, gremlins, witches, devils, etc., etc., we know absolutely nothing, haven't the faintest shred of evidence they exist. As a consequence, we can logically conclude that they are non-existent and

maintain such position until some meaningful evidence to the contrary should emerge, if ever.

Some of the other hypotheses I disagree with are:

1. We should forget about happiness and concentrate on greatness. Not so. The pursuit of happiness in my mind is the No. 1 objective and the point is by intelligently following the Laws of Nature we can be both great and happy. By allowing ourselves to be thwarted (by Jewish influence) in our natural instincts, we will be neither great nor happy. The two go together. I am not against temporary sacrifice, deferring the rewards to the future — but to eternity? No.

As I see it, we have to work like hell — NOW — to so much as survive. If we don't survive the present generation there is no future. We have to recapture control of our own destiny. Once we have done that much the program of upgrading our race to improving the environment, earning a living, etc., will be child's play.

2. Your appraisal that it is a long and complicated conquest of an entire hostile world. Not so. The White Race is ten times more powerful than all the rest of the Jews, niggers and mud people put together. True, they are confused, and befuddled, but their instincts are still there and instinctively they are 100 per cent with us. Their minds need to be freed from Jewish Christianity and Jewish poison. This could go real fast, as witness what happened under Hitler in Germany within 13 years. If we got 10 million copies of NATURE'S ETERNAL RELIGION into the hands of our White Racial Comrades, the battle would be well on its way to victory. This would take only a relatively small and inexpensive effort when we compare the millions of dollars we dish out to the shiftless niggers every hour of the day.

3. The analogy of people thinking of nothing but filling their bellies is not really approp'. The White Man is extremely capable of producing a super-abundance of goodies for his own welfare and planning ahead. As I stated before, he is, at present, drugged by Jewish propaganda and strangled by Jewish red tape. This he has to throw off. Once he has done that, he will be off and running, improving his race, ushering in the era of the superman and wonders that we can't even imagine today.

4. Planning for eternity. Not so. The immediate future is most critical — the next five or ten years. Once we have wrested control of our own destiny from our Jewish slavemasters, as far as I am concerned, the White Race will instinctively perform beautifully, especially with the help of a basic racial religion such as CREATIVITY. As you know, we are not going to be here in eternity — not we — not the White Race — and not even life itself. In another five billion years, even the sun is going to be an ice-ball and life from this earth will

have vanished long before that.

5. Dedication to truth is a virtue in itself. I don't agree. I agree with the Protocols and the Laws of Nature that THE END JUSTIFIES THE MEANS. In warfare we use surprise, espionage, deception, killing, cruelty, mass bombings, secrecy — in fact, any and all means in order to win and survive. Nature's creatures use similar tactics — subterfuge, surprise, quietly stealing up to the unsuspecting prey, striking without warning (like a rattlesnake), setting booby traps (like the fly plant), etc., etc. Nature tells all creatures clearly to survive by any means available, no holds barred, and I read her message, loud and clear. I would not endanger the survival of my race in the fight against the perfidious Jews in order to uphold the ephemeral principle of "truth", which at best if a controversial question of "Whose truth?" No, in the battle we are forced to fight I will follow Nature's instructions and use every means at my disposal.

6. "Jesus died fighting the Jews." There is no evidence that such a person as Jesus Christ ever lived, being a concocted Jewish invention after the supposed event. If we take the main and only source — namely the Jewish bible — at its word, then Jesus himself was a Jew (Luke 2:21). He came out with a lot of silly double-talk including the following: "I am not sent but unto the lost sheep of the house of Israel."

Why promote this Jewish invention as if he were a fighter on our side?

In short, Bill, I am as confused as ever as to where you stand about Christianity, gods, demons, spooks in the sky and the whole bit about the world of the unreal and supernatural.

You are, of course, free to espouse whatever philosophy you see fit and I am sure you will. However, it is my fervent hope that you will join with me in destroying the Jewish hoax of Christianity that brought down the great Roman civilization and again help straighten out the White Man's thinking, cure him of superstition and gullibility, bring him back to reality and face those healthy inborn instincts that Nature gave him.

This, I believe, is the first prerequisite of winning the battle, one we cannot bypass for eternity, one we cannot even delay until tomorrow. I hope that you will help instill Racial Loyalty to the White Race, downgrade the niggers and keep hammering away at the basic evil, which is the Jew. I know you are doing that, but the way you are doing it reminds me of a joke we used to kick around when I was in the Florida Legislature — "Your point is so subtle, it completely escapes me."

I regret that I have dwelt so much on the negative, when there are a lot of positive ideas that deserve commendation, such as your observation about the Constitution, the Kosher Konservatives in

church and many others. Above all, I think the newspaper ATTACK! you are putting out does a superlative job.

My own program is going along, but not as well as I would like it. I have several groups going in Texas, Colorado and elsewhere but it is hard sledding. I am still waiting for the financial picture to resolve itself before I go full steam ahead. If and when that will be, only time will tell.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. John W. Gerhardt II
American White Nationalist Party
Columbus, Ohio

November 2, 1976

Dear Mr. Gerhardt:

Your letter of October 24th raises many interesting issues, all of which I would like to respond to, but due to space limitation, will do the best I can.

As you say you are not quite finished reading NATURE'S ETERNAL RELIGION. When you do, I will be most interested in your comments, and you can go chapter by chapter, if you like, or any other way. You can make it as comprehensive as you like, I will gladly read it all and take notes. Now to answer some of your questions.

CHRISTIANITY AS A JEWISH TOOL TO DESTROY THE ROMAN EMPIRE AND THE WHITE RACE IN GENERAL. I have reached this conclusion from a comprehensive study of Roman history and the course of Christianity since its inception. The conclusion is pretty obvious. An analogy might be the situation where a massive damn breaks and washes out the town of Podunk, destroying the people in it and washing away the buildings and improvements. It is a fair conclusion to say the destruction of Podunk was caused by the break of the damn.

So it is with Christianity and the great Roman civilization. The facts of history are that the Roman civilization flourished and had reached great heights by the time of Caesar Augustus whose reign spanned the period 27 B.C. to 14 A.D. For approximately two centuries ensued a period of peace, progress and prosperity, known as Pax Romana, the longest such period of well-being in human history. True, there were minor disruptions during this period but not of any major threat to the path of progress on which the Romans were embarked.

Some of these disruptions were the Jewish wars. One, approximately 68-70 A.D., during which time Jerusalem was leveled to the ground and another rebellion led by Bar Kokhba against Emperor

Hadrian between 132-135 A.D. Both of these revolts ended in catastrophic military defeats for the Jews, but sharpened their determination to destroy the Romans by unhinging their minds. The bloodthirsty Jews thirsted for revenge. They concocted a suicidal religion with which to unhinge and warp the minds of the Romans. Even this they did not have to INVENT from scratch, but only ADOPTED and tailored from the existing Essene creed as I explain in Chapter 16, Book I.

I have a large volume (over 2000 pages) called "The New Standard Jewish Encyclopedia". It is written by the Jews, for the Jews only, and is solely directed to those people's issues and events that are important to Jewish history. Here is part of what they say about Christianity:

> "The Christian religion grew out of Judaism. Jesus and all his followers were Jews: so was Paul, the architect of Gentile Christianity, and according to some scholars, the Jewish origin of many Christian doctrines has been illustrated by the Dead Sea Scrolls. The Christians regarded the Hebrew Scripture as authorative. The Church was a natural outgrowth of the Synagogue."

There is much more, but it all adds up to what I have been saying — Christianity is a Jewish creation. History shows the Romans bought this garbage and their whole civilization, their Empire and their noble race went down the drain. To me the cause and consequences are as plain as the dam and the flood.

A further piece that tells the story better than I can tell it is told by the Jew — Marcus Eli Ravage. Enclosed is his boastful expose'. It tells beautifully the devastating effects Christianity has had on the Romans and the White Race ever since.

Your contention that Christianity has been hostile to Jewry from time to time is true. But that does not ameliorate its deadly effects, no more than that of the medical profession (presumably) has been hostile to cancer, but nevertheless, cancer is still with us and its damage to us has been devastating, just as Christianity.

Well, this is getting too long. I think, if you will read and re-read NATURE'S ETERNAL RELIGION, the evidence it piles up is overwhelming. Let me say that unless and until we purge the minds of our White Racial Comrades from this Jewish scourge, we will be forever helpless and incapacitated to think straight or to overcome the Jewish stranglehold. And the only way to overcome this mind-crippler is to replace it with a healthy constructive religion based on our sound instincts and the laws of Nature.

In CREATIVITY, we have such a religion — we have the FINAL SOLUTION, the TOTAL PROGRAM, the ULTIMATE CREED. If we can place ten million copies of NATURE'S ETERNAL RELIGION in the hands of our White Racial Comrades, we will have broken the

back of the Jewish conspiracy and will be well on our way to winning the battle against the Jews, niggers and mud races.

What a bargain this would be for the White Race when we consider we are looted for more than the price of the ten million books every hour just providing welfare for the shiftless, but rapidly breeding niggers.

So, I would like to see you get behind this program of proliferating the White Man's Bible, NATURE'S ETERNAL RELIGION. It is the best weapon for laying a SOUND FOUNDATION for a RACIAL RELIGION for all time.

As far as your offer of mailing out the flyer, I am inclined to decline at this time. I have a party mailing out 5000 of them at this time. I want to see how productive that effort will be before pushing that route further. It appears to me that our ideology and program is so drastically different from what the Jew-polluted mind of the average yokel is used to, that the person to person approach is essential.

Regarding your comments about White Nationalism, I must repeat that I am convinced that the very term Nationalism is divisive. If I am going to be an American Nationalist, then I must also accept Jews, niggers, Indians and all the other parasitic mud races as my Nationalist comrades and must per se, be jealous in guarding AMERICAN interests against Canadians, Germans, Swedish, etc. interests, and must, in fact, be hostile to my White Racial Comrades who are not American Nationalists. This to me is insane. As I state so clearly in the Chapter on "Your Loyalty — A Sacred Trust", your loyalty belongs to your race, not the artificial designation of your country. Anyway you look at it — nation is tied to country, not race. Therefore, Nationalism is tied to the real estate you happen to reside on, and the artificial boundaries that encompass "your country". Frankly, I believe I have a thousand times more in common with a White Australian 12 thousand miles away than I have with an American nigger who lives across the tracks one mile away.

Read again the above mentioned chapter and also the chapter on Racial Socialism. Also pages 312-314 on Adolph Hitler.

So much for now. Do you have my record, SURVIVAL OF THE WHITE RACE? If not, I hope you will avail yourself of it. It has proven to be a powerful tool for recruiting.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

E. V. Johnson **December 8, 1976**
Craig, Missouri

Dear Mr. Johnson:

Thank you for your letter of November 3rd; also, for your check in the amount of $10.00. It is gratifying, indeed, that our book, NATURE'S ETERNAL RELIGION, which we call the White Man's Bible, has had a significant impact on your thinking. I hope that IMPACT will be translated into ACTION.

The questions you ask cover a wide range of literature and I am not prepared to go into that much detail in this letter, other than superficially.

Regarding the Jewish invention of Christianity in order to destroy the Romans, I am enclosing an excellent article by Marcus Eli Ravage, who has stated the case as succinctly as anyone I know. The great historian, Edward Gibbon, in his great epic, THE DECLINE AND FALL OF THE ROMAN EMPIRE, stated it two hundred years ago. However, it is so hidden that the average reader would miss the point. I have a book called HITLER'S TISCHGESPRACHE (Hitler's Dinner Conversations), in which he states that Christianity destroyed Rome. I also have THE NEW STANDARD JEWISH ENCYCLOPEDIA (two thousand pages), which is written by the Jews exclusively for the Jews. It says the same thing. Another book I have is DIGNITARIAN WAY, by A. U. Brown, which comes to the same conclusion as I do in NATURE'S ETERNAL RELIGION. The book is out of print and was sent to me by one of my readers. There are more, especially in German, that I have.

However, oddly enough, I had read none of these books before I wrote NATURE'S ETERNAL RELIGION, but rather came to the conclusions that I did, purely on my own. This was from a broad study of the Jewish problem, from my own experience, from the events of history over the last two thousand years, and especially, after a thorough re-reading of the New Testament. As soon as I got to the Sermon on the Mount, the whole picture came into focus like a "revelation".

Regarding Jewish creation of Freemasonry, this is strongly brought to light in the PROTOCOLS OF THE ELDERS OF ZION, as well as other articles, pamphlets, etc., too numerous to mention. I have copies of the PROTOCOLS in full if you want them ($1.00 each).

Regarding the White people being the Lost Tribes of Israel and all the rest of that garbage, the whole idea is so ridiculous, that anyone with a smattering of history can't help but laugh at the idea. It is furthermore my contention that the so-called Jewish history as

related in the Jewish Bible is 99 percent fiction, and that there never was any Abraham, Isaac and Jacob.

It is my suggestion that we, the White Race, stop wasting our time on running down a host of silly lies the Jews have inundated us with, and, instead, spend our energies constructively, on building up a WHITE POWER STRUCTURE. This should polarize around a RACIAL RELIGION, such as I have set forth in NATURE'S ETERNAL RELIGION. Too long we have frittered away our time and energies chasing pointless will-of-the-wisps, worshipping (non-existent) spooks-in-the-skies and other similar nonsense, while the Jews are fanatically WAGING A WAR of extermination on the White Race.

It is time we get down to brass tacks, and do some powerful, meaningful things. You can start by promoting and distributing the White Man's Bible, NATURE'S ETERNAL RELIGION. We also have an excellent promotional aid, a 40-minute LP record, SURVIVAL OF THE WHITE RACE ($5.00). Enclosed, also, is our flyer, Questions and Answers About CREATIVITY, that lists other aids.

As I said in the beginning, WE NEED ACTION. Ideology without action is sterile.

For a Whiter & Brighter World
Creatively yours,
B. Klassen, P.M.

To the Editor
The Spearhead
Middlesex, England

December 15, 1976

Sir:

One of your members sent me a copy of SPEARHEAD (October) No. 98, and I read, with considerable interest, John Tyndall's article on Christianity. Since I have made a life-long study of religion as such, and since my own religion, CREATIVITY, is strongly pro-White, racist oriented, I would like to express some comments on Mr. Tyndall's article.

Much to his detriment, Christianity has been almost exclusively the White Man's religion for somewhere over fifteen hundred years. But it is Asiatic and Oriental in origin, alien and repugnant to the innate soul and spirit of the White Race. It originated with a small sect of Jews in Palestine sometime between 100 B.C. to 100 A.D. It made inconsequential progress among the Jews themselves and was considered as a destructive and subversive creed by the mainstream of Jewish leaders. The small band of Jewish Christians were even persecuted by the Jews, including one Saul of Tarsus, a Jew, who later became the Christian's St. Paul. While engaged in

persecuting Christians, he conceived the brilliant idea of humbling and destroying the great Roman Empire with the suicidal Christian doctrines of "love your enemies", "turn the other cheek", "sell all thou hast and give it to the poor", "resist not evil", "judge not", and other self-destructive ideas. Since Judaea was then at war with Rome, this soon became a full-fledged campaign, enjoined by the total Jewish race, which was spread throughout the Roman Empire and heavily concentrated in Rome itself. So successful were the Jews in selling this suicidal creed to the hated Romans that the great empire, which had subjugated Palestine and most of the then-known world, collapsed in a heap of ruins by the year 476 A.D.

The Jews had their revenge. What they could not do by force of arms, they succeeded in doing by force of religious propaganda. This deleterious affliction of the mind soon spread to the rest of the White people of Europe, and soon plunged that unhappy continent into a thousand years of the Dark Ages, a miserable millenium during which the people wallowed in superstition, poverty and ignorance, strife, turmoil and confusion.

The blame can be laid directly to the suicidal teachings of Jewish Christianity itself. Endless religious wars and persecutions ensued as a result, a situation that is still going on in Ireland today. The civilization we have reconstructed since the Dark Ages owes less than nothing to Christianity but is inherent in the genius of the White Race itself. We have built what civilization we have not because of Christianity, but in spite of it. Christianity has produced great and lasting damage to the White Race and in modern times has been a forerunner in softening up the White Race to the evils of race-mixing and communism.

In my book, **NATURE'S ETERNAL RELIGION** (508 pages), I have set forth the whole story which is too long to relate here. I am sending you a copy under separate cover. Also enclosed herewith is an article by Marcus Eli Ravage, himself a Jew, published in 1928 in the now defunct Century Magazine in which he tells the same story more dramatically than I have been able to relate in this limited space.

Sincerely,
Ben Klassen, P.M.

Dr. L. E. Doussy
Pretoria, South Africa

January 6, 1977

Dear Dr. Doussy:

It was good to hear from you again. Your donation of $20.00 (U.S.) arrived safely. Thank you very much.

On January 5th we shipped a carton of eight books, and one 40-minute record, SURVIVAL OF THE WHITE RACE, a new addition we have to our materials. Also enclosed is one of our new flyers, Questions and Answers about CREATIVITY.

We are charging $15.00 for a carton of eight now, even for shipment in the U.S. This barely pays our cost. Hence the one carton and the record. I hope the White Man's point of view is making some headway in S.A., but I guess I am hoping against the evidence. It seems that both Ian Smith and Vorster are playing the role of the shabbos-goi for the yids and are bound and determined to betray the White Man and sell him down the river. The way it looks to me, Rhodesia is headed for a defenseless bloodbath, betrayed by its so-called leaders. After that happens, S.A. cannot be far behind, what with Harry Oppenheimer and his ilk calling the shots.

Anyway, we must fight and do what we must do and hope for the best. The new record I believe should prove a considerable aid in spreading the word.

For a Whiter and Brighter World,
Creatively yours,

Mr. C. Pinder
Merseyside, England

January 12, 1977

Dear Mr. Pinder:

Thank you for your most encouraging and well-written letter of December 29th. Now that you understand the cause of the White Man's dilemma, I hope you will go to work all the harder STRAIGHTENING OUT THE WHITE MAN'S THINKING. That is really where the problem lies. As you point out, we can't really blame the Jews for acting like the parasites they are. Nor can we really fault the niggers for acting like niggers anymore than we can blame rats for acting their natural role. The area that we can do something about is to get the White Man's thinking straightened out, get him back to reality, and acting his NATURAL ROLE AS THE ELITE, the ruler

of this planet. This we can do and we must do. I believe in NATURE'S ETERNAL RELIGION we have the ULTIMATE CREED, the TOTAL PROGRAM, the FINAL SOLUTION.

I am sending you a carton of eight books so that you will have more ammunition to work with.

We have a number of workers in England, but no firm organization of a Church at this point. Members of the British Movement have been the leaders for the most part. I would certainly like to see a number of Church of the Creator groups organized. The Jews have been successful because they organized feverishly. This we must do also.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. John A. Stormer **January 12, 1977**
Florissant, Missouri

Dear John:

About three months ago I wrote you a letter in reply to your inquiry about the Church of the Creator and CREATIVITY. Also, I forwarded a copy of my book, NATURE'S ETERNAL RELIGION and our record, SURVIVAL OF THE WHITE RACE, as well as several other pieces of information.

Three months later I still haven't had a reply or an acknowledgement. I wonder why? I am disappointed. I had hoped you might attempt some explanation for the contradictions, absurdities, atrocities, broken promises, immoralities, indecencies and obscenities as pointed out in the BIBLE HANDBOOK. What about such dirty stories as David collecting 200 Phillistines foreskins to buy his bride, and hundreds of other vulgar, filthy stories involving the elite of God's chosen? Could it be that you can't answer the questions I have raised? If so, I believe it is time for you to re-examine some of your basic premises, especially the unsubstantiated premise regarding the (non-existent) spooks in the sky.

Regarding the spooks story, you are in a similar position with the same liberals and the commies whom you so ably and deservedly castigate in your book NDCIT. Like them, you have heard only one side of the story, and are most obdurate in refusing to listen to the other side, no matter how logical, reasonable or convincing that other side might be.

Now let me ask you: How would you feel if you were (wrongfully) dragged into court and the opposition ripped you up and down, and then you pleaded "Judge, please let me tell my side of the case!", and the Judge banged his gavel and remonstrated "I have made up

my mind and find you guilty as charged! I don't need to or want to hear your side."

Would you feel this would be fair? Now let me ask you a pertinent question: Isn't this exactly the bigoted, closed position you are taking on the idiotic spooks in the sky story?

Isn't your indulgence in this silly horse-play really an escape mechanism? Some weaklings seek to escape the realities of this world (the only world man has ever been known to live) by drowning their sensibilities in alcohol. Others in opium, heroin, marijuana, and other dope. They get hooked on it. In order to maintain and finance their destructive habit, they start peddling it to others and get them hooked also. Your indulgence is similar. Your escape is the fantasy world of spooks and demons, scaring the hell out of other people with hellfire and getting them hooked on this silly nonsense also. Like the dope peddler, you earn a living selling people your brand of spookcraft, hoping to get them hooked also and thereby enlarge your clientel. A pretty shoddy business, isn't it? How much more noble it would be if you could become a heroic fighter for the White Race instead.

Where, except for wild, unsubstantiated hearsay, is the evidence for all your silly claims?

Enclosed is another small booklet that (I hope) will enlighten your thinking on the subject.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. & Mrs. Mike Breda
Pasadena, Texas

January 21, 1977

Dear Mike and Mary:

It was good to hear from you, since I wondered what had happened. However, I was very sorry to hear that the news was mostly bad. Were both of you involved in the automobile accident, or just one? Either way, it is most unfortunate. Mike, I hope you have latched onto another big project by now. Dedication to the cause is much to be admired, but earning a living and eating is still the basic prerequisite in order to be able to function at all. I am sure your tremendous energy and resourcefulness will see you through.

Regarding the Ordination applications, I enclosed four copies with my first letter, which came back unclaimed. I then sent the same letter to you again (with a note) to see if it would get through, but did not enclose the applications the second time. I am enclosing them now.

As far as dating them is concerned, you can date them as you

see fit, and I will date your Ordination Certificate accordingly, since timing seems to be important. Regarding a picture with the neck brace, that's perfectly all right with me, but if timing is important, this might be a clue to dating, if it should come to a showdown.

Enclosed are samples of our new Bookmarkers. I would like to see them distributed at random by the thousands. They are inexpensive (100/$3.00), permanent, and on the face of it, not controversial, but rather excite curiosity to find out what the book is about.

I hope your situation has improved by now and you are both functioning like when I last saw you. Best wishes to you both and also to the group of fine people I met in Houston on my last visit.

Mr. John W. Gerhardt, II **January 21, 1977**
Columbus, Ohio

Dear Mr. Gerhardt:

Thank you for your comprehensive letter of January 8th. You bring up a number of subjects that are covered in NATURE'S ETERNAL RELIGION and some of them I am not quite sure which side you are on. However, I would say in general that we are in agreement on most major issues.

It seems that on the subject of Christianity, the soul, heaven and hell, the "hereafter", (whatever that is) there still exists some confusion in your mind. Regarding the booklet "Where is your Soul after Death?" the question is something like what happens to Quantity "X" after it has left Quantity "Y". In the first place we know nothing about "souls" as separate entities existing outside of live bodies. We don't even know whether the "live body" has a "soul", except that it has life. We don't even know exactly what life itself is. However, nobody who is not an escapee from a nut-house has ever really seen, heard, felt or smelt a "soul" flittering around, thinking, talking, performing mischief, or anything else, where such soul was outside and independent of a live body. Now really, have they? So to ask where it goes after death, is to me, a pointless question, meandering in the realm of superstition and fantasy.

So my answer to the pamphlet is: **IT'S A LOT OF NONSENSE AND HOCUS-POCUS.**

Which brings us to the subject of the Jews and the Khazars, about which you observe that modern Jews for the most part are not descended from Israel-Judah of the bible. True, I agree. Approximately 90 per cent are descended from the Khazars and I so state

in my book. But as to whether the other 10 per cent are “genuine” Israelites descended from Abraham, Isaac and Jacob is a subject that irritates the hell out of me. In the first place the Jews are the most notorious liars in the world, and their “history” as portrayed in the Old Testament is no history at all, but mostly a jumble of lies and confusion. Chances are a million to one there never was any Abraham, Isaac or Jacob, or Judah for that matter, and I couldn’t care less. There is no historical confirmation to that stupidness anymore than the existence of the Pink Rabbit in Alice in Wonderland.

Secondly, if their wild myths were true, these characters they claim to be descended from (as I point out in my book) are a bunch of lecherous, treacherous murderers and moral reprobates. It therefore amuses and also irks me when these “Identity” peddlers try, through the most strained acrobatics of “reasoning” to convince us that we, the White Race, and not the Jews, are the “real” descendents of Israel. How lucky can you get? How stupid can you get? I'd rather have a long string of horse thieves in my genealogical line than those depraved characters eulogized in the Old Testament.

On most other items mentioned in your letter, I agree, including education. You put it succinctly: action unless based on education, is futile; education, unless converted into action is useless. In my book on the bottom of page 493 I say: IDEOLOGY WITHOUT ACTION IS STERILE. I have heard a lot of people say — “Oh we need to have a revolution before people will wake up and take action”. This is a lot of nonsense. A mass of confused people in revolution are the Jews’ greatest asset. Knowing what the score is, they can then incite the people to kill off each other, like in the Russian revolution. So my answer is: First of all you have to have an intelligent, fervent goal and with it a plan in order to accomplish that goal. This is called a CREED. Secondly, you have to have the mass of the people united and polarized around that same creed or religion. From there on out you have it made and you easily launch into the third phase — organization and accomplishing said program. In CREATIVITY, I believe we have the ULTIMATE CREED, the TOTAL PROGRAM, the FINAL SOLUTION. That is why I keep saying that if we can get ten million copies of NATURE’S ETERNAL RELIGION distributed to our White Racial Comrades we have it made. What a bargain that would be for the White Race! When we consider we are being looted by the hour a greater cost just subsidizing the shiftless niggers than the cost of ten million White Man’s Bibles. Motivation, organization, action will long have preceded the realization of that number. But initially WE HAVE TO GET THE IDEA BROADCAST, and THAT

any individual can do with a minimum of risk or sacrifice.

So much for now. Let me hear from you again soon.

Mr. Lewis Moore
Sacramento, California

February 9, 1977

Dear Mr. Moore:

In reply to your letter of January 26th, I must say that I have never met Mr. Madole, head of the Renaissance party. I have talked to him on the telephone a few times and subscribe to his Bulletin. Therefore my appraisal is limited mostly to the Bulletin.

For awhile he seemed fired up about adopting CREATIVITY as their religious creed and promoting our White Man's Bible, NATURE'S ETERNAL RELIGION. Then he reverted back to all this hocus-pocus about Atlantis, the Hindu religion and lots of other useless dream-world fantasies. As far as I'm concerned this kind of fantasying is as unreal as the spook-craft put out by the Jewish-Christian crowd and does not bring the White Man any closer to facing and solving his real problems of surviving in a hostile world of Jews and mixed races.

Other than that, many of his racial ideas are good and coincide with ours. One big difference is that we make the survival, expansion and advancement of the White Race the central core of our religious movement and attack Christianity head on, whereas Madole's position on Christianity and religion are somewhat ambiguous and muddled and he approaches the problem from a political aspect without ever clarifying his position towards that most vicious of all mind-bogglers — Jewish Christianity.

I hope that this will help resolve some questions that you have had. Furthermore, I hope that you will now enlist your energies toward our great cause — the survival, expansion and advancement of the White Race.

Enclosed is our latest flyer, Questions and Answers, that will further help to answer any questions that you may have had about CREATIVITY.

Mr. John Steward **February 25, 1977**
Inglewood, California

Dear Mr. Steward:

In reply to your letter of February 19th, we are enclosing in duplicate an application form for becoming a Minister of the CHURCH OF THE CREATOR. Please return one copy to us with a passport type photo attached and keep the other one for your records. I appreciate your zest and enthusiasm to do your part in the fight for the SURVIVAL, EXPANSION AND ADVANCEMENT OF THE WHITE RACE. We need a million more men like you.

I have been giving your exclusive territory idea considerable thought and I believe it is premature and unrealistic at this time. As you know we preach the Leadership Principle with a line of command from the top, like I.B.M., or the Kehilla, or Catholic Church, or the army. The principle has been well understood and used for thousands of years and is really the only effective, viable system. The Jewish dissemination of the treacherous "democratic" idea, which really means mob rule, is what has fouled up the organizations, governments and institutions of the White Race for the last several hundred years, much to our detriment.

We not only preach the Leadership Principle, but we mean to practice it. As you will notice in the last paragraph of the OATH OF LOYALTY, should your performance not prove satisfactory you agree to be removed from your position at any time by your superiors. In view of this (and several other factors) it would be meaningless and contradictory to guarantee you a territory the size of California in perpetuity. The idea rather is for every man to do the best they can and discover who is most successful from results. For instance, your friend Harry Barton, who I understand lives 20 miles away, may want to start his own church. He also wants to be ordained and I am happy to learn this. He already has made a nice investment in books, records, flyers and materials. He may or may not prove to be more productive than you. Only time will tell. Once we have some experienced activists and the wherewithall, we can then do some meaningful organization on a state level, and national level and finally worldwide.

In the meantime I have an organizational structure set up on paper based on the Kehilla system, only in stages of tens. All titles have Latin names, so that the system can be universally applied on a worldwide basis.

Regarding sabotage, dissention, infiltration, etc., I am only too well aware of these dangers and my book is full of exposing the Jewish techniques. This is a well known danger that we constantly have to be vigilant about, but we will not avoid it, and giving you an exclusive

franchise at this point would do nothing that I can see to ward it off. First of all we have to have a sufficient number of troops in the field before we have anything to organize. Then the leadership and responsibilities will be determined solely by merit and performance. This is the only way an efficient organization can be built. Unfortunately at this time we have very few material resources to work with except the most powerful idea in the world that I am confident will revolutionize the world, once the idea gets rolling.

It is your responsibility to help get the ball rolling.

At this point everybody that helps spread the idea — by distributing books, records, flyers, bookmarkers, by talking about CREATIVITY to every White Man or Woman they meet, and best of all by recruiting members and organizing is doing yeoman work in the fight for the survival of our precious race. If we could get 10 million copies of our Bible placed in the hands of our White Racial Comrades the battle against the Jews and the niggers would be as good as won. Organization will follow as we get followers — first we have to get the idea disseminated. PROPAGANDIZE, PROSELYTIZE, AND ORGANIZE. At this point of our development anyone who distributes the books is performing a constructive service to the expansion of our movement.

I am sorry that I can't come to California at this time and talk to all you good people. It costs a lot of money to travel and at this time I am trying to get enough together to establish a home base here in Broward County. We are just starting, but in the end we will conquer with our idea. In CREATIVITY, I believe, we have the ULTIMATE CREED, the TOTAL PROGRAM, the FINAL SOLUTION.

I am sending a copy of this letter to Harry Barton, since I would like to have him share many of the ideas that I have included in your letter.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. L. O. Kimberly
National Park Service
Naples, Florida

March 1, 1977

Dear Mr. Kimberly:

In response to your letter of February 4th, we have co-operated with Mr. Paul Hoy in the past and we will co-operate with you in the future, up to a limit. The limit is reached when we are asked to cut our own throats. This we will not do, even at the point of a gun.

We can comply with points No. 1 and No. 2 mentioned at the

bottom of your letter. We are enclosing under separate cover, (1) the total number of outstanding unrecorded land contracts, (2) the legal descriptions of each tract corresponding to be tract numbers.

We are even going further than that. We are giving you a breakdown of how the purchases are grouped, i.e., if party No. 1 bought lots No. 1 and No. 9, party No. 2 bought lots No. 2, No. 3 and No. 4, etc. This will give you sufficient information as to what size of acreages etc., the purchases were, to enable you to make your appraisal.

When it comes to giving you the names and addresses of each contract purchaser and copies of their contracts, you are pushing us over the brink where we are asked to commit suicide, as far as business holdings are concerned. This we will not do and no person in their right mind would think of making such an outrageous demand.

We are not so naive not to know what you will do to our paying customers as soon as you get possession of their names, addresses and telephone numbers. We know you will immediately set your treacherous, underhanded, boiler-room boys on the telephones and brow beat our customers, lie to them, tell them their land is next to worthless, that they have been swindled, and malign and assassinate our good name. You will even terrorize our customers with thinly veiled threats that if they don't agree to your offer, you will "send the Justice Department after them".

In short, you will try to steal the land from them at as far below market price as you can bluff and beat down that price. This despite the fact that the market price has been firmly established over a period of many years and by hundreds of customers. We have given you those prices, in a previous mailing, on each individual lot in our main subdivisions, namely, Palms Parkway Ranchos No. 1, Pines Parkway Ranchos No. 2, Palms Expressway Ranchos No. 3, Pines Expressway Ranchos No. 4. What with the grouping information, the lot numbers and the legal descriptions we are giving you, you have in fact all the information you need to make a proper appraisal, if that is really what you wanted to do.

But making an honest appraisal is not really what you want. What you want to do is harass and brow beat our customers and try to build a specious case that they are "uninformed buyers". This despite the fact that most of our customers have been on the property itself a hundred times more often than your so-called "professional appraisers". The net result as far as our accounts receivable are concerned is that they will be torpedoed when your boiler-room boys go to work on them.

This will in effect destroy our business, a business that we have built up over a lifetime, and leave us with little, if any, income. In

otherwords, we are asked to collaborate with you while you are preparing to cut our throats. We are supposed to collaborate with you in our own destruction.

What I am referring to is no idle theory. We have received enough information and feedback from our deeded customers and those of other sub-dividers, to be only too well aware of the sleazy tactics that emanate out of the "Land Acquisition Office" in Naples. Land Pirating Office would be a more fitting description. I have pointed all this out to you before in our telephone conversation, and also to Mr. Paul Hoy, when he visited our office.

Mr. Kimberly, I was born in Russia at the time of the Communist revolution. The Communist took all of my family's property away by brute force and terror and we fled destitute from that country when I was six years old. But I haven't forgotten.

In Russia, in taking the land away from "the peasants", the Communists were somewhat crude in their methods, but very effective. They rounded up the land owners and clubbed them into cattle cars. Then they shipped them seven or eight hundred miles up the line and set them adrift in some desolate spot. The government then took their fertile land and turned it into collective farms, or in some cases, "gulags" or huge concentration camps.

Here in America our tyrannical government is going about it much the same way. It is only a little slower and much more subtle. Here it takes most of the productive people's money away by confiscatory taxation, then uses their own money to take their lands away from them. This is exactly what is happening in Collier County.

The whole pretext that we "need" more land for the snakes and the alligators is preposterous, unless of course, you believe that snakes and alligators are more important than people. Strangely enough, there are many people in and out of government, ecomaniacs and other idiots, who do believe such. Strangely their heart bleeds for these snakes and alligators and they are always willing to sacrifice more land for them, but strangely, it is always the other fellow's land, not theirs.

However, these misguided fools are not really the prime movers of these huge government land acquisitions, but merely the tools and visible noise makers for "the cause". The real movers are insiders behind the lines who couldn't care less about ecology, birds, snakes and alligators. The real powers behind the scenes want the government to steal that huge fantastically valuable tract of land, put it into cold storage for awhile, then sell it to them at a ridiculous bargain so they can then develop it and make billions. And that is exactly what will happen.

Considering that we already have more than a million acres set aside for the snakes and alligators in the Everglades National Park,

and another 800,000 acres in the adjoining Flood Control District, the addition of another 560,000 acres of good usable land (for people that is) is preposterous. Nor does the "Watershed" theory hold water on close inspection. The whole acquisition is a bold, brazen fraud, a piratical land grab, backed up by the manipulated press to beat the little fellow out of his hard earned land.

In a government that is growing more tyrannical and mad with power, the only protection we have is the Constitution and the Bill of Rights, if we still have that. Article V of the Bill of Rights says "nor shall any person be deprived of life, liberty or property without due process of law; nor shall private property be taken for public use without just compensation". Article XIV says "nor shall any state deprive any person of life, liberty or property without due process of law" — "nor equal protection of the laws".

When you demand or threaten that you will cause the Justice Department to demand that we turn over the names and addresses of our customers, you are indeed violating our civil rights, to wit: (a) you are violating the Fourth Amendment which guarantees "the people being secure in their persons, houses, papers etc., against unreasonable searches and seizures shall not be violated". You are violating the Fifth and Fourteenth Amendment in depriving us of property without just compensation by destroying our accounts receivable before we have even been given any assurance of what price the property will be bought at, when the property will be bought, and paid for, or in fact if it will ever be bought at all. In the meantime, you have in fact, ruined our legitimate business, destroyed our means of income and our livelihood and not given a single penny in compensation, nor even made a commitment to do so.

And in this kind of brazen robbery against ourselves you demand and threaten that we co-operate. Well, the answer is emphatically no, not as long as we are still capable of fighting.

We have put roads into our sub-division, we have surveyed, staked and numbered the lots. They have been registered and approved by the Florida Land Sales Board and with HUD in Washington. We have belonged to the Broward Better Business Bureau for years. We have tried to treat our customers as fairly as we know how. Many of our customers have lived on the land that you now threaten to steal from them. If you want to compensate us and our customers at what is legal and customery, the going market price, then why don't you commit yourself to what your offer is? We have supplied you with all the information you need to make the appraisal. You can drive down the roads we have built and even inspect the property on site, if you wish. What more do you need? If you want to deal fairly at the going established market price, which I repeat has been well established, then, there is no problem. If, on the other hand,

you want to brow-beat our customers and torpedo our accounts receivable, destroy our business and reputation and steal our land, then we will just have to rely on the courts and do what we can to protect our constitutional rights to our property and papers.

Lastly may I add, if you don't appraise our property to be worth what was the going market, it would be only because of the cloud your own actions have thrown on the property. To dehance the value of our land because of your own actions, and then use that as a lever to steal it for less, is perfidy of the most odious type. It is insane and against all accepted civilized procedure of equity. It is like the criminal teenager who murdered his parents, and then pleaded for mercy because he was now an orphan.

In conclusion we say this, if you want to deal on a legitimate basis of established market value, which we already have given to you and you already know, we will come into your office and transact business. We will give you all the names and legals of our contract buyers, to whom we too owe an obligation to protect. But otherwise, without any commitments on your part, help you steal our property, destroy our accounts receivable and betray our customers, that we are not willing to do. Never.

Sincerely yours,

Rev. Wm. A. Burke, D.D.
Westfield, New Jersey

March 6, 1977

Dear Rev. Burke:

This is a long delayed answer to your letter of October 1st, which after a lengthy trip and piled up correspondence I never did get around to answering.

Your worst fears about that Jew-luvin' Chabez-goi Jimmy Carter are being confirmed every day now. Of course I was so nauseated by either choice that I didn't even vote. However, until the White Man gets control of his own destiny we will get exactly more of the same; blatant traitors to the White Race fronting for the bloodthirsty Jews. It's a race against time. If the White Man doesn't get his thinking straightened out soon, as I have set forth in NATURE'S ETERNAL RELIGION, he will be mongrelized and destroyed. I am not talking about centuries from now. This has to be done in the next generation.

You mention the book "Senator Tenney Report" as one you would like to have. I don't have that book but I have a number of Senator Tenney's "Cry Brotherhood". If you would like a copy of it, send me $1.00 and I'll mail you one.

I'm always glad to hear from you. Let me know what success you are having in stomping the head of the serpent.

For a Whiter and Brighter World,

Quin L. Hermann
Inver. Grv. Heights, Minnesota

March 9, 1977

Dear Mr. Hermann:

Thank you for your letter of February 13th, and your check in the amount of $25.00. We shipped all the items you ordered on February 22nd, and I imagine you have received them by now.

I apologize for not answering your letter sooner, but I was out of town at the time it arrived, and what with other stacked up mail, I got behind.

I would be interested in finding out more about how you and Mr. Gutterman are getting along in setting up a church group. Would you perhaps be interested in becoming ordained as a Minister of the Church of the Creator? If so, it is very easy and I will be glad to send you a set of application forms.

Regarding the idea of reincarnation, it is my opinion that it has no validity because I can find no worthwhile evidence to substantiate it. When a new baby is born a new life is created, and it is not the same as its parents life or its brothers or sisters. It is unique in itself, can create more new life when it too becomes a parent, but the life of that individual is a unique one-time phenomena, never to be repeated and ends upon death. I find nothing whatsoever to substantiate that I, or anyone else, lived as the same identity in some previous ancestor, or snake, or bird, or animal, as some people hypothesize. Those stories like, "On a clear day, you can see forever", etc., are pure fantasies.

Keep up the good work and keep pushing. Enclosed is our new Bookmarker (100/$3.00). They make an excellent item to hand out at random in creating orders for our White Man's Bible.

For a Whiter and Brighter World,

Mr. Clifford D. Herrington
Local Group — Rockwell
Oklahoma City, Oklahoma

March 14, 1977

Dear Mr. Herrington:

Thank you for your letter of March 3rd, and your comments on

our White Man's Bible, NATURE'S ETERNAL RELIGION. I would say that you have come a long way in the evolution of your thinking in the last two years and since the thought process is not a stagnant function, I am sure you will continue to advance, as, hopefully, should we all. I sincerely hope you will re-read the book. From your letter I'm not sure that you have entirely read it once, since you use the word "examined". In all fairness, it is such a comprehensive book that it should be thoroughly studied, not just read, once over lightly.

In my book I do not at all discredit the National Socialist philosophy. On the contrary, I highly eulogize it as the best that had ever come out and fitted the situation in Germany in the 1920's to oust the perfidious Jews from power. I also praise and eulogize Hitler as the greatest White Man that ever lived and the greatest leader the White Race has ever had. All this is true, but it still does not blind me to some of the shortcomings of National Socialism to do the job in America in the 1970's and I believe that it is here in America that the battle will have to be fought, and it will be here that it will be won or lost.

Let us be realistic. Our objective is not to resurrect Hitler nor necessarily his National Socialist party. Nor is it our objective to build a personality-cult. Remember, our task is a million times more im-portant, and it is: the SURVIVAL, EXPANSION AND ADVANCE-MENT OF THE WHITE RACE. Nothing else matters. If we do that we have solved all our problems. If we fail, we will have solved nothing, but will be miserably on our way to dismal extinction.

With this in mind, the question is, — how can it best be done, and in NATURE'S ETERNAL RELIGION, we spell out the TOTAL PROGRAM, the FINAL SOLUTION, and the ULTIMATE CREED, that goes way beyond Mein Kampf or National Socialism. We must not let hero worship blind us to some of the shortcomings of Na-tional Socialism and I have pointed them out in the book. To spell them out directly, these shortcomings are: (a) Hitler in his speeches and in Mein Kampf continually espoused and promoted Pan-Germanism, a narrow concept that leaves out the rest of the good members of the White Race. You may argue — not so, he was cham-pioning the Aryan man — the whole White Race. I have read prac-tically all of his speeches and Goebbel's Diaries and much more, and this argument just isn't borne out by the wishful thinking of his ad-mirers (and I am one). When I read Goebbel's Diaries he infers how deluded the French are (during their occupation) and if they only had known what was in store for them after the war was won. (Extinc-tion.) There is much more to confirm my argument, but I don't have the space here. (b) Hitler never exposed Christianity as being a Jewish tool with which to destroy the White Race and until this is done we can never build a truly fundamental creed for the White Race. You

can't be preaching the Jews are God's chosen on Sunday and then fight them the rest of the week. Christianity and National Socialism are in direct conflict and until that conflict is enjoined and won, you only have an incomplete half-hearted program. Again there is much more to say on this point and I say it in the book. Suffice it to say here that if you have a member that is a Christian Nazi, you have schizophrenic, a split personality with divided and conflicting loyalties, who cannot be trusted in a showdown. (c) Religions are deeper, stronger and longer lasting than political parties. (d) National Socialism, unless it squarely faces the issue of Christianity, will have the moral ground cut out from under it by the Christians every time. (Aren't we all God's children? The Jews are God's chosen! My saviour was a Jew, etc.) (e) Billions of dollars worth of Jewish propaganda has been poured out to malign and discredit Hitler and the National Socialist party. This may not be insurmountable, but it is an awful heavy extra burden that we need not carry in a struggle that is already way lop-sided against us. How much more receptive to the average White Man is the idea of CREATIVITY of a White movement fighting for the survival of the White Race without having all the rest of that Jewish propaganda to overcome.

As far as the leadership concept is concerned, I thoroughly promote it in my book as the ONLY METHOD of organization and I spend at least two chapters on it. As far as "a dedicated fanatical army of zealots" is concerned, what makes you think National Socialism has a monopoly on zealots? Certainly the Church of the Creator can in its ideology produce as many and more zealots all over the world as can National Socialism at this stage of history. As you know even the stupid Christian religion produced millions of zealots who died burning at the stake, dying for these confused and erroneous beliefs. As far as I know in America since the death of the Fuehrer, only two Nazis have died on behalf of the party, and this was from assassination, an unpremeditated sacrifice. At the same time there are thousands of White people not dedicated to anything who are assassinated by the niggers without cause each year. So I repeat — National Socialism has no monopoly on dedication nor fanaticism.

In summary, I am convinced that whereas Hitler's great genius lay in his ability to speak and move the masses, to organize, to lead, and in general as a tactician and strategist, nevertheless as a philosopher he was only mediocre, and as far as I can discern, he came out with very few ideas that were new, mostly they were a crystallization of ideas already previously spelled out by Chamberlain and others. In CREATIVITY we have a creed, a program, a philosophy and a religion that embraces the whole spectrum for all the White people of the world for the next million years. I believe

therefore that its ramifications are much wider and more comprehensive than any political idea ever espoused, and much more practical and pertinent to the times in which we now live.

Please study the book thoroughly and I am sure you will agree: we have the TOTAL ANSWER. All we need is the wherewithall and the manpower.

For a Whiter and Brighter World,
Creatively yours,

Lt-Col. Harvey N. Brown
JAGC, US Army (ret)
El Paso, Texas

March 21, 1977

Dear Col. Brown:

Thank you for your order of a copy of NATURE'S ETERNAL RELIGION and 25 Q & A. Both are being shipped today.

I agree with you about Judaism being an offshoot of Egyptian monotheism and I say in my book that the Jews didn't even invent the idea of one god but stole it from the Egyptians (page 107). I also say that the Jews invented Christianity and repeatedly emphasize that Christianity is a Jewish manifestation in my book.

However, I don't understand your statement about NATURE'S ETERNAL RELIGION "was the foundation of the original Masonic Free Grand Lodge of England 1717". Since they addressed themselves to all men, and CREATIVITY preaches White Supremacy to the exclusion of all Jews, niggers and mud races, a tenet basic to our religion, they can hardly have the same foundation.

You seem to have an interesting background. Would love to get together with you sometime and exchange ideas and experiences.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Segment 29

Mr. Harry H. Barton **March 22, 1977**
Long Beach, California

Dear Harry:

After talking on the phone to you the other night, I felt that our thinking meshed pretty well along the same wave-lengths. I also felt that more so than with most fellow Creators, I could confide in you and perhaps get you to help me in the awesome task before us. There are a number of somewhat unrelated subjects I would like to discuss and propose in this letter.

1. THE NEXT EDITION OF THE WHITE MAN'S BIBLE. As I told you on the phone, I propose to write a new edition and simply call it THE WHITE MAN'S BIBLE, based on NATURE'S ETERNAL RELIGION. Since I wrote the original in 1972 (printed in 1973) I have learned much, made many new contacts, learned of new sources, such as the Truth Seeker and their book lists on exposing Christianity, and had a lot of good suggestions and feed-back from fine readers like yourself. I would be asleep at the switch if all this new information could not be utilized to put together a better basic book. This is what I am trying to do — write a Bible for the future course of the White Race that is more complete, more comprehensive and more convincing than my first effort. I must admit that when I wrote NATURE'S ETERNAL RELIGION the idea was more new and exciting, but also I wrote it in a hurry to get it out at a time when I was the most engrossed and productive in my whole checkered business career.

Now I have more time to reflect and assess and I want to make my best and final contribution to my race: a Bible setting forth a basic religion that the White Race can live by for the next million years.

I have already written 16 new chapters for the new addition, which as I see it at this time is the sum total I want to add. Not all of them will be additions however. Some of them will replace existing chapters, e.g., "Unrelenting Warfare between the parasitic Jews and their unfortunate victims", will replace the Chapter on Queen Isabella. By the way, my acquiring the Standard Jewish Encyclopedia was a great addition and most of the material for this chapter came from it. Another chapter, "Quo Vadis?" would replace "Your Loyalty — a Sacred Trust". It is all still in the first draft, formative stage. This is where your good judgment and help can come in. If you are amenable to doing a lot of time-consuming work, I am willing to send a copy of these drafts to you, have you study them and give me the

benefit of your thinking. I have no big ego about this thing, and welcome all the good help I can get. It is going to take millions of us in concerted teamwork to put this program across.

I have not yet decided on any sequence or format. I feel that just dividing the book up into two parts, "The Unavenged Outrage" and "The Salvation" will have to go. Much as I liked the idea, it doesn't all quite fit into that framework. Perhaps I should divide it into five or six different parts, sequence and headings, all of which are still open to suggestion. Also, practically everyone of the old chapters will be re-written for better clarity and more conciseness. One of my problems is to keep it short. It always seems I have more to say than there is room for. My wife throws up her hands every time I come up with another chapter.

Anyway, these are some of the goals and problems. I would like to send you a copy of the new material and have you work it all over including NATURE'S ETERNAL RELIGION (as is) and come up with all the suggestions you can as to how we can arrange it better, say it better and, in short, put together a better new White Man's Bible for the SURVIVAL, EXPANSION and ADVANCEMENT of the White Race.

This is a tall order, but I'm going to do it, and I would appreciate any help you can give me. I feel that since we think along the same lines and you did start to write a book yourself that you have some unique qualifications to help me with the job. Whereas I got no help on the first edition, I feel outside help and opinions can be most constructive. So far you are the only one I have offered to send these copies to, and this is a matter of trust. In any case, I feel that it is good insurance to have a second set around in case something happened to me or my MSS.

So let me know if you are willing to tackle the job. I might not follow all of your suggestions, but I will certainly give them total consideration and I am sure that many of them will be incorporated. Since I don't intend to print the new edition until the present warehouse full of NATURE'S ETERNAL RELIGION are distributed, we probably still have several years to do the job.

2. Some person in Texas, unknown to me, sent me a rather startling expose of the so called right-wing and it includes many people whom I know, or at least heard speak. It has no title and is put out by an unidentified group which simply calls itself DEGUELLO. The red underlineing in it is mine. This booklet too, is confidential, and I haven't had anyone else's opinion on it. I would be interested in getting your appraisal of it, since some of the things in it (e.g. Billy James Hargis) I know to be fairly accurate. Anyway let me again have the benefit of your opinion and send it back to me.

3. You wanted to make tapes of the record. I have a previous

tape that I made on a reel to reel tape (7-1/2 i.p.s.) that I had 50 cassettes run off by a studio. I believe this tape would be more suitable for cassettes, should you want to produce a number for your area. The subject is, CREATIVITY — THE WHITE MAN'S RELIGION. It was 60 minutes and the theme is similar to the record, but the material is different. If you can use it I would be glad to ship it to you and then have you return it when you are through.

4. I hope you get a good active church group together as soon as possible. The main activities initially as I see it is RECRUITING, and DISTRIBUTING as many copies of NATURE'S ETERNAL RELIGION as possible. I am rather obsessive about getting the latter widespread because I feel it is the best insurance we can buy against having the movement snuffed out in its infancy. As you pointed out, the Jews strength lies in dispersion, and so does ours. The time might come when we might have a Genocide law and a lot of other restrictions in which we might not be able to operate as advantageously as we now can. So time is of the essence and I feel it is running out. If we can get several million copies dispersed in depth, then I feel we are over the hump and NOTHING CAN STOP US.

Therefore, I would like to see you print up several thousand copies of our Bookmarkers, either with your P. O. Box or address, or ours, whichever you prefer. Then I would like to get your boys to distribute them at random, door to door, if necessary in a probable borderline but fertile neighborhood. I believe this could generate a good volume of book sales and spread our ideas at the same time.

I have more ideas I would like to discuss with you, but so much for now. Don't let any of these activities divert you from your main job of building a strong group of your own as a base.

Let me hear your decisions on items 1, 2, 3, and 4.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Joseph von Wagman
San Francisco, California

April 4, 1977

Dear Mr. Wagman:

This is in follow-up to our telephone conversation Sunday, April 3rd. Today, April 4th, we shipped a carton of 32 copies of the White Man's Bible, NATURE'S ETERNAL RELIGION, a set of 10 records, SURVIVAL OF THE WHITE RACE, 200 Question and Answer flyers, a few hundred bookmarkers and eight CREATIVITY buttons. This would ordinarily run $40.00, plus $28.00, plus $20.00, plus $6.00,

plus $2.00, for a total of $96.00. However, under the circumstances of being raided by the Jewish criminals and having lost much of your stock, we will gladly settle for $60.00, when you get the money together in a month or so.

To be raided by a howling mob of Jewish criminals bent on blood-letting, arson and destruction, must be a nerve-racking experience, I'm sure. However, that's the way the game is played, and it can be played by both sides. I'm sure that it will be repeated thousands of times again all over the country before we finally achieve victory, and achieve victory we will! We have the numbers, we have the intelligence and we have practically all the cards in our favor, if we will only organize and utilize the awesome potential that is the White Race. In CREATIVITY, I believe, we have the TOTAL PROGRAM, the FINAL SOLUTION, the ULTIMATE CREED. Now let us get to work and organize that earth shaking potential inherent in the superlative White Race! Remember there are still 500 million of us on this planet just waiting for a creed, a program and organization. In NATURE'S ETERNAL RELIGION that total creed and program is spelled out. We must get that idea across to our presently confused and befuddled White Racial Comrades.

In reflecting upon the events of last week when you were attacked by the inferior scum and parasites, I can't help but emphasize again how much better off you would have been — legally, morally and propaganda-wise if your organization had been a church organization instead of the Nazi party. Whereas in the mind of the brain-polluted average American yokel the Nazi party is fair game to be kicked around by anybody, (especially Auschwitz Jews etc.) it would have been outrageous and morally indefensible to have smashed and attacked someone else's church and would have aroused the ire of most San Franciscans, and Americans as a whole. After all, isn't religion an untouchable holy cow, regardless of what you believe? And who can find fault with a religion that is polarized around the survival, expansion and advancement of the White Race? Isn't that what Judaism is all about? Or the Muslim religion for the niggers? Why shouldn't the White Man have equal rights and privileges? Who can deny them, especially under the auspices of religion?

For these reasons and others that I will list, it seems to me much more advantageous to accomplish our purpose under the banner of religion than under the banner of the Nazi party. After all our sole purpose is the SURVIVAL, EXPANSION AND ADVANCEMENT OF THE WHITE RACE, period. Much as you and I both admire Hitler, it is not our purpose to resurrect him, nor the Nazi party, nor the swastika. They served a tremendous purpose in pioneering and inspiring the White Man's movement, but are past history and NO LONGER THE BEST MEANS of accomplishing our job. And the

reasons I say this are probably best summed up in two letters that I wrote to Cliff Herrington in Oklahoma City last month. Please study the arguments thoroughly, because the issue is damned important and we cannot allow our emotional hang-ups and attachments to interfere. I am enclosing copies of those two letters. Also enclosed, are six applications for ordination to the ministry of the Church of the Creator.

I am interested in hearing further about Allen Vincent. He has been such a strong leader for so many years. Please fill me in.

In any case, keep up the good fight. Keep in mind the awesome potential of 500 million White people organized, inspired and informed. No force in the world compares, nor can they stop us from fulfilling Nature's potential. It is our duty to straighten out their thinking, to inspire them, give them a viable program and organize them. So let us proceed to do the job!

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. John P. MacArthur **April 20, 1977**
Lake Park, Florida

Dear Mr. MacArthur:

I am a refugee from Russian communism. Fortunately my family got out of Russia some 53 years ago. Since then the evil FORCES BEHIND communism are closing the steel trap on the rest of the world.

Unfortunately most of the victims don't understand who those forces are.

Be that as it may, please read the enclosed article **"THERE'S A GULAG IN YOUR FUTURE"**. Please note particularly the paragraph marked in red on the first page.

In our book **NATURE'S ETERNAL RELIGION** we have a total program to ward off the impending disaster. I would like to get together with you and discuss it. You would be buying insurance on your estate passing on to your heirs.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Henry Goldman, Jr. **April 20, 1977**
Victoria, Texas

Dear Mr. Goldman:

This is in answer to your letter of March 28th. In the meantime,

we have sent out a mass mailing offering a membership card and certificate with a donation of $15.00. For this you also get a choice of eight copies of NATURE'S ETERNAL RELIGION or six records. You have probably already received the mailing by the time you get this letter.

We believe the membership cards and certificates will help give our supporters a greater sense of IDENTITY and thereby spur them on to become MORE DEDICATED ACTIVISTS. I hope you will be one of those joining as a member. Also as we become more active here at the home base, the Jew controlled network will become more alarmed and will do what they can to harass us. Having a membership role will help to fortify our legitimate rights as a church and a religious organization.

Regarding a flyer, I did put one out about 18 months ago and had Hal Stearley of Brazil, Indiana, mail out 5,000 of them, along with diverse materials from other organizations. About six months ago he also mailed out an equal number of our Q & A flyers. The results from these unselect mailings were not great, but we got some. The Q & A flyer evidently comes on a little too strong for the uninitiated and scares them off, rather than produce an urge to send for the book.

So the best program for the unorganized individual is (a) direct contact and either sell, loan, or give the book. Some of our most ardent supporters have come to us this way. (b) Handing out the bookmarkers, or enclosing them with each mailing — bills, personal letters, etc. The bookmarkers are not explicit enough to be controversial but indicate enough to arouse curiosity. (c) Bring people in to listen to the record. This really gets them to thinking. What with following up with the White Man's Bible, we have created a new convert.

I enjoyed your letter relating your experiences with the Jewnitarians and the Birchers. Such is the road to learning. Your 100 Bookmarkers were shipped on April 6th. Keep pushing and let me hear from you.

Delenda est Judaica.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Conrad H. Westphal
Walnut Creek, California

April 27, 1977

Dear Mr. Westphal:

Thank you for your application, your letter and your check in the amount of $30.00. On April 26th, we shipped to you 12 records, a few dozen Question and Answer flyers and Bookmarkers.

Enclosed is your Membership Card. Your Membership Certificate is being mailed to you under separate cover in a stiff cardboard protector.

After shipping the three cartons of books and other materials on March 18th, I sent a letter to you on March 21st. Did you receive that letter? In your latest letter of April 22nd, you state that you asked about being ordained as Minister of our church in a previous letter, but I have received no such letter. With the niggerization of our postal system we can never take for granted that mail sent will be received.

Upon your present request I am enclosing in duplicate application forms for Ordination to the Ministry. Please fill out and enclose a recent photo, passport size. These can easily be obtained in most camera shops at small cost, if you don't have one.

As for starting a church group, the program is pretty well spelled out in Chapter 27, Part II, "The Road to Greatness".

The first step in setting up a church organization is the selection of a good leader, (yourself or whoever in your group is best qualified) and having such person ordained as minister.

The second step is to select a meeting place and have as many members and/or prospective members meet there at least once a week. To begin with, your home or one of the member's homes should be adequate. As you expand you might want to rent a small hall on a pre-arranged per night basis.

The meeting should polarize on the utmost importance of the survival of the White Race and follow the creed as set forth in NATURE'S ETERNAL RELIGION. A selected chapter might be used as the basis of the indoctrination lecture at each meeting. Since there are 49 chapters, this alone would provide approximately a year of weekly lectures. There are of course a variety of subjects covered in each chapter so that the subject matter may be expanded indefinitely. For instance, under the SIXTEEN COMMANDMENTS, each one of the Commandments themselves is worthy of a full evening's exploration.

The main objectives of the meetings at this time, should be twofold: (a) to recruit and (b) to disseminate and distribute as many copies of our White Man's Bible, NATURE'S ETERNAL RELIGION, as humanly possible. If you had a million copies out in California you would now have the Jews on the run and your basic problems solved. What a bargain that would be compared to the atrocities and heavy price they are extracting from you now!

Getting the CREATIVITY idea as widespread as possible is the basic drive to victory. Our problem as I have reiterated a million times before is not basically waging war against the Jews and the niggers, but straightening out the confused and befuddled thinking of the

White Man himself.

With the above basics in mind, setting up the group and the meetings is the same as any other group, whether it be a Protestant church or a rotary club. The key to success is the energy, dynamics and enthusiasm of the leader himself. In CREATIVITY we have a powerful idea and tremendous stakes to win. We have the TOTAL PROGRAM, the FINAL SOLUTION, the ULTIMATE CREED. It is your job to put it across. From there on out the goals and procedure are further spelled out in Chapter 27, Part II of NATURE'S ETERNAL RELIGION, entitled, THE ROAD TO GREATNESS.

Best wishes for success and good luck! The future of the White Race ride upon the efforts of men like yourself.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Allan Callahan
Aurora, Missouri

April 29, 1977

Dear Mr. Callahan:

Thank you for your letter of April 23rd and your donation of $5.00. Since you made the donation, we thought in return it would be constructive to send you an edition of our 40 minute L.P. record, SURVIVAL OF THE WHITE RACE. I hope you will play it to groups and do what recruiting and proselytising you can.

I hope you will never cease to push our cause, which is the White Man's cause, and his best hope of survival in a seething world exploding with the scum of the mud races. Whereas I am all for political action in this direction, I am convinced that a religious approach is much stronger. I have been down the political road before and have found that any White racial movement can easily be undermined and shot down on moral grounds by these hypocritical Christians, and you have no defense against them, unless you expose them for the Jewish fraud they are.

You say the "average religious person is going to have to do a lot of re-thinking." Perhaps, but the average White person is no longer very much interested in Christianity, so we can by-pass the born-again fanatics and gather around us those racially oriented White comrades who are more concerned about the survival of their race than the non-existent spooks in the sky. Since there are millions of such White Racial Comrades who are looking for direction and orientation, you and I have a huge potential that is rapidly growing and hardly even tapped.

I would love to go on radio and T.V. and put out a paper. When we get financially and organizationally strong enough we will. When

we get to that point, which I hope will be soon, we will take off like a rocket. Your sample ad is very good, and overwhelmingly confirms what I am saying about religion v.s. political party.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Gilbert H. Wheatley
Dover, Delaware

May 10, 1977

Dear Gilbert:

It was real good to hear from you again. Many thanks for the letter and the $18.00 check. We shipped six records and the 25 Question and Answer flyers on May 7th.

Enclosed is your Membership Card. The Certificate is being mailed separately in a cardboard cover.

I was not aware that you were spreading the creed by means of C.B. radio, but it is an excellent means of disseminating the idea. Did you pin-point any address so they could obtain more information? or the book?

I will be happy to get the benefits of your comments about the record. A record I believe gives us more opportunity to advertise the church and the book (via the jacket) and also the fidelity is much better than on tape.

Do you still keep in touch with L. Lee Layton? Since he is getting pretty old perhaps you could convince him of the hard truth: unless we wrest control of our destiny from the hands of the perfidious Jews all the wealth he has accumulated will never be enjoyed by his heirs and that he would do well to leave a little something in his will to the Church of the Creator which is foremost in fighting for the future of his heirs and his progeny.

Best wishes and let me hear from you.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Rev. Harry H. Barton
Long Beach, California

May 10, 1977

Dear Harry:

This will acknowledge receipt of your letter of May 3rd with a check in the amount of $50.00 enclosed, and your letter of May 7th with a check in the amount of $15.00. Thank you very much for all. We can use all the help we can get.

We shipped a carton of 32 Bibles and a packet of six records

on May 9th. We will be shipping the 100 Q & A's, May 10th.

Sorry I missed your phone calls, but my wife and I were down in the Florida Keys last week as I wrote you in my previous letter. We own an "interval ownership" condo apartment down there, one week in spring and two weeks in the last half of November. I hope to hear from you any evening however, now that I am back and I will be eager to hear what you have cooking on the back burner.

Your idea of running a telephone survey sounds excellent. It is a project that any number of members could participate in. After you have formulated a prepared and rehearsed spiel, one member could go down the directory and take a certain pre-designated page, another could take another page, etc., and each keeping track of the live responsive replies. It is as exciting as catching fish. Some you get, some get away and some don't even nibble. The live ones could then be followed up by partially telling them of our program and offering to bring them a book, after arranging for an appointment. Or when you get a number of interested prospects you could invite them to a meeting, have them listen to the record and further presentations. It seems to me a person could cover more territory and make more contacts this way than door to door.

I just wrote to one of our ministers in St. Louis and mentioned the merits of your idea to him as a means of distributing bibles and recruiting. For the time being our foremost objective is and remains — **RECRUITING AND DISTRIBUTING 10 MILLION COPIES OF OUR BIBLE.**

Regarding organization (which many people seem to be more concerned with than recruiting and building a good local group) I have had in mind a system similar to the Kehilla, only based on the figure 10. The echelons and the names of the titles are all in Latin so it could be instituted in any country. However, the system has to be rooted here from headquarters and expanded from there on out. I believe it is premature to try to put it into practice at this time. I want to do so when we have the wherewithall, money, headquarters building, official church newspaper and a staff to run it all. In the meantime, we will play it loose. Any White person can become a member simply by applying and paying $15.00 for each of either a set of books or a set of records. The way I see it, anybody that distributes either is doing us a lot of good, and the books and the records will speak for themselves.

Later we can set up a more rigid system which I prefer to designate as the ROMAN TEN. But until we get the numbers there is no point in complicating the procedure with too rigid restrictions and formalities. For now we will just have one class of members, and that membership must emanate here from H.Q., with membership renewal the first of each year.

Your flyer is very good. I want to encourage a lot of local initiative and then receive reports as to which methods are most successful. By pooling ideas and passing them on to others we can begin to build up a successful M.O. The Jews have been doing that for 3,000 years. No wonder they have built up a system that has the goyim buffaloed. We too can build a powerful organization and we can do it better. In NATURE'S ETERNAL RELIGION we have the blueprint. **THERE IS ONLY ONE WAY OUT FOR THE WHITE RACE AND THAT IS UNCONDITIONAL VICTORY.**

By the way, the Jewish raid on the N.S. party in San Francisco evidently has shaken up Allen Vincent pretty badly, and according to Josef von Wagmann, he apparently has lost his nerve, which is too bad. Von Wagmann, who was their publicity director, has taken over what has remained of the group and they have decided to go Church of the Creator instead of remaining as a National Socialist political party. He has been ordained as Minister and they have held their first meeting at which this route was decided on.

I am eager to hear comments and suggestions on the M.S. I sent you. While I was in the Keys I wrote two new chapters to replace the one on the niggers. I feel quite excited about the new edition, but first we will have to get the warehouse full that we now have into the individual hands of our White Racial Comrades.

So much for now. Again many thanks for your valuable efforts and contributions. We need a million like you. Enclosed is your Membership Card. The Certificate is being mailed in a separate cardboard cover.

For a Whiter and Brighter World,

Creatively yours,

Mr. Donald DeTurk **May 12, 1977**
Reading, Pennsylavnia

Dear Mr. DeTurk:

Thank you for your application and check in the amount of $15.00.

We shipped a carton of eight copies of NATURE'S ETERNAL RELIGION on May 9th. I autographed a copy as you requested.

Enclosed is your Membership Card. Your Certificate is being mailed under separate cover in a cardboard enclosure.

The only book we promote is our White Man's Bible, NATURE'S ETERNAL RELIGION. We believe putting into practice the creed and principles contained in that book is a thousand times more effective than endless reading of more and more books.

We suggest that you help in the White Man's struggle for survival by (a) recruiting (b) organizing the recruits (c) helping distribute copies of our bible until we have placed ten million copies in the hands of our White Racial Comrades. Once we have done that, we will have the Jews and the niggers on the run.

Mr. Art Stinnett **May 17, 1978**
Riggins, Idaho

Dear Art:

This will acknowledge your letter of May 2nd, and the $15.00 enclosed and also (finally) your earlier letter of April 21st with the $40.00 check. Thank you very much for both. In response to your last letter we shipped six records, SURVIVAL OF THE WHITE RACE, and also a few dozen copies of our Q & A flyer. These went out May 15th.

Enclosed is your Membership Certificate and Card. Display them proudly as being a member and blood brother of NATURE'S FINEST. Do your part in inculcating RACIAL PRIDE, RACIAL AWARENESS into our White Racial Comrades and spread the word — build the movement. I am convinced that only when we have dumped Christianity and made race the core of our religious thinking and motiva-

tion, will we be able to overcome our mortal enemies, the sinister Jew.

I still don't know where Riggins is, but we have no organized activity in Idaho. If you and your friends would like to start a CHURCH OF THE CREATOR group, I believe it would be most constructive. We ordain Ministers to our Church at no charge. If you are interested we will send you an application. As I have pointed out so many times before, the advantages of launching and organizing a movement UNDER RELIGIOUS AUSPICES are tremendous — in terms of legal protection, financial and tax advantages, but I believe the foregoing suffice to paint the picture. Whereas anybody feels they are entitled to kick a Nazi around like some dog, they think twice before attacking someone else's religion, regardless of what that religion might stand for, or believe in.

I agree 100 per cent with what you say in your letters and am honored that you find my book is the most controversial you have ever read or hope to read. Yet there is nothing exceptionally new in what I have said that hasn't been said before in a fragmented way by any number of people. The thing that I have done is put the whole package together in a way that makes sense, and for the first time in history, compiled it into a racial religion for the White Race.

What astounds me more than anything else is not at all what I have done, but in view of the fact that the Jews have had a racial religion for the last 3,000 years for all the world to look at, how does it happen no White Man ever did it before?

Why didn't the Egyptians do it? The Greeks? The Romans? The Germans, the French, the English, 100, or 200, or 300 years ago? If any of them had, the perfidious Yids would have been wiped from the face of the earth a long time ago, and the White Race would now be well on its way of having inhabited the earth and developed an infinitely superior SUPER RACE.

I wouldn't worry too much or spend too much time trying to win over hardcore Christians. There are millions of good White Racial Comrades who have not been too impressed by this mind-bender, but are racially concerned. It is much more profitable to develop the potential of such prospects who are searching for answers but have never been shown the way. Especially we should concentrate on the young people, since the future belongs to them.

In CREATIVITY I believe we have the TOTAL PROGRAM, the FINAL SOLUTION, the ULTIMATE CREED.

It is our initial goal to place 10 million copies of our White Man's Bible, NATURE'S ETERNAL RELIGION, into the hands of our White Racial Comrades. Once we have accomplished that much we will have the Jews and the niggers on the run. When you consider that we spend more on the shiftless niggers on welfare in half an hour than those 10 million books would cost, you can see what a tremen-

dous bargain this would be for the White Race!

So I hope you will do your part and distribute as many copies of our White Man's Bible as you possibly can and spread the word. Propagandize! Organize! Proselytize!

Let me hear from you as to what progress you are making. Since you didn't specify whether you wanted books or records (for the $15.00) I sent records since you already had a previous shipment of books. The records should be a great help in bringing in new members to first listen, then get the rest of the story from the book.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Nicholas J. Bove, Jr. May 17, 1977
Minneapolis, Minnesota

Dear Mr. Bove:

I have received several of your communications regarding the transgression of the J.B.S. I agree with you that the J.B.S. is a rotten outfit and I go further and implicate Robert the Welcher as a bastardly traitor to the White Race.

It seems to me that the hanky-panky you are citing against the J.B.S. is child's play compared to the real purpose of the J.B.S. — namely to act as a smoke screen and protector for the Jews, while they neutralize, divert and discourage a large segment of those staunch White defenders who would organize and drive the enemy from power.

As a former Bircher myself, I am enclosing a copy of the letter I sent to Welch back in 1969. In the meantime, I have formed an organization, as indicated on the letterhead, to carry on the fight. I have also written a text for our church called NATURE'S ETERNAL RELIGION. A few months ago I sent you a copy of this book. Would you kindly let me know whether you have read it and if you would like to join in our fight to save the White Race from mongrelization and extinction.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Rev. Josef von Wagmann May 21, 1977
San Francisco, California

Dear Joe:

This is in follow-up of our telephone conversation today (May 21) in which I told you I was leaving for Kansas City and would be

gone for about two weeks. You asked me to send you a letter before I left, answering the three questions you had posed earlier. I am happy to do so, but apologize for being so brief on these philosophical questions, since such questions can only be covered adequately by writing a book. But anyway, brief or not, I will do my best to get to the nitty-gritty.

1. ABOUT THE HEREAFTER AND REINCARNATION.

As you know, there have been volumes of hocus-pocus written in the field of religion in particular, but also its various off-shoots such as astrology, parapsychology, E.S.P., demonology, witchcraft and a lot of other fields of nebulous thinking where anything goes, provided you can get some gullible and superstitious yokels to believe you. My answer is to take a cold hard look at the evidence, and for this I refer you back to Chapters 20 and 21 in Part II of NATURE'S ETERNAL RELIGION regarding "Facts, Myths and Lies", and "Evidence, Judgment, Conclusions and Decisions". You say "Repeatedly there have been proven cases of reincarnation". I know of no "proven" cases, but only of thousands of wild, unsubstantiated claims where all depends on the persuasive claims of some person with an over-stimulated imagination, and a gullible yokel to believe it. THE REVELATIONS of the Jewish bible are a case in point. As far as we of the Church of the Creator are concerned we have found absolutely no credible evidence of the existence of ghosts (holy or unholy), spirits, gremlins, goblins, witches, wizards, gods, demons or any other spooks. Nor have I ever met anyone who is not an escapee from a nut-house who has actually seen any of such phantoms. Because there is NO WORTHWHILE EVIDENCE, WE DO NOT BELIEVE IN THE SUPERNATURAL, and we do not waste our time speculating about it. We recognize the Laws of Nature and the order and organization inherent in it. However we know of no intelligence flitting around in the form of a spirit that is not ANCHORED IN A LIVE, FUNCTIONING HUMAN BRAIN. When that human brain is shut off from a supply of oxygen for five minutes or more it dies, and any intelligence it once had dies with it. There is absolutely no worthwhile evidence that its "soul" or "spirit" lives on and can think, feel, talk, see, observe, reason, etc. and floats around in some undefined netherworld, seeking a new home. The spook idea, as far as I'm concerned is pure fantasy, not in line with reality, or the Laws of Nature, nor any meaningful evidence.

2. THE SUPREME BEING IDEA was invented by the Egyptians before the Jews latched onto it and made it their own god Jehovah or Yahwa. This again is in the world of spooks created by the imagination of superstitious individuals letting their thoughts ramble in the world of fantasy. The REAL EVIDENCE that is all around us, geology, astronomy, etc. strongly point to the conclusion that the

earth, the sun, the galaxies in space, have been around for billions of years. In fact the conclusion is pretty strong that the universe has existed eternally in the past and will do so in the future, although suns and galaxies evolve, change, diminish, reform into new arrangements indefinitely. But to say some lonely spook snapped his fingers a mere 6,000 years ago and presto! There it all was out of nothing, is pretty wild and far fetched. It is contrary to all reason and evidence. Christians try to trap the unthinking yokels with the question "If God didn't create it all, who did?" Which is tricky but meaningless. The obvious next question then should be "Who created God?" The real answer is nobody knows how it all started. In fact, as I already pointed out, nobody has proven that there ever was a time when there was no universe. So why should we speculate how the universe "started", when there is no evidence that it ever did "start" but all evidence points to the conclusion that it was here eternally. All these Christians are doing with their trick question is transferring one unknown, THE RIDDLE OF THE UNIVERSE about which we know a great deal, to another unknown, a concept they call God, about which we know absolutely nothing.

3. ORIGIN OF THE WHITE RACE.

It seems to me there is no great mystery here. The White Race evolved over the millions of years as did other creatures. Anthropologists claim for 30 million years our ancestors were primates about the size of a rat. We evolved as mammals and primates into ever higher stages of development, until modern White Man evolved and progressed to the highly intelligent, productive and creative being he is today. To claim we came from some other planet, again, is highly far-fetched and I don't entertain the idea for a minute. The fact that we can and do interbreed with lower forms of the human race, such as the sub-human niggers is pretty solid evidence that we once had a common ancestor, but that the White Race branched off and rapidly climbed the rungs of the human ladder and advanced to a much higher plane of intelligence, creativity, aesthetics and other admirable qualities.

About these so-called lost civilizations such as Atlantis, etc., I place little importance on such claims. As far as I'm concerned they are just that — claims — not substantiated facts. Just like some people will believe in Santa Claus, the Easter bunny, spooks in the skies, pie in the sky, etc., so you always have people "believing" in other cock-and-bull stories, if they can be made interesting and plausible, but the evidence is not really there.

In summary let me say that all these speculative questions are (a) wild (b) unsubstantiated (c) unimportant (d) a waste of time, just as in the Dark Ages superstitious and gullible people wasted a lot of time and energy arguing about how many angels could dance on

the head of a pin.

We of the Church of the Creator have much more real and pressing problems to face and to solve. The main problem is Survival of the White Race (however it got here) from the evil machinations of the Jewish network. So let's get back to reality and let's get back to work and get the job done. That is what the Church of the Creator is all about.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

P.S. Enclosed are names of people in your area who have ordered books from us whom you may or may not know. **B.K.**

Gilbert H. Wheatley **June 6, 1977**
Dover, Delaware

Dear Gil:

Your letter and packet arrived while I was away in Kansas City giving a speech about CREATIVITY to some right-winger conservatives, born-again Christians, and others of a mixed group consisting of many different organizations. I gave them a lot to think about.

Thank you ever so much for your dedication. I have sent out 38 different parcels to the addresses you gave me. It was more convenient to ship the book and Q & A flyers in one packet and the record in another, since each was specially designed to fit. It will give these people a lot to think about also, hopefully wake them up and start them spreading the word. One thing about a book or a record, it lasts along time, and you never know how many others will be influenced by the idea contained in them besides the persons it was mailed to.

I enclosed your letter with the book in each case.

I am of course cutting down to less than cost on the mailing. If it is alright with you, if you want to donate $60.00 to the church, we will be more than satisfied. Again many thanks for your dedication.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Merritt Newby **June 13, 1977**
Birmingham, Alabama

Dear Mr. Newby:

This will acknowledge receipt of several American Challenge bulletins, including material on the Federal Reserve and other topics. Thank you very much. I am glad to have had the opportunity of

meeting you in Kansas City and enjoyed the dinner we had together with June Grem and the Martins.

Enclosed is a copy of a letter to Bob DePugh that gives my assessment of the P.L.C. meeting.

The criticism in it applies to most of the more than 10,000 so called "right-wing", "patriotic", "conservative" groups. Why are they always flailing away at the EFFECTS rather than the CAUSE? Why are they so reluctant to put the finger on the ROOT CAUSE of all the evils — the perfidious JEWISH NETWORK? Why are they so stupidly afraid to expose the fraudulent spooks in the sky hoax that the Jews have slopped upon our addled brains?

Until we get a massive movement based upon a White racial religion, we will never be able to route the Jewish onslaught by timidly whacking away at their numerous tentacles.

I would appreciate your comments on the above and also on my letter to DePugh.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Ardie McBrearty
U.S.T.U.
Camarillo, California

June 13, 1977

Dear Mr. McBrearty:

I enjoyed your wit and humor (also your serious counsel) at the P.L.C. in Kansas City. I thought the bit on OSHA was especially good.

In summing up and evaluating the meeting I have written a letter to Bob DePugh, which I hope is informative and constructive. Since you were a major participant in the meeting, I thought I would pass them on to you also, for whatever they are worth.

One suggestion I might make in fighting the I.R.S. is to have our people form any number of churches, as we have done, and claim tax exemption on religious grounds. It is a lot easier than fighting the I.R.S. as a lone individual. Think about it.

Also enclosed is a flyer telling about our church. You may or may not agree with it, but other than emotional outbursts, we have never had an intelligent, logical refutation of the ideas we set forth in a calm factual presentation on either the Q & A flyer or in our book, NATURE'S ETERNAL RELIGION.

Remember, if we are not willing to face reality, pin-point the enemy, and clarify whom we are fighting for, we don't have a chance of a proverbial snowball in hell.

Creatively yours,
B. Klassen, P.M.

Mrs. Danny Marks **June 20, 1977**
Blue Springs, Missouri

Dear Mrs. Marks:

Thank you for your letter of June 13th, also the $2.00 enclosed. We mailed about 25 Q & A flyers and about six "A Real Case Against the Jews" flyer.

The latter is highly revealing. It is by a Jew, who reveals how devastating the effects of Jewish Christianity have been on the thinking of the White Race over the last 2,000 years. What they did to the beautiful Roman civilization (in destroying it) 1,500 years ago and how it has shaped the paralysis and suicidal thinking of the White Race ever since. And, as he points out, if we were not so stupidly blinded by the silly spooks in the sky story, even a school boy could figure it out.

As far as the "Identity Message" is concerned, I am thoroughly familiar with it and the people you mention. It is so obviously more of the same crazy Jewish hoax that I sometimes wonder about the sanity of the White Race.

Have you read my book, NATURE'S ETERNAL RELIGION? If you have, you would realize what miserable scoundrels these "Israelites" were such as Abraham, Isaac, Jacob, Judah, David, Solomon and all the rest of that pornographic gang of murderers. These theories of the White Race descending from "Israelites" are a historical fraud and monstrosity, without the slightest shred of evidence or logic. Furthermore, the Old Testament is not real history at all. It is nothing more than a self-concocted story, purely fiction, a product of the depraved Jewish mind.

Besides that, when you read what deceitful, depraved reprobates these so called "heroes" were (such as David, who bartered with Saul for his daughter's hand by bringing a dowery of 200 Philistine foreskins, I Samuel 18:25, 26) who would want to be descendents of such a depraved gang of filthy riff-raff? I would rather be the descendent of a horse-thief than these pornographic, perfideous "Israelites".

So what is the big message that Swift, Comparet, Dan Gayman, Col. Bill Gale and the rest of them have to give us? It is based on nothing but fraud and deceit, leading the White Man to wish that he was the real Jew. With an attitude like that, how could we possibly ever bring the Jewish conspiracy to heel?

I am convinced that they (Swift, etc.) are only another phase of the Jewish conspiracy to confuse and neutralize the White Race.

The best program to get out of this mess is to build a massive White movement based on a religion polarized around the value of the White Race. NATURE'S ETERNAL RELIGION shows the way

for people who will think. Please read it and re-read it.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Alfred B. Sabin **June 20, 1977**
Oakland, California

Dear Mr. Sabin:

This will acknowledge your letter of June 14th, and also your printed Proposal for a S.W.C. Thank you for both.

Whereas there is nothing I disagree with in your "Proposal", I can't understand your logic in trying to form a "Council" as a new independent group. Why not organize under the auspices of the Church of the Creator itself, which would have the following important advantages:

1. **You would have (a) the prestige, (b) the moral and legal advantages of a religious organization, (c) tax exemption from the I.R.S.**

2. **You would already have a full-fledged text, i.e., Bible, to work with, that spells out our philosophy, creed, religion, goals and purposes in full, including the sacred Sixteen Commandments.**

3. **By operating under religious auspices, namely Creativity, you would be able to demand and obtain full loyalty to our organization, rather than split or schizophrenic loyalty of those who profess loyalty to the White Race but at the same time profess adherence to Jewish Christianity.**

4. **We already have a logo, or insignia which we call the CREATIVITY LOGO.**

Furthermore, it seems to me we can do all those other things as well or better under the polarization of the church than some Council that is neither religious, political, fish or fowl, or what have you. In unity there is strength. By creating an increasing number of splinter factions we are falling into the Jew's trap of divide and conquer. Unfortunately even groups pursuing the same or similar goals can become rivals and sometimes bitter enemies, as witness the Matt Koehl Nazi Party out of Arlington versus the "independent" Nazi parties.

Under the auspices of the church we can do all those things you suggest and do it better, whether it be an intelligence arm, a defense force or whatever. I say we can do it better, because in any such central organization the main "cement" that binds them all together is the central "creed" that is the basis of it all. And in Creativity, I believe, we have the TOTAL PROGRAM, the FINAL SOLUTION, the ULTIMATE CREED. Even you agree that, quote "I feel

NATURE'S ETERNAL RELIGION is a fantastic piece of work." Sooner or later if you got a "Council" going you would be forced to spell out in greater detail your aims, beliefs, position towards Christianity, etc., etc., a laborious job we have already completed.

I am not really interested in pride of authorship, as it may sound, but before I kick the bucket I would like to have established a viable, growing, self-sustaining racial religion on its way to spread all over the world. If someone else did it, I would be just as happy, but I want to see it become a reality, even if I have to do it myself.

Anyway, for the above and several reasons, I believe your effort would be much more productive to either join an existing church group in the Bay area, or if you want to be you own leader, form your own church group.

Joseph von Wagmann in San Francisco is putting a church group together.

We already have more than 10,000 splinter groups, all of which have accomplished nothing, because they were basically afraid to tackle the Jews and Jewish Christianity.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Kyrt P. Lane
Provo, Utah

June 23, 1977

Dear Mr. Lane:

Thank you for your remittance of $3.00 received. You may use this letter as a receipt.

Pontifex Maximus was originally the title of the supreme head of the Roman state religion dating back to before the days of Julius Caesar. When Christianity later came along and destroyed the indigenous Roman religion (along with their race, Empire and civilization as well) the Roman Catholic church usurped that same title for the head of their church. In our case we reflect back on the ancient Roman tradition and the title signifies the supreme head of our religion, the Church of the Creator.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Segment 31

Mr. Robt. B. DePugh
Patriots Leadership Conference
Norborne, Missouri

April 11, 1977

Dear Mr. DePugh:

This will acknowledge receipt of your letter of March 15, and also your book, BEYOND THE IRON MASK. Thank you very much for both. Your courtesy is appreciated.

During the last week I have read your book, and find it highly informative about prisons as such. However, since I was partially aware of the Minute Men, I had expected a more political dissertation than the book offered.

It is my studied conclusion, as I set forth in my book NATURE'S ETERNAL RELIGION, that we will never solve any of the current problems such as prison reform, inflation, communism, school busing, crime and a host of others, until we solve the racial problem.

UNTIL AND UNLESS WE SMASH THE PRESENT LONGSTANDING JEWISH CONTROL OF THE WHITE MAN'S DESTINY, WE WILL NEVER SOLVE ANY OF THE OTHER PROBLEMS, AND THE GREAT WHITE RACE WILL SHORTLY BE MONGRELIZED INTO OBLIVION. WITH IT WILL GO CIVILIZATION AND ALL THE OTHER VALUES WE HOLD DEAR AND WORTHWHILE. UNTIL WE SOLVE THE RACIAL PROBLEM, WE ARE ONLY PLAYING MEANINGLESS, CHILDISH GAMES. THE ROOT CAUSE OF ALMOST ALL EVIL IN OUR CIVILIZATION IS THE PERFIDEOUS JEW. ALL THE OTHER EVILS ARE MANIFESTATIONS, NOT CAUSES, OF OUR MISERIES. I WAS THEREFORE DISAPPOINTED IN YOUR TOTALLY IGNORING THE CATASTROPHIC IMPACT OF JEWS AND THE NIGGERS ON OUR SOCIETY, AND IN FACT IGNORING THE RACIAL PROBLEM AS A WHOLE.

You go quite heavily into the vastness of the universe, the eternity of its existence, the laws of Nature and biology. With all these views I thoroughly agree and they pretty well coincide with my views as expressed in NATURE'S ETERNAL RELIGION. By the way, I believe I sent you a copy of my book a few years ago.

It would seem to me that anyone well enough informed to understand the process of evolution and the laws of Nature that produced the White Race would logically advance to the next obvious conclusion about the fraudulent nature of Christianity. However, by completely ignoring it also, you seem to passively accept and condone it. This is hard to reconcile.

However, I am not really familiar with your religious, racial and

political views except what I gleaned from BEYOND THE IRON MASK. I notice you also have another book entitled BLUEPRINT FOR VICTORY. I would appreciate a copy of that book. In exchange I am sending you one of my records SURVIVAL OF THE WHITE RACE.

Until I have had an opportunity to read your BLUEPRINT, I prefer to withhold further comment.

I appreciate your invitation to attend the Leadership Conference in Kansas City and am interested in attending. This matter will however have to await certain other considerations that are unresolved at this time.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Robert DePugh **June 13, 1977**
Patriots Leadership Conference
Norborne, Missouri

Dear Bob:

It was real good being able to meet you and get together with the rest of the group assembled at the P.L.C. over Memorial Day weekend. I especially appreciate the private chat we had in the hour and a half after I got to the hotel Friday afternoon.

Now that the dust has settled, I would like to set down on paper my appraisal of the meeting and pass them on to you for whatever it is worth. This is being done from a constructive but critical viewpoint, with the hope that our gatherings in the future can accomplish more than in the past, and I am sure all of us want to do just that.

1. The most obvious impression of such a meeting is that every group wants to push its own idea, movement, pet program, or whatever, considering that it has the best approach, the most important issue, etc. Personally I am no exception, and frankly stated in my speech that in the CHURCH OF THE CREATOR we believe we have the TOTAL PROGRAM, the FINAL SOLUTION, the ULTIMATE CREED, and I believe it. Unfortunately not all of these programs mesh, and many of them are directly at cross purposes with one another.

For instance, when I say that Christianity is the Jewish mind-scrambling process that destroyed the Roman Empire and plunged the White Race into a thousand years of superstition, ignorance, poverty and misery, then along comes Gerda Koch with her “born again” fanaticism, we are definitely not pulling in the same direction in order to save the White Race. Nor do I find the Identity fanatics who would like to persuade us that we, the White people, are the

real Jews, are helping to identify the enemy and straighten out our thinking.

2. Be this as it may, the most discouraging thing about the sum total of speeches and programs presented, it seems to me, was the almost total confusion about (a) who the enemy was, or is, and (b) who are "we". Without being clear on these points, all else is nothing but idle talk and playing meaningless childish games.

3. In the speeches I heard over and over again such phrases as the "enemy", the "government", the "bureaucrats", the "communists", and other similar vague protestations. I want to point out, as I did in my speech, that these are only manifestations, EFFECTS, of the evil cause, NOT THE CAUSE itself. They are only the FRUITS, not the ROOTS of the evil tree. The real cause of 99 per cent of all our problems, whether it be pornography, wars, the Federal Reserve, the I.R.S., drugs, communism, corruption, spread of niggers, or a thousand other evils, is the JEWISH NETWORK, the Jewish race as a whole. Most of the people at that meeting knew this basic fact of life. Yet why were they so extremely reluctant to put the finger on the root of all evil — the perfidious Jew?

4. Now we come to the other side of the issue — who are "we"? Unless you clearly identify the enemy, and clearly identify who's on our side, we are, of course, at a terrible disadvantage in fighting the Jew, who has no confusion whatsoever on these basic issues. I heard a lot of talk about "patriots", about the "great constitution", about our "great country", about all the heroes who had died in Flanders Fields, and much more such meaningless oratory.

The only meaningful group that I can identify with and means anything to me that is worth fighting for and saving from extinction is THE WHITE RACE, not the country, the republic, the flag, or the constitution. When we talk about our country we are using a very loose term indeed.

Basically there are three major components of a country (a) the real estate, (b) the people, and (c) its government. Now as far as the real estate is concerned, I think it's lovely and I have no quarrel with fighting for land and territory. BUT FOR WHOM? Is America worth fighting for just so that it can become the breeding ground for a mushrooming horde of black gorillas who hate us, who are parasites on our backs and who are crowding us out of the very land we built with sweat and toil? I say no, a thousand times no, and yet this is the very thing America is becoming, a pest hole of mud races, with the diminishing White Man breaking his back to stupidly become the slave of his inferiors. Yet I heard very little about the issue of race. The Klan did say a few confusing things about it, but it wasn't very clear, nor was it much emphasized.

Coming to issue (c) namely government, can we be "patriotic"

to a Jewish owned and controlled government whose every action indicates that it hates the White Race with a pathological passion and its every effort is bent on mongrelizing and/or destroying the great White Race that has created every civilization and everything that is good and worthwhile in life?

In the context of looking at parts (b) and (c) of a country, namely a mushrooming horde of mud races and a fanatic hostile Jewish government at its head, the term patriotism to our country, the United States of America, becomes less than meaningless. It becomes OUTRIGHT TREASON TO THE WHITE RACE.

In my book I point this out time and again — our first loyalty belongs to our own race — the White Race, not to country, flag, constitution, Christianity, or other artificial creations in which our enemies are heavily involved.

What is your position on the question of loyalty to our own race?

5. Then we come to the issue of Christianity itself. From my research and logic, it is the ne plus ultra weapon the Jews have used for the last 2,000 years with which to scramble, intimidate, confuse and manipulate the brains of the White Man.

The question is: are there or are there not spooks-in-the-sky, spooks looking over your shoulder threatening to torture you in a lake of molten sulfur if you don't believe in them? Are these spooks for real, or are they an idiotic farce? Frankly, I have never seen any, my dad and mother never saw any, (although they foolishly believed in them) and none of my ancestors down the line have seen any. Nor have I ever met anyone who is not a refugee from a nut-house who has ever seen, heard, felt or smelt a spook of any kind, holy or unholy, nor any demons, devils, gods, angels, fairies (the winged kind) or any other supernatural spirits, spooks or what have you. All I have heard about them is wild hearsay, without a shred of evidence, instigated by our mortal enemies in order to confuse and destroy us.

So, before we go any further kow-towing to this spook nonsense we should make up our mind, are they for real or are they a horrible fraud.

I have looked at the evidence long and carefully and have come up with the only conclusion that makes any sense: they are a horrible fraud perpetrated on the White Race by our mortal enemy — the perfidious Jew.

The situation is similar to a man offering you a million dollar check for your house, that say was worth fifty thousand dollars. If the check is good, he is offering you a fantastic price. If the check is phoney, he is fraudulently robbing you of a very valuable possession. Before you play his game it behooves you to make up your mind whether the check is good or whether it is fraudulent. You can't ig-

ignore that decision. And so it is with Jewish Christianity. I have thoroughly investigated and made up my mind. The evidence, reasons and logic are fully expounded in my book NATURE'S ETERNAL RELIGION, should you wish to examine the evidence further.

6. I was highly impressed with the tremendous speaking and organizational abilities that John R. Harrell seemed to display. It is unfortunate that he is so obsessed and confused about the (non-existent) spooks-in-the-sky story that he cannot see the enemy clearly. You can't be exalting the Jews as "God's chosen people" on the one hand and expect to fight that band of pirates on the other hand. It's another case of "a house divided", or like a race car driver stepping on the gas with one foot, but at the same time stepping on the brake even harder with the other foot. You can't win a race that way. Too bad. He is extremely courageous and very likeable. He could be a dynamic leader if he could only rid his mind of the non-existent spooks hang-up.

7. So we come to a general summation: can we reconcile all the elements of such a meeting — the Gerda Kochs, the Identity adherents, the Tax Strikers, the Klan, the Minute Men, John R. Harrell, the Church of the Creator, etc., and unite them into meaningful, constructive action? I say no, it cannot be done and it is useless to try. Adolf Hitler, in Mein Kampf, says that you do not unite and thereby water down, two (or more) different movements without destroying the main force which built the movement in the first place. From what I can see about the so called "Right-Wing", "Conservative", or "Patriotic" movements they are so confused on the basics of (a) who the enemy is (b) our own identity, and (c) what we are fighting for, that it is almost hopeless. Proof of what I am saying is the utter failure of more than 10,000 such movements over the last 60 years.

In contrast to all this confusion, I believe in our book we have founded a basic philosophy that is in tune with REALITY and the LAWS OF NATURE. We have identified ourselves, we have pinpointed the enemy, and set forth a meaningful and realistic program for the survival, expansion and advancement of the White Race, the most important value on the face of the earth.

Our program sets forth as its goal not only the survival of our race but its total victory, expanding until the White Race inhabits all the worth while real estate on the planet. No other course is possible. The mud races cannot compete on this crowded planet and can only survive if we foolishly subsidize them as we are doing now. When we do that, they breed at a rate that will exterminate the White Race. So the time in history has arrived when it will be one or the other. The Jew and the mud races have determined that we must be exterminated. Their program has been, and is, devastatingly effective. On-

ly an aroused, united and organized White Race, polarized in a religious creed around the basic issue of race, will now stave off such horrible disaster.

In Creativity we have such a creed.

Bob, I don't know whether this letter will in any way effect your future goals or activities. It is my hope that it will at least have some small effect in moving you more towards the vital issue of saving the White Race and away from the hocus-pocus of the spooks-in-the-sky myth, which has crippled the White Man's thinking since the days the great Roman civilization went down the drain. I know that you are dedicated, highly intelligent and are looking for a better way to achieve results. I hope in this letter I have helped point the way. The White Race needs more courageous fighters like you.

Furthermore, I hope you have listened to the record SURVIVAL OF THE WHITE RACE by now and have given it some further thought. I look forward to hearing from you soon and hopefully we can get together again to plan further strategy for total victory.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

P. S. After I finished this letter, I received your questionnaire about the meeting. The above will serve as an answer in greater depth. B.K.

July 3, 1977

Dear Bob:

This will acknowledge your letter of June 22. I know your time is most limited, therefore your reply is all the more appreciated. I believe the issues we are discussing — how best to achieve unconditional victory — are extremely important and an issue on which few people on our side seem to agree.

In fact there seems to be a great deal of confusion on our side, not only HOW but (a) what we are trying to achieve. (b) Who we are. (c) Who the enemy is, etc. As I have pointed out before, and therein lies our helplessness and hopelessness — utter confusion on all issues.

As I have gone through the ranks from (a) religion to (b) anti-communism to (c) the John Birch Society to (d) politics to (e) George Wallace to (f) the American Independent Party to (g) Nationalist White Party to (h) a racial religion, namely Creativity polarized around the survival, expansion and advancement of the White Race, I feel that in rallying the White Race around such a religion I have finally found the answer. I feel certain that I have found the total

answer for unconditional victory. We are using the same formula that a small minority, the Jews, have used successfully for thousands of years. I feel confident that this is the route to go and the only way. In all the previous approaches I never did feel that we had a ghost of a chance. Now I do feel supremely confident of total, unconditional victory.

In saying so, I am not trying to play the egotist. Christ knows, I would be perfectly happy to have somebody else carry the ball and be an unimportant spectator, if someone only would. In fact, I am looking for that somebody, and I will find him.

Nor do I feel that I have invented anything new. I didn't invent religion, nor the idea of White racial supremacy, nor was I the first to discover that destructive parasite — the Jew — in our midst. What I did do, (and which I consider a real breakthrough) was to put the whole package together — the creed, program and philosophy into a completed, viable package that will now spread until it embraces the whole world.

To explain more clearly what I mean, let me draw a parallel with Robert Fulton, who is credited with inventing the first steamboat. Actually Fulton did not "invent" anything. He did not invent ships, he did not invent the steam engine, he did not invent the paddle wheel, side wheeler or stern wheeler, nor gears, valves, pulleys, etc. What he did do is PUT THE WHOLE PACKAGE TOGETHER into a demonstrable working steamboat. From thereon out the steamboat was on its way and thousands of others improved upon it until the present day super liners and super tankers that are a shining tribute to the White Man's ingenuity.

Similarly in CREATIVITY, and in Nature's Eternal Religion, I feel I have done the same thing for the White Race — I have put together a solid workable, viable racial religion for the White Race. As far as I know, I'm the first one that has done so. Why it wasn't done five thousand years earlier during the Egyptians' supremacy, or 2,000 years ago during the Roman supremacy, and many other fertile periods in the White Man's history, is hard for me to understand. Had it been done, we would not be in the precarious mess we are in today.

Anyway, for whatever reasons, it was never done, to the shameful detriment of the White Race. But now it has been done and we nevertheless have the problem of promoting and expanding it until it embraces the sum total of all of our White Racial Comrades.

This is the way it has to go. It is either a White racial religion or extinction. This garbage about patriotism, the great Constitution, Americanism, Christianity and all the rest of this so called right-wing, conservative hogwash doesn't mean a damn thing. These meaningless concepts have done nothing for us except divide us, and con-

fuse the hell out of everybody except the Jews.

I POINT OUT AGAIN, WHAT IN THE HELL WOULD BE THE POINT OF FIGHTING AND LAYING DOWN YOUR LIFE FOR "AMERICA" IF YOU ARE ONLY SAFEGUARDING REAL ESTATE FOR THE NIGGERS TO BREED AND MULTIPLY AND THE JEWS TO CONTROL AND MAKE BILLIONS?

The only real purpose any state can serve is to promote the best interests of a certain people and from the Creativity point of view that purpose is to serve the best interests of the White Race and the White Race alone. To give equal or even preferential treatment to Jews, niggers and the mud races, so they can breed, multiply and push us off the face of the earth at our expense is not only utterly stupid, it is rank treason to our race.

This is why I take issue with the "right-wing", "patriotic", "conservative" stances. They don't know who in the hell they are, don't know who their enemies are, and don't know what it is they want to accomplish. With a set-up like that, no wonder they have chalked up a 100 per cent failure record in 10,000 tries.

Regarding the Christianity element, you say although you don't agree with them, we need them because they constitute 83 per cent of the population. Well, I don't buy that. According to Dr. Revilo Oliver, only about six per cent of the White people are really serious about Christianity. In England, in a recent poll only 29 per cent said they believed in God, (and probably less than six per cent gave a damn). The majority by and large are just plain confused and it is the biggest stumbling block to being able to see the racial problems clearly. Having gleaned from this confusion little more than that the Jews are God's chosen, and in any case we are all equal in the eyes of the Lord (including the niggers, but strangely excepting the Jews) how can we possibly ever come to grips with the racial problem?

And the plain fact of life is this: Until we get the Jews off our backs, until we ship the niggers out, **UNTIL WE SOLVE THE RACE PROBLEM WE WILL NEVER SOLVE ANY OTHER PROBLEM.** We will never solve the problems of crime, busing, inflation, foreign aid, energy, taxes, the Federal Reserve nor a thousand and one other Jew-induced problems that now plague us and threaten to destroy us.

At the base of the whole Jew problem lies Christianity. Like communism, it is a Jewish manifestation. As I said before, we have to make up our minds: is the spooks-in-the-sky story for real or is it a bad check? If it is a vicious hoax, then to condone it is to support a huge fraud. It is no more pragmatic or justifiable to be partners in such a fraud than it is to take the communists into our ranks. We could just as well argue that we "need" the communists because they too, wield a lot of power and influence. Of the two, I deem the Christians have wreaked a thousand times more damage on the White

Race than have the commies, because (a) there are so many more of them, and (b) because they have been around a lot longer, and (c) because they are much more accepted. If I look around me in Broward County with a population of one million, I honestly can't identify a single card-carrying communist, but every few blocks I see a church with thousands of people getting their brains neutered every Sunday, or oftener.

You point out to me the "dangers" of identifying with the White Race because there are many race traitors in our midst. Man, you are not telling me anything I don't already know only too well and so does everybody else. The Jews know it best of all and openly brag they wouldn't have a ghost of a chance if it wasn't for the active collaboration of the White chabez-goi. But that's what the fight is all about! Not the survival of "America", but the survival, expansion and advancement of the White Race and the White Race alone. "America" will be here for the next million years, but the question is who is going to inhabit it in the next generation or two? Niggers and Jews? Our mongrelized offspring? That's what I am talking about when I point out what a treacherous snare is the idea of patriotism, loyalty to the country, when we should first and foremost be loyal to our race. Read again Chapter 2, Book II "YOUR LOYALTY — A SACRED TRUST" in NATURE'S ETERNAL RELIGION.

And whose fault is it that the White Man is so damn confused in his loyalty? First and foremost it goes right back to the White Man's religious teachings. He is oriented towards a universal hodge-podge of "we are all equal in the eyes of the Lord" — (except the Jews are more equal). Take John Stormer. Back in 1964 I knew him personally and thought he was a great guy. I was responsible for distributing 80,000 of his books. Then this Christianity got a hold on his feverish brain, driven to panic about the Jewish-induced "hereafter." He didn't want to "burn in hell." Now he is eulogizing "God's chosen" Abraham, Isaac, Jacob, Judah, David, Solomon and all the rest of those pornographic scoundrels. Read my Chapter 10, Book I "THE OLD TESTAMENT" in NATURE'S ETERNAL RELIGION. Now John is not only lost to us, he is stupidly and unwittingly a most valuable tool on the side of the Jews. Instead of fighting for the White Race he is stupidly playing childish games with his imaginary spooks, imploring, pleading, trying to assuage them, talking to them hourly, when he would do as much good talking to a hot rock. Spooks that neither he nor anyone else have ever seen, heard, felt or smelt have now become the dominating obsession of his life. Not only that, he is employing his abilities to persuade other White stalwarts to become as nutty about these imaginary spooks as he is and with a great deal of success.

So whose damn fault is it if most of the active prominent White

goy are in the toils of the Jews?

It is ours, the White Race collectively, because we never gave them a proper racial religion to get them sanely oriented from the time they were kids. Like poor John, we have oriented our children since they were babies to love the Jews and hate the White Race and nothing has been more devastating in its effect than Jewish Christianity.

Let's face it, Bob, we have all been victimized, more or less, by one Jewish hoax or another, but the most effective of them all has been Jewish Christianity. Until we get our brains cleared on that issue, we will never solve the race problem, and until we solve the race problem we are going to continue to helplessly flounder on our way to racial suicide.

So I come back to the total solution: a racial religion such as spelled out in CREATIVITY. You point out all the obstacles in the way, and the fight is hopeless, you say. How do we know? We've never really promoted it. I can assure you of this: that if we had even one tenth of one per cent of the 20 billion dollars fleeced off the White Race each year in (hardly) keeping a sick and decadent Christianity alive, our creed would spread like wildfire. The obstacles you enumerate against CREATIVITY apply equally to any other movement that seeks to rout the Jews from power, whether it be the Minute Men, or the Klan or any other movement. But in CREATIVITY we are at least getting down to brass tacks and building a solid, permanent foundation for the next million years. We don't have to deceive our followers, or lie to them, or dream up a new set of fantasies. We are launching a direct frontal attack, the only kind the White Man excels in. The idea that we will do better by a flanking move, or outsneak the master-sneaks of all time, is ridiculous. We are only playing the Jew's game, at which they are experts, and we are bumbling amateurs.

So let's play it honest, let's play it straight. We don't need the help of the Christians whose brains are all wrapped up in a fantasy world of spooks. We don't need them, nor their slushy sentiment. That six per cent of born-again Christians are lost to us in any case. They are more concerned about playing games with their imaginary spooks than they are in saving the White Race. There are still a good 94 per cent of White Men whose intelligence is still salvagable, provided we gave them some time, attention and guidance. We don't need to lie to anybody, or make up fairy tales or promote some silly hocus-pocus. We just need a sound sensible program that is based on reality and the Laws of Nature. In CREATIVITY we have such a program. I haven't found it too hard to sell. After all if you and I can see it, so can 50 million others. We just haven't made the effort, and the White Man has really never gotten an honest solid pro-

gram presented to him before. To extrapolate that such a program would take another 2,000 years just because Christianity has been around that long is completely irrational and irrelevant. Hitler turned the German people around in a dozen years, and we can do it in less time if we do our job properly. But we have to quit feeding our people the same old garbage that the John Birch Society and all the other outfits have been doing.

We also have to straighten out our thinking about that deceptive cliche called "patriotism". I can only be patriotic to an America when it has ceased to be a pesthole for breeding ever increasing hordes of sub-human niggers subsidized by white slaves who dance to the tune of their Jewish masters. By being "patriotic" to such a mess I would only be defending treason to the White Race and helping seal the doom of our survival.

Would you please define your version of "patriotism" in light of the overwhelming internal threat of Jews and niggers to our survival, said Jews and niggers being a predominant part of "America".

Well that's all for now. Think about it, Bob, and when you have the time, give me your thoughts on the points I have raised.

Enclosed are two pieces directly from the mouths of the Jews and their evaluation of Christianity as a tool with which to manipulate the goyim. They were written almost 50 years apart.

Dear Bob:

Thank you for your letter of August 14. I hope you have had the good vacation you so richly deserve in the meantime. We just got back from two weeks in North Carolina where we have a cabin.

I realize you are swamped with work and like many others tackling more than you have time for. However, if and when you get the time, I still wish you would seriously consider the vital issues I raised in my two previous letters. Basically, these issues are Jewish Christianity paralyzing the functioning and will power of the White Man's brain; the overwhelming dominance of Jewish power in all the nerve-centers of the White Man's society; and the ever accelerating Jewish program for the extinction and genocide of the White Race itself. These are the principle quandaries that nobody in the Right Wing movement seems to want to either face or discuss, yet they are so basic as to be a matter of life and death. You being an intelligent

individual, I hope we can discuss these freely, and agree or disagree without rancor. Anyway, I would like your answers, and above all, I hope you will listen to the record I sent you.

Good luck in bringing out a new magazine. I look forward to reading it. In the meantime let us strive for the redemption and resurrection of the White Man's brain so that we may fulfill the glorious destiny that Nature has in store for us.

For a Whiter and Brighter World,
Creatively yours,

Dear Bob:

This will acknowledge receipt of a copy of your letter to Ardie McBrearty. I have read it in its entirety and my best reply is to send you a copy of a letter I was writing to G. Edw. Griffin about his two books on "A World without Cancer". I presume that you probably have read those books, since you are in the vitamin and nutrient field. In any case my letter to Ed pretty well covers the ground on which you and I differ in our approach to overcoming the worldwide cancer that is destroying the White Race and our precious civilization.

There is one point further to my letter to Ed Griffin that I would like to stress. On page two of your letter to Ardie you say that between 1935 and the beginning of W.W.II. you were very pro-German, but when your country was attacked by the Japs all that changed and you were gung-ho to go and fight. "Nationalism" prevailed.

Subsequent history has revealed that Roosevelt and his gang of international Jewish conspirators knew about the attack on Pearl Harbor months in advance and encouraged and goaded the Japs to make that attack. They knew the day, the place and the hour of the attack but they deliberately lied to the American people. They wanted in the worst way to suck the American people into the war against Germany in order to save the collective Jewish neck. The betrayal of the boys who died at Pearl Harbor (over 3,000 dead) and the loss of the pride of our fleet was deliberate as hell. They didn't give a damn about that as long as the Jews could get rich and fat and make billions on the ensuing war profits and kill about 15 million white goyim at the same time.

So you were stampeded by the propaganda and went along with the Jewish cause against Germany and in alliance with Communist Russia. The question is — were you thinking more clearly between 1935 and 1941, or were you bamboozled along with millions of

others? When the war was over, who gained from the massacre — the White Race, or the Jews and the communists? What did we make our own United States “safe” from? As far as I can see — nothing — but we did suceed in making it a polyglot country in which the Jews now run it, the niggers breed and feed, and the White Man does the work and pays the bills. The end result will be a total mongreliza-tion of the White Race — a nigger Harlem from the Atlantic to the Pacific, the perfect “melting-pot”. That evidently is what you fought to “protect”.

If you think that is worth crossing oceans for and getting your head shot off, be my guest, but I’m not with you. I am going to pledge my loyalty to my own race, and will spend the rest of my life fighting for it, but never for the perfidious Jews and the filthy niggers.

For a Whiter and Brighter World,

Creatively yours,

B. Klassen, P.M.

Mr. Paul B. Hurley **June 13, 1977**
Minneapolis, Minnesota

Dear Paul:

I received and read your "reflections", which didn't seem to be addressed to anyone in particular. Enclosed is a copy of my letter to Bob DePugh in which I voice my own "reflections" or better, assessment, of the meeting in Kansas City.

I find your "reflections" rather frivolous, without a single really constructive idea in it. It is easy to knock everybody else's efforts and then label them as phoney double agents, etc., if they didn't succeed overnight in defeating the Jewish conspiracy.

Let me ask you, Paul, who in the hell has succeeded? Have you? Even Adolf Hiter, who mounted the most tremendous power drive in history didn't succeed. But in NATURE'S ETERNAL RELIGION, I believe, I have planted the seeds of the most fundamental religious movement in history that has a chance of uniting and rallying the White Race. So what do you have to offer?

Speaking of frivolous observations, the fact that June Grem's picture is or was out-dated is irrelevant and extremely picayunish on your part. Who in the hell cares?

You evidently feel slighted that you weren't invited to some "secret rendezvous". What secret rendezvous? On Sunday night five of us went out for dinner, being tired of the hotel coffee shop. What is so "secret" about that? Are you against freedom of association? Should it have been announced in the Jewspapers? When I gave my speech to 200 people at the banquet, that too was not announced in the Jewspapers. So was it, too, secret? As far as you allegedly spending $25.00 for phone calls to me and June Grem, I don't know what the hell that is supposed to be all about. Who asked you to call at all? You got in contact with me once before the meeting, the point of which escapes me, other than to find out what June Grem's phone number was. Why you wanted to call June Grem, who didn't know you from Adam, also seems pointless.

As far as meeting with you, I did meet with you several times, but I don't recall you having anything particularly important that you wanted to discuss. So what the hell is your gripe?

Anyway, I couldn't care less. I don't have time to wet nurse everybody's ego. Either you have something constructive to contribute, either you are dedicated to the creed of Creativity, or you are not.

If you have nothing more important to say than griping about somebody's picture, or who had dinner without you, or other such silly nonsense, please don't unload your idiotic pet gripes on me. Just include me out. I don't have time to play games.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Dr. Robert Relf & Mr. Mick Cole **July 19, 1977**
Warwickshire, England

Dear Fellow Creators:

Your most interesting letter of July 14th has been received, and I am most gratified that the papers I sent you not only arrived promptly, but, evidently, were just what the doctor ordered. Not only do I hope that you win your case, but also that you reap the maximum of publicity, so as to awaken our White Racial Comrades and make them conscious of their great and unique racial destiny.

The best way to fight this battle, I am convinced, is under the banner of religion. Look at what the Jews have accomplished under the aegis of their racial religion. Look at the worldwide sweep of the Moslems under their (then) dynamic religion of Mohammedanism some 1,200 years ago. Working through a religious organization you have so many advantages — moral, legal, publicity and propaganda wise and from every other aspect you wish to explore. No political, civic or other movement can match it. I wish you would point this out more strongly to your British friend, Mike McLaughlin. I furthermore hope you will take full advantage of publicizing our creed and program to your friends in the motorcycle rallies in the future.

You owe us no money. We are only too glad to help. Remember — the resurrection and redemption of the potential of the White Race is the highest purpose to which we can inspire. In CREATIVITY, I believe we have the TOTAL PROGRAM, the FINAL SOLUTION, the ULTIMATE CREED. We are handing the drowning White Man a life saver on a silver platter, but unfortunately most of them, due to Jewish brain manipulation, are too dense to recognize it. Therefore we must be more vigorous in promoting and spreading the word. What I would like to see is every believer become a distributor of our White Man's Bible, NATURE'S ETERNAL RELIGION. Whereas you owe us nothing, we of the Church would be very happy if you would each order either the packet of eight NATURE'S ETERNAL RELIGION, or six records, SURVIVAL OF THE WHITE RACE, as described in the form letter I mailed previously, and fill out the application forms that came with it. This is our standard procedure for becoming a member of the Church, but of course in your case we

made the exception for the sake of expediency, which the situation demanded.

We also ordain Ministers of our Church, at no expense. We hope that you will apply for ordination, and organize and lead your own group. Good luck and let me hear from you.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Roy J. Constant **July 21, 1977**
N. Lauderdale, Florida

Dear Mr. Constant:

This letter is in follow-up to our telephone conversation and also the book, NATURE'S ETERNAL RELIGION I sent you previously.

I have been very much concerned about the damaging effects of busing our kids around like a bunch of cattle and forcing them to mix with the niggers. In fact, my concern started more than 10 years ago, and in 1969 I tried to organize opposition to it. Enclosed is an anti-busing flyer that we composed at that time. Although some of the material contained in it is now somewhat out of date (such as referring to President Nixon) by and large it is still as true and applicable now as it was then. If it is of any value to you, you are welcome to copy and utilize any of the ideas contained in it.

I hope you have taken the time to read the book. In it you will find the history and the basic cause as to why the White Race, the most intelligent and powerful force on the face of the earth, is now in the ridiculous position of fleeing before its weaker enemies. How did we get into such a shameful position? The book will tell, and also tell you what we can do about it.

I would be happy to get together with you and your group, and be of any help that I may. Please call me at your convenience at 941-1173.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Andrew Douglas **August 1, 1977**
Pretoria, South Africa

Dear Mr. Douglas:

This will acknowledge receipt of your letter of June 16th and the reprint from American Mercury entitled "Sex Perversion". Also I want to acknowledge receiving your material sent last October.

Whereas I have no particular disagreement with your premises,

I would say that my difference, if any, is a matter of emphasis. In order to get all the evils we are plagued with off our back, the White Man must: (a) Dump Christianity for a race oriented religion such as the CREATIVITY creed we have set forth in our White Man's Bible, NATURE'S ETERNAL RELIGION. (b) Get rid of the perfidious Jew. (c) Cleanse our land of the niggers and the mud races. (d) Teach our people wholesome and constructive ideas about sex (this comes easy and is part of our new religion), this applying especially to the young people. (e) Enable the young people to marry at a younger age and be able to financially support themselves.

All this we could and would easily accomplish once we got rid of the parasitic Jew. Homos and perverts would then no longer be a problem, nor would there be any need for prostitution. I repeat — the root of all evil lies in the treacherous Jew. Until we solve that problem we will never solve anything.

So the question is, how do we get the Jewitis poison out of our brain and the Jew off our back? The main requirement, as I see it, is to build the new racial religion as I have set forth in the book. As long as we are confused with Christianity and our own racial worth we will stumble to our execution like a drugged idiot. Therefore — distribute the book — spread the word — proselytize — organize. That sums it up in a sentence. It does no good dumping gloom and doom and bad news on people if they don't know what to do about it and we don't tell them. In CREATIVITY we have the TOTAL PROGRAM, the FINAL SOLUTION, the ULTIMATE CREED. Spread the word!

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. T. R. Taylor
Glendale, California

August 1, 1977

Dear Mr. Taylor:

Thank you for your kind and most encouraging letter of July 29th, also the $20.00 received. We have mailed a carton of eight copies of NATURE'S ETERNAL RELIGION to you today as well as two of our records, SURVIVAL OF THE WHITE RACE, which we have pressed recently.

It is most rewarding to hear from people like yourself, especially if they already harbored the same conclusions before they read the book. Not too long ago I heard from a gentleman in Long Beach who was in fact in the process of writing a similar book when a friend happened to loan him a copy of NATURE'S ETERNAL RELIGION. He says "I put away my manuscript and my typewriter, because there

I had in my hands the book I was going to write. You said it all." There are thousands of people who have written me letters in a similar vein except most of them only saw the light after, rather than before, they read the book. Therefore you can resolve any doubts you may have had about the validity of our conclusions. We are right and the world will someday know we are right, provided the White Race survives.

It is this latter uncertainty that pre-occupies my total concern. Whether the White Race survives or not is wholly dependent upon how effectively and how vigorously people like ourselves spread the word. If we can get 10 million copies of our White Man's Bible into the hands of our White Racial Comrades we will have the Jews and the niggers on the run, and we will be on our way to victory. When we consider that we, the White Race, spend more on welfare for the shiftless niggers in half an hour than it would cost us to distribute those 10 million books, it seems to me like a crying outrage that we receive so little support in this greatest of all causes. I often feel that I am handing the White Race a vehicle for survival on a silver platter, but the average yokel is too stupid to catch on.

So it is our duty to forge ahead and do all we can — we have no alternative except extinction — and that is not an acceptable alternative. I would like to see every true believer become an avid distributor of our White Man's Bible and I am most happy to enlist your cooperation. There are a number of ways to spread the word. The easiest is to be an individual distributor and encourage your contacts to do likewise. The records we are sending you should be of considerable help in inviting in friends and having them listen. Then have them read the book. Either sell it, loan it, or give it to them.

The next and most effective step is to organize a church organization under the auspices of the CHURCH OF THE CREATOR and build a movement in your area. There are any number of advantages operating under the auspices of a religious organization over that of a political organization. The gentleman from Long Beach I referred to is starting to do just that. His name is Rev. Harry H. Barton, a minister of our church. I am sure you two would appreciate getting together. In unity there is strength, as the Jews have proven to us a thousand times over.

We ordain ministers. There is no charge. If you would like to become a minister of the CHURCH OF THE CREATOR, please let me know and we will send you an application form.

We also have Membership Cards and Certificates, which entail a donation of $15.00 for which a carton of eight books or six records are given to the donor. Rev. Harry Barton August 4, 1977
Long Beach, California

Dear Harry:

It's been awhile since I've heard from you. I hope you are making progress and fulfilling your vow to yourself to dedicate your life to make a significant and meaningful contribution to the betterment of the White Race.

There are a number of items I would like to review:

1. A summary with conclusion on the telephone opinion survey. How many calls in total? How many favorable? How many worthwhile prospects, if any? Worth pursuing further? Any other observations?

2. Are you gaining any followers, members and distributors?

3. Recently I received a letter from Mr. T. R. Taylor of Glendale, California. Somebody loaned the book to him and he read it. He says, inter alia, quote "The conclusions you have drawn with respect to man's social, political and economic problems of the past and present, and which are so eloquently outlined in your book, are exactly the same conclusions which I have arrived at after years of extensive thought, observation and research." That says a lot. I am sure you two would have much in common and I gave him your name and telephone number. Perhaps he has already called you by now. He has ordered eight Bibles and two records which we duly shipped. Perhaps you two can reinforce each other in getting a nucleus organization going. Since the L.A. area has always been known for being the most fertile spawning ground of new religions, you should have a fertile field of about 10 million people in the Southern California area.

4. Regarding format and agenda of meetings and organizational structure, at this stage we can be quite flexible, as I have pointed out before. We have no need to slavishly follow the format of the Christian churches, but only insofar as it promotes our purpose. If you want to organize meetings like a political organization, or a civic club, fine. The real test is effectiveness of the methods in attaining

our goal, which AT THIS TIME is: (a) maximum dispersion of our Bibles (b) recruiting.

5. MAXIMUM DISPERSION. If the White Race survives, it will be eternally grateful to us for our pioneering efforts in giving them a Bible, a cohesive goal, a creed and a program. If it doesn't survive, nothing else matters a damn anyway, and we can only blame ourselves for not being aggressive enough when we had a golden opportunity. Therefore it is highly important that we get maximum dispersion and distribution at the outset, regardless of our own personal fate. Dispersion and organization is the core of the Jews power. With the numbers and capabilities we have, we can do a lot better. I want to get as wide a distribution of the book as quickly as possible regardless of cost or consequences. WE WANT TO CONVERT EVERY BELIEVER INTO AN AGGRESSIVE DISTRIBUTOR. How many hundreds of thousands of other Taylors or Harry Bartons have we left uncontacted and unorganized?

6. Did any of those half dozen leads I sent earlier prove of any value?

7. Did you find out whether Senator Jack Tenney is still alive and find out where to contact him? Did you get his book "Cry Brotherhood" I sent about a week ago?

8. Did you get the booklet I sent about N.E.W.S. interview with Harry Rosenthal? I think it is highly encouraging, especially the part where he says that once we begin to blow their cover, hell or high water won't stop the deluge, and that it's bound to come. LET US HASTEN THE TIME. Dispersion of our Bible is the key.

Please brief me on the above points and any other significant findings you have uncovered.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Earl E. Commins **August 8, 1977**
A. F. (Ret)
Avondale, Arizona

Dear Mr. Commins:

Thank you for your letter of August 4th, and also the $10.00 check and the other literature and newsclippings. I have no information about Szent-Gyorgi as to whether he is a Jew, but from the write up you sent, indications are fairly conclusive that he is one of the tribe. You can be sure that he is utilizing whatever ability he may have to promote the interests of the parasitic Jew and to help destroy the White Race.

Every time we read the papers it is always the same story —

the Mexicans are swarming across the border like a horde of cockroaches, taking over more and more of the land built up and developed by the White Man. No matter which way you turn it's bad news — the Jews, niggers and other mud races are multiplying, closing in on us and the White Man is retreating, getting weaker, diminishing in numbers and territory.

It is a desperate struggle for survival, with our side leaderless, without goals, without program, without any sense of identity. If we could get 10 million copies of our White Man's Bible into the hands of our White Racial Comrades, we would soon have the Jews and the niggers on the run and the battle won. When we consider that we spend more on welfare in half an hour on the shiftless niggers than 10 million books would cost, what a bargain for the White Race to get the books out! So let us make every true believer also a fervid distributor and get those 10 million books out before it is too late.

Enclosed is an interesting booklet in which a good (dead) kike tells all. His confession lays it out as to what they are doing to us and how.

Alfred B. Sabin
Oakland, California

August 29, 1977

Dear Mr. Sabin:

This will acknowledge receipt of your letter of August 23rd.

Regarding Mr. Joseph von Wagmann, I understand that he moved to Walnut Creek — not Colorado, but since I haven't heard further from him, I just don't know. Too bad. He seemed to have courage and leadership ability. How is our friend, Allen Vincent, doing since the raid? They have ordered several cartons of 32 books from us over the last several years and seem quite strong about our book, our ideas and our program. I met him in Houston last year.

It is unfortunate that you consider yourself too old to become an activist on behalf of the White Race in promoting the creed and program of the Church of the Creator. I realize it is a gigantic job we are tackling, but we don't have to do it overnite. It took the Jews 300 years to sell Christianity to the Romans. They didn't even have a text until Constantine slapped one together out of a number of incoherent and disparate scripts in the year 325 A.D.

The point is to get started building a viable dynamic religious organization that will grow and grow until we take in and represent the entire White Race, at least the best elements of it. We have the creed, the program and the text around which the White Race can

rally and build for the next million years. Your friend's remarks about Klassen wanting to take on Christianity as well as the Jews and the niggers is not one of my choosing. Our problem in the past is we have always ignored the one element that led us into the brain-trap of voluntarily subordinating ourselves to our inferiors — the Jews — and the niggers. That brain-trap has been Christianity. Until we replace that sick mind scrambler with a sound racial religion based on the eternal laws of Nature we never will extricate ourselves from the Jewish network.

The problem of trying to ignore Christianity is covered in Chapter 22, Part II, especially page 460. I tried it and got shot down repeatedly. So the White Race has to face up to the realities of life and quit meandering in a childish world of fantasy. I don't want to take on anymore enemies than necessary, but it is stupid not to recognize those that are already in existence, ready, willing and able to destroy us.

Since you do not feel that you would like to start a church group, I hope you will at least become an avid distributor of our White Man's Bible. This is something every loyal red-blooded White Man can do with a minimum of effort and exposure. It is our initial goal to place 10 million copies of our White Man's Bible into the hands of our White Racial Comrades. Once we have accomplished this much we will have the Jews and the niggers on the run. What a bargain that will be for the White Race! It costs us more to subsidize the shiftless niggers on welfare for half an hour than the 10 million books would cost.

Please keep me informed as to what progress you are making in this, the greatest and final struggle of the White Race. You are as important in that struggle as anybody.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Arthur Calland
Cheshire, England

August 30, 1977

Dear Mr. Calland:

Your letter of August 15th has been received and is greatly appreciated. We are getting a growing and burgeoning response from G.B. regarding our White Man's Bible. Perhaps this is so because G.B. has her back to the wall more so than does the U.S. and the time for CREATIVITY has arrived with a vengeance. There is nothing harder to stop than an idea whose time has come.

Your quote from "Coningsby" is interesting. The Jews, who concocted Christianity in order to destroy the Romans, have, of course known the sleazy origins of this brain scrambler all along. The Jewish

Encyclopedia guardly says the same thing — that Christianity is an off shoot of Judaism and that its originators were all Jews. That the White Man was so dense as to have been snookered by this poisonous hoax for nearly 2,000 years is hard to accept, but a fact of life. It reminds me of the ditty: "How odd of God to choose the Jews! But it's still more odd for those who hate the Jews to choose the Jewish God."

Anyway, we are stuck with the blight from this suicidal philosophy until such time as we can straighten out the White Man's thinking. And that is what CREATIVITY is all about. If we can distribute three million copies of our White Man's Bible in G.B. and ten million in the U.S., we will have the Jews and the niggers on the run. Let us strive to bring about that happy day! Let us strive to be a true believer in the White Race, an avid distributor of the book and set in motion a chain reaction that the Jews cannot stop! You can order eight copies for $15.00 (U.S.) from us directly.

Do your part! Delenda est Judaica!

August 30, 1977

Dear White Racial Comrades:

When I returned home from a two week absence, your letter of August 14th had arrived previously. Since I presume your court case of August 22nd has by now taken place, I am most anxious to hear about the developments. I would think your swearing in on the White Man's Bible and on the Church of the Creator should set them back on their heels and also provide an excellent vehicle for publicity. However, with the Jews being propaganda wise, they might suppress it. Anyway, I am eager to hear.

I hope that when both of you get settled (after the case) that you will both fill out the applications for membership in the church (which you have already received) and also order the cartons of eight Bibles each for the donation of $15.00 to the church.

We would like to see three million copies of our White Man's Bible distributed to our White Racial Comrades in Britain, ten million in the U.S. Once we have done that much we will have the Jews and the niggers on the run. What a happy day that will be! We want to make every true believer in the White Race a distributor of the book, and thereby set in motion a chain reaction that the Jews will be unable to stop. There is nothing the Jews fear more than an arous-

ed and awakened White Race. Let us make damn sure their worst fears come true! Let us strive for the redemption and resurrection of the glorious destiny inherent in Nature's promise to the White Race.

Mrs. Charlotte Lillie
Tallahassee, Florida

August 31, 1977

Dear Mrs. Lillie:

Thank you for your news clippings which illustrates the continuing interest in the Latin language and things Roman. It also confirms what I say in my book about the unique and beneficial aspects of the Latin language. It would be wonerful if we could have given each one of these 2,000 students a copy of our White Man's Bible, NATURE'S ETERNAL RELIGION.

Perhaps you could contact the local sponsors and make the book available, Also, perhaps if we could find out the date of next year's meeting, I could be there personally to pass out copies.

Please check into it. In the meantime do your best to distribute as many copies of our White Man's Bible as you possibly can. If we can get 10 million copies into the hands of our White Racial Comrades we will have the Jews and the niggers on the run. Let's make every true believer in the White Race an avid distributor and build a chain reaction that will be impossible for the Jews to stop. There is nothing the Jews fear more than an aroused and awakened White Race. Let's make damn sure we make their worst fears a reality.

Mr. Alfred B. Sabin
Oakland, California

September 7, 1977

Dear Mr. Sabin:

Thank you for your letter of September 2nd and your check in the amount of $15.00. We shipped a carton of eight NATURE'S ETERNAL RELIGION to you on September 6th. I hope you will bend every effort to distribute as many copies as you can to help straighten out the thinking of our White Racial Comrades and help get those first 10 million copies out.

Regarding “fear of reprisal” etc. I have not the slightest fear, but only utter contempt for the enemy. If we are going to cringe with fear of the Jews like a quivering jellyfish, we are licked before we start. It is the means by which a small inferior minority can destroy a larger more powerful majority, and it is a stupidity in which we, the White Race, the foremost fighters of all time, cannot afford to indulge.

Read again the chapter on “The Book of Esther” and fear of the Jews, and the chapter on “Horatius at the Bridge”. That spells out pretty well how I feel about the situation. We all have to go sometime. Why waste our lives worrying about it?

Anyone who dwells on fear of death, can soon become paranoid. My suggestion is forget about it, the less said the better. Instead, THINK AND PLAN VICTORY and make the enemy worry about their fate.

Mr. Gary Grance
Englewood, Colorado

October 13, 1977

Dear Mr. Grance:

Thank you for your letter of October 6th. It is always good to hear from young people because they are still at a stage in life where they can vastly improve their thinking and change for the better, and secondly, they have a long life span ahead in which to accomplish great things.

Regarding your question about inter-racial marriages. I believe you have pretty well answered it in your own letter. You say ‘Race mixing is a crime against nature and god, this I understand.” Therefore, if it is a “crime against nature” it is unnatural, abnormal, deviate. It is against your natural instincts, and a result of the massive brain pollution that the Jewish news media have foisted on all of us. We must recognize it as such and de-toxify our brains of this Jewish poison, in the same way you would de-toxify yourself of massive dope addiction.

We cannot “whiten their blood”. We can only downgrade and doom our offspring to the stigma and handicaps of being bastardized mongrels by breeding with the mud races. Think about it. What would you think of your father if he had done that to you, if you were a mongrelized misfit that did not belong either to the White Race, nor had a natural belonging with some mud race? You wouldn't like it. Why relegate your children to such a miserable fate when you could just as easily marry some nice attractive White girl and raise

beautiful intelligent White children.

Enclosed is a copy of Q & A. I hope in it you will find some further answers.

For a Whiter and Brighter World,

B. Klassen, P.M.

Mr. Robert Relf October 13, 1977
Warwickshire, England

Dear Mr. Relf:

It was good to hear from you again, and also to receive your clippings, all of which I have read. You certainly got a lot of publicity.

I don't know what further information I could send you outside of what is contained in our Bible. It is all in the book. As to our Articles of Faith, they are summarized in the Chapter on the 16 Commandments, but actually the whole book must be read in order to understand our creed and our program. As far as further details about our number, membership, etc. that is irrelevant and none of their damn business.

I wish you lots of success in your appeal. Let them know that you are one Englishman that they can't cow, bluff or intimidate. Good Luck.

For a Whiter and Brighter World,

Frank R. Purinton October 24, 1977
Holiday, Florida

Dear Frank:

Thank you for your kind letter on my behalf sent to the A. O. Bookstore in Ft. Lauderdale. However, I believe you overstate my case, since I don't feel I am a "great man". I am just exposing the Jewish conspiracy from its very inception, and suggesting a creed and a program for the White Man with which to extricate himself from this unholy mess. All this was done in the light of facts, history and logic as I see it.

By the way, whether I like to or not, I am still considered a J.B.S. member, having unwittingly contributed $1000.00 to their gang for a life membership ten years ago. However, I have not had any contact with that gang of Jewish apologizers since 1969, and they shun me as if I had leprosy. But Belmont still keeps sending me their Jew-protecting bulletin.

I don't foresee any immediate collapse of the economy. I believe the Jew's strategy is slow rot and racial degeneration, meanwhile pumping the black blood of Africa into the veins of White America and the preponderant proliferation of the mud races all over the world. Once they have the world mongrelized, they have it made. The mongrels will be too stupid to ever turn on them.

P. M. Young, Exec. V.P. October 24, 1977
Institute for American Research
Galesburg, Illinois

Dear Mr. Young:

This will acknowledge receipt of your invitation to a conference to be held in Galesburg in January. Thank you very much.

Evidently, according to your letter, the objective is "to formulate both a worldview and a program for racial re-vitalization". That sounds good and I'm all for it, especially a racial program for the survival, expansion and advancement of the White Race.

However, before I spend several hundred dollars on plane fare, hotel accommodations, etc., and leave sunny Florida for cold Illinois in the middle of winter, I'd like to know a little more about the thinking of a group that from the letterhead claims to cover territory all the way from Los Angeles to Munich to Taipei. Some of these questions are:

Are you serious about a program purging the niggers from out of White America and shipping them back to Africa? Are you serious about purging America (and the world) of the Jewish pestilence? Are you for the expansion of the White Race and shrinking the mud races regardless of territory? If so, how does Taipei fit into the picture?

We of the CHURCH OF THE CREATOR already have "a worldview". In fact we have a creed, a philosophy, a Weltanschauung and a religion, all wrapped up in one ball of wax. We also have a dynamic program as to how to bring it about. In CREATIVITY we have the TOTAL PROGRAM, the FINAL SOLUTION, the ULTIMATE CREED. Enclosed is a Question & Answer flyer that answers SOME of the questions about CREATIVITY. In order to get the full picture, however, you have to read our White Man's Bible, NATURE'S ETERNAL RELIGION. Perhaps you already have, since you have our address. In any case, I am sending you a copy of the book to cover this point and save time.

Frankly, I am very dubious of any group or committee formulating any "worldview" or program, especially on a subject as con-

troversial as the racial issue. The Jews in their Protocols (Protocol No. 10) state that "a scheme of government should come ready made from one brain, because it will never be clinched firmly if it is allowed to be split into fractional parts from the minds of many". In this they are right. Every significant movement, such as Mohammedanism, Mormonism, Fascism, National Socialism, etc., were the ideas of one man, such idea then sold to the masses, then organized, expanded and extended on from the original premises. I can think of no great idea or movement that was formulated by a group or committee. Such programs usually result in a patchwork quilt of compromise and contradiction, and are usually doomed to failure. If you are not familiar with the Protocols, I expound (too briefly) on them in Chapters 19 and 20, Book I. of NATURE'S ETERNAL RELIGION.

There are certain conditions that I consider as pre-requisites before any such meeting as you contemplate could at all have any meaningful purpose. One is: do you have any Jews in your membership? If so, forget it. They will wreck whatever "racial" program you might devise. No. two: Is your membership infected with the Jewish Christianity virus? If so, it is doomed to failure, since they are no longer capable of thinking rationally.

If the answers to the above questions are negative, and if you think that the philosophy of CREATIVITY could expect an open-minded hearing (that is all I ask) I would be favorable to coming to the meeting. Otherwise I'd be wasting my time and money.

Please give me more information about both your membership and their thinking. I suspect that we have much to gain in an exchange of information. Also, I would appreciate your telephone number. Mine is: (305) 941-1173.

For a Whiter and Brighter World,

B. Klassen, P.M.

Segment 33

Mr. G. Edward Griffin **October 31, 1977**
American Media
Westlake Village, California

Dear Ed:

I have just finished reading your two books, WORLD WITHOUT CANCER, PART I and II. Since I have always admired both your speaking ability and writing ability, and had some personal contacts with you in the past, I would like to make some comments about the above books, some of which will be laudatory and some of which will be highly critical. However, even the latter, I hope, will be constructive and I hope will be considered in that light.

You may or may not remember, but we have met on two different occasions. The first time was about 12 years ago when I was chairman of the Fact Finder's Forum in Ft. Lauderdale, and I invited you to speak to our group at the Governor's Club Hotel. The second time was a similar occasion about two or three years later at the same place but someone else was heading up the speakers group. Also, for six years I was extremely active in the J.B.S. in Broward County until I finally came to the grim realization and agonizing reappraisal that this organization's primary role was to act as a protective smokescreen for the Jewish program of mongrelizing the White Race. In short, the J.B.S. was and is a Jewish front, designed to delude and neutralize any opposition to the Jewish take-over.

Before you turn a deaf ear as does the F.D.A. to the benefits of Laetrile, please hear me out and don't throw this letter in the waste basket. You might learn something, much of which is based on many of your own arguments and principles.

1. Part I. of your book expounding on the developments and merits of Laetrile as well as the covert and overt suppression of it by the F.D.A., and A.C.S. and the A.M.A. is excellent. I note that you stress again and again that Nature's way is best, in nutrients, in healing and in the prevention of illness. In this I concur, and in fact I have written a book on this subject as it applies to religion and philosophy regarding the survival of the species, with particular emphasis on the survival, expansion and advancement of the White Race. It is called NATURE'S ETERNAL RELIGION and I am enclosing a copy of it, under separate cover, for your exploration.

2. When it comes to Part II. of "Cancer" you carry the cancer analogy forward and show how the same malaise is rampant in our

government and how this, if left unchecked, will ultimately result in the demise of our nation and, in fact, our whole civilization. With this premise, too, I am heartily in accord. What I find serious fault with is that you go to a certain point along the trail, and then stop dead in your tracks. It is as if you had been dropped by a .44 Magnum when you should be following that trail to its ultimate conclusion.

3. Having been in the Birch Society for six years myself and exhausted its philosophy, I am well aware as to why you do so. Like the A.M.A. which spends and/or promotes, supervises, etc. the expenditure of hundreds of millions in the "search" for a "cure" for cancer, so too does the J.B.S. "search" for a cure for "communism". But like the A.M.A. you are bound to stick to the "orthodox" line. Try to venture outside of that narrowly channeled program, and try to follow the trail to wherever truth, facts and logic may lead you, and all hell breaks loose. I should know. I not only tried it, but persisted in it. The hate and invective the Birchers then turned on me were far more vicious and sincere than that which they pretend to reserve for their supposed arch-enemies, the communists. This is rather strange, since I have been an early life-long victim of communism since I was born in Russia nearly 60 years ago. I hated and despised communism and expounded on it at least 40 years before anyone ever heard of the Birch Society.

4. The thing that I take issue with you in the second part of "Cancer" is that you stubbornly refuse to learn what I have learned a long time ago—and that is to identify the cause from the effects. Just as the A.M.A. — A.C.S. — A.C.I. stubbornly refuse to look into cancer as being caused by a nutritional deficiency, so you and the J.B.S. stubbornly refuse to read, discuss, debate the overwhelming evidence that "communism" is AN EFFECT caused by an extremely aggressive and parasitic virus — namely the tribe of Judah. In short there is, to use your phraseology "a mountain of evidence" plainly available that the Jews on a worldwide basis are intrinsically the creators and the cause behind not only communism, but the Federal Reserve, inflation, pornography, drug abuse, perpetual wars and a host of other evils. Try to bring this up at any J.B.S. meeting for honest discussion, and hell-fire and retribution are your lot. Their minds are as closed and their attitude as vicious as that of the F.D.A. about discussing or considering the mountains of evidence available about all the cancer victims who have been greatly helped by Laetrile.

5. At this point I can hear you mentally challenging me with the well-worn Birch cliches — can you prove it? Can you document it? In this respect I refer you to your own premise I read in one of your earlier books THE GREAT PRISON BREAK, I believe, where you say something to the effect (I am quoting from memory) that "proof" like beauty, is only in the eyes of the beholder, and nothing

can be proven to anybody if they don't want to accept your "proof". There remains only evidence, which comes in different forms, quantitatively and above all, qualitatively. It must be sorted, weighed, evaluated and above all, judged in a logical manner. In this respect there are "mountains of evidence" that the "cause" of the world's evils of the worldwide conspiracy that is causing degeneration and rot of our civilization is the worldwide Jewish network, albeit aided and abetted by chabez-goi, as the Jews call them. These chabez-goi are the traitors of the White Race who front for the Jews and help them perpetrate their dirty work.

6. It is not in the purvey of this letter to list all that evidence, since it would take the equal of the J.B.S. bibliography to do so. I might refer you to a few such books as Henry Ford's four-book volume "The International Jew"; Frank R. Britton's "Behind Communism"; or your own California ex-State Senator Jack Tenney's excellent expose of the tentacles of the Anti-Defamation League "Cry Brotherhood", to name a few. Above all READ AND COMPARE "The Protocols" WITH WHAT HAS HAPPENED both before and after they came out over 70 years ago. (Oy vey! they're forgeries! I know! I know! Jew Senator Jacob Javits himself says so and set up a Senate Committee to PROVE it. The more I'm convinced!)

7. Most likely I'm not telling anything you don't already know. You being a capable investigative reporter, all this material must have come into your hands, mostly without even any effort on your part, since your readers undoubtedly sent you much of it and more to spare! Again, going back to your expose of the F.D.A., it, too, like yourself has undoubtedly had a tremendous amount of evidence handed to it gratis. To all of which it has turned a deaf ear. Why? Because it doesn't want to hear the truth. As you succinctly demonstrate, its very function is to suppress the truth and to prevent the cure of cancer, among other ailments. Why? Because it is a tool of vested interests in whose interest it is not to solve the problem, but to aggravate and perpetuate it.

8. So now we come to you. You make a great case pointing the finger at I. G. Farben and Adolf Hitler, and from there on out the tentacles spread out like a network and cover the world like a fishnet. How absurd! How idiotic! This is even a bigger lie than what the A.M.A. — A.C.S. — F.D.A. gang says about Laetrile and apricot pits being poisonous because they have cyanide in them, but the technique is the same. After all, there is a kernel of truth about the cyanide bit, harmless though it be. And so it is with your premise of: it all started in Germany and that arch-fiend, Adolf Hitler. To use a little common sense, let us look at the evidence. Henry Ford spent five million dollars and employed some of his best talent to research the nefarious activities of the Jewish network on a worldwide basis.

He was originally a poor farm boy like myself, but through sheer genius and enterprise built a multi-billion dollar empire, which the Jews tried to steal from him. He could hardly be one of the boys himself, since he opposed the conspiracy with a passion and exposed the PROTOCOLS as no one had ever done before him. He did so between the years 1920-1922. This is what he says, and remember this over 55 years ago, before you were born: "To make a list of the lines of businesses controlled by the Jews of the United States would be to touch most of the vital industries of the Country — those that are really vital and those which cultivated habit have been made to seem vital". He goes on to list Jewish monopoly and control in theatrical business; motion picture business; tobacco industry; shoe manufacturing; musical purveying; jewelry; grain; cotton; oil; steel; liquor business, etc. covering the total spectrum. These and every other industry, he says, were controlled by the Jews in the U.S., either alone or in association with the Jews overseas, (International Jewry).

Now you say on page 248 of "Cancer" that "I. G. Farben was created in 1926" — This was several years after Henry Ford had already written his expose in the Dearborn Independent and at a time when post-war Germany lay defeated and prostrate, overrun with Jews. After torpedoing Germany from within and causing her to lose the war, they then thoroughly ransacked the carcass in the great runaway German inflation of 1923. Their American Jewish cousins then swarmed in like locusts, bought up everything in sight for two cents on the dollar from a starving German people (that which was left and they had not already owned previously). So who in the hell do you think owned I.G. Farben? Why do you suppress this vital piece of information?

As far as Hitler is concerned, he was unknown when Henry Ford wrote his great expose in 1920-22. How ridiculous to blame Hitler. He came on the scene a little bit late for a conspiracy that had been going on for thousands of years.

9. We next come to the Rockefellers, whom I despise as much, or more, than you do. But have you ever heard of the Rothschilds? Oil in America wasn't even discovered until 1859. It took another 20 to 30 years to become a major industry. Long before this the Jews already had seized firm control of the Bank of England (1696) and by 1814 after Waterloo, through deceit and trickery they spread false reports of that battle and cleaned up the English stock market. Rothschild's (Mayer Amshel's) five sons soon controlled and had the banking monopoly sewed up in the five major capitals of Europe — London, Paris, Vienna, Naples and Frankfurt. They and their Jewish cohorts had the financial power to buy up and monopolize any existing or fledgling industry that came along. They instigated and financed the American Civil War — both sides — North and South.

When Rockefeller and the oil industry came along they latched onto that too. They financed Rockefeller and I understand they have at least a 51 per cent control of anything or everything the Rockefellers now own, ever owned in the past or will own in the future. Whereas I understand the NET WORTH of the combined Rockefeller empire is approximately five billion (a tidy sum) that of the Rothschild group is at least 500 billion worldwide and in firm control. This is a reasonable conclusion since they had the money market and everything else tied up long before the Rockefellers came along. You can be pretty sure the Jews were not asleep at the switch, idly sitting by, while Rockefeller was drilling oil wells, now can you? But strange-ly enough, you seem to be blissfully unaware of the Rothschild powerhouse, or Kuhn, Loeb and Co., or the Lazares Bros., or dozens of other Jewish stock brokerage houses that own and control every major company and industry not only in the U.S. but in the world. Very strange. But that's the line Robert the Welcher laid down for you, isn't it? Blame Hitler and the Germans, just like they do on the Jewish boob-tube networks every evening in programs like Hogan's Heroes, etc. In summary about the Rockefellers: they are Jewish stooges, very wealthy it is true, but playing an important part in the Jewish conspiracy: (a) betraying the White Race and (b) acting as a lightning rod to protect Jewish control, and people like you can eternally remind the rest of us again and again — Well, look at the Rockefellers — they're not Jewish and they control — etc., etc. Very convenient, especially if there are enough stooges to keep pointing this out and covering up for the Jews. Much like the story of the cyanide in the apricot pits.

10. So why are you covering up for the Jews; running interference for them and pointing the finger elsewhere? I might ask you as you do on page 479 — "Who are THEY, John? Why would anyone want to hold back a cure for cancer?" Ed, why would you want to protect the Jewish network? They have been around and been a cancer on the body of all humanity for the last 5,000 years. Why would you want to help throw a smoke screen over THAT conspiracy? Let me remind you what the real aim of the Jewish conspiracy is: To mongrelize the White Race into a brown conglomerate of mud races — dumb, ignorant, helpless and compliant — the perfect "melting pot" that is so highly eulogized in today's mass media. This is not abstract theory. It is happening before your very eyes — forced bus-ing, forced "open housing", forced integration. The dumb, shiftless niggers are praised to the skies, but the White Man is calumnied and bad-mouthed at every turn. What is the Birch Society doing about it? Nothing except covering up for the Jews and niggers. That's why I left it eight years ago after I had (stupidly) sunk thousands of dollars and thousands of hours of my time into it, including a $1000.00 life

membership.

11. What are you doing about it, Ed? From the way it looks to me they have you locked in just like the doctors in the A.M.A. and you don't dare blow the cover. After all you wouldn't have an outlet for your books anymore, would you? And no books, no meat on the table, right? So you go along and sell out your birthright and the future of your children and your children's children, none of whom will be able to survive in the Jewish multi-racial world of the future. But you don't care. Or do you? Right now you're a big shot and selling books.

Well like Hubert Humphrey, like the Kennedy brothers, their perfidy to their own race was REWARDED IN THEIR OWN DESTRUCTION. THINK IT OVER.

12. The blindness of the Kosher Konservatives (Birchers, Right-wingers, Christians, etc.) regarding the race issue is phenomenal. Yet it is the very crux of the war that is now going on. The blacks know it, the Jews know, the Mexicans know it. Only the White Man is struck with paralysis and blindness on this vital issue. All you have to do is look at what is happening to every major city in the U. S. today — Los Angeles, Chicago, Cleveland, Detroit, New York — you name it and each is getting blacker — and more rotten to the core.

Now let me ask you — could you and your family survive in the middle of Harlem? No, you could not. How would you like to live in a United States that is one big expansion of Harlem? Wall-to-wall niggers? That's the Jewish goal — and that's what you are going to get. While you Birchers and other Kosher Konservatives are prattling about patriotism, the flag and the constitution, the niggers, Puerto Ricans, Mexicanos and the rest of the mud races are swarming in by the millions. They are neatly programmed and financed by the Jews with the White Man's money. Like one working man told me — "you can talk all you want to, but when the niggers go to bed at night they are screwing you out of house and home".

13. SOCIALISM AND/OR COLLECTIVISM are nothing more or less than ORGANIZED SOCIETY. When you repeatedly point to socialism or collectivism as being the root of all evil, you had better re-examine your basic premises. Robert the Welcher and the whole Kosher Konservative movement have been so thoroughly indoctrinated (brainwashed) with this silly idea (about the evils of socialism) that they can't think straight. If you will stop and think for a minute and use that excellent intelligence you were endowed with by Nature, you would find that every basic step toward a better and healthier civilization is collectivist. It is as necessary as the air we breathe, and civilization would soon collapse without it. Socialism or collectivism is nothing more than organized society, and without organization and collective effort we would soon regress back to the

barbaric state of our caveman ancestors. Every segment of every healthy society is collectivist. Your schools are collectivist, your churches; every government, past, present or future; every fraternal club; every factory; every police dept., army, navy, air force, and even the family. See Chapter 6, Page 317 of NATURE'S ETERNAL RELIGION. Also read about the Hutterites, Page 323-24, who for generations have managed to raise large, wholesome, and beautiful families, although their society is about as collectivist as you can get. Their secret? They managed to keep the Jews out.

Every society must have organization, leaders and followers, not only in government itself, but in the thousands of segments and subdivisions, such as the factories, business enterprises, schools, etc. It must have laws, rules and regulations. It must have authority and means of enforcing that authority. But you keep pointing your finger at the wrong culprit. THE REAL ROOT OF ALL EVIL is not organized society or socialism or collectivism, but the PERFIDIOUS ALIEN JEW, who has infiltrated our society, usurped the levers of power and perverted our society into a Jewish Cancer.

14. If the A.M.A., which keeps pushing false premises of cut, burn and poison, would be open minded enough to explore Laetrile or Dr. Carey Reams' program, they would be heading for a rapid solution. Likewise, if you Birchers wouldn't be locked into such narrow blinders and instead explore the Jewish cancer, we would be making some real, rapid progress. But the Welcher keeps screaming "Taboo! Taboo!" and you paralyzed littles stooges turn off your thinking apparatus and fall in line like the manipulated little puppets you are.

15. FREE ENTERPRISE. This is another subject you have garbled in your book and don't follow your own premises to their natural conclusions. You seem to infer that if only the government would keep out of it and let free enterprise run its course, everything would be self-regulated, we would have a free interplay of competition, there would be no monopoly, prices would be low and everything would be just rosy. You are wrong on all counts. Just think this through. Have you ever played Monopoly? Everybody starts out small and on an equal basis. As the game goes along, one or the other gains advantages and becomes stronger — the stronger an individual gets the more power he has to wipe out his competition and finally one party ends up with all the railroads, banks, real estate, etc.

It is the same in real life. Unchecked and unregulated, a single power, such as the Rothschilds can make a clean sweep, own every bank, every railroad, every oil company, every piece of real estate, and yes, every government in the world. They are, in fact, well on their way to doing so now.

So much for your silly idea about the virtues of out and out

laissez-faire or free enterprise. For the solution to the problems, if you are really interested in solving the problem (the A.M.A. is not interested in finding a solution to cancer) read Chapter 7, page 327 of NATURE'S ETERNAL RELIGION.

16. By the way, in your treatment of cancer, how does it happen you completely ignore Dr. Carey Reams' program, who claims to have lost only six "terminal" cancer patients out of approximately 10 thousand treated. That's much better than the 60 per cent, or whatever, claimed by Laetrile practitioners. Why do you ignore it?

17. One of the most abominable lies the Birch Society has been spreading since its inception is the idea that Communism and Hitler's National Socialism are synonymous. This is as big a lie as if the F.D.A. said that the Laetrile cure is as bad or worse than dying from cancer. That's what your bunch is saying and has been for years — and it is a damnable lie. Let me ask you — who except Hitler and the Germans have ever mounted a meaningful powerhouse and taken it to the very gates of Moscow? How would you go about destroying communism? Who has ever been more serious and done more than Hitler? I have been to Germany and Austria at least four times since World War II and talked to taxi-drivers, businessmen, housewives, etc. Their consensus is — Hitler was pure gold — it was the brightest era in their entire history. Among my own people, the Mennonites left Russia in droves after the revolution and settled elsewhere — Canada, Paraguay, etc. We ourselves settled in Saskatchewan, Canada. Several of my people during the 30's pulled up stakes in Saskatchewan and moved to Hitler's Germany. Their reports and letters were glowing with enthusiasm.

At the same time some of our relatives were left behind in Russia. What few reports came through were dismal and shrouded with fear. The difference between Russia and Germany in the 30's was as wide as any place on earth. Germany was humming with enthusiasm, industry and progress, regenerated spiritually, economically and politically, while our own people even in resources-rich U.S. were wallowing in depression and hopelessness. Yet you Birchers keep persistently lying about Germany and Hitler just like Robert the Welcher tells you to, and just as this despicable traitor to the White Race is in turn told to do by his Jewish masters.

18. The argument that the Jews "can't possibly wield that much influence — "look at their small number" — doesn't hold water. Going back to the drug analogy, let us look how little of the "active ingredient" it takes to produce results. In the nose-spray, neosynephrine, it only take 1/4 per cent to do the job. The other 99 3/4 per cent is water, but it is "inert". It is that 1/4 per cent that is active. If you drank a glass of water that had one part L.S.D. to 10 thousand parts water you would be on a very wild trip. That one

part active ingredient is much more potent than the 10 thousand parts inert material — water. And so it is with the Jews in our midst. The Jew is fanatically loyal and partisan to his race and Israel. He doesn't give a tinker's damn what country he lives in. Jews are a race, a religion and a nation all wrapped up in one ball of wax. And because for thousands of years they have had a goal, a program, and dedication to their race — all of which the White Race lacks — they are the "active ingredient" that makes things happen in this world. In the meantime the White Man is stupidly standing by (inertly) and allowing himself to be destroyed. But this subject is taboo in your lexicon, just as Laetrile is to the A.M.A.

It is the goal and purpose of the CHURCH OF THE CREATOR to see to it that the White Race is not destroyed. If you have any natural instincts left after all the brain pollution over all these years, and feel any loyalty toward your own race, you will find in NATURE'S ETERNAL RELIGION, the TOTAL PROGRAM, the FINAL SOLUTION, the ULTIMATE CREED for the survival, expansion and advancement of your own kind. A copy is being mailed to you under separate cover. Read the enclosed BEHIND COMMUNISM also. Why not read and perhaps learn THERE IS A SALVATION from the Jewish cancer that is destroying the world.

For a Whiter and Brighter World,
Creatively yours,

Segment 34

Dr. Arthur Schramm **October 31, 1977**
Yucaipa, California

Dear Dr. Schramm:

Thank you for your letter of October 26th, and the $3.00 check. We are mailing a copy of our book, NATURE'S ETERNAL RELIGION to Dr. von Moger in Australia, as you request.

The P.M. after my name stands for Pontifex Maximus (indicated in the letterhead). However, this is not in anyway in imitation of the Pontiff of the Roman Catholic Church. Instead it is a revival of the old pagan tradition of the ancient Romans whose religious leaders assumed that title as head of the state religion. When Christianity destroyed the Roman religion and the Romans along with it, they then usurped that title and adopted the organizational genius of the Romans they were about to destroy.

It is the purpose of the CHURCH OF THE CREATOR to revive those customs, titles and ideas of those phases of our great White civilized world that were pinnacles of progress, inspiration and greatness. Among these, the marvelous accomplishments of ancient Rome rank high, as do the fantastic courage and energy of Hitler's Germany.

It is our hope that every White Racial Comrade who believes in the future restoration of the White Race will become an avid distributor of our White Man's Bible, NATURE'S ETERNAL RELIGION. I hope you will join us. You can buy a packet of eight copies for $15.00, as shown on our Bookmarkers.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Alfred B. Sabin **December 1, 1977**
Oakland, California

Dear Mr. Sabin:

Many thanks for your letter of November 21st. Your ideas of driving home to the White Man his shameful lack of loyalty to his own kind have much merit. I am, in fact, writing another book in which I devote a whole chapter on the subject of "Hell". However, I demonstrate what a horrendously cruel concept it is, an idea that could only be dredged up from the lowest depths of a depraved collective Jewish mind, and how it has been used over the ages to cow

and terrorize the superstitious and the gullible into believing whatever garbage the religious priesthood dished out.

Our concept of sin is summarized in our Golden Rule: Whatever is good for the White Race is the highest virtue; whatever is bad for the White Race is the ultimate vice.

I am trying to pound home the idea to our White Racial Comrades that the problem isn't really the Jews and the niggers, but our own screwed-up thinking, and it all started when the Jew sold us that unreal, far-out doctrine of Christianity. So we have to get back to Nature's Laws, back to reality. We also have to get organized for our own best interests. I believe the best program and the best creed to do this resides in NATURE'S ETERNAL RELIGION. The more books, records and flyers you can get out to our White Racial Comrades, the more of an impact we will make in achieving our goal.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Rev. Ben Kriegh — December 1, 1977

Boulder, Colorado

Dear Ben:

Your letter of November 4th is highly informative and I appreciate the information about the Institute for American Research (IAR). I inquired of some other contacts about it also, in an effort to make up my mind as to whether or not to attend. I have also received a further letter from George R. Cranford, who ordered 10 Bibles from me about six months ago. His letter is encouraging and he sent me a copy of the program for the coming conference. I notice I am listed to talk about "Spiritual and psychological development of new adepts" in the workshop session, but have not been informed about this from Mr. Young.

There is a serious discord in this picture. When I first received the invitation to attend, in the routine process of checking out the organization, I also wrote a long-time correspondent of mine, Dr. Revilo P. Oliver, who is an author in four languages and a professor at the University of Illinois at Urbana. You have undoubtedly heard of him. He was one of the original 12 that founded the Birch Society, but broke with Welch about 10 years ago on the issue of Judaism and now is one of his bitterest enemies. I regard him as extremely intelligent and well-informed, shares our racial and religious views, and has enthusiastically endorsed NATURE'S ETERNAL RELIGION. He is no longer much of an activist, confining most of his activities to writing.

Anyway, he seems to be thoroughly familiar with P. M. Young

and calls him “a plump Jew”. I am enclosing a copy of his letter, which I consider as strictly confidential between us at this time.

In view of all this I have mixed feelings about the I.A.R. and would rather like to resolve some of these questions before I make an expenditure of several hundred dollars in making a trip to Galesburg. I don’t believe I can do this before January and am therefore going to decline this year. It is my feeling that there are undoubtedly many good people in the group, people like yourself, Cranston, Von Stahl, and many others that I haven’t heard of. However, if the spark plug and organizer is a Jew as Dr. Oliver says, then you can be sure it is another neutralizing action similar to the Birch Society.

In any case, if you are going anyway, you could represent our views as capably as I could, about the superior advantages of having a religious organization to any other form, from a moral, legal and psychological point of view. Also, if you can give me the names and addresses of the members that would be receptive to our Bible, but still do not have one, I will be glad to send them a copy.

Let us remember, whereas the I.A.R. may be confused and foundering about a proper creed and program, we have it. In CREATIVITY we have the TOTAL PROGRAM, THE FINAL SOLUTION, the ULTIMATE CREED. So let’s keep our eye on the ball and let nothing divert us. Utilize all the contacts that you can make, but don’t let anybody divert you from the firm course we have chosen. We know where we are going. We just need a million more good White Racial Comrades to swell our army.

Let me know your reaction to Dr. Oliver’s letter and keep me informed about your plans. What you say about expanding your home for a meeting place and future plans is most gratifying. Keep up the good work.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

P. Charles Labbe, U.L.
Ashton, Rhode Island

December 1, 1977

Dear Mr. Labbe:

Thank you for your good letter of November 9th. If you prefer to work for the triumph of the White Race with the Nazi party as a vehicle that is fine. We are trying to accomplish the same goal—freeing the White Race from the clutches of Jewish tyranny and having the White Man wrest control of his future destiny into his own capable hands.

There is no conflict between the Nazi philosophy and CREATIVI-

TY. My argument is that CREATIVITY is much more comprehensive and has progressed philosophically from where N.S. left off 50 years ago, to include the extremely important area of religion. Since N.S. designates itself as a POLITICAL PARTY it leaves vacant that huge and important area of religion an unresolved question —a dilemma that creates untold conflicts in the individual and in the organization. You cannot go to church on Sunday and embrace the teaching that the Jews are "God's chosen people" and then fight them the rest of the week. It is a direct contradiction. It is an impossible conflict of convictions.

In Creativity we have resoundingly resolved that question and de-toxified the White Man's brain and cleared up his thinking to be immune from this two thousand year old Jewish hoax.

I would suggest that you pursue both movements, the Nazi party as your POLITICAL arm and the CHURCH OF THE CREATOR as your RELIGIOUS home. They are not in conflict but are strongly supportive of each other. After all, other people are politically Democrats and Republicans, and have their religious preferences as to whether they are (unfortunately!) Protestants, Catholics, etc. I would further suggest that you widen the vision of your associates to become familiar with Creativity by distributing our White Man's Bible, and NATURE'S ETERNAL RELIGION. It takes in the whole ball of wax —religion, economics, morals, and politics. In it we have the TOTAL PROGRAM, the FINAL SOLUTION, the ULTIMATE CREED. Don't just LEND copies—sell, give or otherwise distribute and get the book out in quantity. I am convinced that for America in the 1970's NATURE'S ETERNAL RELIGION is a much more applicable, understandable and acceptable book for Americans than Hitler's Mein Kampf, which was written in 1924 for Germans.

If you would like to become a Minister of the CHURCH OF THE CREATOR, we have an application form. There is no charge for being ordained. The thing I want to again stress with you, is that Christianity stands directly in the way of the White Man's redemption from Jewish spiritual and physical tyranny. Until we resolve the religious question, the White Man will be confused and shackled by his own suicidal thinking: You can't have it both ways—you can't be a slave to the Jewish spooks in the skies, and at the same time be an effective fighter for the redemption of the White Race.

For a Whiter and Brighter World,

Creatively yours,

B. Klassen, P.M.

Mr. Michael McLaughlin,
National Chairman
Merseyside, Great Britain

December 5, 1977

Dear Mike:

This will acknowledge receipt of your letter of November 18th. It was real good to hear from you again. Regarding Lewis Mohimont, it just so happens that a few days after I received your letter, I also received a check from Lewis for the full amount owed by the British Movement for the books. Many thanks.

I'm sorry to hear about Bob Relf's non-co-operation in your valiant efforts. He has been corresponding with me and has sent several news clippings about his trial. Unfortunately the Jewsmedia (intentionally) got it all screwed up when referring to CREATIVITY. As if our religion consisted mainly of not wearing head gear! But that's the way the game is played and we better make sure we understand the rules.

I saw a very interesting program on our T.V. network about the National Front party and how anti-Semitism was raising its ugly head in G.B. (Horrors!) I only hope it is true. I know you have attacked the N.F. a number of times as being Jew-led. I'm still puzzled and would like to hear what is the latest. Some N.F. members are distributing quite a few of my books.

I have a proposition to make to you. I am sending you two, eight pack cartons of "NATURE'S ETERNAL RELIGION" (worth $30.00 U.S.) and if it's O.K. with you I would appreciate it if you would send me the following tapes as an even exchange: (1) Reichstag Declaration of War (C60) (2) Germany Calling (C60) Wm. Joice (3) Tomorrow We Live (C60) (4) Adolf Hitler Speaks (C120) No. 1 (5) Adolf Hitler Speaks (C120) No. 2 (6) Adolf Hitler Speaks (C120) No. 3.

Keep up the good work. I appreciate your remark as to what Hitler quoted Chamberlain as saying about Christianity. Warm regards from one White Racial Comrade to another.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Gary Grance
Englewood, Colorado

December 5, 1977

Dear Gary:

Thank you for your letter of November 7th. Since you are now reading our White Man's Bible, I will defer answering some of the

questions you raise in your letter until you have finished reading the book and digest the ideas it contains.

Regarding the niggers in this country, there is no need for us White people to feel either guilty or sorry for them. If their ancestors had not been brought to America (mostly by profiteering Jewish slave-traders) they would still be living in mud huts in the jungle, killing and eating each other. Instead, many of them are now driving Cadillacs, on government payroll, at the White Man's expense. We could feel sorry for the niggers because they are dumb, lazy and shiftless, but then we would also have to widen our sympathies to include gorillas, apes, cows, and an endless list of dumb animals, who are even dumber than niggers.

But all this is useless and wasted sympathy. We are not responsible for their level on the primal order of Nature. It was Nature that made the White Man superior in intelligence and many other attributes, and the nigger inferior. Instead of feeling sorry (and guilty) for skunks, rattlesnakes and other creatures because they aren't equal to the White Race, we should be proud and thankful that Nature has placed us at the pinnacle of her creation.

Bleeding heart sympathy and unjustified feelings of guilt merely help to destroy us and undo Nature's handiwork.

Who needs niggers? To hell with them. If they are unhappy in America, we will be glad to pre-pay one way tickets back to Africa. The same thing applies to the Jews, to Israel and the other mud races that are pulling us down and destroying the White Man's race, civilization and culture.

Instead of worrying about the mud races, let us worry about our own survival. Let us THINK WHITE and practice racial loyalty and quit subsidizing and helping to proliferate all the scum of the earth.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. G. R. Cranston
Omaha, Nebraska

December 6, 1977

Dear Mr. Cranston:

This will acknowledge receipt of your good letter dated November 8th. I regret the delay in answering, but I was waiting for some information to come back from some correspondence, so I could make up my mind about attending the meeting in January.

One of the reliable correspondents I have been in touch with for several years is Dr. Revilo P. Oliver, of Urbana, Illinois. He is professor of history and languages in the University of Illinois, I believe, and has written several books in four languages. He has per-

sonal knowledge about Philip M. Young and seems familiar with the formation of the I.A.R. What he has to say about Mr. Young is rather disturbing, and raises a red flag. Among other things he calls Mr. Young "a plump Jew" and indicates that he is flying under false colors and aliases. How well do you know Mr. Young? Since he seems to be the spark plug of the organization and a key man, this is important.

I have therefore declined to attend this year until I know more about the leadership. I am sure there are a lot of good members like yourself, Ben Kriegh and many others. But what about the kingpin? As you know, like the Viet Nam War, the Korean War, if the leadership doesn't want to win, it doesn't matter what the troops do, their efforts will be in vain.

In the meantime, it would be a shame to have gathered an organization of loyal, dedicated White Racial kinsmen, and not do something meaningful for the survival, expansion and advancement of the White Race. One thing I would be willing to contribute is to send the book to all those members who still do not have a copy of the White Man's Bible, if you care to send me their names and addresses.

I don't presume to have the full picture about the I.A.R., and would be receptive to learning more, especially what information you have about Mr. Young. In any case, whatever you do, keep up the good fight for the survival of the White Race, the most precious resource on the face of the planet.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. P. Charles Labbe
Ashton, Rhode Island

December 8, 1977

Dear Mr. Labbe:

Welcome into the religious home of the great White Race—the most precious resource on the face of the earth.

I am especially pleased to recruit young people of college age. That is where we have to make our greatest impact. Those are the people we have to reach because the future largely lies in their hands.

In order to become a Minister of our church, you have to first of all become a member of the church. Enclosed is an application form and letter explaining the requirements. Basically the requirements are (a) BEING WHITE (b) filling out the application (c) $15.00 purchase of either 8 NATURE'S ETERNAL RELIGION or 6 records. The memberships go by the calendar year. Yours would be for the year 1978.

The basic MINIMUM accomplishment we expect from a Minister of our church is that he will place as many copies of our White Man's Bibles in the hands of as many of our White Racial Comrades as possible. We hope, of course, that you will go further and form an active church group with yourself as the Pastor of the group and hold regular meetings. As far as the maximum is concerned, the sky is the limit, and our specific goal is to wrest control of the White Man's destiny from out of the hands of the treacherous Jew into our own capable hands. I hope we can count on your dedication towards this noble goal.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. W. J. Guillaume
Denver, Colorado

December 12, 1977

Dear Mr. Guillaume:

Your letter of November 27th was most informative and interesting. It is gratifying to learn that you have read our White Man's Bible and were pleased with the contents. It would be most interesting to meet with you and a number of other fine White Racial Comrades at the Galesburg gathering, but for reasons I have already conveyed to Ben Kriegh it will not be possible for me to be there this year. Perhaps next year will be more propitious. In any event, it is most encouraging to find young men of your caliber, an attorney yet, to have joined our racist circle, for the promotion of the best interests of the White Race — the most precious resource on the face of the earth.

Your letter brings up several points I would like to discuss with you, however in this limited letter I can only bring up a few:

1. The importance of expressing the White racial movement AS A RELIGION. The question has been brought up to me on a number of occasions as to why adopt the religious mantle and thereby ruffle so many feathers? Whereas this is a subject that requires a whole chapter let me try to summarize it as briefly as I can.

   (a) The legal protection (by virtue of the First Amendment) is far greater than any political or fraternal organization could hope to achieve. You being an attorney can appreciate that. Ditto for the moral position. We can further add to this a number of tax exemptions and any other number of financial advantages enjoyed by religious institutions.

   (b) You can achieve undivided loyalty and far greater solidarity through a religious movement than, say, a political organization. In case of the Nazi party (or K.K.K. etc.) you have a number of in-

dividuals who go their own ways in their religious "faiths" — Catholics, Baptists, Mormons, etc. One way or another they have a tie to Christian creed that is basically a Jewish creed proclaiming the Jews are "God's chosen". (How odd of god to chooz the Jooz!) So in varying degrees you have a split loyalty — Jews holy on Sunday — fight 'em on Monday. By having CREATIVITY as your religion, your life's philosophy, your political creed, all rolled into one, you do away with this "split" schizophrenic nonsense, and you have a coherent, consistent philosophy that each can comfortably live by without being an intellectual hypocrite. Our race can live by it, thrive and prosper on it for the next million years. In CREATIVITY you have a religious home, a fraternal home and a political home, all rolled into one. In CREATIVITY I believe we have the TOTAL PROGRAM, the FINAL SOLUTION, the ULTIMATE CREED.

(c) There are many other advantages in adopting the religious structure such as greater zeal, fanaticism, and loyalty; a totality of thought and purpose; racial, social and religious solidarity, and many others. But this letter would get too long to examine them all.

2. Regarding Odinism as a religion. I am a regular reader of the Odin newsletter and have met Mrs. Else Christensen at Kansas City last summer. It is my opinion that the Odinism is completely inadequate in doing the awesome job that lies before us. Actually it is a throwback to the imaginary "gods" of the semi-barbaric Vikings. Let me hasten to point out that the Vikings were excellent genetic stock, as were the Ancient Romans. But let's face it, as a religion or philosophy, neither the Viking nor the Roman religion had much merit in giving the White Race a dynamic racial creed around which to polarize our great race. The best proof of that is that both religions and both races easily succumbed from the onslaught of more virulent Jewish Christianity. For us in this more advanced technical age to revert to playing games with meaningless spooks that never existed is a useless exercise in futility. If Odinism and the "pagan" Roman "gods" couldn't stem the tide BACK THEN, what possible hope do they have to offer us today?

In contrast, if either the Romans or the Vikings would have had a strong, dynamic RACIAL religion like CREATIVITY, the Jews would never have had a chance. They would have been wiped off the map, as was Carthage.

So much for now. I hope you and Ben Kriegh will get together and form the nucleus of a strong racial movement based on a racial religion — CREATIVITY. We are not primarily interested in a philosophical debating society — we want to build a total racial movement, taking in all of our White Racial Comrades from the laborer to the intellectuals. We must build a total movement. We must have

total racial solidarity. I hope you will do your part.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Harry F. Weyher
New York, New York

December 15, 1977

Dear Mr. Weyher:

Your name and that of the Pioneer Fund was brought to my attention by a New York Times news feature that appeared in our local paper, The Ft. Lauderdale News.

It seems that the objectives of the Fund closely parallel those of the CHURCH OF THE CREATOR, namely the issue of race. Although, I don't know the exact goals of the Fund, it seems to me that whereas they are geared to studying race and genetics, we of the CHURCH OF THE CREATOR are dedicated toward the survival, expansion and advancement of that which is genetically best, namely the White Race. In order to best promote such a goal, we have promulgated a racial religion that is polarized around the issue of the survival, expansion and advancement of the White Race, and the White Race alone. Our creed and program is set forth in detail in our 508 page book, NATURE'S ETERNAL RELIGION, which we refer to as the White Man's Bible.

Yesterday (Dec. 14) I took the liberty of calling your office and talking to your secretary. I said that if you might be receptive to reading such a book I would be glad to send you a complimentary copy. She assured me you would, and I mailed a copy to you.

My objective in contacting you is to make contacts with other like minded people of our race. We believe that whereas study and observation is fine and necessary for arriving at well-founded conclusions, that such in order to be meaningful must be followed up with organization and an action program. In CREATIVITY I believe we have the TOTAL PROGRAM, the FINAL SOLUTION, the ULTIMATE CREED.

I hope you will find the time and interest to read our book and that I may be able to call you sometime later next week.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mrs. H. L. Snider **January 9, 1978**
Ontario, Canada

Dear Katie:

We have received your letter of December 29th in which you stated that you and Herbert plan to come down and see us this winter. As you will recall you were planning to come down four years ago in 1974. At that time I welcomed you and wrote you a letter saying that I was sending you a copy of a religious book I had written called "NATURE'S ETERNAL RELIGION". At the same time I welcomed you to come down and visit us, I made it clear in the letter "However, I have no desire to change your views anymore than I wish mine changed, and do not feel that our difference in views should in anyway affect our warm relationship that we have had over a lifetime". I believe that was clear enough.

However, you didn't see it that way. Like most Christians, upon reading my book, my views, my ideas into which I had poured a lifetime of intelligent thought and study, you were not so tolerant. On the contrary, you became highly intolerant and extremely indignant. Like most Christians your mind was like concrete — all mixed up and hard set. You could never admit that YOU MIGHT BE THE ONE THAT IS CONFUSED OR IS WRONG. Like most Christians, when you can't refute the facts (and my book is loaded with facts of real history, facts of Nature, facts of science) you resort to the oldest and cheapest trick in history — you resort to name calling.

In three subsequent letters after reading my book, you in one way or another called me crazy. Although for 40 years that I have patiently been listening to your stupid "spooks in the sky" story with which you are obsessed, I have never called you crazy. I have never imposed my views on you, never argued with you, despite the fact when you pushed your idiotic ideas of "it all started with a lonely ghost 6,000 years ago", I let you know that I didn't believe that nonsense, but I never pushed the issue.

I don't mind telling you I don't like being called crazy by anybody, much less by people who don't have the intelligence to pass beyond the sixth grade. So I want to review our comparative intelligence, not to call you crazy, but to see who is best equipped with brains, intelligence and mental faculties to evaluate the Jewish "spooks in the sky" story, to see if it is a hoax, and if so, WHAT MIGHT BE A BETTER PHILOSOPHY by which to live.

As you will recall we both started in school in Canada in 1926. I was eight and you were about twelve and a half. You had already had some previous schooling in German. Anyway, as I recall, you didn't do too well, and dropped out in the fifth or sixth grade. On the other hand, I did exceptionally well, was continually jumping

grades and by 1930, in a short four years, I had not only learned English well, but passed the eighth grade and gotten a diploma. And it wasn't one of those "teacher's pet" things either. The exams were STANDARD SASKATCHEWAN EXAMS, the results sent to Regina and there graded by unknown markers, so there was no favoritism. You either cut the mustard or you flunked. When I went to Rosthern in 1931 to take the 10th grade I was 13 years old, the youngest and smallest kid in the whole high school. I passed the 10th grade and was second in the class, only surpassed by a 23 year old former school teacher in Russia. Then at the age of 16 I finished high school, the 12th grade, and again successfully passed Saskatchewan Standard Exams, graded in Regina. This I did, as you know, and was the youngest kid in Herschel to do so. Do you know of anybody else that equalled that record of starting at eight years of age, finishing the eighth grade at 12, the 12th grade at 16, despite all the language barriers and everything else I had to overcome? Anybody in our family? Anyone in Herschel? Anyone in Saskatchewan?

Anyway, as you know my education didn't stop there. I went on through Normal School, taught school and then further obtained two University degrees, one from the University of Saskatchewan and one from the University of Manitoba. This I did on my own hook, earned my own way, without help from anybody. But my education did not stop there either. What I have learned in the real world since then far exceeds anything I ever learned in the Halls of Ivy. The grand total of all that knowledge, experience and thinking is summed up in my book, "NATURE'S ETERNAL RELIGION". It is hardly the work of a crazy man, but has been described by many of my followers in America, in England, in South Africa and several other countries as "brilliant", the "greatest book I have ever read" and many other highly flattering compliments.

So you come along with your narrow little mind and call me crazy. Well, just review our past education and accomplishments and figure out for yourself as to who is "crazy".

Since you think I am crazy, LET US EXAMINE YOUR CREDENTIALS TO JUDGE. As you will recall, you never managed to go beyond the fifth or sixth grade and never passed any STANDARDIZED TEST to even confirm that you could pass any grade. True, after you were out of school for ten years you enrolled in some Bible School in Three Hills, Alta. at the age of 25. True, they ran you through some kind of brainwashing program, the main thrust of which was to indoctrinate you more fanatically in the "spooks in the sky" story, that it all started with a lonely ghost about 6,000 years ago who has been floating around in the darkness and void doing nothing for 17 billion years, and a lot of other imaginary nonsense. True, they gave you a phoney High School diploma. But I know and

you know that you could not pass a rigid standardized test that other high school students had to pass in history, in grammar, in literature, algebra, geometry, mathematics, physics, chemistry, or anything else. In fact you could not then and could not now pass even an eighth grade standard test. Or even a sixth grade. You never even learned the basics of the three "R's", "reading, writing and 'rithmetic". You have, in fact, mastered no language, neither English nor German.

So who's crazy? Who in the hell are you to judge someone else's philosophical works when your own intellectual faculties are extreme-ly limited at best and your so-called narrow "learning" is confined to a few silly cock-and-bull stories concocted by a gang of Jewish scribblers 2,000 years ago, scribblers who were so ignorant they didn't even know the earth was round. Like many other gullible yokels you have fallen prey to their superstitious nonsense, and now go to great pains to inflict your silly ideas on other people. While telling the whole world how sweet, kind, tolerant, how loving you are, you react like most narrow-minded Christians — when their nonsense is CHALLENGED WITH THE FACTS of history, geology, astronomy, physics, geology, and, in fact, REALITY, they find themselves com-pletely speechless and resort to the same old tactic the Jews and Christians have used for years. YOU RESORT TO NAME CALLING.

You say in one of your letters that for seven years you were con-fused, but then God "answered" all your questions. The truth of the matter is you are more confused than ever. What really happened is they so brainwashed your mind that YOU GAVE UP, ACCEPTED ALL THAT GARBAGE and THREW YOUR REASONING OUT THE WINDOW. Your intolerance to the ideas of other people is not limited only to those who don't believe in the "pie in the sky" or "fry in the sky when you die" nonsense. The most obvious fact of the Christian history is that Christians themselves viciously hate each other, if they are a different denomination, and have a slightly different twist in the "spooks in the sky" story. You don't want to face this, but Chris-tians have killed, burned, tortured, persecuted and otherwise hounded MORE OTHER CHRISTIANS than have the Romans, or anyone else. In the narrow, limited brainwashing you received you were not told of the thousands and hundreds of thousands, including some of our Mennonite ancestors, who were burnt at the stake, beheaded and hounded and persecuted in a thousand different ways. Nor have you been told of all the insane religious wars that raged between one set of fanatic Christians and another even more bloodthirsty. Chris-tianity has been the cause of more wars than any other issue, all promoted by the Jews in the background. To give you a little insight into the gruesome methods the Christians have used over the cen-turies in their gentle art of "persuasion" I am enclosing a little booklet called "THUMBSCREW AND RACK". Read it and think about it;

and contemplate how “loving” (hypocritical) Christians really are.

Your comeback, I know, will be “the Catholics did it”. I know that you hate the Catholics with a passion and have told me after returning from your missionary stint in South America that they were a church “founded by the devil”. But this is utterly stupid. You haven’t studied the atrocities of the Protestant movement, of leaders like Calvin, Zwingli and others, who were just as fanatic about burning, torturing, hanging, beheading, hounding and persecuting those who didn’t agree with their own particular brand of idiotic nonsense.

Examining your missionary stint in South America, on which you wasted some 18 years, you professed to “bringing Christianity” to those poor deprived souls down there. This, too, is a lot of nonsense and doesn’t jibe with the real facts. The fact is Christianity had already been down there for more than 300 years before you ever got there. All you were doing is confusing your poor victims with your particular version. To say that Catholicism is not Christianity at all, but the work of the devil, is utterly stupid. May I remind you that FOR OVER 1,500 YEARS, (more than three quarters of Christianity’s history) THE CATHOLIC CHURCH WAS THE ONLY CHRISTIANITY THERE WAS. IT IS THE ROOT AND SOURCE OF THE BIBLE AND ALL OTHER CHRISTIAN SECTS AND BRANCHES. Whatever your version is, it is only a continuation and an offshoot of the Catholic creed. Without the Catholic church promoting “Christianity” from the first century A.D. there would be no Christianity and you would not be obsessed with your particular version of that nonsense now. You didn’t really accomplish anything in South America except temporarily confuse the natives and create strife amongst themselves.

I note, however, that you followed your natural instincts when it came to your own family, all in line with what we of the CHURCH OF THE CREATOR advocate. You did not heed St. Paul’s advice of staying celibate and single, but let Nature take over. You not only got married but raised a good sized family, for which I commend you. When your kids grew up, you again followed the lessons of Nature. You moved your family to a White country, to Canada, so that your offspring would not marry and interbreed with the mongrelized natives of Columbia, but would find marriage partners among our own kind — the White Race. For this, too, I commend you. WHEN IT CAME DOWN TO BRASS TACKS, YOUR BETTER INSTINCTS PREVAILED over your “religious” brain pollutions and you threw overboard the Christian nonsense that we are all equal and “all God’s children”.

So much for that. In view of the fact that either you can’t, or won’t, tolerate or discuss honest differences of opinion in matters of philosophy and religion, I don’t think it would be advisable for you

to come down at all. I don't believe we would have much in common to talk about. Frankly, I am no longer interested in listening to so- meone prattle about THEIR IDEAS if they are too intolerant to listen to MY IDEAS, especially if I find I have already heard all of theirs and find them of no merit.

So if you think you know it all with your limited mental equip- ment, try answering some of the obvious questions I have posed on the last page of our Questions and Answers flyer. It will give you much to think about. Also remember if our parents had been Chinese, you would probably be a follower of Confucius, and if our parents had been devout Catholics, you yourself undoubtedly would be (horrors!) a devout Catholic. It's all in the indoctrination of the superstitious and the gullible people who can't think for themselves. Think about it, if your mind is still capable of distinguishing reality from fantasy.

In the meantime, I couldn't care less what my critics and other small minds think. I don't need anybody that is too dumb to be able to understand sixth grade grammar or sixth grade arithmetic to tell me how to understand the mysteries of the universe or the problems of the world. I am gathering an army of dedicated followers, of in- telligent White people who are beginning to see the light and join me in building a better world. Instead I am going full speed ahead writing a bigger and better book, a more comprehensive work call- ed THE WHITE MAN'S BIBLE. Someday the White Race is going to be mightily thankful that I did.

For a Whiter and Brighter World,
Creatively yours,

Ben

Mr. Paul Englert **January 9, 1978**
Homosassa Springs, Florida

Dear Paul:

It was good to hear from you again. I had been wondering what happened to you and wondered whether your health was at issue.

Since I last wrote to you I have come across what I consider an important new adjunct to our philosophy. I will go into more detail about it a little later. Anyway I am writing a more comprehensive book as a sequel to NATURE'S ETERNAL RELIGION and the new book will be called THE WHITE MAN'S BIBLE. Although based on NATURE'S ETERNAL RELIGION it will be expanded to embrace the principles of A SOUND MIND IN A SOUND BODY IN A SOUND SOCIETY IN A SOUND ENVIRONMENT, with the thesis that in order for us to have any of the first three you have to have them all.

It wasn't until recently that I started a comprehensive study of cancer, of Laetrile, of Dr. Carey Reams' Urine/Saliva Test and the phenomenal success he has had in treating cancer, heart disease, diabetes, etc., that a whole new field of investigation opened up to me. To my surprise I found that (a) there were several effective "cures" for cancer (b) that the A.M.A., the American Cancer Society, the National Cancer Institute, the F.D.A., the drug industry and a number of dovetailing complexes were not really looking for a cancer cure at all, but on the contrary, were viciously suppressing any cures and/or discoveries thereof (c) in the field of nutrition we were deliberately being fed nothing but polluted, over processed junk foods (d) Dr. Carey Reams had already successfully treated more than 10,000 TERMINAL cancer cases and only lost six, a phenomenal record and a major medical breakthrough (e) Dr. Reams (not an M.D. but a biochemist) has been hounded, persecuted and driven from one state to another by the agencies listed in (b) (f) that chemical fertilizers are driving our farming soils into sterile bankruptcy and our farmers along with it (g) a number of other conclusions about the uselessness and/or harmful effects of all drugs, about the beneficial healing effects of wholesome raw foods (fruits, vegetables, herbs, etc.) and how the coterie mentioned in (b) is trying to discredit the wholesome nutrition idea and push billions of dollars worth of drugs at us instead.

Regarding the Reams' program, I am enclosing a booklet about it by Nord Davis. If you ignore the religious garbage inserted in it

here and there it tells the story pretty well, although much more has happened since. My wife and I took the Reams test (there are any number of testers now trained and scattered over the U.S.). We then followed the prescribed diet and felt a lot better. Personally I am slow-ly modifying my own diet more and more towards those foods that keep you healthy, and dropping those (e.g. white flour, sugar, etc.) that will make you sick.

If you are interested in your health (and I am sure you are) here are a few of the books you might read:

1. SUGAR BLUES by Wm. Dufty, husband of Gloria Swanson. An excellent book on the devastating effects of sugar on the White Man's health and energy for the last 300 years.

2. FREEDOM FROM CANCER — The amazing story of Laetrile by Michael L. Culbert.

3. PLEASE, DOCTOR DO SOMETHING! by Dr. Joe Nichols — about nutrition, organic farming and how insecticides and chemical fertilizers have killed the fertility of our soils.

There are dozens more (I probably now have about 60 or 70 books on health and nutrition and also subscribe to PREVENTION magazine.) However the three books I mentioned will give you the gist of what this subject is all about — a subject about which most Americans are also grossly ignorant, but seem to be catching on with amazing rapidity. You can find these books at most health food stores and suggest you get into this subject if you haven't already done so.

Anyway, the conclusion is the Jews, who also run everything else, also run the medical/drug complex and their aim is not to get us well but to keep us sick, lethargic and dependent on drugs and doctors, a multi-billion dollar business that is skyrocketing by leaps and bounds. For example, in 1950 our total medical bill was 12 billion dollars. By 1970 it was 168 billion dollars. This gives you a fair idea of the burgeoning costs of staying half-sick. But just like education — the more they soak us, the sicker we get.

It is the aim of the CHURCH OF THE CREATOR to tie the health program, especially the Dr. Reams' program, into our own program of a SOUND MIND, etc. We want our members at least to be aware of the health swindle and protect themselves. We want every CREATOR healthy and energetic and to enjoy life and work for the redemption and resurrection of the glorious destiny inherent in Nature's promise to the White Race.

So much for that. Your letter putting the finger on the Jewish Popes in history was most interesting. I have long contended that the Jews invented Christianity, organized it, foisted it on the White Man and have controlled it ever since. I was also aware of the Medici family and Pope Julius being Jews and suspected that several more were secret Jews, but I never did get much information on this sub-

ject. I can (and will) include this in my new book. However I would like more documentation and background evidence to substantiate such. I mention in NATURE'S ETERNAL RELIGION that Loyola, who founded the Jesuit Order, as being a secret Jew. I didn't know about Betty Ford but it was obvious to me that she was some kind of secret agent from her activities. Another interesting study would be to catalogue all the Jewish women the tribe has attached to rulers throughout history in order to manipulate those rulers. Some examples are Magda Lupescu seducing the former King Carol of Romania, Poppeia attached to Nero, and countless others. Regarding Teddy Roosevelt, that, too, is news to me, although I have oft contended there hasn't been a president since the founding of the republic that hasn't been a stooge for them. The only exception I suspect that tried to buck the Jews, and did so successfully, was Old Hickory, Andrew Jackson. They tried to assassinate him but he would not be intimidated. However, I'm sure he did not understand the whole story, and acted more on rugged instinct.

Well so much for this time. If you can give me any more background on the above subject, (Jewish Popes) I'd appreciate and will use it. In the meantime, also look into this health and diet angle. That's where the future lies and we CREATORS mean to ride the wave of the future.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Dan Gayman, Pastor
Shell City, Missouri

January 10, 1978

Dear Pastor Gayman:

Thank you for the two copies of Zion's Watchman and the check in the amount of $6.00 received. Instead of two we mailed three copies of our White Man's Bible, NATURE'S ETERNAL RELIGION. I hope you will place them in good hands and spread the word.

I have read much of the two issues of Zion's Watchman you sent and agree wholeheartedly with your views regarding the perfidious Jew in our midst and the confusion they have wrought in manipulating the minds of our White Racial Comrades. I do not, of course, agree with the contention of identifying Israel with the White Race, as you probably well know from reading my book. I am therefore somewhat puzzled as to why you are ordering my books (not that I am at all unhappy about it, just puzzled). In any case, we of the CHURCH OF THE CREATOR embrace all White Racial Comrades who will join battle against the historical parasite of all time — the treacherous Jew.

Enclosed also is our Questions and Answers flyer. I hope it will give you some further information about our movement.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Abe L. Austin January 10, 1978
Oak Park, Illinois

Dear Mr. Austin:

Someone sent me your flyer regarding the Federal Reserve. I have long been aware of the insidious nature of the Federal Reserve and in the present book I am writing I depict the Fed as the world's biggest counterfeit ring owned and operated by the international Jewish network of bankers and other scoundrels affiliated therewith. In my previous book, "NATURE'S ETERNAL RELIGION" I mention the Fed briefly (on page 68) and tie it in as one of the many tools the Jews utilize with expert skill in order to fleece the White Race, control the White Race and enslave us.

Under separate cover I am sending you a complimentary copy of "NATURE'S ETERNAL RELIGION", which we call our White Man's Bible. The whole impact of the book is to convince our White Racial Comrades that we cannot win the war against the international Jewish network by attacking the SYMPTOMS piecemeal, such as the United Nations, the Fed., school busing, inflation, race-mixing, and a hundred other Jewish programs. Instead the answer is to ROOT OUT THE CAUSE, rather than flay our arms uselessly at the EFFECTS. WE MUST MOBILIZE AND ORGANIZE RACIALLY — the total White Race around a solid RACIAL RELIGION if we are going to have any even remote chance of survival as a race.

Whereas my book to you is complimentary, and for you to read and enjoy, I would appreciate the favor if you would in return send me the packets of five booklets by Peter Cook which you offer for $3.00.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Arthur R. Gawin January 23, 1987
Crystal Lake, Illinois

Dear Mr. Gawin:

Thank you for your letter of January 16th. You raise two issues in your letter on which I would like to present the views of the CHURCH OF THE CREATOR.

1. The first is your contention we are taking on “everybody”, and we would do better if we just concentrated on the Jews, and rather than antagonize, we should enlist the help of the mud races.

This is an important issue and I gave it much thought when I wrote the book. In the subsequent years my original views have been considerably strengthened that we have taken the right course.

First of all, let me say that I would like to reduce the number of our enemies to a minimum and make it as easy as possible for us to win. Let me point out, however that I didn’t create the mess we are in, nor did I have any hand in choosing the enemies of the White Race. What I am doing is logically and realistically analyzing the facts of life as they are. And the facts, whether you like them or not, are these: ALL THE MUD RACES, as well as, and including the Jews, are a very real threat to the survival of the White Race. True, once we had eliminated the Jewish influence on our society, we would easily be able to cope with the mud races. But these mud races, now approaching a staggering four billion strong, are a very real threat nevertheless, and with the Jew pulling all the strings, they are a deadly threat.

Let’s take the Chinese for instance. There are 800 million of them and their numbers are growing. Do you have any illusions as to what they would do to the White Race if by numbers and geography they had the power (with or without the Jews) to destroy the White Race? Do you have any illusions as to what the Japanese would have done to us if they had won W.W.II.? Do you have any illusions as to what the niggers in this country will do to the shrinking White population once they have the numbers and the power? Or the Hindus? Or the Mexicans? Are you aware of what the niggers in the Congo did to the White population? Let’s be realistic: inherently and instinctively they crave to kill the superior White Race, Jew or no Jew.

The idea that we might palsie up to the mud races and make them our allies in the fight against the Jew is completely unrealistic. As I pointed out — our differences are basic, inherent and instinctive. It would require a great deal of time, money and persuasion to win one (unreliable) mud convert. Since we have millions of White people to convert, why not concentrate that same effort on our own White Racial Comrades which would create a much more valuable and loyal ally?

We don’t need the scum and the mud races for allies! We need to unite the White Race and the rest of the battle will be child’s play! Furthermore, one of the most insidious threats to the survival of the White Race is inter-marriage — race-mixing — which would be encouraged by embracing the mud races as our pals. You mention in your letter that you visited the Rio Grande Valley and the population on the U.S. side was 95 per cent Mexican. This should tell you

something. By sheer immigration and reproduction the goddamned Mexicans can overwhelm and crowd us out of our own living space, as they are now doing, and as are the niggers. This they can accomplish easily, what with the White Race now having a negative population growth, what with the White Man voluntarily producing ample food for the mud races of the world, and what with the mud races exploding and multiplying like a plague of rats.

Therefore, in order to polarize racial pride, to unite the White Race and prevent it from diluting itself with the mud races, we of the CHURCH OF THE CREATOR take a strong stand that we must stand apart from the mud races, that they are occupying territory and consuming the substance of the land that is direly needed for the future survival and expansion of the White Race, and furthermore, that any race-mixing by any member of our race is considered as the most heinous of all crimes. This is and must remain a cardinal plank of our religion.

2. The other point I want to comment on is your preoccupation about lawyers. In this respect I join with you to the extent that I dislike and distrust most lawyers, White, Jew or otherwise and I consider most of them (not all) as parasites. However, I believe you are again picking one particular Jewish EFFECT as all important, when actually it is only a CONSEQUENCE of Jewish domination, and not a prime cause. The root of all evil is the Jewish network which spawns a host of disastrous effects or consequences — the U.N., the Federal Reserve, school busing, integration, inflation, race-mixing and hundreds of other evil EFFECTS, of which the preponderance of lawyers, politicians, bureaucrats and other parasites is ONLY ONE EFFECT OF MANY.

You say in your letter that you have stopped joining organizations and are saving your dollars. Well, that might be a good way to save dollars, but without organization we will never amount to a hill of beans. The Jews, although a small minority, are masters of the world and they owe it all to (a) their fantastic obsession for organizing (b) a religious creed to polarize around, and (c) their relentless dedication to (a) and (b). You might save your dollars by not belonging to any organization, but let me say this: the day will come when your dollars (and your life) will be worthless and you will frantically wish you had helped organize the White Race while you still had the opportunity.

The only solution I see to the whole program is to build a strong racial movement, fueled by a thoroughly aroused White citizenry, polarized around a White racial religion. We not only do not need the mud races as allies, but we can't at all use them, since they are in fact a major part of our problem and our dilemma. It is our soft Christian attitudes that has destroyed and eroded our racial pride

and racial coherence. So the real problem we must work on is straightening out the White Man's thinking. United and organized, we are ten times more powerful than all the Jews, niggers and mud races combined.

This is what "NATURE'S ETERNAL RELIGION" is all about. I hope you will dedicate your efforts to spreading the word and placing as many copies in the hands of our White Racial Comrades as you possibly can.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Paul Englert
Homosassa Springs, Florida

January 23, 1978

Dear Paul:

This will acknowledge your good letter of January 15th, and also some of the accompanying info.

There are many subjects you bring up that I would like to go into greater detail about, but will limit myself to just one topic in this letter and that is the position of the CHURCH OF THE CREATOR regarding the mud races other than the Jews themselves.

It just so happens that somebody else brought up this same criticism in a letter I received last week, so I am enclosing a copy of the answer I addressed to him.

I might say that with a creed as broad and controversial as CREATIVITY there are always certain issues with which individuals will disagree, some minor and some major. Over the last five years I have had perhaps half a dozen people voice the same criticism regarding the mud races as you have. However I regard the race issue, and our stance towards the mud races as a major plank in our whole philosophy and am very firm about it.

The harsh facts of reality are that in today's shrinking world of rapid travel and intercommunication, the White Race, even without the Jewish presence would soon dilute and contaminate itself into oblivion due to its minority position in the midst of three and a half billion degenerate inferior mud races. The story of India will repeat itself on a worldwide basis, Jew or no Jew. With the Jewish presence it will only be accelerated, but it would happen even without them.

Therefore as I see it, the only thing that will save the White Race from a fate worse than extinction is a strong racial consciousness, a strong pride of race, and a fierce hatred of all the scum races. Not only must we NOT COLLABORATE with the mud races, but we must intensify our hatred of them and our love of our own.

The rest of the argument, I believe is pretty well contained in the accompanying copy of the letter.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Frederick J. Brohaska
Milwaukee, Wisconsin

February 21, 1978

Dear Mr. Brohaska:

Many thanks for your letter of February 14th and also the first edition of WHITE STUDENT. I understand you will be sending me future copies as a subscriber. I appreciate that and want to encourage you to persevere and keep up the good work.

I hope you have received your copy of our White Man's Bible, "NATURE'S ETERNAL RELIGION", by now and that you have had an opportunity to not only read it, but thoroughly study it.

Remember there is no conflict between being a member of the Nazi party as a political organization, and being a member of the CHURCH OF THE CREATOR as your religious faith. This is similar to our less informed White Racial Comrades being Catholics or Protestants and belonging say, to the Republican party or Democratic party. Only in our case our politics and religion neatly dovetail, rather than being in conflict.

CREATIVITY furthermore gives your political beliefs in race a solid religious and moral foundation, which the Nazi philosophy has always lacked as long as it accepted and/or condoned Christianity. Give this some serious thought.

The bookmarkers are 100 for $3.00, but in your case we would send you twice that many, should you order. We also have an excellent long playing record "SURVIVAL OF THE WHITE RACE".

Enclosed is a Question and Answer flyer that gives you further information about our religion.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Dr. Joseph von Moger
Macedon, Australia

February 21, 1978

Dear Dr. von Moger:

Many thanks for your letter of February 13th, also the $40.00 (in Australian) which arrived safely. We are shipping you two cartons (of eight each) of NATURE'S ETERNAL RELIGION and three long playing records SURVIVAL OF THE WHITE RACE. Whereas

in the U.S. it is possible to ship cartons of 32 books, for overseas we are restricted to cartons of eight because of weight limitations. We charge $15.00 for the package of eight.

I agree with you that we have a monumental problem ahead of us if we want to save the White Race from extermination. However, it is by no means insoluble, and I am confident that it can be done because it must be done. We have no alternative.

Actually it is not a matter of waging military wars so much as it is a matter of STRAIGHTENING OUT THE WHITE MAN'S THINKING. We don't have to convince the whole world. We don't even have to convince all of our White Racial Comrades. If we can, for instance, get our White Man's Bible, NATURE'S ETERNAL RELIGION into the hands of a select 10 million White Men in the U.S. we would have the battle won against the Jews and the niggers. Once the tide is turned in the U.S. with its tremendous resources, we would have fairly easy sailing in winning the propaganda war for the rest of our White Racial Comrades throughout the world. Once the White Man has a universal religion based on the value of his race, nothing in the world can stop him.

I hope you will do your part. Since the books and the records are going by surface mail, I imagine it will take approximately six weeks to arrive. I hope you will do all you can to further spread the word. Perhaps you can even organize a church group of your own and keep distributing the book.

Good to hear from a fellow German. Did you migrate to Australia? Please inform me further what the racial policies and situation in Australia is at present.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Paul Sam Carruba
Birmingham, Alabama

February 21, 1978

Dear Mr. Carruba:

This is in answer to your letter of January 28th.

Regarding Billy James Hargis' appeal for funds, I think you have pretty well answered your own question, and that is: sending him money will do absolutely no good at all in helping our White Racial Comrades in South Africa, who are fighting for their life and property against the Jewish drive in concert with the savage niggers.

The fact is that Christianity is one of the best smoke screens the Jews have behind which they can push their sinister program with impunity. They themselves invented it for that very reason in order to emasculate the White Man into a blithering idiot that could

be led around by the nose to help them in their dirty work.

Enclosed is a copy of Marcus Eli Ravage's article of 50 years ago that tells the story about as clearly as it can be told.

B.J.H. is a sex pervert, and while parading under the pious banner of Christianity, he received a lot of publicity about two years ago of having sex relations with his young students, both male and female.

Keep on pushing our White Man's Bible. It is the only program that offers a program for the regeneration of the White Race back to sanity and prosperity.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Rev. Ben Kriegh February 21, 1978
Boulder, Colorado

Dear Ben:

Many thanks for your letter of February 15th and also the Membership renewal application.

Enclosed are your Card and Certificate for 1978. A carton of eight White Man's Bibles was shipped to you on February 20th.

I am glad that your Institute for American Research meeting was productive from your point of view. It is regrettable that Dr. Oliver's letter raised so much ill feeling, but I want to make it clear that those were not my accusations, but rather having received the letter, I made an attempt to find out what it was all about. I had no idea that there had been such a serious hassle between him and P.M. Young. I formed no preconceived conclusions as I pointed out in my letter to you of December 12th and have none now. I only hope that the episode will have served some constructive purpose in helping to sharpen the focus of the goals and creed of the I.A.R. group, and hopefully that they will become more familiar with CREATIVITY and adopt its ideology for their own.

At this point I am still very hazy as to what the creed, philosophy and the goals of the I.A.R. are all about. Be that as it may, neither Mr. Young or Dr. Oliver affect the dynamic creed embodied in CREATIVITY. Personalities have absolutely nothing to do with it. It stands on its own feet as a powerful new idea, just as Newton's law of gravity, once enunciated, stands on its own merits, even should Newton later have been hanged as a horsethief. I am more convinced than ever that only by embracing an INTOLERANT, AGGRESSIVE RACIAL RELIGION as its very own, will the White Race be able to survive the future. It is therefore tremendously important we promote and place as many copies of our Bible into the hands

of our White Racial Comrades as we can. It is the best bargain the White Race will ever buy.

In pursuit of promotion of our idea I want to expand the advertising of the book in those media and channels where it would do the most good. An unusual magazine, SOLDIER OF FORTUNE, has been brought to my attention by one of our supporters. I have sent for their rates and have received a schedule as well as a copy of the magazine. It seems to have the type of he-man readership that I believe would be attracted to our book. At least, I believe they are the gutsy, daring type, imbued with some idealism, that our movement could well use. I am therefore preparing a 2-1/2 x 6 ad that I intend to place in it.

The head man of this new (1975) magazine is Robert K. Brown and his headquarters are in Boulder. You may or may not already be familiar with him. His magazine is (strangely) receiving quite a lot of publicity in the Jews media. In fact there was a considerable spread in our Sunday (Feb. 19) paper. At any rate, whether you are already familiar with him or not, I believe it is an important relationship to cultivate. Not only as a paid advertising media but also perhaps he might be interested in doing a feature article on our movement sometime, since our ideals are really not too far apart from those of the anti-communist fighters who are waging a war for and on behalf of the survival of the White Race in Rhodesia and elsewhere.

We do have a number of dedicated supporters in the west, but I don't really know where to begin pinpointing individuals that it would be worth your while to make special trips to see. Many are like yourself, dedicated, but not really too strongly organized. However I feel that our big breakthrough will come within the next year. Nevertheless I wish you the best of success in your speaking tour and your efforts to spread the word on behalf of the White Race.

I do hope you are getting a CHURCH OF THE CREATOR group organized in Boulder. Remember what the Jews have accomplished, though a small minority. They have done it through organization, propaganda, and above all, tenacity to their creed. So let us learn and let us get going. With the tremendous advantage of resources with which the White Race is gifted we could do a hell of a lot better. So let's do it.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Robert E. Potter February 27, 1978
Naples, Florida

Dear Bob:

It was a pleasure getting together with you last month and also hearing from you again in your letter of February 23rd.

Enclosed is your Membership Certificate and Card.

I am glad you display them proudly, in the face of so many racial cowards that now seem to be the norm. If there ever was a time when we should assert our racial loyalty, pride and determination, that time is now.

I could finish the omnibus that I am working on in a fairly short time, if I had anyway of financing the printing. Whereas five years ago I sank about 15 grand into printing the original effort, I am not in that kind of cash position, since all my efforts seem to be funnelled into meeting my mortgage payments. This is kind of ironical, since if I could liquidate all my holdings I could probably put together a low seven digit figure. I am trying to liquidate so that I can concentrate 100 per cent of my efforts in establishing the movement, but the market just doesn't seem to be there as yet. I hope I will be able to get this second edition, which is so much more comprehensive (A SOUND MIND IN A SOUND BODY IN A SOUND SOCIETY IN A SOUND ENVIRONMENT) and which I am calling the WHITE MAN'S BIBLE, out into dispersion. I believe it would be a major loss for the White Race if because of the lack of a measly few thousand Jewish Federal Reserve notes, it should not see the light of day. Ten grand I believe would do it, since we would not necessarily have to start with 20 thousand copies, as I did with NATURE'S ETERNAL RELIGION.

I would appreciate it if you could head up a group that would finance the present manuscript. Life is uncertain at best and it would be a damn shame if we failed to get it out and dispersed into the hands of our White Racial Comrades.

For a Whiter and Brighter World,

Creatively yours,

B. Klassen, P.M.

Dr. L. E. Doussy March 9, 1978
Pretoria, South Africa

Dear Dr. Doussy:

Many thanks for your letter of March 1 and the $40.00 U.S. received. I had forgotten about any previous indebtedness. We shipped two cartons of eight NATURE'S ETERNAL RELIGION and two records, SURVIVAL OF THE WHITE RACE, to you on March 8th.

I hope they all arrive safely and that you will spread them around as expeditiously as possible.

While I don't profess to be an expert on political affairs, it looks to me that the situation in South Africa is quite clearly a further extension of the Jewish program — and that program is to drive the White Race out of Africa and have the niggers take over the White people's land and property. This, in turn, is an integral part of the Jewish program of mongrelizing and/or destroying the White Race. In short, their program is to shrink the White Race into oblivion and have the easily controlled mud people take over the earth. Since the Jews don't consider themselves as White, but as Semites (yellow), they make damn sure that such mongrelization does not touch them.

This sellout of South Africa and Rhodesia can only be accomplished with the cooperation of White traitors in S.A., Rhodesia, the U.S., England and elsewhere. However the Jews are in charge of the planning and execution of the program and the White Race is the victim.

Let's make sure their fiendish plans are thwarted. Organize, proselytize and propagandize!

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Phil Hruskocy **March 13, 1978**
Whiting, Indiana

Dear Mr. Hruskocy:

Thank you for your letter of March 6.

Regarding the Identity Movement, I am well aware that there are a lot of good White people in that movement, some of which are helping expose the perfidious Jew. Whereas I commend them for their work in exposing the Jewish network, I cannot approve of them trying to deceive and confuse the White Race about the Old Testament.

In the first place the Old Testament is nothing more than a concoction of Jewish myths purporting to establish a history of their race, originating supposedly in Abie, Ikey and Jakey. If you will read my review of the Old Testament in NATURE'S ETERNAL RELIGION you will find that all these characters including Judas, David, Lot, Solomon and all the rest of them were a gang of pimps, thieves, liars and murderers, and immoral reprobates of the worst kind.

For the White preachers now to come along and say that we, the White Race, are the real Israelites is even a bigger lie and more unfounded than the Jewish lie. Furthermore who in their right mind would want to be the descendents of such a scurvy band of cutthroats? So why the big to do about these White preachers trying to put us

in the place of these miserable Jews? I think it's crazy.

The real solution is to expose the whole mess — the Old Testament and the New Testament for what it is — a Jewish fraud designed to confuse, divide and destroy the White Race. We should dump it completely and throw it out the window, as it is an alien poison to the White Race. We must and we will replace it with a sane and healthy religion of our own.

That's what CREATIVITY is all about. Help spread the word.

I am shipping you 25 copies of our Question and Answer flyer. If you can see fit to donate $3.00 to the Church to cover expenses, we, the White Race, would appreciate your help.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Segment 36

Mr. James Hart **March 13, 1978**
Pacoima, California

Dear Mr. Hart:

Many thanks for your letter of March 8th. I am glad to hear that you would like to start a CHURCH OF THE CREATOR group in your area and hope that from small beginnings will grow a mighty movement. I would suggest that you proceed along the following steps:

1. First of all become ordained as a minister of our church. There is no charge for this. If you want to become a minister, please send for our application form. This will give you a strong moral position, will strengthen your legal position and also your public image. It will give you the authority to be the head of your group. When we get your application, we will consider whether you are qualified.

2. We would suggest that your main efforts the first year to be concentrated on two things (a) circulating and distributing our White Man's Bible, NATURE'S ETERNAL RELIGION, and (b) recruiting members into your group. We would expect that your group would distribute a minimum of 16 Bibles a month.

3. Have regular meetings, preferably once a week, and at the same time each week. You may start in your home, (or some other member's, if more suitable) and then when the group gets large enough you might consider renting a hall. If you grow large enough, of course, it is most desirable to finally get your own building.

4. We have membership cards and certificates. Each member must apply to the main headquarters here in Florida. Enclosed is a form letter and application. In order to apply for ordination to the ministry, it is of course, a prerequisite that you first become a member yourself.

We lay a tremendous amount of stress on the proposition that initially we get as wide a dispersion of our White Man's Bible, NATURE'S ETERNAL RELIGION, into the hands of as many of our White Racial Comrades as possible. It is our goal to initially place 10 million copies amongst our race. Once we have accomplished that much we will have the Jews and the niggers on the run and victory will be in sight. When we consider that we are robbed every half hour of more than the cost of those 10 million books just subsidizing the shiftless niggers, you can realize what a tremendous bargain such an accomplishment would be for the White Race! And it would only be the beginning!

Regarding a book list, we take the position that it is not necessary to read hundreds of books in order to build a powerful movement. NATURE'S ETERNAL RELIGION has all the basic information you need. We also have an excellent record SURVIVAL OF THE WHITE RACE to help recruit members. We don't want our members to get into the fallacy that reading another book is a substitute for action, as do many of the R.W. societies. It is not a substitute for action, but merely an excuse not to act.

Enclosed is the form letter and application for becoming a member of the CHURCH OF THE CREATOR. Also enclosed is a copy of our Question and Answer flyer which will answer further questions for you. I hope you will take immediate action.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Werner Krehl
Alberton, South Africa

March 15, 1978

Dear Mr. Krehl:

I was very pleased to receive your letter and had no trouble reading the German type.

I am glad that you are getting an organization together. Organization is extremely important. It is the diabolical organizing ability of Jews that have made them the powerful scourge that they are. But the White Man too is able to organize just as efficiently, if not more so — as witness the extremely efficient organization of the Third Reich under Hitler. It is just that we have organized in all other directions EXCEPT THE ONE AREA THAT REALLY COUNTS — THE SURVIVAL OF OUR OWN WHITE RACE. So let us proceed.

I am all for your suggestion of advertising. The proposed ad you have in your letter sounds fine. If you want to direct the inquiries to us here in Florida, that is all right with us. If you would rather have them directed to you or your organization in Africa that is fine with us, too, as long as we get those first 10 million copies of our White Man's Bible into the hands of our White Racial Comrades. I believe it might be preferable to have them directed to your local area, then you could contact and follow up on your inquiries. If you want to use the name CHURCH OF THE CREATOR for your mailing that is fine with us also.

I don't think there is any difference in your thinking regarding Nationalism or Racial Socialism. If you are for the White Race you are with us. As to whether we include the Portugese as part of the White Race, I never have said. The point is we want to initially include as much of the White Race as possible to help us in the fight,

even some fringe areas, and antagonize as few as possible. We need all the help we can get to overcome the treacherous Jew. Once we are in control and institute our program of upbreeding the White Race we will be able to take care of any fringe areas. So why worry about that now? The main point is for THE WHITE MAN TO REGAIN CONTROL OF HIS OWN DESTINY. All the other problems will be child's play in comparison.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Dennis Wilson
Edinburgh, Scotland

March 27, 1978

Dear Mr. Wilson:

It was real good to hear from you again. I am a solid supporter of the British Movement and keep in constant touch with Mike McLaughlin. I agree with you about the N.F. — once you start ask-ing in Jews as members, you have forever undermined and torpedoed the usefulness of any organization as far as the interests of the White Race are concerned.

I understand that the B.M. is picking up considerable steam late-ly, and I am mighty encouraged to hear it. The one thing that I believe the B.M. needs is a STRONG MORAL BASE, which I feel it cannot have in promoting the idea of WHITE SUPREMACY as long as it tolerates or condones Jewish Christianity. This is where CREATIVI-TY and NATURE'S ETERNAL RELIGION comes in. It supplies and undergirds the whole RACIAL IDEA by giving it a solid moral and religious base that no one can refute — a foundation based on the Laws of Nature itself.

So I hope you will do your part in spreading the word and distributing the book. You can order from us directly if you wish — eight copies for $15.00 U.S. Let us build for the future and let us build on a firm foundation. I hope you will do your part in the strug-gle for the survival, expansion and advancement of the White Race.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Jas. von Brunn
Redding, California

March 30, 1978

Dear Jim:

In response to your telephone call yesterday, we shipped you a carton of eight copies of NATURE'S ETERNAL RELIGION. Or-

dinarily we charge $15.00 for a set of eight. You may, however, send what ever sum you see fit. We want to get these books out — into the hands of our White Racial Comrades. We want to place (initial-ly) 10 million copies. Once we have done that much we will have the Jews and the niggers on the run. When you consider that we spend more in half an hour subsidizing the shiftless niggers on welfare, than those 10 million books would cost, you can see what a terrific bargain this would be for the White Race. I would like to see you bend every effort in the distribution of this, the White Man's Bible.

Your argument about somehow enlisting the niggers in our cause doesn't make too much sense to me. The niggers are part of the enemies. Even without the Jew's manipulations, they would even-tually outbreed us and mongrelize the White Race as they did in In-dia, Egypt, Haiti and elsewhere. The only solution is a strong racial consciousness by the White Race and expel the niggers — ship them back to Africa. Furthermore, what possible inducement could we offer the niggers, without scuttling our own racial program? The effort that would be required to convince one shiftless, useless nigger would con-vert 10 good White Men to our cause. Jim, the plain fact is — IF WE CAN'T HACK IT ON OUR OWN WE ARE LOST, totally lost. Hitler said, "Ein volk hilft sich selbst". Anyone depending on the nig-gers to rescue us is too far out for help. The White Man must do it himself. The same thing can be said about "enlisting" the Christians to help us in our cause. This is sheer lunacy. It is the Christian "spooks in the sky" story that has diverted and perverted the think-ing of the White Race and brought it to the miserable state of suicide in which it finds itself today. Like the niggers, the Jews and the mud races, we can expect no help from Christianity, only betrayal and our own destruction.

So we come back to the only avenue open to us — a strong mili-tant racial consciousness, undergirded and imbedded in the White Man's religion itself. THIS IS WHAT CREATIVITY IS ALL ABOUT. Help spread the word.

Enclosed also is a Question and Answer flyer which will give you further information about our movement.

For a Whiter and Brighter World,

Creatively yours,

Mr. Russ Hobron
Chittenango, New York

April 24, 1978

Dear Mr. Hobron:

I appreciated your letter of April 3rd, also the flyers you enclos-

ed. The "Animal Series No. 1" are excellent. Although I haven't read Mark Twain's book "The Mysterious Stranger" I agree with you that ridicule is one of our strongest weapons. Niggers are especially vulnerable to this tactic. It must be our irrevocable position to hold the nigger up to contempt, ridicule and loathing. The same with Jews. Christianity, too, with its wild spooks in the sky stories, is especially vulnerable to ridicule.

Human Events is strictly a Kosher Konservative paper that keeps you continuously and hopelessly alarmed, but never gets to the nitty-gritty — JEWS. Nor does it offer any realist solution. Spotlight is somewhat better, but still dodges the issue when it comes to the (Jewish) root of all evil. Neither one, of course, even hint about Jewish Christianity breaking the back of the White Man's reasoning processes in the first place.

Regarding your K.K.K. friend, Mr. Holland, how could he possibly just spout from off the top of his head and call me a Jew? If he had read my book he would be aware of my pure Mennonite (and Germanic) ancestry for the last 400 years. If he cared to spend a million dollars in research, he would come up with the same information. So why would he just shoot from the lip when he didn't know what the hell he was talking about? By the way, how has he reacted to THE BOOK?

One of the favorite tricks the Kosher Konservative have learned from the Jews is not to argue the issue (especially when it is untenable for them) but just put a derogatory tab on your opponents. Three favorite names they use to put down the opposition is to call someone a homo, or a Jew, or a communist, the latter being the all-time favorite of the Birchers.

Keep pushing. We sent you a number of bookmarkers about two weeks ago. Did you receive them?

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. P. D. Argyle-Stuart
Colorado Springs, Colorado

April 24, 1978

Dear Mr. Argyle-Stuart:

A friend of mine sent me a copy of your "High I.Q. Bulletin", issue No. 16. I was somewhat intrigued by it since it raised a number of unanswered questions.

To start with, I presume from the title itself and the byline "This Sheet is for Ladies and Gentlemen of the Blue Ribbon Grand Jury of Intellect" that the publication is for people of higher than average I.Q., and, this furthermore presupposes that the editor himself would

have a considerably higher I.Q. than even his readers, or why would he have the audacity to presume to instruct them?

High intelligence also includes a mind whose reasoning powers are considerably above average. Reasoning in turn entails a gathering of meaningful facts and evidence, using well ordered logic to come to meaningful conclusions that are per se reasonable, logical, and above all, based on reality.

Using the preceding paragraph as the starting rationale, I am puzzled by much of what you write in issue No. 16, and I would appreciate some reasonable answers.

First of all, what is the objective, the goal, or the purpose of your sheet? What is it you are trying to accomplish?

I gather from your writing that you believe in (a) Christianity, (b) in the so-called Identity Movement, and (c) in astrology.

Let us first of all take Christianity. I (and thousands of others) have made a thorough study of this religion, as of other competing religions. I find that there is not the slightest shred of historical evidence that such a character as Jesus Christ ever existed in the first place. There are no writings, no statues, no paintings of any such character at the time mentioned. No respectable (or unrespectable) historian, writer, playwright, correspondent or letter writer of the times ever mentions such a character. This itself would be extremely strange, considering the magnitude of the supposed non-event. All we have is a contradictory hodge-podge collection of irrational writings that originated anywhere from 70 to 300 years after the supposed non-event, written by a conglomerate of wild ghost-writers of completely unknown origin, who threaten those that don't believe their wild rantings to a fiery torture chamber in "the hereafter", wherever that is.

All this appeals to the gullible, the irrational and the superstitious. It is certainly not the product of those that have gathered realistic, meaningful evidence and then logically marshalled those facts into a rational conclusion. The whole "spooks in the sky" story is more wild and farfetched than Alice in Wonderland. No one that I know of (except perhaps an escapee from a booby hatch) has ever seen, heard, felt or smelt a "ghost", holy or unholy. I haven't, my dad and mother haven't, my grandparents never did. Have you ever seen, heard, felt or smelt a spook, demon, ghost, leprechaun, witch, satan, spirit or any other supernatural manifestation such as hell, heaven, purgatory, etc.? If so, tell me about your experience.

Is "belief" without logic or meaningful evidence a manifestation of a logical mind that boasts high I.Q.?

Now we come to the so-called "Identity Movement". In the first place, if Christ was a pure concoction of a gang of wild scribblers of unknown identity then it is reasonable and logical to conclude that

the rest of the so-called "Holy Scriptures" too, are a concoction of lies and double talk, appealing to the gullible, superstitious and the irrational. Anybody can "believe" any nonsense they want to, including that cows are holy, and hundreds of millions of gullible fools do so in fact. But that does not prove the moon is made of green cheese or that cows are holy, or that everyone was drowned in the "Great Flood" in the year 2348 B.C. It is all a jumble of wild, unsubstantiated stories that anyone that is rational, logical and has a smattering of common sense would not swallow. Much less anyone who claims a high I.Q.

In deducing that we are the "real" Israelites, we must presume without any substantiation or a shred of historical evidence that there ever was a gang of immoral reprobates, that called themselves "Israelites". We must presume, again without a shred of historical evidence that there ever was an Abie, or Ikey, or Jakie, who started that infamous line of criminals that the Jews proudly claim as THEIR ancestors. However like the "spooks in the sky" story, there is not a shred of historical evidence to back up the Abie, Ikey and Jakie story, only unbelievable credulity by the gullible. You use such logic as the Saxons are descendants of Isaac by a childish play on words. Isaacson. Drop the "i", drop the one "a", change the "c's" into "x", and presto! instant Saxon! By playing this kind of silly game I could prove that an elephant was an alligator. Take the "ele", compare with "alli", drop the "gator". Get it? Pretty farfetched for someone heading up the high I.Q.'s.

Then we come to the astrology bit. Anyone who has studied astronomy and realizes the vastness of our universe, realizes what enormous "suns" the stars really are, how there are billions of them in our own galaxy, the Milky Way, and there are billions of other galaxies out there, realizes also what a tiny insignificant speck our planet earth is. To understand all this and then to conclude that the "stars", or our time of birth, control our destiny is not only gullible and superstitious, but highly irrational.

If you want to come back to reality; if you want to be rational and really use the logic your intelligence is capable of; if you want to quit playing silly games with your favorite (but wholly imaginary) "spooks" and get back down to earth, I suggest that you again study the Laws of Nature, from whence derives all the real knowledge that we possess. I have written a book on the subject. It is called NATURE'S ETERNAL RELIGION. Enclosed is a Question and Answer flyer that tells about it.

If you care to read "the other side" of your fantasies, namely the world of reality, we will be glad to send you a copy. After you read it, you can tear it apart, burn it, or do whatever you like. But I do think it will help restore your sense of reality, logic and rationali

ty, the true earmarks of a man with a high I.Q.

For a Whiter and Brighter World,
Creatively yours,

Mr. Watson S. Koldys May 1, 1978
Conshohocken, Pennsylvania

Dear Mr. Koldys:

It is always good to hear from an old friend again. I am glad to hear that you are avidly spreading the word and distributing Questions and Answers, as well as the books. We have to get that first 10 million out!

Thank you for the renewal and the $15.00 received. Enclosed is your 1978 Certificate and Card. Display it proudly and keep on organizing, propagandizing and proselytizing, wherever and whenever you can.

Yes, I have read Thomas Paine's book AGE OF REASON, and still have several copies. He has a lot of good arguments, albeit he claims that he is a "Deist". Evidently this means that he believes in a god but doesn't know anything about what it is that he might believe in. However he makes it plain that the Jewish bible is nothing but a collection of old myths. I somehow missed his argument that if J.C. had meant to start a new religion he would have written the book (the New Testament) himself so as to make sure that his reporters wouldn't get it all garbled. The fact that he didn't do so is a pretty good indication that he never was around in the first place. We live and learn.

Best wishes, and keep pushing!

For a Whiter and Brighter World,
Creatively yours,

Mr. Arthur Ayre May 1, 1978
W. Lebanon, New Hampshire

Dear Mr. Ayre:

It is really wonderful to receive encouraging letters like yours from a man of your young years. Whereas I have received many such letters, unfortunately not enough of them are from the younger generation. It is people in your age group that we must reach, but unfortunately at this time we don't have the organization to do so. I hope that now, having read the book you will help breach this shortcoming. After all, if it can make the impact it has on you, then cer-

tainly we have every right to hope it can do so for millions of others. **It is our duty to reach them.**

It is our initial goal to place 10 million copies of our White Man's Bible, NATURE'S ETERNAL RELIGION, into the hands of our White Racial Comrades. Once we have accomplished that much we will have the Jews and the niggers on the run. When you consider that we spend more on the shiftless niggers on welfare in half an hour than those 10 million books would cost, you can see what a tremendous bargain this would be for the White Race!

So I hope you will do your part and distribute as many copies of our White Man's Bible as you possibly can and spread the word.

Regarding Odinism, Druidism, Deism, etc., I have a low opinion of all of them. The White Man really never has had a good racial religion in all his history. What smattering there was was purely tribal and provincial, never universal for the whole White Race. Hitler's Nazi movement came closest, but it had a number of deficiencies, which I point out in the chapter of "Germany, Adolf Hitler and National Socialism." A few of these deficiencies were the fact that (a) it claimed to be a political movement, not religious (b) it never pointed out the destructive impact of Jewish Christianity (c) it was narrowly based on Pan-Germanism, and did not encompass the White Race as a whole.

In CREATIVITY I believe we have the TOTAL PROGRAM, the FINAL SOLUTION, the ULTIMATE CREED.

I am enclosing a Q. and A. flyer that will give you further information on CREATIVITY. I would like to see you become more aggressive and confident in yourself. Never apologize. Take advantage of your natural talents and intelligence. You can do a lot more than you think. If you have read the rest of the book by now I believe you will understand what I mean.

I would like to see you become a leader in your area. Propagandize! Organize! Proselytize! Starting at age 22, imagine what you can achieve in the next 40 years, if you put your shoulder to the task for the SURVIVAL, EXPANSION and ADVANCEMENT of the White Race.

The best way to begin is to start distributing our White Man's Bible. Remember we have to get those 10 million out.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Arthur R. Gawin **May 1, 1978**
Crystal Lake, Illinois

Dear Mr. Gawin:

This will acknowledge receipt of your letter of April 15, and also your flyer "Arrest All Lawyers!"

You say in your opening paragraph that after much research you have found out "what will win and what will not win, and we always keep coming up with the same conclusions".

Now I have been told a thousand times over by as many different people what will not win. In searching your letter and also the flyer, I search in vain as to WHAT WILL WIN. What are those "same conclusions" that you are talking about?

Surely to just proclaim "Arrest All Lawyers!" is not going to move a hair on anybody's head.

WHAT WILL WIN? What are your conclusions? What is your program? Have you found a better program than the CHURCH OF THE CREATOR in building a completely new religion for the White Man from the ground up? Building a new religion BASED ON RACE for the survival, expansion and advancement of the White Race? If not, why not join an organization and program that encompasses the whole ball of wax and goes after the cause, not the symptoms?

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. James Hart **May 1, 1978**
Pacoima, California

Dear Mr. Hart:

Many thanks for your application for membership and the two checks for a total of $25.00. On April 24th we shipped eight copies of our White Man's Bible, NATURE'S ETERNAL RELIGION, 100 copies of our Question and Answer flyer and several dozen Bookmarkers. These were shipped in two separate packages.

Enclosed is your Membership Certificate and also the card. Display them proudly and try to get as many copies of our White Man's Bible distributed as possible. We want to get 10 million copies into the hands of our White Racial Comrades. Once we have done that much we will have the Jews and the niggers on the run.

Your N.A.A.W.P. card is a good means of contacting new members and spreading the word. Since you have already a small group started, why not consider it as a "church group" and have CREATIVITY as the philosophical creed around which to rally the movement? It is 1000 per cent superior to attempting to have a White counterpart of the N.A.A.C.P. and using the nigger's organization as a model. Every movement should have a creed and a program as its core. In CREATIVITY I believe we have the TOTAL PROGRAM, the FINAL SOLUTION, the ULTIMATE CREED. I hope that it will be a blueprint and an inspiration to help build a powerful movement in your area. By having a RELIGIOUS ORGANIZATION you have so many advantages over having a political movement. Whereas anybody and everybody (due to Jewish brainwashing) thinks the Nazis can be kicked around like a dog, those same people are very apprehensive about attacking a religious movement. There are also many other advantages — legal, moral, tax-wise, prestige, and several other factors that I don't have space to go into.

Anyway I hope that CREATIVITY will give you the creed, program and motivation to dedicate yourself and your group to the survival, expansion and advancement of the White Race, the most precious value on the face of the earth.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Werner Krehl **May 4, 1978**
Alberton, South Africa

Dear Mr. Krehl:

It is real good to hear from you again. From your letter I gather that you have been delayed in running the advertising but plan to go ahead anyway in the new version of the banned magazine. Also I understand that you prefer to route the advertising to our Florida address here at H.Q. This is fine with me. The only reason I suggested a local address in your own town is that there would probably be more response and quicker receipt of the books by local handling. But either way is fine with me. The idea is to spread the word and get as many books out as possible. We are running out of time.

It is our initial goal to place 10 million copies of our White Man's Bible, NATURE'S ETERNAL RELIGION, into the hands of our White Racial Comrades. Once we have accomplished that much we will have the Jews and the niggers on the run. When you consider that we spend more on the shiftless niggers on welfare in half an hour than those 10 million books would cost, you can see what a tremendous bargain this would be for the White Race!

The argument that we might be splitting the White Race by exposing Christianity for the Jewish fraud it is, is an argument I have heard before. Some Jew undoubtedly invented that argument. If straightening out peoples thinking divides those who are still deluded and those that have come to their senses, that's just too bad. It's an operation that is absolutely necessary and cannot be avoided before we can build a sound movement. Christianity has been around for 2,000 years and it certainly hasn't solved our problems. In fact, it is the very weapon that has enabled the Jews to confuse the White Race, gain control of us and destroy the White Race.

Keep on pushing! Propagandize! Organize! Proselytize!

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mrs. Blanche T. Goins **May 17, 1978**
N. Hollywood, California

Dear Mrs. Goins:

Many thanks for your application for membership and the $15.00 in money order received. On May 15 we shipped to you a carton of eight copies of NATURE'S ETERNAL RELIGION, our White Man's Bible.

Enclosed is your Membership Certificate and also your card. Display them proudly. Also I hope you will place the copies we are

sending you selectively into the hands of those of our White Racial Comrades where they will do the most good. I hope you will continue to do so repeatedly and relentlessly until we have collectively reached our initial goal of those first 10 million.

I lived in the L.A. area between 1945 and 1950 and have been back many times since. As you probably know, Southern California is a most dynamic area of rootless people in which more new ideas in housing, religion, etc. are spawned than any other area I know of. It is also a racial polyglot of niggers, Mexicans and many of the other mud races, the latter multiplying rapidly and inevitably taking over. I am mentioning this to point up the fact that S.C. is, and will continue to be, a most fertile ground in which our religion can take root and flourish.

Can you do anything to get a small group started in your area? We ordain ministers in our church at no charge. If you think you can do something in this capacity, please let me know.

Your picture of your blonde son is most attractive. It is for millions like him all over the world and the future of such precious boys and girls that the CHURCH OF THE CREATOR is fighting. We know they are going to have to confront the racial war that is inevitable. It is our duty not only to inform, organize and survive, but to triumph. These are the crucial years. The more we do now the more we will insure their future survival, expansion and advancement — the prime goal of our movement.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Art Stinnett
Riggins, Idaho

May 17, 1978

Dear Art:

This will acknowledge your letter of May 2, and the $15.00 enclosed and also (finally) your earlier letter of April 21st with the $40.00 check. Thank you very much for both. In response to your last letter we shipped six records SURVIVAL OF THE WHITE RACE and also a few dozen copies of our Q & A flyer. These went out May 15th.

Enclosed is your Membership Certificate and Card. Display them proudly as being a member and blood brother of NATURE'S FINEST. Do your part in inculcating RACIAL PRIDE, RACIAL AWARENESS into our White Racial Comrades and spread the word — build the movement. I am convinced that only when we have dumped Christianity and made race the core of our religious thinking and motivation, will we be able to overcome our mortal enemies, the sinister Jew.

I still don't know where Riggins is, but we have no organized activity in Idaho. If you and your friends would like to start a CHURCH OF THE CREATOR group, I believe it would be most constructive. We ordain ministers to our Church at no charge. If you are interested we will send you an application. As I have pointed out so many times before, the advantages of launching and organizing a movement UNDER RELIGIOUS AUSPICES are tremendous — in terms of legal protection, financial and tax advantages, prestige and moral invulnerability. There are many more advantages, but I believe the foregoing suffice to paint the picture. Whereas anybody feels they are entitled to kick a Nazi around like some dog, they think twice before attacking someone else's religion, regardless of what that religion might stand for, or believe in.

I agree 100 per cent with what you say in your letter and am honored that you find my book is the most controversial you have ever read or hope to read. Yet there is nothing exceptionally new in what I have said that hasn't been said before in a fragmented way by any number of people. The thing that I have done is put the whole package together in a way that makes sense, and for the first time in history, compiled it into a racial religion for the White Race.

What astounds me more than anything else is not at all what I have done, but in view of the fact that the Jews have had a racial religion for the last 3,000 years for all the world to look at, how does it happen no White Man ever did it before?

Why didn't the Egyptians do it? The Greeks? The Romans? The Germans, the French, the English, 100, or 200, or 300 years ago? If any of them had, the perfidious Yids would have been wiped from the face of the earth along time ago, and the White Race would now be well on its way of having inhabited the earth and developed an infinitely superior SUPER RACE.

I wouldn't worry too much or spend too much time trying to win over hard core Christians. There are millions of good White Racial Comrades who have not been too impressed by this mind-bender, but are racially concerned. It is much more profitable to develop the potential of such prospects who are searching for answers but have never been shown the way. Especially we should concentrate on the young people, since the future belongs to them.

In CREATIVITY I believe we have the TOTAL PROGRAM, the FINAL SOLUTION, the ULTIMATE CREED.

It is our initial goal to place 10 million copies of our White Man's Bible, NATURE'S ETERNAL RELIGION, into the hands of our White Racial Comrades. Once we have accomplished that much we will have the Jews and the niggers on the run. When you consider that we spend more on the shiftless niggers on welfare in half an hour than those 10 million books would cost, you can see what a tremen-

dous bargain this would be for the White Race!

So I hope you will do your part and distribute as many copies of our White Man's Bible as you possibly can and spread the word. Propagandize! Organize! Proselytize!

Let me hear from you as to what progress you are making. Since you didn't specify whether you wanted books or records (for the $15.00) I sent records because you already had a previous shipment of books. The records should be a great help in bringing in new members to first listen, then get the rest of the story from the book.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Martin Klix
Red Deer, Canada

May 17, 1978

Dear Mr. Klix:

This will acknowledge receipt of your letter of May 5th and the $30.00 money order. Thank you for both. We shipped two cartons of eight each of our White Man's Bibles to you on May 15th.

Yes, the "Holocaust" program was a massive brain pollution job perpetrated by the Jews on our White Racial Comrades. However, in large part I believe it backfired. People are beginning to become more and more aware of the Jew in our midst as something alien and sinister. This is the first step in organizing opposition — racial awareness — an awareness of our own racial identity and recognition of the dangerous enemy in our midst. The more we talk it up the more that awareness will grow. So take every opportunity to point it out, talk it up and spread the word.

No, I no longer belong to any political party and haven't for years. As I point out in my book, the Jews with their control of all the means of propaganda are in complete control of all political parties and always will be as long as we play the game according to their so-called "democratic" system, which is a fraud and a hoax, a purely Jewish invention designed to flim-flam and control the goyim. You can't beat them by playing by their rules and playing their game. That is why I came to the conclusion that a completely new religion for the White Man was a dire necessity and that we must throw Jewish democracy out the window along with Christianity. Instead we must have OUR OWN RACIAL RELIGION and utilize the LEADERSHIP PRINCIPLE in our organization of government and every other institution.

I sent you our record SURVIVAL OF THE WHITE RACE and it came back for insufficient postage. However the Post Office said it was correct and it was sent on to you again.

Do all you can to sell, loan and otherwise distribute as many of our White Man's Bibles as you possibly can. We have to get those 10 million out. I hope that you and your friend can start a small group and hold regular meetings. Every positive action helps.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Cullen A. Stinnett
Riggins, Idaho

June 2, 1978

Dear Mr. Stinnett:

It was good to hear from you again and get the benefit of your views. Your letter was waiting on my return from North Carolina. Since I had a pile of mail I am going to be brief and make a few (what I hope are constructive) comments.

1. One of the fatal weaknesses I find on our side is THE MATTER OF ATTITUDE. Of the voluminous correspondence I get, people like to review and rehash all the disadvantages of our side and all the advantages of the Yids and their ilk. This is a negative approach. There is no point in reviewing this to me in particular, or anybody else that already understands the problem. If you have a flat tire while driving down the turnpike, once you are aware of it, the next problem is to fix it and solve the problem. It is no further help for the next dozen passing motorists to stop and repeatedly point out to you that you have a flat tire, unless they want to roll up their sleeves and help change it.

And so it is with many of us. It seems any number of people send me further evidence that there is a Jewish conspiracy, here is what they are doing to us in Tulsa, etc. I don't need to be reminded. I already know and have known for along time we have a flat tire. I want activists — Creative partisans.

2. One of the easiest constructive acts is to place our White Man's Bible into the hands of as many White Racial Comrades as possible in the limited time we have. This has become a criminal act in so-called "democratic" "Western" countries like Canada and (formerly) Great Britain. The short and long term results are positive and incalculable.

3. I would like to see your group get organized as a church. (We ordain ministers.)

4. I would like to see your group place one of our White Man's Bibles in the hands of each and everyone of Idaho's State legislators and senators.

Let me hear from you again and tell me more about your

background. It sounds to me like there is much more to tell about a very interesting life-span.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. E. L. Stringfield
Lima, Ohio

June 9, 1978

Dear Mr. Stringfield:

Your letter of June 3rd has reached me and I appreciate your comments about our White Man's Bible, NATURE'S ETERNAL RELIGION. I am glad that you agree with some of the ideas expressed in the book, although you do not specify.

Everybody is entitled to their opinions, you to yours, and I to mine. To say I am mixed up about Christianity is merely another opinion of yours and a pretty unfounded and worthless one at that.

Getting down to basics, Christianity is nothing more than another man-made religion, one out of tens of thousands that have existed and still continue to exist and plague the minds of the gullible, naive and superstitious. This whole "spooks in the sky" idea is a superstitious and gullible hold-over from our barbaric ancestors and must rely on a 20 billion dollar a year indoctrination program on the young and the gullible to stay alive. If just one tenth of that amount a year were spent promoting CREATIVITY, our religion would sweep the world before another year was over. It would spread like wildfire.

Like LSD, alcohol, opium and other drugs it is nothing more than an escape mechanism in an attempt to escape from the real world into a fantasy world. If you want to play those kinds of make-believe games with your imaginary spooks (like a little boy playing with his tin soldiers and a little girl with her dolls) that's fine with me. You have the right to make a silly fool of yourself, but I also have a right to criticize your foolishness and I am exercising that right.

If you think that your Jew-concocted Christianity is so unquestionably correct and impregnable, then you should have no problem answering some obvious questions that are screaming for answers. I am referring to the 35 questions we have posed on the last page of our four page enclosed flyer. Why don't you cogitate on them for a bit and let me know what you come up with. Perhaps it may bring you back to reality.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Russ Hobron **June 9, 1978**
Chittenango, New York

Dear Mr. Hobron:

In reply to your letter of May 25th, the only thing I know about "Buddy" Tucker is a small booklet they have put out, a copy of which I am herewith enclosing. I believe what this Jew, Harold Wallace Rosenthal, had to say is so clear and explicit that anybody should be able to understand the Jewish conspiracy, and it CONFIRMS EXACTLY what I say in my book.

But notice Tucker's conclusion: Yes, the White Christians are stupid to let the Jews control them using Christianity as a major tool, BUT Christianity is wonderful and is the answer to the Jew problem. A most stupid contradiction if I ever heard one. What the Jew Rosenthal spells out to him and the rest of us should be obvious to anyone who has read our White Man's Bible — namely that Christianity was the entering wedge to split the White Man's brain 2,000 years ago and has been the MAJOR CLUB with which to subvert, confuse and destroy the White Man's thinking and society ever since.

So you take it from there. What occasion did you have to come into contact with this group?

Keep spreading the word! We have to get those first million books out!

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Martin Klix **June 13, 1978**
Alberta, Canada

Dear Mr. Klix:

It is always good to hear from you. Yes, I can speak, read and write German, but I can make much better time in English. I am glad to learn that all the materials have arrived safely and that you are diligently distributing them and spreading the word. The ramifications from distributing the books can be much greater than we sometimes expect. Who knows but it might inspire and spark another young Adolf Hitler to rise up and lead the White people out of the clutches of the perfidious Jew.

So do what you can to distribute the books and don't let age discourage you — you are never too old to do your part in the survival, expansion and advancement of the White Race. We have to get those first 10 million books out.

As for what the Jews might do to me personally, I couldn't care

less. Anyone who starts thinking along these lines is soon paralysed into inaction — “fear of the Jews”, exactly what the Jews want. I therefore never waste any time on the subject, and hate to have anybody even bring it up.

Let’s concentrate on the positive — come hell or highwater — spread the word! Propagandize! Organize! Proselytize!

Delenda est Judaica!

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Allen Vincent
San Francisco, California

June 15, 1978

Dear Mr. Vincent:

Since I hadn’t heard from you or about you for sometime, I thought I'd drop you a line and find out what is doing in San Francisco and whether you are still fighting the good fight.

What jogged me on the idea of inquiring was my reading the April - May issue of the “New Order”. Whereas it mentioned a number of independent units of the N.S.P.A., your name was conspicuous by its absence. Which brought a number of questions to my mind.

The first one is about Frank Collins. He is being highly touted by the “independent” groups. He has also been widely accused of being half Jewish. Another thing that bothers me is that he is receiving such widespread publicity in the Jewish press about the highly touted proposed march in Skokie. Also the ACLU has helped him fight the court cases through to the bitter end. This all seems to add up to one thing: the Jews want him to be the nominal “leader” of the N.S.P.A. What is your version of all this?

Secondly, Harold Covington seems to be getting a lot of attention, yet with his hippie beard and slovenly appearance, he seems to typify anything but a good Nazi. Do you know anything about him?

Since I am not a member of the group but am promoting CREATIVITY as a more advanced alternative and a more comprehensive philosophy, I am not directly involved. But I am always on guard to try to differentiate that which is genuine and that which is Jew-promoted. Any information you can give me would be appreciated.

Also let me hear from your area and what you are doing. Best regards to Charlotte Magnette and the rest of your group.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Segment 38

Mr. Terry Oaks **June 16, 1978**
Sepulveda, California

Dear Mr. Oaks:

Many thanks for your intelligent letter of June 11 in which you express your comments about our White Man's Bible, NATURE'S ETERNAL RELIGION. I am happy that we agree on most basic premises such as Judaism, Christianity, the Mormon religion and other phases of our movement. I believe we probably are pretty well in agreement on the race question as well and I want to clarify our position further, since from your letter there seems to be some confusion in your mind on this matter.

In the first place our objective is not so much "racial purity" as racial up-grading and up-breeding. When we talk about "purity" we are talking about a vague concept. "Pure" what? The White Race itself is a mixture of many diverse tribes whose wanderings and origins are lost in the nebulous mists of antiquity. We of the Church of the Creator are not particularly concerned about tracing and unravelling all these lost threads because (a) it is impossible and (b) it is meaningless in any case.

However, when we talk about the White Race of today, regardless of its complex and obscure historical origins, we are talking about a very real entity. In fact, we are talking about the most precious value on the face of the earth, as far as the Church of the Creator is concerned.

That the White Race (as the Jews, niggers, and every other race) has its mongrelized fringes cannot be disputed. That the White Race is not homogenous and has many variable components also cannot be disputed. Therefore the search for "pure" is meaningless. But that does not invalidate the broad, basic concept of the White Race as such, nor from the White Man's point of view is there any question about its superiority and desirability over the niggers and other mud races. This is what CREATIVITY and the Church of the Creator is all about. Not only do we want to save the White Race from being mongrelized (also a broad concept) and overwhelmed in a flood tide of mud races, but we want to aggressively work for its survival, expansion and genetical advancement. We want to wrest control of our own destiny out of the hands of the treacherous Jew and back into our own capable hands.

Once we have done that much the struggle is pretty well over. Organized and united, the White Race, conscious of its own value

and destiny, is ten times more powerful than all the Jews, niggers and mud races lumped together. Without this racial consciousness, the White Race, at the mercy of the perfidious Jew, is going down the sink-hole of history, into eternal oblivion. The Jews are hell-bent on the genocide of the White Race. They have been working on this for thousands of years and they are now on the verge of total success. Only a race-conscious, united White racial movement can stop them.

You say in your letter that you are one-eighth Indian, but it doesn't show, and there are many others like yourself in America, many of whom are not even aware of the admixture of their genes. This latter is true and it is a problem, but not at all insurmountable. The Jews have kept their racial (and religious) identity for thousands of years, despite the fact (due to their parasitic nature and religion) they have taken in the genes of most of their host countries. The biggest problem with people like yourself is that it is extremely hard to rationalize on the race issue, because they are over-sensitive about their racial dichotomy, and therefore overly defensive. The question could possibly be clarified if you were to ask yourself: Would you rather be 7/8 Indian and 1/8 White? Would you rather be 100 percent Indian or 100 percent White? Would you rather live in a mixed society of Indians, niggers and mongrels (like Harlem for instance)? Could you and your family survive in the middle of Harlem? Or would you prefer to live in a White neighborhood, a White city, a White country, a White society?

It is the position of the Church of the Creator that the White Race can only survive in a White society, only wants to live in a White society, and is determined to create a White world, the only kind of world in today's population explosion (of mud races) in which it can survive. It is our irrevocable compulsion to create such a world. We think it is stupid and contrary to the Laws of Nature to feed, subsidize and encourage the proliferation and multiplication of the inferior mud races to where they will crowd us from off the face of the earth. We mean to reverse this trend. We mean to employ the same American way of expanding the White race and crowding the mud races of the world before us as the White Man did in the building of America. We mean to pursue this course until we have settled and colonized all the good land on the planet earth. It is either that or racial suicide.

Regarding your contention that a little mongrelization is good for our race, this just isn't true. This is completely contrary to the laws of Nature. Nor, with 500 million members in our White gene pool, are there any dangers of in-breeding, that seems to worry you. I have observed in a lake in Canada (next to which we had a farm) that on that lake in the summer time there were tens of thousands

of ducks that used it as a breeding and feeding ground. In that conglomeration were pin-tail ducks, teal ducks, canvas back ducks, mallard ducks, mud hens, and other species that I don't remember. But despite the fact they were all ducks and on the same lake, none of them practiced mongrelization or crossbreeding. Each strictly stuck to their own species when it came to mating. Some argue as an example to the contrary the case of dogs, horses and mules. Let me point out that their breeding habits are controlled by man, and are therefore artificial. You never see any crossed mongrel mules in the wilds of the west where you still have wild horses and wild burros. Nor do you see any mongrelization in the wild dogs of Africa, or wild wolves, or wild coyotes. It is only man in recent times that is confused out of his natural instincts, and thanks to the deceitful Jew, the White Man in this respect is the most confused critter of all.

The Church of the Creator means to correct this abominal aberration of Nature, and bring the White Man back to his senses, to his natural instincts. Our philosophy is: to hell with the Jews! to hell with the niggers (yes and the Indians, too)! to hell with all the mud races. We are interested only in the survival, expansion and advancement of the White Race and the White Race alone. As far as the mud races are concerned, we are through with feeding and subsidizing their multiplication and proliferation to our detriment on this crowded planet earth. It is our program to let them shift for themselves with no help from us, to let them wither on the vine, and finally let them shrink into oblivion with no aid whatsoever from us.

In Creativity I believe we have the TOTAL PROGRAM, the FINAL SOLUTION, the ULTIMATE CREED.

If this sounds extreme to you, then so be it and call me a deliberate conscientious "radical". It is only the "radicals" who have a clear and fixed course of action who ever get anything done in this world. And we are damn sure we want to change this lousy Jew and nigger infested world into something much better for the White Race.

Enclosed is a Q & A flyer that might further answer any questions you have about Creativity. I hope you will join in our great endeavor for the survival of all that is great and worthwhile in this world. You can do this by distributing our book and spreading the word.

It is our initial goal to place 10 million copies of our White Man's Bible, NATURE'S ETERNAL RELIGION, into the hands of our White Racial Comrades. Once we have accomplished that much we will have the Jews and the niggers on the run. When you consider that we spend more on the shiftless niggers on welfare in half an hour than those 10 million books would cost, you can see what a tremendous bargain this would be for the White Race!

Creatively yours,
B. Klassen, P.M.

Rev. Ben Kriegh
Boulder, Colorado

June 16, 1978

Dear Ben:

In my last letter (Feb. 21) I believe I mentioned to you that I was planning to place an ad in a Boulder based magazine called, SOLDIER OF FORTUNE. This I tried to do, and after some unexplained stalling they finally sent my ad application, check and other material back, saying the ad was against their policy, whatever in hell that is. (Evidently — protect the Jews at all costs.)

I am enclosing the copy, check and other correspondence herewith. I wonder if you could take it upon yourself, since they are in Boulder, and go see them personally, both the ad manager, W. J. Gary, and head honcho himself, Robert K. Brown. Try to get them to place the ad. If they won't, find out why they won't and if it is what I suspect, (Jew oriented) then let them know in no uncertain terms that we are aware of their Kosher game.

I hope you are still in there fighting. The more I see the unravelling of the Jewish program the more I am convinced that we have the right creed and program. Keep the faith and pursue the good fight. Let me know how you make out with Soldier of Fortune.

For a Whiter and Brighter World,
Creatively yours,

Mr. John W. J. Thomas
Aiken, South Carolina

June 17, 1978

Dear Mr. Thomas:

Many thanks for your letter of June 12. I am always happy to hear from one of our White Racial Comrades who can understand and appreciate the ideas expressed in our White Man's Bible, NATURE'S ETERNAL RELIGION. Enclosed is a copy of our Q. & A. flyer which might further answer some questions you have about CREATIVITY. These flyers are available for mass distribution at the price stated in the flyer itself.

Yes, the Morman church, based on a fraudulent premise like Jewish Christianity, is also heavily infiltrated with Jews and they are rapidly breaking down the racial barriers. I predicted this would happen, and it is happening because the White Man (until Creativity) never had a racial religion around which he could polarize and inculcate racial loyalty to the White Race. However to the credit of the Mormons, they have done a hell of a lot better than those fanatics of fantasy, the Christians.

Your dream of having a beautiful ranch in Vietnam in a White

society may never come true, but if we get on the ball, it could come true for your children, who are an extension of yourself into future millenniums. To achieve this we must first STRAIGHTEN OUT THE WHITE MAN'S THINKING. This is THE ONLY REAL OBSTACLE we face. We must get the White Man to think in terms of the White Race and the White Race alone. We must make this the core of his religious thinking. We must get him to think in terms of: to hell with the niggers! to hell with the Jews! to hell with the mud races! What is good for the White Race is the highest virtue, what is bad for the White Race is the ultimate sin.

In CREATIVITY I believe we have the TOTAL PROGRAM, the FINAL SOLUTION, the ULTIMATE CREED.

It is our initial goal to place 10 million copies of our White Man's Bible, NATURE'S ETERNAL RELIGION, into the hands of our White Racial Comrades. Once we have accomplished that much we will have the Jews and the niggers on the run. When you consider that we spend more on the shiftless niggers on welfare in half an hour than those 10 million books would cost, you can see what a tremendous bargain this would be for the White Race!

So I hope you will do your part and distribute as many copies of our White Man's Bible as you possibly can and spread the word. Propagandize! Organize! Proselytize!

Enclosed is an application to become a card carrying member of our elite group. I hope you will join us and start distributing our White Man's Bibles immediately. We have to get those first 10 million copies out.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Richard C. Morris
Babson Park, Florida

June 17, 1978

Dear Dick:

Many thanks for your renewal and the $15.00 check received. On June 17th we shipped to you a carton of eight White Man's Bibles. Enclosed is your Membership Card and Certificate.

I hope all is going well with you. I hadn't heard from you for so long I was beginning to get worried. I regretted that you did not include any news about yourself in your application. So what have you been up to?

Our suspicions about Soldier of Fortune have been pretty well confirmed — another Jew-run outfit. When I sent in my first inquiry for running an ad and didn't hear anything for a month, I got on the phone and called the advertising manager, Wm. J. Gary. He pretend

ed they hadn't received anything. I then sent in the application along with a check for $111.62 for a one-sixth page ad along with a photo-ready layout. The layout was done by a professional typesetter locally and cost me about $23.00. Again I didn't hear from them for about two months. nor did my cancelled check come back through the bank. Finally I got everything back from them with a curt note saying the ad was against their policy, whatever in hell that is. (Evidently — protect the Jews at all costs.) Enclosed is a copy of their letter. So if you care to — give them hell!

Let me hear further from you!

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. John W. J. Thomas
Aiken, South Carolina

June 17, 1978

Dear John:

I had just sent off a letter to you when I received your second letter of June 13th, so will be brief.

Thanks for your flyer on Paraguay and also about the Mennonites. They are a good people. If only they could have been given a good religion to start with.

Since you ask my opinion about the Paraguay land venture, my opinion is this: If I were you I would stay put in the U.S. and make a valiant effort to make a go of it and promote the best interests of the White Race at the same time. If you can't hack it here you won't do it in Paraguay either. Maybe the Mennonites did, but they had the advantages of a team effort and evidently put up with a lot of hardship that most people would not. Anyway, you and your family would be in a foreign element, even among the Mennonites. Besides, world conditions are coming to a showdown in the next decade, and the fight will primarily be lost or won right here in the United States. The White Race needs all the manpower it can get, and it needs you here. In view of this, it is immaterial about the integrity of the Paraguay Estates Company.

A year ago you wrote me about being in the penitentiary. Would you now care to enlighten me as to the circumstances?

Enclosed is an application to join the CHURCH OF THE CREATOR. I am hoping that you will now become a partisan activist, not just a spectator.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Quin L. Hermann **June 26, 1978**
Inver. Grove Hts., Minnesota

Dear Mr. Hermann:

This will acknowledge receipt of your letter of June 17, also your renewal and $15.00 check received. Many thanks. We need to get the word out as never before. Where we do reach our White Racial Comrades we have positive, constructive results, as witness your friend Wm. Gutterman and family. If writing of my book did nothing more than bring two more White babies into the world, it was well worth the effort. But I have heard similar reports from California, Oregon and elsewhere. Just imagine how much good we could do if we got those first 10 million books out! So keep on pushing! Our White Man's Bible is being noticed more and more by groups that originally would like to have suppressed it.

We shipped a carton of eight White Man's Bibles to you on June 26th. Enclosed is your Membership Certificate and Card for 1978. Display them proudly.

Another contact you made that is paying off is Jordan C. Mercer of Asheville, North Carolina. You sent him a copy of the book while in jail. He is now out, sent for $55.00 worth of books, records, flyers, etc. and is making a concerted effort to organize a church group in Asheville. So — keep planting the seed.

Regarding Bob DePugh and his Committee of Ten Million, I must say that Bob himself is as confused as Jimmy Carter when it comes to Jews, Christianity and the race issue. I attended his meeting in Kansas City in 1977, I spent two hours with him trying to get him straightened out, but although he seems to agree with me, he always comes up like a Bircher, waving the flag, and ignoring the Jew and nigger issue. I have given up on him. The best credentials he has to offer is that he spent four years in the pen, but when it comes to creed, principles or ideology he is as screwed up as the average yokel.

I did get to speak to the group in K.C. but it consisted of such a diverse assortment of born-again Christians, K.K.K.'s (the only sensible group), Tax-strikers and what have you, all going off in different directions that no unified course of action could ever come out of it. Why? Because none of them had an ideology that was worth a damn, and the only thing they had in common was negative — namely that the country was in a mess.

After comparing notes with most of the major groups in the country (that are supposedly on our side) I am more convinced than ever that in CREATIVITY we have the TOTAL PROGRAM, the FINAL SOLUTION, the ULTIMATE CREED. Let's stick with it and let's push it!

For a Whiter and Brighter World,

Creatively yours,
B. Klassen, P.M.

Mr. Terry Oaks
Sepulveda, California

June 26, 1978

Dear Mr. Oaks:

This will acknowledge receipt of your letter of June 21. I appreciate the additional background information about the Cherokee Indian tribe and about the "Okies" in the Bakersfield area. I used to live in the L. A. area for about 12 years and have been in the Bakersfield area any number of times.

However, in getting our priorities in order, it seems we are getting carried away by the Cherokee issue, which isn't the issue at all. Our number one enemy and overwhelmingly so, is the tribe of Judah. So let us keep our eye on the ball and not forget our miserable dilemma—we are in the clutches of the Jew. Until we solve that problem ALL THE OTHER PROBLEMS ARE MERELY CONSEQUENCES — EFFECTS—SYMPTOMS. This applies to inflation, school bussing, confiscatory taxation, the Mexican invasion of the southwestern U.S.A., the rapid proliferation of the niggers, the runaway welfare burden, etc., etc.

Until we drive the Jew from power, the fight against all other problems is a meaningless exercise in futility, and this includes the so-called Tax Revolt. It is like chasing all over the country putting out fires set by an organized gang of pyromaniacs, but never going after the pyromaniacs themselves or even admitting their existence.

In CREATIVITY I believe we have the TOTAL PROGRAM, the FINAL SOLUTION, the ULTIMATE CREED. THE SOLUTION IS RACIAL, and the only way we can win the war is to get a mass racial movement going that has the zeal of the early Christians, but has eliminated the idiotic "spooks in the sky" lunacy from its creed. This will take a lot of doing, BUT IT'S THE ONLY WAY. In NATURE'S ETERNAL RELIGION we have the creed, the program, the whole package around which the White Race can polarize and then move forward on a constructive, CREATIVE program for the next million years.

Your concern about the "fringe areas" such as "the Okies", the "southern Mediterranians", "Alpine" etc. is completely unfounded, and only a secondary problem for the future, a problem which in our program of Creativity is not hard to solve. Our program is to encourage the multiplication of the RACIALLY VALUABLE, discourage (but not eliminate) the breeding of the racially unvaluable. There might be thousands of individuals that are racially valuable even in southern Italy, and there might be thousands of racially unvaluable even in northern Germany. The criteria will be the individual himself, or herself, who will best be a walking file of his or her antecedents. Is that clear?

But the UPBREEDING PROCESS is not the No. 1 priority AT THIS POINT IN HISTORY. Unless we wrest control of our destiny from the perfidious and parasitic Jew IN THIS GENERATION, it's all over. As I stated before—all other issues at this time are secondary. You have stated the same thing in your letter—"if the White Man doesn't become intelligent on this race issue it is all over for him." So we agree, right? So let's forget about the Cherokee issue and get with it. As I have stated a thousand times before—the real road block is in the White Man's brain—he is all screwed up on the race issue—Jews, Christianity and the whole bit, and in NATURE'S ETERNAL RELIGION WE HAVE THE ANSWERS—creed, program, religion, ideology, the whole ball of wax.

Now since you have prestige and contacts in the Tax Strike movement, you could do much to introduce and promote the race issue to your misguided fellow workers. I will here state categorically the whole movement is pointless as hell, because it doesn't have its priorities straight. It is merely fighting effects—symptoms—consequences, but (like the John Birch Society) is fanatically protecting the root cause, the g. d. Jew, and it will never get anywhere in a million years.

So, I am hoping you will do what you can to enlighten and straighten out your fellow workers (who are good people) and get them on the race issue. Unless you do this you are all only spinning your wheels.

The first step is to distribute the book. The second is to organize on a racial-religious basis. Enclosed is a flyer that tells about Step No. 1. I hope you will take action, become an involved RACIAL ACTIVIST. It is either that or oblivion.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

P.S. Read your tract on religion after I wrote this letter. It's good, but does nothing in solving the problem. Will comment on it next time. B.K.

Segment 39

Mr. Richard Stark **July 13, 1978**
Manhattan Beach, California

Dear Mr. Stark:

Many thanks for your interesting letter of July 10, also the $20.00 check received. We shipped 10 copies of our White Man's Bible, NATURE'S ETERNAL RELIGION, to you on July 13. As an extra bonus we are also sending you one of our LP records, SURVIVAL OF THE WHITE RACE.

It is interesting that you lived in the Fort Lauderdale area before you moved to L.A. This represents some kind of a switch. Between 1946 and 1951 I used to live in the L.A. area, Glendale, Pasadena etc.

Back in 1966 I ran for the Florida State Legislature and won. I wonder if you were in Broward County at that time and perhaps remember that campaign?

You say you are well versed on the White Power struggle, but that I "lifted the veil of illusion from your eyes". Could you be referring to the vital part the Jewish-Christian hoax has played in our deterioration and enslavement? This is an extremely important factor in the whole conspiracy, and one which, unfortunately, the Nazis and other White racist movements prefer to ignore. I contend that WE CAN'T IGNORE IT, that it was, and is, the key to the Jew's breakdown of the White Man's mental process and caused his utter confusion in trying to come to grips with the Jewish dilemma. You can't preach the Jews are God's chosen on Sunday and then go out and fight them the rest of the week. In CREATIVITY I believe we have the TOTAL PROGRAM, the FINAL SOLUTION, the ULTIMATE CREED.

It is our initial goal to place 10 million copies of our White Man's Bible, NATURE'S ETERNAL RELIGION, into the hands of our White Racial Comrades. Once we have accomplished that much we will have the Jews and the niggers on the run. When you consider that we spend more on the shiftless niggers on welfare in half an hour than those 10 million books would cost, you can see what a tremendous bargain this would be for the White Race!

I would very much like to see you become an avid distributor of our White Man's Bibles. Our initial goal must be to first of all STRAIGHTEN OUT THE WHITE MAN'S THINKING. Then the next step is to Propagandize! Organize! Proselytize!

Enclosed is an application for a Membership Card and Certificate. Since you have already paid in more than $15.00, all you

need to do is fill out the application and we will be glad to send you both.

In the meantime keep up the good fight! Delenda est Judaica!

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

P.S. Regarding your question about personal harassment, I think that problem has been highly over-exaggerated. In the five years my book has been distributed (all over the world) I have never gotten a threatening phone call, despite the fact I am openly listed in the directory. I have gotten a few nasty letters (less than 1/2 per cent) mostly from Christians who are faced with the problem of "Ye shall know the Truth and the Truth shall make you mad." B.K.

Mr. Michael McLaughlin
Merseyside, Great Britain

July 21, 1978

Dear Mike:

Received your good letter of July 10th, also received the B. P. bulletin today. Am glad to hear that recruiting and expansion is going at full speed ahead. The time has come to rout the scum and clean house and it is a race against time as to who will survive — the White Race or the Jews and their accompanying scum.

I am also happy to learn that our White Man's Bibles are moving much more rapidly. I am getting new letters from Great Britain every now and then that are most encouraging. I hope you leave the bookmarkers in the books (that we place in them). I enjoy hearing from as many readers as possible.

We mailed 16 books on June 19th. You should be getting them any day now. Please confirm each shipment. We shipped another 16 books the other day (July 19th).

I read in one of the American Nazi papers that your headquarters had been raided by the British political police, but saw nothing in the bulletin about it, nor in your letter. Evidently they did not slow you down too much. Also I note you have a special notice in the June bulletin about availability and reduced prices on NATURE'S ETERNAL RELIGION. I hope that my contribution will help straighten out the White Man's thinking in Great Britain and the rest of the world, and will lay a solid foundation for a fundamental philosophy with which the White Man can recoupe his rightful place in Nature's scheme of things and prosper by it for the next million years.

Keep up the good work.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Rev. Ben Kriegh
Boulder, Colorado

July 22, 1978

Dear Ben:

This is in reply to your letter of July 6. I tried to call you a few days ago but when I called a recording said your number had been disconnected.

Your visit to Soldier of Fortune is very interesting and it more or less confirms what I suspected when they turned my ad down. In fact, when I read all the good favorable publicity about it in the Kosher press sometime ago, it already raised many questions in my mind. Those Jew boys seldom make a mistake. They know whom to laud, whom to attack and whom to ignore. When Brown says he is pro-Israel that pretty well ties it down.

Looking at the whole picture now I can see where this cunning Jewish operation serves a very useful purpose. First of all, it identifies by name and address those adventuresome souls who would be good material to probably oppose the establishment when it comes down to the White Man's back to the wall fight in open street fighting. Secondly, some of these can be siphoned off by being induced to go to some remote area of the world, like Rhodesia, and quietly be killed off in some "guerrilla action", without creating any unusual suspicion that they had been murdered by the C.I.A. Evidently you have come to the same conclusions.

Anyway, I would like to have you confront Brown, and if he denies our ad, let him know that we have spotted him for the traitor he is.

I am placing an ad in PREVENTION MAGAZINE, a natural foods and health magazine. It, too, is run by Jews, but by making it a short classified ad of about 30 words and stressing that our powerful creed is based on the eternal laws of Nature, I expect to get it in. Anyway, they have sent me a confirmation of acceptance that it will run in the September issue, which comes out the latter part of August. You can pick one up at any Health Food store. The magazine has a circulation of 1.85 million.

I am eager to hear further about your meeting with the 20 people you mentioned in your letter. Keep up the good work. We have the TOTAL ANSWER in NATURE'S ETERNAL RELIGION, but it will (like any other movement) take a hell of a lot of money, time and above all, DEDICATION to put it across. But once we do, it will sweep across the country like a tidal wave, much as Prop. 13 did in California.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. J. M. Andrade
Worcs, England

July 25, 1978

Dear Mr. Andrade:

Thank you for your encouraging letter of July 20. It is gratifying to know that our White Man's Bible, NATURE'S ETERNAL RELIGION, has made a meaningful impact on your life's philosophy of race and religion. I hope you will endeavor to broadcast and disseminate our philosophy to as many other White Racial Comrades as you possibly can.

It is our initial goal to place 10 million copies of our White Man's Bible, NATURE'S ETERNAL RELIGION, into the hands of our White Racial Comrades. Once we have accomplished that much we will have the Jews and the niggers on the run. When you consider that we spend more on the shiftless niggers on welfare in half an hour than those 10 million books would cost, you can see what a tremendous bargain this would be for the White Race.

The book sells for $3.00 U.S. or a carton of eight for $15.00. If you would like to have us send your friend in Rhodesia a copy, just send us his name and address and $3.00 U.S. and we will mail it to him. This would save time and postage of sending it to you first and then your re-shipping it to him.

Sometime ago somebody sent me a copy of the article in "Searchlight". I think it was somebody in Ireland that I had corresponded with that turned over the material. However, it doesn't bother me in the least. We can't be aggressively distributing material to our own White Racial Comrades without it being available to our enemies as well. But, so what? We should be less concerned about what our enemies are doing than what we ourselves are doing, or better still, failing to do. Instead of being spectators, we ourselves must take the initiative, be the doers, the aggressors, the activists. We must become fanatic activists and deplore the role of spectators. So help spread the word and distribute the book!

Enclosed is a Q. & A. flyer that will probably answer some further questions about Creativity. For a Whiter and Brighter World,

Creatively yours,
B. Klassen, P.M.

TL Frederick J. Prohaska IV
Unit Two Milwaukee
Milwaukee, Wisconsin

September 14, 1978

Dear Mr. Prohaska:

Many thanks for your informative letter of August 29. I presume that when you say that you have read our publication you are referr-

ing to our four page Question and Answer flyer, not the book, NATURE'S ETERNAL RELIGION, which we call our White Man's Bible. Since we need more people like you to spread the word, I am sending you a complimentary copy of the book.

I am one of the early admirers and followers of Adolf Hitler ever since I read Mein Kampf in the original German in 1938. Like every movement or development, be it automobiles, airplanes, or whatever, the beginning of such a development hardly ever encompasses the full potential of such a development. And so it is with Hitler's National Socialism. It was a powerful beginning, but it was not the total answer for the whole White Race. It had the right appeal and program for the Germans of the post World War I period, but it left a number of questions such as Jewish Christianity (and several others unanswered). You can't have a White racist listening to babblings on Sundays about loving your enemies, how the Jews are "God's Chosen", etc. and then expect him to fight the Jews on Monday.

In CREATIVITY, I believe we have a more universal and all encompassing creed for the whole White Race of the world. In it I believe we have the TOTAL PROGRAM, the FINAL SOLUTION, and the ULTIMATE CREED. I hope you will do what you can to spread the message.

I have just finished writing a second book, a sequel to NATURE'S ETERNAL RELIGION. In this, I go pretty heavily into the medical rip-off by not only the Jew-controlled medico-drug-chemicalprocessed food complex that is keeping us nutritionally ignorant and sick physically, but the Jew controlled doctors as well. I think a man with your experience will be able to appreciate what I have to say. I can well believe that that Jew doctor intentionally murdered your sister.

I am also convinced that the Jews used the same process (over radiation) to murder Sen. Robert Taft in 1952 after he lost to that Jew-stooge Eisenhower. Also that they killed Joe McCarthy with a shot of hepatitis germs once they got him in a hospital in 1957. Also that they killed Sec. of Defense James Forrestal with a shot of LSD and let him jump out of the 14th story window of his hospital room (Walter Reed Hospital) back in 1949. It's all according to their plan as spelled out in the Protocols (see page 209 of NATURE'S ETERNAL RELIGION, especially Pt. 3 about doctors and apothecaries).

Anyway, I am convinced that unless and until we confront Christianity head-on and expose it for the Jewish hoax it is, we will repeatedly be undercut and undermined morally in any of our POLITICAL efforts to destroy the perfidious Jew. The White Man must have his own religion, must go the whole route, confront the whole ball of wax, or forever be at the mercy of his Jewish slave masters. In CREATIVITY I believe we have the TOTAL PROGRAM, the

Let me hear from you again soon. By the way, we ordain ministers to our church, no charge.

Creatively yours,

Mr. J. M. Andrade
Worcs., England

September 14, 1978

Dear Mr. Andrade:

Your letter of September 3rd has been received along with the $3.00 U.S. Many thanks for both. We shipped a copy of our White Man's Bible to your friend Mr. Hoile in Rhodesia on September 12th. Airmail is prohibitive so (as usual) we shipped it surface. This generally takes about five or six weeks. However, I am sending him a copy of this letter, airmail, letting him know the book is on its way. Christ knows the White Man needs these books in Rhodesia probably more than any other place in the world. I wish we could place a hundred thousand of them there. It would undoubtedly save their country and what a bargain it would be compared to the pittance spent on the books!

I cannot help but be puzzled by the stance of the White Man in Rhodesia. They are surrounded and outnumbered by the niggers 16 to 1. (Why were they so stupid as to let this happen in the first place?) Secondly, they cannot help but be fully aware of what happened to the Whites in the Congo, in Kenya and elsewhere when the government was (voluntarily i.e. by betrayal) turned over to the niggers. Yet from what I gather out of Rhodesia, the average White yokel is still confused as hell and letting Ian Smith and the rest of the establishment sell them down the river all over again. Can you explain this to me?

Of course, the same thing is happening in England and elsewhere, including the United States. However, nowhere is the racial threat so imminent and overwhelmingly clear as it is in Rhodesia. Yet the White Rhodesians are some of the finest and most intelligent people anywhere on the face of the earth. I can't understand it.

Keep on distributing the book and spreading the word. Five million books in Britain would do the job. A real bargain.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Evan A. McCallum **September 24, 1978**
Anaheim, California

Dear Mr. McCallum:

This is in acknowledgement of your letter of September 12. I am somewhat puzzled by it since you don't mention whether you have read our book, NATURE'S ETERNAL RELIGION, or what, particularly, you are trying to accomplish with the 13 "Laws", or whether this in anyway ties in with our creed and program of Creativity.

Checking back in the records, I see that you ordered a group of books about a year ago, so I presume you are familiar with our White Man's Bible, NATURE'S ETERNAL RELIGION. In it we have the Sixteen Commandments, which cover approximately the same ground. On pages 331-3 in NATURE'S ETERNAL RELIGION we have the chapter on FOUNDATIONS OF A WHITE SOCIETY that further spells out the prerequisites for our society.

I have no quarrel with the "Thirteen Laws of My Society", but I am at a loss of what you are trying to accomplish.

In any case may I say that no concise set of rules whether they be the "10 Commandments" of the Jewish bible, or our own "Sixteen Commandments" or your "13 Laws" are going to wield much influence unless they further are clothed in a fully expanded creed and text such as the books they are contained in.

I would be interested in knowing what progress you have made and the response you have received from the books you ordered a year ago.

It would seem to me that with the agitation that was aroused by Prop. 13 in California, that some of the groups would be ready to move on to CREATIVITY. In CREATIVITY I believe we have the TOTAL PROGRAM, the FINAL SOLUTION, the ULTIMATE CREED. Propagandize! Organize! Proselytize!

For a Whiter and Brighter World,
Creatively yours,

B. Klassen, P.M.

Mr. John Tiffany **October 30, 1978**
The Noontide Press
Torrance, California

Dear Mr. Tiffany:

This is in reply to your card of October 13th expressing interest in our book, NATURE'S ETERNAL RELIGION. I am pleased that it has made a strong and meaningful impact on your thinking, as it has on thousands of others.

I am familiar with Liberty Lobby, Curtiss Dall, even received $20.00 and a note of praise from Willis Carto when my book first came out. Why they don't promote it is hard for me to understand. Spotlight skirts the Jewish issue, comes close, but never nails it. Let me say this — until we confront the Jew and nigger issue loud and clear on the basis of a united White Race, we are just playing games, and losing them all.

In NATURE'S ETERNAL RELIGION, I believe we have the total creed and program around which the White Race can rally and effectively destroy our enemies. It would be a great help to have Liberty Lobby, Spotlight and Noontide Press all get behind it and promote it. After all, the skin they would be saving would be their own. Living in Torrance as you do with Watts and dozens of other nigger infested cities around you growing blacker each day, you and other members of the Noontide staff I am sure can see the handwriting on the wall. I am sure everyone must realize, including Willis Carto, that the White Race can't survive in a country infested with wall to wall niggers.

I would be happy to make any kind of deal that Noontide would propose. We can ship cartons of 32 books for $40.00 and we will pay the shipping charges.

The book does not come in hardback. However, I have the M.S. of a second book pretty well completed that is even more potent than NATURE'S ETERNAL RELIGION and I would be ready to submit it in short order if I could see the prospects of a fairly rapid distribution medium. It could be printed in either H.B. or P.B. Perhaps Noontide Press could even do the printing of the book.

Do what you can to get the Carto organization behind this creed. It would be the greatest boon and bargain the White Race had ever been offered. It is our initial goal to place 10 million copies of our White Man's Bible, NATURE'S ETERNAL RELIGION, into the hands of our White Racial Comrades. Once we have accomplished that much we will have the Jews and the niggers on the run. When you consider that we spend more on the shiftless niggers on welfare in half an hour than those 10 million books would cost, you can see what a tremendous bargain this would be for the White Race! Remember, your own survival and that of your family depends on the survival of the White Race.

May the Creative Force be with you!
For a Whiter and Brighter World!

Creatively yours,
B. Klassen, P.M.

P.S. This will also acknowledge receipt of your note of Oct. 21. If you would like to become a member of our Church please fill out the enclosed application, which involves a donation covering the cost

of eight copies of NATURE'S ETERNAL RELIGION or six records, SURVIVAL OF THE WHITE RACE. Enclosed is a flyer explaining the requirements. Also enclosed is our four page Q & A flyer that will give you further information. We would very much like to have you become a member. We have never really approached L.L. about promoting our book before, although we should have done so long ago. I hope we can get together. B.K.

Rev. Ben Kriegh
Boulder, Colordao

January 3, 1979

Dear Ben:

Many thanks for your letter of November 9th in which you also returned the Soldier of Fortune check. I am sorry to be so late in answering but I have been out of town a lot in the past two months.

I appreciate your trying to get the ad into S.O.F. but now that we know the deceptive nature of the magazine, it is just as well that the ad did not go in. Whereas I was puzzled about all the good publicity S.O.F. received in the Jewish press, the whole picture now makes sense. The main aim of S.O.F. is to send the best and most energetic of our young men off to be killed in some foreign battlefield, without ever learning that the real enemy is right here at home, right here in our midst.

Yes, your friend Charles Melcher came through with an order for 32 copies of our White Man's Bible and we shipped them in November. These are the kind of results I like to see. I would like to see every Creator become an avid distributor. We have to get these 10 million copies out. It is the cheapest and best insurance we can buy. When you consider that we spend more on the shiftless niggers on welfare in half an hour than those 10 million copies would cost, you can appreciate the tremendous bargain this would be for the White Race. I would like to see every church group like yours distribute at least one carton of eight books every month, and preferably 32.

I am glad to learn that you are winding up your affairs in order to devote fulltime promoting our "Gospel". I, too, am trying to unload all my real estate holdings which are scattered over four states and eight counties in order that I cannot only devote my fulltime to the tremendous project at hand but also get some of the wherewithal to do it with. Unfortunately, it is going to take me sometime to do it, since many of my properties had previously been sold on long term contracts and I just have to ride them out. However, it irks me that my business is taking up so much of my time and interferring with my religion.

Somebody (unknown to me) has placed a classified ad in THE SPOTLIGHT and the orders are directed here. They are doing fairly well and I am going to continue it when the six weeks runs out.

Enclosed is the annual re-application for Membership. Hope to hear from you soon.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Ernest Szabo Jr.
Rosemead, California

January 8, 1979

Dear Mr. Szabo:

Thank you for your letter of November 29th in which you say that you have read the "first few" chapters of the White Man's Bible, NATURE'S ETERNAL RELIGION, and then take me to task for not believing in the oldest con game in history, namely the spooks in the sky story.

Whereas my book adequately answers that question with logic, overwhelming evidence and exposure in depth of how the Jews have used the White Man's weaknesses of superstition and gullibility in order to enslave him, nevertheless I will give you a quick answer as to why I don't believe in spooks, holy or unholy.

I don't believe in spooks, spirits, devils, demons, angels, witches, gremlins, leprechauns, for the same reason I no longer believe in Santa Claus, the Easter bunny and Mother Goose. The reason is: there is not a shred of worthwhile evidence to substantiate any of this nonsense. If you want to play games of fantasy with a stable of imaginary spirits in the skies (somewhere) be my guest but frankly, I think it is silly as hell, and does not contribute to the great cause to which we of THE CHURCH OF THE CREATOR are dedicated, namely: the SURVIVAL, EXPANSION and ADVANCEMENT OF THE WHITE RACE, the only thing that really matters, as far as the White Race is concerned.

Enclosed is some other literature that might help straighten out your thinking. This might not be easy, since it appears the Jews with their spooks in the sky propaganda, have done a pretty thorough job on you.

However, do not despair. Read the whole book. Think about it. You are undoubtedly a man with considerable native intelligence. Read and re-read the White Man's Bible and then apply that intelligence effectively.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Myron K. Harshman

January 14, 1979

Dear Mr. Harshman:

Many thanks for your letter of January 6th and the $25.00 money order received. We shipped a carton of eight White Man's Bibles and also two records SURVIVAL OF THE WHITE RACE to you on January 12th. Your remittance covered all.

Enclosed is your 1979 Membership Certificate and also the wallet card. Display them proudly to the White Racial Comrades that you may come in contact with and never tire of recruiting and proselytizing.

In response to your letter, I have not read General Ludendorff's book on the Masons, but have been aware of the fact that like Christianity, the Communist party and a thousand other fronts and organizations, the Masons are a powerful tool of the Jewish network. They are of course repeatedly mentioned in the Protocols as one of their more powerful fronts.

However I am convinced that we can batter down all their fronts and shibboleths like a network of card houses once we get the White Race ORGANIZED INTO A RACIAL RELIGION. Organized and aroused the White Race is ten times more powerful than all the Jews, niggers and mud races combined. So let us get on with the job.

May the CREATIVE FORCE be with you.

Mr. Cullen A. Stinnett
Riggins, Idaho

January 20, 1979

Dear Art:

This will acknowledge your good letter of January 17th and the $20.00 bill received. Thank you for both.

Enclosed is your Membership Certificate and Card for 1979. I still did not get your signed application, so please send it in next time, just for the record. The contributions you have made more than cover fees.

I am glad to hear you are also into this health business. Although I don't consider myself an expert, I do have a library of about 60 books

on various phases of diet, nutrition, etc., most of them considered unorthodox by the medical "profession". If there is one thing that I am convinced of, it is that the Jew controlled medical profession has deliberately by-passed the most important aspect in the whole health program, and that is diet and nutrition. The average yokel, too, is as ignorant about this subject as I was ten years ago, but there is a remarkably activist movement by the layman to get away from doctors and find out more about nutrition, self-help, laetrile, etc. They no longer trust the medical "experts", just as they long ago learned to distrust the politicians. This is all to the good, and as I said in my previous letter, I am making a sound body part of our creed in my next book. We need vigorous, healthy, aggressive Creators to win in our battle against the foul enemy.

Although I have a whole library exposing Christianity, I do not have any of the books you mention in your letter. Many of the books I have on this subject have come to me through Harvey Johnson of the TRUTH SEEKER, a magazine he puts out from San Diego. Whereas his magazine isn't much, the book lists he has available are a real gold mine. Strangely enough I didn't contact him until after I had written my book.

However, I feel that further study into the Christianity hoax is not too productive. Once you realize that it is a Jewish fraud design- ed to confuse and confound the mind of the White Race, then it is more productive to expend our efforts disseminating that message than it is studying further and further ad infinitum. What I am say- ing is that we must propagandize, we must reach those first 10 million, with the basic message that they are programmed by the vicious Jew for extinction, and how we can and must extricate ourselves. On the other hand if you and I knew all the details possi- ble about the Jewish conspiracy, but there were only two of us, it wouldn't matter a damn. So we need the numbers, we need a basic creed and program (which we now have) and then we must propagan- dize, proselytize and organize.

So much for now. We might drive out to Colorado next summer and might make it up to Idaho. I still can't find Riggins on my Rand McNally atlas. Perhaps you can send me a state map. It would be most productive and enjoyable to get together.

May the CREATIVE FORCE be with you!

Creatively yours,
B. Klassen, P.M.

Mr. James A. Butler **January 21, 1979**
Cape Coral, Florida

Dear Mr. Butler:

This will acknowledge receipt of your letter of January 6th, and also your application for the Ministry of the CHURCH OF THE CREATOR dated January 13th.

In my first letter to you last year I tried to make it as plain as I possibly could that we are not interested in revising, revamping or redesigning the trimmings that surround CREATIVITY, but to sell the product we have, imperfect though it may be. In your letter of January 6th you state "you have brilliantly hit upon the only true, natural basis for a White Racial Religion". Having said that, you then come on strong and say in effect — "now let me tell you what is wrong with it. Everything. Let me count the ways."

You don't like the logo. You don't like the Q & A flyer. You don't like the Minister title, it should be "Pontifices". You think it is bad advice for young people (or anybody else) to go into business for themselves. You think they should drop out of society and take the most menial jobs. White youth should go on strike. Creators, contrary to the teachings of CREATIVITY, should not run for public office.

All this reminds me of a similar situation in my business career about 25 years ago. I had invented the first push-button electric can opener. After a tremendous amount of designing and engineering we spent 70 thousand dollars making the dies and finally put the appliance into production and on the market. I was approached by a very presentable man about 10 years my senior who said he was tremendously impressed by the unit and he was extremely eager to have the job of Sales Manager for the company to market the product. He seemed well qualified and eager, so I hired him.

No sooner had I done so, instead of getting out into the hustings and selling the one product he was hired to sell, he kept bombarding me with suggestions for redesign — change the color of the push-button from red to black (or vice versa) etc., etc. I said to him — "Look, Jack, we have invested 70 thousand dollars on the dies. We have already manufactured 5,000 units. The product may not be perfect, but it is the best there is on the market and we have already invested $120,000.00 in it. Now go out and sell it, or don't come back". But he kept on carping, so I fired the son-of-a-bitch.

Now we come to CREATIVITY. I spent a lot of time and thought, designing the logo. Whether you like it or not, it is on tens of thousands of books, tens of thousands of Bookmarkers, tens of thousands of Question & Answer flyers, as well as countless envelopes, letterheads and other pieces. What do you expect me to

do? Throw them all out because there is some fellow in Cape Coral who thinks it should be different, but doesn't know how? A symbol becomes meaningful as it becomes used and familiar with the masses by promotion and repetition. I like the symbol we have. It tells an instant story: the White Race is the core of our religion, the crown denotes that we are the aristocrats, the kings of all creation. The halo signifies that we regard our race as the most sacred value on the face of the earth. I am satisfied with it and the die is cast. I think it's beautiful. Now, what do you have to come up with? A sun wheel? A rune? I don't like either one. The rune to the average person looks like the symbol the hippies used, except upside down. As far as the letter "W" not being understood by all languages, why worry about it? The Americans know what "White" means, the English speaking people know what "White" means, and the German speaking people know what "Weiss" means. By the time we have converted four hundred million English speaking and German speaking people, I guarantee you, my friend, the rest of the world will be painfully aware of what the CREATIVITY LOGO is all about.

In any case, supposing we took your suggestion and changed it. Should we throw out a warehouse full of books, stationery, etc., and start from scratch? Are you going to pay for the change over? Do you really have a better idea? If so, what is it? Supposing we went to all that rigamarole and expense, and then some fellow from Oshkosh, Wisc., (who considered himself equally bright and qualified) came along and said he didn't like the new logo. Do we throw everything out again and start all over?

Now I could take your objections point by point and show that they are equally counter productive, but I think I've made my point and I don't want to take the space or time. I have repeatedly, starting with my very first letter, pointed out to you loud and clear — we don't need people to come into CREATIVITY and turn it upside down. We want supporters and workers who will spread the idea as set forth in the book. If you don't like the product why become associated with it in the first place? Sell something else. We don't need disrupters. Evidently you don't believe the "Oath of Loyalty" you signed, and in which you swear to support wholeheartedly the religious creed therein; "that I make this creed my own, will defend it and dessiminate it fervently as long as I live". In fact you insolently end your letter with "For Dominus et Deus!" reverting back to your earlier spooks in the sky superstitions hammered into your head by the Roman Catholic church.

In view of the above, I do not think it constructive at this time to ordain you minister of our church.

Should you in the future feel that you can wholeheartedly agree with the creed as set forth in our White Man's Bible, we might re-

consider your application.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Victor L. Opheim **January 26, 1979**
Lubbock, Texas

Dear Mr. Opheim:

Many thanks for your letter and the $25.00 check received. We shipped a carton of eight White Man's Bibles, and also four records SURVIVAL OF THE WHITE RACE to you January 25th. The record can be utilized as an excellent means of getting people started by listening to the message, then including them to distribute books.

Enclosed is your Membership Certificate and Card. Display them proudly and recruit aggressively.

If I detect a note of despair in your letter, I hope it isn't real, because above all, it's a luxury we can't afford. For the sake of our past ancestors, for the sake of the present befuddled and confused generation, for the sake of our future generations, we the White Race of the present must fight and we must win. We have no alternative. I refuse to concede or contemplate the victory of the despicable, repugnant Jew.

In CREATIVITY we have the whole ball of wax — the TOTAL PROGRAM, the FINAL SOLUTION, the ULTIMATE CREED. If the White Man is too stupid to see the obvious, it must be because those of us who do see the obvious have not been aggressive and vocal enough in spreading our views. Evidently the Jews have. See what Marcus Eli Ravage says in the enclosed flyer.

I want to repeat — the key to the whole problem — our failure and the Jews' success—has been Christianity. Let's get loud and aggressive in spreading the word to our White Racial Comrades. We need your help, and lots of it.

May the CREATIVE FORCE be with you!

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Allan Callahan **February 4, 1979**
Verona, Missouri

Dear Mr. Callahan:

Many thanks for your donation of $3.00 in order to send a copy of our White Man's Bible to Hamilton Jordan of the White House.

In accordance with your request we are doing just that. True, it may be a long shot, as you say, but if it doesn't come back, somebody in that charmed circle of traitors is bound to get it, and because of the provocative and controversial nature of the book, will probably read it. Anyway you look at it, when you get some of our White Racial Comrades to read the book, you are planting seeds.

Probably more effective, and closer to home, I would like to see some White Racial Comrades in each state take it upon himself to send each state legislator and state senator a copy of the book. Perhaps you could do this for the state of Missouri. The possibilities of it being read, or at least partially digested are much greater. (I should know, I was once a state legislator in Florida.) Usually each state each year puts out a Legislative Directory with the names, addresses, biographies, etc., of each member. Copies of these can easily be obtained from the nearest legislator in your area. It usually also tells the religious affiliation of each, a handy little piece of info by which you can identify the Jews, and skip mailing them a copy since they are alienated from our cause in any case.

I would still like to have you a member and carry the cause to every White Racial Comrade you can alert. By planting those seeds you are doing more good than you can imagine.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Cullen A. Stinnett February 6, 1979
Riggins, Idaho

Dear Art:

Your most interesting letter (as usual) was received along with the final $20.00 on the 96 books ordered by you previously. Thank you very much for both. We need all the help we can get if the White Race is to survive. If we only had a million like you out distributing the message the fight would soon be over. Certainly I feel that you are important enough to warrant the thorough exchange of ideas every so often. In fact, I feel it is a pleasure and a privilege to correspond with someone who is as well informed and knowledgeable as you are — someone who understands the plight of the White Race and IS WILLING TO DO SOMETHING ABOUT IT.

There is one thing I want to admonish you about and that is — never despair, never become depressed (if possible), never give up the fight. The tendency with most avid readers and well informed White Racial Comrades is that the more they read, the more they become mesmerized spectators watching the grisly drama unwind to its tragic finale. Unfortunately most of our White Racial Comrades

can be roughly put into two categories (a) those who are ignorant of the Jewish menace and inadvertently support it by blithely going along, and (b) those who do know, but are deathly afraid of the Jew and would therefore just as soon hide their heads in the sand.

Fortunately there is the small third group who, like yourself, are well informed and ARE DOING SOMETHING CONSTRUCTIVE ABOUT IT. In fact there are not too many of our supporters who have ordered and undertaken to distribute 96 books on their own. I repeat, if all our supporters at least did that much we would soon be on our way to accomplishing our initial goal of 10 million books. It is something just about everybody could afford to do, and when they would stop and consider the tremendous price they are paying by being perpetually ripped off by the relentless and avaricious Jew, it SHOULD quickly convince them that such self-protective action not only makes good racial sense, but even good economic sense.

So do not despair, do not become depressed. It is a luxury we cannot afford. The best antidote to depression, I have found, is action.

A single book, like a person has a viable life and history. It too can have a life span of three score and ten and sometimes even more. The many hands it will pass through and the many minds it will inform, inspire and alert is an unknown quantity. Ideas are like seeds. They expand their field of occupancy in a geometric proportion, and no one knows what great deeds and movements they may give birth to.

I feel certain that within the next 10 years, or by 1995 at the latest, this country (and the world) will flare up into a racial conflict of unprecedented proportions. Whether the White Race survives and how well armed it will be psychologically and logistically depends heavily on what people, like ourselves do now.

So keep up the good work! Propagandize! Proselytize! Organize! Never say die!

We owe it to our forefathers who gave us their genes and civilization, we owe it to our present generation, and we owe it to our future progeny to carry on the great miracle that is the White Race. Everything depends on the present generation and we must do our utmost. By distributing the White Man's Bible we are planting seeds, many of which may only come to fruition much much later.

I too, hope we can get together this summer and very much look forward to doing so. So let's keep in close touch and see what we can arrange.

May the CREATIVE FORCE be with you!

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Lt. Col. Harvey N. Brown **February 7, 1979**
JAGC, US Army (ret.)
El Paso, Texas

Dear Colonel:

Thank you very much for the mass of literature you sent. I reviewed most of it and found much of it very informative. I especially liked the article which tells about Moses handing down the law to the Israelites by means of the Stone Tablets, "Thou shalt not kill!" "Thou shalt not steal!" "Thou shalt not covet they neighbors ----!" and then ten minutes later gives them a pep-talk to go into Palestine and kill, slaughter, ravage, rape, devastate, steal and commit mass mayhem on the more advanced and creative people already living there.

However, I still can't understand what your own philosophy is. Surely you yourself don't believe a book that prints such contradictory garbage (and much more) as an inspired guideline for the White Man's morals?

Don't you agree that the Eternal Laws of Nature as set forth in NATURE'S ETERNAL RELIGION are a much more valid and sensible guide?

If so, are you willing to join the White Man's cause in fighting for our own survival, expansion and advancement against the sinister Jewish network which for the last 3,000 years has relentlessly plotted our destruction?

May the CREATIVE FORCE be with you!

Mr. Casey Kalemba **February 8, 1979**
Cleveland, Ohio

Dear Mr. Kalemba:

Many thanks for your good letter of February 5th and the $25.00 check received. We are applying $10.00 of that to the previous eight book shipment and shipping a new carton of eight White Man's Bibles.

The distribution of the book is vitally important. We cannot build a UNIFIED White Man's society if we all go off in a thousand dif-

ferent (Jewish) directions in our religious thinking. And what is religion basically? It is our fundamental outlook on life and the value we place on life's issues. In CREATIVITY I believe we have the TOTAL PROGRAM, the FINAL SOLUTION, the ULTIMATE CREED. In Creativity we make our precious White Race the fundamental value as our point of departure. Our Golden Rule is based on the Eternal Laws of Nature and is simplicity itself:

WHAT IS GOOD FOR THE WHITE RACE IS THE HIGHEST VIRTUE.

WHAT IS BAD FOR THE WHITE RACE IS THE ULTIMATE SIN.

So there you have it. It is our initial goal to place 10 million copies of our White Man's Bible, NATURE'S ETERNAL RELIGION, into the hands of our White Racial Comrades. Once we have accomplished that much we will have the Jews and the niggers on the run. When you consider that we spend more on the shiftless niggers on welfare in half an hour than those 10 million books would cost, you can see what a tremendous bargain this would be for the White Race!

It is important to have you aboard. Do what you can.

I presume the $15.00 order also included your desire to become a member of the church and have a Membership Certificate and Card made out to you. We are enclosing them both herewith. Should you want to take the next step, please note that we ordain Ministers at no charge (if you are a member of the Church). The advantages of fighting this racial battle from a religious base are manifold over fighting it as a political group. Furthermore, as a political group you only have a part of a man's loyalty, and usually the smaller part, the major balance going to his religious affiliation, whether it be to the Catholic Church, or Jehovah's Witnesses, the Mormon Church or whatever. If a man is a CREATOR however, you have his total loyalty, undivided and unsullied by any of the cults of the world of spooks and spirits.

There are many other advantages, such as prestige, tax exemption, moral grounds, protection of the First Amendment etc., that make CREATIVITY a much more powerful base from which to wage the battle for the survival of the White Race than any political organization can ever hope to achieve. Let me hear more from you.

May the CREATIVE FORCE be with you!

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Dave Ransopher
Oakland, California

February 8, 1979

Dear Mr. Ransopher:

It was real good to hear from you again and to learn that you are primed for action.

I agree with you that there are a lot of good White Racial Comrades who want to get the Jews and niggers off our back, and who are fed up of being looted, pushed around and ripped off by "our" Jewish government. It is our duty to first of all get those good people organized, and then expand until we have every White Racial Comrade in the world working with us for the survival, expansion and advancement of the White Race.

There is no big secret about how to organize. If you have been with Allen Vincent's group you already know what it takes and how to do it. The first thing for you to do is to have us ordain you as a Minister. Since you are already a member of the Church, there is no charge for this. All you have to do is fill out the enclosed application, and we will consider your ordination.

The next step is to solicit members and hold meetings. If you only have say half a dozen members, yours, or a member's home would be adequate, as you grow and get more money in the kitty, you might want to rent a hall, as it warrants.

One of the main activities we would like you to promote is the distribution of our White Man's Bible, NATURE'S ETERNAL RELIGION. You cannot over estimate how important this is. Before we can build any kind of a unified White Man's society we must lay the foundation to their thinking and their life's philosophy. If I've said it once I've said it a thousand times — our first order of business is TO STRAIGHTEN OUT THE WHITE MAN'S CONFUSED AND MUDDLED THINKING.

It is our initial goal to place 10 million copies of our White Man's Bible, NATURE'S ETERNAL RELIGION, into the hands of our White Racial Comrades. Once we have accomplished that much we will have the Jews and the niggers on the run. When you consider that we spend more on the shiftless niggers on welfare in half an hour than those 10 million books would cost, you can see what a tremendous bargain this would be for the White Race!

By the way, you must know Josef von Wagmann, who was with Allen Vincent's group until the Jewish invasion of the bookstore. I understand he moved to Walnut Creek or nearby. Perhaps you could enlist him in your organization. He seemed like a highly intelligent and dedicated White Racial Comrade. Unfortunately I have lost track of him.

Anyway, you know what to do. The thing now is to get started and do it. "Ideology without action is sterile." (See bottom of page 493.)

May the CREATIVE FORCE be with you!

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Charles C. Parker
THE ETHELTON
Seattle, Washington

February 26, 1979

Dear Mr. Parker:

Glad to receive your letter of February 21. Yours is the type of letter that always warms the cockles of my heart. It is always a moral triumph to hear that someone finally saw the light even if it took five or six years.

Yes, we are still at Lighthouse Point and very much alive and have spread the word to many parts of the world, including South Africa, Rhodesia, England, Ireland, Canada, Germany, Sweden, France and you name it. The idea of sanity is catching on with our White Racial Comrades, albeit much too slowly. We need more good people like you spreading the word.

The most effective way you can help the cause in the initial stage is to distribute the book to your White Racial Comrades. It is our initial goal to place 10 million copies of our White Man's Bible, NATURE'S ETERNAL RELIGION, into the hands of our White Racial Comrades. Once we have accomplished that much we will have the Jews and the niggers on the run. When you consider that we spend more on the shiftless niggers on welfare in half an hour than those 10 million books would cost, you can see what a tremendous bargain this would be for the White Race!

The next stage is organization. Enclosed is an application whereby you can become a member of the church.

The next stage is to organize a church group in your area. We ordgain preachers, and there is no charge for the Certificate of Ordination once you are a member.

Propagandize! Organize! Proselytize!

May the CREATIVE FORCE be with you!

For a Whiter and Brighter World,
Creatively yours,

B. Klassen, P.M.

Mr. Robert Singerman **March 4, 1979**
Cincinnati, Ohio

Dear Mr. Singerman:

In reply to your card I am enclosing a copy of the flyer you requested. However, it was written 10 years ago and I have added considerably to my education since that time. Shortly after writing it I made one of the major discoveries of my life, namely that Christianity too was a concoction of the Jews, designed to confuse and confound the Romans in order to destroy them. So successful was this artifice that they have been effectively using it to this very day as a powerful tool with which to destroy the White Race.

The "Fifty Phoney Arguments" are therefore strictly outdated as far as the CHURCH OF THE CREATOR is concerned and is nothing more than a museum piece. I would therefore like to see you now concentrate on the distribution of our White Man's Bible, NATURE'S ETERNAL RELIGION.

It is our initial goal to place 10 million copies of our White Man's Bible, NATURE'S ETERNAL RELIGION, into the hands of our White Racial Comrades. Once we have accomplished that much we will have the Jews and the niggers on the run. When you consider that we spend more on the shiftless niggers on welfare in half an hour than those 10 million books would cost, you can see what a tremendous bargain this would be for the White Race!

Why not order a carton of Bibles and start distributing now?
May the CREATIVE FORCE be with you!

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Evan A. McCallum **March 4, 1979**
Anaheim, California

Dear Mr. McCallum:

Thank you for your interesting letter of February 25th and for your check in the amount of $15.00 received. We shipped a carton of eight White Man's Bibles to you on February 28th. Perhaps you have already received them by now.

Regarding my inclusion of the chapter on Adolf Hitler in my book, I have no apologies whatsoever and consider it an extremely vital segment of the White Man's struggle for survival. The fact that some of our more cowardly White Racial Comrades might be "turned off" thereby (as you put it) is too bad but Adolf Hitlers fight against the Jews, against Communism, against degradation and mongrelization, on the one hand, and for civilization, culture and the White Race

on the other hand, is one of the most exciting and heroic romances in the whole turgid history of the White Race. The fact that Hitler's heroic struggle is considered as a major blow against the Jews by the Jews themselves is well attested by the vicious propaganda campaign they have pursued against him. Never in the history of mankind has any one man had so many billions of words of vicious lies, insults and calumnies foisted upon him. Never a day goes by but the same old lies are repeated again and again and again. This despite the fact that the man has now been dead for nearly 34 years.

The fact that so many of our White Racial Comrades don't stand up and fling their dastardly lies back into the teeth of the filthy Jew is because they themselves have become so intimidated by all this Jewish propaganda that they don't really want to hear the truth. In short, they have been mentally emasculated, neutered, castrated, the same as the heroic Romans were 18 centuries ago by Jewish Christianity. That is why they get "turned off".

So let us get back to reality. Hitler put up the greatest, the most heroic fight against the Jews that any man in history has ever done. I therefore consider him the greatest White Man that ever lived, and the greatest leader the White Race has ever had. It is part of our fight and we should not evade the issue, but be fiercely proud of it. However, as I explain on pages 310-312, CREATIVITY goes further than National Socialism and even disagrees in certain respects with Hitler's philosophy. Two major differences are that (a) CREATIVITY embraces the whole White Race throughout the world rather than merely Hitler's Pan Germanism, and (b) we expose the fraud that is Jewish Christianity, whereas Hitler was silent on this vital subject. There is more, and I suggest you read the whole chapter.

In any event, too many people get hung up on only part of the problem but don't understand the whole picture. Some are only against Christianity, some, only against Jews, some only against niggers, etc. but fail to see the whole picture. In CREATIVITY I believe we have the TOTAL PROGRAM, the FINAL SOLUTION, the ULTIMATE CREED.

I hope that the above will be of benefit to your thinking and that we can count on you to do your part toward the greatest goal on the face of the earth — the SURVIVAL, EXPANSION AND ADVANCEMENT OF THE WHITE RACE.

May the CREATIVE FORCE be with you!

For a Whiter and Brighter World,

Creatively yours,

Mr. Martin Klix **March 19, 1979**
Alberta, Canada

Dear Mr. Klix:

Thank you for your interesting letter of March 3 and also for the $40.00 received. We shipped four cartons of eight books each as of today.

I read with considerable interest the letter from the German Generalkonsulat to you, and also your thoroughly demolishing answer to him.

In general, these kind of employees are either stooges for the Jewish apparatus, or are Jews themselves, and there is little point in trying to convert them. They are thoroughly programmed to (a) love the Jews (b) hate the Jews' enemies. Their idea of love is to hate the Germans and love the Jews. According to them it is great for the Jews to be loyal to their race, the niggers to be loyal to theirs, but horrible if the Germans or the White Race is loyal to their own. They are in fact a miserable bunch of traitors to their own kind.

Your letter pretty well devastated his claims and shows that you have a thorough understanding as to what CREATIVITY is all about. Keep up the good work! We have to get those first 10 million books into the hands of our White Race! You are doing a good job and the fruits of your efforts will continue to show up for many many years.

Yes, I did get some good orders from Alberta from your area, about a month ago but I would have to dig through the files to see who they are. Anyway, you are going a lot more good than is immediately evident.

May the CREATIVE FORCE be with you!

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Andrew Douglas **April 3, 1979**
Republic of South Africa

Dear Mr. Douglas:

As you will recall, we have had some exchange of correspondence before, but unfortunately not for sometime, longer than I had hoped.

The reason I am writing you is that recently, in the magazine section of the Sunday edition of the Fort Lauderdale, Florida News I read an interesting article. The article claims there is a secret Afrikaaner Society in South Africa that promotes the rapid expansion of the White Race and the limitation of the mud races. The article claims that the organization is simply called the Broederbond

(the Brotherhood) and that it has a membership of 12,000, including many if not most of the government's top officials.

All of this sounds too good to be true, but if it is anywhere near what the article claims, I would think they would be very much in demand for our White Man's Bible, NATURE'S ETERNAL RELIGION.

Is there any way you can find out about this organization, and let me know? I would very much like to contact them and send them copies of our book. They certainly could use it and it would mutually be highly beneficial.

I must also mention that I read your recent article in Liberty Bell (Feb. 1979) entitled "Doomsday". It did a real good job in analysing the decline and demise of the White Race. Whereas it had positive suggestions as to what we must do, it failed completely in structuring a positive program in implementing those suggestions or any other action. I am adamantly convinced that nothing will happen either in South Africa, U.S.A., or elsewhere until the White Race organizes its survival into a religious creed and movement. In CREATIVITY I believe we have the TOTAL PROGRAM, the FINAL SOLUTION, the ULTIMATE CREED. That is why it is so critically important we get those first 10 million books out. I hope the BROEDERBOND exists. Please let me hear from you.

May the CREATIVE FORCE be with you!

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Ms. Beatrice Zahrbach
Woodburn, Oregon

April 15, 1979

Dear Ms. Zahrbach:

Many thanks for your application and the $15.00 check received. We shipped a carton of eight White Man's Bibles to you April 14th.

Enclosed is your Membership Certificate and Card. Welcome to the Club of the Elite in which the best of Nature's Finest are joined in their superb struggle for survival, expansion and advancement of our own kind.

I appreciate the literature you sent, including Richard Cotten's flyer. I have been (more or less) familiar with Cotten's efforts for the last 15 years and wonder why it took him so long to realize that RACE IS THE ISSUE. Perhaps he read our book NATURE'S ETERNAL RELIGION. There is still one vital segment that it may take him another decade or two to realize. That issue is CHRISTIANITY and

the powerful tool it has provided the Jews in confusing, confounding and dividing the minds and the society of the White Race. Until we successfully expose Christianity for the Jewish tool it is we will never get anywhere in our struggle against the perfidious Jew.

In CREATIVITY I believe we have the TOTAL PROGRAM, the FINAL SOLUTION, the ULTIMATE CREED.

It is our initial goal to place 10 million copies of our White Man's Bible, NATURE'S ETERNAL RELIGION, into the hands of our White Racial Comrades. Once we have accomplished that much we will have the Jews and the niggers on the run. When you consider that we spend more on the shiftless niggers on welfare in half an hour than those 10 million books would cost, you can see what a tremendous bargain this would be for the White Race!

In conclusion, let me say that I do not believe it is necessary to read more and more books and get into more and more intricate detail. The average White yokel is only more confused by the sheer massiveness. In NATURE'S ETERNAL RELIGION and the program of the Church of the Creator we have all the basics and essentials to propel a dynamic new religious movement that can sweep the world.

What we really need now is not more scholars, but MORE ACTIVISTS to spread the word and organize.

In about two weeks I am coming out with another tool to help spread the demand for our White Man's Bible. It is a 16 page booklet on the Federal Reserve, and I believe it will prove to be a real blockbuster. They can be ordered 25/$5.00.

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Gerald R. Carlson, Chairman
Nat'l Christian Democratic Union
Dearborn, Michigan

April 23, 1979

Dear Mr. Carlson:

Received your letter and literature when I arrived back home from a trip to North Carolina and was most happy to read it. I am particularly happy to learn that you are engaged in the White Man's fight for survival regardless of the aegis of the organization. The objective of our church is not only the survival of the White Race but also its expansion and advancement, and we have such program that the White Race can productively pursue for the next million years. I am glad you are reading the book, and hope by the time you receive this letter you will have absorbed its entire 508 pages.

It is our initial goal to place 10 million copies of our White Man's Bible, NATURE'S ETERNAL RELIGION, into the hands of our White Racial Comrades. Once we have accomplished that much we will have the Jews and the niggers on the run. When you consider that we spend more on the shiftless niggers on welfare in half an hour than those 10 million books would cost, you can see what a tremendous bargain this would be for the White Race.

We are very much interested in collaborating with your organization. In fact, I believe that while retaining your original organization for political purposes, it would be highly productive for you to also set up a Church of the Creator group for the hard core indoctrination and long term goals. You have much greater advantages in being under the umbrella of a RELIGIOUS organization than you do a political organization. The advantages are moral, political, legal, financial and many others. Whereas anybody can (and will) kick the K.K.K. or the Nazi Party around like a dog, people, including politicians and judges, are mighty careful before they lay hands on someone's religion. Furthermore, you will probably find as I did, that your own Christian members will throw more road blocks in your way than outside enemies. Anyway, that's my experience. Also if you are going to fight the niggers, you cannot ignore the Jewish problem.

It is the Jewish network that is the real menace, the real powerhouse. It is their overwhelming power that has kept the White Race confused, divided and fragmented for the last several thousand years. Without routing the Jews, the nigger problem will never be solved.

In CREATIVITY I believe we have the TOTAL PROGRAM, the FINAL SOLUTION, the ULTIMATE CREED.

By the way, we have just come out with our latest piece about the Federal Reserve. This really pinpoints the problem and the power of the Jews and is, as you say "pointed", "ruthless" and "inciteful". All very true, and I can only hope it could be more so.

Enclosed also is a copy of our Question and Answer flyer, which quotes prices for our books and other material. In order to save time, I am shipping you an initial carton of eight books. I hope this is alright with you, and that you will see fit to make a $15.00 donation to our Church. Bulk quantities of 32 books for $40.00 are also available, and I hope your organization will take advantage of such an offer many times over. Best of luck!

May the CREATIVE FORCE be with you!

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. William Spicer
Maitland, Florida

April 27, 1979

Dear Mr. Spicer:

Yes, I remember you and your friend from Orlando very well, also our visit to you back in 1973. I am glad to hear that you are still spreading the word.

Your poem is very good, except that as we used to say in the Florida legislature — "your point is so subtle it escapes me", and whereas if you point out that it is about Adolf Hitler, it makes its point, without that mention it would escape most people, including myself. I believe in the direct, head-on approach — you know like the Arkansas hillbilly said when asked by a tourist why he hit his mule on the head with a 2x4 — "Well, the first thing you have to learn about mules is that you have to attract their attention".

In that vein I have put together a 16 page booklet about the Federal Reserve that hits people between the eyes about a subject they are aware of — inflation. Enclosed is a copy. I hope you will order hundreds and spread the word.

I am doing fine, but need more widespread support from our White Racial Comrades. Let me hear from you.

May the CREATIVE FORCE be with you!

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Craig P. Privette
Kansas City, Kansas

April 27, 1979

Dear Mr. Privette:

It was real good to hear from you and to know that the missionary work I tried to do in Kansas City did not totally fall on deaf ears. Also thank you for the $10.00 donation.

We have just come out with a new 16 page booklet on the Federal Reserve that I believe will be a real blockbuster. It leads right into the main stream of our ideology — CREATIVITY — by alarming the average yokel where he is most vulnerable — his pocketbook, and it shows how INFLATION is the inevitable result of this scurvy gang of Jewish counterfeiters. I am mailing you 50 copies in two separate packets. Your $10.00 covers this. Distribute them with fanaticism that will outdo the endeavors of the Jews.

Reflecting back on the 1977 meeting in Kansas City, I feel that the audience there was not the best amongst which to spread the word. Too many of them were so imbued with the "spooks in the sky" idea that nothing short of dynamite would move them. Too many others like Bob DePugh were hooked on this flag and constitution farce that they too could not properly use the common sense with which Nature fortuitously endowed them. I have written Bob several letters asking him what is the point of providing a subsidized welfare state to breed wall-to-wall niggers if they are going to crowd the White Man off the face of the earth, but he never seems to meet the issue head-on. So I have written him off.

The issue is and remains — the White Race against the Jews, niggers and mud races. In CREATIVITY I believe we have the TOTAL PROGRAM, the FINAL SOLUTION, the ULTIMATE CREED. Until we awaken the White Man to this issue and arouse him to wrathful vengeance, we will accomplish nothing.

May the CREATIVE FORCE be with you!

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. L. P. Chastonay
St. Louis, Missouri

May 15, 1979

Dear Mr. Chastonay:

Many thanks for your order for the Federal Reserve Booklets. We shipped 25 copies to you on May 13 and also mailed the individual copies to the addresses you gave us. I hope it will put a bomb under these people and wake them out of their stupor.

As to whether or not we will have enough time, who knows?

We must do our best and make hay while the sun shines. If, as you suggest, the situation changes for the worse, then we will also be goaded into taking more drastic measures, such as did Dan White of San Francisco. But one way or another we must survive, whatever it takes. That is why I emphasize that now is the time to do the job. We must get those first 10 million copies of our White Man's Bible into the hands of our White Racial Comrades. The whole battle rages around the condition of the White Man's mind. The fact that the White Man's thinking is so confused is our own damn fault for not getting with it.

So let's do what we can, and let's do it now! Let's get the word out!

May the CREATIVE FORCE be with you!

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. D. J. MacDonald **May 17, 1979**
Sparks, Nevada

Dear Mr. MacDonald:

Thank you for your letter and the $5.00 check received. We shipped 25 copies of Federal Reserve Booklet to you May 16th. I am very happy to see that you intend to mail these little bombshells to the Nevada State legislators. Usually you can get a directory that gives the home and business address (and also their religious affiliation) by asking your local legislator. I would not mail them to those at the capitol while they are in session. Mail them to their home address if you can, so they will have time to read them. By the way, how many Senators and legislators does Nevada have?

Enclosed is your Membership Certificate and Card. Display them proudly, and welcome to the club of the Elite.

May the CREATIVE FORCE be with you!

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. Art Stinnett **May 17, 1979**
Riggins, Idaho

Dear Art:

It is always a pleasure to hear from you. I am glad you liked the impact of our Federal Reserve Booklet and I am most flattered by your remarks. I hope this little booklet will prove to be the expan-

ding wedge we need to get our message across to our White Racial Comrades.

Yes, I would be most receptive to listening to your tape if you would care to send it, and also the other material you mention. If the present issue goes fast enough, I would of course have another printing and perhaps be able to strengthen the message with some additional ideas. I'm sure you understand that the real problem is getting the material brief enough yet complete enough for the uninitiated yokel to not only understand, but be motivated to action. The material is not aimed at people such as yourself (who already know) but the new potential members we wish to attract.

We shipped 100 copies to you on May 15th. I'm sorry for the delay, but I was out of town for a week and didn't get to it sooner.

By the way, could I ask you to send a copy to each of the Idaho legislators? I know we won't win outright converts, but it will open an awareness that could influence legislation. Usually there is a booklet called a Register which contains all the names, addresses both home and business of the entire legislature. You could probably get one from your local legislator.

Good luck!

May the CREATIVE FORCE be with you!

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Glen G. Hawk **May 23, 1979**
Internal Revenue Service
Miami, Florida

Dear Mr. Hawk:

This is in follow-up to our telephone conversation of May 21 in which I informed you of the receipt of your letter of May 9, and my delay in reviewing that letter, having been out of town.

In reviewing your three page piece of misinformation headed as "Request for Technical Advice", I find that it contains so much bad information, contrived analyses, idiotic conclusions and otherwise arbitrary and capricious directives, that I almost feel like a mosquito in a nudist colony — I hardly know where to begin.

I deplore getting into all the seemingly technical legalities contrived and dredged up to shore up a prejudiced conclusion that was predetermined first, and then whatever scanty window dressing that could be pulled together was dreamed up as a secondary afterthought.

So without further ado, let us immediately get down to fundamentals. The First Amendment of the Bill of Rights says "CON-

GRESS SHALL MAKE NO LAW RESPECTING AN ESTABLISHMENT OF RELIGION, OR PROHIBITING THE FREE EXERCISE THEREOF, OR ABRIDGING THE FREEDOM OF SPEECH OR OF THE PRESS:"

Is that clear enough for you to understand?

Nowhere does either the Constitution, nor the Bill of Rights, nor has any Congress in the last 200 years had the nerve to violate the First Amendment and to define what group, or creed, or party, is, a religion. If we of the Church of the Creator claim we are a religion, we are a religion, period. We are as qualified as the Catholic Church, or the Black Muslims, or Jews, or anybody else. We have just as much right to claim the privileges as a religion under the rights and privileges of the Constitution as anyone.

Now along comes some minor nincompoop bureaucrat of the I.R.S. and says "Revenue Ruling 71-447 establishes the rationales — etc., etc., "must be a common law charity — etc."

To which I say — Really? Who in the hell are you to arbitrarily assume legislative powers that the Constitution forbids? Who are you to proscribe who is or who is not a religion when the First Amendment forbids even Congress to do so? Who are you to arbitrarily and capriciously proscribe my religious rights by means of a trumped up set of rules you would not dare to enforce against the Jews, the Black Muslims or the Catholics, or anybody else?

I say to you — you are violating my constitutional and civil rights when you tell me my religion is not acceptable to the I.R.S. I couldn't care less what the I.R.S. likes or doesn't like. As far as I'm concerned they can take their rules and stick them up their File 13. The Constitution and the Bill of Rights is the fundamental law of the land and any code, guidelines, rulings and opinions of the tinhorn bureaucrats of the I.R.S. that violate the Constitution and the Bill of Rights are MEANINGLESS, null and void and illegal.

The fact of the matter is the I.R.S. considers itself above the law, above the Constitution, above the Bill of Rights, all the while parading under the coloration of law. Whereas a basic concept of the law of the land for 200 years has been that a person is innocent until proven guilty, the I.R.S. brazenly and arrogantly takes the position that a victim is guilty until he spends unlimited amounts of money proving he is innocent. In direct violation of the Fourth Amendment it seizes the monies, properties and bank accounts of American citizens, again in brazen disregard of the constitutional and civil rights of its victims.

Furthermore, its whole concept of taxing American citizens on income that is not even legal money at all, but worthless counterfeit paper put out by a criminal gang of international bankers known as the Federal Reserve. For further information see the enclosed booklet.

(I am enclosing an extra copy for your Jewish boss.)

In view of the above, the whole stinking operation of the I.R.S. is illegal, outside the law, in violation of the law of the land, in violation of the Constitution. Therefore it is a fair appraisal to say that they are nothing more than a criminal band of gangsters, operating outside the law and by means of strong-arm methods, hounding, harassing, and stealing billions of dollars from the honest hardworking citizens on whose taxes they feed, and who pay their salaries so they can be endlessly pillaged, pirated and robbed.

Now to get back to your "Technical Advice", starting on page two and continuing into the middle of page three, you set forth a dozen "deficiencies" of our Church that you deem disqualifies it from being legitimate. In the first place most of the claims you concoct are not even true, are not factual and are prejudicial opinion in an attempt to bolster your malicious charge. In the second place, even if everyone of them were true, they do not have the slightest legal status in concluding who is or who is not a church. Whoever dreamed up these twelve guidelines, was arbitrarily inventing a law that did not exist, and would have been unconstitutional even if the Congress had passed it.

The fact is neither Congress, nor the I.R.S., nor anyone else has the right to defy the Constitution of the United States and determine who or what group is, or is not, a religion or a church. If we say we are a religious organization, we are. If we claim we are a church, we are in fact a church, the opinion of any tinhorn bureaucrat notwithstanding.

Now let's get down to the crux of the matter. The power establishment that has conspiratorially usurped all the nerve centers of power in the U.S. (and the world) and of which the I.R.S. is a tool, wants to stamp out any pro-White movements, whether they are religious, or political, or educational, or take any other shape or form, despite the fact that the White Race built this country from a wilderness and is its mainstay of productivity, stability and law and order. This same establishment while making lofty pronouncements of being racially impartial, is in fact ferociously anti-White, pro Jewish and pro black. It has turned a country built by the White Man into tyranny in which the White Man is now a third class citizen, now working to subsidize the black freeloaders with the Jews controlling all the nerve centers of power and calling the shots.

We the White people of the U.S. are becoming more and more aware, more and more outraged at being suppressed, looted, deceived, taxed to death, regulated to death and being tyrannized by an alien tribe of Judea, a tribe that is alien to our culture and our civilization.

Therefore when we challenge a government agency that is riding

roughshod over our constitutional rights, it is not we who are breaking the law but the arrogant government bureaucrats who act as if they were a kangaroo court, making its own rules, being its own judge and jury, and handing down arbitrary and capricious decisions.

But we still have the Constitution and the Bill of Rights. If bureaucrats such as those in the I.R.S. choose to ignore it, to hound and harass decent citizens, then, I say, such bureaucrats are outside the law. They are in fact a gang of criminals parading under the cloak of government and we the people must view them as our implacable enemy.

Such is, in fact, the case today. The government, largely dominated by Jews, is determined on a course to mongrelize and destroy the White Race. We of the Church of the Creator recognize this fact and we recognize the face of the enemy. We the White people of this country are sick and tired of being harassed, pushed around and looted in order to subsidize all the scum of the world, including the freeloaders in this country, and especially the huge sums running into the billions that go to subsidize the bandit state of Israel.

Furthermore we resent being looted of our money by an international gang of criminal counterfeiters spuriously known as the Federal Reserve. Since I am enclosing a booklet listing the crimes of this Jewish owned outfit, I need not detail it further in this letter.

Now I could (and if it comes to a court case, I will) tear apart the 12 guidelines or "deficiencies" mentioned earlier, but I will decline to do so here since they have absolutely no standing in law in any event.

However, if such guidelines were valid for all religions and tax free organizations, how does it happen that the I.R.S. has given tax-exemption to such Jewish religious, fraternal and political organizations as the Hebrew religion itself, the basis of which is the Talmud, (full of hatred and prejudice against Christians); the American Jewish Congress; the American Jewish Committee; the Anti-Defamation League; the B'nai Brith, and hundreds of others, all of which are fanatically racial, exclusively Jewish and fiercely anti-White, and even profess their first loyalty to Israel, a foreign parasite on the backs of American taxpayers for whom they raise hundreds of millions of tax-exempt dollars? Not only that, but billions of American taxpayers' dollars are shipped to Israel each year in order for this bloodthirsty state to survive.

How does it happen that the black organizations such as the Black Muslims, N.A.A.C.P., all of which are also fiercely racial and hate Whitey with a passion, are also tax-exempt? Not only tax-exempt but actually subsidized with White taxpayers money through government chicanery?

How does it happen that the Federal Reserve, a private gang

of counterfeiters pays no taxes and has never even been audited?

Under the Fourteenth Amendment we are entitled to "equal protection" under the law, and we are damn well going to get "equal protection". If you are going to deny us tax-exemption you had better first take it away from the Black Muslims, the Hebrew synagogues and the thousands of other churches throughout the land. And above all, the privately owned Federal Reserve who has been mulcting the American people of billions for over 65 years. Remember we demand "equal protection".

I have a lot more grievances and material that need be aired. If the I.R.S. arrogantly chooses to ride roughshod over our constitutional rights, we will then take them to court. I am sure the attendant publicity will reflect more on the crimes of the I.R.S. and our alien government than it will on our so-called "deficiencies".

In any case, we will demand our constitutional rights. If the government denies us those rights, then it itself becomes the culprit, and we will deem them as nothing more than a gang of alien, power-hungry criminals. As such we will find ways and means to deal with them, come hell or high water.

Now I do not advocate violence, and the Church of the Creator does not advocate violence in the practice of its religious creed. It has emphasized this time and again. Its basic philosophy is the same as the Jews: let's take care of our people, and let the Jews and mud races shift for themselves. If the mud races wither on the vine in the competition, that is their problem.

Now I am not threatening anyone with physical violence. However, the White Race is not going to be pushed around, humiliated and pillaged and plundered forever. Its patience will only go so far and then it will snap, as did that of Dan White when he decided in righteous anger to take the law into his own hands and quickly dispatched that evil chabez-goi George Mascone, and his perverted homosexual sidekick, Harvey Milk. That single incident of direct action shook up millions of Jew-manipulated bureaucrats all over the country. They shook in their boots and some of these miserable cowards (who had been so arrogant) came to their next meeting in bullet-proof vests, shuddering with fear.

Now the White Race is not yet dead by a long shot. There are still 150 million of us in the U.S., 500 million in the world. Aroused and organized they are ten times more powerful than all the Jews, niggers and mud races combined. There is nothing the Jews fear more than an organized White Race. Pushed too far ten million Danny Whites will rise up and wreak vengeance on their tormentors.

The very thought of the day of retribution sends a shudder of fear through the heart of Judea, for they know better than anyone all the atrocities they have heaped on the White Race. They also

know this possibility is very real, as it happened very suddenly in Iran when the Moslems suddenly took control of their own destiny, and brought the Jewish lackeys to justice.

Again, I repeat, this is not a threat and I am not advocating such. As an observer of history and of my people, I am making an observation, a prediction. Anyone who still has his brains intact had better sit up and take notice.

Sincerely yours,
B. Klassen

Mr. Dave Wilber May 23, 1979
Sunset Hills, Missouri

Dear Mr. Wilber:

Thank you for your letter of May 15 and the literature about the Federal Reserve. In return we mailed to you 10 copies of our 16 page booklet on the Federal Reserve. As to your question inquiring whether we agree with Merrill Jenkins or not, you can best compare when you read our volatile booklet.

Frankly the Church of the Creator is not interested in discussing this issue merely from an academic viewpoint, because that is completely futile. The enemy knows what it is doing but the White Race does not seem to recognize the enemy.

We are therefore laying the groundwork for a comprehensive widespread movement to oust the enemy, and that movement is based on race, founded on the Eternal Laws of Nature. It is our purpose to arouse and organize the awesome might of the White Race and drive the Jews from all positions of power. That is the only way we can win. This business of fighting a hundred different issues — the U.N., the Supreme Court, the I.R.S., the F.R.B., etc. will get us nowhere. We must make a clean sweep and destroy the enemy, and win the total war.

That is what the Church of the Creator is all about. If you care to make a donation to our church, we would appreciate it.

May the CREATIVE FORCE be with you!

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Rev. Dr. B. Lloyd-Davies **June 2, 1979**
Lagos State, Nigeria

Dear Dr. Lloyd-Davies:

Thank you for your short letter of May 16. Assuming that you are White, I am somewhat intrigued as to what you are doing in Nigeria and why you should be interested in our racial creed. I assume that you are a missionary down there, but of course I could be wrong. Anyway doing missionary work with the black of Africa is pretty well contrary to all we stand for, hence my curiosity as to your interest. (By the way, I assume the letter was from you, since it was unsigned.)

I am enclosing a Question & Answer flyer that gives further information about our religion and might answer some of your questions about Creativity.

One thing I have been curious about is this: As the White Man is driven out of the cities and civilizations he has built in Africa, how and who runs, maintains and services the complicated technical apparatuses, such as the electrical power plants and distribution lines, telephone systems, sewer systems, water systems, cars, etc.? And in WHAT STATE of repair are these facilities?

Also any other cogent information about the state of affairs and the direction they are heading would be appreciated. Since you have read the book, I'm sure you have an idea as to what factors would be of interest to me.

I would appreciate hearing further from you. How did you happen to get my book in Nigeria?

May the CREATIVE FORCE be with you!

For a Whiter and Brighter World,
Creatively yours,
B. Klassen, P.M.

Mr. R. Schmidt **June 14, 1979**
Bellville, South Africa

Dear Mr. Schmidt:
